Subject: Alachua Renaming Project - Budget Numbers
Date: Monday, August 16, 2021 8:08:04 AM

Terrance:

Per our conversation last week, here are some rough, high-level budget numbers for you reference. As discussed, we are still just scratching the surface of what the design will be but this can be a foundation for budget discussions.

Design Fees (typical for a project with the scope provided) - \$25,000 - \$30,000

Project Costs (For Budget Estimating Only):

(3) Museum Wall Installations (First, Second, Third Floor – without a digital component) \$20,000 EA.
(1) Main First Floor Location (Wood wall where the lion is located) \$20,000
(1) Granite Wall (First Floor) \$10,000

Total Project Cost (Range) +/- \$90,000

Hope this helps. Please continue to copy Jose, Adam, and Moses on all correspondence as I am going to be traveling out of the office over the next several weeks.

Thank you,

Todd
