RE: Alachua County Civil Courthouse Pre-engineered Solar System

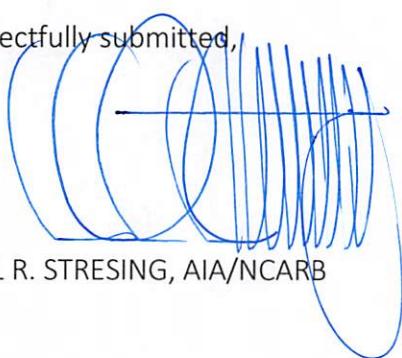

Mr. Wargo,

Pursuant to our recent conversation regarding the addition of a pre-engineered roof mounted 97 KW solar Photovoltaic Solar System to the Alachua County Civil Courthouse reroof projects permit and construction documents I have assessed the impact on the original scope of work. To accommodate the change in scope of work the additional service through construction will be Two Thousand five hundred dollars (\$2,500.00), which includes coordination with the Contractor, shop drawing review and processing, construction administration services, inspections and a 1-year post occupancy warranty inspection.

If you find this proposal to be acceptable please advise and we will begin to modify the project manual to get back to you and the Construction Manager. If you have any questions please don't hesitate to contact me.

Respectfully submitted,

PAUL R. STRESING, AIA/NCARB
