Agenda Item Summary

Agenda Date: 9/14/2021 Agenda Item No.: 12.

Agenda Item Name:
Special Assessment District (SAD) for NW 180th St: Imposition of Non-Ad Valorem Assessments for a Special Assessment District for NW 180th Street.

Presenter:
Tommy Crosby, 352-337-6205 Ramone Gavarrete 352-548-1214

Description:
Resolution to impose a Special Assessment District to pay for an alternative surface treatment on NW 180th Street, to be repaid through non-ad valorem assessments beginning Fiscal Year 2021-2022.

Recommended Action:
That the Board adopt the Resolution to establish the SAD to pay for an alternative surface treatment (chip seal) on NW 180th St.

Prior Board Motions:
On December 8, 2020, the Board directed staff to continue with the process for the establishment of the Special Assessment District for NW 180th Street by conducting a Property Owner Interest Poll.

On January 12, 2021, the Board authorized staff to advertise the first required Public Hearing for the establishment of a Special Assessment District and Notice of Intent to use the Uniform Method to impose a non-ad valorem assessment.

On February 23, 2021, the Board adopted Resolution 21-16 stating the Board's intent to use the Uniform Method of Collection of Non-Ad Valorem Assessments for roadway improvements to NW 180 th Street.

On July 13, 2021, the Board adopted Resolution 21-74 regarding the establishment of the Special Assessment District, describing the method of assessing the roadway improvement costs and inclusion of the assessment on the assessment roll, authorizing a final public hearing and directing the provision of notice thereof.

Fiscal Consideration:
The funding source for the roadway improvements ($35,236.16), is paid for out of the Gas Tax Fund (Fund 149) which will be reimbursed over a 10 year period from the collection of the non-ad valorem assessment.

Background:

NW 180th Street is a public right-of-way, dedicated to the public by the plat of Candlewood Estates, recorded in Plat Book H, Page 71 of the Public Records of Alachua County, Florida. It is an unpaved lime rock road maintained by the abutting property owners. It is approximately 1,000 feet in length and there are eight platted lots abutting NW 180th Street which would be benefited by paving the street. The County received a resident initiated Preliminary Special Assessment District Petition, signed by the requisite number of benefitted property owners, with the required application fee, requesting the County to initiate the process for the creation of a Special Assessment District for the purpose of improving the road with an alternative surface treatment (chip seal).

On December 8, 2020, the Board directed County staff to conduct a Property Owner Interest Poll (the Poll), as required by Chapter 37 of the Alachua County Code. Staff prepared the Poll describing the improvement, showing the area to be specially benefitted, containing the estimated improvement cost and the allocation of the cost to each benefitted property owner. Staff mailed the Poll to all benefitted property owners and received a signed response from 87.5% (7 out of 8) of the benefitted property owners. 85.7% (6 out of 7) of the responding property owners have voted in favor of establishment of the Special Assessment District, exceeding the response requirement and affirmative vote requirement contained in Alachua County Code Chapter 37.09.

On January 12, 2021, the Board authorized the advertisement of a Public Hearing to consider the establishment of a Special Assessment District to use an alternative surface treatment on NW 180th Street, and Notice of Intent to use the uniform method for collecting non-ad valorem assessments. The hearing and notice were advertised for 4 consecutive weeks preceding that hearing, as required by Florida Statute Section 197.3632 (3)(a).

On February 23, 2021, the Board adopted Resolution 21-16 stating the Board's intent to use the Uniform Method of Collection of Non-Ad Valorem Assessments for roadway improvements to NW 180th Street. The estimated cost for the improvements was $36,732.00. The resurfacing has been completed and the actual cost of the improvements is $35,236.16 amortized over 10 years, not including any financing and interest costs.

On May 20, 2021, the Alachua County Public Works Department completed the improvements by resurfacing the roadway with an alternative surface treatment (chip seal).

On July 13, 2021, the Board adopted Resolution 21-74 regarding the establishment of the Special Assessment District, describing the method of assessing the roadway improvement costs, inclusion of the assessment on the assessment roll, authorizing a final public hearing and directing the provision of notice thereof.

This final Public Hearing has been advertised by publication and by written notice mailed to all affected property owners, as required by Florida Statute Section 197.3632(4) and Alachua County Code Chapter 37.

It is not anticipated that this roadway will qualify for the County's Graded Road Improvement Program in the foreseeable future. If the County establishes the Special Assessment District and improves the roadway, the County will be responsible for maintaining the improved roadway.

RESOLUTION 2021-113

A RESOLUTION BY THE BOARD OF COUNTY COMMISSIONERS OF ALACHUA COUNTY, FLORIDA, ESTABLISHING AND IMPOSING A NON-AD VALOREM ASSESSMENT FOR ROADWAY IMPROVEMENTS TO NW 180TH STREET LOCATED IN THE UNINCORPORATED AREA OF ALACHUA COUNTY; DESCRIBING THE METHOD OF ASSESSING THE ROADWAY IMPROVEMENT COSTS AGAINST PROPERTY WITHIN THE SPECIAL ASSESSMENT DISTRICT; PROVIDING FOR INCLUSION OF THE ASSESSMENT ON THE ASSESSMENT ROLL; PROVIDING AN EFFECTIVE DATE.

WHEREAS, the Board of County Commissioners of Alachua County, Florida (hereinafter, the "Board"), finds that the roadway improvements to NW 180th Street within Alachua County, specifically identified and described in **Exhibit "A"**, are necessary for the health, safety, and welfare of the citizens of Alachua County, Florida; and

WHEREAS, the Alachua County Public Works Department has agreed to provide the roadway improvements within the district; and

WHEREAS, the properties to be benefitted by the roadway improvements have been specifically identified and described in **Exhibit "B"**; and

WHEREAS, pursuant to Section 197.3632(3)(a), Florida Statutes, and Alachua County Code Chapter 37, on February 23, 2021, the Board adopted Resolution 21-16 which gave Notice of the County's intent to impose a non-ad valorem assessment for roadway improvements to NW 180th Street within Alachua County, and to use the uniform method of collecting such assessments; and

WHEREAS, pursuant to Section 197.3632(4), Florida Statutes, and Alachua County Code Chapter 37, Alachua County has provided notice of the roadway improvements to the owners of assessed property within the special assessment district through published notice by newspaper publication (proof of publication attached hereto as **Exhibit "C-1"**)

and through notice by individual mailing (sample individual mailing attached hereto as **Exhibit "C-2"**); and

WHEREAS, the Board conducted Public Hearings on February 23, 2021 and September 14, 2021 and comments and objections of all interested persons have been heard and considered by the Board as required by law.

NOW THEREFORE, BE IT RESOLVED BY THE BOARD OF COUNTY COMMISSIONERS OF ALACHUA COUNTY, FLORIDA:

1. That it finds, determines and declares that the recitals in the preamble are true and correct, and hereby incorporates them by reference.

2. This Resolution is adopted pursuant to the County's Home Rule Authority as a Charter County, Code Chapter 37, Alachua County Code and Section 197.3632, Florida Statutes, and other applicable provisions of law.

3. It is hereby ascertained, determined, and declared that each parcel of assessed property within the special assessment district will be specially benefitted by the roadway improvements by Alachua County Public Works in an amount not less than the amount of the roadway improvements assessment for such parcel. The roadway improvements will enhance the assessed property and may result in a potential increase in the value to the property.

4. Apportioning the roadway improvement costs among the property within the special assessment district according to the ratio of the average daily vehicular trips of each property over the total average daily vehicular trips of the district is fair and reasonable and proportional to the special benefit received. The assessment is to be shared among the 8 parcels within the district.

5. There is hereby levied and imposed a non-ad valorem assessment against each of the properties listed in **Exhibit "B"** in this special assessment district in the amount of $4,404.52 per each property. The assessment may be paid over a 10 year period, in the amount of $440.45 per year, per each property. A copy of the roadway improvements cost summary with a methodology for determining the assessment cost is attached as **Exhibit "D"**. Any difference in assessment revenues and actual construction costs shall be funded by Fuel Tax Revenues.

6. The roadway improvement assessment shall continue as a lien upon the assessed property that is equal in rank and dignity with the liens of all State, County, District or Municipal taxes and other non-ad valorem assessments. Except as otherwise provided by law, such liens shall be superior in dignity to all other liens, titles and claims, until paid. Collection of the assessment shall commence with the Property Tax Notice mailed out during the Fiscal Year 2021-2022.

7. The non-ad valorem assessment imposed by this resolution shall be included in the assessment roll that will be adopted by the County and certified by the County

Commission Chair prior to September 15, 2021. The County Manager or her designee is authorized and directed to ensure that this assessment is so included on the assessment roll of the Tax Notice for 2021 and all applicable subsequent notices for the duration of the roadway improvement assessment. The roadway improvement assessments shall be collected on the same bill as ad valorem taxes.

8. This resolution shall take effect immediately upon its adoption.

DULY ADOPTED in regular session, this ___ day of September, A.D., 2021.

NOTICE OF PUBLIC HEARING

The Board of County Commissioners of Alachua County, Florida, will hold a public hearing on the 14th day of September 2021 at 5:01 P.M., or as soon thereafter as the matter may be heard, at the County Administration Building, 12 SE 1st Street, Gainesville, FL, Second Floor, Rm. 209, Jack Durance Board Room, to consider the following item:

The Board of County Commissioners of Alachua County, Florida, hereby provides notice, pursuant to Section 197.3632(4), Florida Statutes, of a public hearing to adopt a non-ad valorem assessment to be levied for the application of an alternative surface treatment (chip seal) for NW 180th Street.

The boundaries of the real property to be included in the Special Assessment District are:

Lots 1 through 8, inclusive, of Candlewood Estates, according to the plat thereof recorded in Plat Book H, Page 71, of the Public Records of Alachua County, Florida.

The boundaries of the proposed road improvements are:

That part of NW 180th Street from State Road 26 (W. Newberry Road) running northerly approximately 1,000 feet to its northern terminus; lying and being in Section 32, Township 09 South, Range 17 East, Alachua County Florida.

The cost for the improvements is $35,236.16. The total amount to be levied against each parcel is $4,404.52. This assessment may be levied over a ten year period in the amount of $440.45 per year. This assessment will be collected by the Alachua County Tax Collector as a non-ad valorem assessment.

A copy of the proposed resolution and map showing the boundaries of the real property subject to the levy will be available at the Office of County Commissioners, Second Floor, Alachua County Administration Building, 12 South East 1st Street, Gainesville, Florida, 32601.

All affected property owners have the right to appear at the public hearing and the right to file written objections within 20 days of the publication of this notice.

The public may attend virtually through Cox Channel 12, Facebook, and the County's Video on Demand website OR in person at 12 SE 1st Street, Gainesville, FL, Second Floor, Jack Durance Board Room. The public may also attend the hybrid public hearing through audio only by calling 301-715-8592, and when prompted, use code 670 965 3024. The public will be permitted to provide public comments in this format to the Board through telephone, through email (bocc@alachuacounty.us), OR in person.

Either format: Public comment will be taken on this item prior to final action by the Commission. For public who attend virtually, once public comment is opened for this item, please call 929-205-6099 (enter meeting code 273 174 8038). Callers will be put in a queue, and prompted when it is their turn to speak. TO AVOID FEEDBACK, SPEAKERS MUST TURN DOWN THEIR MEETING SOUND WHEN ADDRESSING THE COMMISSION. If applicable, public who attend in person will also be provided an opportunity to provide public comment. All commenters should state their name. The public is encouraged to submit any written or photographic documents prior to the public hearing to bocc@alachuacounty.us.

All persons are advised that, if they decide to appeal any decision made at this public hearing, they will need a record of the proceeding and, for such purpose, they may need to ensure that a verbatim record of the proceedings is made, which record includes the testimony and evidence upon which the appeal is to be based. All interested persons are invited to attend and be heard. Anyone with a disability who needs an accommodation, please call 904 462-0055 or TDD/TTY users please call 711 (Florida Relay System).

Ken Cornell, Chair
Board of County Commissioners

Exhibit "C-2"

(SAMPLE NOTICE BY INDIVIDUAL MAILING)

August __, 2021

Via U.S. Mail Certified, Return Receipt

Subject: NW 180th Street
Proposed Special Assessment District
Final Public Hearing

Dear Property Owner,

The Alachua County Board of County Commissioners will hold a public hearing Tuesday, September 14, 2021 at 5:01 p.m., at the County Administration Building, Jack Durrance Auditorium Room 209, 12 S.E. 1st Street, Gainesville, Florida to consider adoption of a resolution establishing and imposing a non-ad valorem assessment for roadway improvements to NW 180th Street, describing the method of assessing the roadway improvement costs, providing for inclusion of the assessment on the assessment roll and providing an effective date.

This action was preliminarily approved by the BOCC on February 23rd, 2021. At that time, 87.5% of the benefitted properties responded to the Property Owner Interest Poll, and 85.7% of the responding property owners indicated that they are in support of the creation of a Special Assessment District. All owners had the opportunity to provide public comment to the proposal at that meeting.

This proposal, if approved by the Board of County Commissioners, would be funded through a non-ad valorem assessment against each property that has direct frontage on this roadway. The legal description of the boundaries of the real property subject to the levy are Lots 1 through 8, inclusive, of Candlewood Estates, according to the Plat thereof recorded in Plat Book H, Page 71, of the Public Records of Alachua County, Florida.

There are a total of 8 property parcels that are affected by the application of the chip seal treatment on this roadway. The cost to chip seal the whole road is $35,236.16, which is less than the original estimate. The assessment will cost each of the 8 parcel owners approximately $440.45 per year for a 10 year period. This amount will be added to your property tax bill from the Property Appraiser as a Special Assessment, or you can pay your total amount ($4,404.52) in one payment.

The purpose of the assessment is the application of an alternative surface treatment (chip seal) to NW 180th Street.

The total amount to be levied against each parcel is $4,404.52. This assessment may be levied over a ten year period in the amount of $440.45 per year.

The roadway improvement costs are apportioned among the parcels according to the average daily vehicle trips of each parcel over the total average daily vehicular trips. There are a total of 8 parcels within Candlewood, each being a single unit for measurement.

The total revenue the County will collect by the assessment is $35,236.16.

Failure to pay the assessment will cause a tax certificate to be issued against your property, which may result in a loss of title.

All affected property owners have a right to appear at the hearing and to file written objections with the Board of County Commissioners within 20 days of this notice.

If you have any questions, please contact me at: (352) 548-1225 or by email at cpeeples@alachuacounty.us

Sincerely,
C. Perry Peeples,
Real Property Coordinator

Subject: NW 180th Street
Proposed Special Assessment District
Final Public Hearing

Dear Property Owner,

The Alachua County Board of County Commissioners will hold a public hearing Tuesday, September 14, 2021 at 5:01 p.m., at the County Administration Building, Jack Durrance Auditorium Room 209, 12 S.E. 1st Street, Gainesville, Florida to consider adoption of a resolution establishing and imposing a non-ad valorem assessment for roadway improvements to NW 180th Street, describing the method of assessing the roadway improvement costs, providing for inclusion of the assessment on the assessment roll and providing an effective date.

This action was preliminarily approved by the BOCC on February 23rd, 2021. At that time, 87.5% of the benefitted properties responded to the Property Owner Interest Poll, and 85.7% of the responding property owners indicated that they are in support of the creation of a Special Assessment District. All owners had the opportunity to provide public comment to the proposal at that meeting.

This proposal, if approved by the Board of County Commissioners, would be funded through a non-ad valorem assessment against each property that has direct frontage on this roadway. The legal description of the boundaries of the real property subject to the levy are Lots 1 through 8, inclusive, of Candlewood Estates, according to the Plat thereof recorded in Plat Book H, Page 71, of the Public Records of Alachua County, Florida.

There are a total of 8 property parcels that are affected by the application of the chip seal treatment on this roadway. The cost to chip seal the whole road is $35,236.16, which is less than the original estimate. The assessment will cost each of the 8 parcel owners approximately $440.45 per year for a 10 year period. This amount will be added to your property tax bill from the Property Appraiser as a Special Assessment, or you can pay your total amount ($4,404.52) in one payment.

The purpose of the assessment is the application of an alternative surface treatment (chip seal) to NW 180th Street.

The total amount to be levied against each parcel is $4,404.52. This assessment may be levied over a ten year period in the amount of $440.45 per year.

The roadway improvement costs are apportioned among the parcels according to the average daily vehicle trips of each parcel over the total average daily vehicular trips. There are a total of 8 parcels within Candlewood, each being a single unit for measurement.

The total revenue the County will collect by the assessment is $35,236.16.

Failure to pay the assessment will cause a tax certificate to be issued against your property, which may result in a loss of title.

All affected property owners have a right to appear at the hearing and to file written objections with the Board of County Commissioners within 20 days of this notice.

If you have any questions, please contact me at: (352) 548-1225 or by email at cpeeples@alachuacounty.us

Sincerely,
C. Perry Peeples

NOTICE OF INTENT TO USE THE UNIFORM METHOD OF COLLECTING NON-AD VALOREM ASSESSMENTS

The Board of County Commissioners of Alachua County, Florida, hereby provides notice pursuant to Section 197.3632(3)(a), Florida Statutes, and Chapter 37, Alachua County Code of Ordinances, of its intent to use the uniform method of collecting non-ad valorem assessments to be levied for the application of an alternative surface treatment (chip seal) for NW 180th Street.

The boundaries of the real property to be included in the Special Assessment District are: Lots 1 through 8, inclusive, of Candlewood Estates, according to the plat thereof recorded in Plat Book H, Page 71, of the Public Records of Alachua County, Florida.

The boundaries of the proposed road improvements are:
That part of NW 180th Street from State Road 26 (W. Newberry Road) running northerly approximately 1,000 feet to its northern terminus; lying and being in Section 32, Township 09 South, Range 18 East, in Alachua County Florida.

The estimated cost for the proposed improvements is $36,732.00, or approximately $459.15 per year, for each of the 8 benefitted lots, for a 10 year period.

Dated this 23 day of February, A.D., 2021.

NOTICE OF PUBLIC HEARING

The Board of County Commissioners of Alachua County, Florida, will hold a public hearing on the 14th day of September 2021 at 5:01 P.M., or as soon thereafter as the matter may be heard, at the County Administration Building, 12 SE 1st Street, Gainesville, FL, Second Floor, Rm. 209, Jack Durance Board Room, to consider the following item:

The Board of County Commissioners of Alachua County, Florida, hereby provides notice, pursuant to Section 197.3632(4), Florida Statutes, of a public hearing to adopt a non-ad valorem assessment to be levied for the application of an alternative surface treatment (chip seal) for NW 180th Street.

The boundaries of the real property to be included in the Special Assessment District are:

Lots 1 through 8, inclusive, of Candlewood Estates, according to the plat thereof recorded in Plat Book H, Page 71, of the Public Records of Alachua County, Florida.

The boundaries of the proposed road improvements are:

That part of NW 180th Street from State Road 26 (W. Newberry Road) running northerly approximately 1,000 feet to its northern terminus; lying and being in Section 32, Township 09 South, Range 17 East, Alachua County Florida.

The cost for the improvements is $35,236.16. The total amount to be levied against each parcel is $4,404.52. This assessment may be levied over a ten year period in the amount of $440.45 per year. This assessment will be collected by the Alachua County Tax Collector as a non-ad valorem assessment.

A copy of the proposed resolution and map showing the boundaries of the real property subject to the levy will be available at the Office of County Commissioners, Second Floor, Alachua County Administration Building, 12 South East 1st Street, Gainesville, Florida, 32601.

All affected property owners have the right to appear at the public hearing and the right to file written objections within 20 days of the publication of this notice.

The public may attend virtually through Cox Channel 12, Facebook, and the County's Video on Demand website OR in person at 12 SE 1st Street, Gainesville, FL, Second Floor, Jack Durance Board Room. The public may also attend the hybrid public hearing through audio only by calling 301-715-8592, and when prompted, use code 670 965 3024. The public will be permitted to provide public comments in this format to the Board through telephone, through email (bocc@alachuacounty.us), OR in person.

Either format: Public comment will be taken on this item prior to final action by the Commission. For public who attend virtually, once public comment is opened for this item, please call 929-205-6099 (enter meeting code 273 174 8038). Callers will be put in a queue, and prompted when it is their turn to speak. TO AVOID FEEDBACK, SPEAKERS MUST TURN DOWN THEIR MEETING SOUND WHEN ADDRESSING THE COMMISSION. If applicable, public who attend in person will also be provided an opportunity to provide public comment. All commenters should state their name. The public is encouraged to submit any written or photographic documents prior to the public hearing to bocc@alachuacounty.us.

All persons are advised that, if they decide to appeal any decision made at this public hearing, they will need a record of the proceeding and, for such purpose, they may need to ensure that a verbatim record of the proceedings is made, which record includes the testimony and evidence upon which the appeal is to be based. All interested persons are invited to attend and be heard. Anyone with a disability who needs an accommodation, please call 904 462-0055 or TDD/TTY users please call 711 (Florida Relay System).

Agenda Item Summary

Agenda Date: 9/14/2021 Agenda Item No.: 13.

Agenda Item Name:
Stormwater Assessment FY22 Final Rate Resolution Adoption Hearing

Presenter:
Tommy Crosby, 352-337-6205 Stephen Hofstetter 352-264-6811

Description:
A public hearing to consider adoption of the FY22 Stormwater Assessment Final Rate Resolution.

Recommended Action:
Adopt the FY22 Stormwater Assessment Final Rate Resolution at a $40.00 per Equivalent Residential Unit rate.

Prior Board Motions:
Adopted the FY22 Stormwater Assessment Preliminary Rate Resolution at a $40.00 per Equivalent Residential Unit rate on July 13, 2021.

Fiscal Consideration:
The proposed Stormwater assessment will continue to provide a dedicated funding source to comply with the County's Stormwater management obligations. This assessment reduces the County's dependency upon the Gas Tax and Ad Valorem taxes to pay for Stormwater management. The proposed allocation is to continue the 50/50 allocation between Public Works drainage maintenance and Environmental Protection water quality improvement programs. The proposed assessment continues the Financial Hardship exception provision that will require the County's General Fund to make up an estimated loss of $6,000 in revenues for qualifying property owners.

Stormwater Management Fund:
EPD 146.55.5511.325.2000
PW 146.79.7920.325.2000
The proposed Water Quality Projects will be funded through the assessment and the carry forward of any unspent FY21 funds.

Background:
Effective Stormwater management is a critical component for increasing local resiliency to nuisance flooding, extreme weather, and climate change.

Alachua County proposed to prepare an FY22 Stormwater assessment roll for certification to the Tax Collector to allow the collection of a non-ad valorem assessment for certain properties located in unincorporated Alachua County. In accordance with State law, on July 13, 2021, the Board adopted

the Preliminary Rate Resolution for the proposed Stormwater assessment at the $40.00 per Equivalent Residential Unit (ERU) rate. The Board authorized the published and mailed notices to property owners in advance of the September 14, 2021 final rate resolution adoption public hearing.

On August 16, 2021, the Alachua County Property Appraiser mailed out TRIM notices with information inserts regarding the proposed Stormwater assessment to all applicable property owners. These notices have been deemed to be “First Class Notice to affected property owners” in accordance with State law. On August 17, 2021, a notice of the proposed assessment and the September 14th rate adoption hearing was published in the Gainesville Sun.

Upon Board adoption of the FY22 Final Rate Resolution, staff will begin processing exemption and adjustment requests to update the Stormwater Assessment Roll for certification to the Tax Collector by September 15, 2021 in accordance with state law.

RESOLUTION NO. 2021-114

A RESOLUTION OF THE BOARD OF COUNTY COMMISIONERS OF ALACHUA COUNTY, FLORIDA, RELATING TO THE PROVISION OF STORMWATER CAPITAL IMPROVEMENTS AND INFRASTRUCTURE AND MANAGEMENT SERVICES WITHIN THE UNINCORPORATED PORTION OF ALACHUA COUNTY; ESTABLISHING AUTHORITY FOR IMPOSITION OF STORMWATER ASSESSMENT AND FEES; PROVIDING A PURPOSE AND DEFINITIONS; CONFIRMING AND AMENDING THE INITIAL STORMWATER RATE RESOLUTION; PROVIDING CERTAIN FINDINGS; IMPOSING STORMWATER ASSESSMENTS AND FEES AGAINST ASSESSED PROPERTY LOCATED IN UNINCORPORATED ALACHUA COUNTY FOR THE FISCAL YEAR BEGINNING OCTOBER 1, 2021; PROVIDING FOR THE ADOPTION AND CERTIFICATION OF THE STORMWATER ROLL; PROVIDING FOR HARDSHIP EXEMPTIONS; PROVIDING FOR CHARITABLE AND RELIGIOUS EXEMPTION; PROVIDING FOR VETERANS' EXEMPTION; PROVIDING FOR BURIAL GROUNDS EXEMPTION; PROVIDING FOR CORRECTIONS OF ERRORS AND OMISSIONS; ESTABLISHING EFFECT OF ADOPTION OF RESOLUTION; PROVIDING FOR SEVERABILITY; AND PROVIDING AN EFFECTIVE DATE.

WHEREAS, the Board of County Commissioners of Alachua County has enacted Ordinance 06-13, which authorizes the imposition of Stormwater Assessments and Fees against real property specifically benefitted by the County's Stormwater Management Services; and

WHEREAS, the continued imposition of Stormwater Assessments and Fees is an equitable and efficient method of allocating and apportioning the cost of the County's Stormwater Management Services; and

WHEREAS, stormwater runoff from impervious areas created by land development can

cause pollution of ground waters and surface waters; and

WHEREAS, on July 13, 2021, the BOARD OF COUNTY COMMISSIONERS of Alachua County adopted Resolution 21-73, the Preliminary Stormwater Assessment Resolution (the "Preliminary Rate Resolution"), identifying the unincorporated area of the County as the geographic area (the "Stormwater Service Area") to be specifically benefited by the County's Stormwater Management Services, describing the method of assessing the cost of the County's Stormwater Management Services (the "Stormwater Service Cost") against benefitted property located with the Stormwater Service Area, directing the preparation of the updated Stormwater Rolls, and directing the provision of the notices required by Sections 44.403 and 44.404 of the Ordinance; and

WHEREAS, on August 17, 2021, the Gainesville Sun published a Notice of Public Hearing regarding a public hearing to impose and provide for collection of non-ad valorem stormwater assessments and fees to be held on September 14, 2021 at 5:01pm, or as soon thereafter as the matter may be heard, in Room 209, 2nd Floor of the Alachua County Administration Building, 12 S.E. 1st Street, Gainesville, Florida (Appendix A: Proof of Publication).

WHEREAS, on August 16, 2021, the Alachua County Property Appraiser caused the mailing of the annual Truth in Millage (TRIM) with inserted notices in accordance with Ordinance 06-13 and the Preliminary Stormwater Assessment Resolution by First Class mail to each affected owner, at the addresses then shown on the real property assessment tax roll database maintained by the Alachua County Property Appraiser for the purpose of the levy and collection of ad valorem taxes (Appendix B: Affidavit Regarding Notice Mailed to Property Owners).

WHEREAS, the BOARD OF COUNTY COMMISSIONERS of Alachua County has determined that the adoption of this Annual Resolution for Stormwater Assessment and Fees will promote the restoration of water resources and the health, safety and welfare interest of the

citizens of Alachua County.

WHEREAS, the Stormwater Rolls have heretofore been updated and filed with the office of the County Clerk, as provided in Section 44.402 of the Ordinance; and

WHEREAS, a public hearing has been duly held on September 14, 2021 and comments and objections of all interested persons have been heard and considered as required by Section 44.405 of the Ordinance.

NOW, THEREFORE, BE IT RESOLVED BY THE BOARD OF COUNTY COMMISIONERS OF ALACHUA COUNTY, FLORIDA:

Section 1. AUTHORITY. This resolution is adopted pursuant to the provisions of the Ordinance 06-13 (codified in Chapter 44, Alachua County Code), Resolution 17-45, the Initial Assessment Resolution, Resolution 17-64, the Final Assessment Resolution, Resolution 21-73 (the "Preliminary Assessment Resolution"), Article VIII, sections 125.0 and 125.66, Florida Statutes, and other applicable provisions of law.

Section 2. PURPOSE AND DEFINITIONS. This resolution constitutes the Annual Stormwater Resolution as defined in Ordinance 06-13. As used in this resolution, all terms shall have the meanings defined in the Preliminary Rate Resolution. All terms not defined therein shall be defined in Alachua County Ordinance 06-13 and, if not there, by their common meaning, unless the context hereof otherwise requires.

Section 3. CONFIRMATION OF THE INITIAL RATE RESOLUTION. The Preliminary Assessment Resolution, as amended herein, is hereby ratified and confirmed.

Section 4. FINDINGS.

(A) The legislative determinations ascertained and declared in Ordinance 06-13 and the Preliminary Rate Resolution are hereby ratified and confirmed.

(B) Upon the adoption of this Annual Stormwater Resolution, that certain report

entitled "Alachua County Stormwater Funding Strategies Report," dated as of November 2016 and prepared by Government Services Group, Inc., is hereby adopted and incorporated herein by reference, including the assumptions, conclusions and findings in such report as to the determination of the Stormwater Assessments and Stormwater Fees.

Section 5. STORMWATER ASSESSMENTS AND STORMWATER FEES.

(A) There is hereby levied and imposed for the period of October 1, 2021 through September 30, 2022 a non-ad valorem assessment against all non-Government Property and a Stormwater Fee against all Government Property that is Benefited Property within the Stormwater Service Area.

(B) The Tax Parcels of Benefitted Property described in the Stormwater Rolls are hereby found to be benefited by the County's provision of Stormwater Management Services in an amount not less than the Stormwater Service Assessment or Stormwater Service Fee set forth in the applicable Stormwater Roll. Adoption of this Annual Stormwater Rate Resolution constitutes a legislative determination that all parcels charged derive a benefit from the Stormwater Management Services to be provided.

(C) Adoption of this Annual Stormwater Rate Resolution also constitutes a legislative determination that the Stormwater Service Assessments and Stormwater Service Fees are fairly and reasonably apportioned among the Benefitted Properties that receive the benefit from the Stormwater Management Services that is consistent with the legislative declarations, determinations and findings set forth in the Ordinance, the Initial Stormwater Rate Resolution, the Final Stormwater Rate Resolution, and the Preliminary Stormwater Rate Resolution.

(D) The method for computing the Stormwater Service Assessments and Stormwater Service Fees and the assignment of ERUs described in the Preliminary Stormwater Rate Resolution is hereby approved.

(E) For the Fiscal Year beginning October 1, 2021, the estimated Stormwater Service Cost, excluding collection costs, is $1,889,715. The Stormwater Service Assessments and Stormwater Service Fees to be charged to all Benefitted Properties pursuant to the methodology set forth in the Preliminary Stormwater Rate Resolution will be computed for each Tax Parcel of Benefitted Property located within the Stormwater Service Area by multiplying the number of ERUs attributable thereto by the rate of $40.00 per ERU.

(F) The above rate per ERU is hereby approved. Stormwater Service Assessments and Stormwater Service Fees for the provision of Stormwater Management Services in the amounts set forth in the Stormwater Rolls, as herein approved, are hereby levied and imposed on all Tax Parcels described in the Stormwater Rolls for the Fiscal Year beginning October 1, 2021.

(G) Pursuant to the Uniform Assessment Collection Act as provided in Ordinance 06-13, the Stormwater Assessment shall constitute a lien upon non-Government Property that is Benefited Property within the Stormwater Service Area so assessed equal in rank and dignity with the liens of all state, county, district or municipal taxes and other non-ad valorem assessments. Except as otherwise provided by law, such lien shall be superior in dignity to all other liens, titles and claims, until paid.

(H) Stormwater Fees shall be collected from all Government Property in the manner provided in Ordinance 06-13.

Section 6. ADOPTION AND CERTIFICATION OF STORMWATER ROLL. The Board hereby adopts the Stormwater Roll for the County's fiscal year 2021-2022, and authorizes staff to present the Stormwater Roll to the Chair for certification to the Tax Collector, for collection (Appendix C: Certificate to Non-Ad Valorem Assessment Rolls). A copy of the Stormwater Roll is currently on file and shall be maintained on file in the office of the Environmental Protection Department/Stormwater Assessment Coordinator (408 West University

Avenue, Suite 106, Gainesville, Florida 32601) and open to public inspection and copying.

Section 7. HARDSHIP EXEMPTION. It is hereby ascertained, determined and declared that it is in the best interest of the citizens of the County to assist owners of residential property that meet the criteria established in Section 37.17.1, Alachua County Code, with the financial burden created by the imposition of a Stormwater Service Assessment. Accordingly, all qualified owners who meet the criteria for their residential property pursuant to Section 37.17.1, Alachua County Code, shall have the Stormwater Service Assessment levied against said residential parcel paid by the County from other legally available funds, other than those derived from the Stormwater Service Assessment or Stormwater Fees.

Section 8. CHARITABLE AND RELIGIOUS EXEMPTION. It is hereby ascertained, determined and declared that it is in the best interest of the citizens of the County to assist charitable and religious nonprofit organizations who own and use properties in the Stormwater Service Area with the financial burden created by the imposition of a Stormwater Service Assessment. Accordingly, all qualified owners who receive a total property tax exemption for charitable and religious nonprofit properties with institutional uses pursuant to Section 196.196(1)-(4), Florida Statutes, shall have the Stormwater Service Assessment levied against said properties paid by the County from other legally available funds, other than those derived from the Stormwater Service Assessment or Stormwater Fees.

Section 10. VETERANS' EXEMPTION. It is hereby ascertained, determined and declared that it is in the best interest of the citizens of the County to assist totally and permanently disabled veterans and their surviving spouses who are the owners of homesteaded Single Family Parcels in the Stormwater Service Area with the financial burden created by the imposition of a Stormwater Service Assessment. Accordingly, all qualified owners who receive a total property tax exemption for their Single Family Parcels pursuant to either Sections 196.081 or

196.091, Florida Statutes, shall have the Stormwater Service Assessment levied against said properties paid by the County from other legally available funds, other than those derived from the Stormwater Service Assessment or Stormwater Fees.

Section 11. BURIAL GROUNDS EXEMPTION. It is hereby ascertained, determined and declared that it is in the best interest of the citizens of the County to assist organizations operating non-profit burial grounds in the Stormwater Service Area with the financial burden created by the imposition of a Stormwater Service Assessment. Accordingly, all qualified owners who receive a total property tax exemption for their parcels pursuant to Section 196.011 (3), Florida Statutes, shall have the Stormwater Service Assessment levied against said parcels paid by the County from other legally available funds, other than those derived from the Stormwater Service Assessment or Stormwater Fees.

Section 12. CORRECTIONS OF ERRORS AND OMISSIONS.

(A) The Stormwater Assessment Coordinator shall have authority to correct any errors or omissions made in applying the provisions of Article III hereof to a parcel, in accordance with Ordinance 06-13.

(B) Parcel owners or their authorized agents may file petitions for correction of errors and omissions to the Stormwater Assessment Coordinator. Petitions shall be in writing and set forth, in detail, the grounds upon which adjustment is sought. Filing a petition shall not extend the time for payment of any Stormwater Assessment or Stormwater Fee or affect the amount of any discount for early payment. If the number of ERUs is adjusted for any Parcel, the Stormwater Assessment or Stormwater Fee shall be corrected in accordance with Ordinance 06-13. The petitioner may be required, at petitioner's own cost, to provide supplemental information to the Stormwater Assessment Coordinator including, but not limited to, survey data approved by a professional land surveyor and/or engineering reports approved by a professional

engineer. Failure to provide such information may result in denial of the petition.

Section 13. EFFECT OF ADOPTION OF RESOLUTION. The adoption of this Final Assessment Resolution shall be the final adjudication of the issues presented herein (including, but not limited to, the method of apportionment, the rate of assessment and fee, the Stormwater Roll, and the levy of the Stormwater Assessment and Fees), unless proper steps shall be initiated in a court of competent jurisdiction to secure relief within 20 calendar days of this Annual Assessment Resolution.

Section 14. SEVERABILITY. The provisions of this Annual Stormwater Resolution are severable; and if any section, subsection, sentence, clause or provision is held invalid by any court of competent jurisdiction, the remaining provisions of this Final Stormwater Resolution shall not be affected thereby.

Section 15. EFFECTIVE DATE. This resolution shall take effect immediately upon adoption

NOTICE OF PUBLIC HEARING TO IMPOSE AND PROVIDE FOR COLLECTION OF NON-AD VALOREM STORMWATER ASSESSMENTS AND FEES

Notice is hereby given that the Board of County Commissioners of Alachua County, Florida, will conduct a public hearing to consider imposing charges for stormwater management services for properties in the **unincorporated areas of the County, as shown above.**

Stormwater Assessments for non-governmental properties and Stormwater Fees for governmental properties are proposed to pay for the County's Stormwater Services. These proposed assessments and fees are based upon the estimated amount of stormwater runoff generated by impervious areas on the property. Impervious areas include the ground level building footprints, rooftops, garages, patios, driveways, and similar areas that shed rainfall.

Alachua County has determined that the median single-family residence in the unincorporated County has a total impervious area of 4,011 square feet based upon a building footprint area of 2,235 square feet. The 4,011 square feet impervious area is defined as the value of "Equivalent Residential Unit" or "ERU" value. Generally, the number of ERUs were calculated individually for each parcel of property by dividing the total impervious area by 4,011 square feet. For non-governmental properties, the proposed annual Stormwater Assessment rate for the upcoming Fiscal Year will be $40.00 for each ERU. For governmental properties, the proposed annual Stormwater Fee rate for the upcoming Fiscal Year will be $40.00 for each ERU. Agricultural buildings and structures are not included in the calculations of impervious areas subject to the proposed stormwater assessment, in accordance with Section 163.3162(3)(b). Florida Statutes.

On September 14, 2021, the Board will hold a public hearing at 5:01 p.m. or as soon thereafter as it may be heard in Room 209, 2nd Floor of the Alachua County Administration Building, 12 S.E. 1st Street, Gainesville, Florida.

At the hearing, the Board will receive comments on the proposed Stormwater Assessments for non-governmental properties (including their collection on the ad valorem tax bill) and the proposed Stormwater Fees for governmental properties (including their collection by first class mail invoice).

You are invited to attend and participate in the hearing. You may also file written objections with the Board within the twenty (20) days of the date of this notice. If accommodations for persons with disabilities are needed, please contact the Alachua County Equal Opportunity Office at 352-374-5275 at least 2 business days prior to the event, TDD users, please call 711 (Florida Relay Service).

All affected property owners have a right to appear at the hearing and to file written objections with the Board. All written objections to the non-ad valorem assessments and fees must be filed with the Board within twenty (20) days of publication of this notice. Please include your name, parcel number, and the reason you object to the assessment on all written objections.

Address all written objections to: Alachua County Board of County Commissioners, Attn: Stormwater Assessment, 12 S.E. 1st Street, Gainesville, FL 32601.

Any person wishing to appeal any decision of the Board with respect to any matter considered will need a record of the proceedings and may wish to ensure that a verbatim record of the proceedings is made.

A more specific description of the methodology used to calculate the proposed stormwater assessments and fees is set forth in the Initial Stormwater Resolution, the Final Assessment Resolution and the Preliminary Rate Resolution. Copies of the Initial Stormwater Resolution, the Final Assessment Resolution, the Preliminary Rate Resolution, the Preliminary Stormwater Roll, and the County's Stormwater Ordinance are available for inspection at the Alachua County Environmental Protection Department, 408 W. University Avenue, Suite 106, Gainesville, Florida, 32601.

The Stormwater Services Assessments for non-governmental properties will be collected by the Alachua County Tax Collector and failure to pay the Stormwater Services Assessment will cause a tax certificate to be issued against the assessed property which may result in a loss of title to your property.

The Stormwater Service Fees for governmental properties will be collected by first class mail invoice.

General Information: If you have any questions, please contact the Environmental Protection Department at (352) 264-6850 or email stormwater@alachuacounty.us.

GF-25685550

APPENDIX B

AFFIDAVIT OF MAILING

BEFORE US, the undersigned authorities, personally appeared Michele Lieberman, who, after being duly sworn, depose and say:

1. Michele Lieberman, as County Manager for Alachua County, Florida (the "County"), pursuant to Ordinance No. 06-13 (the "Ordinance"), timely directed the preparation of the Assessment Roll and the preparation, mailing, and publication of notices in accordance with the Ordinance and in conformance with the Preliminary Stormwater Assessment Resolution adopted by the Board of County Commissioners on July 13, 2021 (the "Preliminary Rate Resolution").

2. In accordance with the Ordinance, Section 44.404c, the Stormwater Assessment Coordinator timely provided all necessary information for notification of the Stormwater Services Assessment to the Property Appraiser of Alachua County to be included as part of the notice of proposed property taxes under section 200.069, Florida Statutes, the truth-in-millage notification. On August 16, 2021, the Alachua County Property Appraiser caused to be mailed, by first class mail, the stormwater services assessment notices as part of the TRIM notices to each affected property owner at the addresses then shown on the real property assessment tax roll database maintained by the Alachua County Property Appraiser. The information provided to the Property Appraiser to be included on the truth-in-millage notification included the following: the purpose of the assessment; the total amount proposed to be levied against each parcel; the unit of measurement to be applied against each parcel to determine the assessment; the number of such units contained within each parcel; the total revenue the County expects to collect by the assessment; a statement that failure to pay the assessment will cause a tax certificate to be issued against the property which may result in a loss of title; a statement that all affected property owners have a right to appear at the hearing and to file written objections with the local governing board within 20 days of the notice; and the date, time, and place of the hearing.

FURTHER AFFIANTS SAYETH NOT.

Michele Lieberman, affiant

STATE OF FLORIDA
COUNTY OF ALACHUA

The foregoing Affidavit of Mailing was sworn to and subscribed before me this 18 day of August, 2021 by Michele Lieberman, County Manager for Alachua County, Florida. He/she is personally known to me or has produced _____ as identification and did take an oath.

ATTACHMENT C

CERTIFICATE
TO
NON-AD VALOREM ASSESSMENT ROLLS

I, the undersigned, hereby certify that, I am the Chair of the Board or authorized agent of the Alachua County Board of County Commissioners located in Alachua County, Florida; as such I have satisfied myself that all property included or includable on the Stormwater Non-Ad Valorem Assessment Roll for the aforesaid county is properly assessed so far as I have been able to ascertain; and that all required extensions on the above described roll to show the non-ad valorem assessments attributable to the property listed therein have been made pursuant to law.

I FURTHER CERTIFY that, in accordance with the Uniform Assessment Collection Act, this certificate and the herein described Non-Ad Valorem Assessment Roll will be delivered to the Alachua County Tax Collector by September 15, 2021.

IN WITNESS WHEREOF, I have subscribed this certificate and caused the same to be attached to and made a part of the above described Non-Ad Valorem Assessment Roll this _____ day of September, 2021.

Alachua County Board of County Commissioners
Alachua County, Florida

_____
Ken Cornell, Chair

Stormwater Program Water Quality Project Descriptions

Newnans Lake Initiative - Phase II through VI ($462,000)

Issue: Newnans Lake is impaired for total phosphorus and nitrogen. The recent amendment to the Orange Creek BMAP allocated specific load reductions to the County. FDEP has set a requirement to have projects identified to meet the TMDL by 2028. Project construction/implementation must also be underway by this date.

Project Description: Phase 2 of the Initiative was a pilot project that involved the construction of weirs and bio-reactors on Little Hatchet Creek to remove phosphorus leaching into the stream from exposed portions of the Hawthorne group formations as the result of erosion and development in the watershed. Phase 2 was funded in fiscal year 2019 through an inter-fund load from the Stormwater Assessment that will be re-paid from grant funds. Extensive permitting was required for this project and was completed in 2020 Construction of this phase was begun in the last quarter of fiscal year 2020 and completed in the first quarter of fiscal year 2021.

Phase 3 of the Initiative was a feasibilty study for a constructed treatment wetland to treat the water in the lake. Other potential projects to study further, such as rehydration of Gum Root Swamp, were also identified. The goal was intended to identify options to address the recycling of nutrients that have accumulated in the lake sediments. This study was completed in fiscal year 2020. .

Phase 4 is planned as a modification of the weirs installed on Little Hatchet Creek to optimize performance and address lessons learned since construction.

Sweetwater Trailhead LID Parking Area Project ($615,000)

Issue: The Sweetwater Trailhead uses a 44 foot wide dead end section of 16th Street as an informal parking area. This project will reconstruct the entrance to the Sweetwater Preserve trailhead off of Waldo Road. Runoff from the entrance road and the intersection of SW 16th ST and Waldo Road runs onto the site and is discharged into Sweetwater Branch without any water quality treatment. The runoff has also caused erosion where it is discharged in the Preserve that is causing the existing storm sewer to fail. The reconstruction will also provide better parking for the Preserve. The new stormwater system will provide water quality treatment using Low Impact Design (LID) stormwater management and stop the erosion problem. The LID features will consist of two biofiltration areas and pervious pavers for the parking stalls

Project Description: This project will redesign the dead end portion of 16th Street into a parking area using LID practices including pervious pavement, bioretention and biofiltration. The existing outfall to Sweetwater Branch will be reconstructed and stabilized to address an existing erosion problem. A biofiltration area will be constructed on the GRU power line easement that runs between the preserve and Waldo Road that will be monitored by UF to determine nitrogen removal effectiveness. Gainesville has

plans for a trail connecting Depot Park and Sweetwater Wetlands that will also run along the power lines. This will provide an opportunity to create a nexus linking Sweetwater Preserve with the two city parks and provide education opportunities. The project is funded with 2019 assessment funds and will begin construction in the last quarter of fiscal year 2021.

Soil Nitrogen Leaching Investigation and LID Design for Nutrient Removal ($36,000)

Issue: The nitrogen load infiltrating directly to groundwater from residential landscape turf is not well quantified for Alachua County conditions. LID best management practices, such as bioretention, can include structural design elements or engineered soils to improve nitrogen removal from stormwater. Alachua County site performance data is lacking particularly for karst areas.

Project Description: These are joint projects between Alachua County EPD and the University of Florida Soil and Water Science and Agricultural and Biologic Engineering Departments.

The first phase of the leaching study assessed the leaching of nitrogen from residential turf. The project involves core sampling of residential turf on a variety of soil and management practices. Lysimeters will be installed on a smaller subset of turf sites for year-long seasonal sampling. This portion of the project began in the spring of 2019 with the installation of lysimeters and collection of the first samples. Sampling was completed in 2020.

The LID design study will assess the nitrogen removal performance of a modified biofiltration design first developed in North Carolina and an open source engineered soil mix. The Sweetwater Trailhead LID Parking Area project will be used as the test site. This project began in the summer of 2019 with UF providing input on the design and will perform water quality monitoring after construction of the Sweetwater site.

Landscape Contaminant Leaching Study ($98,000)

Issue: Alternative landscape practices have been proposed as alternatives to mineral fertilizers. This include bio-solids based fertilizers and compost. However, the potential for leaching of nitrogen and other compounds such as hormones, pharmaceuticals and PFAS is not fully established.

Project Description: These are joint projects between Alachua County EPD and the University of Florida Soil and Water Science Department.

This study began in fiscal year 2021 and will compare the difference in nitrogen and various pharmaceuticals, hormones and PFAS leached from differing lawn treatments. The treatments include conventional mineral fertilization, top dressing with compost, and a bio-solids based fertilizer product. The study will also include leaching of the same contaminants from reclaimed water application. Three natural areas are also included for baseline conditions. The lysimeters installed in the previous study will be used for this study.

Climate Vulnerability Assessment ($500,000)

Issue: Climate change is likely to affect Alachua County through changes to average temperature, rainfall patterns, intensity, and frequency of large storm events. One potential impact is the potential for increased flood damage. Another potential impact is changes to groundwater levels and water levels in the County's lakes and waterbodies. Such changes could potentially affect internal water quality and availability for use by the County residents. Other potential effects include increased drought frequency, wildfire risk, health risk due to high temperatures, and impacts to agricultural production.

Project Description: This project will review current available climate research focusing on changes expected in north central Florida. The projected changes in rainfall will be used models to determine the potential changes to flood risk and the impacts to water levels and quality in our surface waters and groundwater. The risk of increased drought and wildfires will also be assessed. Impacts to human health due to higher temperatures and potential impacts to agricultural production will also be included in the vulnerability analysis. The distribution of these impacts at the neighborhood or census block scale will be investigated to identify communities that are at greater risk from climate change.

Lochloosa Lake Nutrient Source Evaluation and Lochloosa Lake Initiative ($1,500,000)

Issue: Lochloosa Lake is impaired for nitrogen and phosphorus. The lake has been incorporated into the Orange Creek BMAP. The recently adopted amendment to the BMAP made specific load reduction allocations to the County. FDEP has set a requirement to have projects identified to meet the TMDL by 2028. Project construction/implementation must also be underway by this date.

Project Description: The first phase of the nutrient course evaluation began in fiscal year 2020 and involves a watershed assessment to determine the origin of external nutrient loads to the lake. The primary focus areas are Lochloosa Creek, West Hawthorn Branch, and septic systems along the eastern shore of the lake. The assessment will also evaluate phosphorus dissolution and transport in the lake and review of FDEP's loading model. The second phase of the assessment is expected to begin in fiscal year 2023 and will focus on potential groundwater sources of nutrients in the lake. Both phases are expected to identify potential projects to mitigate nutrient sources.

Potential project sites to reduce nutrient loads have identified in the draft final report. The first of these project to be evaluated will be a stormwater project along County Road 2082 and SE 152nd Street. It is planned for these projects to be designed and constructed in fiscal years 2022 through 2026.

Lake Santa Fe Nutrient Source Evaluation ($150,000)

Issue: Lake Santa Fe is not currently considered impaired but has seen declining water quality. Development along the lake shore and in the lake's watershed is a potential source of nutrients from landscape fertilizer and septic systems. Mitigation actions now may prevent the lake from becoming impaired in the future.

Project Description: This project began in fiscal year 2021 and is expected to be similar to the efforts currently underway for Lochloosa Lake. The project will assess potential sources of nutrient pollution in the lake, develop a nutrient balance and identify potential mitigation projects.

Poe Springs Nutrient Source Evaluation ($200,000)

Issue: Poe Springs is not currently considered impaired but surrounding springs in the Santa Fe River are impaired for high nitrate levels. Development activity and, agriculture continues in the springshed. There is potential for the spring to become impaired which could negatively affect its use by the public as a park. Mitigation actions now may prevent the spring from becoming impaired in the future.

Project Description: This project began in fiscal year 2021 and will assess potential sources of nitrogen in the springshed potentially using surface load estimates and existing groundwater quality data. In order to identify sources this project may include installation of groundwater monitoring wells. The sources of nitrogen will be categorized by land use (urban versus agricultural) and waste water disposal method (treatment plant effluent versus septic). Potential mitigation projects and strategies will be identified.

Library and Collection Center LID Retrofits, Santa Fe Park Septic Upgrade ($1,700,000)

Issue: Rural Collection Center and Library District sites can be retrofitted to incorporate more LID techniques. Several collection center sites have significant drainage issues that need to be addressed. The Santa Fe Park rest rooms are being relocated and a new nitrogen reducing septic tank constructed.

Project Description: These projects are intended to retrofit County facilities to incorporate LID. Several Library sites have already incorporated LID techniques and these projects will build upon those efforts. The Rural Collection Centers have varying degrees of drainage issues which can be resolved using LID. Conceptual design are being developed by Wood. The initial site planned to be retrofitted in fiscal year 2022 will be the North Central Collection Center in conjunction with drainage improvements funded by Solid Waste.

The new septic tank at Santa Fe Park will be a nitrogen reducing aerobic treatment unit (ATU). The use of an ATU will reducing nitrogen loads to Lake Santa Fe.

Main Street Detention Pond Outflow Filter ($237,000)

Issue: The wet detention pond at the corner of NE 35th Ave and NE 4^{tht} St. receives runoff from Main Street and discharges to Springstead Creek a tributary of Hogtown Creek. The treatment performance of wet detention ponds can be improved using upflow filters.

Project Description: Outflow from the pond was sampled by Wood during the summer of 2018. The sampling results will be used to design an upflow filter enhance water quality discharged from the pond. Design began in fiscal year 2020 and is complete. The filter

installation is now planned for late fiscal year 2022.

NE 22nd Lane Erosion Control ($340,000)

Issue: NE 22nd Lane is a limerock road that has had significant erosion problems after large rain events and required multiple repairs. Eroding limerock and sediment is deposited in a wetland known as Morans Prairie.

Project Description: The project will involve an assessment of the current stability of the shoulders and recommendations for additional stabilization to prevent future erosion. In the past erosion has resulted in deep gullies along the sides of the road which are a hazard to the residents. The eroded limerock and sand that has accumulated in Morans prairie and will be assessed for removal as part of the project.

Parker Rd. Water Quality Project ($317,000)

Issue: A low area on Parker Road (SW 122nd St.) accumulates untreated runoff from residences along Parker Road and NW 1st LN where it infiltrates. Sampling in this year indicated the potential for high nitrogen in the runoff. This makes the site an ideal location for a pilot project on treating runoff in County road right-of-way.

Project Description: Along Parker Road, runoff is infiltrated in swales and a depression on the east side of the road under a power line easement. Engineering design began in fiscal year 2020. Survey and geotechnical investigation of the site is complete. The intent is to amend the soils with Biosorptive Activated Media (BAM). This will serve as a pilot project on feasibility of treating runoff infiltrating through swales in County right-of-way. Such an approach would be useful in reducing nitrogen load to the aquifer where the County does not own retention ponds.

Lochloosa Slough Erosion Control ($425,000)

Issue: Sediment from erosion on SE 225th DR. discharged to Lochloosa Slough.

Project Description: The project will identify the major areas of erosion on SE 225th Dr. and will involve drainage improvements and stabilization of the road shoulders to prevent future erosion.

Old Bellamy Road Erosion Control ($340,000)

Issue: Sediment from erosion on Old Bellamy discharged to the Santa Fe River.

Project Description: The project will identify the major areas of erosion on Old Bellamy Road and will involve drainage improvements and stabilization of the road shoulders to prevent future erosion.

Water Quality Project List

Water Quality Projects	Estimated Project Duration						Estimated Project Budget (Sources: annual assessment revenue, assessment fund balance, and reimbursement grants)

Agenda Item Summary

Agenda Date: 9/14/2021 Agenda Item No.: 14.

Agenda Item Name:
Insurance Renewal - Liability, Property and Equipment Breakdown, Workers Compensation, Accidental Death & Dismemberment and Medical Stop Loss

Presenter:
John Carnell - Alachua County Risk Manager - 264-6967

Description:
Request Approval for Risk Manager to Bind Insurance Renewals

Recommended Action:
Authorize Risk Manager to renew Liability, Property and Equipment breakdown, Workers Compensation, Accidental Death & Dismemberment & Medical Stop Loss insurance

Prior Board Motions:
Board has approved this request

Fiscal Consideration:
There is sufficient budget in Fund 501 and 507.

Background:
Details are available in 21-22 Insurance Quotes Attachment.

Agenda Item Name:
Health Facilities Authority Appointment

Presenter:
Alex Corona, 337-6167

Description:
Appointment of 3 individuals to a citizen-at-large on the Alachua County Health Facilities Authority.

There are currently 3 citizen-at-large positions and 3 applicants (2 Re-appointments and 1 new appointment).

Recommended Action:
Appoint 3 individuals to a citizen-at-large positions on the Alachua County Health Facilities Authority

Prior Board Motions:
N/A

Fiscal Consideration:
N/A

Background:
The Alachua County Health Facilities Authority was authorized by Part III, and Chapter 154 of the Florida Statues, and was created by County Ordinance 80-44. It is charged with assisting health facilities in the acquisition, construction, financing and refinancing of projects within the county. It is comprised of five members serving four-year terms. This board meets annually or on special occasions as warranted.

There are three citizen-at-large appointment that will end on 09/30/2020

3 application has been received between JUL 01 and SEP 02 2020.

Application Form

RESOLUTION 80-44

A RESOLUTION OF THE BOARD OF COUNTY COMMISSIONERS OF ALACHUA COUNTY, FLORIDA, CREATING THE ALACHUA COUNTY HEALTH FACILITIES AUTHORITY; APPOINTING THE MEMBERS THERETO; ESTABLISHING THE POWERS AND DUTIES THEREOF, PROVIDING AN EFFECTIVE DATE.

WHEREAS, Part III of Chapter 154, Florida Statutes, the Health Facilities Authority Law, authorizes the creation of a health facility authority in each county of Florida as a public body corporate and politic for the purpose of assisting health facilities in the acquisition, construction, financing and refinancing of Projects within the geographical limits of the county; and,

WHEREAS, the Health Facilities Authority Law authorizes the governing body of each county to designate five persons who are residents of the county as members of the Authority created for such county; and;

WHEREAS, the Board finds that there exists a need for the development and financing of health facilities in Alachua County;

NOW, THEREFORE, BE IT RESOLVED BY THE BOARD OF COUNTY COMMISSIONERS OF ALACHUA COUNTY, FLORIDA:

Section 1. The Board of County Commissioners of Alachua County, Florida, finds and declares that there is need for a health facilities authority to function in Alachua County, Florida, for the purposes authorized and set forth in the Health Facilities Authority Law.

Section 2. The Alachua County Health Facilities Authority, hereinafter referred to as the "Authority", is hereby established and created as a public body, corporate and politic.

Section 3. The following persons who are residents of Alachua County are designated and appointed as members of the Authority, namely:

James Emerson, who shall serve for a period of four (4) years from the date of this appointment;

Davis Rembert, who shall serve for a period of four (4) years from the date of this appointment;

Shirley Treweek, who shall serve for a period of three (3) years from the date of this appointment;

James Richardson, who shall serve for a period of two (2) years from the date of this appointment;

Rebecca Allen, who shall serve for a period of one (1) year from the date of this appointment.

Each of the foregoing persons appointed as members shall serve for the term for which he is appointed and in each case until his successor is appointed and is qualified. A member of the Authority shall be eligible for reappointment.

Section 4. Any member of the Authority may be removed by the Board of County Commissioners by a majority vote for misfeasance, malfeasance, or willful neglect of duty.

Section 5. Each member of the Authority, before entering upon his duties, shall take and subscribe the oath or affirmation required by the State Constitution. A record of each such oath shall be filed in the Office of the Secretary of State and with the Alachua County Clerk of the Circuit Court.

Section 6. The Authority shall annually elect one of its members as Chairman, one as Vice-Chairman, and one as Secretary. The Authority may also appoint such other officers as it may deem necessary.

Section 7. Upon election of its officers, but prior to any other official act, the Authority shall adopt bylaws to govern its procedures and operations.

Section 8. The Authority shall keep a record of its proceedings and shall be custodian of all books, documents and papers filed with the Authority and of the minute book or journal of the Authority and of its official seal. The Authority shall cause copies to be made of all minutes and other records and

documents of the Authority and shall give certificates under the official seal of the Authority to the effect that such copies are true copies, and all persons dealing with the Authority may rely upon such certificates.

Section 9. Three members of the Authority shall constitute a quorum and the affirmative vote of a majority of the members present at the meeting of the Authority shall be necessary for any action taken by the Authority; provided, any action may be taken by the Authority with the unanimous consent of all members of the Authority. No vacancy in the membership of the Authority shall impair the right of a quorum to exercise all the rights and perform all the duties of the Authority. Any action taken by the Authority under the provisions of the Health Facilities Authorities Law may be authorized by resolution at any regular or special meeting, and each such resolution shall take effect immediately and need not be published or posted. All meetings of the Authority as well as all records, books, documents and papers shall be open and available to the public in accordance with Section 286.011, Florida Statutes.

Section 10. The members of the Authority shall receive no compensation for the performance of their duties hereunder, but each member shall be paid his necessary expenses incurred while engaged in the performance of such duties, pursuant to Section 112.061, Florida Statutes.

Section 11. Any general or special law, rule, regulation or ordinance of Alachua County to the contrary notwithstanding, service as a member of the Authority by a trustee, director, officer, or employee of a health facility shall not in and of itself constitute a conflict of interest; provided, however, that any member of the Authority who is employed by, or received income from a health facility under consideration by the Authority shall not vote on any matter related to such facility.

Section 12. All expenses incurred in carrying out the provisions of the Health Facilities Authority Law shall be payable

solely from the funds provided under the authority of said Law and no liability or obligations shall be incurred by the Authority hereunder beyond the extent to which monies shall have been provided under the provisions thereof. Neither the taxing power nor the faith or credit of Alachua County, Florida, nor any other funds of any nature whatsoever of Alachua County, Florida, or the State of Florida, or any political subdivision of the State of Florida shall ever be pledged to the repayment of said revenue bonds or the interest thereon.

Section 13. The revenue bonds issued by the Authority shall not be deemed to constitute a debt, liability, or obligation of the Authority or County or of the State or any political subdivision, and such revenue bonds or debt obligations shall be payable solely out of the revenues derived by the Authority from the sale, operation, or leasing of any Project or Projects, subject only to any agreements with the holders of particular revenue bonds or notes pledging any particular revenues.

Section 14. To assist health facilities in the acquisition, construction, financing and refinancing of Projects within Alachua County, the Authority is hereby authorized and empowered:

A. To adopt an official seal and alter the same at its pleasure.

B. To maintain an office at such place or places in Alachua County as it may designate.

C. To sue and be sued in its own name, and plead and be impleaded.

D. To acquire by purchase, lease, gift, or otherwise, or to obtain options from the acquisition of, and property, real or personal, improved or unimproved, for acquisition, construction, operation, or maintenance of any Project.

E. To construct, acquire, own, lease, repair, maintain, extend, expand, improve, rehabilitate, renovate, furnish and equip Projects and to pay all or any part of the cost thereof from the proceeds of bonds of the Authority or from any contribution, gift

or donation, or other funds made available to the Authority for such purpose.

F. To make and execute agreements of lease, contracts, deeds, mortgages, notes, and other instruments necessary or convenient in the exercise of the powers and functions of the Authority under the Health Facilities Authority Law.

G. To sell, lease, exchange, mortgage, transfer, or otherwise dispose of, or to grant options for any such purpose with respect to any Project and real or personal property of interest therein.

H. To pledge or assign any money, rents, charges, fees, or other revenues and any proceeds derived from the sale of property, insurance, or condemnation awards.

I. To fix, charge, and collect rents, fees, and charges for the use of any Project.

J. To issue bonds of the Authority for the purpose of providing funds to pay all or any part of the cost of any Project, and to issue refunding bonds.

K. To employ consulting engineers, architects, surveyors, attorneys, accountants, financial experts, and such other employees and agents as may be necessary, in its judgment, and to fix their compensation.

L. To acquire existing Projects and to reimburse any health facility for the cost of such Project in accordance with the agreement between the Authority and the health facility; provided no such reimbursement shall exceed the total cost of the Project as determined by the health facility and approved by the Authority.

M. To acquire existing Projects and to refund outstanding obligations, mortgages, or advances issued, made or given by a health facility for the cost of such Project.

N. To charge to and equitably apportion among health facilities its administrative costs and expenses incurred in the

exercise of the powers and duties conferred by the Health Facilities Authority Law.

O. To do all things permitted by the Health Facilities Authority Law, as amended, necessary or desirable to carry out the provisions and purposes of said Law.

Section 15. Issuance of a Certificate of Need by the State of Florida Department of Health and Rehabilitative Services shall be a condition precedent to the authorization of any Project by the Authority and the validation and issuance of any bonds under this Resolution and the Health Facilities Authority Law.

Section 16. The terms used in this Resolution shall have the meanings set forth in the Health Facilities Authority Law unless a different meaning clearly appears from the context.

Section 17. This Resolution shall take effect upon its adoption.

DULY ADOPTED in regular session, this 9th day of September, A.D., 1980.

UPDATE: 08/99

Agenda Item Summary

Agenda Date: 9/14/2021 Agenda Item No.: 16.

Agenda Item Name:
Budget Amendment to move $100,000 from 63.20 - SW 8th Ave Connector Project to 63.41 - SW 61St /20th Ave Intersection

Presenter:
Ramon Gavarrete, PE, 352-374-5245

Description:
The 63.20 - SW 8th Ave Connector Project is substantially complete and has available budget which needs to be moved to 63.41 - SW 61St/20th Ave Intersection

Recommended Action:
Approve budget amendment moving $100,000 from project 63.20 to 63.41.

Prior Board Motions:
January 23, 2018, the BoCC approves Construction Agreement with V E Whitehurst & Sons, Inc for projects: 63.20, 63.41, and 63.94

November 14, 2017, the BoCC awarded Bid 17-674 to V E Whitehurst & Sons, Inc and authorized staff to negotiate an agreement.

December 13, 2016, the BoCC approved the typical section and alignment for SW 8th Ave Extension West

May 27, 2014, the BoCC approved the 30% design plans for the SW 8th Ave Connector and authorized staff to proceed with construction bidding.

July 9, 2013, the BoCC approved the typical section and an agreement with Town of Tioga LCC for the construction of SW 8th Avenue Extension East.

October 23, 2012, the BoCC authorized staff to begin right-of-way acquisitions for the SW 20th Ave @ SW 61st St and authorized staff to finalize design and proceed with construction bidding.

November 2011, the BoCC directed staff to place the SW 8th Ave @ SW 91st St project on-hold until an intersection improvement was needed.

Fiscal Consideration:
Since project 63.20 (8th Ave Connector) is substantially complete, there is sufficient funds to approve budget amendment moving $100,000 from account 314.79.7910.541.63.20 to

314.79.7910.541.63.41(SW 20/SW 61st).

Background:
From 2012 to 2017, right-of-way was acquired, design was completed, and construction bidding submitted for projects: 63.20 - SW 8th Ave Connector, 63.41 - SW 20th Ave at 61st St intersection improvements, and 63.94 - SW 8th Ave at 122nd St intersection improvements.

November 14, 2017, the BoCC awarded Bid 17-674 to V E Whitehurst & Sons, Inc and authorized staff to negotiate an agreement.

January 23, 2018, the BoCC approves Construction Agreement with V E Whitehurst & Sons, Inc for projects: 63.20, 63.41, and 63.94.

Projects 63.20 and 63.94 have substantially completed construction. Project 63.41 is on-going with there being a projected shortfall due to additional CEI (construction engineering and inspection) services.

Budget amendment moving $100,000 from project 63.20 to 63.41 needs to be approved to complete these projects.

Agenda Item Summary

Agenda Date: 9/14/2021 Agenda Item No.: 17.

Agenda Item Name:
Amendment to the FY21/22 Fee Schedule for Horse Schooling

Presenter:
Gina Peebles 337-6279

Description:
Agricultural and Equestrian Center seeks to offer the Center to be used for horse schooling, a new service, beginning in October and is requesting an amendment to the FY21/22 Fee Schedule

Recommended Action:
Adopt the amended Alachua County FY21/22 Schedule of Fees and Charges for Services

Prior Board Motions:
August 17, 2021 the Board adopted the FY21/22 Regular and Supplemental Schedule of Fees.

Fiscal Consideration:
N/A

Background:
The Board adopted the Fee Schedule to cover services at the start of the new fiscal year, which included the fees for the Alachua County Agriculture & Equestrian Center. The Fee Schedule will be brought to the Board semi-annually and when new services are being provided. This amended Fee Schedule is being brought to the Board to allow the Alachua County Agriculture & Equestrian Center to charge a fee for use of the Center for Horse Schooling starting in October. Schooling allows for horses and riders to train and practice. This was not known at the time the initial Fee Schedule was brought to the Board on August 17, 2021.

RESOLUTION 2021-

A RESOLUTION OF THE BOARD OF COUNTY COMMISSIONERS OF ALACHUA COUNTY, FLORIDA, AMENDING THE APPROVED SCHEDULE OF FEES AND CHARGES FOR THE 2021-22 FISCAL YEAR FOR SERVICES RENDERED BY THE COUNTY; PROVIDING AN EFFECTIVE DATE.

WHEREAS, the Board of County Commissioners of Alachua County, Florida, is authorized to establish and collect fees and charges for certain services rendered by the County; and,

WHEREAS, it is advisable to review and revise the existing schedules of fees and charges on an annual basis during the budget adoption process in order to establish schedules of fees and charges for the upcoming fiscal year; and

WHEREAS, the existing schedules of Ag and Equestrian center charges have been reviewed and the attached schedule represents a reasonable reimbursement for its actual costs for Horse Schooling.

NOW, THEREFORE, BE IT RESOLVED BY THE BOARD OF COUNTY COMMISSIONERS OF ALACHUA COUNTY, FLORIDA:

1. The revised schedule of fees and charges for the 2021-22 fiscal year which is effective on October 1, 2021, attached hereto as “Exhibit A” and incorporated herein by reference is hereby adopted.

2. This resolution shall take effect October 01, 2021.

DULY ADOPTED in regular session, this 14th day of September, 2021.

Countywide Services

Proprietary Fee:

- Proprietary fees are based on market value.

Collection Fee:

- This is a supplemental fee assessed to accounts placed with a collection agency. The fee will be the current contracted collection agency percentage fee of the balance due at the time the account is transferred to the collection agency. The collection fee will be removed if the account is removed from placement with the collection agency.
    - The fee is the amount charged by the collection agency**.**

Computer Replacement:

- The annual rental rate may be charged to the department at cost. Also, the following formula may be applied:

$$Annual\ Rental\ Rate = \frac{Cost\ of\ Computer\ Equipment}{Life\ Expectancy\ in\ Years}$$

Conduit Debt:

- Conduit Debt Review Fee – The review fee is five (5) basis points on the total par amount of the bond(s).
    - The minimum fee is $10,000 and the maximum fee is $25,000.
- Bank Eligible Obligation Issuance Fee – At the beginning of each calendar year, the County's Finance Officer or designee shall calculate, based on then-current market rates and assuming a $10 million issue of bonds maturing in 10 years. The fee is based on:
    - The difference between interest rates on bank eligible obligations and non-bank eligible obligations of the County (the "differential"), **AND**
    - The net present value (NPV) amount determined by applying said differential over a 10 year amortization period. The Bank Eligible Obligation Issuance Fee is equal to the NPV differential calculated above.

Development Review Application Fees:

- The County Manager may waive development review application fees and charges to not-for-profit corporations that submit affordable housing projects (See the Alachua County Land Development Code for the definition of affordable housing).

The manager, or designee, may set any combination of fees and charges for goods and services not specified in this fee resolution.

The County Manager may waive development review application fees to not-for-profit corporations that submit affordable housing projects (see the Alachua County land Development Code for the definition of affordable housing).

Document/Copying Fees:

Activities	Fee
• Documents copied by private vendor	Sold at per copy cost for printing
• Staff Zoning Reports	$1.00/report
• Documents Copied onto Media (i.e. Audio or Video Cassettes, Compact Disc or Diskettes)	Cost of media (+) hourly rate on employee copying files * time required
• Plain Color Copies:	
o Single Sided	$0.15/page single sided
o Double Sided	$0.20/page double sided
• Color Prints/Copies:	
o Tabloid Size	$0.60/side

Note: If total amount for copies is less than $1.00, there will be no charge.

Activities	Fee
• Special Service Charges as authorized by section 119.07(1)(b), Florida Statutes, when the nature or volume of public records requested to be inspected, examined or copied requires extensive use of information technology resources or extensive clerical or supervisory assistance by County personnel, including the requirement to safeguard records during their inspection	Hourly rate of employee(s) providing service
• Extensive means that the request will take more than 30 minutes to locate the records, review for confidential information and copy, or to observe the inspection of records to safeguard them from loss or destruction	
• Copying blueprints	Approx. $4.50/print depending on the outside vendor cost

Dishonored Checks:

- For checks dishonored by the bank, there will be a bank fee (Bank Fee Schedule) and a service charge in accordance with the amounts allowed under Florida Statutes at the time the check is dishonored. Chapter 68.065 (Actions to Collect Worthless Checks), Chapter 125.0105 (Service Fee for Dishonored Checks), Chapter 832.07 (Prima Facie Evidence of Intent) and Chapter 832.08 (State Attorney Bad Check Diversion Program) all pertain to fees on dishonored checks. The amounts as of July 1, 2013 are:
    - $25.00 if the face value of the check does not exceed $50.00,
    - $30.00 if the face value exceeds $50.00 but does not exceed $300.00,
    - $40.00 if the face value exceeds $300.00,
    - or up to 5% of the face amount of the check, whichever is greater.

Vehicle Replacement:

$$Annual\ Rental\ Rate = \frac{(Cost\ of\ Vehicle * 10\%\ Inflationary\ Factor) + Cost\ of\ Vehicle\ (including\ finance\ charges)}{Life\ Expectany\ in\ Years}$$

County Manager's Office

Reclaim Fees: (Total of all applicable fees listed below)

Activities	Fees
• Intake vaccinations (mandatory)	$10.00
• Parasite Treatment (mandatory)	$10.00
• Microchip (mandatory if deficient)	$10.00
• Rabies vaccination & county license/tag:	
o Sterilized (mandatory if deficient)	$20.00
o Unsterilized (mandatory if deficient)	$50.00
• Boarding (mandatory for each day after initial day of impoundment)	$10.00/day
• Bite Quarantine (mandatory for each day of impoundment)	$15.00/day
• Emergency medical/veterinary expenses	Cost incurred

License Fees:

Activities	Fees
• Sterilized & microchipped cat, dog, or ferret	$10.00/year
• Unsterilized and/or un-microchipped cat, dog, or ferret	$40.00/year
• Microchip	$10.00
• Rabies Vaccination (Tuesday – Friday, 10:30 AM– 2:30 PM)	$10.00
• Replacement Tag	$5.00
• Discount for licenses/tags sold to veterinarians	($2.00) each

Miscellaneous Fees:

Activities	Fees
• Disposal	$10.00
• Euthanasia (owner requested)	$30.00
• Aggressive Dog	
o Initial Registration	$400.00
o Annual Registration	$50.00
• Dangerous Dog	
o Initial Registration	$400.00
o Annual Registration	$50.00
• Irresponsible Pet Owner	
o Initial Registration	$400.00
o Annual Registration	$50.00
• Transportation (Pick-up and/or Delivery)	$40.00
• Breeder Permit	
o Hobby Breeder	$100/year
o Commercial Breeder	$200/year

Surrender Fees:

Activities	Fees
• Alachua County Resident (or animal found in Alachua County)	No charge
• Out of County Resident – Stray	Not Accepted
• Out of County Resident – Owned Cat or Dog (only with prior approval & by appointment)	$50.00/animal or litter

Transfer Fees:

Activities	Fees
• Sterilized (includes intake vaccinations, parasite treatment, testing, veterinary exam, sterilization, rabies vaccination (> 4 months), and microchip)	No Charge

Diagnostic Test and/or Procedures:

Activities	Fees
• Physical Exam (veterinary)	$20.00
• Heartworm testing	$10.00
• Canine Parvovirus Testing	$10.00
• Fecal Flotation	$10.00
Activities	**Fees**
• FeLV/FIV testing	$10.00
• Sutures	$10.00
• Cat Sterilization	$75.00
• Dog Sterilization	$95.00
• Antibiotic and/or pain medications	$10.00/each
• Emergency medical/veterinary expenses	Cost Incurred
• Necropsy (forensic)	Cost Incurred
• Diagnostic Imaging	Cost Incurred

Court Services

Community Services:

Activities	Fees
• Program Services Fee – Orientation (one-time fee)	$10.00
• Cost of Supervision – Level 1 (one-time fee)	$40.00

Day Reporting Program:

Activities	Fees
• Assessment Fee – Individuals required to attend Batterer's Intervention (domestic battery intervention) must have a professional assessment completed	$40.00
• Indigent participants may perform community service hours in lieu of cash payments of all fees at the rate of $10.00 per hour. Program Services Fee may include but are not limited to: Batterer's Intervention Program (domestic battery), Life Skills Groups, Substance Abuse Prevention/Intervention and Drug and Alcohol Testing	$20.00/week
• Transdermal Alcohol Device (TAD)	$5.00/day
• Curfew Monitoring	$2.00/day

Drug Court:

Activities	Fees
• Program Fee In-County – includes supervision, drug, and alcohol testing, Psychosocial Evaluation, Case Management, and Individual and Group Counselling	$20.00/week

Metamorphosis:

Activities	Fees
• Upon entering the working phase of the program	50% of their net income

Pretrial:

Activities	Fees
• Electric Monitoring (EM)/Global Positioning System	$5.00/day
• Transdermal Alcohol Device (TAD)	$5.00/day
• Curfew Monitoring	$2.00/day
• Case Management – (MONITORCONNECT)	$5.00/month

Probation:

Activities	Fees
• Cost of Supervision – Level II o This fee is not automatically assessed and is ordered by sentencing Judge as a condition of probation and actual fee assessed may vary. Indigent probationers may perform community service in lieu of cash payments, at an equivalency rate of $10.00 for 1 hour of community services	$50.00/month
• Curfew Monitoring	$2.00/day
• Case Management – (MONITORCONNECT)	$5.00/month
• Electric Monitoring (EM)/Global Positioning System	$5.00/day
• Transdermal Alcohol Device (TAD)	$5.00/day

Work Release:

Activities	Fees
• Work Release Inmates • Supervision o This will not be an additional fee assessed directly to Work Release residents, but will come from 50% of gross pay collected Work Release Inmate Room & Board Fees • Drug and Alcohol Testing o This will not be an additional fee assessed directly to Work Release residents, but will come from 50% of gross pay collected Work Release Inmate Room & Board Fees • Electronic Monitoring (EM)/Global Positioning System (GPS) o This will not be an additional fee assessed directly to Work Release residents, but will come from 50% of gross pay collected Work Release Inmate Room & Board Fees	50% of their net income

Environmental Protection

Disposal and Supply Costs for Conditional Exempt Small Quantity Generator (CESQG) Business of Hazardous Wastes:

Note: These fees are the hazardous waste disposal costs for Conditionally Exempt Small Quantity (CESQG) business and counties with an interlocal agreement with Alachua County. The Hazardous Waste Collection Center will accept CESQG waste during normal operational hours. The fees are to cover disposal costs, labor and supplies for the proper disposal of hazardous wastes generate by CESQG business in Alachua County and the HHW counties with an interlocal agreement.

Lot A – Bulk Packs:

Waste	Fees
• Alkyd Paint	$3.70/gal
• Antifreeze	$0.75/gal
• Corrosive liquids, acids	$3.20/gal
• Corrosive liquids, alkaline	$3.10/gal
• Flammable, combustible liquids	$3.70/gal
• Flammable, liquids (halogenated)	$3.85/gal
• Formalin Solution	$13.00/gal
• Non-hazardous liquids, NON-RCRA	$1.95/gal
• Latex Paint	$1.95/gal
• Pesticides, liquids	$13.00/gal
• Pesticides, solids	$3.00/lb
• Photographic solutions	$4.50/gal
• Sludges, non-hazardous	$1.95/gal
• Sludges, hazardous	$13.60/gal
• Solids, hazardous	$1.30/gal
• Solids, hazardous-55 gallon drum	$220.00/drum
• Solids, hazardous-Cubic yard box	$770.00/CYB
• Wastewaters, non-hazardous	$1.95/gal
• Wastewaters, hazardous	$4.50/gal
• Waste Gasoline	$1.50/gal
• Waste Glycerin	$3.85/gal
• Used oil or other lubricants	$0.50/gal
• Petroleum Contact Water/Oily Water	$1.35/gal
• Used oil or other lubricants, per 55 gallon drum	$27.50/drum

Lot B – Loose Packs:

Waste	Fees
• 20 lb. propane tank	$2.90/unit
• 5 gallon pail of oil filters	$3.90/unit

Waste	Fees
• 55 gallon drum of oil filters	$22.60/drum
• 55 gallon drum of oil	$41.75/drum
• Aerosol cans	$1.15/lb.
• Alkyd Paint	$7.80/gal or $0.78lb.
• Batteries, Lithium/mixed button	$5.29/lb.
• Batteries, Ni-Cad, wet or dry cell	$1.10/lb.
• Capacitors	$1.50/lb.
• Computer Monitors, LCD/LED Televisions	$025/lb.
• Crushed Fluorescent Lamps	$200.00/drum
• Fluorescent lamps Irregular shape (circular)	$0.40/unit
• Fluorescent lamps Compact	$0.40/unit
• Fluorescent lamps less than 4 ft	$0.40/unit
• Fluorescent lamps more than 4 ft	$0.40/unit
• HID, Metal Halide, Mercury Vapor Lamp	$1.00/unit
• Non PCB Ballasts	$0.50/unit
• PCB Ballasts	$3.00/unit
• Products in containers liquids/solids, Hazardous	$5.45/gal
• Products in containers liquids/solids, Non-Hazardous	$1.95/gal
• Rags/Pads, non-hazardous	$49.50/drum
• CRT Televisions and CRT Monitors	$0.40/lb.
• Misc. Electronics (cables, keyboards, printers, etc.)	$0.10/lb.

Lot C – Lab Packs:

Waste	Fees
• Corrosive liquids, acid or alkaline, toxic	$4.90/gal
• Corrosive liquids, oxidizing	$30.00/gal
• Corrosive solids	$0.49/lb.
• Corrosive solids, acid, or alkaline, toxic	$0.49/lb.
• Cyanides, liquid or solid	$53.24/gal or $5.32/lb.
• Flammable liquids	$4.50/gal
• Flammable solids	$1.20/lb.
• Isocyanates, liquid or solid	$53.24/gal
• Mercury debris	$1.10/lb.
• Mercury in manufactured containers	$4.45/lb.
• Mercury sales	$3.90/lb.
• Mercury, elemental	$4.45/lb.
• Oxidizers, liquid or solid, toxic	$2.95/lb.
• Oxidizing, liquids	$29.50/lb.
• Oxidizing, solids	$2.95/lb.

Waste	Fees
• PCB's	$0.61/lb. or $6.10/gal
• Peroxides, inorganic	$29.50/gal
• Peroxides, organic	$25.56/gal
• Poison Liquids	$18.81/gal
• Poison solids	$0.85/lb.
• Reactive	$5.85/lb.

Lot D Supplies:

Waste	Fees
• 10' x 20' tent rental (including set up and take down_	$150.00day
• 1A2 55 gallon drum	$26.35/unit
• 1H2 5 gallon pail	$5.50/unit
• 100% Post-consumer Recycled Paint for Purchase	$2.00/gal or $10.00/5 gal pail
• Disposal of 55 gal drum	$10.20/unit
• Metals analysis for hazardous waste testing	$150.00/sample
• Vermiculite (4 cubic foot bag)	$12.20/unit

Environmental Review Application Fee:

NOTE: Fees shall double if the activity under reviews was started or conducted prior to receipt of all necessary approvals.

Activities	Fees
• Review/renewal of Environmental Monitoring Plans	$3,700.00
• Review of Environmental Monitoring Submissions – annual charge	$800.00
• Review/renewal of Environmental Monitoring Plans – minor category (Determination of "minor" made at the time of application)	$260.00
• Review of Environmental Monitoring Submission – minor category – annual charge	$255.00

Hazardous Materials and Water Quality Programs

Investigation, Cleanup, and Discharge Response Fees:

NOTE: Reimbursable costs incurred by Alachua County associated with the response and/or cleanup of hazardous material discharge or investigation of a Water Quality Code (Alachua County Land Development Code, Chapter 77) violation shall be charged and billed to the responsible party (or their insurance carrier) and shall include, but not limited to: cost of cleanup oversight and site rehabilitation report review; cost of equipment operation and maintenance; personnel cost of contracted services; waste transportation and disposal costs; cost of materials; laboratory costs; and County's labor costs. County labor costs associated with a non-

transportation oriented hazardous materials discharge will not be charged to the parties who have paid and are not delinquent in paying registration fees associated with the Hazardous Materials Management Code (Alachua County Land Development Code, Chapter 353).

Activities	Fees
• County Labor Cost	$60/hour/person for staff time
• Other Reimbursable Costs	To be billed at cost

Hazardous Materials:

• Facility Class	
o AA	$60.00
o A	$120.00
o B	$230.00
o C	$610.00
o D	$750.00
o Tanks	$90.00/tank

NOTE: This is an annual fee.

NOTE: The Facility Classes are established by criteria in Alachua County Land Development Code, Chapter 353 as follows: type of use, anticipated volumes of hazardous materials to be stored, the complexity of hazardous materials storage facilities, and the potential for discharge. Fees include cost of applicable Hazardous Materials Storage License.

Activities	Fees
• Late Fee	1 1/2 % per month on unpaid balance

Plan Review Fees:

Plans	Fees
• Installation & Secondary Containment Plans	$75.00
• Closure Plans	$150.00
• Pollution Prevention Plans	$150.00
• Alternate Procedures Plans	$75.00

Water Quality

Activities	Fees
• Wastewater Treatment Plant Inspection – Field Services	$1,325.00 annually/plant
• Late Fees	1.5% per month on the balance

Special Sales:

- Items that promote water conversation such as rain barrels and other waster saving devices are sold at cost plus sales tax.

Irrigation Efficiency Code Fees:

Code	Fees
• Residential Approval Fee	$50.00
• Residential County Inspection Fee	$85.00
• Residential County Re-Inspection Fee	$50.00
• Non-residential Approval Fee	$100.00
• Non-residential County Inspection Fee	$170.00
• Non-residential County Re-Inspection Fee	$100.00

After the Fact Irrigation System Approval Fee:

- Approval fee for all irrigation systems (residential and non-residential) that are installed or significantly modified prior to obtaining approval is $100.00

Timber Sales

- Sale of Timber is based on the Market Price as determined by competitive bid.

Fire: Plan Review and Inspections

Fire Prevention Plan Review and Inspections:

Periodic Fire & Life Safety Inspections per F.S. 663.025(2), 663.081(1) and F.A.C. 69A-60.007(1)

Inspections	Fees
• Fire Inspection o Initial inspection fee will be charged the standard fee based on the fee schedule for the size of the building as set forth below	
• Re-Inspection o 1st Re-Inspection o Additional Re-Inspections will be charged an inspection fee equal to twice the standard fee for the size of the building, as set forth below	$0.00
• Square footage of inspected structure o 0-3,000	$76.75
o Over 3,000 - 5,000	$88.75
o Over 5,000 – 10,000	$100.75
o Over 10,000 – 25,000	$113.75
o Over 25,000 – 50,000	$125.25
o Over 50,000 - 75,000	$137.25
o Over 75,000 – 100,000	$149.25
o Over 100,000 – 125,000	$161.50
o Over 125,000 – 150,000	$173.75
o Over 150,000 – 175,000	$185.75
o Over 175,000 – 200,000	$198.00
o Over 200,000	$198.00 Plus $12.00 for each incremental addition of 25,000 square feet
• Special Request for Inspections after hours, weekend, or holidays	$100 hour
• Tents and Membrane Structures	$70.00/first tent or membrane structure; $5.00 each additional structure
• Fireworks – Sales or Storage o (Permanent Retail or Wholesale Facility)	$70.00 per inspection
• Fireworks Display	
o Site plan review	$50.00
o Inspection	$70.00/hour
o Standby – minimum 2 hour charge	$105.00/hour
• Special Events/Fire Works Sales – includes site plan review and inspection	$105.00

Inspections	Fees
• Fire Inspection(s) Generated from Complaint (Fee applies only if complaint is validated)	$70 per inspection

New Construction Fees:	Plan Review Fee	Inspection Fee
• Fire Marshal Release – minimum fee permit unless otherwise stated	$50.00 per permit	$70.00 per inspection
• After the fact permits billed at double the calculated rate		
• New Buildings and Building Alterations	$20.00/story + $0.02/sq. ft.	
o Pre-compliance (concealments, etc.)		$20.00/story + $0.04/sq. ft.
o Fire Marshal Release		$15.00/story + $0.03/sq. ft.
• Fire Sprinkler and Standpipe (new)	$50.00/riser + $30.00/additional story + $0.25/head	
o Hydro and Rough Pipe		$75.00/riser + $30.00/additional story + $0.50/head
o Final		$50.00/riser + $35.00/additional story + $0.25/head
• Fire Sprinkler Alteration: o Up to and including 49 heads; alterations effecting more than 49 heads are treated as new installations; charges are based on riser and number of modified heads only.	$50.00/riser + $0.25/head	
o Hydro and Rough Pipe		$75.00/riser + $30.00/additional story + $0.50/head
o Final		$50.00/riser + $35.00/additional story + $0.25/head
• Underground Fire Main o Add fee to fire sprinkler if fire sprinkler/standpipe permit includes underground fire main	$50.00	

New Construction Fees:	Plan Review Fee	Inspection Fee
o Burial Depth, Joints, and Flush		$50.00 + $0.50/linear ft.
o Hydro and Final		$75.00
• Fire Alarm o New-Including monitoring only systems	$50.00/panel + $0.50/additional device	
o Rough Wire		$50.00/panel + $20.00/additional story + $0.50/additional device
o Final		$50.00/panel + $0.50/additional device
• Fire Alarm Alterations o Value up to $5,000.00; system alterations exceeding this amount are treated as new install; Fire Alarm Alteration charges based on Pane + number of modified devices only	$50.00/panel + $0.50/additional device	
o Rough Wire		$50.00/panel + $0.50/additional device
o Final		$50.00/panel + $0.50/additional device
• Exhausted Hood (each)	$50.00/hood	$70.00/system
• Pre-engineered Suppression System (each)	$30.00 + $3.00/gallon of agent	$70.00/system
• Pre-Engineered System Alteration	$30.00 + $3.00/gallon of agent	$70.00/system
• Fire Pump (each)	$75.00/pump	$180.00/pump
• Spray Booth	$30.00 + $0.50/sq. ft.	$45.00 + $0.50/sq. ft.
• Fuel Tanks (above ground and underground)	$45.00 + $15.00/additional tank	
o Hydro and Suds Test		$45.00 + $15.00/additional tank

New Construction Fees:	Plan Review Fee	Inspection Fee
o Burial Depth and Tie Down		$45.00 + $15.00/additional tank
o Final		$45.00
• LP Gas	$45.00/tank	$45.00/tank
• Gate		$70.00
• Alternative Water Supply	$60.00	$140.00
• Re-Review Fees – 3rd Review and Each Subsequent Review	1 ½ * Original Review Fee	
o 2nd Failed Inspection of Same Inspection Type		Original Inspection Rate
o 3rd Failed Inspection		1 ½ * Original Inspection Rate
• Overtime – 2 hour minimum	$90.00/hour	$90.00/hour
• Permits Charged by the Hour (Regular Time)	$60.00/hour (one hour minimum)	$60.00/hour (one hour minimum)
• Radio Enhancement System Review	$50.00/panel + $50/additional device	$50/panel + $20/additional story + $0.50/additional device

Fire: Emergency Medical Services

Emergency Medical Services:

See Emergency Medical Services Fee Details; Pages 22-23

Medical Services	Fees
• Advanced Life Support (ALS) Transport Fee I	$625.00

Note: These are the fees and charges that will be charged to each participant in the following classes. ACFR, GFR, Fire Service Network participants, and member of ACFR's Reserve Program are exempt from class fees, but will be charged for the cost of the cards if there is a fee.

Certification	Fees
• Basic Life Support (CPR)	
o Certification Card	$3.00 each

Certification	Fees
o Heartsaver	$15.00/person + $15.00/book
o BLS for Healthcare Providers	$45.00/person + $15.00/book
o BLS for Healthcare Providers Recertification	$20.00/person
o Heartsaver First Aid	$30.00/person + $15.00/book
• Advanced Cardiac Life Support (ACLS)	
o Certification Card	$5.00 each
o Nurses and Paramedics	$75.00/person + $30.00/book
o Physicians/Others	$100.00/person + $30.00/book
o ACLS Recertification	$75.00/person
• International Trauma Life Support (ITLS)	
o BTLS Re-Certification	$20.00 each
o Basic and Advanced	$100.00/person
o BTLS Recertification	$75.00/person
• Emergency Vehicle Operations Course (EVOC)	$75.00/person
o Recertification	$50.00/person
• 40 Hour First Responder	$50.00/person
o Recertification	$20.00/person

E911 Map Printing Fees:

Map Printing	Fees
• Wall Map 6’ x 6’ o This is the fee that will be charged for the 911 office to create the digital data and place on flash drive.	$56.00 (includes 2 Staff Hours) $28 per additional hour
• This is the rate that will be charged for creating and printing each map. Each fee includes one hour of labor. Additional labor is $18.00 per hour	
o Up to 11” x 17”	$28.00
o Greater than 11” x 17” and not greater than 3’x4’	$35.00

Emergency Management Plan Review:
Per Florida Rule 9G-20.003, F.S. 252 and Agency for Health Care Administration (AHCA) Standard 59A-26.023

Plan	Fees
• Review of emergency plans for health care, hospital, and/or group home type facilities for:	
o New Plan Review < 16 beds	$25.00/hour + 25% Administrative Fee
o New Plan Review > 16 beds	$500.00
o Existing Plan Review	$25.00/hour + 25% Administrative Fee (maximum fee $250.00)

Sharps Disposal Program:

- This program is a community service designed to assist residents with safe and environmentally sound method to dispose of sharps (syringes, needles, and lancets). The fee is $3.00/box

Unmanned Aerial Systems:

- Reimbursement rate to be determined based on each request. Service may be exempt from fees if public safety purpose is determined. Average cost is approximately $125.00/hour; however, varied depending on equipment use, staff requirements, etc.

Emergency Medical Services Fee Details:

Advanced Life Support (ALS) Transport Fee I:
This is the base ALS transport fee that will be charged to each patient that is transported by any ground or air ambulance and receives any of the listed procedures. This fee is inclusive of, but not limited to, any of the following procedures:

A. Cardiac Monitor
B. Vascular Access (including catheters, saline locks, administration sets, blood draws, and all fluids)
C. Obstetrical Kits
D. Medications approved by the Department Medical Director and administered to patients including, but not limited to, those medications listed in the Department Medical Care Protocols Medication list.

Advanced Life Support (ALS) Transport Fee II:

This is the base ALS transport fee that will be charged to each patient that is transported by any ground or air ambulance and receives at least three administrations of medication(s) by IV push/bolus or continuous infusion and/or the provision of at least one of the following ALS procedures. This fee is inclusive of, but not limited to, any of the following procedures:

A. Cardio-pulmonary resuscitation
B. Defibrillation/cardioversion
C. Endotracheal/Nasotracheal intubation
D. Central venous line
E. Cardiac pacing
F. Chest decompression
G. Surgical airway
H. Intraosseous line
I. Medications approved by the Department Medical Director and administered to patients including, but not limited to, those medications listed in the Department Medical Care Protocols Medication List

Specialty Care Transport (SCT):

This is the base SCT transport fee that will be charged to each critically ill or injured patient that is transported by ground ambulance. Transport will include an inter-facility transfer of a patient with medical conditions beyond the scope of a Florida certified Paramedic and include medically necessary supplies and services. This fee is inclusive of transport provided by a critical care certified paramedic and is inclusive of, but not limited to, any of the following procedures:

A. Management of a respiratory ventilator
B. Management of intravenous (IV) pumps
C. Management of central venous line

Basic Life Support Transport Fee:
This is the base transport fee that will be charged to each patient requiring transport where no ALS procedures are administered.

Team/Equipment/Transport Fee:
This is the base transport fee that will be charged for each transport where a patient is not on board (i.e.: medical team(s) and/or medically equipment only).

ALS Treatment Fee/Non-Transport:
This is the fee that will be charged to each patient what receives any of the following procedures and is not transported via ground or air ambulance:

A. Vascular access (including catheters, saline locks, administration sets, blood draws, and all fluids)
B. Obstetrical Kits
C. Medications (those medications listed in the Department Medical Care Protocols Medication List)*

BLS Treatment Fee/Non-Transport:
This is the fee that will be charged to each patient that receives treatment where no ALS procedures are administered and is not transported via ground or air ambulance:

A. Sterile bandaging/dressing
B. Splinting/immobilization
C. Oxygen Administration
D. Irrigation with sterile fluid

Note: Time is calculated from the time of arrival or the request time of arrival (whichever is later) through the unit available time as documented by the EMS report. Only time increments greater than 7 minutes will be rounded up to the next quarter hour.

Note: Schedule of fees will be applied to patients receiving any billable EMS services at special events.

Emergency Medical Services:

SUPPLEMENTAL CHARGE FEE DETAILS

Trauma Fee:
This is a supplemental fee to be charged to each trauma patient that requires ALS I, II, or BLS intervention, full spinal immobilization that includes cervical immobilization device, pediatric immobilization device, collar, backboard, and/or straps.

Alert Fee:
This is a supplemental fee to be charged to each patient that requires transportation to the hospital under an alert issued to the receiving hospital (i.e. trauma, stemi, stroke, infectious disease, etc.)

Transport Mileage: Minimum of one mile
Charge will begin when transporting patient(s) or specialized teams. Mileage charges will be equally divided between patients when multiple patients are transported from the same incident and in the same unit.

Special Handling:
This is a supplemental fee to be charged for unruly patients that requires restraints, or if two Alachua County Fire Rescue units are required for lifting purposes, or if an additional ACFR crew member is required during transport. Only time increments greater than 7 minutes will be rounded up to the next quarter hour.

Waiting Time with Patient:
This is a supplemental fee to be charged when there is a delay in transferring the patient from the care of Alachua County Fire Rescue to the care of the receiving authority. A minimum of fifteen (15) minutes waiting time must accrue before charging for the first ¼ hour period. Thereafter, the quarter hour charge applies for time increments greater than 7 minutes, rounded to the next ¼ hour.

Collection Fee:
This is a supplemental fee assessed to accounts placed with a collection agency. The fee will be the current contracted collection agency percentage fee on the amount collected by the collection agency. The collection fee will be removed if the account is removed from placement with the collection agency.

Growth Management

Development Review:	Amount	Resubmit Amount	Fee/AC Over 10*
• Preliminary Plan	$4,000	$970	$40
• Preliminary Plan or Revised Preliminary Plan over Threshold	$5,100	$740	$22

Note: *Area is computed by rounding up to the nearest full acre.

1. Fees shall cover expenses of review conducted during the one-year period commencing on the date the fee is paid; if plans are submitted for the same project more than one year from the date, a new fee shall be required.
2. A new fee shall be required if a significant change in the scope of the project is made.
3. The base fee includes the initial application, one insufficiency report and resubmittal. If any additional insufficiency reports are required, the resubmittal fee shall be collected with the second resubmittal.
4. Preliminary plans that are over the threshold are defined in the Unified Land Development Code, Section 402.44
5. Fees are allocated to Growth Management, EPD, Public Safety and Public Works.

6. After a pre-application review meeting, an application for a combined Preliminary and Final Development Plan must first be authorized by Growth Management Director or designee.
7. Staff administrative review for submittals such as minor adjustments for approved plan shall be charged at the hourly rate.
8. Properties located within the Northeastern and Southeastern Urban Cluster as shown on the Alachua County Future Land Use Map shall have application fees for land use, zoning or development review reduced 50 percent.

Planning and Land Use Fees	Amount	Fee/AC Over 10*
• Rezoning To "A" or "C-1" District for a single family lot	$2,000	$14
• Rezoning, Special Use Permit, or Special Exception	$5,900	$21
• Special Use Permit for Mining or Excavation and Fill	$8,800	****
• Special Use Permit and Preliminary Development Plan Review	$7,100	$34

• Proportionate Share Determination	Hourly	****
• Vested Rights Fee	Hourly	****
• Sector Plans	Initial Deposit of $7,500	
• Public Facilities Annual Report Review Fee for DRI establishing Special District under Chapter 189, Florida Statutes	$250.00	

Planning and Land Use Fees	Amount	Fee/AC Over 10*
• Community Development District (CDD) Annual Budget Review Fee (for CDD established pursuant to Chapter 190, Florida Statutes and associated with a DR	$500.00	
• Community Development District Review Fee	$5,000.00	

Note: *Area is computed by rounding up to the nearest full acre.

1. In addition to the staff review fee, Tier II and Tier III applications shall be charged consultant fees to evaluate RF engineering and prepare Visual Impact Stimulations as directed by staff.
2. Comprehensive Plan Amendment: Where an applicant submits a proposal for territory other than under his/her direct control, only that area under his/her direct control shall be included for the purposes of calculating the fee. Small scale amendments are applications which conform to section 163.3187(1)(c), Florida Statues. No acreage fee shall be assessed for large-scale map amendment applications which request redefinition to the Rural/Agriculture land use classification.
3. Fees are allocated to Growth Management, EPD, Fire, and Public Works.
4. Properties located within Northeastern and Southeastern Urban Cluster as shown on the future Land Use Map shall have application fees for land use, zoning, or development review reduced 50 percent.
5. Request for Preservation Land use or zoning district designations shall be assessed a fee for advertising only, to be determined at the time of the application submittal.

Planning and Development Fee Policies:

1. No rezoning or plan amendment requests shall be accepted for processing until the required application fee, or reduced fee as established by Fee Policy number five, is paid. An application fee may be refunded only if the application is withdrawn prior to the County incurring direct costs in processing the application (i.e. copying and distributing copies to staff, advertising, postage, printing reports, etc.)
2. In the event that re-advertisement of an application due to any delay or postponement requested by the applicant, or necessitated by some act or failure to act on the part of the application, a supplemental fee of $250.00 plus postage costs per advertisement will be charged for a Zoning Application and a supplemental fee of $560 per advertisement for a Comprehensive Plan Amendment or Zoning Ordinance Amendment Request. This supplemental fee is intended to cover additional costs for re-advertisement. No additional fee shall be charged if the postponement is requested by the County.
3. A separate fee shall be charged for each action requested unless the Director of Growth Management determines that the requested action is related to another requested action by the applicant and that the request will require no additional staff time (see Fee Policy number 5).
4. The Director of Growth Management may reduce a required application fee where they find: (1) that special circumstances, not under the control of the applicant, justify a reduction in the fee; and (2) that the actual direct cost to the County for processing the application will not exceed the actual fee collected. In no case may a reduced fee be less than advertising cost. No request for reduction in the fee shall be considered unless the request is received within five working days following the date of the application submitted to the Department of Growth Management, Office of Planning and Development.

5. All work performed by Alachua county employees, directly and reasonably attributable to review of and recommendations relating to a Sector Plan, or amendment to a Development Order shall be paid by applicant, Sector Plan application or amendment to a Development Order shall be paid by the applicant. Fees will be based upon the hourly rate of pay and benefits of each employee performing the work multiplied by the number of hours worked, plus 20% indirect cost based on the hourly rate of the employee. Any other additional direct costs incurred by the County in connection with the review and processing of a Sector Plan application, including but not limited to advertising, public notice, duplication of materials, telecommunication, and fees for any outside consultants hired by the County when special expertise beyond County staff is deemed necessary, shall be paid by the applicant.
6. The applicant for Sector Plans will be required to pay an additional deposit, as may be required from time to time, when the review expenses have exhausted 75% of any paid deposit. Whenever an additional deposit of fees is required, such deposit shall be, at a minimum, in the amount of 50% of the initial payment set forth herein. Any auditor fees for the establishment and maintenance of this account shall be charged to the applicant.
7. Upon conclusion of any staff review of any sector plan application and other actions required for presentation to the Board of County Commissioners for final action, all fees calculated by Alachua County to be due shall be paid in full by the applicant prior to submission to the Board of County Commissioners for final Board action. All refunds of excess deposit money, after all charges are paid, shall be refunded after final action by the Board of County Commissioners.
8. Community Development District: The $5,000 review fee is for the CDDs of less than 1,000 acres. The review fee for CDDs of more than 1,000 acres is set by State Statute. For all CDDs, advertising and the advertising fee is the responsibility of the Petitioner and must be consistent with State Statute requirements.

Appeals by Hearing Officer

Appeals	Fee
• Hear and decide appeals of decisions of the Development Review Committee, the Zoning Administrator on sign permit applications; and heard and decide other land use cases as directed by the County Commission – Hearing Officer	$1,000.00/day

Building Permitting and Codes Enforcement:

Note: All Building Permit Fees are calculated starting with the minimum base permit fee by permit type plus a fee determined by the Dollar Value of Construction as calculated below:

Minimum Base Building Permit Fees:

- Minimum Base Permit Fees for single family, single family attached, and two family new construction; residential additions and alterations; and all other building permits (i.e. re-roof, mechanical, plumbing, aluminum, accessory buildings, fire sprinkler, fire alarm, tents, miscellaneous, etc.) is $90.00
- Minimum Base Permit Fee for multi-family, office, commercial, industrial or any construction requiring review and/or inspection by the Fire Marshal and for commercial additions and alterations is $180.00

Dollar Value of Construction Fee Calculations:

- The permit fee for all new construction and additions shall be calculated based on the Building Valuation Data (BVD) table published in the ICC Building Safety Journal or the state contract price, whichever is greater. The BVD table is published in February and August each year.
  www.iccsafe.org/codes-tech-support/codes/code-development-process/building-valuation-data/
- Based on the resulting building valuation or contract price, the permit fee is as follows:

Dollar Value of Construction from – to:	
o $0 - $100,000	Add $3.25/thousand
o $100,001 - $1,000,000	Add $1.75/thousand
o $1,000,001 – and up	Add $0.90/thousand

Notes: Any person who commences any work on a building, structure, electrical, gas, mechanical or plumbing system before obtaining the building official's approval or the necessary permits shall be subject to a penalty of 100 percent of the usual fee in addition to the required permit fees (Section 109.4 Florida Building Code – Section 553.73 Florida Statutes). This includes moving on a mobile home prior to obtaining a permit. All permits must be posted on the job site during all progress of the work.

Properties with a homestead exemption and with a Total Just Value of less than $50,000 as determined by the Alachua County Property Appraiser within the last year shall have building permit fees reduced by 50 percent.

Building permit applicants electing to use a private provider for building permit plan review shall be charged at 50% of the normal plan review fee. Applicants electing to use a private provider for building inspections shall be charged at 50% of the normal building permit fee. Applicants using a private provider for both plan review and inspections are eligible for the 50% reduction on both the plan review fee and the permit fee.

Building Permit Fees shall be submitted at the time of building permit application. No Building Permit Application will be accepted without the required permit fee. All Public, Private, and Governmental Entities shall be required to pay building permit fees.

Refund, Extension, and Expiration Policy:

- Building Permit (Applicant Requested) refunds where project is not started will be charged a processing fee of $70.00
- Extensions of Building Permits approved by the Building Official for permits that have not expired is $70.00
- Extension and reissuance of expired permit is $70 (inspection fees not included).

Note: No refunds shall be issued on expired permits.

Plan Review Examination Fees:

Plan Review	Fees
• When a plan review is required based on requirements of the Florida Building Code, a plan review fee shall be paid at the time of submitting plans and building permit application. Such plan review fees is in addition to the building permit and Fire Marshal Review Fee. If the building permit application is withdrawn after the plan are reviewed the plan review fee is not refundable.	20% of Building Permit Fee
• Plan Re-stamping or Re-certification Fee	$70.00 base plus hourly
• Hourly	$80.00
• Revision and correction of plans	$40 base plus $20 for each 15 min. increment over the initial 15 min

Note: *Hourly rate calculated by rounding up to the nearest full hour.

Fire Prevention Plan Review and Inspection Fees:

- Refer to the Public Safety Department portion of the Fee Schedule for a complete list of the fees and charges provided by the Fire Prevention Division of the Public Safety Department

State of Florida Surcharges:

	Surcharge
• Florida Building Commission Surcharge – Submitted to the Florida Department of Community Affairs	1% of all base building permit fees; minimum surcharge collection $2.00 per Florida Statute 553.721
• Building Code Administrators and Inspectors Fund Surcharge – Submitted to the Florida Department of Business and Professional Regulation	1.5% of all base buildings permit fees; minimum surcharge collection $2.00 per Florida Statute 468.631

Flat Rate Building Permit Fees:

Building Permit	Fees
• Manufactured or Mobile Home	$330.00
• Move On Structure	$170.00
• Residential Modular Structure (Per Building Section) [3]	$240.00
• Commercial Modular Structure[AC1]	$400.00
• Residential Swimming pool (in ground)	$290.00
• Residential Swimming pool (above ground)	$155.00
• Power for New or Replacement Well	$155.00
• Residential Mechanical Alt/Repair	$85.00
• Roof: New Residential	$165.00
• Roof: Repair Residential	$165.00
• Roof: New Commercial	$200.00
• Roof: Repair Commercial	$200.00
• Any Demolition	$155.00

Notes:

1. Permit fees listed above include minimum required inspections. Additional inspection fee may apply.
2. Properties with a homestead exemption and with a Total Just Value of less than $50,000, as determined by the Alachua County Property Appraiser within the last year, shall have building permit fees reduced 50 percent.
3. This applies only to Modular Structures approved by the Florida Department of Economic Opportunity. This permit fee includes base permit fee plus on-site inspections; temporary pole, foundation, plumbing, and final, but does not include Fire Marshal review or inspections

Inspection and Certification Fees:

Inspection or Certification	Fees
• Building Inspections (not included in permit)	$70.00
• Building Inspection – Overtime Rate for Special Emergency Requests for Inspections after hours, on weekends and holidays (2 hour minimum)	$105.00/hour
• Re-inspection fee (to be paid prior to requesting next inspection after failed inspections). All disapproved inspections shall require a mandatory re-inspection fee	$70.00
• Certification, Renewal, or Copy of Certificate of Occupancy	$70.00
• Zoning Certification and Review	$70.00
• Curb Cut/Driveway Application Processing and Inspection	$26.00
• Requested building inspection exceeding the standard number of inspections paid for in the original building permit will be charged an additional inspection fee per inspection	$70.00
• Request for Information on code violations, liens and expired permits in written format, one parcel with 4 or fewer addresses	$170.00
• Request for Information on liens and expired permits in written format, one parcel with 4 or fewer addresses for municipalities where the County provides building permitting services but no code enforcement	$140.00

Note: The Standard Number of Building Inspections allowed for a building permit can be calculated by taking the Calculated Dollar Value of Construction Fee minus the Minimum Base Permit Fee and dividing by $70.00 New Single Family Development will be provided twelve (12) standard inspections as required by the Florida Building Code.

Note: Information request for 5 or more addresses per parcel, each address must pay an additional $5 per address.

Contractor License Fees:

Note: License renewals for registered contractors require bi-annual renewal. The license fee is double if the license is on the involuntary inactive list.

License	Fees
• License Renewal for Registered Contractor	$50.00
• Journeyman Electrician	$50.00
• Journeyman Plumber	$50.00
• Inactive License	$30.00
• Reciprocity Letter	$20.00

License Fees for Third Party Inspection Provider Online Access:

License Type	Fees
• Purchase of initial license and one year of maintenance	$150.00
• Annual license maintenance after first year	$900.00

Note: All providers that contract to provide inspection services to owners or contractors in Alachua County must purchase a license for access to the County's online permitting system and are responsible for entering all inspections and results on behalf of their clients.

Scanning Fees:

Scanning Services	Fees
• Base fee per permit for scanning and importing all documents 11 x 17 or smaller	$16.00
• Additional fee per page for all pages larger than 11 x 17	$4.00

Administrative Permit Fees:

Permit	Fees
• Administrative Temporary Use Permit for outdoor promotional sales, special event sales and the sale of seasonal or temporary goods and commodities	$65.00
• Administrative Temporary Use Permit for filming and media production	$65.00

Subdivision Inspection Fee:

Inspection	Fee
• Paving and drainage inspection (appropriate driveway fee additional)	$1,430.00 + $100/100 linear feet of roadway

Traffic Sign Fees:

Note: A fee will be charged to developers of new subdivisions for the installation of new traffic signs. The same fees will apply to requests from individuals or homeowners associations for installation of signs on roads not maintained by Alachua County. The fee covers plan review, site inspection, sign materials, sign preparation and clerical activities associated with the installation. Signs on the County, State, or City street system will be installed by the County and there will be an installation charge. Signs will not be installed on private roads.

Sign	Fees
• Street name signs (Each plate)	$13.00/square foot
• Regulatory/traffic signs (Standard)	$8.00/square foot
• Special Request Signs (Special Orders)	$11.00/square foot
• Channel iron posts 6 foot	$6.00 each
• Channel iron posts 10 foot	$16.00 each
• Channel iron posts 12 foot	$20.00 each
• Street sign posts 12 foot w/pyramid cap	$25.00 each
• Street sign posts 14 foot w/pyramid cap	$28.00 each
• Installation	$50.00 each

Note: The fee payment is required prior to installation of signs. For new subdivisions the fee payment is due upon issuance of a construction permit.

Sign	Fee
• Vehicle Markings per sq. ft.	$6.00

Vacating Plat and Road Fees:

Note: Filing fees for vacating plats and roads do not include the cost of legally required advertising. Petitioners will be charged for the County's actual advertising cost, on a case-by-case basis, in addition to filing fees.

Activities	Fees
• Filing fee for vacating plats or portions thereof	$645.00
• Filing fee for vacating streets, roadways, etc. or portion thereof	$645.00
• Filing fee for vacating unopened streets, roadways, etc. or portion thereof	$345.00

Surveying Services:

Surveyor	Fees
• Sr. Survey Technician	$60.00
• Survey Technician	$50.00
• Survey Aide	$40.00
• County Surveyor	$60.00

Countywide Services

Proprietary Fee:

- Proprietary fees are based on market value.

Collection Fee:

- This is a supplemental fee assessed to accounts placed with a collection agency. The fee will be the current contracted collection agency percentage fee of the balance due at the time the account is transferred to the collection agency. The collection fee will be removed if the account is removed from placement with the collection agency.
    - The fee is the amount charged by the collection agency**.**

Computer Replacement:

- The annual rental rate may be charged to the department at cost. Also, the following formula may be applied:

$$Annual\ Rental\ Rate = \frac{Cost\ of\ Computer\ Equipment}{Life\ Expectancy\ in\ Years}$$

Conduit Debt:

- Conduit Debt Review Fee – The review fee is five (5) basis points on the total par amount of the bond(s).
    - The minimum fee is $10,000 and the maximum fee is $25,000.
- Bank Eligible Obligation Issuance Fee – At the beginning of each calendar year, the County's Finance Officer or designee shall calculate, based on then-current market rates and assuming a $10 million issue of bonds maturing in 10 years. The fee is based on:
    - The difference between interest rates on bank eligible obligations and non-bank eligible obligations of the County (the "differential"), **AND**
    - The net present value (NPV) amount determined by applying said differential over a 10 year amortization period. The Bank Eligible Obligation Issuance Fee is equal to the NPV differential calculated above.

Development Review Application Fees:

- The County Manager may waive development review application fees and charges to not-for-profit corporations that submit affordable housing projects (See the Alachua County Land Development Code for the definition of affordable housing).

The manager, or designee, may set any combination of fees and charges for goods and services not specified in this fee resolution.

The County Manager may waive development review application fees to not-for-profit corporations that submit affordable housing projects (see the Alachua County land Development Code for the definition of affordable housing).

Document/Copying Fees:

Activities	Fee
• Documents copied by private vendor	Sold at per copy cost for printing
• Staff Zoning Reports	$1.00/report
• Documents Copied onto Media (i.e. Audio or Video Cassettes, Compact Disc or Diskettes)	Cost of media (+) hourly rate on employee copying files * time required
• Plain Color Copies:	
o Single Sided	$0.15/page single sided
o Double Sided	$0.20/page double sided
• Color Prints/Copies:	
o Tabloid Size	$0.60/side
o Legal Size	$0.40/side
o Letter Size	$0.30/side
• Plots:	
o Plots with queries	$35.00/hour
o Plots not requiring queries	$25.00/plot
• Wide Format Copies:	
o 24x36 inches	$1.00
o 30x42 inches	$1.50
o >30x42 inches	$1.50 + $0.10/linear ft
• Certified Copies:	
o Preparation of a certified copy of any public record	Additional $1.00/copy

Note: If total amount for copies is less than $1.00, there will be no charge.

Activities	Fee
• Special Service Charges as authorized by section 119.07(1)(b), Florida Statutes, when the nature or volume of public records requested to be inspected, examined or copied requires extensive use of information technology resources or extensive clerical or supervisory assistance by County personnel, including the requirement to safeguard records during their inspection	Hourly rate of employee(s) providing service
• Extensive means that the request will take more than 30 minutes to locate the records, review for confidential information and copy, or to observe the inspection of records to safeguard them from loss or destruction	
• Copying blueprints	Approx. $4.50/print depending on the outside vendor cost

Dishonored Checks:

- For checks dishonored by the bank, there will be a bank fee (Bank Fee Schedule) and a service charge in accordance with the amounts allowed under Florida Statutes at the time the check is dishonored. Chapter 68.065 (Actions to Collect Worthless Checks), Chapter 125.0105 (Service Fee for Dishonored Checks), Chapter 832.07 (Prima Facie Evidence of Intent) and Chapter 832.08 (State Attorney Bad Check Diversion Program) all pertain to fees on dishonored checks. The amounts as of July 1, 2013 are:
    - $25.00 if the face value of the check does not exceed $50.00,
    - $30.00 if the face value exceeds $50.00 but does not exceed $300.00,
    - $40.00 if the face value exceeds $300.00,
    - or up to 5% of the face amount of the check, whichever is greater.

Vehicle Replacement:

$$Annual\ Rental\ Rate = \frac{(Cost\ of\ Vehicle * 10\%\ Inflationary\ Factor) + Cost\ of\ Vehicle\ (including\ finance\ charges)}{Life\ Expectany\ in\ Years}$$

Activities	Fees
• Cost of Supervision – Level II o This fee is not automatically assessed and is ordered by sentencing Judge as a condition of probation and actual fee assessed may vary. Indigent probationers may perform community service in lieu of cash payments, at an equivalency rate of $10.00 for 1 hour of community services	$50.00/month
• Curfew Monitoring	$2.00/day
• Case Management – (MONITORCONNECT)	$5.00/month
• Electric Monitoring (EM)/Global Positioning System	$5.00/day
• Transdermal Alcohol Device (TAD)	$5.00/day

Work Release:

Activities	Fees
• Work Release Inmates • Supervision o This will not be an additional fee assessed directly to Work Release residents, but will come from 50% of gross pay collected Work Release Inmate Room & Board Fees • Drug and Alcohol Testing o This will not be an additional fee assessed directly to Work Release residents, but will come from 50% of gross pay collected Work Release Inmate Room & Board Fees • Electronic Monitoring (EM)/Global Positioning System (GPS) o This will not be an additional fee assessed directly to Work Release residents, but will come from 50% of gross pay collected Work Release Inmate Room & Board Fees	50% of their net income

Environmental Protection

Disposal and Supply Costs for Conditional Exempt Small Quantity Generator (CESQG) Business of Hazardous Wastes:

Note: These fees are the hazardous waste disposal costs for Conditionally Exempt Small Quantity (CESQG) business and counties with an interlocal agreement with Alachua County. The Hazardous Waste Collection Center will accept CESQG waste during normal operational hours. The fees are to cover disposal costs, labor and supplies for the proper disposal of hazardous wastes generate by CESQG business in Alachua County and the HHW counties with an interlocal agreement.

Lot A – Bulk Packs:

Waste	Fees
• Alkyd Paint	$3.70/gal
• Antifreeze	$0.75/gal
• Corrosive liquids, acids	$3.20/gal
• Corrosive liquids, alkaline	$3.10/gal
• Flammable, combustible liquids	$3.70/gal
• Flammable, liquids (halogenated)	$3.85/gal
• Formalin Solution	$13.00/gal
• Non-hazardous liquids, NON-RCRA	$1.95/gal
• Latex Paint	$1.95/gal
• Pesticides, liquids	$13.00/gal
• Pesticides, solids	$3.00/lb
• Photographic solutions	$4.50/gal
• Sludges, non-hazardous	$1.95/gal
• Sludges, hazardous	$13.60/gal
• Solids, hazardous	$1.30/gal
• Solids, hazardous-55 gallon drum	$220.00/drum
• Solids, hazardous-Cubic yard box	$770.00/CYB
• Wastewaters, non-hazardous	$1.95/gal
• Wastewaters, hazardous	$4.50/gal
• Waste Gasoline	$1.50/gal
• Waste Glycerin	$3.85/gal
• Used oil or other lubricants	$0.50/gal
• Petroleum Contact Water/Oily Water	$1.35/gal
• Used oil or other lubricants, per 55 gallon drum	$27.50/drum

Lot B – Loose Packs:

Waste	Fees
• 20 lb. propane tank	$2.90/unit
• 5 gallon pail of oil filters	$3.90/unit

Waste	Fees
• 55 gallon drum of oil filters	$22.60/drum
• 55 gallon drum of oil	$41.75/drum
• Aerosol cans	$1.15/lb.
• Alkyd Paint	$7.80/gal or $0.78lb.
• Batteries, Lithium/mixed button	$5.29/lb.
• Batteries, Ni-Cad, wet or dry cell	$1.10/lb.
• Capacitors	$1.50/lb.
• Computer Monitors, LCD/LED Televisions	$025/lb.
• Crushed Fluorescent Lamps	$200.00/drum
• Fluorescent lamps Irregular shape (circular)	$0.40/unit
• Fluorescent lamps Compact	$0.40/unit
• Fluorescent lamps less than 4 ft	$0.40/unit
• Fluorescent lamps more than 4 ft	$0.40/unit
• HID, Metal Halide, Mercury Vapor Lamp	$1.00/unit
• Non PCB Ballasts	$0.50/unit
• PCB Ballasts	$3.00/unit
• Products in containers liquids/solids, Hazardous	$5.45/gal
• Products in containers liquids/solids, Non-Hazardous	$1.95/gal
• Rags/Pads, non-hazardous	$49.50/drum
• CRT Televisions and CRT Monitors	$0.40/lb.
• Misc. Electronics (cables, keyboards, printers, etc.)	$0.10/lb.

Lot C – Lab Packs:

Waste	Fees
• Corrosive liquids, acid or alkaline, toxic	$4.90/gal
• Corrosive liquids, oxidizing	$30.00/gal
• Corrosive solids	$0.49/lb.
• Corrosive solids, acid, or alkaline, toxic	$0.49/lb.
• Cyanides, liquid or solid	$53.24/gal or $5.32/lb.
• Flammable liquids	$4.50/gal
• Flammable solids	$1.20/lb.
• Isocyanates, liquid or solid	$53.24/gal
• Mercury debris	$1.10/lb.
• Mercury in manufactured containers	$4.45/lb.
• Mercury sales	$3.90/lb.
• Mercury, elemental	$4.45/lb.
• Oxidizers, liquid or solid, toxic	$2.95/lb.
• Oxidizing, liquids	$29.50/lb.
• Oxidizing, solids	$2.95/lb.

Waste	Fees
• PCB's	$0.61/lb. or $6.10/gal
• Peroxides, inorganic	$29.50/gal
• Peroxides, organic	$25.56/gal
• Poison Liquids	$18.81/gal
• Poison solids	$0.85/lb.
• Reactive	$5.85/lb.

Lot D Supplies:

Waste	Fees
• 10' x 20' tent rental (including set up and take down_	$150.00day
• 1A2 55 gallon drum	$26.35/unit
• 1H2 5 gallon pail	$5.50/unit
• 100% Post-consumer Recycled Paint for Purchase	$2.00/gal or $10.00/5 gal pail
• Disposal of 55 gal drum	$10.20/unit
• Metals analysis for hazardous waste testing	$150.00/sample
• Vermiculite (4 cubic foot bag)	$12.20/unit

Environmental Review Application Fee:

NOTE: Fees shall double if the activity under reviews was started or conducted prior to receipt of all necessary approvals.

Activities	Fees
• Review/renewal of Environmental Monitoring Plans	$3,700.00
• Review of Environmental Monitoring Submissions – annual charge	$800.00
• Review/renewal of Environmental Monitoring Plans – minor category (Determination of "minor" made at the time of application)	$260.00
• Review of Environmental Monitoring Submission – minor category – annual charge	$255.00

Hazardous Materials and Water Quality Programs

Investigation, Cleanup, and Discharge Response Fees:

NOTE: Reimbursable costs incurred by Alachua County associated with the response and/or cleanup of hazardous material discharge or investigation of a Water Quality Code (Alachua County Land Development Code, Chapter 77) violation shall be charged and billed to the responsible party (or their insurance carrier) and shall include, but not limited to: cost of cleanup oversight and site rehabilitation report review; cost of equipment operation and maintenance; personnel cost of contracted services; waste transportation and disposal costs; cost of materials; laboratory costs; and County's labor costs. County labor costs associated with a non-

transportation oriented hazardous materials discharge will not be charged to the parties who have paid and are not delinquent in paying registration fees associated with the Hazardous Materials Management Code (Alachua County Land Development Code, Chapter 353).

Activities	Fees
• County Labor Cost	$60/hour/person for staff time
• Other Reimbursable Costs	To be billed at cost

Hazardous Materials:

• Facility Class	
o AA	$60.00
o A	$120.00
o B	$230.00
o C	$610.00
o D	$750.00
o Tanks	$90.00/tank

NOTE: This is an annual fee.

NOTE: The Facility Classes are established by criteria in Alachua County Land Development Code, Chapter 353 as follows: type of use, anticipated volumes of hazardous materials to be stored, the complexity of hazardous materials storage facilities, and the potential for discharge. Fees include cost of applicable Hazardous Materials Storage License.

Activities	Fees
• Late Fee	1 1/2 % per month on unpaid balance

Plan Review Fees:

Plans	Fees
• Installation & Secondary Containment Plans	$75.00
• Closure Plans	$150.00
• Pollution Prevention Plans	$150.00
• Alternate Procedures Plans	$75.00

Water Quality

Activities	Fees
• Wastewater Treatment Plant Inspection – Field Services	$1,325.00 annually/plant
• Late Fees	1.5% per month on the balance

Special Sales:

- Items that promote water conversation such as rain barrels and other waster saving devices are sold at cost plus sales tax.

Irrigation Efficiency Code Fees:

Code	Fees
• Residential Approval Fee	$50.00
• Residential County Inspection Fee	$85.00
• Residential County Re-Inspection Fee	$50.00
• Non-residential Approval Fee	$100.00
• Non-residential County Inspection Fee	$170.00
• Non-residential County Re-Inspection Fee	$100.00

After the Fact Irrigation System Approval Fee:

- Approval fee for all irrigation systems (residential and non-residential) that are installed or significantly modified prior to obtaining approval is $100.00

Timber Sales

- Sale of Timber is based on the Market Price as determined by competitive bid.

Fire: Plan Review and Inspections

Fire Prevention Plan Review and Inspections:

Periodic Fire & Life Safety Inspections per F.S. 663.025(2), 663.081(1) and F.A.C. 69A-60.007(1)

Inspections	Fees
• Fire Inspection o Initial inspection fee will be charged the standard fee based on the fee schedule for the size of the building as set forth below	
• Re-Inspection o 1st Re-Inspection o Additional Re-Inspections will be charged an inspection fee equal to twice the standard fee for the size of the building, as set forth below	$0.00
• Square footage of inspected structure o 0-3,000	$76.75
o Over 3,000 - 5,000	$88.75
o Over 5,000 – 10,000	$100.75
o Over 10,000 – 25,000	$113.75
o Over 25,000 – 50,000	$125.25
o Over 50,000 - 75,000	$137.25
o Over 75,000 – 100,000	$149.25
o Over 100,000 – 125,000	$161.50
o Over 125,000 – 150,000	$173.75
o Over 150,000 – 175,000	$185.75
o Over 175,000 – 200,000	$198.00
o Over 200,000	$198.00 Plus $12.00 for each incremental addition of 25,000 square feet
• Special Request for Inspections after hours, weekend, or holidays	$100 hour
• Tents and Membrane Structures	$70.00/first tent or membrane structure; $5.00 each additional structure
• Fireworks – Sales or Storage o (Permanent Retail or Wholesale Facility)	$70.00 per inspection
• Fireworks Display	
o Site plan review	$50.00
o Inspection	$70.00/hour
o Standby – minimum 2 hour charge	$105.00/hour
• Special Events/Fire Works Sales – includes site plan review and inspection	$105.00

Inspections	Fees
• Fire Inspection(s) Generated from Complaint (Fee applies only if complaint is validated)	$70 per inspection

New Construction Fees:	Plan Review Fee	Inspection Fee
• Fire Marshal Release – minimum fee permit unless otherwise stated	$50.00 per permit	$70.00 per inspection
• After the fact permits billed at double the calculated rate		
• New Buildings and Building Alterations	$20.00/story + $0.02/sq. ft.	
o Pre-compliance (concealments, etc.)		$20.00/story + $0.04/sq. ft.
o Fire Marshal Release		$15.00/story + $0.03/sq. ft.
• Fire Sprinkler and Standpipe (new)	$50.00/riser + $30.00/additional story + $0.25/head	
o Hydro and Rough Pipe		$75.00/riser + $30.00/additional story + $0.50/head
o Final		$50.00/riser + $35.00/additional story + $0.25/head
• Fire Sprinkler Alteration: o Up to and including 49 heads; alterations effecting more than 49 heads are treated as new installations; charges are based on riser and number of modified heads only.	$50.00/riser + $0.25/head	
o Hydro and Rough Pipe		$75.00/riser + $30.00/additional story + $0.50/head
o Final		$50.00/riser + $35.00/additional story + $0.25/head
• Underground Fire Main o Add fee to fire sprinkler if fire sprinkler/standpipe permit includes underground fire main	$50.00	

New Construction Fees:	Plan Review Fee	Inspection Fee
o Burial Depth, Joints, and Flush		$50.00 + $0.50/linear ft.
o Hydro and Final		$75.00
• Fire Alarm o New-Including monitoring only systems	$50.00/panel + $0.50/additional device	
o Rough Wire		$50.00/panel + $20.00/additional story + $0.50/additional device
o Final		$50.00/panel + $0.50/additional device
• Fire Alarm Alterations o Value up to $5,000.00; system alterations exceeding this amount are treated as new install; Fire Alarm Alteration charges based on Pane + number of modified devices only	$50.00/panel + $0.50/additional device	
o Rough Wire		$50.00/panel + $0.50/additional device
o Final		$50.00/panel + $0.50/additional device
• Exhausted Hood (each)	$50.00/hood	$70.00/system
• Pre-engineered Suppression System (each)	$30.00 + $3.00/gallon of agent	$70.00/system
• Pre-Engineered System Alteration	$30.00 + $3.00/gallon of agent	$70.00/system
• Fire Pump (each)	$75.00/pump	$180.00/pump
• Spray Booth	$30.00 + $0.50/sq. ft.	$45.00 + $0.50/sq. ft.
• Fuel Tanks (above ground and underground)	$45.00 + $15.00/additional tank	
o Hydro and Suds Test		$45.00 + $15.00/additional tank

New Construction Fees:	Plan Review Fee	Inspection Fee
o Burial Depth and Tie Down		$45.00 + $15.00/additional tank
o Final		$45.00
• LP Gas	$45.00/tank	$45.00/tank
• Gate		$70.00
• Alternative Water Supply	$60.00	$140.00
• Re-Review Fees – 3rd Review and Each Subsequent Review	1 ½ * Original Review Fee	
o 2nd Failed Inspection of Same Inspection Type		Original Inspection Rate
o 3rd Failed Inspection		1 ½ * Original Inspection Rate
• Overtime – 2 hour minimum	$90.00/hour	$90.00/hour
• Permits Charged by the Hour (Regular Time)	$60.00/hour (one hour minimum)	$60.00/hour (one hour minimum)
• Radio Enhancement System Review	$50.00/panel + $50/additional device	$50/panel + $20/additional story + $0.50/additional device

Fire: Emergency Medical Services

Emergency Medical Services:

See Emergency Medical Services Fee Details; Pages 22-23

Medical Services	Fees
• Advanced Life Support (ALS) Transport Fee I	$625.00
• Advanced Life Support (ALS) Transport Fee II	$885.00
• Specialty Care Transport (SCT)	$1,170.00
• Basic Life Support Transport Fee	$520.00
• Team/Equipment/Transport Fee	
o Non-Emergency Response	$220.00
o Emergency Response	$520.00
• ALS Treatment Fee/Non-transport	$250.00
• BLS Treatment Fee/Non-transport	$180.00
• Special Event and Standby	
o ALS (includes 2 personnel)	$192.00/hour
o Additional Staffing (Events Requiring Additional Personnel)	$60.00/hour/person

.

Supplemental Charges:

See Supplemental Charge Fee Details; Page 24

Supplemental Charge	Fee
• Trauma Fee	$115.00
• Alert Fee	$156.00
• Transport Mileage (total)	1-50 miles $15.00/mile 51 + miles $10.00/mile
• Special Handling	$85.00 per hour per crew member
• Waiting Time with Patient	$143.00 for 1st ¼ hour $64.00 per ¼ hour thereafter
• Collection Fee	Amount charged by collection agency

Supplemental Charge: Certifications

Note: These are the fees and charges that will be charged to each participant in the following classes. ACFR, GFR, Fire Service Network participants, and member of ACFR's Reserve Program are exempt from class fees, but will be charged for the cost of the cards if there is a fee.

Certification	Fees
• Basic Life Support (CPR)	
o Certification Card	$3.00 each

Certification	Fees
o Heartsaver	$15.00/person + $15.00/book
o BLS for Healthcare Providers	$45.00/person + $15.00/book
o BLS for Healthcare Providers Recertification	$20.00/person
o Heartsaver First Aid	$30.00/person + $15.00/book
• Advanced Cardiac Life Support (ACLS)	
o Certification Card	$5.00 each
o Nurses and Paramedics	$75.00/person + $30.00/book
o Physicians/Others	$100.00/person + $30.00/book
o ACLS Recertification	$75.00/person
• International Trauma Life Support (ITLS)	
o BTLS Re-Certification	$20.00 each
o Basic and Advanced	$100.00/person
o BTLS Recertification	$75.00/person
• Emergency Vehicle Operations Course (EVOC)	$75.00/person
o Recertification	$50.00/person
• 40 Hour First Responder	$50.00/person
o Recertification	$20.00/person

E911 Map Printing Fees:

Map Printing	Fees
• Wall Map 6’ x 6’ o This is the fee that will be charged for the 911 office to create the digital data and place on flash drive.	$56.00 (includes 2 Staff Hours) $28 per additional hour
• This is the rate that will be charged for creating and printing each map. Each fee includes one hour of labor. Additional labor is $18.00 per hour	
o Up to 11” x 17”	$28.00
o Greater than 11” x 17” and not greater than 3’x4’	$35.00

Emergency Management Plan Review:
Per Florida Rule 9G-20.003, F.S. 252 and Agency for Health Care Administration (AHCA) Standard 59A-26.023

Plan	Fees
• Review of emergency plans for health care, hospital, and/or group home type facilities for:	
o New Plan Review < 16 beds	$25.00/hour + 25% Administrative Fee
o New Plan Review > 16 beds	$500.00
o Existing Plan Review	$25.00/hour + 25% Administrative Fee (maximum fee $250.00)

Sharps Disposal Program:

- This program is a community service designed to assist residents with safe and environmentally sound method to dispose of sharps (syringes, needles, and lancets). The fee is $3.00/box

Unmanned Aerial Systems:

- Reimbursement rate to be determined based on each request. Service may be exempt from fees if public safety purpose is determined. Average cost is approximately $125.00/hour; however, varied depending on equipment use, staff requirements, etc.

Emergency Medical Services Fee Details:

Advanced Life Support (ALS) Transport Fee I:
This is the base ALS transport fee that will be charged to each patient that is transported by any ground or air ambulance and receives any of the listed procedures. This fee is inclusive of, but not limited to, any of the following procedures:

A. Cardiac Monitor
B. Vascular Access (including catheters, saline locks, administration sets, blood draws, and all fluids)
C. Obstetrical Kits
D. Medications approved by the Department Medical Director and administered to patients including, but not limited to, those medications listed in the Department Medical Care Protocols Medication list.

Advanced Life Support (ALS) Transport Fee II:

This is the base ALS transport fee that will be charged to each patient that is transported by any ground or air ambulance and receives at least three administrations of medication(s) by IV push/bolus or continuous infusion and/or the provision of at least one of the following ALS procedures. This fee is inclusive of, but not limited to, any of the following procedures:

A. Cardio-pulmonary resuscitation
B. Defibrillation/cardioversion
C. Endotracheal/Nasotracheal intubation
D. Central venous line
E. Cardiac pacing
F. Chest decompression
G. Surgical airway
H. Intraosseous line
I. Medications approved by the Department Medical Director and administered to patients including, but not limited to, those medications listed in the Department Medical Care Protocols Medication List

Specialty Care Transport (SCT):

This is the base SCT transport fee that will be charged to each critically ill or injured patient that is transported by ground ambulance. Transport will include an inter-facility transfer of a patient with medical conditions beyond the scope of a Florida certified Paramedic and include medically necessary supplies and services. This fee is inclusive of transport provided by a critical care certified paramedic and is inclusive of, but not limited to, any of the following procedures:

A. Management of a respiratory ventilator
B. Management of intravenous (IV) pumps
C. Management of central venous line

Basic Life Support Transport Fee:
This is the base transport fee that will be charged to each patient requiring transport where no ALS procedures are administered.

Team/Equipment/Transport Fee:
This is the base transport fee that will be charged for each transport where a patient is not on board (i.e.: medical team(s) and/or medically equipment only).

ALS Treatment Fee/Non-Transport:
This is the fee that will be charged to each patient what receives any of the following procedures and is not transported via ground or air ambulance:

A. Vascular access (including catheters, saline locks, administration sets, blood draws, and all fluids)
B. Obstetrical Kits
C. Medications (those medications listed in the Department Medical Care Protocols Medication List)*

BLS Treatment Fee/Non-Transport:
This is the fee that will be charged to each patient that receives treatment where no ALS procedures are administered and is not transported via ground or air ambulance:

A. Sterile bandaging/dressing
B. Splinting/immobilization
C. Oxygen Administration
D. Irrigation with sterile fluid

Note: Time is calculated from the time of arrival or the request time of arrival (whichever is later) through the unit available time as documented by the EMS report. Only time increments greater than 7 minutes will be rounded up to the next quarter hour.

Note: Schedule of fees will be applied to patients receiving any billable EMS services at special events.

Emergency Medical Services:

SUPPLEMENTAL CHARGE FEE DETAILS

Trauma Fee:
This is a supplemental fee to be charged to each trauma patient that requires ALS I, II, or BLS intervention, full spinal immobilization that includes cervical immobilization device, pediatric immobilization device, collar, backboard, and/or straps.

Alert Fee:
This is a supplemental fee to be charged to each patient that requires transportation to the hospital under an alert issued to the receiving hospital (i.e. trauma, stemi, stroke, infectious disease, etc.)

Transport Mileage: Minimum of one mile
Charge will begin when transporting patient(s) or specialized teams. Mileage charges will be equally divided between patients when multiple patients are transported from the same incident and in the same unit.

Special Handling:
This is a supplemental fee to be charged for unruly patients that requires restraints, or if two Alachua County Fire Rescue units are required for lifting purposes, or if an additional ACFR crew member is required during transport. Only time increments greater than 7 minutes will be rounded up to the next quarter hour.

Waiting Time with Patient:
This is a supplemental fee to be charged when there is a delay in transferring the patient from the care of Alachua County Fire Rescue to the care of the receiving authority. A minimum of fifteen (15) minutes waiting time must accrue before charging for the first ¼ hour period. Thereafter, the quarter hour charge applies for time increments greater than 7 minutes, rounded to the next ¼ hour.

Collection Fee:
This is a supplemental fee assessed to accounts placed with a collection agency. The fee will be the current contracted collection agency percentage fee on the amount collected by the collection agency. The collection fee will be removed if the account is removed from placement with the collection agency.

Growth Management

Development Review:	Amount	Resubmit Amount	Fee/AC Over 10*
• Preliminary Plan	$4,000	$970	$40
• Preliminary Plan or Revised Preliminary Plan over Threshold	$5,100	$740	$22
• Preliminary and Final Development Plan (see note 7)	$3,200	$750	$24
• Final Plan	$5,100	$740	$0
• Plat Review	$1,500	$330	$0
• Rural Unpaved Subdivision – Preliminary Plan and Final Plan	$1,900	$420	$25
• Revised Preliminary Plan or Final Plan	$2,400	$750	$0
• Re-Plat	$600	$0	$0
• PD Minor Change	$1,100	$0	$0
• Minor Development Plan	$1,600	$0	$0
• Administrative Plan Review	$1,200	$0	$0
• Ag Ponds over 200 Cubic Yards	$1,300	$495	$0
• Flood Prone Permits and Docks over 1,000 square feet.	$1,500	$600	$0
• Administrative Development Plan Approval for Docks	$600	$0	$0
• Variance to building setback, building height, or flood hazard protection standards	$1,300	$0	$0
• Rural Home Based Business Review	$130	$0	$0
• Hourly Rate	$65	$0	$0
• Tree Removal Permit	$90		
• Tree replacement mitigation (fee in lieu replacement)	$130/inch		

Note: *Area is computed by rounding up to the nearest full acre.

1. Fees shall cover expenses of review conducted during the one-year period commencing on the date the fee is paid; if plans are submitted for the same project more than one year from the date, a new fee shall be required.
2. A new fee shall be required if a significant change in the scope of the project is made.
3. The base fee includes the initial application, one insufficiency report and resubmittal. If any additional insufficiency reports are required, the resubmittal fee shall be collected with the second resubmittal.
4. Preliminary plans that are over the threshold are defined in the Unified Land Development Code, Section 402.44
5. Fees are allocated to Growth Management, EPD, Public Safety and Public Works.

6. After a pre-application review meeting, an application for a combined Preliminary and Final Development Plan must first be authorized by Growth Management Director or designee.
7. Staff administrative review for submittals such as minor adjustments for approved plan shall be charged at the hourly rate.
8. Properties located within the Northeastern and Southeastern Urban Cluster as shown on the Alachua County Future Land Use Map shall have application fees for land use, zoning or development review reduced 50 percent.

Planning and Land Use Fees	Amount	Fee/AC Over 10*
• Rezoning To "A" or "C-1" District for a single family lot	$2,000	$14
• Rezoning, Special Use Permit, or Special Exception	$5,900	$21
• Special Use Permit for Mining or Excavation and Fill	$8,800	****
• Special Use Permit and Preliminary Development Plan Review	$7,100	$34
• Planned Development	$7,200	$25
• Planned Development and Preliminary Development Plan Review	$7,800	$34
• Major Amendment (PD, SUP, or SE)	$4,800	****
• Minor Amendment (PD, SUP, or SE), Scenic Road Variance, or Temporary Use Permit	$1,900	****
• Large Scale Comprehensive Plan Amendment	$8,500	$30
• Small Scale Comprehensive Plan Amendment	$7,100	$30
• Large Scale Comprehensive Plan Amendment & Rezoning	$9,000	$30
• Small Scale Comprehensive Plan Amendment & Rezoning	$7,600	$30
• ULDC Amendment	$2,000 base plus hourly	****
• Water Sewer Determination	$1,200	****
• Property Owner Notification (per 50 letters)	$40	****
• Hourly Rate (where applicable)	$65	****
• Proportionate Share Determination	Hourly	****
• Vested Rights Fee	Hourly	****
• Sector Plans	Initial Deposit of $7,500	
• Public Facilities Annual Report Review Fee for DRI establishing Special District under Chapter 189, Florida Statutes	$250.00

• Community Development District (CDD) Annual Budget Review Fee (for CDD established pursuant to Chapter 190, Florida Statutes and associated with a DR	$500.00	
• Community Development District Review Fee	$5,000.00	

Note: *Area is computed by rounding up to the nearest full acre.

1. In addition to the staff review fee, Tier II and Tier III applications shall be charged consultant fees to evaluate RF engineering and prepare Visual Impact Stimulations as directed by staff.
2. Comprehensive Plan Amendment: Where an applicant submits a proposal for territory other than under his/her direct control, only that area under his/her direct control shall be included for the purposes of calculating the fee. Small scale amendments are applications which conform to section 163.3187(1)(c), Florida Statues. No acreage fee shall be assessed for large-scale map amendment applications which request redefinition to the Rural/Agriculture land use classification.
3. Fees are allocated to Growth Management, EPD, Fire, and Public Works.
4. Properties located within Northeastern and Southeastern Urban Cluster as shown on the future Land Use Map shall have application fees for land use, zoning, or development review reduced 50 percent.
5. Request for Preservation Land use or zoning district designations shall be assessed a fee for advertising only, to be determined at the time of the application submittal.

Planning and Development Fee Policies:

1. No rezoning or plan amendment requests shall be accepted for processing until the required application fee, or reduced fee as established by Fee Policy number five, is paid. An application fee may be refunded only if the application is withdrawn prior to the County incurring direct costs in processing the application (i.e. copying and distributing copies to staff, advertising, postage, printing reports, etc.)
2. In the event that re-advertisement of an application due to any delay or postponement requested by the applicant, or necessitated by some act or failure to act on the part of the application, a supplemental fee of $250.00 plus postage costs per advertisement will be charged for a Zoning Application and a supplemental fee of $560 per advertisement for a Comprehensive Plan Amendment or Zoning Ordinance Amendment Request. This supplemental fee is intended to cover additional costs for re-advertisement. No additional fee shall be charged if the postponement is requested by the County.
3. A separate fee shall be charged for each action requested unless the Director of Growth Management determines that the requested action is related to another requested action by the applicant and that the request will require no additional staff time (see Fee Policy number 5).
4. The Director of Growth Management may reduce a required application fee where they find: (1) that special circumstances, not under the control of the applicant, justify a reduction in the fee; and (2) that the actual direct cost to the County for processing the application will not exceed the actual fee collected. In no case may a reduced fee be less than advertising cost. No request for reduction in the fee shall be considered unless the request is received within five working days following the date of the application submitted to the Department of Growth Management, Office of Planning and Development.

5. All work performed by Alachua county employees, directly and reasonably attributable to review of and recommendations relating to a Sector Plan, or amendment to a Development Order shall be paid by applicant, Sector Plan application or amendment to a Development Order shall be paid by the applicant. Fees will be based upon the hourly rate of pay and benefits of each employee performing the work multiplied by the number of hours worked, plus 20% indirect cost based on the hourly rate of the employee. Any other additional direct costs incurred by the County in connection with the review and processing of a Sector Plan application, including but not limited to advertising, public notice, duplication of materials, telecommunication, and fees for any outside consultants hired by the County when special expertise beyond County staff is deemed necessary, shall be paid by the applicant.
6. The applicant for Sector Plans will be required to pay an additional deposit, as may be required from time to time, when the review expenses have exhausted 75% of any paid deposit. Whenever an additional deposit of fees is required, such deposit shall be, at a minimum, in the amount of 50% of the initial payment set forth herein. Any auditor fees for the establishment and maintenance of this account shall be charged to the applicant.
7. Upon conclusion of any staff review of any sector plan application and other actions required for presentation to the Board of County Commissioners for final action, all fees calculated by Alachua County to be due shall be paid in full by the applicant prior to submission to the Board of County Commissioners for final Board action. All refunds of excess deposit money, after all charges are paid, shall be refunded after final action by the Board of County Commissioners.
8. Community Development District: The $5,000 review fee is for the CDDs of less than 1,000 acres. The review fee for CDDs of more than 1,000 acres is set by State Statute. For all CDDs, advertising and the advertising fee is the responsibility of the Petitioner and must be consistent with State Statute requirements.

Appeals by Hearing Officer

Appeals	Fee
• Hear and decide appeals of decisions of the Development Review Committee, the Zoning Administrator on sign permit applications; and heard and decide other land use cases as directed by the County Commission – Hearing Officer	$1,000.00/day

Building Permitting and Codes Enforcement:

Note: All Building Permit Fees are calculated starting with the minimum base permit fee by permit type plus a fee determined by the Dollar Value of Construction as calculated below:

Minimum Base Building Permit Fees:

- Minimum Base Permit Fees for single family, single family attached, and two family new construction; residential additions and alterations; and all other building permits (i.e. re-roof, mechanical, plumbing, aluminum, accessory buildings, fire sprinkler, fire alarm, tents, miscellaneous, etc.) is $90.00
- Minimum Base Permit Fee for multi-family, office, commercial, industrial or any construction requiring review and/or inspection by the Fire Marshal and for commercial additions and alterations is $180.00

Dollar Value of Construction Fee Calculations:

- The permit fee for all new construction and additions shall be calculated based on the Building Valuation Data (BVD) table published in the ICC Building Safety Journal or the state contract price, whichever is greater. The BVD table is published in February and August each year.
  www.iccsafe.org/codes-tech-support/codes/code-development-process/building-valuation-data/
- Based on the resulting building valuation or contract price, the permit fee is as follows:

Dollar Value of Construction from – to:	
o $0 - $100,000	Add $3.25/thousand
o $100,001 - $1,000,000	Add $1.75/thousand
o $1,000,001 – and up	Add $0.90/thousand

Notes: Any person who commences any work on a building, structure, electrical, gas, mechanical or plumbing system before obtaining the building official's approval or the necessary permits shall be subject to a penalty of 100 percent of the usual fee in addition to the required permit fees (Section 109.4 Florida Building Code – Section 553.73 Florida Statutes). This includes moving on a mobile home prior to obtaining a permit. All permits must be posted on the job site during all progress of the work.

Properties with a homestead exemption and with a Total Just Value of less than $50,000 as determined by the Alachua County Property Appraiser within the last year shall have building permit fees reduced by 50 percent.

Building permit applicants electing to use a private provider for building permit plan review shall be charged at 50% of the normal plan review fee. Applicants electing to use a private provider for building inspections shall be charged at 50% of the normal building permit fee. Applicants using a private provider for both plan review and inspections are eligible for the 50% reduction on both the plan review fee and the permit fee.

Building Permit Fees shall be submitted at the time of building permit application. No Building Permit Application will be accepted without the required permit fee. All Public, Private, and Governmental Entities shall be required to pay building permit fees.

Refund, Extension, and Expiration Policy:

- Building Permit (Applicant Requested) refunds where project is not started will be charged a processing fee of $70.00
- Extensions of Building Permits approved by the Building Official for permits that have not expired is $70.00
- Extension and reissuance of expired permit is $70 (inspection fees not included).

Note: No refunds shall be issued on expired permits.

Plan Review Examination Fees:

Plan Review	Fees
• When a plan review is required based on requirements of the Florida Building Code, a plan review fee shall be paid at the time of submitting plans and building permit application. Such plan review fees is in addition to the building permit and Fire Marshal Review Fee. If the building permit application is withdrawn after the plan are reviewed the plan review fee is not refundable.	20% of Building Permit Fee
• Plan Re-stamping or Re-certification Fee	$70.00 base plus hourly
• Hourly	$80.00
• Revision and correction of plans	$40 base plus $20 for each 15 min. increment over the initial 15 min

Note: *Hourly rate calculated by rounding up to the nearest full hour.

Fire Prevention Plan Review and Inspection Fees:

- Refer to the Public Safety Department portion of the Fee Schedule for a complete list of the fees and charges provided by the Fire Prevention Division of the Public Safety Department

State of Florida Surcharges:

	Surcharge
• Florida Building Commission Surcharge – Submitted to the Florida Department of Community Affairs	1% of all base building permit fees; minimum surcharge collection $2.00 per Florida Statute 553.721
• Building Code Administrators and Inspectors Fund Surcharge – Submitted to the Florida Department of Business and Professional Regulation	1.5% of all base buildings permit fees; minimum surcharge collection $2.00 per Florida Statute 468.631

Flat Rate Building Permit Fees:

Building Permit	Fees
• Manufactured or Mobile Home	$330.00
• Move On Structure	$170.00
• Residential Modular Structure (Per Building Section) [3]	$240.00
• Commercial Modular Structure[AC1]	$400.00
• Residential Swimming pool (in ground)	$290.00
• Residential Swimming pool (above ground)	$155.00

• Residential Mechanical Alt/Repair	$85.00
• Roof: New Residential	$165.00
• Roof: Repair Residential	$165.00
• Roof: New Commercial	$200.00
• Roof: Repair Commercial	$200.00
• Any Demolition	$155.00

Notes:

1. Permit fees listed above include minimum required inspections. Additional inspection fee may apply.
2. Properties with a homestead exemption and with a Total Just Value of less than $50,000, as determined by the Alachua County Property Appraiser within the last year, shall have building permit fees reduced 50 percent.
3. This applies only to Modular Structures approved by the Florida Department of Economic Opportunity. This permit fee includes base permit fee plus on-site inspections; temporary pole, foundation, plumbing, and final, but does not include Fire Marshal review or inspections

Inspection and Certification Fees:

Inspection or Certification	Fees
• Building Inspections (not included in permit)	$70.00
• Building Inspection – Overtime Rate for Special Emergency Requests for Inspections after hours, on weekends and holidays (2 hour minimum)	$105.00/hour
• Re-inspection fee (to be paid prior to requesting next inspection after failed inspections). All disapproved inspections shall require a mandatory re-inspection fee	$70.00
• Certification, Renewal, or Copy of Certificate of Occupancy	$70.00
• Zoning Certification and Review	$70.00
• Curb Cut/Driveway Application Processing and Inspection	$26.00
• Requested building inspection exceeding the standard number of inspections paid for in the original building permit will be charged an additional inspection fee per inspection	$70.00
• Request for Information on code violations, liens and expired permits in written format, one parcel with 4 or fewer addresses	$170.00
• Request for Information on liens and expired permits in written format, one parcel with 4 or fewer addresses for municipalities where the County provides building permitting services but no code enforcement	$140.00

Note: The Standard Number of Building Inspections allowed for a building permit can be calculated by taking the Calculated Dollar Value of Construction Fee minus the Minimum Base Permit Fee and dividing by $70.00 New Single Family Development will be provided twelve (12) standard inspections as required by the Florida Building Code.

Note: Information request for 5 or more addresses per parcel, each address must pay an additional $5 per address.

Contractor License Fees:

Note: License renewals for registered contractors require bi-annual renewal. The license fee is double if the license is on the involuntary inactive list.

License	Fees
• License Renewal for Registered Contractor	$50.00
• Journeyman Electrician	$50.00
• Journeyman Plumber	$50.00
• Inactive License	$30.00
• Reciprocity Letter	$20.00

License Fees for Third Party Inspection Provider Online Access:

License Type	Fees
• Purchase of initial license and one year of maintenance	$150.00
• Annual license maintenance after first year	$900.00

Note: All providers that contract to provide inspection services to owners or contractors in Alachua County must purchase a license for access to the County's online permitting system and are responsible for entering all inspections and results on behalf of their clients.

Scanning Fees:

Scanning Services	Fees
• Base fee per permit for scanning and importing all documents 11 x 17 or smaller	$16.00
• Additional fee per page for all pages larger than 11 x 17	$4.00

Agenda Item Summary

Agenda Date: 9/14/2021 Agenda Item No.: 18.

Agenda Item Name:
Agreement with Meridian Behavioral Healthcare, Inc., for the provision of mental health and substance abuse outreach, treatment, and rehabilitative services for FY 21/22

Presenter:
Claudia Tuck, 231-0058

Description:
This is the annual agreement between Alachua County and Meridian Behavioral Healthcare, Inc. for FY 21/22 to assist citizens in need of mental health and substance abuse services.

Recommended Action:
Approve the FY21/22 Meridian Behavioral Healthcare, Inc. agreement and authorize the Chair to sign.

Prior Board Motions:
N/A

Fiscal Consideration:
FY22 Budget
Fund 001.29.2904.563.34.00 - $695,556
Fund 010.29.2925.562.34.00 - $200,000

Background:
Beginning with FY2007/08 the BoCC made the decision to fund Meridian Behavioral Healthcare on an annual basis, outside of requiring an application or competitive process. The funds are used for the provision of adult and child acute care and inpatient services, residential treatment, outpatient services and outreach and prevention services in the areas of mental health and substance abuse. Beginning in 2017-18, an additional $100,000.00 of funding was provided for Senate Bill 12 related support to eliminate/reduce the waiting time for Alachua County residents for detoxification and residential treatment beds. Funds provided under this agreement, in part help Meridian meet the State of Florida requirements for local match.

DocuSign Envelope ID: 82256748-F2DD-4830-AF2E-2F47D1A6E6B5

FY 2021/22 AGREEMENT BETWEEN ALACHUA COUNTY AND MERIDIAN BEHAVIORAL HEALTHCARE, INC.

THIS AGREEMENT is made and entered into this _____ day of _____, 21___, by and between Alachua County, a charter county and political subdivision of the State of Florida, by and through its Board of County Commissioners, hereinafter referred to as "County", and Meridian Behavioral Healthcare, Inc., a not-for-profit corporation incorporated under the laws of the State of Florida, hereinafter referred to as the "Center", "Professional" or "Contractor" Collectively the County and the Center are referred to as the "Parties"

W I T N E S S E T H:

WHEREAS, the purpose of the Center is to assist citizens in need of behavioral health services; and,

WHEREAS, the Parties recognize the need to offer these services to better provide for the public health, safety, and welfare of all the citizens of Alachua County; and,

WHEREAS, the Parties have mutually joined together for the purpose of assuring effective and efficient outreach, prevention, treatment, education, and rehabilitation services with a high degree of integration and coordination for all individuals in need and/or at risk within Alachua County; and,

WHEREAS, the County shares in the above-stated goals benefiting the citizens of Alachua County and is desirous of contributing to the activities, programs, and services provided by the Center, and,

DocuSign Envelope ID: 82256748-F2DD-4830-AF2E-2F47D1A6E6B5

WHEREAS, the State of Florida provides funding for these services which includes a local match requirement as established by the Center's Managing Entity, Lutheran Services of Florida; and

WHEREAS, the County desires to contribute in part to this local match requirement, in accordance with FS 394.76 and Florida Administrative Code 65E-14.005(3);

NOW, THEREFORE, the Parties hereto agree as follows:

Section 1. Term: This agreement shall commence upon execution by both Parties, and shall continue through and include the 30th day of September 2022, unless earlier terminated as provided herein.

The County's performance and obligation to pay under this agreement is contingent upon a specific annual appropriation by the Board of County Commissioners. The Parties hereto understand that this Agreement is not a commitment of future appropriations.

Section 2. Scope of Services: The Center shall provide behavioral healthcare services with priority given to individuals whose financial circumstances, as established by Lutheran Services of Florida, are such that they cannot afford medically necessary treatment for mental illness and/or substance use disorder. The amount and type of service available will be determined by available funding from all sources at the time services are requested or rendered. In the event due to capacity constraints resulting in delays for admission for, or requiring that individuals be placed on a waiting list for detoxification or residential treatment services, the Center shall prioritize and admit first before others, Alachua County residents waiting for services as the next bed(s) becomes available. County funds are targeted to those areas where state funding is insufficient to meet the needs of County residents as indicated below:

DocuSign Envelope ID: 82256748-F2DD-4830-AF2E-2F47D1A6E6B5

A. Acute Care and Inpatient Services – includes Screening and crisis services for individuals whose illness has become severe enough to pose a threat to their own safety or that of others. Services at this level include Emergency Screening, Crisis Support and Crisis Stabilization Units (adult and child beds). Detoxification provides medically supervised detoxification for drugs and alcohol in an inpatient setting.

B. Residential Treatment - includes treatment that requires that the individual reside within and receive treatment and or supportive services in a supervised, 24-hour setting. In this category are Sid Martin Bridge House (including the pre- and post-partum unit), the Recovery Center, and Transitions group home (partially supported by HUD).

C. Outpatient Services – include all levels of counseling (partial hospital, intensive outpatient, day treatment, counseling, psychiatric evaluation and medication management, and psychosocial rehabilitation). Also included are Intervention (educational and supportive interventions that enhance treatment outcomes) and Case Management services (that provide referral, monitoring, needs assessment and care coordination services).

D. Outreach and Prevention – services that prevent illness or mitigate risk through community education and/or early identification and engagement of those at risk for mental illnesses or substance use disorders.

Section 3. Background Checks: The Center will perform such background screens as are required by Florida or federal laws.

Section 4. Law & Regulations: The Center will comply with all laws, ordinances, regulations, and building code requirements applicable to the work required by this agreement. The Center is presumed to be familiar with all state and local laws, ordinances, code rules and

DocuSign Envelope ID: 82256748-F2DD-4830-AF2E-2F47D1A6E6B5

regulations that may in any way affect the work outlined in this agreement. If the Center is not familiar with state and local laws, ordinances, code rules and regulations, the Center remains liable for any violation and all subsequent damages or fines.

Section 5. Audits, Records and Reporting: The Center agrees to:

A. Submit to the Community Support Services Director a copy of the Center's annual audit of financial statements, and compliance reports completed by accrediting bodies, licensing and regulatory agencies.

B. Maintain financial records and reports relating to utilization of services.

C. Maintain books, records, documents, invoices, and other evidence and accounting procedures and practices such as will permit the Center to sufficiently and properly reflect all direct costs of any nature associated with the program.

D. Permit such records described in B. and C. above to be subject to inspection, review, and audit by the County or designee.

E. Make an oral presentation at a scheduled meeting of the Board of County Commissioners in August 2022. The presentation shall be based on the Center's ability to meet the objectives and service levels of the programs set forth in Section 2 of this agreement.

Section 6. Compensation:

A. For the performance of the services detailed in Section 2 of this agreement, the County shall pay the Center the total sum of $895,556 (Eight Hundred Ninety-Five Thousand, Five Hundred Fifty-Six Dollars). The Parties acknowledge and agree that the foregoing amount represents a reasonable estimate of the value of services to be rendered by the Center to the residents of Alachua County and will be used to satisfy a portion of

DocuSign Envelope ID: 82256748-F2DD-4830-AF2E-2F47D1A6E6B5

the local match requirement as established by the Center's Managing Entity, Lutheran Services of Florida.

B. This amount shall be paid in twelve (12) monthly installments, in arrears, comprised of 11 payments of $74,630.00 (Seventy Four Thousand, Six Hundred Thirty), and 1 final payment of $74,626.00 (Seventy Four Thousand Six Hundred Twenty Six) upon timely submittal of approved invoices from the Center. As a condition precedent for any payment, each monthly invoice shall include an accounting of the value of services, service totals and census totals for the following activities: Case Management, CSU-ES, Day Treatment IOP, Detox, OTP, Outpatient, Outreach, Psychiatric, Rehab, and Residential. Each invoice shall bear the signature of the Center's Vice President of Finance and Accounting, which signature shall constitute the Center's representation to the County that the services indicated in the invoice have reached the level stated, have served a public purpose, have been properly and timely performed as required herein, that all obligations of the Center covered by prior invoices have been paid in full, and that the amount requested is currently due and owing, there being no reason known to the Center that payment of any portion thereof should be withheld. Submission of the Center's invoice for final payment shall further constitute the Center's representation to the County that, upon receipt by the County of the amount invoiced, all obligations of the Center to others, including its consultants, incurred in connection with the Project, will be paid in full. The Center shall submit invoices to the County at the following address.

Director
Alachua County Department of Community Support Services
218 SE 24th Street
Gainesville, Florida 32641

DocuSign Envelope ID: 82256748-F2DD-4830-AF2E-2F47D1A6E6B5

Once the invoices are approved and processed, every effort will be made to issue payment each month in advance of the second Thursday of the month.

C. In the event that the County becomes credibly informed that any representations of the Center relating to payment are wholly or partially inaccurate, the County may withhold payment of sums then or in the future otherwise due to the Center until the inaccuracy, and the cause thereof, is corrected to the County's reasonable satisfaction.

D. Payments for all sums properly invoiced shall be made in accordance with the provisions of Chapter 218, Part VII Florida Statutes (Local Government Prompt Payment Act) and the Alachua County Prompt Payment Procedure (Available at http://www.co.alachua.fl.us/gov/dept/adminservices/purchasing/)

E. No invoice will be paid if received after October 14, 2022. Invoice payments shall be sent to:

Fiscal Department
Meridian Behavioral Healthcare, Inc.
PO Box 141750
Gainesville, FL 32614-1750

Section 7. Surplus Funds: The Center agrees to return to the County any part of the funds provided for in this agreement which the Center does not use as specified in this agreement.

Section 8. Insurance: The Center will procure and maintain insurance throughout the entire term of this agreement of the types and in the minimum amounts detailed in Attachment A. A copy of a current, valid Certificate Insurance showing coverage in the types and of the amount specified is attached as Exhibit "1"

DocuSign Envelope ID: 82256748-F2DD-4830-AF2E-2F47D1A6E6B5

Section 9. Indemnification:

A. The Center agrees to protect, defend, indemnify, and hold the County and director and their officers, employees and agents free and harmless from and against any and all losses, penalties, damages, settlements, costs, charges, professional fees or other expenses or liabilities of every kind and character arising out of or directly or indirectly relating to any and all claims, liens, demands, obligations, actions, proceedings or causes of action of every kind and character in connection with or arising directly or indirectly out of this agreement and/or the performance hereof. Without limiting the generality of the foregoing, any and all such claims, etc., including but not limited to personal injury, death, damage to property (including destruction) defects in materials or workmanship, actual or alleged infringement of any patent, trademark, copyright (or application for any thereof) or of any other tangible or intangible personal or property right, or any actual or alleged violation of any applicable statute, ordinance, administrative order, rule, or regulation or decree of any court, shall be included in the indemnity hereunder. The Center further agrees to investigate, handle, respond to, provide defense (including payment of attorney fees, court costs, and expert witness fees and expenses up to and including any appeal) for and defend any such claim at its sole cost and expense through counsel mutually chosen by the County and Agency agrees to bear all other costs and expenses related thereto, even if they (claims, etc.) are groundless, false, or fraudulent. Center agrees that indemnification of the County shall extend to any and all work performed by the Center, its subcontractors, employee's agents, servants or assigns. This obligation shall in no way be limited in any nature whatsoever by any limitation on the amount or type

DocuSign Envelope ID: 82256748-F2DD-4830-AF2E-2F47D1A6E6B5

of Center's insurance coverage. This indemnification provision shall survive the termination of the Contract between the County and the Center.

B. Nothing contained herein shall constitute a waiver by the County of its sovereign immunity or the provisions of §768.28, Florida Statutes.

Section 10. Independent Contractor:

A. In the performance of this agreement, the Center will be acting in the capacity of an independent contractor and not as an agent, employee, partner, joint venture, or associate of the County. The Center shall be solely responsible for the means, method, techniques, sequences, and procedures utilized by the Center in the full performance of this agreement. Neither the Center nor any of its employees, officers, agents or any other individual directed to act on behalf of the Center for any act related to this Agreement shall represent, act, purport to act, or be deemed to be the agent, representative, employee or servant of the County.

B. Policies and decisions of the Center, which may be represented by the Center in performance of this Agreement, shall not be construed to be the policies or decision of the County.

Section 11. Assignment: -The Center shall not assign, convey, pledge, sublet, or otherwise dispose of any interest in this agreement, and shall not transfer any interest in the same, whether by assignment or novation, without the prior written consent of the County.

Section 12. Default and Termination:

A. The failure of the Center to comply with any provision of this agreement will place the Center in default. Prior to terminating the agreement, the County will notify

DocuSign Envelope ID: 82256748-F2DD-4830-AF2E-2F47D1A6E6B5

the Center in writing. This notification will make specific reference to the provision which gave rise to the default. The County will give the Center seven (7) days to submit a plan to cure the default. The Community Support Services Director is authorized to provide written notice of default on behalf of the County, and if the default situation is not corrected within the allotted time, the County Manager is authorized to provide final termination notice on behalf of the County to the Center.

B. The County may terminate the agreement without cause by first providing at least twenty-four hours written notice to the Center prior to the termination date. The County Manager is authorized to provide written notice of termination on behalf of the County.

C. If this agreement is terminated by either party under the terms of this paragraph, the Center shall be paid an amount to adequately compensate it for that portion of the work and services satisfactorily performed prior to the termination date. The amount to be paid under this section shall be determined by the County after consultation with the Center.

D. In the event funds to finance this agreement become unavailable, the County may terminate this agreement upon no less than twenty-four (24) hours' notice, written and delivered to the Center. Said notice of termination shall be delivered by certified mail, return receipt requested, or in person with signed proof of delivery. The County shall be the sole and final authority as to the availability of funds.

Section 13. Modification: - This agreement may be modified and amended by mutual agreement of the Parties; however, any modification shall only become effective upon incorporation of a written amendment to this agreement, duly executed by the Parties. The Parties

DocuSign Envelope ID: 82256748-F2DD-4830-AF2E-2F47D1A6E6B5

further agree to renegotiate this agreement if federal and/or state revision of any applicable laws or regulations make changes in this agreement necessary.

Section 14. Notices: - Except as otherwise provided herein, any notice, acceptance, request or approval from either party to the other shall be in writing and sent by certified mail, return receipt requested, or personally delivered with signed proof of delivery. The County's representative and the Center's representative are:

County: County Manager
12 SE 1st Street, 2nd Floor
Gainesville, FL 32602-2877

Center: President/CEO
Meridian Behavioral Healthcare, Inc.
4300 SW 13th Street
Gainesville, FL 32608

A copy of any notice hereunder shall also be sent to:

J.K. "Jess" Irby, Esq., Clerk
Clerk of the Circuit Court
12 SE 1st Street, 4th Floor
Gainesville, FL 32602
Attn: Finance and Accounting

Alachua County
Procurement Division
Attn: Contracts
12 SE 1st Street, 3rd Floor
Gainesville, FL 32602

Section 15. Non-Waiver: The failure of either party to exercise any right shall not be considered a waiver of such right in the event of any further default or non-compliance.

Section 16. Severability: If any provisions of this agreement shall be declared illegal, void or unenforceable, the other provisions shall not be affected but shall remain in full force and effect.

DocuSign Envelope ID: 82256748-F2DD-4830-AF2E-2F47D1A6E6B5

Section 17. Entire Agreement: This agreement contains all the terms and conditions agreed upon by the Parties.

Section 18. Collusion: By signing this agreement, the Center declares that this agreement is made without any previous understanding, agreement, or connections with any persons, contractors or corporations and that this agreement is fair, and made in good faith without any outside control, collusion, or fraud.

Section 19. Conflict of Interest: The Center warrants that it nor any of its employees have any financial or personal interest that conflicts with the execution of this agreement. The Center shall notify the County of any conflict of interest due to any other clients, contracts, or property interests.

Section 20. Third Party Beneficiaries: This agreement does not create any relationship with, or any rights in favor of, any third party.

Section 21. Governing Law and Venue: This agreement is governed in accordance with the laws of the State of Florida. Venue is in Alachua County.

Section 22. Project Records:

A. General Provisions:

1) Any document submitted to the County may be a public record and is open for inspection or copying by any person or entity. "Public records" are defined as all documents, papers, letters, maps, books, tapes, photographs, films, sound recordings, data processing software, or other material, regardless of the physical form, characteristics, or means of transmission, made or received pursuant to law or ordinance or in connection with the transaction of official business by any agency per Section 119.011(11), Florida Statutes. Any

DocuSign Envelope ID: 82256748-F2DD-4830-AF2E-2F47D1A6E6B5

document is subject to inspection and copying unless exempted under Chapter 119, Florida Statutes, or as otherwise provided by law.

2) In accordance with Section 119.0701, Florida Statutes, the Professional or Contractor (referred hereinafter in all of the "Project Records" section collectively as "Professional"), when acting on behalf of the County, as provided under 119.011(2), F.S., shall keep and maintain public records as required by law and retain them as provided by the General Record Schedule established by the Department of State. Upon request from the County's custodian of public records, provide the County with a copy of the requested records or allow the records to be inspected or copied within a reasonable time unless exempted under Chapter 119, Florida Statutes, or as otherwise provided by law. Additionally, the Professional or Contractor shall provide the public records at a cost that does not exceed the cost provided in this chapter or as otherwise provided by law.

3) Contractor shall ensure that public records that are exempt or confidential and exempt from public records disclosure requirements are not disclosed except as authorized by law for the duration of this Agreement and following completion of this Agreement if the Professional does not transfer the records to the County.

B. Confidential Information

1) During the term of this Agreement or license, the Professional may claim that some or all of Professional's information, including, but not limited to, software documentation, manuals, written methodologies and processes, pricing, discounts, or other considerations (hereafter collectively referred to as

DocuSign Envelope ID: 82256748-F2DD-4830-AF2E-2F47D1A6E6B5

"Confidential Information"), is, or has been treated as confidential and proprietary by Professional in accordance with Section 812.081, Florida Statutes, or other law, and is exempt from disclosure under the Public Record Act. Professional shall clearly identify and mark Confidential Information as "Confidential Information" or "CI" and the County shall use its best efforts to maintain the confidentiality of the information properly identified by the Professional as "Confidential Information" or "CI."

2) The County shall promptly notify the Professional in writing of any request received by the County for disclosure of Professional's Confidential Information and the Professional may assert any exemption from disclosure available under applicable law or seek a protective order against disclosure from a court of competent jurisdiction. Professional shall protect, defend, indemnify, and hold the County, its officers, employees and agents free and harmless from and against any claims or judgments arising out of a request for disclosure of Confidential Information. Professional shall investigate, handle, respond to, and defend, using counsel chosen by the County, at Professional's sole cost and expense, any such claim, even if any such claim is groundless, false, or fraudulent. Professional shall pay for all costs and expenses related to such claim, including, but not limited to, payment of attorney fees, court costs, and expert witness fees and expenses. Upon completion of this Agreement or license, the provisions of this paragraph shall continue to survive. Professional releases County from claims or damages related to disclosure by County.

DocuSign Envelope ID: 82256748-F2DD-4830-AF2E-2F47D1A6E6B5

C. Project Completion: Upon completion of, or in the event this Agreement is terminated, the Professional, when acting on behalf of the County as provided under 119.011(2), F.S., shall transfer, at no cost, to the County all public records in possession of the Professional or keep and maintain public records required by the County to perform the service. If the Professional transfers all public records to the County upon completion or termination of the agreement, it must destroy any duplicate public records that are exempt or confidential and exempt from public records disclosure requirements. If the Professional keeps and maintains public records upon the completion or termination of the agreement all applicable requirements for retaining public records shall be met. All records stored electronically shall be provided to the County, upon request from the Counties custodian of public records, in a format that is compatible with the information technology systems of the County.

D. Compliance

1) If the Professional does not comply with the County's request for records, the County shall enforce the contract provisions in accordance with the contract.

2) A Professional who fails to provide the public records to the County within a reasonable time may be subject to penalties under s. 119.10

IF THE PROFESSIONAL OR CONTRACTOR HAS QUESTIONS REGARDING THE APPLICATION OF CHAPTER 119, FLORIDA STATUTES, TO THE CONTRACTOR'S DUTY TO PROVIDE PUBLIC RECORDS RELATING TO THIS CONTRACT, CONTACT THE DIRECTOR OF ALACHUA COUNTY COMMUNITY SUPPORT SERVICES AT E-MAIL

DocuSign Envelope ID: 82256748-F2DD-4830-AF2E-2F47D1A6E6B5

ctuck@alachuacounty.us, PHONE (352) 264-6700, US MAIL 218 SE 24TH ST, GAINESVILLE FL, 32601

Section 23. Assignment of Interest: - Neither party will assign or transfer any interest in this agreement without prior written consent of the other party.

Section 24. Successors and Assigns: The County and the Center each bind the other and their respective successors and assigns in all respects to all of the terms, conditions, covenants, and provisions of this agreement

Section 25. Construction: This agreement shall not be construed more strictly against one party than against the other merely by virtue of the fact that it may have been prepared by one of the Parties. It is recognized that both Parties have substantially contributed to the preparation of this agreement.

Section 26. Attachments: All attachment attached to this agreement are incorporated into and made part of this agreement by reference.

Section 27. U.S. Department of Homeland Security E-Verify System

A. The Professional shall utilize the U.S. Department of Homeland Security's E-Verify system to verify the employment eligibility of all new employees hired by the Professional during the term of the agreement. The E-Verify system is located at https://www.uscis.gov/e-verify.

B. The Professional shall expressly require any subcontractors performing work or providing services pursuant to the County's agreement to utilize the U.S. Department of Homeland Security's E-Verify system to verify the employment eligibility of all new employees hired by the subcontractor during the term of the agreement. The E-verify system is located at https://www.uscis.gov/e-verify.

DocuSign Envelope ID: 82256748-F2DD-4830-AF2E-2F47D1A6E6B5

Section 28 Counterparts: This agreement may be executed in multiple counterparts. Each such counterpart shall be deemed an original of this agreement, so that in making proof of this agreement, it shall only be necessary to produce or account for one such counterpart.

Section 29. Electronic Signatures. The Parties agree that an electronic version of this Agreement shall have the same legal effect and enforceability as a paper version. The Parties further agree that this Agreement, regardless of whether in electronic or paper form, may be executed by use of electronic signatures. Electronic signatures shall have the same legal effect and enforceability as manually written signatures. The County shall determine the means and methods by which electronic signatures may be used to execute this Agreement and shall provide the Contractor with instructions on how to use said method. Delivery of this Agreement or any other document contemplated hereby bearing an manually written or electronic signature by facsimile transmission (whether directly from one facsimile device to another by means of a dial-up connection or whether mediated by the worldwide web), by electronic mail in "portable document format" (".pdf") form, or by any other electronic means intended to preserve the original graphic and pictorial appearance of a document, will have the same effect as physical delivery of the paper document bearing an original or electronic signature.

Section 30. Duties: The Center warrants that it is a covered entity as defined by the Health Insurance Portability and Accountability Act 160-64 of 1996 (HIPAA). Both Parties agree to abide by all requirements of HIPAA.

REMAINDER OF PAGE INTENTIONALLY LEFT BLANK

DocuSign Envelope ID: 82256748-F2DD-4830-AF2E-2F47D1A6E6B5

IN WITNESS WHEREOF, the Parties have caused this agreement to be executed for the uses and purposes therein expressed on the day and year first above-written.

Presenter:
Candie Nixon 352-264-6717

Description:
Local Housing Assistance Plan Strategies for SFY 2021-2024 authorizing the use of State Housing Initiatives Program (SHIP)

Recommended Action:
Adopt Resolution approving SHIP Local Housing Assistance Plan SFY 2021-2024 and authorizing submission of same to the Florida Housing Finance Corporation.

Prior Board Motions:
None

Fiscal Consideration:
Exhibit A
Fund 242 Tentative budget - $911,957

Background:
The William E. Sadowski Affordable Housing Act, Chapter 92-137, Laws of Florida, created the State Housing Initiatives Partnership (SHIP) Act, Section 420.907, Florida Statutes, which authorizes distribution of monies in the Local Government Housing Trust Fund to be distributed to approved counties and eligible municipalities; and encourages local governments to create regional partnerships across jurisdictional boundaries through the pooling of appropriated SHIP Program funds to address homeless housing needs identified in Local Housing Assistance Plans (LHAP).

Each local government receiving SHIP funds must have an adopted LHAP with approved SHIP strategies or submit a new local housing assistance plan. The LHAP is intended to increase the availability of affordable residential units by combining local resources and cost saving measures into a local housing partnership and using public and private funds to reduce the cost of housing. SHIP funds may be leveraged with or used to supplement other Florida Housing Finance Corporation programs and to provide local match to obtain federal housing grants or programs such as the Florida Small Cities Community Development Block Grant.

The LHAP is intended to increase the availability of affordable residential units by combining local resources and cost saving measures into a local housing partnership and using public and private

funds to reduce the cost of housing. SHIP funds may be leveraged with or used to supplement other Florida Housing Finance Corporation programs and to provide local match to obtain federal housing grants or programs such as the Florida Small Cities Community Development Block Grant.

Section II. LHAP Strategies 8

A. Purchase Assistance - codes 1, 2 8

B. Owner Occupied Rehabilitation - Code 3 11

C. Demolition and Reconstruction - Code 4 13

D. Disaster Recovery - Code 5 15

E. Emergency Repair - Code 6 16

F. Foreclosure Prevention- Code 7 18

G. Acquisition/Rehabilitation - Code 9, 10 19

H. Rental Assistance - Code 13, 23 22

I Rental Development - Code 14, 21 23

J. Eviction Prevention /rental assistance - Code 13, 18 25

III. LHAP Incentive Strategies 26

I. PROGRAM DETAILS:

A. LG(s)

Name of Local Government	Alachua County
Does this LHAP contain an interlocal agreement?	Yes
If yes, name of other local government(s)	City of Gainesville

B. Purpose of the program:

- To meet the housing needs of the very low, low and moderate-income households;
- To expand production of and preserve affordable housing; and
- To further the housing element of the local government comprehensive plan specific to affordable housing.

C. **Fiscal years covered by the Plan:** 2021-2022, 2022-2023, 2023-2024

D. **Governance:** The State Housing Initiatives Partnership (SHIP) Program is established in accordance with Section 420.907-9079, Florida Statutes and Chapter 67-37, Florida Administrative Code. Cities and Counties must be in compliance with these applicable statutes, rules and any additional requirements as established through the Legislative process.

E. **Local Housing Partnership:** The SHIP Program encourages building active partnerships between government, lending institutions, builders and developers, not-for-profit and community-based housing providers and service organizations, providers of professional services related to affordable housing, advocates for low-income persons, real estate professionals, persons or entities that can provide housing or support services and lead agencies of the local continuums of care.

F. **Leveraging:** The Plan is intended to increase the availability of affordable residential units by combining local resources and cost saving measures into a local housing partnership and using public and private funds to reduce the cost of housing. SHIP funds may be leveraged with or used to supplement other Florida Housing Finance Corporation programs and to provide local match to obtain federal housing grants or programs.

G. Public Input: Public input was solicited through the Affordable Housing Advisory Committee's (AHAC) public meetings with housing providers, social service providers and local lenders and neighborhood associations.

Public input was solicited through the local newspaper in the advertising of the Local Housing Assistance Plan and the Notice of Funding Availability.

H. Advertising and Outreach: SHIP funding availability shall be advertised in a newspaper of general circulation and periodicals serving ethnic and diverse neighborhoods, at least 30 days before the beginning of the application period. If no funding is available due to a waiting list, no notice of funding availability is required.

I. Waiting List/Priorities: A waiting list will be established when there are eligible applicants for strategies that no longer have funding available. Those households on the waiting list will be notified of their status. Applicants will be maintained in an order that is consistent with the time completed applications were submitted as well as any established funding priorities as described in this plan.

The following priorities for funding described/listed here apply to all strategies unless otherwise stated:

a. All strategies will serve households meeting the definition of Special Needs first.

b. After Special Needs as defined in 420.0004 (13), all strategies will serve households meeting for the definition of Essential Services Personnel.t the very low and low set-asides.

c. After Essential Services Personnel as defined in Section I, all strategies will serve households in order to meet the very low and low set-asides.

J. Discrimination: In accordance with the provisions of ss.760.20-760.37, it is unlawful to discriminate on the basis of race, color, religion, sex, national origin, age, handicap, or marital status in the award application process for eligible housing. Alachua County Fair Housing Ordinance has added additional categories, Chapter 111 of the Alachua County Code, prohibits discrimination in housing based on: race, color, national origin, religion, sex, marital status, age, disability, sexual orientation, gender identity or expression, familial status, veteran or service member status, lawful source of income, citizenship status, being the victim of dating violence, domestic violence, or stalking.

K. Support Services and Counseling: Support services are available from various sources. Available support services may include, but are not limited to: Homeownership Counseling (Pre and Post), Credit Counseling, Tenant Counseling, Foreclosure Counseling and Transportation.

L. **Purchase Price Limits:** The sales price or value of new or existing eligible housing may not exceed 90% of the average area purchase price in the statistical area in which the eligible housing is located. Such average area purchase price may be that calculated for any 12-month period beginning not earlier than the fourth calendar year prior to the year in which the award occurs. The sales price of new and existing units, which can be lower but may not exceed 90% of the median area purchase price established by the U.S. Treasury Department or as described above.

The methodology used is:

U.S. Treasury Department	✓
Local HFA Numbers	

M. Income Limits, Rent Limits and Affordability: The Income and Rent Limits used in the SHIP Program are updated annually by the Department of Housing and Urban Development and posted at www.floridahousing.org.

"Affordable" means that monthly rents or mortgage payments including taxes and insurance do not exceed 30 percent of that amount which represents the percentage of the median annual gross income for the households as indicated in Sections 420.9071, F.S. However, it is not the intent to limit an individual household's ability to devote more than 30% of its income for housing, and housing for which a household devotes more than 30% of its income shall be deemed Affordable if the first institutional mortgage lender is satisfied that the household can afford mortgage payments in excess of the 30% benchmark and in the case of rental housing does not exceed those rental limits adjusted for bedroom size.

N. Welfare Transition Program: Should an eligible sponsor be used, a qualification system and selection criteria for applications for Awards to eligible sponsors shall be developed, which includes a description that demonstrates how eligible sponsors that employ personnel from the Welfare Transition Program will be given preference in the selection process.

O. Monitoring and First Right of Refusal: In the case of rental housing, the staff and any entity that has administrative authority for implementing the local housing assistance plan assisting rental developments shall annually monitor and determine tenant eligibility or, to the extent another governmental entity provides periodic monitoring and determination, a municipality, county or local housing financing authority may rely on such monitoring and determination of tenant eligibility. However, any loan or grant in the original amount of $10,000 or less shall not be subject to these annual monitoring and determination of tenant eligibility requirements. Tenant eligibility will be monitored annually for no less than 15 years or the term of assistance whichever is longer unless as specified above. Eligible sponsors that offer rental housing for sale before 15 years or that have remaining mortgages funded under this program must give a first right of refusal to eligible nonprofit organizations for purchase at the current market value for continued occupancy by eligible persons.

P. Administrative Budget: A line-item budget is attached as Exhibit A. The city/county finds that the moneys deposited in the local housing assistance trust fund are necessary to administer and implement the local housing assistance plan.

Section 420.9075 Florida Statute and Chapter 67-37, Florida Administrative Code, states: *"A county or an eligible municipality may not exceed the 5 percent limitation on administrative costs, unless its governing body finds, by resolution, that 5 percent of the local housing distribution plus 5 percent of program income is insufficient to adequately pay the necessary costs of administering the local housing assistance plan."*

Section 420.9075 Florida Statute and Chapter 67-37, Florida Administrative Code, further states: *"The cost of administering the program may not exceed 10 percent of the local housing distribution plus 5 percent of program income deposited into the trust fund, except that small counties, as defined in s. 120.52(19), and eligible municipalities receiving a local housing distribution of up to $350,000 may use up to 10 percent of program income for administrative costs." The applicable local jurisdiction has adopted the above findings in the resolution attached as Exhibit E.*

Q. Program Administration: Administration of the local housing assistance plan will be performed by:

Entity	Duties	Admin. Fee Percentage
Local Government	Alachua County	10%
Third Party Entity/Sub-recipient		

R. First-time Homebuyer Definition: For any strategies designed for first-time homebuyers, the following definition will apply: *An individual who has had no ownership in a principal residence during the 3-year period ending on the date of purchase of the property. This includes a spouse (if either meets the above test, they are considered first-time homebuyers). A single parent who has only owned a home with a former spouse while married. An individual who is a displaced homemaker and has only owned with a spouse. An individual who has only owned a principal residence not permanently affixed to a permanent foundation in accordance with applicable regulations. An individual who has only owned a property that was not in compliance with state, local or model building codes and which cannot be brought into compliance for less than the cost of constructing a permanent structure.*

S. Project Delivery Costs: Alachua County will assess no more than a 2% project delivery fee for owner occupied rehabilitation applicants only

T. Essential Services Personnel (ESP) Definition: The Alachua County Housing Program's Definition is as follows: educators, teachers, police and fire personnel, armed forces (current and veterans), healthcare personnel, skilled building trades (i.e. electricians, plumbers, contractors, construction workers, and more), other government personnel, and lastly public or private prison service workers.

U. Describe efforts to incorporate Green Building and Energy Saving products and processes:

a. The county will, when economically feasible, employ the following Green Building requirements on rehabilitation and emergency repairs.

b. Low or No-VOC paint for all interior walls (Low-VOC means 50 grams per liter or less for flat

paint; 150 grams per liter or less for non-flat paint).

c. Low-flow water fixtures in bathrooms/Water Sense labeled products or the following specifications:

d. Toilets: 1.6 gallons/flush or less.

e. Faucets: 1.5 gallons/minute or less.

f. Showerheads: 2.2 gallons/minute or less.

g. Energy Star qualified refrigerator.

h. Energy Star qualified dishwasher, if provided.

i. Energy Star qualified washing machine, if provided in units.

j. Energy Star qualified exhaust fans in all bathrooms.

k. Air conditioning: Minimum SEER of 14. Packaged units are allowed in studios and one-bedroom units with a minimum of 11.7 EER.

V. Describe efforts to meet the 20% Special Needs set-aside: The County shall denote in all contracts the requirement of a 20% Special Needs set-aside. The goals will be met through ranking Special Needs households first for owner-occupied rehabilitation, emergency repair and rental assistance strategies. All application are reviewed and approved by SHIP county staff. Standard procedures are first come first served, however where we have a waiting list, those persons with special need are ranked higher. We are defining Persons with special as in section 420.0004(13), Florida Statutes, "as an adult person requiring independent living services in order to maintain housing or develop independent living skills and who has a disabling condition; a young adult formerly in foster care who is eligible for services under s. 409.1451(5); a survivor of domestic violence as defined in s. 741.28; or a person receiving benefits under the Social Security Disability Insurance (SSDI) program or the Supplemental Security Income (SSI) program or from veterans' disability benefits." Persons with special needs as defined above and including frail elders, individuals experiencing homelessness, and people with disabilities may have difficulties finding housing that is safe, affordable, and permanent. They may also require housing that is matched with accessible supportive services. Many, if not most, of these people with special needs are low or extremely low income (ELI)

W. **Describe efforts to reduce homelessness:** The County through its rental assistance program will work to place these individuals or families in rental for the purpose of providing a stable housing situation for twelve months to twenty four months**.** The Housing Division will continue partnering with the Alachua County Division of Social Services to identity individuals who may meet SHIP rental assistance criteria. When Rapid Rehousing Case management slots become available, they will work with the local Continuum of Care to obtain the next prioritized referral for this housing intervention strategy. The local CoC is currently prioritizing individuals using the VI-SPDAT scores and dynamic prioritization specific to the community.

SECTION II. LHAP STRATEGIES:

A. PURCHASE ASSISTANCE - CODES 1, 2

a. Summary: SHIP funds will be awarded to First-time Homebuyers for down payment, closing costs, and eligible repairs to households to purchase an existing or newly constructed home including homes purchased from a community land trust (CLT). A newly constructed home must have received a certificate of occupancy within the last twelve months. SHIP Funds assist only housing meeting the standards of Chapter 553, Florida Statutes. SHIP funds may also be used to assist mobile homes or manufactured housing constructed in, or after, 2010 and are limited to expending 20% of the overall allocation on this activity.

b. Fiscal Years Covered: 2021-2022, 2022-2023, 2023-2024

c. Income Categories to be served: Very low, low and moderate

d. Maximum award: $15,000.00

Very Low: $15,000 ~~Plus up to an additional $1,000.00 for~~

Low: $10,000

Moderate: $5,000

Above the award in each category, up to an additional $1,000.00 will be made available to cover title searches, recording fees etc.

Additionally, up to $10,000.00 will be made available to affect repairs.

e. Terms:

1. Repayment loan/deferred loan/grant: Deferred payment loan secured by a note and mortgage.
2. Interest Rate: 0%
3. Years in loan term: 15
4. Forgiveness: AMI of 30% or below: the loan will be forgiven at the end of the loan term
5. Repayment: AMI of 31-50%: thirty percent (30%) of the loan shall be repaid in monthly installments over the term of the loan. The remainder is forgiven at the end of the term.
6. AMI of 51-120%: fifty percent (50%) of the loan shall be repaid in monthly installments over the term of the loan. The remainder is forgiven at the end of the term.
7. Default: The loan will be determined to be in default if any of the following occurs during the Loan term: sale, transfer, or conveyance of property; conversion to a rental property; loss of homestead exemption status; failure to pay your monthly installments of the SHIP loan, or failure to occupy the home as primary residence.

If any of these occur, the outstanding balance will be due and payable to Alachua County.

A CLT home that is in default: The first right of refusal to acquire the property is offered to the CLT organization. In the event the CLT is not willing or able to exercise its right of repurchase, it shall transfer its right of repurchase to the Alachua County, giving the County the right, but not the obligation to foreclose. In cases where the qualifying homeowner(s) die(s) during the loan term, the loan may be assumed by a SHIP eligible heir who will occupy the home as a primary residence. If the legal heir is not SHIP eligible or chooses not to occupy the home, the outstanding balance of the loan will be due and payable.

If the home is foreclosed on by a superior mortgage holder, the county will make an effort to recapture funds through the legal process if it is determined that adequate funds may be available to justify pursuing a repayment.

All repayments from this program will be considered program income.

f. Recipient/Tenant Selection Criteria: Applicants will be ranked for assistance based on a first-qualified, first-served basis with the priorities for Special Needs, Essential Services Personnel and income groups as described in section I of this plan. If an applicant has received SHIP assistance in the past 15 years, then the applicant is not eligible for additional assistance (Exception: Disaster Recovery)

g. Sponsor Selection Criteria: N/A

h. Additional Information: Loan will be awarded in the amount of money required in order to allow the homebuyer to qualify. The maximum ($16,000) will not be awarded in all cases.

SHIP Assistance for the purchase of homes requiring repairs.

Eligible home repairs include:

1. Repairs needed to meet or exceed the requirements of the Florida Building Code, ss. 553.70-553.898 F.S., as amended and adopted by Alachua County Ordinance 02-01.

2. Roof repair or replacement.

3. Repair, replacement, or provision of heating and/or cooling system.

4. Energy conservation measures such as insulation, weather-stripping, etc.

5. Alterations to the unit's exterior or interior to provide greater accessibility for persons with disabilities or for family members over the age of 62.

6. Other repairs as recommended by a certified SHIP inspector and approved by the Alachua County SHIP program.

7. Repairs will be completed within 90 days of closing.

Assistance for the purchase of newly constructed homes.

SHIP award will be available for down payment and closing cost assistance for homes meeting the following definitions

- If a home is being constructed involving a construction agreement between the eligible home buyer and a licensed builder/general contractor.
- If a home has obtained a certificate of occupancy in the 12-month period preceding the contract for sale and purchase.
- If a home was built as a model home, has never been occupied, and is less than a year old.
- If the final appraised value (including land value), is less than or equal to the maximum purchase price.

B. OWNER OCCUPIED REHABILITATION - CODE 3

a. Summary: Funds will be awarded to repair owner occupied homes to alleviate code violations, health hazards and life and safety issues. SHIP Funds assist only housing meeting the standards of Chapter 553, Florida Statutes. SHIP funds may also be used to assist mobile homes or manufactured housing constructed in, or after, 2010 and are limited to expending 20% of the overall allocation on this activity.

b. Fiscal Years Covered: 2021-2022, 2022-2023, 2023-2024

c. Income Categories to be served: Very low, and low

d. Maximum award: $51,000.00

e. Terms:

1. Repayment loan/deferred loan/grant: Deferred payment loan secured by a note and mortgage.
2. Interest Rate: 0%
3. Years in loan term:

$0	to	$19,999: 5 years.
$20,000	to	$29,999: 10 years.
$30,000	to	$51,000: 20 years.

4. Forgiveness:

   AMI of 30% or below 0%: the loan will be forgiven at the end of the loan term.

5. Repayment:

   AMI of 31-50%: thirty percent (30%) of the loan shall be repaid in monthly installments over the term of the loan. The remainder is forgiven at the end of the term.

   AMI of 51-80%: fifty percent (50%) of the loan shall be repaid in monthly installments over the term of the loan. The remainder is forgiven at the end of the term.

6. Default: The loan will be determined to be in default if any of the following occurs during the Loan term: sale, transfer, or conveyance of property; conversion to a rental property; loss of homestead exemption status; failure to pay your monthly installments of the SHIP loan, or failure to occupy the home as primary residence.

   If any of these occur, the outstanding balance will be due and payable.

   In cases where the qualifying homeowner(s) die(s) during the loan term, the loan may be assumed by a

SHIP eligible heir who will occupy the home as a primary residence. If the legal heir is not SHIP eligible or chooses not to occupy the home, the outstanding balance of the loan will be due and payable.

If the home is foreclosed on by a superior mortgage holder, the county will make an effort to recapture funds through the legal process if it is determined that adequate funds may be available to justify pursuing a repayment.

All repayments from this program will be considered program income.

f. Recipient/Tenant Selection Criteria: Applicants will be ranked for assistance based on a first-qualified, first-served basis with the priorities for Special Needs, Essential Services Personnel and income groups as described in section I. (I) of this plan. If you have received ship assistance in the past 15 years, then you are not eligible for additional assistance (Exception: Disaster Recovery) Eligibility criteria include:

1. Owner occupancy.
2. Primary residence.
3. Current on property taxes (not delinquent).
4. Current on mortgage; No Lis Pendens currently in effect.
5. Property located in Alachua County, outside the City of Gainesville

g. Sponsor Selection Criteria: The County will advertise for developers as funding is made available

h. Additional Information: Mobile homes must be constructed in, or after, 2010. Condos and other attached homes are not eligible for Owner Occupied Rehabilitation to correct exterior problems Wherein the roof is clearly delineated, separate and apart from the adjoining structure it may be address with advance permission from the Housing Division. No housing will be addressed under this strategy wherein the estimate of repairs exceeds 50% of the assessed value based on the property appraiser's determination. No Mobile/Manufactured units built before 2010 will qualify under this program.

C. DEMOLITION AND RECONSTRUCTION - CODE 4

a. Summary: Wherein an applicant's home that has been approved for owner occupied rehabilitation, but is determined to be beyond reasonable repair (more than 50% of structure is deemed unlivable and estimated rehab exceeds maximum award for that strategy), the home will be eligible for demolition and reconstruction of a new home. SHIP Funds assist only housing meeting the standards of Chapter 553, Florida Statutes. SHIP funds may also be used to assist mobile homes or manufactured housing constructed in, or after, 2010 and are limited to expending 20% of the overall allocation on this activity.

b. Fiscal Years Covered: 2021-2022, 2022-2023, 2023-2024

c. Income Categories to be served: Very low, and low

d. Maximum award: $251,000.00 of which $1,000.00 is for filing, surveys, and title searches.

e. Terms:

1. Repayment loan/deferred loan/grant: Grant for Clients with AMI of 30% or below.
    a. All others Deferred payment loan secured by a note and mortgage
2. Interest Rate: 0%
3. Years in loan term: 30
4. Forgiveness: AMI of 30% or below 0%: the loan will be forgiven at the end of the loan term
5. Repayment: AMI of 31-50%: thirty percent (30%) of the loan shall be repaid in monthly installments over the term of the loan. The remainder is forgiven at the end of the term.

    AMI of 51-80%: fifty percent (50%) of the loan shall be repaid in monthly installments over the term of the loan. The remainder is forgiven at the end of the term.
6. Default: The loan will be determined to be in default if any of the following occurs during the Loan term: sale, transfer, or conveyance of property; conversion to a rental property; loss of homestead exemption status; failure to pay your monthly installments of the SHIP loan, or failure to occupy the home as primary residence.
    a. If any of these occur, the outstanding balance will be due and payable.
    b. In cases where the qualifying homeowner(s) die(s) during the loan term, the loan may be assumed by a SHIP eligible heir who will occupy the home as a primary residence. If the legal heir is not SHIP eligible or chooses not to occupy the home, the outstanding balance of the loan will be due and payable.
    c. If the home is foreclosed on by a superior mortgage holder, the county will make an effort to recapture funds through the legal process if it is determined that adequate funds may be available to justify pursuing a repayment.

f. Recipient/Tenant Selection Criteria: Applicants will be ranked for assistance based on a first-qualified, first-

served basis with the priorities for Special Needs, Essential Services Personnel and income groups as described in section I. (I) of this plan. If you have received ship assistance in the past 15 years, then you are not eligible for additional assistance (Exception: Disaster Recovery)

g. Sponsor Selection Criteria: A Notice of Funding will be advertised and applications will be ranked.

h. Additional Information: Newly constructed home will be designed and built according to HQS standards for bedroom size and will conform to minimum requirements (setbacks, square footage) for the area.

D. DISASTER RECOVERY - CODE 5

a. Summary: Funds will be awarded to qualified applicants in need of home repairs directly caused by a disaster that has been declared by an Executive Order of the President or Governor. SHIP Funds assist only housing meeting the standards of Chapter 553, Florida Statutes. SHIP funds may also be used to assist mobile homes or manufactured housing constructed in, or after, 2010 and are limited to expending 20% of the overall allocation on this activity.

b. Fiscal Years Covered: 2021-2022, 2022-2023, 2023-2024

c. Income Categories to be served: Very low, low

d. Maximum award: $15,000.00

e. Terms:

1. Repayment loan/deferred loan/grant: Grant
2. Interest Rate: 0%
3. Years in loan term: 0 Years
4. Forgiveness: Immediately forgiven
5. Repayment: N/A
6. Default: N/A

f. Recipient/Tenant Selection Criteria: Applicants will be ranked for assistance based on a first-qualified, first-served basis with the priorities for Special Needs, Essential Services Personnel and income groups as described in section I. (I) of this plan. If you have received ship assistance in the past 15 years, then you are not eligible for additional assistance (Exception: Disaster Recovery)

g. Sponsor Selection Criteria: N/A

h. Additional Information:

Repairs will be prioritized as follows:

- Immediate threats to health and life safety (sewage, damaged windows, roofing) in cases where the home is still habitable.
- Imminent residual damage to the home (such as damage caused by a leaking roof) in cases where the home is still habitable.
- Repairs necessary to make the home habitable.
- Repairs to mitigate dangerous situations (exposed wires).

E. EMERGENCY REPAIR - CODE 6

a. Summary: The Emergency Repair Program is designed to correct, repair, or replace an essential system and/or critical structural problem for homeowners who are either Special Needs, Essential Services Personnel elderly (age 62 or over). The purpose of ERP is to stabilize the homeowner's residence by making essential repairs to make the home more livable. This is not a comprehensive homeowner rehabilitation program. This includes may include damaged roofing that is leaking, damaged windows causing exposure to the elements, or electrical or plumbing problems that could cause damage (fire) to the home or is an immediate health hazard to the occupants.

b. Fiscal Years Covered: 2021-2022, 2022-2023, 2023-2024

c. Income Categories to be served: Very low, and low

d. Maximum award: $11,000.00

e. Terms:

1. Repayment loan/deferred loan/grant: Grant to Applicants that are 0-30% AMI and a Deferred payment loan secured by a note and mortgage for all others
2. Interest Rate: 0 %
3. Years in loan term:10 years
4. Forgiveness:
5. Repayment: AMI of 31-50%: thirty percent (30%) of the loan shall be repaid in monthly installments over the term of the loan. The remainder is forgiven at the end of the term.

   AMI of 51-80%: fifty percent (50%) of the loan shall be repaid in monthly installments over the term of the loan. The remainder is forgiven at the end of the term.
6. Default The loan will be determined to be in default if any of the following occurs during the Loan term: sale, transfer, or conveyance of property; conversion to a rental property; loss of homestead exemption status; failure to pay your monthly installments of the SHIP loan, or failure to occupy the home as primary residence.

   If any of these occur, the outstanding balance will be due and payable. In cases where the qualifying homeowner(s) die(s) during the loan term, the loan may be assumed by a SHIP eligible heir who will occupy the home as a primary residence. If the legal heir is not SHIP eligible or chooses not to occupy the home, the outstanding balance of the loan will be due and payable. If the home is foreclosed on by a superior mortgage holder, the county will make an effort to recapture funds through the legal process if it is determined that adequate funds may be available to justify pursuing a repayment. All repayments from this program will be considered program income.

f. Recipient/Tenant Selection Criteria: Applicants will be ranked for assistance based on a first-qualified, first-served basis with the priorities for Special Needs, Essential Services Personnel and person 62 or

over.

g. Sponsor/Sub-recipient Selection Criteria: N/A

h. Additional Information: Applicants assisted with emergency repairs, who are on the rehabilitation waiting list will not lose their place, however, the amount of funds expended for the emergency repairs will be counted towards the maximum award if the applicant receives subsequent assistance through the rehabilitation strategy. Funds may also be awarded to pay insurance deductibles for any emergency repairs covered by the homeowner's policy. . If homeowner is insured, proceeds from the insurance FEMA. If homeowner is insured, proceeds from the insurance FEMA and other funding source going to be used to benefit the repair/recovery must be used first before SHIP funds, except for the payment of the deductible and other funding source going to be used to benefit the repair/recovery must be used first before SHIP funds, except for the payment of the deductible.

Funds may also be awarded to pay insurance deductibles for any emergency repairs covered by Homeowner's Insurance. SHIP Funds assist only housing meeting the standards of Chapter 553, Florida Statutes. SHIP funds may also be used to assist mobile homes or manufactured housing constructed in, or after, 2010 and are limited to expending 20% of the overall allocation on this activity.

F. FORECLOSURE PREVENTION- CODE 7

a. Summary: Funds will be awarded to homeowners that are in arrears on their first mortgage. The arrearage must be at least three months, but no more than six months and cannot be under an active foreclosure action. This is a onetime eligibility per applicant.

b. Fiscal Years Covered: 2021-2022, 2022-2023, 2023-2024

c. Income Categories to be served: Very low, and low

d. Maximum award: $7,500.00

e. Terms:

1. Repayment loan/deferred loan/grant: Grant
2. Interest Rate: 0%
3. Years in loan term:0 Years
4. Forgiveness: Immediately
5. Repayment: N/A
6. Default: N/A

f. Recipient/Tenant Selection Criteria: Applicants will be ranked for assistance based on a first-qualified, first-served basis with the priorities for Special Needs, Essential Services Personnel and income groups as described in section I. of this plan

g. Sponsor Selection Criteria: N/A

h. Additional Information: Applicant must provide proof of pending foreclosure action or notice.

G. ACQUISITION/REHABILITATION - CODE 9, 10

a. Summary: Funds will be awarded to developer for the construction and financing of affordable housing. Eligible costs include property acquisition, demolition, site improvements rehabilitation, and or new construction. Houses rehabilitated or constructed will be sold to SHIP income eligible buyers. The strategy promotes infill housing development green building and mixed income neighborhoods. SHIP Funds assist only housing meeting the standards of Chapter 553, Florida Statutes. SHIP funds may also be used to assist mobile homes or manufactured housing constructed in, or after, 2010 and are limited to expending 20% of the overall allocation on this activity.

b. Fiscal Years Covered: 2021-2022, 2022-2023, 2023-2024

c. Income Categories to be served: Very low, and low

d. Maximum award: $250,000.00

e. Developer Loan Terms:

1. Repayment loan/deferred loan/grant: Deferred payment loan secured by a note and mortgage
2. Interest Rate: 0%
3. Years in loan term:2 years
4. Forgiveness: Partial loan forgiveness may be provided at the end of the loan term for nonprofit affordable housing providers if it is documented that the development does not have sufficient cash flow, or to be use to make the unit affordable to a new qualified SHIP homebuyer
5. Repayment: Loan is due and payable at the end of the term unless renegotiated by the County to extend affordability in accordance with affordability period of other funding sources that are providing compliance monitoring - the developer has 2 years to sell the property to a SHIP qualified applicant who is ELI, VLI or Low income, otherwise the investment is due a payable to the County SHIP program.
6. Home Buyer Loan Terms:
    a. Income Categories to be served: Very low, low and moderate
    b. Maximum award: $250,000.00 of which one thousand dollars is to be used for file, survey, title, etc.
    c. Repayment loan/deferred loan/grant: Deferred payment loan secured by a note and mortgage.
    d. Interest Rate: 0%
    e. Years in loan term: 15
    f. Forgiveness: AMI of 30% or below 0%: the loan will be forgiven at the end of the loan term
    g. Repayment: AMI of 31-50%: thirty percent (30%) of the loan shall be repaid in monthly installments over the term of the loan.
    h. Balance of loan to be forgiven if loan is not in default.

i. AMI of 51-80%: fifty percent (50%) of the loan shall be repaid in monthly installments over the term of the loan.

j. Balance of loan to be forgiven if loan is not in default.

k. Default: The loan will be determined to be in default if any of the following occurs during the Loan term: sale, transfer, or conveyance of property; conversion to a rental property; loss of homestead exemption status; failure to pay your monthly installments of the SHIP loan, or failure to occupy the home as primary residence.

f. Default: In cases where the qualifying homeowner(s) die(s) during the loan term, the loan may be assumed by a SHIP eligible heir who will occupy the home as a primary residence. If the legal heir is not SHIP eligible or chooses not to occupy the home, the outstanding balance of the loan will be due and payable.

If the home is foreclosed on by a superior mortgage holder, the county will make an effort to recapture funds through the legal process if it is determined that adequate funds may be available to justify pursuing a repayment.

g. Recipient/Tenant Selection Criteria: Assistance will be awarded on a first qualified, first served basis to an income eligible household. If you have received ship assistance in the past 15 years, then you are not eligible for additional assistance (Exception: Disaster Recovery).

h. Sponsor Selection Criteria: Affordable Housing Development applications will be solicited via a NOFA. Qualified developers will submit a proposal for funding for specific properties. Scoring will be defined in the application and is subject to change

i. Additional Information: This strategy has two objectives: (1) the provision of homeownership opportunities for eligible families, and (2) the upgrading of existing housing stock within Alachua County. The County, through Community Support Services, Housing Division, may acquire substandard housing that is "for sale" on the open market and rehabilitate it to standard housing. The property is then sold to income-eligible applicants of the SHIP Program. Once the home is sold, any investment made to acquire or rehabilitation must be returned to the County SHIP program.

Part of the investment may remain with the client to make the home affordable to ELI, VLI and Low income SHIP eligible households.

Property eligibility is as follows:

- The property must be located within the unincorporated area of Alachua County;
- The property must have a minimum of 2 code violations or safety hazards.
- Other programs which will be used as leverage with SHIP funds under this strategy are as follows:
    - Private lending institutions and other funding sources, as they become available from time to time.

H. RENTAL ASSISTANCE - CODE 13, 23

a. Summary: Funds will be awarded to renters that are in need of a one-time payment to assist with obtaining a lease on a rental unit and qualify under 420.9072 (10). This may include utility deposits, security deposits and eviction prevention up to six months' rent. For households that are very low income and have one adult with special needs according to 420.0004 (13) or a person who is homeless according to 420.621, rent up to twelve months' is eligible

b. Fiscal Years Covered: 2021-2022, 2022-2023, 2023-2024

c. Income Categories to be served: Very low, and low

d. Maximum award: $15,000.00

e. Terms:

1. Repayment loan/deferred loan/grant: Grant for all funds
2. Interest Rate: 0%
3. Years in loan term: 0 years
4. Forgiveness: N/A
5. Repayment: Deposit are returned to the County SHIP program
    a. With any lease using SHIP funds a letter signed by the Lessee and Lessor, stating that any deposits paid on behalf of a client is/are the property of Alachua County and is/are to be returned to same. The lessee acknowledges that these funds are not to be return to them and if so, will promptly be forward to Alachua County. The Landlord will be responsible for notifying the County when a lease expires and any and all deposits and securities will be returned.

f. Default: N/A

g. Recipient/Tenant Selection Criteria: Applicants will be ranked for assistance based on a first-qualified, first-served basis with the priorities for Special Needs, Essential Services Personnel, and income groups as described in section I. (I) of this plan.

h. Sponsor/Sub-recipient Selection Criteria: N/A

i. Additional Information: Applicants will be referred to the county through supportive services or other community-based organizations. Any funds e.g security or deposit funds paid to a landlord on behalf of a client are the property of the county and must be returned to the County not the client/tenant.

I RENTAL DEVELOPMENT - CODE 14, 21

Summary: Funds will be awarded to construct new or rehabilitation existing low-income housing units. These funds will be used as a match with other state and federal housing programs. This funding is intended to be used as gap financing required for the project. In cases where a smaller development (less than 50 units) is being proposed that includes Special Needs units, the county may choose to provide a larger amount of the overall construction financing. B. b. Funds may be used to assist projects with acquisition, rehabilitation and new construction. Eligible costs may include demolition and reconstruction of rental units. SHIP funding is not intended to be the only source of financing, but financing of last resort. All financing for the project must be secured prior to an award of SHIP funds.

Fiscal Years Covered: 2021-2022, 2022-2023, 2023-2024

a. c. Income Categories to be served: Very low, low and moderate

d. Maximum award:

1. The Standard loan will be $10,000.00 per unit to rehabilitated or for new construction.

   a. Any request for funding under this strategy within the City limits of Gainesville must be for Special Needs households and evidence will be provided annually for the term of the mortgage, typically 15 years.

   b. Request for funding under this strategy require 20% of the unit's addresses will be for Special Needs: As define in Describe in V. Efforts to meet the 20% Special Needs set-aside, this document. If only one unit it must be special needs.

2. Low Income Tax Credit Program may receive up to 15% of per funding allocation up to a maximum of $460,000.00. In order to achieve this funding goal, if available the funds may be expended over several funding years.

e. Terms:

1. Repayment loan/deferred loan/grant: For for-profit developers, funds will be awarded as a loan secured by a recorded subordinate mortgage and note. For non-profit developers, funds will be awarded as a forgivable loan secured by a recorded subordinate mortgage and note.

2. Interest Rate: 0%

3. Years in loan term: 15 years

4. Forgiveness: Non-profits, the loan is forgiven on a prorated basis beginning in year six so that 10% of the loan is forgiven annually from years six through fifteen.

5. Repayment: For-profits, the loan is due and payable at the end of the term unless the county negotiates an extended loan term of up to 15 years with the same loan terms in order to secure affordable rental units in the best interest of the county's residents.

6. Default: For all awards, a default will be determined as: sale, transfer, or conveyance of property; conversion to another use; failure to maintain standards for compliance as required by any of the funding sources. If any of these occur, the outstanding balance will be due and payable. The county will make an effort to recapture funds through the legal process if it is determined that adequate funds may be available to justify pursuing a repayment. Failure to maintain

compliance standards as required by the funding source.

1. The use of these will be conditioned by a first right of refusal – the project in default will make available to a nonprofit.

    a. Recipient Selection Criteria: All applicants for residence in a SHIP-assisted unit must meet income qualifications of the program as determined and reported by the developer's management company for the development.

    b. Sponsor/Developer Selection Criteria: Developers will apply to the County through an RFQ process. The RFQ will require proof of developer experience in providing affordable rental housing, proof of financial capacity, evidence of site control (or contract for sale), proof of ability to proceed once all funding is closed, and a housing unit design plan that meets with the county's housing element in the Comprehensive Plan. The County reserves the right to select developments that meet all the above requirements and:

        1. Are in areas of immediate need due to lack of available units.

        2. Propose to preserve and improve existing units.

        All funding awards will be subject to closing on other funding sources.

    Additional Information: Developers will be required to meet compliance reporting requirements on the development necessary to meet the statutory requirements for monitoring of SHIP rental units.

J. EVICTION PREVENTION /RENTAL ASSISTANCE - CODE 13, 18

a. Summary of Strategy: SHIP funds will be awarded to renters that are in need of a one-time payment to assist with rent payments that are in arrears. Eviction prevention applies only to rental dwellings to prevent homelessness. Assistance for rent payments in arrears is limited to no more than twelve months of rent for households that qualify under s. 420.9072 (7) (b). Combination of arrears and current/future rental assistance cannot exceed 12 months total.

b. Fiscal Years Covered: 2021-2022, 2022-2023, 2023-2024

c. Income Categories to be served: Very Low

d. Maximum award: $10,000

e. Terms:

1. Repayment loan/deferred loan/grant: Funds will be awarded as a grant.
2. Interest Rate: N/A
3. Years in loan term: N/A
4. Forgiveness: N/A
5. Repayment: N/A
6. Default: N/A

f. Recipient Selection Criteria: Eligible applicants will be approved for assistance, subject to funding availability, based on a first-qualified, first-served basis.

g. Sponsor/Developer Selection Criteria: N/A

h. Additional Information: Case management will be provided by Alachua County Community Support Services Department or referred to community social service agencies as needed. Housing Division currently has access to the fiscal system and is able to run reports and review requests as submitted by the Division of Social Services for all applicants assisted through this particular process. Review will be presented to the Housing Division as client are presented for payment (reviewed and approved or denied).

III. LHAP INCENTIVE STRATEGIES

In addition to the **required Incentive Strategy A and Strategy B**, included are all of the adopted incentives with the policies and procedures used for implementation as provided in Section 420.9076, F.S.

A. **Expedited Permitting**.

Permits as defined in s. 163.3177 (6) (f) (3)[1] for affordable housing projects are expedited to a greater degree than other projects. Sec. 402.03.5. - Building permit review for affordable housing units.

(a) Applicability. This section applies to all housing units funded by any of the following programs below:(1) Community development block grant. (2) State Housing Initiatives Partnership Program (SHIP). (3) Impact fee assistance program. (4) Other (i.e. housing tax credit program). (b) Processing of building permits. Building permits for projects meeting the affordable housing guidelines above shall be available (processed) within six business days from the day the application is found sufficient and complete. No default permit is issued on account of this deadline. (c) Application information. In addition to the required information necessary to obtain a building permit, all affordable housing units seeking expedited permit review shall submit an Alachua County Expedited Review Process for Affordable Housing Units form.

(Ord. No. 09-05, § 2(Ext. A), 9-8-09)

B. **Ongoing Review Process.**

An ongoing process for review of local policies, ordinances, regulations and plan provisions that increase the cost of housing prior to their adoption. The Alachua County Housing Committee, meets as needed to discuss any changes to the rule or regulations that may affect or adversely impact affordable housing.

C. **Other Incentive Strategies Adopted:**

1. Modification of Impact Fees for Affordable Housing

The County previously provided General Revenue Funding to offset the cost of impact fees for affordable housing units. For reasons of budgetary considerations and lack of effectiveness as a means of achieving affordable housing, the

[1] The housing element must express principles, guidelines, standards, and strategies that reflect, as needed, the creation and preservation of affordable housing for all current and anticipated future residents of the jurisdiction, elimination of substandard housing conditions, adequate sites, and distribution of housing for a range of incomes and types, including mobile and manufactured homes. The element must provide for specific programs and actions to partner with private and nonprofit sectors to address housing needs in the jurisdiction, streamline the permitting process, and minimize costs and delays for affordable housing, establish standards to address the quality of housing, stabilization of neighborhoods, and identification and improvement of historically significant housing.

County recently decided not to pursue this strategy.

2. The reservation of infrastructure capacity for housing for very-low-income persons, low-income persons, and moderate-income persons.

The Unified Land Development Code, Sec. 407.121(b), provides that a preliminary certificate of level of service compliance (CLSC) may be issued for affordable housing developments for time periods established by the phasing schedule of the project's approved preliminary development plan. Reservation of public-school capacity associated with this provision can be made through a development agreement between the developer, county, and the school board in accordance with the Interlocal Agreement for Public School Facility Planning.

3. Allowance for Accessory Dwelling Units in Residential units in residential zoning Districts

The Unified Land Development Code, Sec. 404.24, provides that in the A, RE, RE-1, R-1aa, R-1a, R-1b, and R-1c districts, located within the rural/agriculture, estate residential, low density, or medium density residential land use designations, a single accessory dwelling unit is allowed as an accessory use to a principal structure, without being included in gross residential density calculations. All accessory dwelling units must comply with standards such as owner-occupancy, size, access, etc., as identified in Sec. 404.24.

4. Reduction in parking and setback requirements for affordable housing. The Unified Land Development Code, Sec. 407.17, allows a reduction in the number of required parking spaces for a mixed-use project or for uses which are located adjacent to one another and have different peak parking demands and operating hours. Sec. 407.18 provides for reductions in the required number of off-street parking spaces through documentation of reduced parking demand. Reduction in setback requirements for zero lot line housing is noted below under "allowance of flexible lot configurations, including zero lot line configurations, for affordable housing".

5. The allowance of flexible lot configurations, including zero lot line configurations, for affordable housing. The Unified Land Development Code, Chapter 403. Article III, implements density-based zoning districts that allow for flexible lot sizes and better utilization of densities allowed within land uses. Chapter 404. Article II includes provisions to allow mixed unit types by right (single family detached units and single family attached units) in residential zoning districts, allowing for more density and a greater range of unit prices. This in turn creates opportunities to include affordable housing units in market rate developments. Sec. 403.07 and Sec. 407.67 allow for zero lot line units in single family districts and in Traditional Neighborhood Developments and Transit Oriented Developments. Minimum side setbacks do not apply to zero lot line developments provided the building spacing requirements of the Florida Building Code are met. Future Land Use Element Objective 1.8 in the Comprehensive Plan and ULDC Chapter 407. Article XVI provides for Cottage Neighborhoods intended in part to promote diverse and high-quality infill development within the Urban Cluster and a variety of housing types and sizes in the community that meet the needs of households with a diversity of incomes. Cottage neighborhoods may be on lots as small as one acre, with a minimum of four homes and a maximum of 15 homes allowed around any common green, and may be incorporated within larger residential subdivisions. These neighborhoods provide for more efficient use of land through density bonuses of two times the maximum units per acre of the zoning district designation. Homes in Cottage Neighborhoods may be located on individually platted lots or on a common ownership lot, and may be within single unit, duplex, or triplex buildings.

Setbacks are applied from the overall property boundaries rather than from individual lots.

6. Modification of street requirements for affordable housing. The County has a range of street standards, depending on street volume, which are intended to minimize street width requirements. Sec. 407.141, ULDC, includes provision forflexibility in street design and less right-of-way required for developments that provide innovative plans.
Cottage neighborhoods, provided for in Chapter 407. Article XVI, allow the option of common parking lots rather thanprivate roads, drives, or alleys accessing individual homes, potentially reducing development and housing costs.

7. Development of an inventory list of locally-owned public lands appropriate for use as affordable housing. Florida Statutes, Sec. 125.379, requires each county to prepare an inventory list every 3 years of all county-owned lands withinits jurisdiction that is appropriate for use as affordable housing. The list is then reviewed and adopted by resolution at a public hearing. Housing Element Policy 1.1.8 in the Comprehensive Plan states that Alachua County will review surplus land in its possession for suitability for sale or donation to organizations which propose to develop affordable housing projects. An updated inventory list will be prepared and submitted in 2019.

8. Support for development and growth near transportation hubs, major employers, and mixed-use centers. The Alachua County Comprehensive Plan provides for mixed-use, pedestrian- and bicycle-friendly communities in higher densities and intensities that are transit supportive and reduce the need to rely on a motor vehicle for mobility. These are provided for in Activity Centers designated by the Comprehensive Plan, and in Transit Oriented Developments (TODs) and Traditional Neighborhood Developments (TNDs) in areas designated for urban residential development. To increase the variety of housing opportunities within walking distance of existing or future commercial and employment areas, residential uses in Activity Centers are allowable as part of mixed-use development in non-residential Future LandUse designations. A range of housing options are allowed in these developments, to provide opportunities for residents of various income levels to reside within the same community.

9. Increased Number of Attached Units. The Unified Land Development Code, Chapter 404. Article II, includes provisions to allow single family attached units by right in residential zoning districts without restricting the number ofunits in a row that may be attached. Homes in Cottage Neighborhoods may be within single unit, duplex, or triplex buildings.

10. Development Review Application Fee. The County Manager may waive development review application fees and charges to not-for-profit corporations that submit affordable housing projects. This policy is annually approved throughthe Alachua County fee schedule by the Board of County Commissioners.

11. Fee Reduction. Alachua County also offers a 50% reduction in building permit fees for properties with a homesteadexemption (owner-occupied) and a Total Just Value of less than $50,000 as determined by the Alachua County PropertyAppraiser within the last year.

LHAP Strategy Quick Guide
Exhibit F

Strategy Name/Code	State a strategy name corresponding to a correct code[1] (must be consistent with the housing delivery goals charts). It is possible to have more than one code in a strategy such as codes 1 and 2 when you have a down payment assistance strategy that allows for purchase with or without rehab. Do not use a Special Needs code unless the strategy only assists those households as defined.
Summary of Strategy	Provide a concise description of the activity to be carried out under the strategy. Do not state anything that will covered in other areas of the strategy (such as terms). Information that is important to the strategy, but that does not belong in this section should be included in "Additional Information". If it is a 'sponsor" strategy, state that the funds made available to the sponsor pass through to the homebuyer and detail terms for both the sponsor and homebuyer in the appropriate terms sections.
Fiscal Years Covered	All plans should cover 2020-2021, 2021-2022, 2022-2023
Income Categories to be Served	Only list the defined categories of very low, low and moderate by name. Do not list the AMI percentages and do not state "all". The allowance for serving up to 140% AMI did NOT change the definition of moderate which is 120% AMI. If you choose to serve those households above moderate, you need to state that.
Maximum Award	This should be the per unit maximum award and should include all program costs charged to the household including project delivery costs. If it is a rental development strategy, list if the award amount is per unit or development.
Terms	NOTE: If you have a strategy that awards fund initially to sponsors which is then passed on to applicants, make sure you clearly state separate terms for the Sponsor and the homebuyer.
Repayment Loan, Deferred loan, Grant	State whether the funds are awarded as a loan that is paid back, deferred or as a grant. Note that grants are limited to specific activities defined in Rule. For loans please add the phrase "secured by a recorded Mortgage and Note".
Interest Rate: %	Please state it simply, such as "0%". For a grant, state N/A.
Years	Number of years the loan is secured for. For a grant, state N/A.
Forgiveness	State if any portion of the loan will be forgiven. Be clear to state whether the forgiveness is prorated over the term of the loan or forgiven in whole at the end of the term. Do not refer to default situations in this section. This is only when loans remain in good standing.
Repayment	If a loan requires payments during the term or a balloon payment at the end of the term, state those terms/requirements here. If not, simply state "None required as long as loan is in good standing." Do not state default terms in this section.

Default	This section is to cover situations where the loan does not remain in good standingthrough the term. It could include sale, transfer, conversion to rental or death of homeowner(s). Please state what conditions constitute a default and the consequences. Please state what occurs if the homeowner dies (payback, assumption by eligible heir).
Recipient/Tenant Selection Criteria	At a minimum state "first-qualified, first-served". Add any special conditions,priorities for selection.
Sponsor Selection Criteria	A sponsor is an entity to which an award of funds has been made. This does not include a sub-recipient that is under contract to the LG to perform administrationof the program or a contractor selected to perform work. If this is done by an RFPprocess, please provide a general overview of that process and give a summarized List of requirements (experience, financial capacity, etc.)
Additional Information	Use this section to detail anything that is not covered in the summary above.This could include restrictions against assisting mobile homes or households receiving SHIP funds more than one time, for example.
General Note: if you are referencing a separate policy document in the LHAP, either summarize the policy in theaffected strategies or attach the document as an exhibit.	

[1] Strategy codes must be consistent with codes chart provided at: http://www.floridahousing.org/docs/default-source/programs/special-programs/lhap/template-and- exhibits/lhap-strategy-codes.docx?sfvrsn=4

Exhibit B

Timeline for SHIP Expenditures Alachua County *(local government)* affirms that funds allocated for these fiscal years will meet the followingdeadlines

Fiscal Year	Encumbered	Expended	1st Year AR	2nd Year AR	Closeout AR
2021-2022	6/30/2021	6/30/2023	9/15/2021	9/15/2022	9/15/2023
2022-2023	6/30/2023	6/30/2024	9/15/2022	9/15/2023	9/15/2024
2023-2024	6/30/2024	6/30/2025	9/15/2023	9/15/2024	9/15/2024

If funds allocated for these fiscal years is not anticipated to meet any of the deadlines in thetable above, Florida Housing Finance Corporation will be notified according to the followingchart:

Fiscal Year	Funds Not Encumbered	Funds Not Expended	1st Year AR Not Submitted	2nd Year AR Not Submitted	Closeout AR Not Submitted
2021-2022	3/30/2021	3/30/2022	6/15/2020	6/15/2021	6/15/2022
2022-2023	3/30/2022	3/30/2023	6/15/2021	6/15/2022	6/15/2023
2023-2024	3/30/2023	3/30/2024	6/15/2022	6/15/2023	6/15/2024

Requests for Expenditure Extensions (close-out year ONLY) must be received by FHFC by June15 of the year in which funds are required to be expended. The extension request shall be emailed to robert.dearduff@floridahousing.org and terry.auringer@floridahousing.org and include:

1. A statement that "(city/county) requests an extension to the expendituredeadline for fiscal year N/A.
2. The amount of funds that is not expended.
3. The amount of funds that is not encumbered or has been recaptured.
4. A detailed plan of how/when the money will be expended.

Note: an extension to the expenditure deadline (June 30) does not relieve the requirement tosubmit (September 15) the annual report online detailing all funds that have been expended.Please email terry.auringer@floridahousing.org when you are ready to "submit" the AR.

Other Key Deadlines:

AHAC reports are due for each local government the same year as the local government's LHAP being submitted. Local governments receiving the minimum or less allocation are notrequired to report.

Exhibit D
CERTIFICATION TO
FLORIDA HOUSING FINANCE CORPORATION

The Alachua County Board of County Commissioners (BoCC)

Certifies that:

(1) The availability of SHIP funds will be advertised pursuant to program requirements in 420.907-420.9079, Florida Statutes.

(2) All SHIP funds will be expended in a manner which will insure that there will be no discrimination on the basis of race, color, national origin, sex, handicap, familial status, or religion.

(3) A process to determine eligibility and for selection of recipients for funds has been developed.

(4) Recipients of funds will be required to contractually commit to program guidelines and loan terms.

(5) Florida Housing will be notified promptly if the local government /interlocal entity will be unable to comply with any provision of the local housing assistance plan (LHAP).

(6) The LHAP provides a plan for the encumbrance of funds within twelve months of the end of the State fiscal year in which they are received and a plan for the expenditure of SHIP funds including allocation, program income and recaptured funds within 24 months following the end of the State fiscal year in which they are received.

(7) The LHAP conforms to the Local Government Comprehensive Plan, or that an amendment to the Local Government Comprehensive Plan will be initiated at the next available opportunity to insure conformance with the LHAP.

(8) Amendments to the approved LHAP shall be provided to the Florida Housing for review and/or approval within 21 days after adoption.

(9) The trust fund exists with a qualified depository for all SHIP funds as well as program income or recaptured funds.

(10) Amounts on deposit in the local housing assistance trust fund shall be invested as permitted by law.

(11) The local housing assistance trust fund shall be separately stated as a special revenue fund in the local governments audited financial statements (CAFR). An electronic copy of the CAFR or a hyperlink to the document shall be provided to Florida Housing by June 30 of the applicable year.

(12) Evidence of compliance with the Florida Single Audit Act, as referenced in Section 215.97, F.S. shall be provided to Florida Housing by June 30 of the applicable year.

(13) SHIP funds will not be pledged for debt service on bonds.

(14) Developers receiving assistance from both SHIP and the Low Income Housing Tax Credit (LIHTC) Program shall comply with the income, affordability and other LIHTC requirements, similarly, any units receiving assistance from other federal programs shall comply with all Federal and SHIP program requirements.

(15) Loans shall be provided for periods not exceeding 30 years, except for deferred payment loans or loans that extend beyond 30 years which continue to serve eligible persons.

(16) Rental Units constructed or rehabilitated with SHIP funds shall be monitored for compliance with tenant income requirements and affordability requirements or as required in Section 420.9075 (3)(e). To the extent another governmental entity provides periodic monitoring and determination, a municipality, county or local housing financing authority may rely on such monitoring and determination of tenant eligibility.

(17) The LHAP meets the requirements of Section 420.907-9079 FS, and Rule Chapter 67-37 FAC.

(18) The provisions of Chapter 83-220, Laws of Florida have not been implemented (except for Miami-Dade County).

Exhibit G

Additional Instructions and Information for Down Payment Assistance for Community Land Trust (CLT) Purchases.

To qualify, homes must be purchased from a County-approved community land trust (CLT). The CLT will execute a 99-year ground lease with the homebuyer. A memorandum of that ground lease is recorded in the public records immediately following the deed. The terms of the ground lease restrict the resale of the property to an income eligible household and provide a right of repurchase to the CLT in the event of default. The CLT must approve the subsequent homebuyer. In the event of a default, the CLT must notify the County whether it intends to exercise its right of repurchase. In the event the CLT is not willing or able to exercise its right of repurchase, it shall transfer its right of repurchase to County, giving County the right, but not the obligation to purchase the property.

The assistance shall be treated as a development cost pay-down to further reduce the sales price to the homebuyer. The assistance amount shall be excluded from the Base Price and Formula Price as defined in the ground lease. The balance of the assistance must be included in the Purchase Option Price as defined in the ground lease to repay the funds to the County in the event of default. If the maximum subsidy was not provided to the first homebuyer, the County may provide additional assistance to the subsequent buyer to ensure that the property remains affordable, up to the amount of the maximum subsidy allowable at the time of subsequent purchase minus the original subsidy amount provided to the first homebuyer. Any additional SHIP investment will extend the original loan term. At the end of the loan term, the loan will be forgiven, and the lien released. However, the CLT ground lease will remain in effect and the requirements for residency, resale price, and subsequent buyer's income eligibility will continue. The CLT may request satisfaction of a loan and release of the lien during the term of the loan on behalf of a homeowner or seller, and under certain defined circumstances, with approval granted by the County on a case-by-case basis.

When selling a CLT home, the seller must notify the CLT. The CLT will then enter into a purchase and sale agreement with the seller that will get assigned to the subsequent homebuyer. The Purchase Option Price for the CLT will be calculated as follows:

Purchase Option Price = Formula Price + Payoff Amount of Deferred Payment Loans

The Formula Price is calculated using a Base Price calculated by subtracting the amount of down paymentassistance from the purchase price. For example:

Purchase Price:	$160,000
MINUS Assistance provided (maximum):	$15,000
EQUALS	
Base Price (sales price) for first buyer:	$145,000

Base price is the amount the buyer would need to finance (plus transaction costs) and is used to calculate theFormula Price in the ground lease.

Suppose the Formula (re-sale) Price in the ground lease is calculated by a 1% annual increase to the Base Price,compounded. Suppose the home is sold after 5 years. To calculate the Purchase Option Price (price that will go in the purchase and sale agreement between the CLT and the seller), first calculate the Formula Price:

Formula Price = Base Price x

Compound Rate Calculated asfollows:

Year 1 = $145,000.00 x 1.01 = $146.450.00

Year 2 = $146,450.00 x 1.01 = $147,914.50 Year 3 = $147,914.50 x

1.01 = $149,393.64Year 4 = $149,393.64 x 1.01 = $150,887.57Year 5 =

$150,887.57 x 1.01 = $152,396.44

Formula Price = $152,396.44

Purchase Option Price = $152,396.44 + $15,000 = $167,396.44

The price to the subsequent buyer equals the Purchase Option price minus the assumed down paymentassistance:

Purchase Option Price:	$167.396.44
DPA assumed:	$15,000
Sales price for subsequent buyer:	$152,396.44 (New Base

Price for Formula Price)The new price should be affordable to the subsequent

buyer without additional subsidy.

At the end of the loan term, the value of the Purchase Option Price will be equal to the Formula Price.

Exhibit H

Loan Requirements and Construction Prohibitions

First Mortgage Loan Requirements

(1) Adjustable rate mortgages are not permitted.
(2) Third party mortgages/private funding are not permitted.
(3) All mortgages must be made through institutional first mortgage lender to include 501c 3 and mustbe SHIP certified.

(9) Exterior doors must be solid core steel or wood. Interior doors are to be hollow core. (NewConstruction)
(10) No metal bars are allowed on windows or doors.

Exhibit I
ALACHUA COUNTY/CITY OF GAINESVILLE
SHIP PROGRAM SPECIAL NEEDS HOUSING PROGRAM

PROGRAM GUIDELINES
FOR CONTRACTS DATED AFTER APRIL 12, 2005

I. GENERAL PURPOSE

A. Project Area and Purpose

Through an inter-local agreement, the City of Gainesville (City) and Alachua County (County) will sponsor a fund pool targeted to the construction and rehabilitation of temporary, transitional or long-term rental housing addressing the following housing needs: persons who have Special Housing Needs means individuals because of particular social, economic, or health related circumstances, may have greater difficulty acquiring or maintaining affordable housing. Such persons may have, for example, encountered resistance to their residing in particular communities, and may have suffered increased housing costs resulting from their unique needs and high risk of institutionalization. Such persons may include, but are not limited to, persons with developmental disabilities; persons with mental illnesses or chemical dependency; persons with Acquired Immune Deficiency Syndrome ("AIDS") and Human Immunodeficiency Virus ("HIV") disease; runaway and abandoned youth; the elderly; and disabled adults.

B. This Program shall be operated in accordance with all applicable rules and regulations of the County, City, State of Florida and Florida Housing Finance Corporation.

II. FUNDING SOURCE

The funding source shall be the SHIP Special Needs Housing Program as allocated in the City and County Local Housing Assistance Plans (LHAP) respectively.

III. ELIGIBLE PROGRAM SPONSORS

An eligible program sponsor must meet the following key eligibility criteria in order to participate:

- Sponsor organizations must be a quasi-governmental agency or a non-profit entity with current 501 (c) (3) tax exempt status;
- Sponsor organizations must demonstrate success in providing Special Needs Housing secured services during the previous three (3) consecutive years from date of application for Special Needs Housing Program funds.
- Sponsor organizations must demonstrate that other funds and financing are available before SHIP funds will be committed and must certify that all assisted individuals must qualify as very low and low-income households as defined by the U.S. Department of Housing and Urban Development (HUD) and adopted by the State of Florida and distributed by the Florida Housing Finance Corporation for use in the SHIP Program. Housing projects must meet income certification guidelines as provided by City and/or County Special Needs Income Certification Plan & Monitoring Strategy.

- Sponsor organizations must have applicable federal, state and/or local license(s) as required to operate an entity within the City and/or the County.

- To the extent funds are available; Sponsor organizations must make the assisted housing and related services available to all eligible persons regardless of jurisdiction of residence within Alachua County prior to or at the time of request or referral for services.

ELIGIBLE SPONSOR SELECTION CRITERIA

The following selection criteria and measures will be used to evaluate applications for funds submitted by an eligible sponsor:

SELECTION CRITERIA MEASURES
Overall Capacity of Organization to Fulfill Project Proposal; Experience with similar housing construction activities, Financial resources and systems in place, Ability to Proceed and Expedite in a Timely Manner, Site Control, Zoning, Land Use Plan, Site Suitability, Engineering, Architectural, Management System for Effective Production, Cost, Quality and Control, Staffing, Operation Procedures, Project personnel availability, Staff/Agency Experience, Board Experience, Financial Management and Resources, a Pro forma, Project budget, Documented Cost Estimates, Audit Reports, AdequateCash Flow, Basic Underwriting Principles, Previous/Current Contract Compliance, Findings, Completions of other Projects funded, Experience with support services (i.e. special needs and/or homeownership programs and education), Training required or provided, WAGES and Workforce Development Initiatives Program participation, Documentation of organization employees' WAGES, and Workforce Development Initiatives Program participants (if applicable), Developer Fee, and Appropriate for Level of Work Involved.

The following documents may be requested as a part of the competitive application process:

Approved site plan, Letters of commitment for other funding, Evidence of site control, three years of tax returns, three years financial statements, Interim financial statements, Project description, Company history, Resumes of all company principals, Application form, Survey and other documentation as may be required.

ELIGIBLE PROGRAM RECIPIENTS

An eligible recipient must meet the following key eligibility criteria in order to occupy a SHIP funded unit or receive assistance from eligible program sponsors:

- Must be in one of the special needs groups listed in I (A); and

- Assisted individuals must qualify as very low and low-income households as defined by the U.S. Department of Housing and Urban Development (HUD) and adopted by the State of Florida and distributed by the Florida Housing Finance Corporation for use in the SHIP Program.

VI. ELIGIBLE PROPERTY

An eligible property for which SHIP Special Needs Housing Program Funds can assist must meet the following key eligibility criteria:

- Eligible properties shall be located in Alachua County, including the incorporated limits of the City of Gainesville;

- Rental units constructed, rehabilitated or otherwise assisted from the local housing assistance trust fund must be monitored at least annually for 15 years or the term of assistance, whichever is longer, for compliance with tenant income and affordability requirements, as otherwise exempted from Florida

Statue 420.9075 (3) (e). In determining the maximum allowable rents, “Affordable” means that monthly rents or monthly mortgage payments including taxes and insurance do not exceed 30 percent of that amount which represents the percentage of the median annual gross income for the households as indicated in Section 420.9071 (2), subsection
(1) and subsection (28), Florida Statutes. The rent limit chart is provided by the U.S. Department of Housing and Urban Development (HUD) and adopted by the State of Florida and distributed by the Florida Housing Finance Corporation for use in the SHIP Program.

- Mobile homes shall not be assisted.
- FORM OF OWNERSHIP

  Ownership types include the following:

- Fee simple title in a single-family or multi-family attached or detached unit;OR
- Long-term lease for a minimum duration of the period of construction/rehabilitation plus the income compliance period.

o Proof of ownership shall consist of a copy of a recorded deed and of an executed recorded mortgage instrument (ifapplicable) showing that title to the property has been conveyed to the sponsor organization and containing a legal description of the property. Proof of long-term lease shall consist of copy of the lease agreement.

FIRST AMENDMENT TO ALACHUA COUNTY/CITY OF GAINESVILLE INTERLOCAL AGREEMENT FOR THE ADMINISTRATION OF S.H.I.P. SPECIAL HOUSING NEEDS CONTRACTS DATED AFTER APRIL 12, 2005

THIS FIRST AMENDMENT TO INTERLOCAL AGREEMENT ("First Amendment") is entered into this 31 day of May, 2019, between Alachua County, a charter county and a political subdivision of the State of Florida, by and through its Board of County Commissioners (hereinafter referred to as the "County"), and the City of Gainesville, a municipal corporation of the State of Florida, by and through its City Commission, (hereinafter referred to as the "City").

WITNESSETH:

WHEREAS, the parties entered into an Interlocal Agreement dated April 12, 2005, for the provision of Special Needs Housing Program services, a copy of which is recorded in the public records of Alachua County, Florida (the "Interlocal Agreement"); and

WHEREAS, the parties desire to amend Section VIII of Attachment I to the Interlocal Agreement to amend the maximum assistance provision from "the lesser of up to 50% of the eligible construction project cost or $6,000 per unit" to the maximum amount allowed under the applicable County Local Housing Assistance Plan ("LHAP"), as more particularly set forth and described herein below;

WHEREAS, the City has been informed that the County intends to amend the County LHAP SFY 2014-2017 to increase the maximum award for the Special Needs Program from $10,000 ($5,000 per unit) to $100,000 ($50,000 per unit), and the City agrees to said amendment.

NOW, THEREFORE, in consideration of the mutual covenants contained herein,

and pursuant to Section 163.01, et. seq., Florida Statutes, the Florida Interlocal Cooperation Act of 1969, the parties hereto agree as follows:

1. Recitals. The parties agree that all of the recitals set forth above are true, correct and are hereby incorporated into, and made part of, this First Amendment.

2. Section VIII of Attachment I to the Interlocal Agreement. Section VIII of Attachment I to the Interlocal Agreement is hereby amended in its entirety as follows (the strikethroughs indicate deletions to the current language and underlying indicates additions to the current language):

> VIII. AWARD.
>
> ~~The City and County will jointly review and sponsor applications for funding and make recommendations to the City and/or County Commissions, respectively for funding awards in accordance with the SHIP Special Needs Housing Programs.~~
>
> ~~The maximum assistance will be the lesser of up to 50% of the eligible construction project cost or $6,000 per unit.~~ The maximum assistance will be in accordance with the applicable County Local Housing Assistance Plan ("LHAP"). ~~Maximum dollar amounts per unit (per bed for single-room occupancy units, per bedroom for multi-bedroom units, per bed for dormitories) will be based on the number of single or multi-occupancy bedrooms.~~
>
> Funds are provided to a sponsor as a due on sale-loan recorded in the public records of Alachua County, Florida. The housing must remain affordable and occupied by income eligible beneficiaries for a period of 15 years. Sponsor organizations shall comply with and provide written certification of income and rent levels for the compliance period of 15 years. All SHIP assisted rental properties offered for sale prior to the 15-year term of affordability must be subject to a right of first refusal for purchases at the current market value, less the amount of the SHIP subsidy, by eligible nonprofit organizations who would provide continued occupancy by eligible persons.

3. Filing with the Clerk of Court. This First Amendment shall become effective upon filing a duly approved and fully executed copy of the First Amendment with the Clerk of Circuit Court of Alachua County, Florida.

4. Except as expressly amended by this First Amendment, all of the terms and conditions of the Interlocal Agreement shall remain in full force and effect.

IN WITNESS WHEREOF, the parties' respective board of commissioners have approved this First Amendment and have caused it to be executed by their respective duly authorized official on the day and year first above-written.

ALACHUA COUNTY
BOARD OF COUNTY COMMISSIONERS

RESOLUTION NO. 2021-__

A RESOLUTION OF THE BOARD OF COUNTY COMMISSIONERS OF ALACHUA COUNTY, FLORIDA; APPROVING THE LOCAL HOUSING ASSISTANCE PLAN (LHAP) FOR FISCAL YEARS (FY) 2021-2024, AS REQUIRED BY THE STATE HOUSING INITIATIVES PARTNERSHIP ACT (SHIP) AND RULE CHAPTER 67-37, FLORIDA ADMINISTRATIVE CODE; AUTHORIZING AND DIRECTING THE CHAIR TO EXECUTE ANY NECESSARY DOCUMENTS AND CERTIFICATIONS NEEDED; AUTHORIZING THE SUBMISSION OF THE LHAP FOR APPROVAL BY THE FLORIDA HOUSING FINANCE CORPORATION; AND PROVIDING AN EFFECTIVE DATE.

WHEREAS, the State of Florida enacted the William E. Sadowski Affordable Housing Act, Chapter 92-317 of Florida Sessions Laws, allocating a portion of documentary stamp taxes on deeds to local governments for the development and maintenance of affordable housing; and

WHEREAS, the State Housing Initiatives Partnership (SHIP) Act, ss. 420.907-420.9079, Florida Statutes and Rule Chapter 67-37, Florida Administrative Code, requires local governments to develop a one-year to three-year Local Housing Assistance Plan outlining how funds will be used; and

WHEREAS, the SHIP Act requires local governments to establish the maximum SHIP funds allowable for each strategy; and

WHEREAS, the SHIP Act further requires local governments to establish an average area purchase price for new and existing housing benefiting from awards made pursuant to the Act; the methodology and purchase prices used are defined in the attached Local Housing Assistance Plan; and

WHEREAS, as required by section 420.9075, Florida Statutes it is found that five percent (5%) of the local housing distribution plus five percent (5%) of program income is insufficient to adequately pay the necessary costs of administering the local housing assistance plan. The cost of administering the program may not exceed ten percent (10%) of the local housing distribution plus five percent (5%) of program income deposited into the trust fund, except that small counties, as defined in s. 120.52(17), and eligible municipalities receiving a local housing distribution of up to $350,000 may use up to ten percent (10%) of program income for administrative costs; and

WHEREAS, the Alachua County Community Support Services Department has prepared a three-year Local Housing Assistance Plan for submission to the Florida Housing Finance Corporation; and

WHEREAS, the Board of County Commissioners finds that it is in the best interest

of the public to submit the Local Housing Assistance Plan, a copy of which is attached hereto, for approval so as to qualify for said documentary stamp tax funds.

NOW, THEREFORE, BE IT RESOLVED BY THE BOARD OF COUNTY COMMISSIONERS OF ALACHUA COUNTY, FLORIDA, AS FOLLOWS:

1. The Board of County Commissioners of Alachua County, Florida hereby approves the Local Housing Assistance Plan, a copy of which is attached hereto, for submission to the Florida Housing Finance Corporation as required by ss. 420.907-420-9079, Florida Statutes, for fiscal years 2021-2022, 2022-2023, 2023-2024.
2. The Chair of the Board of County Commissioners is hereby designated and authorized to execute any documents and certifications required by the Florida Housing Finance Corporation as related to the Local Housing Assistance Plan, and is further authorized to do all things necessary and proper to carry out the term and conditions of said plan.
3. This resolution shall become effect immediately upon its approval by the Board of County Commissioners of Alachua County, Florida.

DULY ADOPTED in regular session on this _____day of _____, 2021.

Agenda Item Summary

Agenda Date: 9/14/2021 Agenda Item No.: 20.

Agenda Item Name:
Fourth Amendment to Three-Party Agreement between Alachua County and the University of Florida Board of Trustees and William F. Hamilton, M.D. for District Medical Examiner Services, University Physician Support Services, University Non-Physician Support Services and Facility Use

Presenter:
Candie Nixon (352) 213-4896

Description:
Fourth Amendment to the Medical Examiners Three Party Agreement between Alachua County, the University of Florida Board of Trustees and William F. Hamilton, M.D.
Annual Assessment for FY 21-22 is $680,308.44 plus an estimated $629,097.28 in autopsy and related services.

Recommended Action:
Approve the 4th Amendment to the Medical Examiners Three Party Agreement between Alachua County, the University of Florida Board of Trustees and William F. Hamilton, M.D., and authorize the Chair to execute same. This Agreement shall commence on the Effective Date of October 1, 2021 and remain in full force and effect through September 30, 2022, unless first terminated or amended by the parties as provided therein

Prior Board Motions:
The Original Agreement approved on October 24, 2017
1st Amendment approved on August 28, 2018
2nd Amendment approved on 9/24/2019
3rd Amendment approved on 10/13/2020

Fiscal Consideration:
FY22 Budget
001.29.2906.527.34.30 - $1,266,000.00
001.29.2906.527.34.00 - $50,000.00

Background:
The 4th Amendment to the Medical Examiners Three Party Agreement between Alachua County, the University of Florida Board of Trustees and William F. Hamilton, M.D. for the provision of District Medical Examiner Services, University Physician Support Services, University Non-Physician

Support Services and Facility use.
Chapter 406 of the Florida Statutes requires the Board of County Commissioners in each Medical Examiner's District to establish and pay reasonable salaries, fees and expenses to the District Medical Examiner and his/her associates.

The Medical Examiner Agreement delineates the responsibilities of each of the three parties previously mentioned in relation to the performance of mandated autopsy services. The Medical Examiner and the University of Florida College of Medicine submit a budget annually to the County for Administrative costs (see
Attachment A) that include salaries and benefits, transportation, facility costs, etc.
$680,308.44 for these expenses. The costs associated with autopsies (see Attachment C) are separate and rate based and require reimbursement, per the mandate.

FOURTH AMENDMENT TO THREE-PARTY AGREEMENT BETWEEN ALACHUA COUNTY AND THE UNIVERSITY OF FLORIDA BOARD OF TRUSTEES AND WILLIAM F. HAMILTON, M.D. FOR DISTRICT MEDICAL EXAMINER SERVICES, UNIVERSITY PHYSICIAN SUPPORT SERVICES, UNIVERSITY NON-PHYSICIAN SUPPORT SERVICES AND FACILITY USE

THE THREE-PARTY AGREEMENT ("Agreement"), made and entered into the 1st day of October, 2017 ("Effective Date"), by and among **Alachua COUNTY**, a political subdivision of the State of Florida, by and through its Board of County Commissioners, hereinafter referred to as the "County", and **THE UNIVERSITY OF FLORIDA BOARD OF TRUSTEES**, hereinafter referred to as "University", **FOR THE BENEFIT OF THE DEPARTMENT OF PATHOLOGY, IMMUNOLOGY AND LABORATORY MEDICINE, COLLEGE OF MEDICINE, UNIVERSITY OF FLORIDA**, and **WILLIAM F. HAMILTON, M.D.**, hereinafter referred to as the "District Medical Examiner", is hereby amended effective the 1st day of October, 2021 by this **Fourth Amendment**, and the parties heretofore named agree as follows:

1. **Section 3** of the Agreement is hereby deleted in its entirety and replaced with a new **Section 3** to read:

3. Term of Agreement. This Agreement shall commence on the Effective Date and remain in full force and effect through September 30, 2022, unless first terminated or amended by the parties as provided herein.

2. **Section 8** of the Agreement is hereby deleted in its entirety and replaced with a new **Section 8** to read:

8. Annual Budget. No later than July 1, 2022, the District Medical Examiner, with the assistance of UNIVERSITY, shall submit to the Board of County Commissioners of County an annual budget for the next ensuing fiscal year October 1, through September 30. The District Medical Examiner's budget for Fiscal Year 2021/2022 as submitted to County is attached to this Agreement as **Attachment A** and is incorporated herein by this reference.

3. **Section 10** of the Agreement is hereby deleted in its entirety and a new **Section 10** is established to read as follows:

10. Compensation by County. **THE DISTRICT MEDICAL EXAMINER EXPRESSLY RECOGNIZES THAT ALL FEES AND COMPENSATION PAID TO UNIVERSITY PURSUANT TO THIS SECTION CONSTITUTE THE ENTIRE OBLIGATION OF THE COUNTY, AND FURTHER, NEITHER THE DISTRICT MEDICAL EXAMINER, NOR ANY MEMBER OF HIS STAFF, WILL RECEIVE COMPENSATION DIRECTLY FROM THE COUNTY FOR SERVICES PURSUANT TO THIS AGREEMENT.** As compensation for the District Medical Examiner's services and UNIVERSITY's Faculty Physician support services, non-physician support personnel services and for facility usage, the County shall pay UNIVERSITY an annual amount equal to Six

DocuSign Envelope ID: C528E576-1C35-49AC-A532-6EAF3D5DAADB

Hundred Eighty Thousand Three Hundred Eight Dollars and Forty-Four Cents ($680,308.44). Payment shall be made to UNIVERSITY in twelve (12) equal monthly installments of the sum of Fifty-Six Thousand Six Hundred Ninety-Two Dollars and Thirty-Seven Cents ($56,692.37), the first of which shall be paid forty-five (45) days after the commencement of the term of this Agreement. In addition, the County shall separately pay UNIVERSITY for autopsy and related services in accordance with the fee schedule attached hereto as **Attachment C**. UNIVERSITY shall provide County with a detailed monthly invoice indicating all autopsies performed up to the date of the invoice. A copy of the death certificate for each autopsy will be provided with the invoice. After review, and if properly supported, County shall pay invoiced fees within forty-five (45) days of receipt of the invoice. All invoices shall be sent directly to:

Community Support Services Director
Alachua County Department of Community Support Services
218 SE 24th Street
Gainesville, FL 32641

4. **Attachment A** to the Agreement is hereby deleted and replaced with the revised version of **Attachment A** that is attached to this **Fourth Amendment** and is hereby incorporated into the Agreement by reference.

5. **Attachment B** to the Agreement is hereby deleted and replaced with the revised version of **Attachment B** that is attached to this **Fourth Amendment** and is hereby incorporated into the Agreement by reference.

6. **Attachment C** to the Agreement is hereby deleted and replaced with the revised version of **Attachment C** that is attached to this **Fourth Amendment** and is hereby incorporated into the Agreement by reference.

7. In the event of a conflict between the terms of the Agreement and this **Fourth Amendment**, the terms of this **Fourth Amendment** shall control.

DocuSign Envelope ID: C528E576-1C35-49AC-A532-6EAF3D5DAADB

IN WITNESS WHEREOF, the parties have caused this **Fourth Amendment** to be executed for the uses and purposes therein expressed on the day and year first above-written.

Latest Update 5/5/2021

Agenda Item Summary

Agenda Date: 9/14/2021 Agenda Item No.: 21.

Agenda Item Name:
State Housing Initiatives Partnership (SHIP) Annual Report

Presenter:
Candie Nixon (352) 213-4896

Description:
State Housing Initiatives Partnership (SHIP) Annual Report for State Fiscal Years (SFY) 2018-2019 and 2019-2020

Recommended Action:
Approve SHIP Annual Report; Report for State Fiscal Years (SFY) 2018-2019 and 2019-2020 and Sign and Seal the Annual Report Certification Form

Prior Board Motions:
None

Fiscal Consideration:
No Fiscal Impact for submission of report.

Background:
The Florida Housing Finance Corporation when funded by the State Legislature distributes SHIP funds to each county in the State of Florida. Alachua County received funding for $668,095.72 for SFY 2018-2019.

SHIP funds provide financial assistance for very low, low, and moderate-income households in the form of Down Payment Assistance, Owner Occupied Rehabilitation, Rental Assistance, and Rental Development.

The Annual Report is to be submitted to the State to ensure compliance with the reporting date of September 15, 2021. The BoCC's approval is required for the Certification Form. The Certification Form is to be transmitted to the State upon approval.

State Housing Initiatives Partnership (SHIP) Program
Annual Report and Local Housing Incentives Certification

On Behalf of Alachua County (Local Government), I hereby certify that:

1. The Annual Report information submitted electronically to Florida Housing Finance Corporation is true and accurate for the closeout year 2018-2019 and interim years 2019-2020 and 2021-2022.
2. The local housing incentives or local housing incentive plan have been implemented or are in the process of being implemented. Including, at a minimum:
    a. Permits as defined in s.163.3164 (15) and (16) for affordable housing projects are expedited to a greater degree than other projects; and
    b. There is an ongoing process for review of local policies, ordinances, regulations, and plan provisions that increase the cost of housing prior to their adoption.
3. The cumulative cost per newly constructed housing per housing unit, from these actions is estimated to be $ N/A.
4. The cumulative cost per rehabilitated housing per housing unit, from these actions is estimated to be $ 15,818.86.

Staff Member responsible for submitting annual report to FHFC: Stephen Weeks

Chair, Ken Cornell

ATTEST:

J.K. "Jess" Irby, Esq., Clerk (SEAL)

APPROVED AS TO FORM

Alachua County Attorney's Office

420.9075 (10) Each county or eligible municipality shall submit to the corporation by September 15 of each year a report of its affordable housing programs and accomplishments through June 30 immediately preceding submittal of the report. The report shall be certified as accurate and complete by the **local government's chief elected official or his or her designee.** Transmittal of the annual report by a county's or eligible municipality's chief elected official, or his or her designee, certifies that the local housing incentive strategies, or, if applicable, the local housing incentive plan, have been implemented or are in the process of being implemented pursuant to the adopted schedule for implementation.

Agenda Item Summary

Agenda Date: 9/14/2021 Agenda Item No.: 22.

Agenda Item Name:
Settlement Agreement with Catherine Puckett

Presenter:
Robert Swain, Deputy County Attorney

Description:
Approval of a settlement of the Puckett matter.

Recommended Action:
Approve the settlement.

Prior Board Motions:
N/A

Fiscal Consideration:
The settlement is for $75,000 which will be paid from the Risk Fund.

Background:
This matter was the basis of the Shade meeting that was held on August 26th. If this matter is approved, the transcript of that meeting will become public record. In order to finalize this matter the Board must approve the settlement in a public meeting as no formal action may be taken during a Shade meeting.

This case involved a fall on a sidewalk off of NW 43rd St. in the vicinity of Cox Cable. She sustained significant injuries and incurred medical bills in excess of $138,000. The proposed settlement agreement is a compromise since liability is contested in this matter. The County's position has been that this condition was not hazardous and was open and obvious and Ms. Puckett's position is that it had been known from prior complaints and was of a nature that the County would normally have remediated.

Agenda Item Summary

Agenda Date: 9/14/2021 Agenda Item No.: 23.

Agenda Item Name:
Approve a Resolution authorizing Alachua County to join with the State of Florida and other local governmental units as a participant in the Florida Memorandum of Understanding and Formal Agreements implementing a Unified Plan regarding allocation of the opioid settlement proceeds

Presenter:
Robert Swain, Deputy County Attorney

Description:
As set out in its letter to the Chair dated April 13, 2021, the Office of the Florida Attorney General has recommended acceptance of a Resolution authorizing Alachua County to join with the State of Florida and other local governmental units as a participant in the Florida Memorandum of Understanding and Formal Agreements that will govern the proposed allocation and use of opioid settlement proceeds. Our outside counsel has been engaged in negotiations with the Attorney General to attempt to increase Alachua County's share of the settlement despite having a population of less than $300,000. This has been unsuccessful and she now recommends acceptance of the terms of the MOU.

Recommended Action:
Approve signing of the Resolution.

Prior Board Motions:
See Agenda item #21-0641, wherein the BoCC voted to confirm the Purdue bankruptcy plan

Fiscal Consideration:
This settlement will result in some payments to the County over 10 to 15 years plus additional services or funding from Lutheran Services of Florida. All of these are restricted to opioid treatment and mitigation.

Background:
This is part of a national class action settlement with several of the manufacturers and distributors of opioid drugs. This portion of the settlement is only for Purdue Pharma which is the most advanced in the settlement process. Negotiations with the other defendants may follow the same process.

File #:	21-0641 Version: 2		
Type:	Consent Item	Status:	Agenda Ready
File created:	6/29/2021	In control:	Board of County Commissioners
On agenda:	7/13/2021	Final action:	
Title:	Approval of Purdue Class Action settlement in opioid litigation		
Attachments:	1. Purdue Plan FAQ.pdf		

Agenda Item Name:
Approval of Purdue Class Action settlement in opioid litigation

Presenter:
Sylvia Torres and Bob Swain

Description:
Discuss the Purdue bankruptcy plan and the vote needed by joining municipalities to approve it so that an equitable resolution of opioid-related claims against Purdue can occur.

Recommended Action:
Vote to confirm the Purdue bankruptcy plan. Outside Counsel recommends this action.

Prior Board Motions:
The Board previously moved to file a Proof of Claim on behalf of Alachua County in the Purdue Chapter 11 bankruptcy action.

Fiscal Consideration:
Unable to determine at present

Background:
Purdue Pharma, the company which developed and marketed Oxycontin, filed for bankruptcy in September 2019 after being named as a defendant in thousands of civiil lawsuits seeking damages for opioid-related injuries to governments, hospitals, individuals, insurers, and others. A settlement of the claims against Purdue Pharma is now before the bankruptcy court for final confirmation. All creditors who filed a Proof of Claim against Purdue Pharma are being asked to vote on the proposed settlement. The total amount of the settlement is approximately $5 billion dollars to be split among all claimants. We are still in negotiations with the State of Florida on our part of what the State will receive. This particular settlement does not include other companies' settlements which have yet to be negotiated. Purdue was simply the furthest along in the bankruptcy proceedings.

Gainesville, FL 32601
KCornell@alachuacounty.us

RE: Opioid Litigation

Dear Chair Ken Cornell:

My name is John Guard and I am the Chief Deputy Attorney General for the State of Florida (the "State"). Since she took office, Attorney General Moody has been heavily involved in leading both the State's ongoing opioid litigation and several different negotiations with defendants in that litigation. Those negotiations have included litigation counsel representing cities and counties.

As part of those negotiations to enable Florida to achieve the maximum amount recoverable for both the State and its subdivisions, the State has been negotiating for a lengthy time with outside counsel for nearly all litigating political subdivisions within the State. After multiple sessions and significant compromise by both sides, the attached memorandum of understanding ("MOU") has been reached. We have offered and the lawyers for the litigating subdivisions are recommending to their clients that the attached MOU be accepted. This proposal is the result of numerous meetings and includes feedback and comments from many local subdivisions. Based on the status of this litigation, the likely structure of any resolution, the potential litigation risks in the absence of such an agreement, the State believe that this proposal reflects a reasonable compromise between the State and its political subdivisions.

The purpose of this letter is to summarize the primary terms of the MOU and attempt to anticipate questions that you, your commission, and your internal and/or other legal counsel may have regarding this litigation and allocation proposal.

ALACHUA COUNTY
APR 21 2021
Attorney's Office

What cases does this MOU apply?

This allocation agreement is intended to govern the distribution of settlement proceeds obtained through the Purdue Pharma L.P. ("Purdue") bankruptcy, the Mallinckrodt PLC ("Mallinckrodt") bankruptcy, the distributor (Cardinal Health, Inc., McKesson Corp., and AmerisourceBergen Corp. (collectively referred to as the "Distributors")) and Johnson & Johnson ("J&J") potential deal, as well as any additional settlements obtained related to the opioid litigation.

Why is an allocation agreement necessary and why now?

Almost 100 political subdivisions within the State of Florida, as well as the State of Florida itself, have filed suit against numerous entities engaged in the manufacture, marketing, promotion, distribution or dispensing of opioids. Another 30 political subdivisions within the State of Florida have filed claims in the Purdue bankruptcy.

The State and the Plaintiffs' Executive Committee for the Opioid Litigation Multi-District Litigation panel (the "PEC") are in ongoing negotiations with Purdue, Mallinckrodt, the Distributors, and J&J with potential resolutions anticipated in the coming weeks.
Under the likely settlement structure for these cases, states and their political subdivisions are strongly incentivized to reach a joint resolution of all State and political subdivision claims. Under the Distributor and J&J deal, the State and its subdivisions receive a substantially larger settlement amount the higher the number of subdivisions sign on to the deal. Therefore, it is in the best interest of all political subdivisions and the State of Florida to reach an allocation agreement which will permit the joint resolution of all claims within the state.

The deals contemplate the need for relatively quick buy in by subdivisions in order to maximize recovery. The pace of negotiations is accelerating, and Purdue has filed its plan of reorganization. Given this accelerating pace, there is a greater sense of urgency among all counsel to come to agreement and resolve how monies are going to be allocated, so that we can move Purdue, Mallinckrodt, and other potential settlements toward finality. Given the Sunshine law, the likely need for public notice and comment, and the complexity of the deals, we need to agree to an allocation plan now to ensure that Florida maximizes recovery.

How can funds be utilized?

You will see as you review the MOU that the State and its subdivisions, who execute this MOU, are agreeing that almost all the funds from any settlement will go to abatement activities. In other words, funds must be utilized for strategies, programming and services used to expand the availability of treatment for individuals impacted by Opioid Use Disorder or co-occurring Substance Use Disorder and Mental Health disorders ("Approved Purposes"). A non-exclusive list of potential abatement programs and uses are included in Exhibits A and B to the agreement. The list was developed nationally consulting with public health officials in multiple states, experts for the states and subdivisions, and officials within the United States Department of Health and Human Services. These uses are intended to best serve the overall purpose and

intention of this litigation, which is to abate the continuing public health crisis of opioid addiction within our communities.

While supported by the State, this requirement was imposed the defendants for tax and other reasons. It is also necessary to militate against the United States seeking substantial amounts of settlement funds from both the State and subdivisions as recoupment.

How are the funds allocated amongst the States?

While not part of the MOU, the States have been negotiating the national allocation for almost two years with an agreement reached in late 2019. Florida's interstate allocation is 7.03%. That allocation is the second largest allocation in the nation ahead of Texas, which is the second largest state. Florida is one of a handful of states whose allocation is greater and greater by a significant percentage above its population (Florida has 6.54% of the United States' population). The only states that have larger gains over their population are the opioid belt states: West Virginia, Kentucky, etc. The interstate allocation is the product of two measures. One calculated by the PEC and the other calculated by the States. The data sets chosen are slightly different (including different years and what measures were selected), but the main difference is that some states demanded that population play a more significant factor in the state allocation and it is not a factor in the PEC calculation. Given how much Florida's allocation percentage is above its population, the need in these settlements to maximize the number of states settling, and the potential litigation risks in the absence of such an agreement, it would be our recommendation that cities and counties accept the interstate allocation.

How much money does the State expect for it and its subdivisions?

It depends. Each of the current or proposed settlements are for different lengths of time and each contain different variability. In Purdue, payments are paid over a ten-year period and vary with the performance of the ongoing business of the new company and payments from third parties. In Mallinckrodt, payment amounts are still being negotiated, but will be paid over seven years and will vary depending on the value of the emerging company seven years later as part of the recovery is warrants in the re-emerged company. In the Distributor and J&J proposed deal, the proposed deal is over eighteen years and the amount paid varies depending on subdivision participation and whether other subdivisions file opioid related litigation in the future. As part of the MOU, the State is willing to seek judicial or legislative action to reduce the variability of the monies, especially in connection with the Distributor and J&J deal. Our current best guess based on projections and assuming total participation is $120-140M a year for the first few years, $90-110M a year for the middle years, and then $60-70M a year for the later years of the deal for the State and its subdivisions. Again, these numbers can and will vary and hopefully will increase if additional settlements are reached.

How are the funds allocated amongst the State and its subdivisions?

This Proposal divides all settlement funds between three funds: (1) the City/County Fund; (2) the Regional Fund; and (3) the State Fund.

The **City/County Fund** consists of 15% of the total settlement amounts allocable to the State of Florida. These funds are distributed to all counties and qualifying municipalities in the State of Florida.

The allocation of the City/County Fund between counties and municipalities is based on a model referred to as the "Negotiation Class Metrics." This model was developed in the National Prescription Opiate MDL by the PEC, and considers: (1) the amount of opioids shipped to the county; (2) the number of opioid deaths that occurred in that county; and (3) the number of people who suffer opioid use disorder in that county. Allocations between counties and municipalities within each county use historical federal data showing how the specific county and the cities within it have made opioids-related expenditures in the past.

We have attached a spreadsheet to this letter that provides you an estimated amount per year for an amount within each range in the previous question.

The **Regional Fund** consists of a sliding scale between 30% and 40% of the total settlement amounts allocable to the State of Florida, with the largest percentages occurring in the immediate years after settlement and decreasing over time.

These funds are allocated to counties in accordance with the "Negotiating Class Metrics" described above. In the case of counties with a population of over 300,000, and which satisfy other criteria regarding abatement infrastructure, (termed "Qualified Counties") these funds are provided directly to the county. For the remainder of counties within the State, these funds are provided to the Managing Entity (the entity that the State has contracted with to provide substance abuse treatment) for that county, to be spent on approved purposes within the region that the county is a part.

For Counties with populations greater than 300,000: We encourage you to review the definition of Qualified County in the MOU, so that you can understand the other requirements that you will have to meet. Importantly, the definition of Qualified County requires that you reach an agreement with at least some municipalities (at least 50% of the population) within your county as to how these funds are spent. The requirements of such agreements are subject to further discussion and negotiation.

We have attached a spreadsheet to this letter that provides you an estimated amount per year for an amount within each range in the previous question. The amount will vary for qualified counties depending on how many municipalities in that County: (1) join a settlement; and (2) enter an agreement with a County.

For Counties with populations less than 300,000 or that do not qualify as a Qualified County: Currently, a majority of the monies being utilized to respond to the opioid epidemic in the State flow through Managing Entities located regionally who provide service in each community. When we traveled the state before COVID and had discussions with many of you, most (outside a couple large counties) indicated that they

had a good working relationship with their Managing Entity. Indeed, several indicated that they were already involved with their Managing Entity. The actual dollar amounts annually paid to smaller counties under the contemplated settlement agreements are not substantial enough to support standalone programs. Given that reality, but wanting to maximize services locally, it made sense to have the monies flow through the existing structure to expand services in each county. If there are issues or problems with Managing Entities, we are happy to engage. We are also happy to try and help communities get involved in or engage with their Managing Entity.

We have attached a spreadsheet to this letter that demonstrates the amounts attributable to each county per year for an amount within each range in the previous question.

The **State Fund** consists of the remaining 45% to 55% of the total settlement amounts allocable to the State of Florida, depending on the amount of the Regional Fund above. As with the City/County Fund and Regional Fund, these funds must be spent on Approved Purposes

Why should we agree to this allocation?

The proposed allocation in the MOU is better than the alternative that subdivisions will receive if they do not enter an agreement with the State. Two of the defendants who we have negotiated with, Purdue and Mallinckrodt are now in bankruptcy. In advance of and in connection with those bankruptcies, the states, the PEC, and city and county representatives negotiated a default intrastate allocation and agreed that it will apply unless a state and its cities and counties agree to something else. A Deputy County Attorney for Broward County, Florida, was involved in the negotiations related to Purdue. Something like the Purdue default allocation is currently in the draft connected to the Distributor and J&J deal.

The allocation above is superior for Florida's subdivisions than that default allocation. Indeed, the State offered substantial improvements over those terms from the beginning of the negotiations that led to this MOU. We have attached a copy of the Purdue abatement term sheet for your review. Under that default allocation, there is no city/county fund. Only subdivisions with populations greater than 400,000 people are eligible to receive any monies directly. Almost all the monies will flow through the Managing Entities who are regionally supplying services. The allocation percentages for the regional bucket are dollar based and decrease to half, far more quickly than in the MOU. In other words, the allocation in this MOU allows a far greater recovery directly to each Florida city and county than the alternative and greater recoveries regionally for all subdivisions.

The allocation is also better than the cities and counties would achieve if damages were proportionally allocated. In the Purdue bankruptcy, over one hundred twenty-five Florida subdivisions filed proofs of claims. When the size of those claims is compared to that of the State's claim, the State's claim was more than four, almost five times larger than all the subdivisions' claims combined. Subdivisions are getting substantially more than what their proportional share would be. The State is willing to agree to the larger because it frankly reflects the reality of how monies are currently being spent and is consistent with how the legislature has been appropriating monies to combat this crisis.

If individual subdivisions do not agree to a settlement, what will happen?

If there are hold outs or subdivisions that do not respond, the MOU contemplates that the State will either file a new suit or sever its claims against settling defendants from its existing opioid lawsuit and add political subdivisions and through either a class action mechanism or declaratory relief seek to bar future subdivision claims. Such action is necessary to ensure that the State and any subdivisions that agree to a settlement maximize their recoveries. This not a novel position and there is a substantial body of Florida law that exists that the State may resolve and release public claims including subdivision claims.[1] That being said, the State would prefer that we reach agreement on the allocation under the proposed MOU and handle things consensually. But, if there are holdouts, the State is prepared to litigate or seek legislation from the legislature to ensure that cities and counties that agree to this MOU are protected and will receive the recovery contemplated under the allocation.

What are the next steps and the timeline?

We would ask that you review the attached MOU and proposed model resolution supporting an agreement on the MOU terms. We will be scheduling calls to answer questions about the MOU. We would ask each subdivision to think about who is attending each session and ensure that any of those discussions will not violate Florida's government-in-the-sunshine law. If you will contact my administrator, Janna Barineau, by e-mail (Janna.Barineau@myfloridalegal.com), we will include you in those discussions. After those discussions, we would then ask that you follow Florida law for approving such a resolution by your commission and in due course, pass it, and return a copy to me at the address on the first page of the letter. Potential settlements are anticipated in the coming weeks or months, but I cannot tell you exactly when a settlement will be finalized. These proposed settlements are

Enc. Proposal with Ex. A and B
Recovery Spreadsheet
Purdue Abatement Term Sheet

EXHIBIT A

PROPOSAL
MEMORANDUM OF UNDERSTANDING

Whereas, the people of the State of Florida and its communities have been harmed by misfeasance, nonfeasance and malfeasance committed by certain entities within the Pharmaceutical Supply Chain;

Whereas, the State of Florida, through its Attorney General, and certain Local Governments, through their elected representatives and counsel, are separately engaged in litigation seeking to hold Pharmaceutical Supply Chain Participants accountable for the damage caused by their misfeasance, nonfeasance and malfeasance;

Whereas, the State of Florida and its Local Governments share a common desire to abate and alleviate the impacts of that misfeasance, nonfeasance and malfeasance throughout the State of Florida;

Whereas, it is the intent of the State of Florida and its Local Governments to use the proceeds from Settlements with Pharmaceutical Supply Chain Participants to increase the amount of funding presently spent on opioid and substance abuse education, treatment and other related programs and services, such as those identified in Exhibits A and B, and to ensure that the funds are expended in compliance with evolving evidence-based "best practices";

Whereas, the State of Florida and its Local Governments, subject to the completion of formal documents that will effectuate the Parties' agreements, enter into this Memorandum of Understanding ("MOU") relating to the allocation and use of the proceeds of Settlements described herein; and

Whereas, this MOU is a preliminary non-binding agreement between the Parties, is not legally enforceable, and only provides a basis to draft formal documents which will effectuate the Parties' agreements.

A. Definitions

As used in this MOU:

1. "Approved Purpose(s)" shall mean forward-looking strategies, programming and services used to expand the availability of treatment for individuals impacted by substance use disorders, to: (a) develop, promote, and provide evidence-based substance use prevention strategies; (b) provide substance use avoidance and awareness education; (c) decrease the oversupply of licit and illicit opioids; and (d) support recovery from addiction. Approved Purposes shall include, but are not limited to, the opioid abatement strategies listed on Exhibits A and B which are incorporated herein by reference.

2. "Local Governments" shall mean all counties, cities, towns and villages located within the geographic boundaries of the State.

3. "Managing Entities" shall mean the corporations selected by and under contract with the Florida Department of Children and Families or its successor ("DCF") to manage the

daily operational delivery of behavioral health services through a coordinated system of care. The singular "Managing Entity" shall refer to a singular of the Managing Entities.

4. "County" shall mean a political subdivision of the state established pursuant to s. 1, Art. VIII of the State Constitution.

5. "Municipalities" shall mean cities, towns, or villages of a County within the State with a Population greater than 10,000 individuals and shall also include cities, towns or villages within the State with a Population equal to or less than 10,000 individuals which filed a Complaint in this litigation against Pharmaceutical Supply Chain Participants. The singular "Municipality" shall refer to a singular of the Municipalities.

6. ''Negotiating Committee" shall mean a three-member group comprised by representatives of the following: (1) the State; and (2) two representatives of Local Governments of which one representative will be from a Municipality and one shall be from a County (collectively, "Members") within the State. The State shall be represented by the Attorney General or her designee.

7. "Negotiation Class Metrics" shall mean those county and city settlement allocations which come from the official website of the Negotiation Class of counties and cities certified on September 11, 2019 by the U.S. District for the Northern District of Ohio in *In re National Prescription Opiate Litigation*, MDL No. 2804 (N.D. Ohio). The website is located at https://allocationmap.iclaimsonline.com.

8. "Opioid Funds" shall mean monetary amounts obtained through a Settlement as defined in this MOU.

9. "Opioid Related" shall have the same meaning and breadth as in the agreed Opioid Abatement Strategies attached hereto as Exhibits A or B.

10. "Parties" shall mean the State and Local Governments. The singular word "Party" shall mean either the State or Local Governments.

11. "PEC" shall mean the Plaintiffs' Executive Committee of the National Prescription Opiate Multidistrict Litigation pending in the United States District Court for the Northern District of Ohio.

12. "Pharmaceutical Supply Chain" shall mean the process and channels through which Controlled Substances are manufactured, marketed, promoted, distributed or dispensed.

13. "Pharmaceutical Supply Chain Participant" shall mean any entity that engages in, or has engaged in the manufacture, marketing, promotion, distribution or dispensing of an opioid analgesic.

14. "Population" shall refer to published U.S. Census Bureau population estimates as of July 1, 2019, released March 2020, and shall remain unchanged during the term of this MOU. These estimates can currently be found at https://www.census.gov

15. "Qualified County" shall mean a charter or non-chartered county within the State that: has a Population of at least 300,000 individuals and (a) has an opioid taskforce of which it is a member or operates in connection with its municipalities or others on a local or regional basis; (b) has an abatement plan that has been either adopted or is being utilized to respond to the opioid epidemic; (c) is currently either providing or is contracting with others to provide substance abuse prevention, recovery, and treatment services to its citizens; and (d) has or enters into an agreement with a majority of Municipalities (Majority is more than 50% of the Municipalities' total population) related to the expenditure of Opioid Funds. The Opioid Funds to be paid to a Qualified County will only include Opioid Funds for Municipalities whose claims are released by the Municipality or Opioid Funds for Municipalities whose claims are otherwise barred.

16. "SAMHSA" shall mean the U.S. Department of Health & Human Services, Substance Abuse and Mental Health Services Administration.

17. "Settlement" shall mean the negotiated resolution of legal or equitable claims against a Pharmaceutical Supply Chain Participant when that resolution has been jointly entered into by the State and Local Governments or a settlement class as described in (B)(1) below.

18. "State" shall mean the State of Florida.

B. Terms

1. **Only Abatement -** Other than funds used for the Administrative Costs and Expense Fund as hereinafter described in paragraph 6 and paragraph 9, respectively), all Opioid Funds shall be utilized for Approved Purposes. To accomplish this purpose, the State will either file a new action with Local Governments as Parties or add Local Governments to its existing action, sever settling defendants, and seek entry of a consent order or other order binding both the State, Local Governments, and Pharmaceutical Supply Chain Participant(s) ("Order"). The Order may be part of a class action settlement or similar device. The Order shall provide for continuing jurisdiction of a state court to address non-performance by any party under the Order. Any Local Government that objects to or refuses to be included under the Order or entry of documents necessary to effectuate a Settlement shall not be entitled to any Opioid Funds and its portion of Opioid Funds shall be distributed to, and for the benefit of, the other Local Governments.

2. **Avoid Claw Back and Recoupment** - Both the State and Local Governments wish to maximize any Settlement and Opioid Funds. In addition to committing to only using funds for the Expense Funds, Administrative Costs and Approved Purposes, both Parties will agree to utilize a percentage of funds for the core strategies highlighted in Exhibit A. Exhibit A contains the programs and strategies prioritized by the U.S. Department of Justice and/or the U.S. Department of Health & Human Services ("Core Strategies"). The State is trying to obtain the United States' agreement to limit or reduce the United States' ability to recover or recoup monies from the State and Local Government in exchange for prioritization of funds to certain projects. If no agreement is reached with the United States, then there will be no requirement that a percentage be utilized for Core Strategies.

3. **Distribution Scheme** - All Opioid Funds will initially go to the State, and then be distributed according to the following distribution scheme. The Opioid Funds will be divided into three funds after deducting costs of the Expense Fund detailed in paragraph 9 below:

(a) City/County Fund- The city/county fund will receive 15% of all Opioid Funds to directly benefit all Counties and Municipalities. The amounts to be distributed to each County and Municipality shall be determined by the Negotiation Class Metrics or other metrics agreed upon, in writing, by a County and a Municipality. For Local Governments that are not within the definition of County or Municipality, those Local Governments may receive that government's share of the City/County Fund under the Negotiation Class Metrics, if that government executes a release as part of a Settlement. Any Local Government that is not within the definition of County or Municipality and that does not execute a release as part of a Settlement shall have its share of the City/County Fund go to the County in which it is located.

(b) Regional Fund- The regional fund will be subdivided into two parts.

(i) The State will annually calculate the share of each County within the State of the regional fund utilizing the sliding scale in section 4 of the allocation contained in the Negotiation Class Metrics or other metrics that the Parties agree upon.

(ii) For Qualified Counties, the Qualified County's share will be paid to the Qualified County and expended on Approved Purposes, including the Core Strategies identified in Exhibit A, if applicable.

(iii) For all other Counties, the regional share for each County will be paid to the Managing Entities providing service for that County. The Managing Entities will be required to expend the monies on Approved Purposes, including the Core Strategies. The Managing Entities shall endeavor to the greatest extent possible to expend these monies on counties within the State that are non-Qualified Counties and to ensure that there are services in every County.

(c) State Fund - The remainder of Opioid Funds after deducting the costs of the Expense Fund detailed in paragraph 9, the City/County Fund and the Regional Fund will be expended by the State on Approved Purposes, including the provisions related to Core Strategies, if applicable.

(d) To the extent that Opioid Funds are not appropriated and expended in a year by the State, the State shall identify the investments where settlement funds will be deposited. Any gains, profits, or interest accrued from the deposit of the Opioid Funds to the extent that any funds are not appropriated and expended within a calendar year, shall be the sole property of the Party that was entitled to the initial deposit.

4. Regional Fund Sliding Scale- The Regional Fund shall be calculated by utilizing the following sliding scale of the Opioid Funds available in any year:

A. Years 1-6: 40%

B. Years 7-9: 35%

C. Years 10-12: 34%

D. Years 13-15: 33%

E. Years 16-18: 30%

5. Opioid Abatement Taskforce or Council - The State will create an Opioid Abatement Taskforce or Council (sometimes hereinafter "Taskforce" or "Council") to advise the Governor, the Legislature, Florida's Department of Children and Families ("DCF"), and Local Governments on the priorities that should be addressed as part of the opioid epidemic and to review how monies have been spent and the results that have been achieved with Opioid Funds.

(a) Size - The Taskforce or Council shall have ten Members equally balanced between the State and the Local Governments.

(b) Appointments Local Governments - Two Municipality representatives will be appointed by or through Florida League of Cities. Two county representatives, one from a Qualified County and one from a county within the State that is not a Qualified County, will be appointed by or through the Florida Association of Counties. The final representative will alternate every two years between being a county representative (appointed by or through Florida Association of Counties) or a Municipality representative (appointed by or through the Florida League of Cities). One Municipality representative must be from a city of less than 50,000 people. One county representative must be from a county less than 200,000 people and the other county representative must be from a county whose population exceeds 200,000 people.

(c) Appointments State -

(i) The Governor shall appoint two Members.

(ii) The Speaker of the House shall appoint one Member.

(iii) The Senate President shall appoint one Member.

(iv) The Attorney General or her designee shall be a Member.

(d) Chair - The Attorney General or designee shall be the chair of the Taskforce or Council.

(e) Term - Members will be appointed to serve a two-year term.

(f) Support - DCF shall support the Taskforce or Council and the Taskforce or Council shall be administratively housed in DCF.

(g) Meetings - The Taskforce or Council shall meet quarterly in person or virtually using communications media technology as defined in section 120.54(5)(b)(2), Florida Statutes.

(h) Reporting - The Taskforce or Council shall provide and publish a report annually no later than November 30th or the first business day after November 30th, if November 30th falls on a weekend or is otherwise not a business day. The report shall contain information on how monies were spent the previous fiscal year by the State, each of the Qualified Counties, each of the Managing Entities, and each of the Local Governments. It shall also contain recommendations to the Governor, the Legislature, and Local Governments for priorities among the Approved Purposes for how monies should be spent the coming fiscal year to respond to the opioid epidemic.

(i) Accountability - Prior to July 1st of each year, the State and each of the Local Governments shall provide information to DCF about how they intend to expend Opioid Funds in the upcoming fiscal year. The State and each of the Local Government shall report its expenditures to DCF no later than August 31st for the previous fiscal year. The Taskforce or Council will set other data sets that need to be reported to DCF to demonstrate the effectiveness of Approved Purposes. All programs and expenditures shall be audited annually in a similar fashion to SAMHSA programs. Local Governments shall respond and provide documents to any reasonable requests from the State for data or information about programs receiving Opioid Funds.

(j) Conflict of Interest - All Members shall adhere to the rules, regulations and laws of Florida including, but not limited to, Florida Statute §112.311, concerning the disclosure of conflicts of interest and recusal from discussions or votes on conflicted matters.

6. **Administrative Costs**- The State may take no more than a 5% administrative fee from the State Fund ("Administrative Costs") and any Regional Fund that it administers for counties that are not Qualified Counties. Each Qualified County may take no more than a 5% administrative fee from its share of the Regional Funds.

7. **Negotiation of Non-Multistate Settlements** - If the State begins negotiations with a Pharmaceutical Supply Chain Participant that is separate and apart from a multi-state negotiation, the State shall include Local Governments that are a part of the Negotiating Committee in such negotiations. No Settlement shall be recommended or accepted without the affirmative votes of both the State and Local Government representatives of the Negotiating Committee.

8. **Negotiation of Multistate or Local Government Settlements** - To the extent practicable and allowed by other parties to a negotiation, both Parties agree to communicate with

members of the Negotiation Committee regarding the terms of any other Pharmaceutical Supply Chain Participant Settlement.

9. **Expense Fund** - The Parties agree that in any negotiation every effort shall be made to cause Pharmaceutical Supply Chain Participants to pay costs of litigation, including attorneys' fees, in addition to any agreed to Opioid Funds in the Settlement. To the extent that a fund sufficient to pay the entirety of all contingency fee contracts for Local Governments in the State of Florida is not created as part of a Settlement by a Pharmaceutical Supply Chain Participant, the Parties agree that an additional expense fund for attorneys who represent Local Governments (herein "Expense Fund") shall be created out of the City/County fund for the purpose of paying the hard costs of a litigating Local Government and then paying attorneys' fees.

(a) The Source of Funds for the Expense Fund- Money for the Expense Fund shall be sourced exclusively from the City/County Fund.

(b) The Amount of the Expense Fund- The State recognizes the value litigating Local Governments bring to the State of Florida in connection with the Settlement because their participation increases the amount Incentive Payments due from each Pharmaceutical Supply Chain Participant. In recognition of that value, the amount of funds that shall be deposited into the Expense fund shall be contingent upon on the percentage of litigating Local Government participation in the Settlement, according to the following table:

Litigating Local Government Participation in the Settlement (by percentage of the population)	Amount that shall be paid into the Expense Fund from (and as a percentage of) the City/County fund
96 to 100%	10%
91 to 95%	7.5%
86 to 90%	5%
85%	2.5%
Less than 85%	0%

If fewer than 85% percent of the litigating Local Governments (by population) participate, then the Expense Fund shall not be funded, and this Section of the MOU shall be null and void.

(c) The Timing of Payments into the Expense Fund- Although the amount of the Expense Fund shall be calculated based on the entirety of payments due to the City/County fund over a ten to eighteen year period, the Expense Fund shall be funded entirely from payments made by Pharmaceutical Supply Chain Participants during the first two years of the Settlement. Accordingly, to offset the amounts being paid from the City/County to the Expense Fund in the first two years, Counties or Municipalities may borrow from the Regional Fund during the first two years and pay the borrowed amounts back to the Regional Fund during years three, four, and five.

For the avoidance of doubt, the following provides an illustrative example regarding the calculation of payments and amounts that may be borrowed under the terms of this MOU, consistent with the provisions of this Section:

Opioid Funds due to State of Florida and Local Governments (over 10 to 18 years):	$1,000
Litigating Local Government Participation:	100%
City/County Fund (over 10 to 18 years):	$150
Expense Fund (paid over 2 years):	$15
Amount Paid to Expense Fund in 1st year:	$7.5
Amount Paid to Expense Fund in 2nd year	$7.5
Amount that may be borrowed from Regional Fund in 1st year:	$7.5
Amount that may be borrowed from Regional Fund in 2nd year:	$7.5
Amount that must be paid back to Regional Fund in 3rd year:	$5
Amount that must be paid back to Regional Fund in 4th year:	$5
Amount that must be paid back to Regional Fund in 5th year:	$5

(d) Creation of and Jurisdiction over the Expense Fund- The Expense Fund shall be established, consistent with the provisions of this Section of the MOU, by order of the Circuit Court of the Sixth Judicial Circuit in and for Pasco County, West Pasco Division New Port Richey, Florida, in the matter of *The State of Florida, Office of the Attorney General, Department of Legal Affairs v. Purdue Pharma L.P., et al.*, Case No. 2018-CA-001438 (the "Court"). The Court shall have jurisdiction over the Expense Fund, including authority to allocate and disburse amounts from the Expense Fund and to resolve any disputes concerning the Expense Fund.

(e) Allocation of Payments to Counsel from the Expense Fund- As part of the order establishing the Expense Fund, counsel for the litigating Local Governments shall seek to have the Court appoint a third-neutral to serve as a special master for purposes of allocating the Expense Fund. Within 30 days of entry of the order appointing a special master for the Expense Fund, any counsel who intend to seek an award from the Expense Fund shall provide the copies of their contingency fee contracts to the special master. The special master shall then build a mathematical model, which shall be based on each litigating Local Government's share under the Negotiation Class Metrics and the rate set forth in their contingency contracts, to calculate a proposed award for each litigating Local Government who timely provided a copy of its contingency contract.

10. **Dispute resolution-** Any one or more of the Local Governments or the State may object to an allocation or expenditure of Opioid Funds solely on the basis that the allocation or expenditure at issue (a) is inconsistent with the Approved Purposes; (b) is inconsistent with the distribution scheme as provided in paragraph 3, or (c) violates the limitations set forth herein with respect to administrative costs or the Expense Fund. There shall be no other basis for bringing an objection to the approval of an allocation or expenditure of Opioid Funds.

Schedule A

Core Strategies

States and Qualifying Block Grantees shall choose from among the abatement strategies listed in Schedule B. However, priority shall be given to the following core abatement strategies ("**Core Strategies**")[, such that a minimum of __% of the [aggregate] state-level abatement distributions shall be spent on [one or more of] them annually].[1]

A. Naloxone or other FDA-approved drug to reverse opioid overdoses

1. Expand training for first responders, schools, community support groups and families; and

2. Increase distribution to individuals who are uninsured or whose insurance does not cover the needed service.

B. Medication-Assisted Treatment ("MAT") Distribution and other opioid-related treatment

1. Increase distribution of MAT to non-Medicaid eligible or uninsured individuals;

2. Provide education to school-based and youth-focused programs that discourage or prevent misuse;

3. Provide MAT education and awareness training to healthcare providers, EMTs, law enforcement, and other first responders; and

4. Treatment and Recovery Support Services such as residential and inpatient treatment, intensive outpatient treatment, outpatient therapy or counseling, and recovery housing that allow or integrate medication with other support services.

C. Pregnant & Postpartum Women

1. Expand Screening, Brief Intervention, and Referral to Treatment ("SBIRT") services to non-Medicaid eligible or uninsured pregnant women;

2. Expand comprehensive evidence-based treatment and recovery services, including MAT, for women with co-occurring Opioid Use Disorder ("OUD") and other Substance Use Disorder ("SUD")/Mental Health disorders for uninsured individuals for up to 12 months postpartum; and

3. Provide comprehensive wrap-around services to individuals with Opioid Use Disorder (OUD) including housing, transportation, job placement/training, and childcare.

D. Expanding Treatment for Neonatal Abstinence Syndrome

1. Expand comprehensive evidence-based and recovery support for NAS babies;

2. Expand services for better continuum of care with infant-need dyad; and

3. Expand long-term treatment and services for medical monitoring of NAS babies and their families.

[1] As used in this Schedule A, words like "expand," "fund," "provide" or the like shall not indicate a preference for new or existing programs. Priorities will be established through the mechanisms described in the Term Sheet.

E. Expansion of Warm Hand-off Programs and Recovery Services

1. Expand services such as navigators and on-call teams to begin MAT in hospital emergency departments;

2. Expand warm hand-off services to transition to recovery services;

3. Broaden scope of recovery services to include co-occurring SUD or mental health conditions. ;

4. Provide comprehensive wrap-around services to individuals in recovery including housing, transportation, job placement/training, and childcare; and

5. Hire additional social workers or other behavioral health workers to facilitate expansions above.

F. Treatment for Incarcerated Population

1. Provide evidence-based treatment and recovery support including MAT for persons with OUD and co-occurring SUD/MH disorders within and transitioning out of the criminal justice system; and

2. Increase funding for jails to provide treatment to inmates with OUD.

G. Prevention Programs

1. Funding for media campaigns to prevent opioid use (similar to the FDA's "Real Cost" campaign to prevent youth from misusing tobacco);

2. Funding for evidence-based prevention programs in schools.;

3. Funding for medical provider education and outreach regarding best prescribing practices for opioids consistent with the 2016 CDC guidelines, including providers at hospitals (academic detailing);

4. Funding for community drug disposal programs; and

5. Funding and training for first responders to participate in pre-arrest diversion programs, post-overdose response teams, or similar strategies that connect at-risk individuals to behavioral health services and supports.

H. Expanding Syringe Service Programs

1. Provide comprehensive syringe services programs with more wrap-around services including linkage to OUD treatment, access to sterile syringes, and linkage to care and treatment of infectious diseases.

I. Evidence-based data collection and research analyzing the effectiveness of the abatement strategies within the State.

Schedule B

Approved Uses

PART ONE: TREATMENT

A. TREAT OPIOID USE DISORDER (OUD)

Support treatment of Opioid Use Disorder (OUD) and any co-occurring Substance Use Disorder or Mental Health (SUD/MH) conditions through evidence-based or evidence-informed programs or strategies that may include, but are not limited to, the following:[2]

1. Expand availability of treatment for OUD and any co-occurring SUD/MH conditions, including all forms of Medication-Assisted Treatment (MAT) approved by the U.S. Food and Drug Administration.

2. Support and reimburse evidence-based services that adhere to the American Society of Addiction Medicine (ASAM) continuum of care for OUD and any co-occurring SUD/MH conditions

3. Expand telehealth to increase access to treatment for OUD and any co-occurring SUD/MH conditions, including MAT, as well as counseling, psychiatric support, and other treatment and recovery support services.

4. Improve oversight of Opioid Treatment Programs (OTPs) to assure evidence-based or evidence-informed practices such as adequate methadone dosing and low threshold approaches to treatment.

5. Support mobile intervention, treatment, and recovery services, offered by qualified professionals and service providers, such as peer recovery coaches, for persons with OUD and any co-occurring SUD/MH conditions and for persons who have experienced an opioid overdose.

6. Treatment of trauma for individuals with OUD (e.g., violence, sexual assault, human trafficking, or adverse childhood experiences) and family members (e.g., surviving family members after an overdose or overdose fatality), and training of health care personnel to identify and address such trauma.

7. Support evidence-based withdrawal management services for people with OUD and any co-occurring mental health conditions.

8. Training on MAT for health care providers, first responders, students, or other supporting professionals, such as peer recovery coaches or recovery outreach specialists, including telementoring to assist community-based providers in rural or underserved areas.

9. Support workforce development for addiction professionals who work with persons with OUD and any co-occurring SUD/MH conditions.

10. Fellowships for addiction medicine specialists for direct patient care, instructors, and clinical research for treatments.

11. Scholarships and supports for behavioral health practitioners or workers involved in addressing OUD and any co-occurring SUD or mental health conditions, including but not limited to training,

[2] As used in this Schedule B, words like "expand," "fund," "provide" or the like shall not indicate a preference for new or existing programs. Priorities will be established through the mechanisms described in the Term Sheet.

scholarships, fellowships, loan repayment programs, or other incentives for providers to work in rural or underserved areas.

12. [Intentionally Blank – to be cleaned up later for numbering]

13. Provide funding and training for clinicians to obtain a waiver under the federal Drug Addiction Treatment Act of 2000 (DATA 2000) to prescribe MAT for OUD, and provide technical assistance and professional support to clinicians who have obtained a DATA 2000 waiver.

14. Dissemination of web-based training curricula, such as the American Academy of Addiction Psychiatry's Provider Clinical Support Service-Opioids web-based training curriculum and motivational interviewing.

15. Development and dissemination of new curricula, such as the American Academy of Addiction Psychiatry's Provider Clinical Support Service for Medication-Assisted Treatment.

B. SUPPORT PEOPLE IN TREATMENT AND RECOVERY

Support people in treatment for or recovery from OUD and any co-occurring SUD/MH conditions through evidence-based or evidence-informed programs or strategies that may include, but are not limited to, the following:

1. Provide comprehensive wrap-around services to individuals with OUD and any co-occurring SUD/MH conditions, including housing, transportation, education, job placement, job training, or childcare.

2. Provide the full continuum of care of treatment and recovery services for OUD and any co-occurring SUD/MH conditions, including supportive housing, peer support services and counseling, community navigators, case management, and connections to community-based services.

3. Provide counseling, peer-support, recovery case management and residential treatment with access to medications for those who need it to persons with OUD and any co-occurring SUD/MH conditions.

4. Provide access to housing for people with OUD and any co-occurring SUD/MH conditions, including supportive housing, recovery housing, housing assistance programs, training for housing providers, or recovery housing programs that allow or integrate FDA-approved medication with other support services.

5. Provide community support services, including social and legal services, to assist in deinstitutionalizing persons with OUD and any co-occurring SUD/MH conditions.

6. Support or expand peer-recovery centers, which may include support groups, social events, computer access, or other services for persons with OUD and any co-occurring SUD/MH conditions.

7. Provide or support transportation to treatment or recovery programs or services for persons with OUD and any co-occurring SUD/MH conditions.

8. Provide employment training or educational services for persons in treatment for or recovery from OUD and any co-occurring SUD/MH conditions.

9. Identify successful recovery programs such as physician, pilot, and college recovery programs, and provide support and technical assistance to increase the number and capacity of high-quality programs to help those in recovery.

10. Engage non-profits, faith-based communities, and community coalitions to support people in treatment and recovery and to support family members in their efforts to support the person with OUD in the family.

11. Training and development of procedures for government staff to appropriately interact and provide social and other services to individuals with or in recovery from OUD, including reducing stigma.

12. Support stigma reduction efforts regarding treatment and support for persons with OUD, including reducing the stigma on effective treatment.

13. Create or support culturally appropriate services and programs for persons with OUD and any co-occurring SUD/MH conditions, including new Americans.

14. Create and/or support recovery high schools.

15. Hire or train behavioral health workers to provide or expand any of the services or supports listed above.

C. CONNECT PEOPLE WHO NEED HELP TO THE HELP THEY NEED (CONNECTIONS TO CARE)

Provide connections to care for people who have – or at risk of developing – OUD and any co-occurring SUD/MH conditions through evidence-based or evidence-informed programs or strategies that may include, but are not limited to, the following:

1. Ensure that health care providers are screening for OUD and other risk factors and know how to appropriately counsel and treat (or refer if necessary) a patient for OUD treatment.

2. Fund Screening, Brief Intervention and Referral to Treatment (SBIRT) programs to reduce the transition from use to disorders, including SBIRT services to pregnant women who are uninsured or not eligible for Medicaid.

3. Provide training and long-term implementation of SBIRT in key systems (health, schools, colleges, criminal justice, and probation), with a focus on youth and young adults when transition from misuse to opioid disorder is common.

4. Purchase automated versions of SBIRT and support ongoing costs of the technology.

5. Expand services such as navigators and on-call teams to begin MAT in hospital emergency departments.

6. Training for emergency room personnel treating opioid overdose patients on post-discharge planning, including community referrals for MAT, recovery case management or support services.

7. Support hospital programs that transition persons with OUD and any co-occurring SUD/MH conditions, or persons who have experienced an opioid overdose, into clinically-appropriate follow-up care through a bridge clinic or similar approach.

8. Support crisis stabilization centers that serve as an alternative to hospital emergency departments for persons with OUD and any co-occurring SUD/MH conditions or persons that have experienced an opioid overdose.

9. Support the work of Emergency Medical Systems, including peer support specialists, to connect individuals to treatment or other appropriate services following an opioid overdose or other opioid-related adverse event.

10. Provide funding for peer support specialists or recovery coaches in emergency departments, detox facilities, recovery centers, recovery housing, or similar settings; offer services, supports, or connections to care to persons with OUD and any co-occurring SUD/MH conditions or to persons who have experienced an opioid overdose.

11. Expand warm hand-off services to transition to recovery services.

12. Create or support school-based contacts that parents can engage with to seek immediate treatment services for their child; and support prevention, intervention, treatment, and recovery programs focused on young people.

13. Develop and support best practices on addressing OUD in the workplace.

14. Support assistance programs for health care providers with OUD.

15. Engage non-profits and the faith community as a system to support outreach for treatment.

16. Support centralized call centers that provide information and connections to appropriate services and supports for persons with OUD and any co-occurring SUD/MH conditions.

D. ADDRESS THE NEEDS OF CRIMINAL-JUSTICE-INVOLVED PERSONS

Address the needs of persons with OUD and any co-occurring SUD/MH conditions who are involved in, are at risk of becoming involved in, or are transitioning out of the criminal justice system through evidence-based or evidence-informed programs or strategies that may include, but are not limited to, the following:

1. Support pre-arrest or pre-arraignment diversion and deflection strategies for persons with OUD and any co-occurring SUD/MH conditions, including established strategies such as:

a. Self-referral strategies such as the Angel Programs or the Police Assisted Addiction Recovery Initiative (PAARI);

b. Active outreach strategies such as the Drug Abuse Response Team (DART) model;

c. “Naloxone Plus” strategies, which work to ensure that individuals who have received naloxone to reverse the effects of an overdose are then linked to treatment programs or other appropriate services;

d. Officer prevention strategies, such as the Law Enforcement Assisted Diversion (LEAD) model;

e. Officer intervention strategies such as the Leon County, Florida Adult Civil Citation Network or the Chicago Westside Narcotics Diversion to Treatment Initiative; or

f. Co-responder and/or alternative responder models to address OUD-related 911 calls with greater SUD expertise

2. Support pre-trial services that connect individuals with OUD and any co-occurring SUD/MH conditions to evidence-informed treatment, including MAT, and related services.

3. Support treatment and recovery courts that provide evidence-based options for persons with OUD and any co-occurring SUD/MH conditions

4. Provide evidence-informed treatment, including MAT, recovery support, harm reduction, or other appropriate services to individuals with OUD and any co-occurring SUD/MH conditions who are incarcerated in jail or prison.

5. Provide evidence-informed treatment, including MAT, recovery support, harm reduction, or other appropriate services to individuals with OUD and any co-occurring SUD/MH conditions who are leaving jail or prison have recently left jail or prison, are on probation or parole, are under community corrections supervision, or are in re-entry programs or facilities.

6. Support critical time interventions (CTI), particularly for individuals living with dual-diagnosis OUD/serious mental illness, and services for individuals who face immediate risks and service needs and risks upon release from correctional settings.

7. Provide training on best practices for addressing the needs of criminal-justice-involved persons with OUD and any co-occurring SUD/MH conditions to law enforcement, correctional, or judicial personnel or to providers of treatment, recovery, harm reduction, case management, or other services offered in connection with any of the strategies described in this section.

E. ADDRESS THE NEEDS OF PREGNANT OR PARENTING WOMEN AND THEIR FAMILIES, INCLUDING BABIES WITH NEONATAL ABSTINENCE SYNDROME

Address the needs of pregnant or parenting women with OUD and any co-occurring SUD/MH conditions, and the needs of their families, including babies with neonatal abstinence syndrome (NAS), through evidence-based or evidence-informed programs or strategies that may include, but are not limited to, the following:

1. Support evidence-based or evidence-informed treatment, including MAT, recovery services and supports, and prevention services for pregnant women – or women who could become pregnant – who have OUD and any co-occurring SUD/MH conditions, and other measures to educate and provide support to families affected by Neonatal Abstinence Syndrome.

2. Expand comprehensive evidence-based treatment and recovery services, including MAT, for uninsured women with OUD and any co-occurring SUD/MH conditions for up to 12 months postpartum.

3. Training for obstetricians or other healthcare personnel that work with pregnant women and their families regarding treatment of OUD and any co-occurring SUD/MH conditions.

4. Expand comprehensive evidence-based treatment and recovery support for NAS babies; expand services for better continuum of care with infant-need dyad; expand long-term treatment and services for medical monitoring of NAS babies and their families.

5. Provide training to health care providers who work with pregnant or parenting women on best practices for compliance with federal requirements that children born with Neonatal Abstinence Syndrome get referred to appropriate services and receive a plan of safe care.

6. Child and family supports for parenting women with OUD and any co-occurring SUD/MH conditions.

7. Enhanced family supports and child care services for parents with OUD and any co-occurring SUD/MH conditions.

8. Provide enhanced support for children and family members suffering trauma as a result of addiction in the family; and offer trauma-informed behavioral health treatment for adverse childhood events.

9. Offer home-based wrap-around services to persons with OUD and any co-occurring SUD/MH conditions, including but not limited to parent skills training.

10. Support for Children's Services – Fund additional positions and services, including supportive housing and other residential services, relating to children being removed from the home and/or placed in foster care due to custodial opioid use.

PART TWO: PREVENTION

F. PREVENT OVER-PRESCRIBING AND ENSURE APPROPRIATE PRESCRIBING AND DISPENSING OF OPIOIDS

Support efforts to prevent over-prescribing and ensure appropriate prescribing and dispensing of opioids through evidence-based or evidence-informed programs or strategies that may include, but are not limited to, the following:

1. Fund medical provider education and outreach regarding best prescribing practices for opioids consistent with Guidelines for Prescribing Opioids for Chronic Pain from the U.S. Centers for Disease Control and Prevention, including providers at hospitals (academic detailing).

2. Training for health care providers regarding safe and responsible opioid prescribing, dosing, and tapering patients off opioids.

3. Continuing Medical Education (CME) on appropriate prescribing of opioids.

4. Support for non-opioid pain treatment alternatives, including training providers to offer or refer to multi-modal, evidence-informed treatment of pain.

5. Support enhancements or improvements to Prescription Drug Monitoring Programs (PDMPs), including but not limited to improvements that:

a. Increase the number of prescribers using PDMPs;

b. Improve point-of-care decision-making by increasing the quantity, quality, or format of data available to prescribers using PDMPs, by improving the interface that prescribers use to access PDMP data, or both; or

c. Enable states to use PDMP data in support of surveillance or intervention strategies, including MAT referrals and follow-up for individuals identified within PDMP data as likely to experience OUD in a manner that complies with all relevant privacy and security laws and rules.

6. Ensuring PDMPs incorporate available overdose/naloxone deployment data, including the United States Department of Transportation's Emergency Medical Technician overdose database in a manner that complies with all relevant privacy and security laws and rules.

7. Increase electronic prescribing to prevent diversion or forgery.

8. Educate Dispensers on appropriate opioid dispensing.

G. PREVENT MISUSE OF OPIOIDS

Support efforts to discourage or prevent misuse of opioids through evidence-based or evidence-informed programs or strategies that may include, but are not limited to, the following:

1. Fund media campaigns to prevent opioid misuse.

2. Corrective advertising or affirmative public education campaigns based on evidence.

3. Public education relating to drug disposal.

4. Drug take-back disposal or destruction programs.

5. Fund community anti-drug coalitions that engage in drug prevention efforts.

6. Support community coalitions in implementing evidence-informed prevention, such as reduced social access and physical access, stigma reduction – including staffing, educational campaigns, support for people in treatment or recovery, or training of coalitions in evidence-informed implementation, including the Strategic Prevention Framework developed by the U.S. Substance Abuse and Mental Health Services Administration (SAMHSA).

7. Engage non-profits and faith-based communities as systems to support prevention.

8. Fund evidence-based prevention programs in schools or evidence-informed school and community education programs and campaigns for students, families, school employees, school athletic programs, parent-teacher and student associations, and others.

9. School-based or youth-focused programs or strategies that have demonstrated effectiveness in preventing drug misuse and seem likely to be effective in preventing the uptake and use of opioids.

10. Create of support community-based education or intervention services for families, youth, and adolescents at risk for OUD and any co-occurring SUD/MH conditions.

11. Support evidence-informed programs or curricula to address mental health needs of young people who may be at risk of misusing opioids or other drugs, including emotional modulation and resilience skills.

12. Support greater access to mental health services and supports for young people, including services and supports provided by school nurses, behavioral health workers or other school staff, to address

mental health needs in young people that (when not properly addressed) increase the risk of opioid or other drug misuse.

H. PREVENT OVERDOSE DEATHS AND OTHER HARMS (HARM REDUCTION)

Support efforts to prevent or reduce overdose deaths or other opioid-related harms through evidence-based or evidence-informed programs or strategies that may include, but are not limited to, the following:

1. Increase availability and distribution of naloxone and other drugs that treat overdoses for first responders, overdose patients, individuals with OUD and their friends and family members, individuals at high risk of overdose, schools, community navigators and outreach workers, persons being released from jail or prison, or other members of the general public.

2. Public health entities provide free naloxone to anyone in the community

3. Training and education regarding naloxone and other drugs that treat overdoses for first responders, overdose patients, patients taking opioids, families, schools, community support groups, and other members of the general public.

4. Enable school nurses and other school staff to respond to opioid overdoses, and provide them with naloxone, training, and support.

5. Expand, improve, or develop data tracking software and applications for overdoses/naloxone revivals.

6. Public education relating to emergency responses to overdoses.

7. Public education relating to immunity and Good Samaritan laws.

8. Educate first responders regarding the existence and operation of immunity and Good Samaritan laws.

9. Syringe service programs and other evidence-informed programs to reduce harms associated with intravenous drug use, including supplies, staffing, space, peer support services, referrals to treatment, fentanyl checking, connections to care, and the full range of harm reduction and treatment services provided by these programs.

10. Expand access to testing and treatment for infectious diseases such as HIV and Hepatitis C resulting from intravenous opioid use.

11. Support mobile units that offer or provide referrals to harm reduction services, treatment, recovery supports, health care, or other appropriate services to persons that use opioids or persons with OUD and any co-occurring SUD/MH conditions.

12. Provide training in harm reduction strategies to health care providers, students, peer recovery coaches, recovery outreach specialists, or other professionals that provide care to persons who use opioids or persons with OUD and any co-occurring SUD/MH conditions.

13. Support screening for fentanyl in routine clinical toxicology testing.

PART THREE: OTHER STRATEGIES

I. FIRST RESPONDERS

In addition to items in sections C, D, and H relating to first responders, support the following:

1. Educate law enforcement or other first responders regarding appropriate practices and precautions when dealing with fentanyl or other drugs.

2. Provision of wellness and support services for first responders and others who experience secondary trauma associated with opioid-related emergency events.

J. LEADERSHIP, PLANNING AND COORDINATION

Support efforts to provide leadership, planning, coordination, facilitation, training and technical assistance to abate the opioid epidemic through activities, programs, or strategies that may include, but are not limited to, the following:

1. Statewide, regional, local, or community regional planning to identify root causes of addiction and overdose, goals for reducing harms related to the opioid epidemic, and areas and populations with the greatest needs for treatment intervention services; to support training and technical assistance; or to support other strategies to abate the opioid epidemic described in this opioid abatement strategy list.

2. A dashboard to share reports, recommendations, or plans to spend opioid settlement funds; to show how opioid settlement funds have been spent; to report program or strategy outcomes; or to track, share, or visualize key opioid-related or health-related indicators and supports as identified through collaborative statewide, regional, local, or community processes.

3. Invest in infrastructure or staffing at government or not-for-profit agencies to support collaborative, cross-system coordination with the purpose of preventing overprescribing, opioid misuse, or opioid overdoses, treating those with OUD and any co-occurring SUD/MH conditions, supporting them in treatment or recovery, connecting them to care, or implementing other strategies to abate the opioid epidemic described in this opioid abatement strategy list.

4. Provide resources to staff government oversight and management of opioid abatement programs.

K. TRAINING

In addition to the training referred to throughout this document, support training to abate the opioid epidemic through activities, programs, or strategies that may include, but are not limited to, the following:

1. Provide funding for staff training or networking programs and services to improve the capability of government, community, and not-for-profit entities to abate the opioid crisis.

2. Support infrastructure and staffing for collaborative cross-system coordination to prevent opioid misuse, prevent overdoses, and treat those with OUD and any co-occurring SUD/MH conditions, or implement other strategies to abate the opioid epidemic described in this opioid abatement strategy list (e.g., health care, primary care, pharmacies, PDMPs, etc.).

L. RESEARCH

Support opioid abatement research that may include, but is not limited to, the following:

1. Monitoring, surveillance, data collection, and evaluation of programs and strategies described in this opioid abatement strategy list.

2. Research non-opioid treatment of chronic pain.

3. Research on improved service delivery for modalities such as SBIRT that demonstrate promising but mixed results in populations vulnerable to opioid use disorders.

4. Research on novel harm reduction and prevention efforts such as the provision of fentanyl test strips.

5. Research on innovative supply-side enforcement efforts such as improved detection of mail-based delivery of synthetic opioids.

6. Expanded research on swift/certain/fair models to reduce and deter opioid misuse within criminal justice populations that build upon promising approaches used to address other substances (e.g. Hawaii HOPE and Dakota 24/7).

7. Epidemiological surveillance of OUD-related behaviors in critical populations including individuals entering the criminal justice system, including but not limited to approaches modeled on the Arrestee Drug Abuse Monitoring (ADAM) system.

8. Qualitative and quantitative research regarding public health risks and harm reduction opportunities within illicit drug markets, including surveys of market participants who sell or distribute illicit opioids.

9. Geospatial analysis of access barriers to MAT and their association with treatment engagement and treatment outcomes.

BOARD OF COUNTY COMMISSIONERS OF ALACHUA COUNTY
RESOLUTION NO. 2021-

A Resolution authorizing ALACHUA COUNTY, a charter county and political subdivision of the State of Florida, to join with the State of Florida and other local governmental units as a participant in the Florida Memorandum of Understanding and Formal Agreements implementing a Unified Plan.

WHEREAS, ALACHUA COUNTY has suffered harm from the opioid epidemic;

WHEREAS, the ALACHUA COUNTY recognizes that the entire State of Florida has suffered harm as aresult from the opioid epidemic;

WHEREAS, the State of Florida has filed an action pending in Pasco County, Florida, and a number of Florida Cities and Counties have also filed an action *In re: National Prescription Opiate Litigation*, MDL No. 2804 (N.D. Ohio) (the "Opioid Litigation") and ALACHUA COUNTY is a litigatingparticipant in that action;

WHEREAS, the State of Florida and lawyers representing certain various local governments involved in the Opioid Litigation have proposed a unified plan for the allocation and use of prospectivesettlement dollars from opioid related litigation;

WHEREAS, the Florida Memorandum of Understanding (the "Florida Plan") sets forth sets fortha framework of a unified plan for the proposed allocation and use of opioid settlement proceeds and itis anticipated that formal agreements implementing the Florida Plan will be entered into at a future date; and,

WHEREAS, participation in the Florida Plan by a large majority of Florida cities and counties willmaterially increase the amount of funds to Florida and should improve Florida's relative bargaining position during additional settlement negotiations;

WHEREAS, failure to participate in the Florida Plan will reduce funds available to the State,ALACHUA COUNTY, and every other Florida city and county;

NOW, THEREFORE, BE IT RESOLVED BY THE BOARD OF COUNTY COMMISSIONERS OF ALACHUA COUNTY:

SECTION 1. That the Board of County Commissioners finds that participation in the Florida Plan would be inthe best interest of Alachua County and its citizens in that such a plan ensures that almost all ofthe settlement funds go to abate and resolve the opioid epidemic and each and every city and county receives funds for the harm that it has suffered.

SECTION 2. That Alachua County hereby expresses its support of a unified plan for theallocation and use of opioid settlement proceeds as generally described in the Florida Plan, attached hereto as Exhibit "A."

SECTION 3. That the Board Chair is hereby expressly authorized to execute the Florida Plan insubstantially the form contained in Exhibit "A."

SECTION 4. That the County Manager is hereby authorized to execute the any formal agreementsimplementing a unified plan for the allocation and use of opioid settlement proceeds that is not substantially inconsistent with the Florida Plan and this Resolution.

SECTION 5. That the Clerk be and hereby is instructed to record this Resolution in theappropriate record book upon its adoption.

SECTION 6. The Clerk of Court is hereby directed to furnish a certified copy ofthis Ordinance/Resolution to

Attorney General Ashley
Moodyc\o John M. Guard
The
Capitol,
PL-01
Tallahassee, FL 32399-1050

SECTION 7. This Resolution shall take effect immediately upon its adoption.

Adopted this day of ,_____, 2021.

DULY ADOPTED in regular session, this ___ day of _____, 2021.

BOARD OF COUNTY COMMISSIONERS OF ALACHUA COUNTY, FLORIDA

Agenda Item Summary

Agenda Date: 9/14/2021 Agenda Item No.: 24.

Agenda Item Name:
Amendment #3 to Agreement #11208 between Behavioral Intervention, Inc. (BI, Inc.) and Alachua County for Offender Monitoring Services

Presenter:
Ron Akins, 352-337-6248

Description:
Request approval of Amendment #3 to Agreement #11208 between BI, Inc. and Alachua County. The agreement shall be effective from October 1st, 2021 through January 31st, 2022.

Recommended Action:
Approve and Sign Amendment #3 to Agreement #11208 between BI, Inc. and Alachua County

Prior Board Motions:
The Board approved Agreement #11208 on February 26th, 2019. Amendment #1 to Agreement #11208 was approved on September 24th, 2019. Amendment #2 to Agreement #11208 was approved on September 22nd, 2020

Fiscal Consideration:
Sufficient budget exists in the FY22 Tentative Budget - 001.36.3680.623.34.00 for $100,000.00. This is not a budget enhancement request.

Background:
Since its inception in FY02, defendants in a pretrial status or sentenced misdemeanor offenders have been supervised by the Department of Court Services' Pretrial Services programs by utilizing Electronic Monitoring (EM) and Global Positioning Satellite (GPS) as a special condition. Since FY15, Court Services has included Transdermal Alcohol Detector (TAD) as another potential alternative for the Courts to assign defendants. These defendants are closely supervised and monitored in the community utilizing evidence based technology, thereby reducing the need to remain in custody.

AGREEMENT

THIS AGREEMENT ("**Agreement**") is made and entered into by and between the **CITY AND COUNTY OF DENVER**, a municipal corporation of the State of Colorado ("City"), and **B.I. Incorporated**, a Colorado corporation, with a principal place of business as 6265 Gunbarrel Avenue, Suite B, Boulder, Colorado 80301 ("Contractor" and collectively referred to as the "Parties").

WITNESSETH:

WHEREAS, the City desires the Contractor to perform offender monitoring services for various City agencies; and

WHEREAS, the Contractor has the present capacity and is experienced and qualified to provide such services.

NOW THEREFORE, in consideration of the mutual agreements herein contained, and subject to the terms and conditions herein stated, the Parties agree as follows:

1. WORK TO BE PERFORMED:

A. Services: The Contractor shall diligently and professionally, under the general direction of the Executive Director of the Department of Safety ("City Representative"), perform offender monitoring and related services, all as more particularly described in **Exhibit A**, the **Scope of Work and Pricing** ("Work"), incorporated herein by this reference and made a part of this Agreement as if set forth in full herein. The Contractor shall faithfully perform the work required under this Agreement in accordance with the standards of care, skill, training, diligence and judgment provided by highly competent professionals who perform work of a similar nature to the work described in this Agreement. Any professional services specified under this Agreement which requires the employment of licensed or registered personnel shall be performed by licensed or registered personnel.

B. Oversight: The Contractor shall conduct the work under the general direction of and in coordination with the City Representative, or other designated City officials and make every reasonable effort to fully coordinate all services with any City agency or any person or firm under contract with the City doing work which affects the Contractor's work. All records, data, specifications and documentation prepared by the Contractor under this Agreement, when delivered to and accepted by the City Representative, shall become the property of the City. The Contractor agrees to allow the City to review any of the procedures

used by it in doing the work under this Agreement and to make available for inspection all notes and other documents used in performing the work.

C. Conflict of Interest: The Contractor shall provide the services under this Agreement with the highest ethical standards. In the event that the Contractor determines to provide similar services to other parties not previously disclosed to the City, the Contractor shall first notify the City Representative of the proposed undertaking. In the event that the proposed undertaking creates a conflict of interest or a potential for conflict of interest, as may be determined in the sole discretion of the City Representative, the City may terminate this Agreement immediately. The Contractor shall notify the City Representative immediately upon becoming aware of any circumstances that create a conflict of interest or potential for conflict of interest. In the event that during the term of this agreement, circumstances arise to create a conflict of interest or a potential for conflict of interest, the City may terminate this Agreement immediately.

2. TERM: The term of the Agreement is from **February 1, 2019**, until **January 31, 2022**, or until the Maximum Contract Amount specified in sub-section 3.A. below is expended and all of the Services specified in **Exhibit A** has been satisfactorily performed, whichever is sooner, unless this Agreement is terminated earlier as provided in this Agreement or is extended as provided in a separate amendment to this Agreement ("**Term**"). Subject to the City Representative's prior written authorization, the Contractor shall complete any work in progress as of the expiration date and the Term of the Agreement will extend until the work is completed or earlier terminated by the City Representative. The City may elect, in its sole and absolute discretion, to extend the Term for up to two (2) additional one (1) year periods. Any extension of the Term shall be in writing and shall be executed in the same manner as this Agreement.

3. COMPENSATION AND PAYMENT:

A. Maximum Contract Amount: The Maximum Contract Amount to be paid by the City to the Contractor for the performance of the work set out in **Exhibit A** shall in no event exceed the sum of **Five Million Dollars and Zero Cents ($5,000,000.00)**, unless this

Agreement is modified to increase said amount by a duly authorized and written amendment to this Agreement executed by the Parties in the same manner as this Agreement.[1]

B. Payments: Monthly payments shall be made to the Contractor in accordance with the progress of the work as set out in **Exhibit A** attached hereto and incorporated herein by this reference. Monthly invoices submitted by the Contractor to the City Representative must fully document services rendered and hours spent providing the specified services, and any other authorized and actually incurred expenses, and must be approved by the City Representative in writing in order to be eligible for compensation under this Agreement. All invoicing and payments are subject to the City's Prompt Payment Ordinance, §§ 20-107 through 20-118, D.R.M.C.

C. Subject to Appropriation; No Multiple Year Obligation: It is understood and agreed that any payment obligation of the City hereunder, whether direct or contingent, shall extend only to funds appropriated by the Denver City Council for the purpose of this Agreement, encumbered for the purpose of the Agreement and paid into the Treasury of the City. The Contractor acknowledges that (i) the City does not by this Agreement, irrevocably pledge present cash reserves for payments in future fiscal years, and (ii) this Agreement is not intended to create a multiple-fiscal year direct or indirect debt or financial obligation of the City.

D. Amendment: The Contractor acknowledges that the City is not obligated to execute an amendment to this Agreement for any further phase of work by the Contractor other than the work described in **Exhibit A**, and that any further phase of work performed by Contractor beyond that specifically described or without an amendment to this Agreement is performed at Contractor's risk and without authorization under this Agreement.

4. TERMINATION:

A. Termination for Convenience of the City: The City Representative, upon giving twenty (20) calendar days written notice (unless a longer period is given), may terminate this Agreement, in whole or part, when it is in the best interest of the City as determined by the City Representative. Any unfinished portion of the work shall be faithfully and timely performed by the Contractor to the extent directed by the City Representative (in the City

[1] This maximum contract amount is specific to the City and County of Denver, and does not limit other participating U.S. Communities jurisdictions from increasing or decreasing their contract amounts.

Representative's discretion), and compensation for all such authorized Work performed shall be paid to the Contractor in accordance with this Agreement.

B. Termination for Cause: The City and the Contractor shall each have the right to terminate this Agreement, with cause, upon written notice to the other party. A termination shall be deemed "with cause" when it is based on a material breach of the covenants or a substantial default under this Agreement which has not been corrected or resolved to the satisfaction of the non-breaching or non-defaulting party within a reasonable time specified by the non-breaching or non-defaulting party in a written notice to the breaching or defaulting party. In addition, the City shall have the right to terminate this Agreement immediately for cause if the Contractor or any of its officers or employees are convicted, plead *nolo contendere*, enter into a formal agreement in which they admit guilt, enter a plea of guilty, or otherwise admit culpability to criminal offenses of bribery, kickbacks, collusive bidding, bid-rigging, antitrust, fraud, undue influence, theft, racketeering, extortion or any offense of a similar nature, in connection with the Contractor's business. Nothing herein shall be construed as giving the Contractor the right to continue performing work under this Agreement beyond the time when the City Representative notifies the Contractor that the Contractor's work has become unsatisfactory to the City Representative and the City Representative is terminating the Agreement, except to the extent that the City Representative specifies certain work to be completed prior to terminating this Agreement.

C. Compensation: If this Agreement is terminated by the City for cause, the Contractor shall be compensated for all work satisfactorily completed and delivered to the City, and such compensation shall be limited to: (1) the sum of the amounts contained in invoices already submitted and approved by the City Representative and (2) the cost of any work which the City Representative authorizes in writing which the City Representative determines is needed to accomplish an orderly termination of the work. If this Agreement is terminated by the City without cause or by the Contractor with cause, the Contractor shall also be compensated for any reasonable costs the Contractor has actually incurred in performing authorized work hereunder prior to the date on which all work is terminated. Upon termination of this Agreement by the City, the Contractor shall have no claim of any kind whatsoever against the City by reason of such termination or by reason of any act incidental thereto, except for compensation for work satisfactorily performed as described herein.

D. Product Delivery: If this Agreement is terminated for any reason, the City shall take possession of all materials, equipment, tools and facilities owned by the City which the Contractor is using by whatever method the City deems expedient. The Contractor shall deliver to the City all drafts or other documents the Contractor has completed or partially completed under this Agreement, together with all other items, materials and documents which have been paid for by the City. These documents and materials shall be the property of the City. Copies of work product incomplete at the time of termination shall be marked "DRAFT-INCOMPLETE".

5. RIGHTS AND REMEDIES NOT WAIVED: In no event shall any action or inaction, including any payments to the Contractor, by the Contractor constitute or be construed to be a waiver by the City of any breach of covenant or default which may then exist on the part of the Contractor, and the City's action or inaction when any such breach or default shall exist shall not impair or prejudice any right or remedy available to the City with respect to such breach or default. No assent, expressed or implied, to any breach or default shall be deemed or taken to be a waiver of any other breach or default.

6. INDEPENDENT CONTRACTOR: It is understood and agreed that the status of the Contractor shall be that of an independent contractor and an entity or person retained on a contractual basis to perform professional or technical services for limited periods of time as described in Section 9.1.1.E.x. of the Charter of the City. It is not intended, nor shall it be construed, that the Contractor or the Contractor's employees, agents, or subcontractors are employees or officers of the City under Chapter 18 of the Denver Revised Municipal Code or for any purpose whatsoever. The Contractor is responsible for the operational management, errors and omissions of the Contractor's employees, agents, and subcontractors. Without limiting the foregoing, the Contractor understands and acknowledges that the Contractor and the Contractor's employees, agents and subcontractors: a) are not entitled to workers' compensation benefits through the City; b) are not entitled to unemployment insurance benefits unless unemployment compensation coverage is provided by the Contractor or some other entity besides the City; and c) are obligated to pay federal and state taxes on any monies earned pursuant to this Agreement. Furthermore, it is understood and agreed that nothing in this Agreement is intended, or shall be construed, to constitute a joint venture between the Parties.

7. COMPLIANCE WITH M/WBE REQUIREMENTS: Agreement is subject to Article III, Divisions 1 and 3 of Chapter 28, Denver Revised Municipal Code (D.R.M.C.),

designated as Sections 28-31 to 28-36 and 28-52 to 28-90 D.R.M.C. (the "M/WBE Ordinance") and any Rules or Regulations promulgated pursuant thereto. Under § 28-72 D.R.M.C., a Consultant has an ongoing, affirmative obligation to maintain for the duration of this Agreement, at a minimum, compliance with its originally achieved level of MBE and WBE participation upon which this Agreement was awarded, unless the City initiates a material alteration to the scope of work affecting MBEs or WBEs performing on this Agreement through change order, contract amendment, force account, or as otherwise described in § 28-73 D.R.M.C.

8. INSURANCE:

A. General Conditions: The Contractor agrees to secure, at or before the time of execution of this Agreement, the following insurance covering all operations, goods or services provided pursuant to this Agreement. The Contractor shall keep the required insurance coverage in force at all times during the term of the Agreement, or any extension thereof, during any warranty period, and for three (3) years after termination of the Agreement. The required insurance shall be underwritten by an insurer licensed or authorized to do business in Colorado and rated by A.M. Best Company as "A-VIII" or better. Each policy shall contain a valid provision or endorsement requiring notification to the City in the event any of the required policies is canceled or non-renewed before the expiration date thereof. Such written notice shall be sent to the Parties identified in the notices section of this Agreement. Such notice shall reference the City contract number listed on the signature page of this Agreement. Said notice shall be sent thirty (30) days prior to such cancellation or non-renewal unless due to non-payment of premiums for which notice shall be sent ten (10) days prior. If such written notice is unavailable from the insurer, the Contractor shall provide written notice of cancellation, non-renewal and any reduction in coverage to the parties identified in the notices section by certified mail, return receipt requested within three (3) business days of such notice by its insurer(s) and referencing the City's contract number. The Contractor shall be responsible for the payment of any deductible or self-insured retention. The insurance coverages specified in this Agreement are the minimum requirements, and these requirements do not lessen or limit the liability of the Contractor. The Contractor shall maintain, at its own expense, any additional kinds or amounts of insurance that it may deem necessary to cover its obligations and liabilities under this Agreement.

B. Proof of Insurance: The Contractor shall provide a copy of this Agreement to its insurance agent or broker. The Contractor may not commence services or work relating to the Agreement prior to placement of coverage. The Contractor certifies that the certificate of insurance attached as **Exhibit B**, preferably an ACORD certificate, complies with all insurance requirements of this Agreement. The City requests that the City's contract number be referenced on the Certificate. The City's acceptance of a certificate of insurance or other proof of insurance that does not comply with all insurance requirements set forth in this Agreement shall not act as a waiver of Contractor's breach of this Agreement or of any of the City's rights or remedies under this Agreement. The City's Risk Management Office may require additional proof of insurance, including but not limited to policies and endorsements.

C. Additional Insureds: For Commercial General Liability, Professional Liability and Business Auto Liability, the Contractor and subcontractor's insurer(s) shall name the City and County of Denver, its elected and appointed officials, employees and volunteers as additional insured.

D. Waiver of Subrogation: For Commercial General Liability, Business Automobile Liability, and Workers Compensation; the Contractor's insurer shall waive subrogation rights against the City.

E. Subcontractors: All subcontractors (including independent contractors, suppliers or other entities providing goods or services required by this Agreement) shall be subject to all of the requirements herein and shall procure and maintain the same coverages required of the Contractor. The Contractor shall include all such subcontractors and as additional insured under its policies (with the exception of Workers' Compensation) or shall ensure that all such subcontractors and maintain the required coverages. The Contractor agrees to provide proof of insurance for all such subcontractors upon request by the City.

F. Workers' Compensation/Employer's Liability Insurance: The Contractor shall maintain the coverage as required by statute for each work location and shall maintain Employer's Liability insurance with limits of $100,000 per occurrence for each bodily injury claim, $100,000 per occurrence for each bodily injury caused by disease claim, and $500,000 aggregate for all bodily injuries caused by disease claims. The Contractor expressly represents to the City, as a material representation upon which the City is relying in entering into this Agreement, that none of the Contractor's officers or employees who may be eligible under any

statute or law to reject Workers' Compensation Insurance shall effect such rejection during any part of the term of this Agreement, and that any such rejections previously effected, have been revoked as of the date the Contractor executes this Agreement.

G. Commercial General Liability: The Contractor shall maintain a Commercial General Liability insurance policy with limits of $1,000,000 for each claim made, $1,000,000 for each personal and advertising injury claim, $2,000,000 products and completed operations aggregate, and $2,000,000 policy aggregate.

H. Business Automobile Liability: The Contractor shall maintain Business Automobile Liability with limits of $1,000,000 combined single limit applicable to all owned, hired and non-owned vehicles used in performing services under this Agreement.

I. Technology Errors & Omissions including Cyber Liability**:** Contractor shall maintain Technology Errors and Omissions insurance including cyber liability, network security, privacy liability and product failure coverage with limits of $250,000 per occurrence and $250,000 policy aggregate.

J. Additional Provisions:

(1) For Commercial General Liability the policy must provide the following:

(i) That this Agreement is an Insured Contract under the policy;

(ii) Defense costs in excess of policy limits;

(iii) A severability of interests, separation of insureds or cross liability provision; and

(iv) A provision that coverage is primary and non-contributory with other coverage or self-insurance maintained by the City.

(2) For claims-made coverage, the retroactive date must be on or before the contract date or the first date when any goods or services were provided to the City, whichever is earlier.

(3) The Contractor shall advise the City in the event any general aggregate or other aggregate limits are reduced below the required per occurrence limits. At the Contractor's own expense, where such general aggregate or other aggregate limits have been reduced below the required per occurrence limit, the Contractor shall procure such per occurrence limits and furnish a new certificate of insurance showing such coverage is in force.

9. DEFENSE & INDEMNIFICATION:

A. The Contractor hereby agrees to defend, indemnify, and hold harmless the City, its appointed and elected officials, agents and employees against all liabilities, claims, judgments, suits or demands for damages to persons or property arising out of, resulting from, or relating to the work performed under this Agreement ("Claims"), unless and until such Claims have been specifically determined by the trier of fact to be due to the sole negligence or willful misconduct of the City. This indemnity shall be interpreted in the broadest possible manner to indemnify City for any acts or omissions of the Contractor or its sub-Contractors or subcontractors either passive or active, irrespective of fault, including the City's concurrent negligence whether active or passive, except for the sole negligence or willful misconduct of the City.

B. The Contractor's duty to defend and indemnify the City shall arise at the time written notice of the Claim is first provided to the City regardless of whether an action has been filed in court on the Claim. The Contractor's duty to defend and indemnify the City shall arise even if the City is the only party sued and/or it is alleged that the City's negligence or willful misconduct was the sole cause of the alleged damages.

C. The Contractor will defend any and all Claims which may be brought or threatened against the City and will pay on behalf of the City any expenses incurred by reason of such Claims including, but not limited to, court costs and attorney fees incurred in defending and investigating such Claims or seeking to enforce this indemnity obligation. Such payments on behalf of the City shall be in addition to any other legal remedies available to City and shall not be considered the City's exclusive remedy.

D. Insurance coverage requirements specified in this Agreement shall in no way lessen or limit the liability of the Contractor under the terms of this indemnification obligation. The Contractor shall obtain, at its own expense, any additional insurance that it deems necessary for the City's protection.

E. This defense and indemnification obligation shall survive the expiration or termination of this Agreement.

10. COLORADO GOVERNMENTAL IMMUNITY ACT: The Parties hereto understand and agree that the City is relying upon, and has not waived, the monetary limitations

and all other rights, immunities and protection provided by the Colorado Governmental Act, § 24-10-101, *et seq*., C.R.S.

11. PERMITS, LICENSES, TAXES, CHARGES AND PENALTIES: The Contractor agrees to pay promptly all taxes, excises, license fees, and permit fees of whatever nature applicable to its operations or activities under this Agreement, and to take out and keep current all required licenses or permits (federal, state, or local) required for the conduct of its business hereunder, and further agrees not to permit any of said taxes, excises or license or permit fees to become delinquent. The Contractor further agrees to pay promptly when due all bills, debts and obligations incurred by it in connection with its operations and the performance of this Agreement and not to permit the same to become delinquent. The City shall not be liable for the payment of taxes, late charges or penalties of any nature, except for any additional amounts which the City may be required to pay under § 20-107 to § 20-115, D.R.M.C. The City is a tax exempt entity.

12. EXAMINATION OF RECORDS: The Contractor agrees that any duly authorized representative of the City, including the City Auditor, shall, until the expiration of three (3) years after the final payment under this Agreement, have access to and the right to examine any books, documents, papers and records of the Contractor, involving transactions related to this Agreement.

13. ASSIGNMENT & SUBCONTRACT: Unless otherwise expressly provided in this Agreement, the Contractor covenants and agrees that the Contractor will not assign, transfer or subcontract the Contractor's rights and obligations hereunder without first obtaining the written consent of the City Representative. Any assignment or subcontract approved by the City Representative may require new or extended insurance being provided by the Contractor or the Contractor's assignee or subcontractor, as specified in the City Representative's written consent. Any attempt by the Contractor to assign, transfer or subcontract the Contractor's rights and obligations hereunder without such prior written consent of the City Representative may, at the option of said City Representative, terminate this Agreement and all rights of the Contractor hereunder. Such consent may be granted or denied at the sole and absolute discretion of said City Representative.

A. Approved Subcontract. With prior written consent of the City Representative, the Contractor may subcontract portions of the Work. The Contractor is

prohibited from hiring any subcontractor currently debarred by the City under section 20-77 of the Denver Revised Municipal Code. A subcontract does not create, and shall not be interpreted as creating, any contractual relationship or privity of contract between the City and any subcontractor. The acceptance or rejection of a proposed subcontractor shall not create in that subcontractor a right to any subcontract nor shall said acceptance or rejection relieve the Contractor of its responsibilities for the Work of any subcontractor. The Contractor shall be responsible for any acts or omissions of its subcontractors, suppliers and personnel. In addition, all Work performed for the Contractor by a subcontractor or supplier shall be pursuant to an agreement between the Contractor and the subcontractor or supplier which shall contain provisions that:

1. Require the subcontractor or supplier to be bound to the Contractor by the terms of this Agreement;

2. Require all subcontracted Work to be performed in accordance with the requirements of the Agreement, and, that with respect to the Work the subcontractor or supplier performs, that the subcontractor or supplier assume toward the Contractor all the obligations and responsibilities which the Contractor assumes toward the City;

3. Preserve and protect the rights of the City with respect to the Work to be performed so that the subcontracting thereof will not prejudice those rights;

4. Require each of its subcontractors or suppliers to include in their contracts with lower tier subcontractors or suppliers these same requirements; and

5. Require each subcontractor or supplier to make copies of this Agreement available to the subcontractor's or supplier's subcontractors or suppliers. The Contractor shall make available to each proposed subcontractor or supplier, prior to the execution of the subcontract, copies of this Agreement.

B. <u>Performance and Payment Bond</u>. If the Contractor subcontracts any of the Work, the Contractor, at the sole discretion of the City, may be required to issue one or more performance or payment bonds in favor of the City

14. NO THIRD PARTY BENEFICIARY: The Parties understand and expressly agree that enforcement of the terms and conditions of this Agreement, and all rights of action relating to such enforcement, shall be strictly reserved to the Parties. Nothing contained in this Agreement shall give or allow any such claim or right of action by any third person. It is the express intention of the Parties that any person other than the City or the Contractor receiving services or benefits under this Agreement shall be deemed to be an incidental beneficiary only.

15. NO AUTHORITY TO BIND CITY TO CONTRACTS: The Contractor has no authority to bind the City on any contractual matters. Final approval of all contractual matters which obligate the City must be executed by the City, as required by Charter and ordinance.

16. INTEGRATION & AMENDMENTS: This Agreement, including the exhibits and attachments hereto (each of which is specifically incorporated herein), is intended as the complete integration of all understandings between the Parties. No prior or contemporaneous addition, deletion, or other modification hereto shall have any force or effect, unless embodied in this Agreement in writing. No subsequent novation, renewal, addition, deletion, or other modification shall have any force of effect unless embodied in a written amendment to this Agreement properly executed by the Parties. Any oral representation by any officer or employee of the City at variance with terms and conditions of this Agreement or any written amendment to this Agreement shall not have any force or effect nor bind the City.

17. SEVERABILITY: The Parties agree that if any provision of this Agreement or any portion thereof is held by a court of competent jurisdiction to be invalid, illegal, unenforceable, or in conflict with any law, except for the provisions of the Agreement requiring prior appropriation of funds and limiting the total amount payable by the City, the validity of the remaining portions or provisions shall not be affected, if the intent of the Parties can be fulfilled.

18. CONFLICT OF INTEREST:

A. No employee of the City shall have any personal or beneficial interest in the services or property described in the Agreement; and the Contractor shall not hire, or contract for services with, any employee or officer of the City in violation of the City's Code of Ethics, D.R.M.C. §2-51, et seq. or the Charter §§ 1.2.8, 1.2.9, and 1.2.12.

B. The Contractor shall not engage in any transaction, activity or conduct which would result in a conflict of interest under this Agreement. The Contractor represents that the Contractor has disclosed any and all current or potential conflicts of interest. A conflict of

interest shall include transactions, activities or conduct that would affect the judgment, actions or work of the Contractor by placing the Contractor's own interests, or the interests of any party with whom the Contractor has a contractual arrangement, in conflict with those of the City. The legislative agenda, priorities, actions, and needs of the City shall take precedence over any other obligations (contractual or otherwise, direct or indirect) of the Contractor. The City, in its sole discretion, shall determine the existence of a conflict of interest and may terminate this Agreement in the event such a conflict exists after the City has given the Contractor written notice which describes the conflict.

19. NOTICES: Notices concerning the termination of this Agreement, notices of alleged or actual violations of the terms or conditions of this Agreement, and other notices of similar importance, including changes to the persons to be notified or their addresses, shall be made:

By City to: B.I. Incorporated
6265 Gunbarrel Avenue, Suite B
Boulder, CO 80301

By Contractor to: Community Corrections Division
City and County of Denver
303 West Colfax Avenue, Suite 1700
Denver, Colorado 80204

All notices shall be in writing and provided by either personal delivery, certified mail, return receipt requested, or overnight courier. All notices are effective upon personal delivery or upon placing in the United States mail or with the courier service.

20. DISPUTES: All disputes of whatsoever nature between the City and the Contractor regarding this Agreement shall be resolved by administrative hearings pursuant to the procedure established by Denver Revised Municipal Code ("D.R.M.C."), § 56-106(b), *et seq*. For the purposes of that procedure, the City official rendering a final determination shall be the City Representative.

21. GOVERNING LAW; COMPLIANCE WITH LAW; VENUE:

A. Governing Law: This Agreement shall be construed and enforced in accordance with applicable federal law, the laws of the State of Colorado, and the Charter and Revised Municipal Code of the City and County of Denver, and the ordinances, regulations and Executive Orders enacted and/or promulgated pursuant thereto, including any amendments. The

Charter and Revised Municipal Code of the City and County of Denver, as the same may be amended from time to time, are hereby expressly incorporated into this Agreement as if fully set out herein by this reference.

B. Compliance with Law: The Contractor shall perform or cause to be performed all services and Work under this Agreement in full compliance with all applicable laws, ordinances, codes, rules, regulations and executive orders of the United States of America, the State of Colorado, and the City and County of Denver.

C. Venue: Venue for any legal action relating to this Agreement shall lie in the District Court in and for the City and County of Denver.

22. NO DISCRIMINATION IN EMPLOYMENT: In connection with the performance of Work under this Agreement, the Contractor agrees not to refuse to hire, discharge, promote or demote, or to discriminate in matters of compensation against any person otherwise qualified, solely because of race, color, religion, national origin, gender, age, military status, sexual orientation, gender identity or gender expression, marital status, or physical or mental disability. The Contractor shall insert the foregoing provision in all subcontracts.

23. SMALL BUSINESS ENTERPRISES: The Contractor shall make a good faith effort to utilize qualified and available Small Business Enterprises (SBE) to the extent required by § 28-205, *et seq.*, D.R.M.C.

24. PREVAILING WAGES: Employees of the Contractor or the Contractor's subcontractors are subject to the payment of prevailing wages pursuant to § 20-76, D.R.M.C., depending upon the nature of their work. By executing this Agreement, the Contractor covenants and affirms that the Contractor is familiar with the prevailing wages provisions and is prepared to pay or cause to be paid prevailing wages required by the scope of work of the Contractor or the Contractor's subcontractors. A copy of the City's latest update to Prevailing Wage Schedules is attached hereto and incorporated herein as **Exhibit D**.

25. USE, POSSESSION OR SALE OF ALCOHOL OR DRUGS: The Contractor shall cooperate and comply with the provisions of Executive Order 94 concerning the use, possession or sale of alcohol or drugs. Violation of this provision or refusal to cooperate with implementation of the policy can result in the City barring the Contractor from City facilities or participating in City operations.

26. PROPRIETARY OR CONFIDENTIAL INFORMATION; OPEN RECORDS:

A. City Information: The Contractor acknowledges and accepts that, in performance of all Work under the terms of this Agreement, the Contractor may have access to proprietary data or confidential information that may be owned or controlled by the City, and that the disclosure of such proprietary data or confidential information may be damaging to the City or third parties. The Contractor agrees that all information designated or marked as proprietary data or confidential information and provided or otherwise disclosed by the City to the Contractor shall be held in confidence and used only in the performance of the Contractor's obligations under this Agreement. The Contractor shall exercise the same standard of care to protect such proprietary data and confidential information as a reasonably prudent Contractor would to protect the Contractor's own proprietary data or confidential information. Proprietary data and confidential information shall include, but not limited to, any materials or information which is designated or marked "Proprietary" or "Confidential" by the City or its agents, provided to or made available to the Contractor by the City subject to a confidentiality agreement or notice of confidentiality, or used by the City under a licensing agreement or other authorization by the owner of the materials or information. Proprietary data and confidential information may be in hardcopy, printed, digital or electronic format.

(1) **Use of Proprietary Data or Confidential Information:** Except as expressly provided by the terms of this Agreement and subject to written permission of the City Representative, the Contractor agrees that the Contractor shall not disclose, disseminate, transmit, license, sublicense, assign, lease, release, publish, post on the internet, transfer, sell, permit access to, distribute, allow interactive rights to, or otherwise make available the proprietary data or confidential information, or any part thereof, or any repackaged form of the proprietary data or confidential information, or any part thereof, to any other person, party or entity in any form or media for any purpose other than performing the Contractor's obligations under this Agreement. The Contractor further acknowledges that by providing this proprietary data or confidential information, the City is not granting to the Contractor any right or license to use such data or information except as provided in this Agreement.

The Contractor agrees that any ideas, concepts, knowledge, computer programs, or data processing techniques provided by the City in connection with this Agreement,

including any proprietary data or any confidential information, shall be deemed to be the sole property of the City and all rights, including copyright, shall be reserved to the City. The Contractor agrees, with respect to the proprietary data and confidential information, that: (1) the Contractor shall not copy, recreate, reverse, engineer or decompile such data, in whole or in part, unless authorized in writing by the City Representative; (2) the Contractor shall retain no copies, recreations, compilations, or decompilations, in whole or in part, of such data or information; (3) the Contractor shall, upon the expiration or earlier termination of the Agreement, destroy (and, in writing, certify destruction) or return all such data or information or work products incorporating such data or information to the City.

(2) **Employees and Subcontractors:** The Contractor shall inform the Contractor's employees and officers of the obligations under this Agreement, and all requirements and obligations of the Contractor under this Agreement shall survive the expiration or earlier termination of this Agreement. The Contractor shall not disclose proprietary data or confidential information to subcontractors unless such subcontractors are bound by non-disclosure and confidentiality provisions at least as strict as those contained in this Agreement.

(3) **Disclaimer:** Notwithstanding any other provision of this Agreement, the City is furnishing proprietary data and confidential information on an "as is" basis, without any support whatsoever, and without representation, warranty or guarantee, including but not in any manner limited to, fitness, merchantability or the accuracy and completeness of the proprietary data or confidential information. The Contractor is hereby advised to verify the Contractor's Work performed in reliance upon the proprietary data or confidential information. The City assumes no liability for any errors or omissions herein. Specifically, the City is not responsible for any costs including, but not limited to, those incurred as a result of lost revenues, loss of use of data, the costs of recovering such programs or data, the cost of any substitute program, claims by third parties, or for similar costs. If discrepancies are found, the Contractor agrees to contact the City immediately.

B. Contractor's Information: The Parties understand that all the material provided or produced under this Agreement may be subject to the Colorado Open Records Act., § 24-72-201, *et seq*., C.R.S., and that in the event of a request to the City for disclosure of such information, the City shall advise the Contractor of such request in order to give the Contractor the opportunity to object to the disclosure of any of the Contractor's proprietary or confidential

material. In the event of the filing of a lawsuit to compel such disclosure, the City will tender all such material to the court for judicial determination of the issue of disclosure and the Contractor agrees to intervene in such lawsuit to protect and assert the Contractor's claims of privilege and against disclosure of such material or waive the same. The Contractor further agrees to defend, indemnify and save and hold harmless the City, its officers, agents and employees, from any claim, damages, expense, loss or costs arising out of the Contractor's intervention to protect and assert the Contractor's claim of privilege against disclosure under this subsection including, but not limited to, prompt reimbursement to the City of all reasonable attorney fees, costs and damages that the City may incur directly or may be ordered to pay by such court.

27. INTELLECTUAL PROPERTY RIGHTS: The Parties intend that all property rights to any and all materials, text, logos, documents, booklets, manuals, references, guides, brochures, advertisements, music, sketches, plans, drawings, prints, photographs, specifications, software, data, products, ideas, inventions, and any other work or recorded information created by the Contractor and paid for by the City pursuant to this Agreement, in preliminary or final forms and on any media whatsoever (collectively, "Materials"), shall belong to the City. The Contractor shall disclose all such Materials to the City. To the extent permitted by the U.S. Copyright Act, 17 USC § 101, *et seq*., the Materials are a "work made for hire" and all ownership of copyright in the Materials shall vest in the City at the time the Materials are created. To the extent that the Materials are not a "work made for hire," the Contractor hereby sells, assigns and transfers all right, title and interest in and to the Materials to the City, including the right to secure copyright, patent, trademark, and other intellectual property rights throughout the world and to have and to hold such copyright, patent, trademark and other intellectual property rights in perpetuity.

28. SOFTWARE PIRACY PROHIBITION: The Contractor shall perform no work under this Agreement that results in or from the acquisition, operation, maintenance, or use of computer software in violation of United States copyright laws or applicable licensing restrictions. The Contractor hereby covenants and agrees that, for the term of this Agreement and any extensions, the Contractor has in place appropriate systems and controls to prevent such violations of federal law and licensing restrictions. If the City determines that the Contractor is in violation of this provision, the City may exercise any remedy available at law or equity or under this Agreement, including immediate termination of the Agreement and any remedy consistent

with United States copyright laws or applicable licensing restrictions. The indemnification provision of this Agreement shall be applicable to any such violations by the Contractor.

29. NO EMPLOYMENT OF ILLEGAL ALIENS.

A. The Agreement is subject to Article 17.5 of Title 8, Colorado Revised Statutes, and as amended hereafter (the "Certification Statute") and the Contractor is liable for any violations as provided in the Certification Statute.

B. The Contractor certifies that:

1) At the time of its execution of this Agreement, it does not knowingly employ or contract with an illegal alien who will perform work under this Agreement.

2) It will participate in either the E-Verify Program, as defined in § 8-17.5-101(3.7), C.R.S., or the employment verification program established by the Colorado Department of Labor and Employment under § 8-17.5-102(5)(c), C.R.S. (the "Department Program"), to confirm the employment eligibility of all employees who are newly hired for employment to perform work under this Agreement.

C. The Contractor also agrees and represents that:

1) It shall not knowingly employ or contract with an illegal alien to perform work under the Agreement.

2) It shall not enter into a contract with a sub-Contractor or subcontractor that fails to certify to the Contractor that it shall not knowingly employ or contract with an illegal alien to perform work under the Agreement.

3) It has confirmed the employment eligibility of all employees who are newly hired for employment to perform work under this Agreement, through participation in either the E-Verify Program or the Department Program.

4) It is prohibited from using either the E-Verify Program or the Department Program procedures to undertake pre-employment screening of job applicants while performing its obligations under the Agreement.

5) If it obtains actual knowledge that a sub-Contractor or subcontractor performing work under the Agreement knowingly employs or contracts with an illegal alien, it will notify such sub-Contractor or subcontractor and the City within three days. The Contractor will also then terminate such sub-Contractor or subcontractor if within three days after such notice the sub-Contractor or subcontractor does not stop employing or contracting

with the illegal alien, unless during such three day period the sub-Contractor or subcontractor provides information to establish that the sub-Contractor or subcontractor has not knowingly employed or contracted with an illegal alien.

6) It will comply with any reasonable request made in the course of an investigation by the Colorado Department of Labor and Employment under authority of § 8-17.5-102(5), C.R.S.

D. The Contractor is liable for any violations as provided in the Certification Ordinance. If Contractor violates any provision of this section or the Certification Ordinance, the City may terminate this Agreement for a breach of the Agreement. If the Agreement is so terminated, the Contractor shall be liable for actual and consequential damages to the City. Any such termination of a contract due to a violation of this section or the Certification Ordinance may also, at the discretion of the City, constitute grounds for disqualifying Contractor from submitting bids or proposals for future contracts with the City.

30. LEGAL AUTHORITY: The Contractor assures and guarantees that the Contractor possesses the legal authority, pursuant to any proper, appropriate and official motion, resolution or action passed or taken, to enter into this Agreement.

The person or persons signing and executing this Agreement on behalf of the Contractor, do hereby warrant and guarantee that he/she or they have been fully authorized by the Contractor to execute this Agreement on behalf of the Contractor and to validly and legally bind the Contractor to all the terms, performances and provisions herein set forth.

The City shall have the right, at its option, to either temporarily suspend or permanently terminate this Agreement, if there is a dispute as to the legal authority of either the Contractor or the person(s) signing the Agreement to enter into this Agreement.

31. NO CONSTRUCTION AGAINST DRAFTING PARTY: The Parties acknowledge that each of them and their respective counsel have had the opportunity to review this Agreement and that this Agreement shall not be construed against any party merely because this Agreement or any of its provisions have been prepared by a particular party.

32. SURVIVAL OF CERTAIN PROVISIONS: The Parties understand and agree that all terms and conditions of this Agreement, together with the exhibits and attachments hereto, which, by reasonable implication, contemplate continued performance or compliance beyond the expiration or earlier termination of this Agreement, shall survive such expiration or

termination and shall continue to be enforceable as provided herein. Without limiting the generality of the foregoing, the Contractor's obligations for the provision of insurance and to indemnify the City shall survive for a period equal to any and all relevant statutes of limitation, plus the time necessary to fully resolve any claims, matters, or actions begun within that period.

33. INUREMENT: The rights and obligations of the Parties herein set forth shall inure to the benefit of and be binding upon the Parties hereto and their respective successors and assigns permitted under this Agreement.

34. TIME IS OF THE ESSENCE: The Parties agree that in the performance of the terms, conditions, and requirements of this Agreement, time is of the essence.

35. PARAGRAPH HEADINGS: The captions and headings set forth herein are for convenience of reference only and shall not be construed so as to define or limit the terms and provisions hereof.

36. CITY EXECUTION OF AGREEMENT: This Agreement shall not be or become effective or binding on the City until it has been fully executed by all signatories of the City and County of Denver.

37. COUNTERPARTS OF THIS AGREEMENT: This Agreement may be executed in counterparts, each of which shall be deemed to be an original of this Agreement.

38. ELECTRONIC SIGNATURES AND ELECTRONIC RECORDS: The Contractor consents to the use of electronic signatures by the City. The Agreement, and any other documents requiring a signature hereunder, may be signed electronically by the City in the manner specified by the City. The Parties agree not to deny the legal effect or enforceability of the Agreement solely because it is in electronic form or because an electronic record was used in its formation. The Parties agree not to object to the admissibility of the Agreement in the form of an electronic record, or a paper copy of an electronic document, or a paper copy of a document bearing an electronic signature, on the ground that it is an electronic record or electronic signature or that it is not in its original form or is not an original.

Exhibit A

(Exhibit on Following Page)

General Scope (RFP Section D.2)

Operating large-scale electronic monitoring programs, such as that of the City and other U.S. Communities Participating Public Agencies, is inherently complex. The City and U.S. Communities Participating Public Agencies require a vendor that can mitigate program risks by offering a highly secure, responsive, and streamlined operational approach. BI's continuum of robust, reliable, and highly accurate monitoring equipment is backed by our comprehensive service offering that can be tailored to meet each agency's unique monitoring requirements. This portion of BI's proposal details our approach and methodology to meet each requirement specified in *RFP Section D.2—General Scope:*

1. **Monitoring Services Provided by Proposer**—Continuously monitoring offender populations, supporting complex alert notification protocols, resolving alerts, and providing officers with auxiliary support services—**BI Monitoring Operations Centers**
2. **Equipment to be Provided by Contractor**—Ensuring all equipment is certified for use, adhering to maintenance and repair procedures, maintaining shelf inventory—**BI Manufacturing**
3. **Accessories**—Providing an all-inclusive solution—**BI Hardware Accessories**
4. **Proposer Representative**—Supporting program operations through a single representative—**Mr. Laurent Lepoutre**
5. **Offender Monitoring System Operation**—Providing reliable equipment that functions in all environments, communicating program information from the field to the officer—**BI's Continuum of Electronic Monitoring Products**
6. **Central Computer Monitoring System**—Securing data center infrastructure, maintaining and updating server architecture, monitoring system redundancies—**BI Data Centers**
7. **Central Computer Monitoring System Software**—Ensuring program data is always accessible—**BI TotalAccess and BI Monitoring Operations**
8. **Reporting**—Providing standard and custom reports, reporting program violations to established personnel—**BI TotalAccess**
9. **Inventory Management**—Tracking returned and repaired equipment, updating inventory databases, maintaining appropriate spare equipment levels—**BI Customer Business Services**
10. **Maintenance and Support**—Supporting program operations 24/7/365, leveraging escalation and problem resolution processes—**BI Monitoring Operations**
11. **Contract Transition—**Providing knowledgeable, tenured staff to support transition activities, coordinating all aspects of implementation**—BI Account Management**
12. **Project Management for Transition—**Aligning project management approaches with City needs based on complexity of transition, mitigating risks, collaborating with City personnel to effectively transition the contract**—BI Account Management**
13. **Litigation—**Supporting testimony and subpoena requests—**BI Monitoring Operations**
14. **Advertising/Promotions—**Maintaining City, program, and offender confidentiality—**BI Marketing and Communications**
15. **Provision of Database at Contract End—**Ensuring the City has all monitoring data upon contract expiration**—BI Account Management**

1. Monitoring Services Provided By Proposer

***U.S.-Based Monitoring Services**—Full service monitoring provides officers with continuous support and reduces the number of alerts sent to officers, effectively streamlining operations and supporting caseload management for more than 1,400 agencies nationwide.*

Knowledgeable Monitoring Specialists are continuously present at BI's U.S.-based Monitoring Operations facilities in Indiana and Illinois. With an average tenure of nearly seven years, our dedicated specialists are prepared and enthusiastic to continue to support the City and Participating Public Agencies. After completing seven weeks of initial training, receiving ongoing call and alert critiques, and attending training specific to City policies and procedures, Monitoring Specialists become equipped to provide valuable support and services to officers.

Monitoring Operations staffing levels are based on a continuous analysis of call traffic and workload. In 2017, BI's Indiana-based Monitoring Operations answered more than 350,000 inbound phone calls. Of those, Monitoring Specialists answered more than 95% of calls in 60 seconds or less with an average call answer time of less than 10 seconds.

Figure 2. BI Monitoring Operations

Our Monitoring Operations facilities are located in Indiana and Illinois and are fully owned and operated by BI. This enables us to provide highly responsive, reliable, and secure services without relying on third parties.

Our corporate office located in Boulder, Colorado, and our parent company office, located in Boca Raton Florida, also support BI's U.S.-based monitoring center. All BI locations, from ownership to operations, are based in the U.S.—other electronic monitoring providers are internationally owned and cannot make this claim.

***Surveillance Activities**—Ensuring accurate, timely, and reliable notification of program violations through responsive services and durable equipment.*

Through a combination of BI's highly accurate monitoring equipment and 24/7/365 live support services, we will work with City and each Participating Public Agency to establish alert notification protocols aligned with agency procedures. Based on the level of support purchased by the City or Participating Public Agencies, BI will either notify authorized personnel of violations via automated means (email, text message) or manual means (live phone calls).

Table 1. Surveillance Activities

RFP Requirement	Monitoring Technology					
	GPS	*RF*	*Transdermal*	*Voice Verification*	*BrAC*	*Smartphone*
Continuously monitoring the presence or absence/detecting early leaves or late returns	✓	✓	✓			
Attempts to tamper/actual tampering	✓	✓	✓	✓	✓	✓

Table 1. Surveillance Activities						
RFP Requirement	**Monitoring Technology**					
	GPS	*RF*	*Transdermal*	*Voice Verification*	*BrAC*	*Smartphone*
Attempts to duplicate RF transmission	✓	✓	✓			
Disruption of AC power	✓	✓	✓			
Receiver shut downs	✓	✓	✓			
Continuous busy signals	✓	✓	✓	✓		
Attempts to use recorded speech				✓		✓
Spurious RF transmission	✓	✓	✓			
No telephone answer	✓	✓	✓			
Low battery	✓	✓	✓		✓	

***Curfew Flexibility**—Assigning unlimited curfew periods to every monitored individual to accommodate the most complex monitoring requirements.*

TotalAccess, BI's proposed monitoring software platform, is capable of supporting an unlimited number of curfew periods per day and supports customized schedules for every offender monitored by the City or Participating Public Agencies. Curfew schedules can be modified down the minute for each offender within TotalAccess.

***Prompt Alert Resolution**—Live Monitoring Specialists work to proactively manage offender alerts based on agency approved processes.*

BI will call offenders and attempt to resolve alerts prior to escalating events to officers. We understand the specific protocols, policies, and procedures necessary to promptly inform officers of potential noncompliant activities, something no other vendor in the industry can provide.

BI's proactive alert resolution provides officers with real-time troubleshooting and dispatch of alerts, redirecting the vast majority of alerts that would previously be handled by officers.

During 2017, BI's Indiana-based Monitoring Operations placed more than 3.2 million outbound phone calls to assist agencies around the Country.

Standard Operating Procedure: Contacting Offenders to Proactively Resolve Alerts

BI Monitoring Specialists will receive absence information, or other City-determined violation information directly from TotalAccess. Upon notification of offender absence, Monitoring Specialists will enact the following *Standard Operating Procedures*:

1. Absence violations along with the parameters to determine how long an offender must be in violation before information is sent to the Monitoring Specialists will be determined by the City and each Participating Public Agencies
2. Alert notifications will be automatically generated after an offender has been on unauthorized leave for a certain period of time

3. A Monitoring Specialist will respond to the violation based on handling procedures outlined by City and each Participating Public Agency
4. The handling procedures, which are unique for each violation, will be displayed in the software to ensure consistency in responding to violations
5. The Monitoring Specialist will make a series of outbound calls to attempt to resolve absence violations
6. Calls will be made to an offender's residence and any alternate numbers listed, including cell phone, employment site, school, or aftercare numbers, to determine the reason for schedule noncompliance
7. If the offender is reached, the Monitoring Specialist will discuss the violation with the offender
8. If the offender cannot be reached, the Monitoring Specialist will follow City-determined processes, including continuing to attempt to reach the offender or escalating the alert to authorized personnel

Please see *Supplemental Support Services* on page 104 for additional information on BI's enhanced monitoring services solution.

BI Response to Agency Specifications

a) The Proposer's place of business and monitoring center services facilities used for this program shall be located within the United States of America. The Contractor's primary monitoring center shall be capable of uninterrupted operation 24/7/365. This shall include all systems, hardware and software, communications and building support services such as electrical power.

Electronic monitoring programs operate on a continuous basis. The City needs constant access to hardware, software, and service support to supervise offenders and pretrial defendants effectively. Since BI is a single source provider, agency personnel can contact Monitoring Operations 24/7/365 for prompt assistance on any BI technology—streamlining support services by providing the agency with a single point of contact. At any time, City personnel can contact Monitoring Operations via toll free-telephone number or email to receive real-time assistance.

In support of maximum system uptime and continuous support, all of BI's operations are in the United States and armed with multiple system redundancies. For example, The BI monitoring computer system incorporates internal, local, and geographic redundancies to help ensure full functionality of our proposed system. Technological redundancies provide comparable hardware and operating environments across multiple systems. If a component of our data center technology infrastructure malfunctions, the system engages a redundant component to provide an uninterrupted operating environment for end users.

Figure 3. Redundant Infrastructure

BI maintains two geographically redundant data centers with more than 1,000 miles of separation. Geographic separation protects monitoring data against factors beyond BI's control, such as natural disasters.

Our corporate office located in Boulder, Colorado, and our parent company office, located in Boca Raton Florida, also support BI's U.S.-based monitoring center. All BI locations, from ownership to operations, are based in the U.S.—other electronic monitoring providers are internationally owned and cannot make this claim.

b) The Proposer's monitoring center shall be monitored twenty-four (24) hours a day, seven (7) days a week, including holidays to ensure that any interruption in service is detected and resolved.

BI's Monitoring Operations Center is staffed and operated 24-hours a day, 7 days a week. Monitoring Specialists have around-the-clock access to internal systems, telecommunications, training, monitoring, management, and technical support staff.

c) Each monitoring center shall have ventilation and temperature control adequate to meet hardware specifications for the operating environment and to ensure proper functions of the monitoring center hardware.

BI's Indiana-based Monitoring Operations is housed in an updated, technically advanced facility that was built in in 2016. Capable of providing uninterrupted services 24/7/365, this state-of-the-art facility has ventilation and temperature control systems to ensure to proper functionality of all monitoring systems.

The center also has robust security features, training rooms equipped with workstations and projectors for both BI staff and our public-sector partners, a secured secondary data center, and a modern call center floor. This advanced facility ensures BI Monitoring Specialists have all the resources necessary to process alerts, troubleshoot equipment issues, and field officer inquiries.

d) The Proposer shall perform complete support of all interface hardware and software equipment (within the monitoring center) necessary to ensure provision of the service for the duration of the contract.

The BI monitoring computer system includes highly resilient hardware components, monitoring applications, and stringent security protections to ensure availability. We incorporate redundant power, telecommunications, and internet sources to help maintain data communication and connections.

BI will be fully responsible for maintaining and upgrading all interface hardware and software equipment to ensure the TotalAccess software and Monitoring Operations support hubs are fully functional and always available throughout the contract.

e) The Proposer shall maintain professional highly trained and qualified staff to monitor and operate the monitoring center equipment.

With the goal of maximizing system uptime, BI has qualified staff that are responsible for operating and monitoring the equipment within our data center. This team of more than one dozen Information System Engineers has an average tenure of nearly 14 years—evidencing their valuable knowledge and commitment to ensure BI's systems are always operational.

f) The Proposer shall provide the City a toll-free contact number, accessible and staffed twenty (24) hours a day, seven (7) days a week for the purpose of reporting problems that might be experienced.

Authorized City and Participating Public Agency personnel can contact BI Monitoring Operations via toll-free number 24/7/365. Knowledgeable, live Monitoring Specialists are present on a continuous basis in BI's Monitoring Operations facility. In the unlikely event a Monitoring Specialist is unable to resolve the inquiry, he or she will escalate the issue to a Team Lead, Supervisor, or other management personnel as appropriate.

g) In the event any component of the Proposer's service becomes inoperable, the Proposer shall immediately notify the Contract Manager or designee by telephone and email no later than thirty (30) minutes after discovery of service failure.

In the unlikely event of system inoperability, BI will notify the Contract Manager or other designated City personnel within 30 minutes of discovery.

h) When requested, the Contractor's monitoring center shall provide an initial response to pre-determined alarm notifications to troubleshoot and resolve the notifications per established protocols as agreed to by both the City and the Contractor by offender program type.

As a component of BI's enhanced monitoring services, Monitoring Specialists will proactively contact offenders in response to City-defined alarm notifications. During contract implementation, BI will work closely with the City and U.S. Communities Participating Public Agencies to develop standard procedures that guide Monitoring Specialists through the process of contacting offenders. These procedures will be highly customized to meet the specific monitoring requirements of the City, court-mandated monitoring conditions, or limitations associated with specific offender types.

Please see *Standard Operating Procedure: Contacting Offenders to Proactively Resolve Alerts* on page 256 for detailed information on this service.

i) When requested, the Contractor's monitoring system shall be responsible for alerting the City's designated officer via text, message, email, central database, and/or phone. The means or mode of contact shall be at the City's discretion. These services shall be provided twenty-four (24) hours per day, seven (7) days per week.

Upon receipt of violation information from the field equipment, the monitoring computer system can automatically page and/or email designated City personnel. These automated notifications specify the type of violation, the name of the corresponding offender, the date, time when the event occurred, and the date, and time when the monitoring system received the data from the equipment.

BI welcomes the opportunity to continue our long-term cooperation with the City and U.S. Communities Participating Public Agencies to ensure that the desired violation and notification protocols are fully incorporated in a new contract awarded from the RFP.

TotalAccess automatically escalates violation notifications to designated supervisory personnel, as designated by the City. BI will collaborate with authorized personnel to create customized contact lists for notification escalation purposes to specify the following:

- Which officers will be notified and in what order
- How each officer will be notified—by fax, email, page, text, or phone call with closed-loop notification procedures
- How long to wait between each designated notification
- Notification schedules that accommodate the availability of each specified officer

BI will notify officers or other designated agency personnel on a 24/7/365 basis.

j) As required by the City's designee, the Contractor shall provide a toll-free telephone number to be supplied to the City's supervised offenders which shall be utilized to contact the monitoring center for alarm notification resolution.

As a component of our supplemental support services, BI has the ability to provide a toll-free phone number to offenders to assist with proactive alert resolution. This capability is described in detail in *Alert Management Activities* on page 109.

k) The Contractor shall provide immediate notification via telephone, cellular telephone, text message, and/or email 24-hours a day, seven days a week to designated City staff when an alarm notification is generated. The contractor's monitoring service shall include the capability to administer a phone call by a live staff person in the monitoring center in response to designated priority alarm notifications.

As a highly flexible application, BI will continue to work closely with City and Participating Public Agencies to incorporate established alert notification and escalation processes into our proposed electronic monitoring software, TotalAccess. These processes will enable TotalAccess to automatically notify designated City personnel via email and text message on a 24/7 basis. Similarly, should the City or Participating Public Agencies require live notification from a Monitoring Specialist, BI will indicate such within TotalAccess. Please note that BI identifies live automated notifications as a "Supplemental Support Service".

Figure 4. BI Monitoring Services

BI's dual Monitoring Operations facilities—located in Indiana and Illinois—have the ability to provide a continuum of support services to officers and offenders.

l) The Contractor shall be able to receive a verifiable confirmation via a telephone call from the monitoring center to the designated City staff to confirm that all immediate alarm notifications were received/acknowledged by City staff. The Contractor shall be responsible to maintain a call tree to be utilized when contacting City staff to report alarm notifications pursuant to established protocols.

With the understanding that certain alerts and events are higher priority than others are, BI Monitoring Specialists can proactively call the City to confirm that staff have received and are in the process of resolving alerts.

During program implementation, BI will work closely with the City to create procedures that outline:

- Which alerts are high priority and require a live phone call notification
- The amount of time between the alert generation and live notification
- The individuals to contact—including escalation processes
- The amount of time to delay between contacting staff

BI considers this capability to be a "Supplemental Support Service" (as detailed in proposal section *Alert Management Activities* on page 109) for an additional fee.

m) The monitoring center shall have redundant inbound and outbound communication services, provided by distinct carriers and/or methods, such that the failure of the primary service or method shall not adversely affect the secondary (backup) service or method.

BI Monitoring Operations in Anderson has redundant inbound and outbound communication services, provided by multiple carriers and methods, ensuring continuous communication capability. Two separate long-distance carriers provide redundant phone line paths for equipment calls into the Colorado data center. Fiber and copper cable phone lines and data paths enter the building at different locations, providing last-mile redundancy.

In addition, diversely routed internet connection paths and different internet carriers support the BI monitoring computer system. Internet access at the primary data center utilizes multiple internet providers which are routed using an autonomous system number (ASN) backed by the BGP protocol. If the in-use provider should fail, other internet carriers will automatically pick up and route the public IP addresses. The ASN is independent of any single internet carrier, enabling the ASN to route the public IP address to any internet carrier participating in the peering relationship. The following table identifies current internet service providers in use by BI's primary data center.

Table 2. Internet Service Providers

Current Providers Used by BI's Primary Data Center			
Century Link	Level3	XO	Verizon
AT&T	MHO	Zayo	Comcast

In addition, BI's backup data center is equipped with three independent internet service providers for maximum redundancy.

n) The Contractor shall have the ability to write files to a server at the Contractor's site and shall allow the City to retrieve the files daily through a secure File Transfer Protocol (FTP) or other secure transmission method. The files will need to include the following information (items i-d addressed in table below)

BI has the ability to implement FTP and web services solutions to allow files and information to be securely distributed between City and BI systems. BI's web services solution currently accepts and exchanges data with several systems of other agencies, including those in use by the Administrative Office of the United States Courts and the North Carolina Department of Public Safety. This data exchange approach allows the City and BI TotalAccess to maintain accurate, consolidated data—for example, a list of offenders assigned to Probation and Parole Officers. Sharing data between BI and City systems enhances oversight of electronic monitoring equipment installation, deinstallation, and servicing. BI's web services solution obtains and processes information in near real-time to provide the City with the most current data possible. The following table demonstrates BI's ability to accept file transfers specific to the information requested in the RFP.

Table 3. Web Services Capabilities

RFP Requirement	Web Services
i. File 1—Alarm File	
1. The key file the Contractor uses to distinguish each alarm	✓
2. The type of alarm as defined by the City	✓

Table 3. Web Services Capabilities	
RFP Requirement	**Web Services**
3. The Identification number of the offender	✓
4. Date and time of the alarm	✓
5. Length of the alarm (until resolution)	✓
b. File 2—Comment File	
1. The key field the Contractor uses to distinguish each alarm	✓
2. Comments relating to the alarm	✓
3. Date and time of updates to the comments	✓
c. File 3—Alarm Cleared	
1. The key field that the Contractor uses to distinguish each alarm	✓
2. Date and time the alarm was cleared	✓
d. File 4—Points Reviewed	
1. The ID number of the offender	✓
2. The user ID of the officer reviewing the points	✓
3. Date the points were reviewed	✓
4. Dates of the points reviewed by the officer	✓

BI complies with the aforementioned conditions of file retrieval and will allow the City to access files daily. We offer both FTP files and API calls as options for secure transmission—**exceeding** RFP requirements.

2. Equipment to Be Provided By Contractor

Operating a variety of programs that use a continuum of hardware solutions can introduce complications and risk to larger electronic monitoring programs. As such, the City and Participating Public Agencies require a vendor to supply all equipment required to operate a successful Offender Monitoring Program.

As the incumbent, BI is positioned to maintain our fully operational system. The solutions we offer in this proposal include, but are not limited to: transmitters, base stations, receivers, tracking devices, bracelets, telephones and landline cords, batteries, power cords, clips, straps, tools, reference materials, specialty cleaning supplies, car chargers, Ethernet cables, and beacons.

Figure 5. End-to-End Solution

All of the equipment BI delivers includes the necessary accessories and tools to effectively install, adjust, remove, and charge our devices—simplifying inventory and consumable management.

a) In the case of equipment rental programs, all equipment provided by the Proposer shall remain the property of the Proposer and shall be in good repair, remanufactured and within specifications of new equipment. All equipment supplied shall be latest design and model equipment unless specifically requested by the City.

Within this proposal, BI offers rental program pricing. If the City or Participating Public Agencies decide to rent equipment, BI will provide the latest design of every requested item, inclusive of all one-time-use consumable items and necessary supplies for normal equipment operation. As indicated in our response to *Question 17* regarding testing and re-certifying equipment (see page 256 of this proposal), all devices BI offers to a renter will be in excellent condition and remanufactured to align with the latest software and hardware improvements.

b) For those offenders for whom monitoring is requested who reside in areas that have technical and/or geographical limitations, the Proposer shall provide either alternate technology or installation of a phone line at the residence at no extra charge to the City or the offender. If there is an identified limitation to the equipment functioning in a specific area, Proposer shall provide equipment that will allow the same function at the same price as equipment originally requested.

Alternative technology or phone line installation is necessary to monitor offenders who live in areas with technical or geographical limitations. As detailed by *Table 4*, BI's suite of products includes landline and cellular options for the following proposed categories of equipment:

Table 4. Landline and Cellular Communication Capabilities

Category	Landline Option	Cellular Option
GPS	LOC8 with Downloader ExacuTrack One with HomeBase 105	LOC8 (no receiver required) ExacuTrack One (no receiver required)
Radio Frequency	HomeGuard 200 or GroupGuard	HomeGuard 206 or GroupGuard
Alcohol *Breath Alcohol Solution*	Sobrietor	SL2
Alcohol *Transdermal Alcohol Solution*	TAD with HomeBase 105	TAD with HomeBase 110

The remainder of this section details the landline options for the proposed equipment categories. If necessary, and upon negotiated request, BI will coordinate the installation of a phone line to promote product effectiveness and offender compliance.

LOC8 and ExacuTrack One Landline Capability. In the event that a monitored offender spends a significant amount of time in areas with limited cellular coverage, BI will provide a landline downloader that will send GPS device data to TotalAccess via a standard landline telephone connection.

HomeGuard 200 Landline Capability. To best accommodate each offender's RF assignment, the HomeGuard 200 receiver reports equipment events, dates, and time stamps to TotalAccess via landline telephone connection.

Sobrietor Landline Capability. The Sobrietor reports all biometric voice verification data and breath alcohol test results to TotalAccess via landline connection. The Sobrietor can be used as a standalone breath alcohol-monitoring device or paired with a HomeGuard 200 for RF monitoring. In either scenario, only one phone line and one power outlet is required.

TAD with HomeBase Landline Capability. The TAD has the ability to operate in conjunction with a paired landline HomeBase receiver. The ankle-worn TAD continuously collects and records alcohol data internally. The TAD securely transmits alcohol data, curfew information, and equipment events to the HomeBase 105 receiver, which reports to TotalAccess via landline telephone

c) The equipment provided shall be of a technology currently in use by the manufacturer, proposer, or both and shall be identified by brand and model number in the Proposer's proposal.

BI manufactures all proposed equipment, and the equipment can easily be identified by every category. Please find all required information detailed in *Table 5.*

Table 5. Brand and Model of Proposed Equipment

Category	Brand, Model	OEM
GPS	BI LOC8 and Beacon	BI
	BI ExacuTrack One and Beacon	BI
Radio Frequency	BI HomeGuard Transmitter	BI
	BI HomeGuard 200, 206, and GroupGuard Receivers	BI
	BI Drive-BI	BI
Alcohol	BI SL2	BI
	BI TAD Transmitter	BI
	BI TAD Receiver (landline and cellular)	BI
	BI Sobrietor	BI

e) The equipment provided shall not be available as an open market item if this could compromise the security of the system.

As system security is a core tenant of our value proposition, BI confirms that none of the equipment included in our continuum of electronic monitoring products is available as an open market item.

f) Replacement equipment initially provided by the Proposer shall be new, or if not new, refurbished to perform in a like-new manner and shall be maintained by the Proposer in "like new" condition. Repairs and/or replacements shall be provided within the timeframe specified in this RFP.

BI is the Original Equipment Manufacturer (OEM) of all proposed equipment, which allows us to provide our customers with reliable products and associated support services. BI certifies that all equipment provided under the ensuing contract will be either new or in like-new conditions.

Our engineers continually improve and upgrade our products and have recently developed an upgraded strap and hinge assembly for the LOC8 to minimizes false tamper alerts. Whenever other enhancements are made, our organization will provide the City and Participating Public Agencies with the latest firmware upgrades and design enhancements.

The BI Internal Operations Department produces high quality units that are validated by 24/7/365, in-house support. Additional key aspects of our equipment maintenance and support include the following:

- BI Manufacturing is ISO-certified and incorporates stringent quality protocols
- As needed, BI will service and/or replace defective units within 48-72 hours—working closely with the City to ensure that there are no interruptions to program operations
- BI Engineers design, develop, and support our continuum of products—which includes responding to and researching technical issues as needed
- BI Monitoring Operations provides 24/7/365 technical support—which includes an established, tier-based escalation process to promptly resolve technical questions
- BI Monitoring Operations can be reached at any time via a toll-free business telephone number, email, and/or fax

g) In the case of a rental program, the Proposer is responsible, at no additional cost to the City except as provided in the RFP and resulting contract, for the maintenance, repair or replacement of all equipment or software provided under the contract. The Proposer is responsible for all costs for shipping, shipping materials and delivering equipment to, from, or between any City offices located within Colorado.

BI offers both a rental and purchase program in our *Pricing Proposal* on page 155. Regarding the rental program, we agree to be responsible, at no additional cost to the City (except as provided in a resulting contract), for the maintenance, repair, or replacement of all provided equipment and software. The City will not be responsible for any costs related to the shipment of materials or equipment to, from, or between any City offices located in Colorado.

h) In the case of a rental program, in the event that any of the equipment or software provided under the contract fails to function properly, or is lost, stolen or damaged, the Proposer(s), at no additional cost to the City, shall deliver a replacement component or components to the designated City office within 48-72 hours of notification by City, if requested by the City. The City will notify the vendor when a piece of equipment is lost, stolen or damaged. This determination is at the sole discretion of the City. City and its client departments will make reasonable efforts to deter the theft, loss or damage to the Proposer's equipment. The City is not responsible for the cost of lost, stolen or damaged equipment.

In the unlikely event that any of BI's supplied equipment or software provided under the contract fails to function properly, or is lost, stolen, or damaged, we agree to deliver replacements within 48-72 hours of notification by the City, at no additional cost. BI agrees that the City maintains the authority to determine if equipment is lost, stolen, or damage. Furthermore, BI agrees that the City will not be held responsible for the cost of lost, stolen, or damaged products.

i) Upon request from the City, when the City activates equipment that has been in shelf stock, the Proposer shall deliver to the designated district office a replacement component or components within 24-hours of notification by City.

BI will offer a shelf allowance to ensure that all equipment and components can be replaced by the City. This inventory supply allows officers to immediately replace damaged devices or add new subjects to the Offender Monitoring Program. BI will replace items pulled from inventory within 24-hours.

j) The Proposer shall provide, at no additional cost to the City, all necessary tools and as many needed per officer or district office to install, adjust, and remove the Proposer-provided equipment. City will notify the Proposer on the number needed.

BI will supply ample electronic monitoring equipment and tools, as depicted in *Figure 6,* to be used by the City at its designated locations to conduct product installations, removals, and adjustments. BI will maintain and guarantee every unit at no cost to the City or Participating Public Agencies. Similarly, BI agrees to phase out and replace units upon advancement of our technology.

Products Requiring Fitting and Installation

An officer or district office can install BI's equipment as follows:

LOC8. Installing a LOC8 tracking unit on an offender takes less than five minutes. The installation process includes the following steps:

1. Measuring the offender's ankle using the BI-provided sizing tool
2. Cutting the tracking unit strap accordingly—ensuring a snug fit against the offender's ankle
3. Attaching the tracking unit to the offender—insert the strap into the tracking unit case and lock the unit in place by securing the tamper-resistant latch clips

Figure 6. BI Provided Toolkit
BI will provide all tools to the City and Participating Public Agencies at no additional cost.

ExacuTrack One. With minimal training and tools, authorized personnel can easily install an ExacuTrack One tracking unit on an offender. The installation process includes the following steps:

1. Sizing for proper fit
2. Securely attaching the tracking unit around the offender's leg and inserting the locking mechanism—no tools are necessary

HomeGuard. Authorized personnel typically install a HomeGuard transmitter in less than five minutes. The installation process includes the following steps:

1. Assembling the transmitter
2. Sizing for proper fit
3. Attaching the transmitter to the offender's ankle
4. Closing the tamper-resistant latches

TAD. This device measures ingested alcohol through a sensor resting securely on the offender's ankle. Because TAD is ankle-worn and easy to install, it removes the complexity associated with many handheld breath alcohol-testing devices. Offender enrollment in the software is simple and does not require any initial testing, training, or participation. The installation process includes the following steps:

1. Sizing for proper fit
2. Securely attaching the tracking unit around the offender's leg and inserting the locking mechanism—no tools are necessary

The other products, services, and solutions BI offers within this proposal do not require installation on an offender's person.

k) All equipment proposed and provided shall equal or exceed the latest industry standards unless specifically requested by the City. During the life of the contract, and with the prior approval of City, the Proposer shall upgrade equipment as significant improvements become available. These upgrades shall be provided at no extra charge/additional costs to City.

BI's team of professionals focuses on supplying equipment that establishes the highest industry standards on a daily basis. We identify ourselves as the leading provider of integrated service and technology solutions that support the missions of our public-sector partners. With innovation as a cornerstone of our organization, we constantly translate ideas into effective solutions that exceed the expectations of our agency partners—at no extra charge to established contract rates.

Often, our new product and service releases re-set the standard of operational capabilities in the electronic monitoring industry. As we continue to support the evolution of Offender Monitoring Programs with the most advanced solutions, our competition is often left with no option but to imitate.

The City and Participating Public Agencies can rely on the pioneering culture of our organization to deliver the most capable and compliant equipment and services with consistency. BI Labs, the cradle of our company's innovations, constantly pursues new avenues to deliver the most advanced technology solutions to our partners. They currently are prepared to improve BI's continuum of solutions to enhance the City's program by upgrading our primary mobile breath alcohol-monitoring device. In addition, they anticipate releasing the most advanced RF product during the expected contract term.

Product Deployment Plan

All newly developed equipment offered to the City must pass BI's New Product Deployment Plan, which consists of the following steps:

1. BI receives suggestions from officers and conducts market research through BI Labs and other internal hardware experts regarding new product functionality. BI thoroughly vets the feasibility and application of these features.
2. BI Product Managers develop a *Marketing Requirements Document* that contains details about how the new product will function and interface with BI's larger systems. This document also details the minimum mandatory specifications of the product.
3. The product is manufactured and enters alpha testing. Once alpha testing is complete, the product enters the beta testing phase. BI requires beta testing to be complete before the product is released to the field. During beta testing, the following actions occur:
    a. BI notifies the agency that a new product release is imminent.
    b. We develop field manuals and training curricula for eventual deployment.
    c. Equipment is refined based on field staff and tester feedback.

4. After the successful completion of beta testing, BI begins the manufacturing process.
5. BI trains internal personnel, including Monitoring Operations personnel, on new product features, troubleshooting, and maintenance. During this phase, BI also trains officers and agency personnel.
6. Product deployment occurs only after all previous mentioned steps have been completed. Prior to deploying a new product, BI will work with agencies to develop and implement a contract modification to include the new product in the existing contract.

While most of our equipment receives over-the-air firmware upgrades, BI will upgrade, repair, and replace equipment to incorporate hardware enhancements or industry standard improvements in the manner detailed in *Item f)* on page 20.

l) At no additional charge and upon request by the City, the Proposer shall furnish for each system in operation three (3) spare units for every ten (10) units, with a minimum of five (5) units for shelf stock, per location.

BI will furnish the City three spare units for every 10, with a minimum of five units for shelf stock, per City designated location for each electronic monitoring system offered at no additional charge.

m) The equipment provided shall be Federal Communication's Commission (FCC) currently registered and approved.

Please refer to *Table 6* to view the FCC Certification numbers for the devices BI proposes to support the City's Offender Monitoring program.

Table 6. FCC Certification of BI Equipment

Category	BI Device	FCC Certification
Radio Frequency	BI HomeGuard Transmitter	CSQHG200A
	BI HomeGuard 200 Receiver (cellular and landline)	GN7USA-27502-MD-E
	BI HomeGuard 206 Receiver (cellular and landline)	GN7USA-27502-MD-E
	BI GroupGuard	GN7USA-27502-MD-E
Alcohol	BI SL2	R17DE910 Dual
	BI TAD Transmitter	CSQTAD001
	BI TAD Receiver (landline)	GN7MM01B-HB-100
	BI TAD Receiver (cellular)	GNU7MM00B01-EX-520
	BI Sobrietor	GN7USA-27124-MD-E
GPS	BI LOC8	CSQ-LC800A
	BI LOC8 Beacon	TLZ-CU288

Table 6. FCC Certification of BI Equipment

n) The contractor shall provide written instructions and all necessary equipment for a trained person to initialize, reset and remove the participant's transmitter as needed.

The City and Participating Public Agencies will receive written instructions and all necessary equipment for installation, initialization, reset, and removal of transmitters on offenders. In addition, BI will offer training sessions to the City's officers and authorized personnel during contract implementation. BI's national team of Account Executives are responsible for account support and business development on a local level, and will provides hands-on assistance and training at City and Participating Public Agency locations throughout the contract term, upon request.

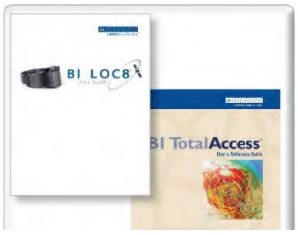

Figure 7. Written Instructions

Comprehensive manuals assist authorized personnel with ensuring they fully understand BI's technology.

3. Accessories

By contracting directly with an OEM, the City and Participating Public Agencies receive a simplified and accelerated program management approach. BI will deliver all services and equipment through a direct, uninterrupted line of communication.

BI Manufacturing handles the manufacturing processes for all of our monitoring equipment and accessories at our corporate location in Boulder, Colorado. Manufacturing strictly adheres to quality assurance processes to maintain a high quality of production. Managed by Gregory Wilson, the Manufacturing Department has an average tenure of five years.

As the OEM for all electronic monitoring units proposed herein, BI has the flexibility and capability to manufacture and process the equipment and accessories in the quantities required or in larger quantities if the City's needs expand during the course of the contract. Our in-house manufacturing facility can produce high volumes of units in a short time.

As a significant benefit of our proposed solution, the BI TotalAccess software includes integrated and interactive inventory management features. We currently use TotalAccess to help manage the City and Participating Public Agencies' equipment inventory—including by agency, division, district, and county as applicable—to produce corresponding reports.

a) All accessories, including replacement batteries, straps, waist packs, carrying bags, clips, beacons, and other related supplies necessary for proper operation shall be provided by the Proposer at no additional cost to the City, throughout the term of the contract. Install and deactivation tools/equipment shall be provided to the City at no additional cost throughout the term of the contract.

BI will provide all required equipment and services necessary to implement and maintain the Offender Monitoring Program and equipment, including backups, spares, and accessories at no additional cost to the City. Our solution includes an inventory application that provides an accurate report of all equipment and accessories assigned to the City. The inventory software will identify items not in use as "shelf stock" or a term acceptable to the City. This inventory database identifies:

- Equipment/Accessory Name and Type
- Serial Number (when applicable)
- Offender Name (if assigned)
- Total Number of Equipment Items on Inventory

Inventory Management Reporting Capabilities

As an example of our reporting capabilities, the Inventory Analysis Report includes item names, serial numbers, assigned offenders, active units, shelved units, and total items on inventory. Other usage reports include duration of use, case IDs, current active days monitored by offender, and active days for a specified time.

The following page provides an example of our inventory reporting capabilities.

Figure 8. Inventory Analysis Report

4. Proposer Representative

BI's Program Manager, Mr. Laurent Lepoutre, will act as the single point of contact for all City inquiries, including training questions, status updates, administrative duties, and overall Offender Monitoring Program health. Mr. Lepoutre will conduct status meetings in person or via teleconference at the direction of the City. In addition, Mr. Lepoutre will meet with the City onsite throughout the life of the contract to address any programmatic concerns and provide continual communication with officers, supervisors, administrators, and all other applicable personnel.

In fulfilling the role as Program Manager, Mr. Lepoutre is supported by the entire BI organization. BI experts are available to the City to address issues and improvements throughout the life of the contract. Mr. Lepoutre will remain in close contact with BI's entire organization, including engineering, billing, manufacturing, and training.

a) The Proposer shall provide City a minimum of a single account representative who will serve as a liaison for all aspects of contract performance. All aspects shall include but not be limited to, reporting, equipment inventory, training, contract transition and the install program. The representative shall be familiar with the City's policies, goals and services. The representative shall be knowledgeable in the area of Community Corrections, i.e. parole, probation, pretrial, in-home detention, work release, etc. The representative shall be proficient in and have a working knowledge of all functional areas and services. City would prefer a team approach, consisting of an account representative, inventory management representative and a training representative. City shall not provide any office space or storage space.

BI will support the City and each Participating Public Agency using the team approach illustrated in *Figure 9*, with BI's Business Development Director assuming the role of an account representative.

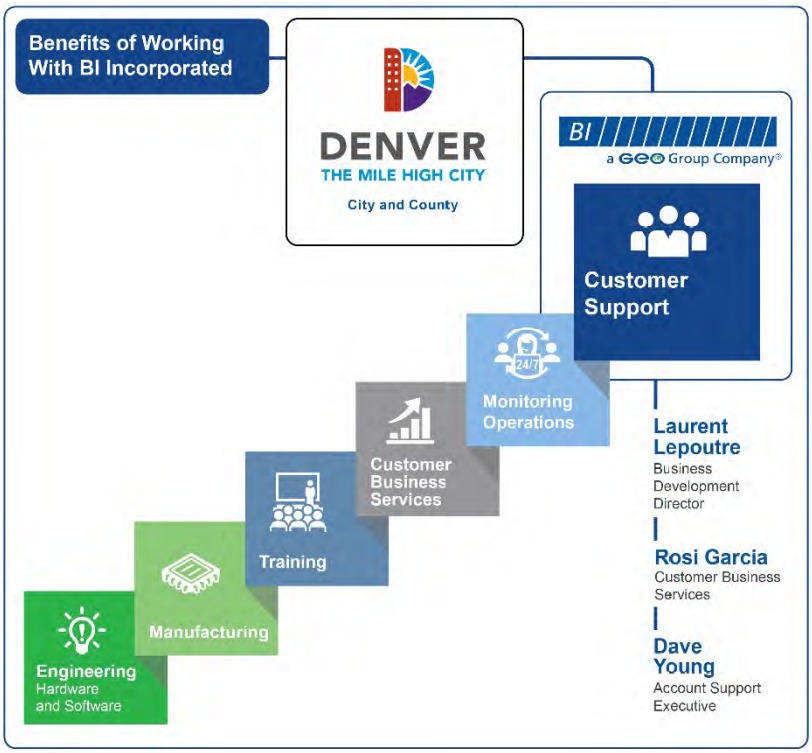

Figure 9. BI's Team Approach to Account Management

While the diagram above depicts the account representative personnel BI offers the City and County of Denver, every Participating Public Agency will receive an equivalent team approach consisting of a Business Development Director, Account Executive, and Customer Business Services.

The following is an introduction to BI's account representative team for the City:

- Mr. Laurent Lepoutre, our Rocky Mountain Business Development Director, is currently assigned to the City and will continue to fulfill all account representative responsibilities, as he is familiar with the City policies, goals, and services. Not only is Mr. Lepoutre conversant with Community Corrections, but he is also knowledgeable in all functional areas and services provided by BI. We are confident Mr. Lepoutre will exceed all expectations as liaison for all aspects of contract performance between the City and County of Denver and BI.
- Ms. Rosi Garcia, a tenured veteran of our Customer Business Services team, will focus on supporting the City's inventory management needs. Ms. Garcia currently manages the City's inventory, return of equipment, and lost equipment. With experience establishing new customer start up programs, ensuring timely product delivery, and collaborating with Manufacturing/Shipping on product availability, Ms. Garcia is an invaluable asset to every agency she supports.
- Mr. Dave Young, BI's Rocky Mountain Account Executive will assume the responsibilities of a training representative who provides training, demonstrations, and assistance with the implementation of any projects related to the City and County of Denver. Mr. Young's areas of expertise include developing and delivering presentations and training on the usage of BI products, assisting with the implementation of new monitoring programs, ensuring customer satisfaction, and identifying practical applications for electronic monitoring services.

The comprehensive involvement from BI's team helps ensure ongoing customer satisfaction, administrative and fiscal management of the program, the assurance of BI compliance with contract requirements, and the coordination and delivery of equipment and services.

The City and each Participating Public Agency will be supported by a collaborative BI management and operations team with extensive experience working with corrections agencies. Our personnel are proficient in developing, improving, and delivering electronic monitoring solutions to the corrections community.

Figure 99. City and County of Denver and U.S. Communities Organizational Chart on page 253 depicts the organizational structure and titles of those who will serve the Offender Monitoring Program on a local level and national level. *National Staffing Plan* on page 218 defines BI's proposed staff distribution to implement and manage this contract and Master Agreement throughout its term.

5. Offender Monitoring System Operation

Devices designed to monitor offender compliance in the community are unique from other technologies that are available today. Devices must be compact to minimize impact on the offender's daily activities, while robust enough to withstand wear and tear and potential tamper attempts. Equipment needs to operate in all types of environments (rural and urban), but also not be impacted by other electrical equipment or signals. Similarly, electronic monitoring hardware should be able to communicate all events and data to the central monitoring computer—via landline or cellular connectivity—to ensure appropriate alerts are directed to defined City personnel.

BI designed each of our proposed electronic monitoring devices with these intricacies and reliability needs in mind. This portion of our proposal demonstrates how our equipment operates normally in all environments, detects attempts to tamper with equipment, escalates notifications, and communicates other events to the BI central monitoring computer.

a) The monitoring equipment shall function reliably despite the nearby operation of household electrical equipment or the existence of nearby strong, but not uncommon, electrical fields generated by such sources as power transmission lines, power transformers and commercial radio towers. If a device is worn by the offender, or if a receiver is installed in the offender's home, it shall function reliably in any building and offer a continuous signal and shall work with any type of phone line.

BI designed all of our proposed equipment to monitor offenders involved in the criminal justice system and to function reliably in a wide variety of environmental and atmospheric conditions. This includes the ability to function regardless of the nearby operation of household electronic equipment or electrical fields generated by power transmission lines, power transformers, and commercial radio towers.

Our body-worn devices continuously emit signals and function reliably in any type of building. BI receivers installed in offender homes can be connected to any type of phone line—and we also offer a receiver model with cellular communication capability. BI equipment uses a noncommercial frequency (314.2 MHz) to communicate equipment data—significantly decreasing the likelihood of duplication of, or interfere with, the transmission signal.

As BI is the incumbent contractor, our monitoring equipment has proven to operate effectively and consistently throughout the City and County of Denver.

b) The removal of strap by a deliberate action, accidental action or any action that otherwise compromises the integrity of the strap shall immediately generate an alarm that is immediately transmitted to the Proposer's Monitoring Center. The strap shall have a dual tamper capability. The transmitter shall notify the receiver of any tampering.

All of the devices BI includes in this proposal have the ability to detect and report various tamper events, some of which **exceed** RFP requirements. When a transmitter tamper occurs, the transmitter continuously emits a tamper signal. Our equipment is secured on offenders' ankles using an interlocking latch system, which typically produces noticeable physical evidence, upon visual inspection, of an offenders' attempt to tamper with the latch and/or open the transmitter case or strap.

As further specified by the table below, our body-worn devices incorporate dual tamper detection to promptly detect strap removal, damage, or other offender attempts to compromise the device.

Table 7. Tamper Detection for Body-Worn Devices

BI Device	Strap Tamper	Proximity Tamper	Case Tamper	Motion Detection
HomeGuard RF Transmitter	✓	✓		

Table 7. Tamper Detection for Body-Worn Devices				
BI Device	**Strap Tamper**	**Proximity Tamper**	**Case Tamper**	**Motion Detection**
LOC8 GPS Device	✓	✓	✓	✓
ExacuTrack One GPS Device	✓			✓
TAD Transdermal Alcohol Device	✓	✓	✓	✓

The body-worn devices promptly communicate this tamper information to the BI monitoring computer system as follows:

- **HomeGuard Transmitter** communicates to the receiver when in range, and the receiver promptly sends information to the monitoring system via landline phone or cellular connection.
- **LOC8 and ExacuTrack One** promptly sends tamper information directly to the monitoring system via cellular connection—regardless of the next specified call-in time.
- **TAD** communicates curfew and alcohol data to the HomeBase receiver, which sends all monitoring data to the BI computer system via landline and cellular connectivity.

c) The System shall escalate the violation notifications to designated supervisory personnel as specified by City.

BI Monitoring Operations provides 24/7/365 technical support—which includes an established, tier-based escalation process to promptly resolve questions, alert violations, and ensure our field devices are properly functioning.

We suggest the City and Participating Public Agencies create and customize contact lists, including options regarding alert notification and escalation. BI's superior monitoring environment permits the City and agencies to assign multiple notification contacts to a specific alert. In addition, authorized TotalAccess users have the ability to create contact lists for notification escalation that specifies:

- Designated City contacts
- Method of contact (fax, email, page, or text)
- Number of attempts required to contact each person
- Time interval between contact attempts
- Appropriate hours to contact City personnel

d) Equipment shall initiate the sending and receiving of signals through standard telephone lines across the City and County at no cost to the City or offender. Proposer shall ensure that the system allows communication only with authorized receiver/transmitter devices.

All of the signals sent and received through standard telephone lines will be provided at no additional cost to the City, Participating Public Agencies, or offenders. BI guarantees that communications remain dedicated to authorized receiver/transmitter devices.

6. Central Computer Monitoring System

BI TotalAccess is a comprehensive, easy-to-use, web-based software platform that supports the full BI continuum of GPS, RF, Voice Identification, Alcohol Monitoring, Supplemental Support Services, Smartphone Application, and Data Analytics software, and technologies. Authorized City personnel can utilize TotalAccess as a single, consolidated software suite for all monitoring tasks—users do not need to toggle between multiple interfaces for different equipment types. Accessible from any web-enabled device, TotalAccess places critical program data in the hands of agency personnel—regardless of location.

Figure 10. BI TotalAccess

BI TotalAccess is a single software platform that allows City personnel to manage their entire electronic monitoring caseload. From any web-enabled device, users can view program information, manage alerts, or perform any number of other tasks.

Housed in BI's highly secure and redundant data centers, we designed TotalAccess to be always available, secure, and robust to support City programs that operate on a continual basis.

The Proposer's central monitoring service center shall include a central computer system, compatible software and all the needed equipment that is capable of complete supervision of the electronic monitoring program with complete redundancy as defined below. This includes receiving and initiating communications to/from the participant's home and to communicate with both the participant and his home monitoring equipment. The system redundancy shall meet the following requirements:

BI's solution includes TotalAccess electronic monitoring software housed in BI's data center and Monitoring Operations facility. The foundation of BI's solution is the server architecture that hosts the TotalAccess application. TotalAccess is a completely web-based system that will be hosted on BI-maintained servers. Our solution automatically communicates with equipment located in the offender's home.

The BI monitoring computer system consists of Dell Rack-mountable (R) servers that use Microsoft Windows Server as the operating system (OS) and Microsoft SQL Server as the database management system (DBMS). BI houses servers in our highly secured data centers located in Colorado and Indiana, providing more than 1,150 miles of geographic redundancy.

a) The central computer system with all associated equipment and services shall be located in a secure, environmentally controlled access facility and provide 24-hour, seven day per week monitoring.

BI's data centers use digital and physical security measures with the understanding that continuous 24/7/365 monitoring service is critical to the missions of our public-sector partners.

Digital Security Measures

The BI monitoring computer system incorporates a variety of security protocols to protect the monitoring computer system and ensure that only authorized individuals can access offender and program data. This includes the following:

- *DMZ and Firewalls.* In computer security, a demilitarized zone (DMZ) isolates servers that access the Internet from the internal network servers that contain monitoring data.
- *TLS Technology.* BI uses Transport Layer Security (TLS) technology to authenticate and encrypt the communications between end-user computers and TotalAccess.

- *Antivirus Software.* The monitoring system automatically receives software updates and implements new signatures on a constant basis. In addition, we receive security patches from third-party hardware and software vendors. We first review and test all security patches, and then apply them to the live monitoring system on a priority and timely basis in accordance with identified risk.
- *Intrusion Detection.* The monitoring system incorporates an intrusion prevention system (IPS) that monitors network traffic for any security breaches or malicious activity. We also use a separate intrusion detection system (IDS) to further examine network traffic and help detect and prevent hacking and other malware threats.
- *Record of User Activities.* The monitoring system incorporates a security log that records user login and log-out activities—including all changes made to monitoring information within the system.

Physical Security Measures

BI securely maintains our servers in restricted areas. Authorized personnel with the proper security clearance must use an access card to enter the server rooms. Each server room contains multiple security features—including interior and exterior cameras and alarms—and BI System Administration staff are onsite and/or on-call 24/7/365.

BI data and Monitoring Operations facilities are monitored continuously by a closed-circuit security system—with security cameras placed in strategic areas. Outside lights illuminate facility exteriors and parking lots.

For further protection, our data centers incorporate smoke detection equipment, FM-200 fire suppression systems, redundant cooling systems that maintain proper temperature and humidity levels, and sensors to help prevent water damage. We use Microsoft System Center Operations Manager (SCOM) to actively monitor these systems and the server rooms. If an abnormal or critical condition occurs in the server room environment, the SCOM system automatically and promptly alerts System Administration staff. In addition, System Administration regularly runs and reviews system analysis reports to track operational trends and proactively identify potential issues.

b) The central computer system shall have the ability to perform monitoring with an unlimited number of different curfew periods per day and on a customized schedule for each participant.

TotalAccess is capable of supporting an unlimited number of curfew periods per day and supports customized schedules for every offender monitored by the City. Curfew schedules can be modified down the minute for each offender monitored in TotalAccess.

In addition, TotalAccess supports the ability to create unique curfew periods with different curfew schedules for each day of the week, for each offender. For example, officers or authorized City personnel can create a commonly used weekly schedule and apply this schedule to multiple offenders in their caseload. Once a schedule has been applied to an offender, it can easily be changed to accommodate the offender's personal conditions. For instance, a weekly schedule could be quickly modified if the offender has a court hearing or substance abuse treatment—**exceeding** RFP requirements.

c) The central computer system shall be capable of retaining personal information for each participant. The Proposer shall also provide a means to enter, modify or delete any of this information by the system operators as requested by designated City officials or staff.

Through TotalAccess, the City and Participating Public Agencies can create, delete, and modify the offenders' personal information identified in *Figure 11* at any time.

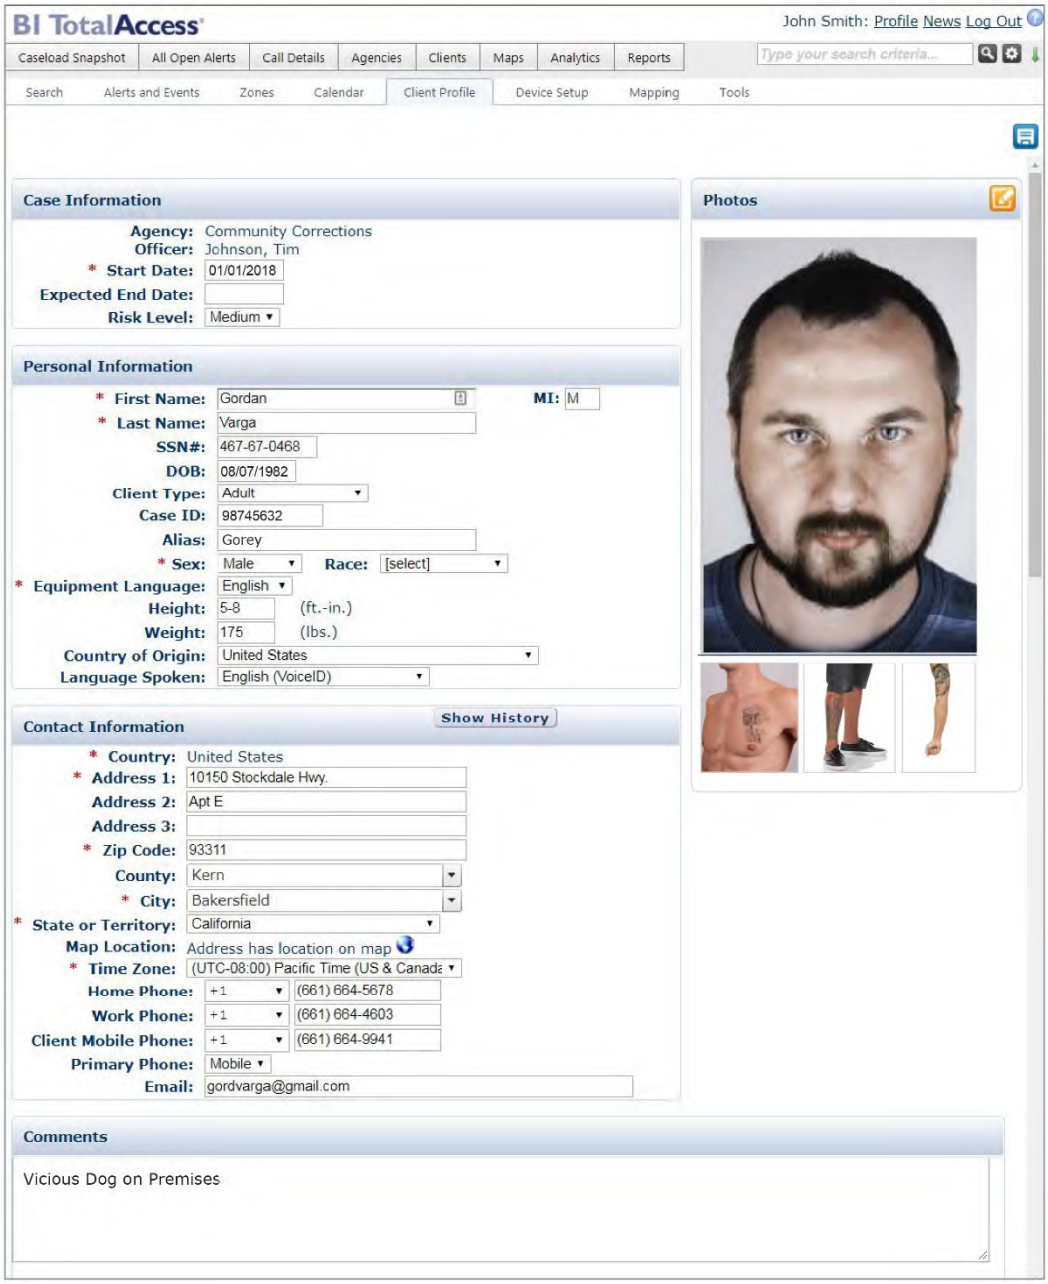

Figure 11. Modifiable Offender Information
Within the Offender Profile, each offender account has multiple fields to record personal information and a "Risk Factors" section that an officer can designate specific risk factors associated with each offender.

d) The computer system shall be able to process changes, report printing and other functions without disrupting the monitoring process. It shall have an interconnect capability for all equipment for remote printing to the City central communications unit as required.

BI's computer system is able to process changes, report printing, and other functions without any disruption to the monitoring process. Our solution has interconnect capability for all equipment for remote printing to the City.

e) The contractor shall provide an uninterruptable power supply (UPS) for an instantaneous backup power source to prevent the loss of information and data in event of short-term commercial power losses.

Separate and Redundant Power Sources. Commercial power, dual Uninterruptible Power Supply (UPS) systems, and generators support each monitoring computer server. The dual UPS design minimizes any downtime associated with a single UPS failure. If commercial power is lost, the UPS system maintains server power until the generators start supplying power. The multiple generator backup power system is designed to operate indefinitely.

Power Surge Protection. The BI monitoring computer system is fully protected against power surges. In our data centers, power is conditioned and protected as it passes through a Transient Voltage Surge Suppressor (TVSS) device, the Uninterruptable Power Supply (UPS) systems, surge-protected power distribution units (PDU) in the server racks, and then into the servers themselves. In addition, the computers used by BI Monitoring Support Specialists within BI Monitoring Operations incorporate UPS to monitor and clean power.

Figure 12. Backup Power Generators

BI's onsite diesel power generators can supply power in case of a long-term loss of power.

f) The contractor shall provide for an automatic backup of data on magnetic media for any commercial power loss. This backup procedure shall also be performed at least on a daily basis to prevent data loss due to a system failure and be retained for at least one (1) year.

BI will maintain all subject, equipment, and monitoring information permanently in TotalAccess. BI will maintain historical data on backup tapes. Authorized City personnel can view all programmatic information, including all notifications and events, at any time from any web-enabled device through TotalAccess or by calling BI Monitoring Operations.

BI's data retention systems, policies and procedure meet or exceed the standards outlined in the *RFP*. BI incorporates the following practices into our backup strategy that we believe will meet the operational needs of the City:

- All information housed in TotalAccess is backed up regularly. BI performs incremental backups twice daily, and a full database backup is performed weekly
- BI's automated incremental backup of all newly modified data runs twice daily. We do incremental twice a day that **exceeds** this requirement
- As a multi-tenant solution, TotalAccess replicates data across multiple server cluster is different geographic locations. In total, BI maintains the information in the TotalAccess database across four different server clusters. BI retains weekly backups for one month

As proof of BI's ability to retrieve data stored on our backup servers, in April of 2015, during a data center migration, we restored a full copy of the TotalAccess database. Our system administrators, using SQL replication and mirroring, restored the backup data. This established process allowed BI to transition operation in a new data center and validate our backup and restoration procedures.

BI certifies that all data generated by the City's program—including backup and archive information—will be housed and accessed from within the United States and retained for at least one year.

g) The contractor shall provide a complete identical backup computer system redundancy in the event of a system malfunction, which cannot be corrected within a reasonable period of time. Specify complete addresses of both primary and redundant systems.

To ensure system integrity and security, BI invests in heavily redundant monitoring computer systems. Technological redundancies provide comparable hardware and operating environments across multiple systems. In the unlikely event a component in our data center malfunctions, the system engages a redundant component to provide an uninterrupted operating environment for end users.

Our fully redundant monitoring system includes a primary production server cluster and two backup servers. We maintain the primary server cluster and an on-site backup server in an Aurora, Colorado location; a second backup server resides within our Monitoring Operations facility in Anderson, Indiana. All monitoring system data is replicated across these separate servers in real-time.

As part of our established *Disaster Recovery Plan*, we continuously maintain the following redundancies:

- Internal Redundancy. Each server incorporates a Redundant Array of Independent Disks (RAID10) subsystem that stores data across a set of hard drives. The RAID10 configuration provides the best fault tolerance for disk configurations. If a drive fails, the server continues to function while the faulted drive is repaired or replaced.
- Local Redundancy. In our Aurora location, the primary monitoring system is set up in a cluster configuration that includes two primary servers. The primary server cluster and an identical hot backup server utilize a shared disk backend. All data is mirrored in real-time from the primary server cluster to the immediate local backup server. In the unlikely event of a primary server cluster issue, the backup server automatically takes over—with no interruption or loss of data.
- Geographic Redundancy. All data is mirrored in real-time from the primary server cluster in Aurora, Colorado to the second backup server in Anderson, Indiana. If the monitoring system in Aurora became unavailable, the backup server in Anderson would function as the primary server for as long as needed.

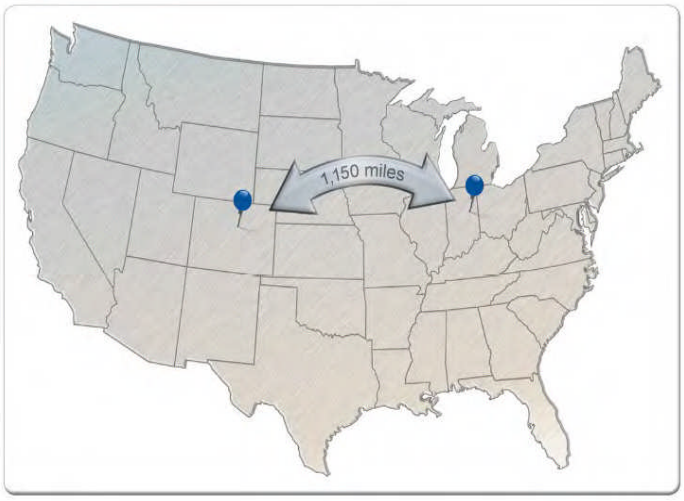

Figure 13. Geographic Redundancy
BI's geographically redundant server architecture is a key component of our Disaster Recovery Plan that supports optimal uptime and availability.

h) The contractor shall have the ability to provide access to the central computer system by remote PC computer terminals. Access by City shall be made by the Proposer's toll free telephone lines and/or optional alternate communications service.

Optimized for multiple browsers, (Google Chrome, Internet Explorer 11, Microsoft Edge, or Apple Safari), authorized users can access TotalAccess remotely from PCs or tablets. Users simply go to https://www.bi.com and enter their unique username and password to securely login to the TotalAccess interface. Smartphone users can use the TotalAccess Mobile application available free on both iOS and Android platforms. City staff will also have access to a live customer support representative via a toll free 1-800 phone number 24/7/365.

i) The contractor shall provide a redundancy for its telephone carrier and be capable of immediately switching to an alternate in the event that the primary service is interrupted.

The Monitoring Operations center has sufficient telephone lines to handle all incoming and outgoing calls; on average, our staff answer incoming calls in less than 10 seconds. We use two separate long-distance carriers to provide redundant phone line paths for equipment calls into our data center; if the primary carrier is down, units will automatically failover to the backup carrier. In addition, once BI is aware of an issue with one of the carriers, we can reconfigure our telephony to use the other carrier automatically. All phone lines and data paths are brought into our data center at different entry points, which provides last-mile redundancy.

We use a Virtual Private Network (VPN)-backed Multiprotocol Label Switching (MPLS) data line between our data center and the BI Monitoring Operations facility. This provides significant bandwidth for monitoring system access, as well as data replication.

7. Central Computer Monitoring System Software

Designed for maximum flexibility and usability, TotalAccess provides City personnel with 24/7/365 access to all electronic monitoring program data. TotalAccess is highly customizable, capable of sending automated notifications in accordance with City procedures, and includes more than 40 predefined reports. Additional advantages and features of TotalAccess include:

- **Useful Reports.** TotalAccess includes a multitude of standard reports to help the City review offender activities, alert summaries, and caseload statistics. TotalAccess reports provide critical information on a variety of program metrics—including inventory levels and program trends.
    - TotalAccess status reports include compliance information—such as number of tampers generated, Inclusion and Exclusion Zone violations, and equipment usage. With multiple designations available within the software, TotalAccess allows City personnel to indicate why an offender was terminated from the program—for example, successful, unsuccessful, and administrative discharges.
- **Alert Notifications.** Automated alert notifications allow the City to respond to critical situations in a timely manner—enhancing public safety and driving offender compliance. TotalAccess also prioritizes alerts to direct officer priorities and increase efficiencies. From within the software, City personnel can view, process, and close alerts; view the current status and the history of alerts and events; and note trends in offender behaviors and compliance.
- **Virtual Security Measures.** Web-based information systems must securely maintain sensitive data. BI does not compromise on data security and protection. TotalAccess incorporates various protocols at the user-level that comply with industry standards—including password expiration, maximum login attempts, and forgotten passwords.
- **User-Friendly Interface.** TotalAccess allows authorized personnel to maximize their time by quickly navigating the system. TotalAccess is easy to learn and requires minimal training. Since TotalAccess is a consolidated platform that supports all BI equipment, the City does not have to learn how to navigate multiple systems.

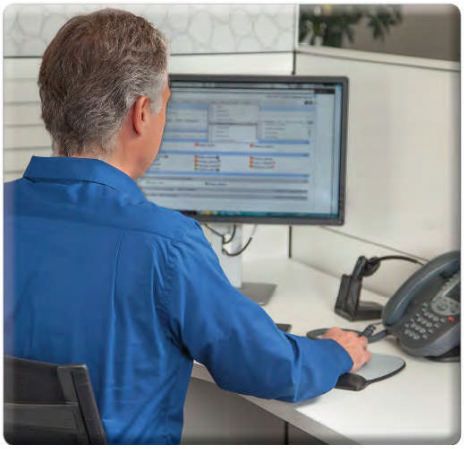

Figure 14. Customized Monitoring Software

In the past contract term, BI worked closely with the City and U.S. Communities Participating Public Agencies to accommodate specific software requests.

- **Highly Accessible.** City personnel can login to TotalAccess from any web-enabled device. The software updates in near real-time and includes several time saving features designed specifically for users in the field. For example, an officer can close an alert with a single click, and a supervisor can receive a prompt notification of the update.
    - In addition to accessibility from any web-enabled device, BI recognizes that officers in the field require intuitive offender monitoring tools that can be managed from a smartphone. With this need in mind, BI developed our officer-centered smartphone application, TotalAccess Mobile, which allows officers to easily manage cases while away from their computer. Features of Officer Mobile include:
        - Officers can add, edit, and delete offender information as well as edit all offender schedules. In addition, the application allows officers to track field visits and send audio messages to offenders on-demand.
        - As part of the application, officers can manage all equipment alerts and add, edit, and delete equipment.

  - Through the mobile application, officers have the ability to view all offender GPS points, view offenders near their location, and enable pursuit mode on GPS devices. In addition, the application features quick zone creation so officers can make changes to monitoring requirements in the field.
    - BI looks forward to introducing this mobile application to the City and receiving feedback for improvement from officers in the field.

- **Monitoring Parameters.** From within the software, the City can enroll and activate offenders, enter and modify program information, create and modify GPS zones, and create, activate, and de-activate schedules. Since TotalAccess is a web-enabled solution, authorized personnel can perform the above-mentioned tasks from the field.
- **GPS Data and Location Maps.** The ability to create custom GPS zones and monitor offender locations at all times are powerful software features that play a central role in the success of the electronic monitoring program. TotalAccess allows authorized personnel to display GPS points, view corresponding alerts and events, request an on-demand offender location fix, and view zones.

a) The central computer at the contractor's central monitoring service center shall include a compatible software program with the capability to report on the entire electronic monitoring program. The software program shall be user friendly.

BI TotalAccess—our compatible software program—was designed specifically for use by correctional agencies. As a consolidated interface, authorized personnel can view, modify, and report on all offenders enrolled in electronic monitoring programs. BI developed TotalAccess to be intuitive for agency administrators, supervisors, officers, and monitoring operations personnel. Examples of ease of use include:

- **Entering Participant Schedules.** The TotalAccess calendar interface shares the same features as common calendar applications. Users can easily drag, click, and modify participant schedules in an intuitive manner.
- **User Dashboards.** Officer can quickly prioritize their attention by viewing the detailed at-a-glance dashboard that reduces manual navigation of the software.

BI's central monitoring computer system stores all data with a historical transaction record, which includes all changes made to data, when the user modified the information, and the user who made the change.

- **On Demand Reporting.** Authorized agency staff can easily run a wide variety of reports on-demand within TotalAccess. Users can export report information into Microsoft Word, Excel, CSV, or PDF formats.
- **Visually Highlighting Missing Data.** This feature increases the accuracy and reliability of data and information and provides more complete program.

b) The electronic monitoring software shall be accessible via remote terminal at the City through dedicated line or internet access.

Authorized users can access TotalAccess via remote terminal (through any supported browser), smartphone, or by calling the Monitoring Operations center.

8. Reporting

As a key aspect of measuring offender compliance and monitoring programs, City personnel need to generate and access reports in the office and in the field. Reports must properly capture and consolidate crucial information to help stakeholders identify program trends, monitor equipment usage, track offender behaviors, and relay key statistics to measure the overall performance of the Offender Monitoring Program.

Access to reliable, updated, and easy to understand information is critical to accurately monitoring offenders in the community. Described throughout this section, TotalAccess includes powerful reporting tools for City and Participating Public Agency use—including a new, comprehensive analytics engine that transforms large amounts of data into actionable information. As demonstrated throughout this section and proven by BI's past performance, BI is able to meet or exceed all reporting requirements.

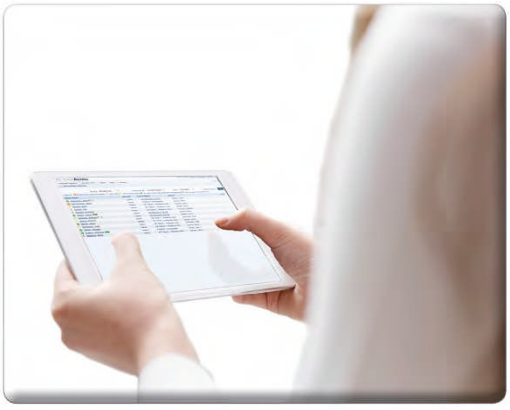

Figure 15. Customized Reporting Capabilities

As the incumbent provider of services, BI will continue providing standard and customized reports. We will collaborate with the City to continue refining and improving existing reports.

a) The Proposer's system shall provide standardized reports for all functional areas covered by the Proposer's contract. In addition, report parameters are subject to change by City during contract performance, and other reports shall be required as requested by City.

The City currently uses standardized TotalAccess' reporting features to meet the historical, current, and future needs of the program. We bring a sophisticated understanding of the metrics and reports required to manage the City's program.

BI will continue to collaborate with the City and Participating Public Agencies to define reporting parameters that are most valuable to their unique operations. TotalAccess includes numerous predefined, automatically generated standardized reports that provide frequently needed information. Users can run reports at any time and schedule reports for automatic delivery by email or fax at specified intervals. City personnel can export reports as PDFs, Word documents, or excel spreadsheets. Reports are quickly generated, and users can save reports to a hard drive or email them with the click of a button.

City personnel will use TotalAccess as their single software platform to view data on offenders and inventory. TotalAccess offers the City and Participating Public Agencies robust reporting functionality that provides both on-demand and automated reports. Through TotalAccess, users can query reports and sort/filter the fields in the report.

BI is the only provider that can deliver a fully functioning and integrated records management and reporting system on the first day of the new contract. In addition to the reporting functionality of TotalAccess, BI offers TotalAccess Mobile, enabling officers to access data on their iPhone or Android smartphones when working in the field.

b) When "real-time" information is not available, or data-analysis and review is needed by the Contractor, the monitoring service center shall provide the designated personnel with daily reports about all monitored activities. This report, summarizing all participants' adherence to established protocol, will be faxed or accessible via remote terminal at the designated City Area Offices through dedicated line or internet access (as determined by City) by 4 am every day.

As detailed throughout this proposal, BI houses TotalAccess on a highly secure, redundant, and available server architecture. The likelihood of real-time data being unavailable is very small. However, in the unlikely event of data unavailability, BI will provide required reporting to meet the City's needs.

As a fully automated solution, TotalAccess has the ability to generate and deliver required reports to designated personnel on a regular basis—for example an alert summary report to be delivered at 4 am, daily, to City staff.

A powerful software tool that enables authorized personnel to access and sort vast amounts of data is a critical component of a successful electronic monitoring program. Evaluating comprehensive program data is essential to keeping communities safe and determining offender compliance.

TotalAccess provides the City and Participating Public Agencies with the *Alert Summary Report*, depicted in *Figure 16*, as a reliable method to verify all offenders' adherence to established protocol.

Alert Summary Report displays the total number of alerts. Information in this report includes:

- Transmitter tampers
- Curfew alerts
- Offender name
- Agency
- Exclusion/Inclusion Zone alerts
- Missed calls
- Officer name

Use Case: The City needs to review and report on overall alert totals for a specific population, caseload, or office. The *Alert Summary Report* enables the City to quickly breakdown alert totals by offender, officer, or both.

Alert Summary

BI TotalAccess

Report Run 7/10/2018 11:23 **Parameters** 3/12/2018 00:00 to 3/18/2018 23:59

Agency City & County of Denver
Officer Smith, Maria

	Tampers	Zone Alerts		Curfew Alerts			Missed Call		Other	
Client Name	Ankle Unit	Exclusion	Inclusion	Receiver	Tracker	Beacon	Receiver	Tracker		**Total**

Figure 16. Alert Summary Report

The type of report, frequency, and delivery method can be customized for any report generated by TotalAccess. Officers have the option to pull reports from the software themselves, or BI can fax or email the City Area Offices by 4 a.m. every day.

c) The monitoring service center shall have available daily reports of cases added and removed during the preceding business day.

Client Add/Delete Report, detailed in the figure below, identifies the offenders added or removed from an officer's caseload. TotalAccess permits users to set a date and time range to pull data and multiple officers can be included in one report. Information in this report includes:

- Equipment serial number
- Officer name
- Offender name
- Totals
- Create date
- End date
- Status code

Use Case: The City needs to review and report on overall installations or removal totals for a specific population, caseload, date, or office. The *Client Add/Delete Report*, shown below, enables the City to quickly identify the information in an itemized or total format.

Client Add Delete

Report totals: Creates: 5 Bill Starts: 5 Bill Ends: 2

Figure 17. Client Add/Delete Report

The City and Participating Public Agencies can easily query the desired information in TotalAccess.

f) If requested, in response to reports of monitoring violations by program participants, the contractor shall prepare a written assessment based upon information received through the contractor's confirmation procedure and provide it immediately to the City.

BI Monitoring Operations will fulfill this request through our Call Client Service that includes outbound alert investigations and documentation of our findings. BI will provide confirmation findings to the City immediately upon completion of the investigation. Please also see *Alert Management Activities* on page 109.

g) The contractor's management information system shall be capable of generating standard reports. The contractor shall be required to provide custom reports and statistical analysis. Standard reports include number of clients, number of incidents (equipment reports, violations, equipment malfunctions, etc.), client histories, curfew schedule, and assigned City staff. Examples of custom reports that shall be required are number of days a client is monitored, etc. Proposer's shall include examples of all reports that they are capable of generating as part of their proposed package. City shall be notified 24-hours in advance of any anticipated interruption in service.

BI remains committed to alerting the City, 24-hours in advance, of any service interruptions.

BI employs a team of in-house software developers and testers who will enhance our ability to meet reporting requirements, manage database functions, and provide customized, ad-hoc reports. TotalAccess is highly customizable, enabling the City and Participating Public Agencies to evaluate the program from a myriad of data perspectives.

BI TotalAccess includes 40 pre-defined reports to assist City personnel with all aspects of caseload management. The City can run reports at any time, and reports can be searched, sorted, or queried on any field. All reports can be exported as PDFs, Word documents, or Excel spreadsheets. Most reports take less than a minute to run, and users can save reports to a hard drive or email them with the click of a button. The pre-defined reports available in TotalAccess include:

- Activity reports that provide information about offender movements, alerts, events, and equipment statuses such as battery charge levels
- Administrative reports that provide summaries and snapshots of data for specified timeframes
- Reports that provide information specific to individual offenders
- Reports that provide audit information such as the history of changes made to procedures and offender profiles, and the history of offender assignments and events for specific units

City personnel can schedule frequently used reports for automatic delivery by email. Reports identified in *Table 8* can be sent at a specified date and time, or on a daily, weekly, or monthly basis.

Table 8. List of Pre-Defined TotalAccess Reports

Type of Report	Reports Available	
Activity	• 72 Hour Open Alerts • Active Cases Exception • Activity Summary • Activity Summary Consolidated • Agency Alert Count • Alert Detail • Alert Summary • Alerts By Type • Client Stops • Client Time In/Out of Range	• Compressed Summary • Crime Scene Correlation • Daily Summary • Open Alert Status • Recent Case Activity • TAD Activity Graph • VoiceID Case Summary by Agency • Zone By Zone

Table 8. List of Pre-Defined TotalAccess Reports		
Type of Report	**Reports Available**	
Administrative	• Agency Active Client • Agency System Utilization • AMD Calibration • Customer Agency Summary • Device Current Usage • Monthly Equipment Summary	• Selfpay Agency Roster • Selfpay Client Detail • Selfpay Client Summary • User Request Log • VoiceID Exceptions
Participant Information	• Case Status • Caseload At A Glance • Caseload Profile • Caseload Statistics • Client Add Delete • Client Inactivation By Date	• Client List • Client Profile • Client Schedules • Clients by County • Juvenile Caseload Population
Other	• Client Procedure Overview • Client Profile History • Device Assignment	• Notification Suspension • Zones and Schedules • Device History

BI's on-demand reporting capabilities allow users to query information based upon more than 60 fields in TotalAccess. Users can create ad-hoc reports from fields related to the agency, offender, officer, device, or device events. This includes the fields outlined in *RFP Section D.2 General Scope: 8) Reporting*. BI's user-friendly ad-hoc reporting capability does not require any technical training or skills. BI agrees to notify the City 24-hours in advance of any scheduled maintenance that would yield interruption in service.

BI can create custom reports to support City operations, and TotalAccess ad-hoc capabilities allow users to compile data specific to their own operational responsibilities.

Data Exporting Functionality

For increased report customization, authorized staff can easily export data to Microsoft Excel; this export functionality enables users to: add data visualizations, such as pie chart, or bar and line graphs; apply specific formatting; filer, sort, and group data; and select information fields to be included in the report. Advantages of this data export/ad-hoc solution include:

- Data is replicated in near real-time; there are no periodic batch loads of data. This means that the City and Participating Public Agencies always have access to the most recent data available.
- TotalAccess generates and displays reports in specific report design templates. BI designed these formats to be easy to read and ready to be delivered as a final product.
- BI's standard reports satisfy the City' reporting needs without overwhelming the user with too many options.
- With a user-friendly interface, authorized users are not required to have any specialized technical skills to access the information they need.

9. Inventory Management

The City operates a large program responsible for monitoring hundreds of offenders; inventory management is critical to operating a cost-effective program. A key component of BI's solution is our comprehensive inventory management services that combine local personnel, invoicing processes, and powerful software. This approach to inventory management ensures that the City is only billed for active units, spare levels are adequate to monitor all populations, and lost and damaged equipment expenses are minimal. As detailed throughout this section, key components of our inventory management approach include:

- **TotalAccess Inventory Management Software.** Through TotalAccess, City personnel can run reports to see an accurate snapshot of equipment inventories.
- **Inventory Oversight from Vendor Representative.** As with all other aspects of the City's program, BI's Customer Business Services, with support from the Account Executive, will oversee all inventory management activities.
- **Inventory Reconciliation Process.** To ensure that inventory records are always accurate, BI will continue to follow our established and proven inventory reconciliation process currently in use.
- **Established Billing Processes.** BI has established billing processes for all customers ensuring that invoices accurately reflect City equipment usage.

a) The system shall have the capability of tracking units and equipment that have been returned to the Proposer due to malfunction, and provide reports concerning problems found.

As part of our inventory practices, BI does not wait to receive returned equipment before shipping the replacement items. City personnel will always have access to equipment records to ensure proper and proactive inventory management. BI staff and City personnel can monitor inventory levels from within TotalAccess—which includes the ability to generate several pre-defined reports that provide up-to-date inventory information.

We will continue to work closely with the City to track all equipment returned to BI for service due to malfunction or other cause. BI performs regular inventory reconciliation with all involved parties and provides reports specific to returned equipment to the City.

b) The Proposer's system shall provide a report of accurate inventory of all equipment and accessories charged to the City. The inventory database shall include item name, serial number, offender name (or "shelf stock" if not in use) and total items on inventory. This system shall have the capability to track inventory by Department.

As a significant benefit of our proposed solution, the BI TotalAccess software includes integrated and interactive inventory management features. BI's *Inventory Variance Report* quickly identifies discrepancies between the physical inventory in the office and the inventory listed in TotalAccess. The process uses a barcode scanner to create a text file of the inventory that is sent to TotalAccess. Inventory discrepancies are then noted in the report. Additional inventory reporting capabilities include the following inventory reports:

- **Agency Active Participant**. This report lists billable days for devices active during the previous month by participant name, participant ID, equipment type, billing start date, billing end date, and active days. Includes a system summary showing active participants, active days, and total active days by equipment type.
- **Agency System Utilization.** This report lists agency equipment by equipment ID, participant status (active, inactive, or enrolled), case ID, participant name, end date, agency staff member name, staff member ID, and associated equipment IDs.

- **Device Current Usage.** This report lists the total number of days monitored during the current month by participant. Includes case ID, serial number, device type, start monitoring date, and end monitoring date.
- **Monthly Equipment Summary.** This report lists equipment totals by type, date, number of installs, number of disconnects, number of active units, and number of active participants by equipment type and by agency staff member. Includes personnel and agency totals by installs, disconnects, units used, and clients.

TotalAccess Inventory Fields

Authorized personnel can search inventory by agency, subject, or serial ID for all equipment assigned to the City. TotalAccess displays the following data rows to provide detailed inventory information.

Table 9. TotalAccess Inventory Fields

Data Rows—Inventory Information				
Checkbox to select multiple devices	Status Date	Agency	Agency Owned	Power button[3]
Serial Number	Device Type	Subject (if Active)	Device Edit	

c) The Proposer shall provide a dedicated representative to perform the following:

As clarified through *Questions and Answers* released in *RFP Addendum 4,* the City clarified that a representative supporting this contract may also continue to service other agencies. With this clarification, BI will provide a team of representatives to support City operations. Through this team approach—via account management, billing, and inventory specialists—BI will oversee equipment inventories for the City and U.S. Communities Public Purchasing Agencies, including:

- Providing overall inventory management of electronic monitoring equipment
- Updating the inventory database on initial installation of monitoring equipment
- Updating the inventory database for shelf stock at the time of initial installation of monitoring equipment, as needed
- Reconciling inventory
- Maintaining productive working relationships with internal support staff and partners to ensures a high level of customer service
- Quickly resolving issues regarding equipment orders and returns

i) Update the inventory database on initial installation of monitoring equipment

BI Customer Business Specialist will work in coordination with the City's inventory staff to ensure appropriate quantities of required and backup devices are maintained. This will include:

- Assistance with placing orders/returns
- Reconciling the inventory
- Identifying, reporting, and resolving all discrepancies with approval by the City Administration

[3] By clicking on the Power Button, an officer can see the time and date of the last communication, communication attempt, and device shutdown.

ii) Update the inventory database for shelf stock at the time of initial installation of monitoring equipment

When BI equipment is shipped, our inventory representative will initiate an automated inventory process that designates the equipment to the City's inventory in TotalAccess as Inactive. That equipment becomes available for an officer to assign to an offender or pretrial defendant.

BI understands that it is crucial to update stock inventory to ensure that the City always has equipment to replenish the shelf stock as needed.

iii) The proposing Vendor shall reconcile inventory by department on a monthly basis no later than the seventh (7th) of each month. The City reserves the right to change the number of reconciliations per year and requirement date

BI's inventory reconciliation process incorporates the comparison of a utilization report pulled from TotalAccess, which details all inactive equipment assigned to the City, and compares it to a physical inventory of equipment for the same point in time. This will ensure that the City has physical possession of all equipment assigned to it. This process identifies equipment that is assigned to the City but may be "unaccounted for".

With the understanding that the City reserves the right to change the reconciliation frequency and date, we will comply by no later than the seventh of each month until instructed otherwise.

d) The awarded Vendor shall maintain the equipment and spares in good condition and arrange for the repair or replacement of the equipment within two (2) business days

BI will offer a shelf allowance of 30% to ensure that all equipment and components can be replaced by the City. This inventory supply allows officers to immediately replace damaged devices or add new subjects to the program. BI will replace items pulled from inventory within two business days. BI will replace devices at no additional cost under the following circumstances:

- If the equipment is lost, stolen, or damaged while under the control of BI or the City
- Additional equipment is needed at any time
- In the event equipment requires servicing or repair

10. Maintenance and Support

Based in Anderson, Indiana, and supported by our Aurora, Illinois annex, BI Monitoring Operations is a complete, secure, and advanced call center and customer support hub that is wholly owned and operated by BI. We will provide the first line of maintenance and support through Monitoring Operations. Monitoring Specialists are onsite 24/7/365 to assist City personnel with troubleshooting, managing alerts, and training. BI Monitoring Operations provides the following key advantages:

Figure 20. BI Monitoring Operations

Newly built in 2016, BI's Monitoring Operations facility provides comprehensive monitoring services for more than 1,400 criminal justice agencies all over the United States.

- **24/7/365 Support.** Electronic monitoring programs operate on a continuous basis. The City and Participating Public Agencies need constant access to hardware, software, and service support to supervise offenders effectively. Since BI is a single source provider, City personnel can contact Monitoring Operations 24/7/365 for prompt assistance on any BI technology—streamlining support services by providing the City with a single point of contact. BI Monitoring Specialists ensure that City personnel have the information needed to handle program tasks effectively.
- **Qualified Operations Staff.** Proper staff training is an essential part of increasing program effectiveness. BI Monitoring Operations staff must understand how all BI technologies work to best assist City personnel with program inquiries. For example, Monitoring Specialists that are highly familiar with equipment functionality can readily help City personnel interpret alerts—such as a tamper event that occurs frequently because the device is not installed properly against the offender's leg.
    - Monitoring Specialists must successfully complete a comprehensive training and certification program for the full continuum of BI products. The BI Training Department delivers a seven-week new hire training program and provides required ongoing training sessions. In addition, staff must obtain annual re-certification.
    - Monitoring Quality Department regularly perform call and alert critiques to confirm that Monitoring Specialists follow established procedures and provide high quality customer service.

a) The Proposer shall utilize a dedicated support team to provide maintenance and support on a 24 x 7 basis.

BI is the manufacturer of all the electronic monitoring devices offered in this proposal and leverages our dedicated support team to provide maintenance and assistance on a 24/7/365 basis. As the OEM of all proposed equipment, we can provide the City with reliable products and associated support services. The BI Internal Operations Department produces high quality units that are validated by 24/7, in-house support. Additional key aspects of our equipment maintenance and support include the following:

- BI Manufacturing is ISO-certified and incorporates stringent quality protocols
- As needed, BI will service and/or replace defective units—working closely with the City to ensure that there are no interruptions to program operations
- BI Engineers design, develop, and support our continuum of products—which includes responding to and researching technical issues as needed

- BI Monitoring Operations provides 24/7/365 technical support—which includes an established, tier-based escalation process to promptly resolve technical questions
- BI Monitoring Operations can be reached at any time via a toll-free business telephone number, email, and/or fax

b) The Proposer shall provide a toll-free number for maintenance and support.

City staff can call, toll-free at any time to speak with BI Monitoring Specialists physically present within our Monitoring Operations facility. Monitoring Specialists provide live customer service on topics such as equipment troubleshooting, subject status checks, software assistance, reports, and on-time alert notifications. On average, our staff answer incoming calls in less than 10 seconds.

Figure 21. Tenured Monitoring Specialists

BI's Monitoring Specialists are fully trained and staffed 24/7/365 to handle any technical issues that may arise over the course of the contract.

c) In the event any component of the Proposer's service becomes inoperable, the Proposer shall immediately notify the City Contract Manager or designee by telephone, but no later than thirty minutes after the discovery of the service failure.

BI will notify the City supervisor of any interruptions, telecommunication delays, or reporting system outages on a 24/7/365 basis in accordance with *RFP* requirements. BI's highly secure, redundant, and reliable data centers minimize the likelihood of system outages or other technological issues.

BI's *Standard Operating Procedure* for ensuring that we notify the City of interruptions in service includes:

1. Several process-checking applications are continuously running on BI's system platform
2. In the unlikely event a process check detects a deviation in normal traffic or operation, the application automatically pages an on-call System Administrator and emails a notification to the entire technical team
    a. To supplement automated procedures, if a City administrator, officer, or other authorized personnel believe BI has a system error, the individual can report the issue to BI Monitoring Operations on a 24/7/365 basis
3. BI System Administrators will immediately investigate the deviation and confirm that the error impacts key monitoring processes and agency communications
4. The System Administrator will alert the City supervisor and BI Monitoring Operations of the issue, plan corrective actions, and perform ongoing updates

TotalAccess had an uptime of 99.99% during the past 12 months, evidencing BI's ability to mitigate risks associated with system outages.

BI will contact the City operations supervisor within 30 minutes of any reported communication system outage. BI follows up within two hours if the issue continues.

d) Proposer's proposal shall contain all tiers offered and shall identify the response time by tier (identify response by telephone or email.) The Proposer shall adhere to the response times contained in its accepted proposal.

BI Monitoring Operations is available 24/7/365 to provide live customer support, including by telephone and by email, during normal business hours and during after-hours. In addition, BI maintains documented policies and procedures for response times during system problems or issues. *Figure 22* defines BI's System Administrator response time according to severity of problem, as well as the method of notification. BI will adhere to the response times described in this accepted proposal and the figure below.

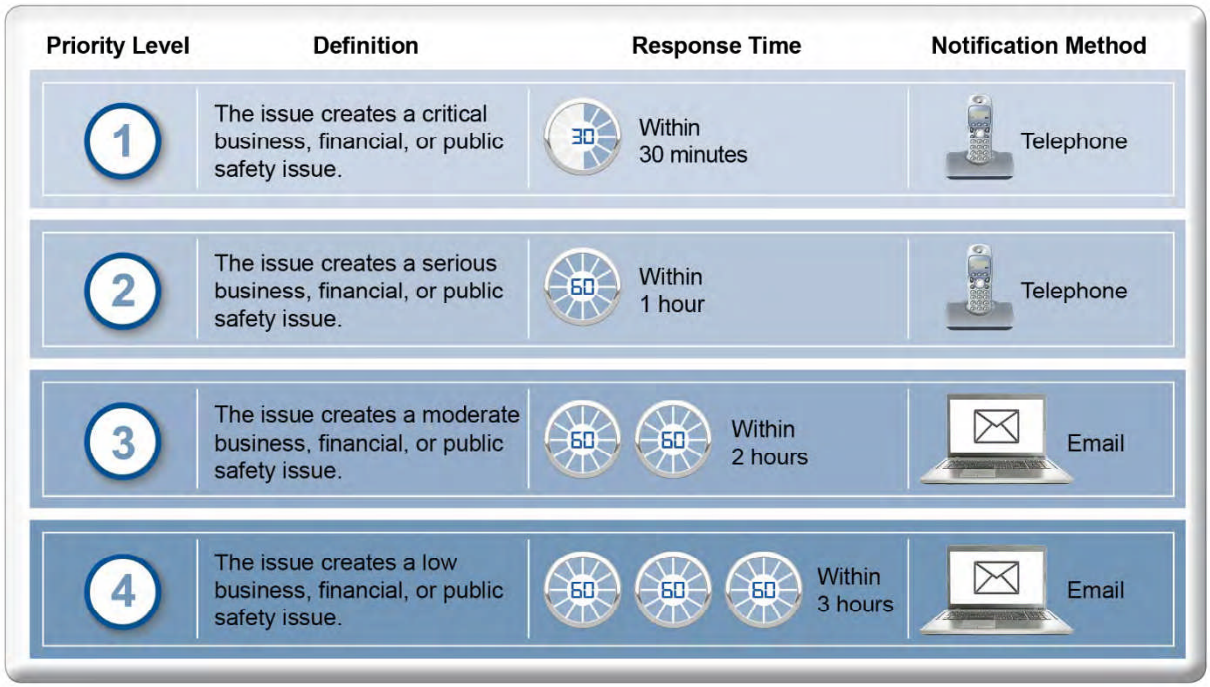

Figure 22. Response Times
Responsiveness is a core tenant of our value proposition and an essential element of our monitoring solution.

e) The Proposer shall fully describe its proposed 24 x 7 maintenance and support for this contract. The Proposer shall clearly identify City's role in all aspects of maintenance and support. The Proposer's proposal shall include, but is not limited to, the following list of items. (no items are listed in RFP specifications)

BI's proposed maintenance and support approach for the City and Participating Public Agencies is very straightforward. BI will be responsible for all aspects of maintenance and support—provided through our 24/7 Monitoring Operations, tenured account management staff, established manufacturing center, and all other BI departments. *Table 10. Maintenance and Support Responsibilities* further summarizes our maintenance and support approach.

Table 10. Maintenance and Support Responsibilities					
Maintenance and Support Activity	**Responsible Party**				
	City/Public Agency	*BI Monitoring Operations*	*BI Account Management*	*BI Manufacturing and Engineering*	*BI Billing and Invoicing*
Alerting BI of potential equipment or technical issue	✓				
Providing first line of support for all inquiries		✓			
Providing onsite services, as needed (training, inventory support, etc.)			✓		
Providing remote, refresher training sessions as needed		✓			
Shipping units to/from agency locations					✓
Supporting inventory management activities			✓		✓
Issuing invoices that accurately reflect active/inactive unit status					✓
Using ISO-certified processes to manufacture and improve hardware				✓	
Conducting failure analysis				✓	
Keeping agency personnel abreast of technological advancements to BI hardware and software		✓	✓		
Implementing ongoing improvements to manufacturing processes and equipment				✓	

11. Contract Transition

BI works closely with each of our customers to ensure we complete all program implementations and contract award activities as seamlessly as possible. Since the City is a current customer of BI, the process of transitioning to a new contract will be straightforward and seamless. As the largest U.S.-based provider of location monitoring products and services for the criminal justice industry, we possess unparalleled experience in implementing and transitioning electronic monitoring programs.

As the incumbent provider, BI offers a seamless transition plan with no lapse in service—something no other vendor can provide.

a) Proposer shall provide a dedicated contract transition person who will be responsible for making the transition from the system under the current contract to the new system as defined in the implementation plan. This transition shall include:

Mr. Jeremy Elliott will serve as BI's dedicated contract transition professional for the City contract and U.S. Communities Master Agreement. Having joined the BI team in 1998, Mr. Elliott has more than a decade of experience developing, coordinating, and providing staff and agency training and certification on BI's continuum of electronic monitoring products. He was promoted to his current role of National Account Manager position in September 2010.

b) Coordination with the existing Proposer on the date and time of the change over to the new system.

As the existing contractor, BI is in the unique position to offer the City a swift and effective change over to our new proposed solution—with minimal impact on current program operations. Much of the infrastructure and technical components required under our proposed solution are currently established and proven to support the City's needs successfully.

If awarded the new contract, BI will commit to ensuring all Participating Public Agencies we currently service receive contract modifications that reflect new pricing and service options. We will also continue to offer authorized personnel additional training and review monitoring protocols. Similarly, should the City decide to not award BI a contract, we remain committed to working with the awarded vendor to ensure a smooth transition for the City.

c) Initial data entry or migration of identification and curfew information for all offenders being monitored at the time of the transition.

As further detailed in our *Implementation Plan*, BI will assist the City with the initial data entry for new offenders and/or the modification of existing offender profile or curfew information, as applicable. As the incumbent contractor, we will continue to work closely with City personnel to complete needed enrollments and data modification activities.

d) Proposer shall provide resume(s) for the personnel proposed for the contract transition with their proposal.

BI has identified the below individuals as personnel who will be involved in the contract transition:

- Jeremy Elliott
  National Account Manager
- Daniel Hooven
  Eastern Regional Sales Manager
- Laurent Lepoutre
  Business Development Director
- Robert Murnock
  Vice President of Business Development
- Kimberly King
  Western Regional Sales Manager
- Dave Young
  Account Executive

Please refer to *Resumes and Account Team Information* on page 307 for the resumes of BI's personnel who will be involved in contract transition, maintenance, and implementation for the City and County of Denver's contract and the U.S. Communities Master Agreement.

e) Proposer shall provide a transition plan for all field equipment with their proposal.

BI's has provided a detailed *Transition Plan* within *Section 12—Project Management for Transition*, beginning on page 55 of this proposal. Upon the City's request, we will transition offenders from the ExacuTrack One device (currently in use by the City) to the newest generation LOC8 device. A summary of our proposed transition includes:

- BI will transition offenders to new LOC8 devices following successful completion of officer training sessions
- Approximate active offender count is 420-430
- In an effort to mitigate costs and optimize workload for both BI and the City, we propose the following:
  - BI will provide 1-2 qualified and experienced staff to perform onsite offender transitions
  - The BI staff can complete all transition installations in as little as one week
- BI proposes that offender transitions occur at a specified City location where offenders and pretrial defendants can report for the equipment exchange
  - Dates for the transition will be determined by City Administration
- Each BI staff, working from 8 a.m. to 5 p.m. can perform as many as 40-50 installations per day, or 5-6 per hour
  - With two staff, BI can install 80-100 units per day
- City staff will need to manage and ensure offenders report to the office on the designated dates and times for transition
  - Offender reporting should be scheduled by officers so that no more than 5-6 offenders per hour are reporting
  - This will prevent any significant wait times for offenders, minimizing any potential interference with work, school, or other responsibilities they may have.

f) Proposer is required to demonstrate that their consultant(s) or employee(s) shall have the skills necessary to meet the objectives of this project by listing skills, industry certifications, general educational background, and knowledge set based on prior experience.

Responsible for successfully implementing BI programs, and supported by all BI departments, Mr. Elliott has extensive experience in implementing, transitioning, and managing projects of all sizes and scopes. *Table 11* on the following page highlights Mr. Elliott's experience transitioning agencies similar in size and scope to City and County of Denver's Offender Monitoring Program.

Table 11. Project Manager Relevant Experience and Qualifications	
Agency	**Transition Metrics**
Arizona Administrative Office of the Courts	Specific implementation activities included: • Initial implementation meeting with the agency was May 17th, 2011 • Week 1 (June 6-10) – Officer Equipment and Software Training: 40 officers, 3 Regions, multiple training locations throughout the state. • Week 2 (June 13-17) – Offender Equipment Transition (ExacuTrack One): 250 offenders completed in 4 days, multiple transition locations. • Week 3 (June 20-24) – Ongoing implementation follow up and support • Important Note: Maricopa Co Adult Pre-trial was transitioned concurrently during this time period (an additional 120 offenders)
Maryland Department of Public Safety and Correction Services	Specific implementation activities included: • Initial implementation meeting with the agency – November 30, 2011 • Week 1 (Dec 5-9) – Officer Equipment and Software Training: 260 officers, 3 Regions, multiple training locations throughout the state • Week 2 (Dec 12-16) – Offender Equipment Transition (ExacuTrack One): 340 offenders, completed in 4.5 days, 3 Regions, multiple transition locations • Week 3 (Dec 19-22) – Ongoing implementation follow up and support
North Carolina Department of Public Safety	From the original award in 2012, the program grew from 900 participants to nearly 4,100 participants in 3 years. Specific implementation activities included: *Software Development:* • Customized Web Services interface between the State's case management software and TotalAccess to support Installation Technician service requests, participant/staff updates, and agency staff alert handling. • Customized TotalAccess accommodate the various participant program types and service plans. • Customized reporting based on the agency's structure and data hierarchy requirements. *Equipment Transition:* • Transitioned 600 participants to the most current revision of BI GPS equipment • Transitioned both the adult and juvenile programs concurrently *Service Implementation:* • Developed a curriculum, delivered training, and provided materials to 35 agency Field Training Specialists • Field Training Specialists performed new and ongoing training to the more than 2500 agency staff state-wide • Modified the agency's notification settings and defaults based on changes to the State's policies and *Standard Operating Procedures* • Defined and incorporated alert investigation procedures for BI Monitoring Operations staff • Modified the Installation Technician program to improve services and processes Implementation deliverables, including software development efforts, were completed on time or ahead of the agency's defined timeline.

12. Project Management for Transition

Comprehensive and competent project management is critical to successfully managing operations of the size and scope of the City's Offender Monitoring Program. The inherent complexity of overseeing the monitoring of hundreds of offenders requires dedicated project managers, strategies, and materials. As demonstrated throughout this section, BI will draw from our extensive experience working with the City to provide comprehensive management of the program.

a) The Proposer shall align their project management approach with the project's inherent complexity so the desired results can be achieved. The Proposer shall provide project management in accordance with its accepted proposal. Project management controls shall be proposed that are consistent with minimizing the project's risks and inefficiencies which would negatively impact the RFP's objectives. Management of scope, time, and risk are critical to effectively achieving the expected outcomes of cost, schedule, deliverables, and quality. Both City and the Proposer shall be responsible for working in a cooperative manner to meet the targeted timelines defined in the implementation plan. City and the Proposer shall mutually agree upon any changes to the schedule. City reserves the right to conduct any test/inspection it shall deem advisable to ensure installation/services, as appropriate, conform to specifications. Any tasks which are the primary responsibility of City shall be clearly defined and identified.

To supplement the narrative, BI has provided a *Detailed Preliminary Project Implementation Plan* that outlines all major milestones and activities associated with City and U.S. Communities program implementation.

Table 12. Detailed Project Implementation Plan

Task/Deliverable	Start Date	End Date	Description	Responsible Parties
Project Planning and Control: Contract Award and Execution Phase (Weeks 1-2)				
Milestone: Contract Award, Negotiation, and Contract Execution	Upon Award (Week 0)	Week 2	All timelines outlined in this preliminary project plan are estimates and flexible based on agency needs and requirements. BI looks forward to discussing and modifying this implementation schedule specific to the City's objectives and timeframes.	BI Contracts and the City will execute the contract

Table 12. Detailed Project Implementation Plan				
Task/Deliverable	**Start Date**	**End Date**	**Description**	**Responsible Parties**
Kickoff Meeting *BI and the City discuss:* • *Program policies and procedures* • *Contractual requirements,* • *Implementation (training and transition) planning*	Upon Award (Week 0)	Within 14 Days of Award	The City will determine the location and time of this meeting. The purpose of the meeting will be to conduct any further necessary contract negotiation and project/transition planning, including, but not limited to: • TotalAccess development requirements • New contract program policies and *Standard Operating Procedures* • Alert and event notification procedures • Equipment configurations and protocols • Inventory requirements • Training planning BI personnel will work with the agency's stakeholders to confirm and define in detail the program goals, environment, and expectations.	Meeting attendance by appropriate BI and City Administration
Project Status Meetings	Upon Award (Week 0)	Weekly	Ongoing efforts throughout the project to identify, analyze, monitor, and respond to project risks as appropriate. BI has significant experience in managing projects of this size and scope and is very effective at minimizing and mitigating risks.	BI's Project Manager and City Administration can meet weekly to review of the status of the Project Plan
Milestone: Final Approval of the Project Plan	Upon Award (Week 0)	Week 2	Obtain final approval of the Project Plan from City Administration.	Approval of the final Project Plan by appropriate agency personnel

Table 12. Detailed Project Implementation Plan				
Task/Deliverable	**Start Date**	**End Date**	**Description**	**Responsible Parties**
Project Planning and Control: Transition Planning Phase: (Week 3)				
Agency Setup and Notification Procedures *Additions, Deletions, and Modifications*	Week 3	Week 3	BI will review the City's current setup/notification procedures and make appropriate additions and changes as required. BI staff will collaborate with the agency to ensure we understand the City's *Standard Operating Procedures*. BI will integrate these procedures with TotalAccess, allowing monitoring center staff to easily and effectively use the software for monitoring, notification, and reporting purposes.	City Administration to provide review and direction of existing setup requirements and notification procedures; appropriate City personnel will review and approve the notification procedures to be used
Clean Up of Officer Database *Additions, Changes, and Deletions*	Week 3	Week 3	Review the current active officer enrollments for any additions, changes, or deletions to provide an accurate database of officers, if necessary.	As necessary, City Administration will review existing active officers and provide updated information to implement any additions, changes, or deletions
Clean Up of Offender Database *Additions, Changes, and Deletions*	Week 3	Week 3	Review the current active offender enrollments for any additions, changes, or deletions to provide an accurate database of offenders, if necessary.	As necessary, City Administration will review existing active offenders and provide updated information to implement any additions, changes, or deletions
Officer Training Planning *Secure Dates, Times, and Locations*	Week 3	Week 3	BI anticipates up to 50 City staff will require training. All BI equipment and TotalAccess software associated with this contract, and selected by the City to use, will be included in the training curriculum.	Coordination with City Administration to secure dates, times, and training locations/facilities with computers and internet access
Offender Equipment Transition Planning *Identify Offenders to Transition to New Devices*	Week 3	Week 3	BI anticipates that approximately 420-430 new LOC8 devices will need to be swapped for existing ExacuTrack One devices	Coordination with the City to determine which offenders will be transitioned to LOC8 devices

Table 12. Detailed Project Implementation Plan				
Task/Deliverable	**Start Date**	**End Date**	**Description**	**Responsible Parties**
Offender Equipment Transition Planning *Determine Start Date Timelines*	Week 3	Week 3	BI anticipates that approximately 420-430 active ExacuTrack One devices will require transition. BI will collaborate with the City to determine the timeframe and location of equipment transition.	City Administration approval and coordination of transition duration, locations, and dates; City staff to coordinate when offenders will report to predetermined office location at a specified date/time
Project Execution and Control: Training and Transition Execution Phase (Weeks 4-5)				
Equipment Delivery *Training Purposes*	Week 4	Week 4	BI will ship equipment to identified training locations for BI training personnel to provide the City with hands-on experience related to installation, removal, and use of devices.	BI will be responsible for all delivery activities to predetermined locations
Provide and Distribute Training Materials	Week 4	Week 4	BI will provide electronic and/or hard copies of Training Materials to the City prior to training. The materials may be provided to staff prior to training and throughout the life of the contract.	BI will provide materials to the City Administration for approval and distribution
Milestone: Onsite Training *City and County of Denver Staff*	Week 4	Week 4	BI will provide one qualified trainer to conduct onsite training. BI will provide as many sessions as necessary to ensure that all City staff are adequately trained. Each session will last approximately 4 hours, covering all BI equipment and software associated with this contract, and selected by the City to use. Class sizes can range from 10-15 staff per session, which will allow up to 50 staff to be trained in less than one week.	Officer attendance at designated training sessions will be the responsibility of City Administration; BI welcomes and encourages City leadership to participate in training, if desired, to provide policy and *Standard Operating Procedure* information.
Equipment Delivery *Transition Subjects to BI Equipment*	Week 2	Contract Duration	BI will deliver equipment, associated consumables, and all other supplies to designated locations across City. This delivery will also include 30% spare unit surplus to complete the transition from the previous vendor to BI equipment.	BI will be responsible for all delivery activities

Table 12. Detailed Project Implementation Plan				
Task/Deliverable	**Start Date**	**End Date**	**Description**	**Responsible Parties**
Equipment Delivery *Transition Offenders to New Devices*	Week 4	Contract Duration	BI will deliver equipment, associated consumables, and all other supplies to the City office location where offenders will require equipment exchange to new devices. This delivery will also include sufficient spare unit surplus to complete the transition.	BI will be responsible for all delivery activities
Milestone: Complete Subject Equipment Transition *Transition to LOC8 Devices*	Week 5	Week 5 TBD	BI will provide 1-2 qualified staff to assist with transitioning offenders from the ExacuTrack One to the LOC8. BI anticipates approximately 420-430 offenders will require equipment swaps. BI will work with City Administration to define a transition plan and schedule that best meets the needs of the agency. Special scheduling efforts can be made for homeless/indigent offenders and pretrial defendants.	Coordination with City Administration to secure dates, times, and locations where equipment transitions will occur City staff will need to notify their respective offenders of the pending transition to ensure client availability on the predetermined dates/times
Project Close Out: Ongoing Training and Support Phase (Week 6—Ongoing)				
Milestone: Transition Acceptance *Ensure City Satisfaction with Transition*	Week 6	Week 6	Ensure the City is satisfied with the completion of our *Project Plan*.	Receive City approval and post implementation evaluation; BI to complete any additional tasks as necessary
Training *Ongoing/Supplemental Sessions*	Week 6	Ongoing	BI provides options for staff to receive ongoing training through supplemental onsite and web-based sessions. The City can use these training sessions to educate new employees, provide basic sessions or advanced topics, and be used refresher trainings as appropriate and directed by the City.	BI will coordinate all ongoing training activities with City Administration as directed
Change Management *Based on Evolving City Needs*	Week 6	Duration of the Contract	Includes changes to the contract that may be considered "out-of-scope", any new or modified product pricing, and/or services that require an addendum to the contract.	City approves or denies proposed modifications

b) City shall approve the selection and/or replacement of the Proposer's Project Manager. The Proposer shall provide their Project Manager's résumé for City to review, including the qualifications of the proposed Project Manager, and explain why this is a good match. The Proposer's proposed Project Manager shall have a minimum five (5) years of experience in a Project Manager role in implementing similar projects. A Project Management Professional (PMP), as defined by the Project Management Institute or equivalent organization, is preferred. City is responsible for assigning the City Project Manager.

Mr. Jeremy Elliott, BI National Account Support Manager will be the City's assigned Project Manager for contract implementation. Mr. Elliott has extensive experience in implementing and managing large contracts throughout the country, and 20 years of experience with BI. With more than a decade of experience training and implementing BI solutions, Mr. Elliott brings the knowledge and experience critical to implement and support the City's program.

Mr. Elliott spent six years as BI's Senior Training Specialist and the Eastern Regional Account Support Representative before promoted to the National Account Support Manager in 2010. In this role, Mr. Elliott is responsible for program implementations, training, and account support for every BI contract. Specific to the City's Offender Monitoring Program, Mr. Elliott will be responsible for the overall management of the contract, including implementation, training, equipment transition, account setup and operation, contract support, and City support.

As a Subject Matter Expert (SME) in all BI's equipment, monitoring services, and support infrastructure, Mr. Elliott brings the required knowledge and skills to successfully transition and manage the City's program.

Additional information on Mr. Elliott's qualifications is provided within the following proposal sections:

- *Project Manager Relevant Experience and Qualifications* on page 54
- *Resumes and Account Team Information* beginning on page 307
- A personal biography is provided on page 222

BI will allow the City to approve Mr. Elliott's position or replacement.

13. Litigation—Related Testimony

BI understands the critical importance of adhering to the stated Litigation-Related Testimony requirements and we agree to uphold these requirements, as further stated below.

a) If requested as a part of litigation, the Proposer shall be required to provide expert testimony regarding its monitoring equipment and system specifications, as well as the accuracy and reliability of the reports/results. The Proposer shall make available qualified personnel to provide expert testimony as requested or subpoenaed.

BI is fully prepared to describe our monitoring equipment methodology and performance in legal proceedings upon the receipt of a subpoena. Technicians from BI's Engineering Department, supervisory personnel from BI Monitoring Operations, and product management personnel regularly respond to subpoena requests.

BI agrees to provide testimony in the form of a written affidavit, as a deposition in a teleconferencing format, or in person if subpoenaed.

b) The Proposer shall ensure that its personnel responds timely and/or appears as stipulated in the request and/or subpoenas.

We ensure that the assigned BI employees respond to subpoena requests—or appear as stipulated—in a timely manner and in accordance with the specified timeframes. To process all subpoena requests, BI will follow our established process:

1. Upon receipt of a subpoena, BI will review the request
2. If the request is from a third-party outside of the City, BI will work with the City to receive approval to release the information
3. Once BI's receives approval to release the subpoenaed information, we will work internally to gather the requested information
4. Once gathered, the requested information is returned to the party who submitted the subpoena
5. In the event that a BI employee is required to testify, BI will provide a qualified expert to appear in court as needed

BI provides electronic monitoring services for more than 1,400 unique agencies nationwide. We have extensive experience responding to subpoenas in a timely and professional manner.

c) The Proposer shall supply in format and number requested by City a record of offender movements during specified time frames for investigative or judicial purposes. The format shall include, but not be limited to, CD's, screen shots, supporting narrative, etc.

In order to best support expert witness testimony—or City-requested investigative or judicial purposes—BI will provide the requested record of offender movements in the format and number requested. These formats can include CD, screenshot, written narrative, or DVD.

d) All costs for Litigation Related Testimony shall be included in the prices offered; however, reimbursement can be sought through individual jurisdictions when available

All costs for litigation testimony are included in the items contained within the *Pricing Proposal*; however, in alignment with this requirement, BI reserves the right to seek reimbursement when available through individual jurisdictions. If requests for BI representatives to provide in-person testimony become frequent and/or extensive, BI may request reimbursement of reasonable costs incurred for travel, lodging, and time.

14. Advertising/Promotions

BI will not issue news releases, advertisements, news articles, statistical data, offender information, program information—or any other information related to the City's monitoring initiatives—without obtaining prior written approval from the City. As an industry leader in providing highly secure monitoring solutions, BI understands and respects the proprietary nature of the information collected and reported by our technologies and systems.

15. Provision of Database at Contract End

Upon the expiration of a contract resulting from the RFP—or termination by any other method—BI will provide the City with the most updated copy of the program data stored within the monitoring computer system. This includes all historical data, the data dictionary, file layouts, code tables, code values, data relationships, keys, and indices. We will provide read-only licenses that authorized City personnel may use for a specified period, and we will translate data into a standard and agreed upon format.

Product Specifications (RFP Section D.3)

BI's Proposed Solution—*Supporting the City and U.S. Communities Participating Public Agencies in providing viable alternatives and meaningful supervision of offenders in the community to protect public safety.*

Understanding that the City faces unique challenges in operating an Offender Monitoring Program, BI has drawn from our experience supporting the City to develop a customized solution. This section of BI's response summarizes our ability to meet all City needs with our innovative technologies and responsive services. In alignment with *RFP Section D.3,* this portion of BI's proposal describes:

***1. Active, Passive, and Hybrid GPS**—Innovative and proven GPS technologies enhance public safety while decreasing officer workload.*

To the best of our knowledge, the BI LOC8 is the only GPS solution equipped with Wi-Fi location detection and a proximity sensor.

BI's proposed solution includes the newest and smallest GPS device available in the industry, the BI LOC8. The LOC8 is a durable, lightweight, GPS device worn around the offender's ankle 24/7. By using five location detection technologies—including autonomous GPS, assisted GPS, Wi-Fi, CellLocate, and curfew monitoring—the LOC8 accurately tracks offenders in all environments. The device has been proven effective through use in the field by adult and juvenile agencies at the local, county, state, and Federal level. **Released in 2015, there are approximately 35,000 LOC8 devices in active use.** The reliability of the location data collected by the LOC8 has the potential to decrease officer workload by reducing alerts related to faulty equipment.

BI's solution also includes the ExacuTrack One device, which is currently in use by the City. Released to the industry in 2009, there are more than 23,000 active ExacuTrack One devices in use in the United States.

***2. Radio Frequency**—Accurate curfew monitoring in any environment and for any population.*

BI invented RF monitoring solutions for use in community corrections programs, releasing our first RF product in 1985.

BI's HomeGuard and GroupGuard Radio Frequency (RF) solutions provide reliable cellular and landline curfew monitoring. With accuracy in mind, BI engineers incorporated several features into the HomeGuard and GroupGuard geared towards strictly monitoring offender schedules. These features include multiple tamper technologies, dual antennas to provide 360° monitoring, and noncommercial frequencies to prevent signal duplication. Available in landline and cellular models, BI's solutions can monitor individuals or groups of offenders, providing flexible technology capable of accurately tracking any population. **With more than 14,400 active units, the HomeGuard is the most extensively used RF monitoring technology in the nation.**

***3. Voice Tracking Verification and Monitoring**—Biometrically identify offenders to verify locations without reliance on equipment, offering cost-effective monitoring solutions.*

BI's VoiceID is an automated system that verifies each client's identity through biometric "voiceprint" authentication, distinguishing among a variety of physiological characteristics of an offender's vocal tract. The VoiceID system can monitor location compliance through automated outbound calls as well as required inbound calls that offenders or pretrial defendants make from various approved locations. As a cost-effective alternative to traditional electronic monitoring, VoiceID does not require any hardware in the offender's home or installed on the individual being monitored.

4. Breath Alcohol Monitoring—*Highly accurate breath alcohol monitors provide reliable data while offenders are at home or in the community.*

BI's solution includes two breath alcohol-monitoring solutions: the highly mobile and portable BI SL2, and the in-home, landline RF-compatible Sobrietor. The BI SL2 is an ideal tool for high, medium, or low-risk offenders, offering alcohol detection, photo verification, and location monitoring with each test. The BI Sobrietor is an in-home breathalyzer device that is compatible with BI's landline HomeGuard RF curfew monitoring solution—allowing City personnel the ability to test an offender upon reentering the range of the RF receiver.

Our two-device solution allows the City to assign a device to either confirm curfew compliance through a landline RF solution, or track offender wherabouts via cellular and GPS.

Enhanced Breath Alcohol Monitoring. BI's goal of providing the most reliable and secure breath alcohol solutions continues to drive our research and development processes. We are currently developing a next-generation breath alcohol device that improves upon the mobility and security of the SL2 solution. This solution will have the same size and shape as the SL2, incorporate a larger fuel cell for increased accuracy, and provide enhanced ruggedness and durability.

5. Transdermal Alcohol Monitoring—*Continuously and precisely monitor offender alcohol intake through court-validated fuel cell technologies.*

The BI TAD is a continuous alcohol-monitoring device worn around the offender's ankle 24/7. TAD uses court-validated transdermal technology to detect alcohol consumption and uses RF technology for curfew monitoring. Like the Sobrietor, TAD is paired with a HomeBase receiver that reports alcohol data, curfew information, and equipment events to the monitoring computer via landline telephone or cellular communication.

BI TAD combines alcohol and curfew monitoring into one device.

All BI's alcohol monitors utilize scientifically proven sensor technology to reliably measure alcohol content. Each device meets the Daubert standard for court admissibility. BI understands the rigors of these standards and their key elements including scientific theory, peer review, reliability of a known error rate, and general acceptance within the scientific community.

6. Supplemental Support Services—*Enhanced monitoring services aimed at alleviating administrative, technical, and data management workloads.*

Through our bi-lingual monitoring center based in Aurora, Illinois, BI is excited to offer a solution designed to meet the needs of the City and any Participating Public Agencies that require services beyond alert notification and 24/7/365 technical support. By offering an automated check-in solution, documenting officer contacts with offenders, proactively managing alerts, processing warrants, and collecting fees, BI's Monitoring Operations team has the potential to drastically reduce administrative workload for officers.

7. Smartphone Application—*Secure mobile application enables real-time messaging, self-reporting, and check-in capabilities to provide an additional level of passive monitoring.*

The newest addition to BI's suite of monitoring solutions, SmartLINK provides several tools that ease officer and offender communication. SmartLINK includes messaging and identity verification tools that enable officers to directly communicate with offenders. In addition, SmartLINK incorporates a *Check-In* and *Self Report* module that collects location information and verifies the offender's identity. These features verify offender identity and compliance with curfews, appointments, or requirements.

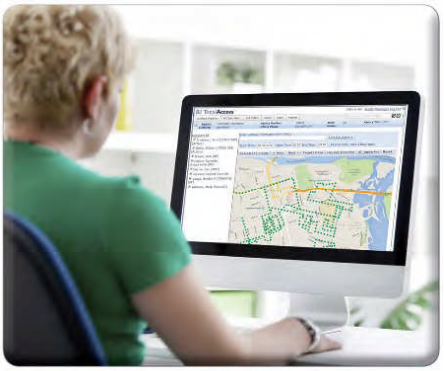
8. Data Analytics Software—*Comprehensive analytics engine to monitor officer's alert processing trends and offender behavioral patterns.*

BI Analytics is an enhanced feature of TotalAccess that uses advanced technologies to analyze the large amounts of data produced by GPS monitoring. The tools within Analytics let officers easily identify offender patterns and pinpoint risky behaviors—allowing the officers to focus on the highest risk individuals. In addition, BI Analytics provides powerful tools for administrators to assess overall program health and operating efficiencies. By evaluating officer effectiveness, City stakeholders can determine if an officer is overwhelmed or not following alert closure protocols. For example, supervisory personnel can run officer performance metrics that detail the number of alerts per offender, average close time, and alert distribution activities.

9. Online Monitoring Software—*A suite of software solutions provides consolidated data and actionable information to direct officer priorities.*

BI designed our TotalAccess software platform to be comprehensive, easy-to-use, and web-based to provide officers with meaningful monitoring data while in the field or in the office. As a single platform that supports all BI equipment, officers can use TotalAccess for all monitoring tasks without the need to toggle between multiple interfaces for different equipment types. The accessibility, single system, and customizations made to TotalAccess provides critical program information to officers to prioritize their caseloads.

As the incumbent vendor, BI can immediately fulfill all requirements for every category of equipment and services, something no other vendor in the industry can offer.



The efficiencies of a single system have the potential to enhance offender supervision by allowing officers to spend more time on tasks meant to rehabilitate offenders and ultimately reduce recidivism.

1. Active, Passive and/or Hybrid Global Positioning Satellite Tracking (GPS) Category

The City and Participating Public Agencies oversee offenders that require intensive supervision with Active, Passive, and Hybrid GPS technologies. The population placed on monitoring technology is diverse and may include offenders from separate and unique correctional agencies.

To monitor this diverse population, the City requires reliable and flexible GPS technology that incorporates use of an RF beacon. BI proposes the use of both the ExacuTrack One and our newest and most advanced GPS device—the BI LOC8—to meet the monitoring needs of the City. BI's proposed solution is described by the following graphic.

GPS Tracking—*Dependable and easy to use GPS equipment provides the City with reliable location information, multiple communication technologies, and innovative solutions for offender monitoring.*

Designed specifically to monitor offenders that are mandated to participate in community-based supervision programs, the LOC8 accurately tracks and captures location information on a 24/7 basis and communicates this information to BI Monitoring Operations. The device incorporates a field-replaceable, adjustable strap; two external, interchangeable batteries for a minimally restrictive charging solution; and multiple tamper detection technologies.

Agency personnel can easily pair the LOC8 with a beacon that securely transmits RF signals. This combination of technologies provides the City with the flexibility to use RF curfew monitoring when the offender is home and GPS tracking when the offender is in the community—all managed through a single solution. When the LOC8 is in range of the paired beacon, the ankle-worn device seamlessly transitions to RF technology. Using a beacon extends the LOC8 external battery charge and provides accurate location detection and curfew monitoring in an environment that may have limited GPS satellite coverage—for example, within the offender's home or place of employment.

Figure 23. BI LOC8 and Beacon
The beacon provides RF monitoring and also charges the LOC8 external battery.

BI's solution also includes our ExacuTrack One GPS solution, currently in used by the City and U.S. Communities Participating Public Agencies. BI ExacuTrack One is a single-piece, market leading GPS device that participants wear on their ankle 24/7. Equipped with multiple location detection technologies—including GPS and Advanced Forward Link Triangulation (AFLT)—ExacuTrack One works accurately and reliably in a wide variety of environments. The ankle-worn device uses a cellular connection to send its recorded data to the central monitoring computer.

As further detailed below and on the immediately following pages, the LOC8 and ExacuTrack One meets, and often exceeds the specifications.

a) Device shall be waterproof to at least 15 feet, durable, shock-resistant, washable and shall comply with FCC regulations.

The LOC8 and ExacuTrack One are made of hypoallergenic materials and are proven to function reliably under normal atmospheric and environmental conditions. BI's GPS trackers are waterproof up to 15 feet; durable; and shock, vibration, and moisture resistant.

We designed and manufactured the LOC8 and ExacuTrack One to allow for repeated proper sanitization. After removing the device from the offender's ankle, we recommend that City personnel wipe the device with a soft cloth—using Lysol® or Sporicidin® as a disinfectant if needed. Staff can also clean the LOC8 or ExacuTrack One in a standard dishwasher, on the light cycle with no detergent.

The LOC8 is certified by the FCC as shown in *Table 13* below.

Table 13. LOC8 FCC Certification

Category	BI Device	FCC Certification
GPS	BI LOC8	CSQ-LC800A
	BI LOC8 Beacon	TLZ-CU28
	ExacuTrack One	TS5-6055M-ET300
	ExacuTrack One Beacon	TS5-EB300

b) The unit shall have tamper detection utilizing electronic and/or fiber optic mechanisms. Once the unit detects a strap tamper violation, it shall send a unique tamper signal to the central host system to alert staff of a violation.

To the best of BI's knowledge, the LOC8 is the only GPS device available that has proximity tamper detection technology.

BI has designed our GPS strap tamper detection with the goal of eliminating false tampers. We understand that detecting and reporting attempts to damage or remove the device are critical to the City's operation. Accordingly, the LOC8 and ExacuTrack One promptly send the monitoring computer system a "Tracker Proximity Tamper" message if the device loses contact with the offender's ankle and a "Tracker Strap Tamper" message if the offender cuts, stretches, removes, or disassembles the fiber optic strap.

In addition, the LOC8 and ExacuTrack One promptly report no motion events and case tampers to the monitoring system.

c) Device straps should be replaceable in the field and require minimal training for City staff.

The LOC8 and ExacuTrack One attach around the offender's ankle with a field-replaceable strap. With minimal training and tools, City personnel can easily replace a LOC8 or ExacuTrack One strap in the field.

d) The unit shall include motion detection.

Internal motion sensors detect when the LOC8 and ExacuTrack One has been motionless for a specified amount of time—as well as when the device begins moving again. The LOC8 and ExacuTrack One generate a "No Motion" event to indicate that the offender may have removed the device from their ankle. The LOC8 and ExacuTrack One generate a "Tracker Moving" event when the device resumes motion.

e) City staff shall be able to communicate with the offender through a minimum of one way communication. The contractor's software shall provide City staff the ability to send messages on command.

Using BI's TotalAccess software, City personnel can configure the GPS trackers to notify the offender of critical events as follows:

- Automatically play an audio message when a specified zone event occurs
- Play an audio message in response to an on-demand request from City personnel
- Emit a unique vibration pattern to notify the offender of various events (LOC8 Only)
- LED display the GPS status, battery status, and beacon range status

Paying attention to the feedback of our public-sector partners has allowed BI to identify product enhancements deemed important to program operations; therefore, our GPS devices were improved to incorporate all possible upgrades. For example, we learned sending messages to offenders on command not only improves compliance, but also acts as a form of alert resolution. In addition, BI's collaboration with our customers revealed the importance of discretion when generating offender notifications. We even incorporated vibrations in the LOC8 for offenders who are hearing-impaired. *Table 14* further specifies how the LOC8 and ExacuTrack One communicate critical monitoring events to offenders via audio/pre-recorded messages and vibration notifications.

Table 14. LOC8 Ability to Communicate with Offenders

Event	Available Offender Notifications		
	Automated Audio Message	*On-Demand Audio Message*	*Vibration Notification*[4]
Entered Exclusion Zone	✓		✓
Exited Exclusion Zone	✓		✓
Failed to Enter Inclusion Zone	✓		✓
Entered Inclusion Zone Late	✓		✓
Exited Inclusion Zone Early	✓		✓
Entered Master Inclusion Zone	✓		✓
Exited Master Inclusion Zone	✓		✓
Call Officer Now		✓	✓
Low Battery, Recharge Unit		✓	✓
Pay Fees		✓	✓
Report to Office		✓	✓

[4] Vibration notification is only available with LOC8

f) The unit shall provide a feature for the offender to acknowledge the one way communication.

To help foster communication between the monitoring computer system and the offender, the offender can easily acknowledge their receipt of a notification by tapping the LOC8. Similarly, the ExacuTrack One has a button that offenders press to acknowledge receipt of communication.

g) The unit shall be configurable to collect location data in Active, Hybrid, and Passive modes without making any adjustments to the unit hardware.

The LOC8 and ExacuTrack One are highly configurable devices that allow City personnel to track offender locations and movements in the community in near real-time at the desired level of intensity. In accordance with the selected service plan, the device can be configured to collect a date- and time-stamped GPS points every minute—and as frequently as every 15 seconds. In addition, the LOC8 and ExacuTrack One can be configured to report its collected data to the monitoring computer system every 30 minutes—with more immediate reporting when violations occur.

City personnel can select the desired service plan at any time using the TotalAccess software—without the need to physically interact with either device.

Figure 24. Active, Passive, and Hybrid Monitoring

Regardless of the selected service plan, the LOC8 promptly reports the following events to the monitoring system—assuming that the device has cellular service: tamper events, loss of GPS, zone violations, loss/restoration of cell service, low battery, and curfew violations.

h) The unit shall be capable of being attached to the offender so that efforts to tamper with or remove the transmitter are obvious to visual inspection.

The LOC8 and ExacuTrack One securely attach around the offender's ankle with a durable strap that includes fiber optics for tamper detection. The fiber optic strap is reinforced for strength to help prevent stretching once installed. If the offender tampers with or removes either device, physical evidence should be apparent upon visual inspection.

Our proposed devices include several other layers of tamper detection, **exceeding** the City's specifications. Tamper detection technologies include:

- **Fiber Optic Strap.** A fiber optic strap secures the device to the offender's ankle. If the fiber optic circuitry within the strap is interrupted—for example, the offender cuts, stretches, removes, and/or disassembles the strap—the system generates a "Tracker Strap Tamper" message.
- **Motion Detection.** Internal motion sensors detect when the device has been motionless for a specified amount of time—as well as when the device begins moving again. The system generates a "No Motion" event to indicate that the offender may have removed the device from their ankle. The LOC8 and ExacuTrack One generate a "Tracker Moving" event when the device resumes motion.
- **Case Tamper**. An internal photo-optic sensor detects offender attempts to open the device case, and the system generates a corresponding "Tracker Case Tamper" message.
- **Proximity Tamper** *(LOC8 Only)*. LOC8 incorporates proximity sensors that monitor the distance between the device and the offender. If the LOC8 loses its contact with the offender's ankle, the system generates a "Tracker Proximity Tamper" message.

i) The transmitter shall emit a signal at a frequency which is not commercially interruptible at least once every 30 seconds.

The LOC8 and ExacuTrack One constantly receive signals from GPS satellites—without requiring cellular service—to obtain accurate location fixes and continuously record offender movements.

In addition, both the ExacuTrack One and LOC8 have an optional RF curfew-monitoring beacon; for the LOC8, we offer a model of the LOC8 battery charger that incorporates an RF beacon. Similar to traditional curfew monitoring technologies, when the GPS tracker is paired with a beacon, the City can determine the presence or absence of the offender from a specific location using noncommercial RF signals. The beacon continuously transmits RF signals at random intervals—approximately every 30 seconds—on noncommercial frequencies.

j) The unit shall have batteries which are easily charged by offender or shall plug into standard residential power sources. Charging system shall be lightweight and accommodate 110V power supplies. Charging system shall include indication whether the GPS tracking unit is charging or has a full charge. Charging system shall allow for a secure connection to the bracelet without undue risk to the offender.

LOC8 Battery Charging. When the external battery in the LOC8 is low, the offender easily removes the battery and places it in the stand-alone charger. We designed this recharging solution to encourage offender compliance and minimize unnecessary alerts as follows:

- The offender does not need to wait for the charging cycle to complete to insert the second, previously charged external battery into the LOC8
- The offender can rotate the two external batteries in a matter of seconds. We recommend that the offender swap the external batteries every morning and every evening
    - As a result, the offender can always have a charged battery in the LOC8 and a second battery that is charging or already fully charged
- If the offender does not have a spare external battery available, the LOC8 contains an internal battery that will continue to operate the device for up to two hours; this provides the offender with ample time to charge and/or exchange the external batteries

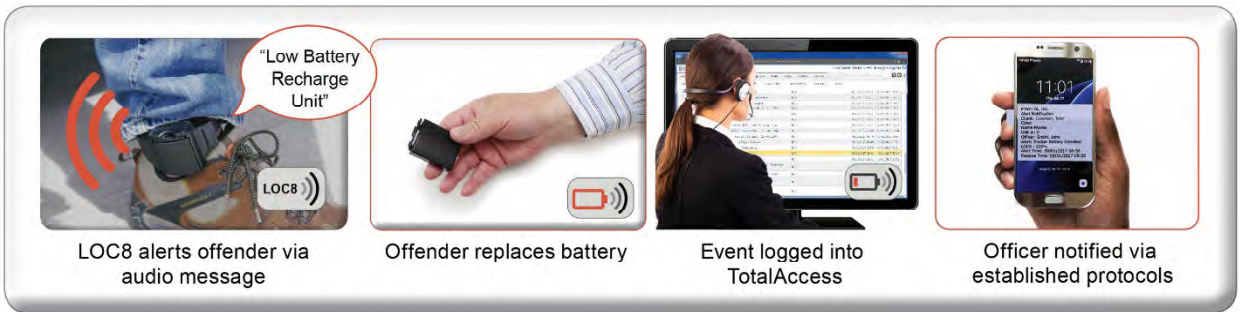


Figure 25. LOC8 Battery Charging Process

The offender does not connect their ankle-worn LOC8 to a charger or power source—which significantly reduces undue risk to the offender.

With dimensions of 3.5 x 3.0 x 1.0 inch and a weight of 3 ounces, the charger is small and lightweight. The charger plugs into standard AC power outlets. LED lights on the charger notify the offender of key charging events—including power connectivity and charge status. The charger fully recharges a depleted external battery in approximately two hours.

When used with a beacon, the LOC8 battery can last up to three days, offering the longest battery life in the industry based on known market knowledge.

ExacuTrack One Battery Charging. Participants use a wall charger in order to charge the battery in the ankle-worn ExacuTrack One tracking unit. The wall charger connects to the ankle unit with a 15-foot cord, providing participants with the ability to move while the ankle unit is charging. While charging the ankle unit battery, participants are protected from electrical surges by a built-in UL-approved transformer that incorporates surge protection and fuses.

The ExacuTrack One wall charger can fully recharge the ankle unit battery in approximately 1.5 hours.

k) The unit shall not unduly restrict the offender's day to day activities.

Wearing a LOC8 or ExacuTrack One does not unduly affect the offender's day-to-day activities—the offender can still bathe, exercise, work, and perform other routine tasks. With the most compact design of any GPS device in the industry, the LOC8 continually delivers robust location tracking in a minimally restrictive manner.

l) At a minimum, the unit shall detect, record, and alert City staff for the following events: low battery, battery charging, lost GPS coverage, zone violation, curfew violation, communication loss, and equipment tamper.

BI understands that communication of critical events is crucial to accurately monitoring offenders in the community. Accordingly, the LOC8 and ExacuTrack One will generate key messages in response to the events identified in *Table 15.*

Table 15. GPS Trackers—Communication of Critical Events

Event Type	Tracker-Generated Message	Message Description
Battery Status	"Tracker Battery Removed" *	The external battery has been removed
	"Tracker Battery Installed" *	The external battery has been successfully installed
	"Tracker Low Battery"	The external battery has 4 hours of life remaining, or has been removed for more than 40 minutes
	"Tracker Internal Battery Charged" *	The internal battery is charged to full capacity
Cell Status	"Cell Signal Lost"	The device is not within cellular coverage
GPS Status	"Seeking Location"	The device is attempting to acquire a location fix. This event occurs in the following situations: • The device is activated for the first time • The device has restarted • The device leaves a *No GPS* state The device leaves the range of the RF beacon.
Tamper Status	"GPS Jam Detect"	The device has detected RF interference
	"Tracker Case Tamper"	The device case has been tampered with or opened

Table 15. GPS Trackers—Communication of Critical Events		
Event Type	**Tracker-Generated Message**	**Message Description**
	"Tracker Proximity Tamper" *	The device has lost contact with the offender's ankle
	"Tracker Strap Tamper"	Fiber-optic circuitry in the strap has been interrupted
Zone Status	"Failed to Enter Inclusion Zone"	The offender failed to enter a required zone in accordance with City-designated schedules
	"Inclusion Zone Enter"	The offender entered a required zone
	"Master Zone Leave"	The offender left a zone that they must remain within on a 24/7 basis (for example, a state or county)
Curfew Status	"Beacon Unauthorized Leave"	The offender left the beacon range during a time when they were scheduled to remain in range
	"Beacon Unauthorized Enter"	The offender returned in range, during a time period when they were scheduled to already be in range

* *indicates messages generated only by the LOC8*

m) Transmitter straps shall be adjustable to fit any size offender. Straps of multiple sizes are encouraged.

The LOC8 and ExacuTrack One attach around the offender's ankle with an adjustable strap:

- The LOC8 strap has a "cut to fit" design to ensure secure sizing and attachment to the unique body sizes of various offenders. Since the LOC8 strap is adjustable in length, City personnel can streamline inventory management by eliminating the need to maintain straps in several sizes.
- The ExacuTrack One has a 12-inch strap that can be adjusted in .25-inch increments to comfortably fit each participant, and field-replaceable straps ease inventory management.
    - In addition, we manufacture a larger, 19-inch strap to ensure the unit will securely attach to individuals of varying sizes.

The straps are made of hypoallergenic synthetic rubber and do not contain any metal or steel.

2. Radio Frequency/RF Category

RF monitoring is a proven tool that allows offenders to live and work in the community while still receiving rehabilitative programming services and complying with mandated terms of supervision. While RF curfew monitoring can be an extremely effective tool to facilitate offender compliance with release conditions, it is important that the technology be reliable and accurately report program data. Additional needs associated with RF monitoring include:

- **Easy to Use Technology.** Any electronic monitoring device that is a burden to use will not be an effective tool for supervision. The City requires an RF curfew monitoring technology that is not only easy for officers to set up and use, but also requires little or no interaction from the offender.
- **Flexible Scheduling Capabilities.** Many offenders placed on electronic monitoring have sporadic schedules that change from day-to-day. To ensure compliance while accommodating complex offender schedules, the City will continue to benefit from our curfew monitoring solution that can accommodate daily changes to the routines of those monitored.
- **Dependable Tamper Detection.** When using an electronic monitoring technology, it is always important that the City be notified of any attempt to tamper with the device. The City requires an RF monitoring solution that incorporates multiple tamper detection technologies and reliably generates alerts to any tamper attempt.

BI developed the first RF solution for the criminal justice system in 1985. In 33 years of monitoring offenders, BI has reliably monitored hundreds of thousands of offenders.

BI's proposed RF solution, designed to meet these needs, is summarized below.

Radio Frequency/RF	BI HomeGuard 200 and 206 BI GroupGuard BI Drive-BI

BI HomeGuard—*Accurate curfew monitoring in any environment and for any population.*

The City will be able to use the HomeGuard 200, HomeGuard 206, or GroupGuard to monitor offenders in any environment. BI's provision of three RF devices allows the City to assign the appropriate device for each offender. In areas of poor cellular coverage, the HomeGuard 200 communicates compliance via a standard telephone line. For offenders that do not have a landline connection, or in situations where wireless service is preferred, the HomeGuard 206 can communicate via cellular signal. If several offenders live in the same residence, the GroupGuard, a variation of the HomeGuard receiver, can monitor multiple offenders from one receiver. In addition, the Drive-BI allows officers to remotely confirm offender locations while at work or other scheduled appointments.

As the remainder of this section demonstrates, BI's RF solution meets and often exceeds the City's and Participating Public Agencies' requirements.

Transmitter

i) The Proposer shall propose a transmitter, which shall be comfortably worn on the ankle or wrist of the participant and shall meet the following requirements: i) The device shall be small, lightweight and not pose a health hazard nor unduly restrict the activities of the participant; and of a size to be worn under normal slacks.

Figure 26. Continuum of RF Solutions

BI RF solutions provide reliable cellular- and landline-based curfew monitoring and incorporate multiple tamper detection technologies, dual antennas, and use of a noncommerical frequency to accurately detect and communicate offender presence and absence from the home.

The HomeGuard transmitter is comfortably—yet securely—installed and worn around the offender's ankle. Weighing 3.3 ounces—roughly the weight of a deck of playing cards—the transmitter is small, lightweight, and fits discreetly under normal pant legs. The transmitter strap is made of hypoallergenic material and does not contain any metal, steel, or alloy. Accordingly, the transmitter does not pose a health hazard or unduly restrict the daily activities of the offender.

ii) The device shall be capable of being securely attached to the participant's ankle or wrist and report any and all efforts to tamper with or remove the device.

We designed the HomeGuard transmitter to attach around the offender's ankle securely, be highly durable, and accurately detect offender attempts to damage the monitoring equipment. Key aspects of our transmitter tamper detection include:

Figure 27. Physical Evidence of Tamper

City personnel will be able to determine if an offender has tampered with the HomeGuard Transmitter upon visual inspection.

- Electronic circuitry inside the strap and proximity sensors detect and report if the transmitter strap is damaged or severed; if the transmitter case is damaged or separated from the strap; or if the transmitter is removed from the offender's leg—even if it is removed underwater and/or without severing the strap.
- When a transmitter tamper occurs, the device continuously emits a tamper signal. The HomeGuard receiver detects this tamper signal when the transmitter is within range, and the receiver promptly sends a "Proximity Tamper" and/or a "Strap Tamper" message to the monitoring computer system.
- An interlocking latch system helps secure the transmitter around the offender's ankle. Physical evidence of transmitter tamper or removal attempts is typically noticeable upon visual inspection.

iii) Transmitter straps shall be adjustable to fit any size offender. Straps of multiple sizes are encouraged.

The HomeGuard transmitter attaches to the offender with an adjustable, field-replaceable strap to ensure a comfortable fit on any offender. We provide a 13-inch adjustable strap with each transmitter and 19-inch and 25-inch adjustable straps are available to City personnel upon request.

iv) The device shall be shock resistant, water and moisture proof up to at least 15 feet, and function reliably under normal atmosphere and human environment conditions. Device shall also conform to all FCC regulations.

The transmitter is shock resistant, waterproof to 50 feet, and moisture-proof. During the development and design of the HomeGuard transmitter, internal personnel and third-party companies performed rigorous durability testing. This Highly Accelerated Life Testing (HALT) exposed the HomeGuard to extremes in

environment, shock, and vibration to ensure accurate functionality under normal atmospheric and human living conditions.

The transmitter is certified by the FCC as shown in the table below.

Table 16. HomeGuard Transmitter FCC Certification

Category	BI Device	FCC Certification
RF	BI HomeGuard Transmitter	CSQHG200A

v) The device shall contain a radio transmitter whose coded radio signal shall be unique to the individual to whom it is attached so as to enable positive confirmation of the presence/absence of the participant within an adjustable range of a minimum of 50 feet of the receiver.

Each BI device has a unique equipment ID number. This ensures that each device is unique to the offender to whom the City assigns a transmitter and receiver. The HomeGuard transmitter emits encrypted RF signals that contain its unique ID number. To enable positive confirmation of the presence/absence of the offender within the specified range, the HomeGuard receiver will only detect the RF signals of the assigned transmitter that is attached to the offender.

The HomeGuard receiver can detect RF signals from the assigned transmitter at 35, 75, or 150 feet, **exceeding** requirements.

vi) The transmitter shall emit a coded radio signal at least once every minute on a continuous basis during the operating life of the battery.

Throughout the operating life of the battery, the HomeGuard transmitter constantly emits signals (approximately every 30 seconds) on the noncommercial 314.2 MHz radio frequency. Each transmitter incorporates a unique equipment ID, random transmission intervals, and a coding encryption scheme. These features are designed to discourage offender attempts to trace, interfere with, or duplicate transmitter signals. Commercially available transmitting products normally found in residential settings do not affect the HomeGuard system.

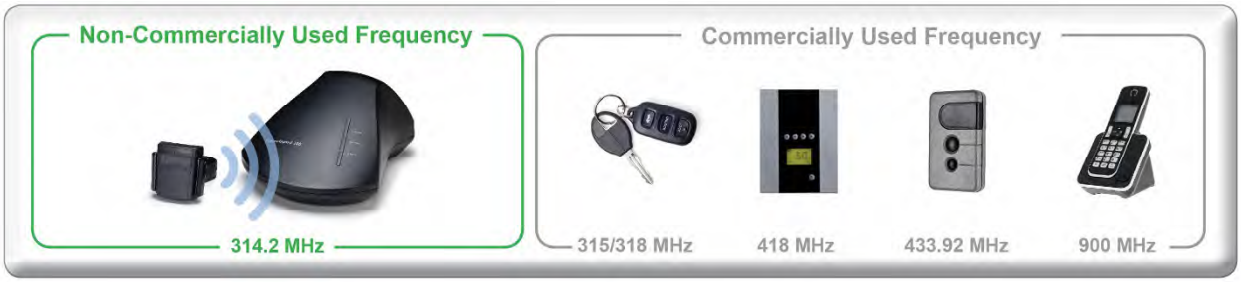

Figure 28. HomeGuard Operational Consistency

Household equipment that use radio frequencies do not interfere with the HomeGuard and GroupGuard devices.

vii) The transmitter shall be battery powered and designed for a minimum continuous operating battery life of a minimum of approximately six months.

The HomeGuard transmitter battery continuously operates the device for at least one year without the need for battery recharging—**exceeding** RFP requirements. The system generates a “Transmitter Low Battery” message approximately five days before the battery is depleted, providing ample time for replacement. City personnel can easily replace a transmitter battery in the field or in the office.

Receiver

i) The Proposer shall propose a receiver to be located in the participant's home (conforming to FCC standards and regulations), which shall continuously monitor the participant's transmitter and meets the following requirements: i) The receiver shall be powered by 110-volt A.C. power with internal auto-recharging battery capable of supplying back up power for a period of more than 24-hours. The electrical wire connecting to A.C. power shall be UL approved, and of sufficient length to adequately connect to the household AC power.

The HomeGuard receiver is installed in the offender's home and continuously monitors for RF signals from the assigned transmitter worn by the offender. The receiver plugs into a standard AC power outlet with a UL approved cord of sufficient length, for accommodation of typical household environments. The power and phone inputs on the receiver incorporate built-in gas discharge tubes and internal fuses for electrical surge protection.

The receiver also contains an internal backup battery that can continuously power all normal receiver functions for at least 48 hours in the event of AC power loss, **exceeding** RFP requirements. When the receiver reconnects to the power source, the backup battery automatically recharges.

The receiver is certified by the FCC as shown in the table below.

Figure 29. Easy Receiver Installation
The HomeGuard receiver connects to AC power and communicates with the monitoring system via any type of landline phone.

Table 17. HomeGuard Receiver FCC Certification

Category	BI Device	FCC Certification
RF	BI HomeGuard 200 Receiver	GN7USA-27502-MD-E
	BI HomeGuard 206 Receiver	GN7USA-27502-MD-E

ii) The receiver shall be capable of full communications to the Proposer's central computer system by connection to the participant's telephone company wall outlet using a standard RJ-11-C modular telephone connector.

The HomeGuard receiver can communicate over any brand or make of landline telephone—including rotary, pulse, or touch-tone phones. City personnel simply plug the receiver into a standard landline jack using BI-supplied cords.

iii) The unit shall be directly connected to the offender's home phone line, or through an optional Cellular Receiver, to report events and alerts to the contractor's central monitoring computer.

The HomeGuard receiver is available in two models to provide accurate curfew monitoring in all environments. The HomeGuard 200 receiver communicates with our monitoring computer system via landline telephone connection, and the HomeGuard 206 receiver includes both cellular and landline telephone communication capabilities. BI intends to introduce a future RF product with LTE Cat M1 capability, which will operate on the AT&T/Verizon cellular networks to the City and Participating Public Agencies upon official product deployment.

iv) The participant's receiver shall accept and process radio signals only from the unique signal of that same participant's transmitter.

City personnel can pair any HomeGuard transmitter with any HomeGuard receiver—providing the City with additional inventory management flexibility. Once the specified transmitter and receiver are paired together within TotalAccess, the home-based receiver will only recognize and detect signals from the paired transmitter worn by the offender.

Any unassigned HomeGuard transmitter can be paired with any unassigned HomeGuard receiver—significantly streamlining inventory management.

v) The receiver shall detect attempts to simulate or duplicate the participant's transmitter radio signal by a foreign device and immediately report detection of such an occurrence to the central computer.

Our HomeGuard RF solutions provide reliable landline and cellular-based curfew monitoring. BI's engineers incorporated several features into the HomeGuard system specifically to increase accuracy and hinder offender attempts to simulate or duplicate transmitter signals. These features include multiple tamper detection technologies; dual antennas to provide 360° monitoring; and unique equipment IDs, random transmission intervals, a coding encryption scheme, and use of a noncommercial frequency to prevent signal duplication.

vi) The receiver shall contain an internal clock and sufficient memory to continue and store with a time stamp of all events and activities per day that shall occur for at least the next 5 days, in the event the communications link with the Proposer's central computer system is disrupted. The receiver shall be capable of operating without AC power for a minimum 24-hours and events can be stored for up to a minimum of 10 days.

The HomeGuard receiver incorporates a non-volatile memory that can securely store up to 4,800 date- and time-stamped messages in the event that the receiver is unable to communicate with the monitoring computer system. This is approximately one week of data. Stored messages are saved even in the event of power loss or complete battery depletion—remaining in the receiver memory indefinitely until communication with the monitoring computer is restored or until the memory becomes completely full. If AC power is lost, the receiver backup battery can continuously operate the receiver as normal for at least 48 hours, **exceeding** RFP requirements.

vii) The receiver shall detect, and store with time stamp the following events, at a minimum, and promptly communicate them to the central computer: (items 1-9 addressed in table below).

The HomeGuard equipment date and time stamps all events upon occurrence. The receiver promptly communicates the information provided in *Table 18* via landline or cellular connection, and the monitoring computer system records a date and time stamp when it receives information from the field equipment.

Table 18. HomeGuard Receiver Generated Events

RFP-Required Event	HomeGuard Generated Notification
(1) Arrival of transmitter within the range of the receiver	The system generates "Enter" and "Leave" events when the offender enters/leaves the range of the receiver in compliance with an established schedule.
(2) Departure of transmitter out of range of the receiver after a preset programmable time interval	An "Unauthorized Leave" occurs when the offender leaves the receiver range during a time when they are scheduled to be at home—and the receiver does not receive a signal from the transmitter before the specified Leave Window expires.

Table 18. HomeGuard Receiver Generated Events	
RFP-Required Event	**HomeGuard Generated Notification**
(3) Tampering and/or removal of the transmitter from the participant	The transmitter generates a “Proximity Tamper” message if the offender removes the transmitter from their leg and generates a “Strap Tamper” message if the offender cuts or otherwise compromises the transmitter strap. The receiver detects these messages when the transmitter is within range and promptly reports to the monitoring computer system.
(4) An attempt to simulate or duplicate the radio signal by a device other than participant's own transmitter	The HomeGuard system incorporates multiple features to hinder offender attempts to trace, simulate, interfere with, or duplicate the RF signals. The HomeGuard transmitter incorporates a unique equipment ID, random transmission intervals, a coding encryption scheme, and emits signals on the noncommercial 314.2 MHz radio frequency.
(5) Loss and/or restoration of the home's commercial power	The receiver records and reports “Power Loss” and “Power Restore” messages to communicate loss/restoration of commercial power within the offender’s residence.
(6) Loss and/or restoration of the communication service (the disconnection event shall be sent as soon as the communications service is restored)	If the receiver cannot communicate with the monitoring computer system, the receiver records a “Phone Loss” (HomeGuard 200) or a “Cell Signal Lost” (HomeGuard 206) message and stores this information within its non-volatile memory. When communication is restored, the receiver promptly sends all stored messages—as well as a corresponding “Phone Restore” or “Cell Signal Acquired” message.
(7) Low battery condition of transmitter and/or receiver	The transmitter begins to emit a “Transmitter Low Battery” message when there is approximately five days of battery power remaining. The receiver detects this information when the transmitter is within range and promptly reports to the monitoring computer system. If the receiver is disconnected from AC power and the internal backup battery becomes low, the receiver promptly reports a “Receiver Low Battery” message to the monitoring system.
(8) Tampering of receiver	In addition to reporting power and communication loss/restore events, the receiver generates a “Receiver Case Tamper” message if the offender opens or otherwise damages the receiver case.
(9) Motion detection cellular devices	The HomeGuard 206 receiver promptly reports a “Receiver Motion Event” if there is sustained movement—indicating that the offender may be moving or relocating the equipment. The HomeGuard 206 reports a “Receiver Stationary” event to indicate that the receiver has returned to a no motion state.

viii) The receiver shall be capable of seizing a telephone line when not in use. It shall not seize a line in use, but instead shall deliver a courtesy signal as a yield warning to any person using the line. It shall them seize the line after the person hangs up.

If the landline phone in the offender’s residence is being used when the HomeGuard receiver attempts to contact the monitoring computer system, the receiver interrupts the call with a series of audible tones that become louder and more frequent. We designed this progressive annoyance to alert the caller that the receiver needs the phone line to communicate with the monitoring system. The progressive annoyance will continue until the phone line becomes available for receiver use.

ix) The receiver shall not pose a health or safety hazard to the participant or other family members and shall function reliably under normal household environmental and atmospheric conditions.

The HomeGuard receiver does not pose a health or safety hazard and is proven to function reliably within normal living environments and atmospheric conditions. We designed the receiver specifically for installation and use within typical home environments and minimal interaction is required between the receiver, the offender, and any other persons present within the residence.

Figure 30. Proven RF Solution

The HomeGuard system is proven to operate reliably across the City and County of Denver and Nationwide.

x) Electrical surge protectors shall be built-in or provided for connecting power and communication lines.

As the OEM of our proposed HomeGuard solution, we designed the power and telephone inputs on the HomeGuard receiver with gas discharge tubes and internal fuses to help protect against power and electrical surges.

xi) The receiver shall be capable of being installed and made operational by an officer or offender following the written instructions provided by the contractor/officer.

Authorized City personnel can easily install the HomeGuard receiver in less than five minutes:

- **HomeGuard 200 Installation.** The individual simply connects the receiver to a commercial power outlet, plugs the receiver into a standard landline jack using BI-supplied cords, and keys the receiver to the “ON” position.
- **HomeGuard 206 Installation.** The HomeGuard 206 receiver includes landline telephone and cellular communication capabilities. If only cellular communication will be used, the individual simply connects the receiver to the power outlet and keys the receiver to the “ON” position.

BI provides written instructions in both English and Spanish to further support successful installations.

3. Video and/or Voice Tracking/Verification and Message Reporting System Category

The City and Participating Public Agencies monitor a wide variety of populations—from low-risk, first time offenders to high-risk, repeat, or violent offenders. Agencies may determine that some lower-risk offenders require less intensive monitoring through a cost-effective and common approach. With these needs in mind, BI is pleased to provide a continuum of electronic monitoring solutions for this *Message Reporting System Category.*

BI's solution to this category is summarized in *Table 19.*

Table 19. Message Reporting System Solutions

Video and/or Voice Tracking/Verification and Message Reporting System Category

BI VoiceID

BI SmartLINK

Interactive Voice Response (IVR)

BI VoiceID issues outbound and accepts inbound calls to verify an offender's presence or absences from a specific location. Using voice verification biometrics, VoiceID can postitively identify an individual with extreme accuracy. *VoiceID capabilities are described within this section.*	BI SmartLINK is an offender-facing smartphone application that includes check-in and self-report modules. By downloading this application to the offender's phone, City personnel can require the individual to check-in using biometric facial recognition. The application also collects a GPS point correlated with the check-in location. *SmartLINK capabilities are described in Section 7, Smartphone Application, on page 114.*	Using a combination of technology and services, BI's IVR solution accepts inbound calls from offenders to report any signifant changes to their circumstances. Should an offender have an exception to standard questions, the IVR automatically transfers the call to a live Monitoring Specicalist that documents the information in real-time. *IVR capabilities are described in Section 6, Supplemental Support Services, Automated Check-In, on page 105.*

Base Requirements

i) The system shall work by comparing an offender's voice during a verification call to a "voiceprint," or digitized representation of the offender's voice obtained during enrollment.

BI's VoiceID is an automated system that verifies each offender's identity through biometric "voiceprint" authentication, distinguishing among a variety of physiological characteristics of a client's vocal tract. VoiceID uses this approach to compare the voice of the caller to the stored voiceprint obtained by the offender during enrollment.

ii) The system shall allow total voice enrollment, including voiceprint, in less than five minutes.

Officers can easily enroll offenders in BI VoiceID from within TotalAccess in less than five minutes. Before an offender can check-in using VoiceID, the system must establish a voiceprint template to compare the offender's voice to during future calls. The offender should speak at a normal rate and volume and reduce background noise during the enrollment process. An offender can be enrolled in less than five minutes by following these steps:

1. Once the offender is enrolled in TotalAccess, the officer will navigate to the "Voice Setup" tab. With the offender present, the officer will call BI's voiceprint enrollment line, which appears on the screen.
2. Enter the five-digit enrollment code uniquely generated for the offender. The system will confirm the name of offender, and language to be used. The officer hands the phone to the offender to create a voiceprint template.
3. To create a template the offender states their full name and must repeat five digits exactly as stated a number of times until VoiceID has established a voice template.
4. Once VoiceID has established a template, it prompts the offender to hand the phone to the officer and the officer must confirm the offender has completed the process.

Figure 31. BI VoiceID

VoiceID supports more than 30 languages.

iii) The system shall have the ability to identify the offender's presence at prescribed locations.

To verify the offender's whereabouts VoiceID will call the offender at a pre-established phone number. The location and identify of the offender is established through the following steps:

The offender receives a notification call stating that they must call into the VoiceID system from the approved phone location within five minutes.

1. The offender calls the VoiceID system within five minutes at the number provided and verifies their identity by repeating five random digits
2. If an offender calls after the five-minute window, the offender is prompted to leave a message for their officer explaining why they were late after the voice verification stage
3. Calls placed between six and ten minutes of notification are marked "Late"
4. Calls placed after ten minutes are marked "Unexpected"
5. Calls not placed after ten minutes are marked "Missed"

iv) City staff shall be able to listen to recordings of voice verification calls over the Internet.

Authorized City personnel can listen to VoiceID verification calls at any time over the internet by logging into TotalAccess.

v) The system shall have the ability to place outbound calls and receive inbound calls.

The VoiceID system can both place outbound calls and receive inbound calls, allowing flexibility to meet the varying mandated schedules associated with offender monitoring.

vi) Call schedules and alert notification options shall be customizable on a case-by-case basis.

As a highly flexible solution, authorized users can customize schedules and alert notifications on a case-by-case basis to align with agency-mandated schedules.

VoiceID Scheduling Options. Users have the ability to select two types of VoiceID schedules:

- Fixed Schedules occur on a pre-determined basis. Within TotalAccess, users can designate the frequency of re-occurrence, specify the exact date and time of the call, and add any comments.

- Random Schedules are frequently used by officers to monitor offenders required to stay in a location for the majority of the time. After designating the schedule as random in TotalAccess, users can view the specific, randomized schedule through the calendar feature of the software, as illustrated in *Figure 32*.

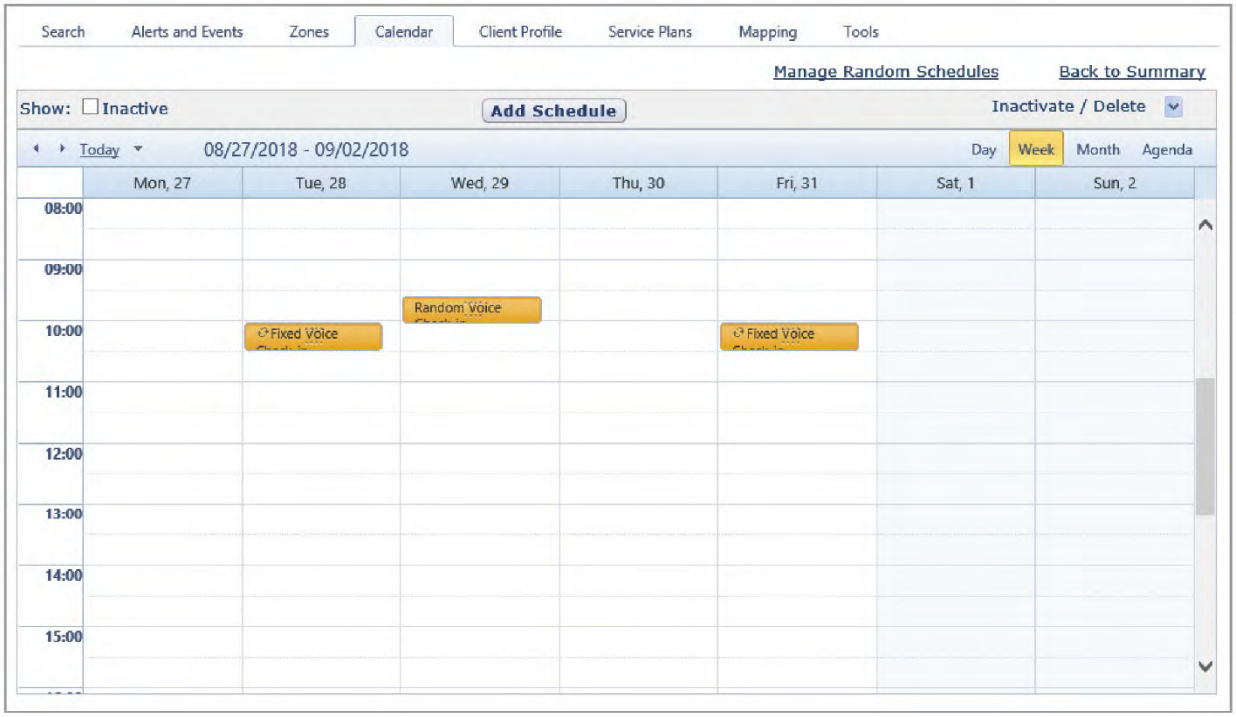

Figure 32. VoiceID Schedules

TotalAccess mirrors common calendar applications, such as Microsoft Outlook, to allow users to easily manipulate offender schedules.

Alert Notification Options. As with all BI's solutions, the City can customize the alert notification features of TotalAccess for maximum flexibility and accuracy. Users can configure TotalAccess to email, text, or fax alert notifications automatically to any designated contacts; create escalation trees within the software; designate alerts as higher or lower priority; and delay alter notification in alignment with City protocols.

vii) The system shall have the ability to individually set the number of acceptable failures before an alert is generated.

BI's Software Development team is actively engaged in writing software that would allow our equipment to satisfy this requirement independently. We anticipate the official implementation of our system's ability to individually set the number of acceptable failures before an alert is generated to be the beginning of 2019. We do, however, understand this requirement and the City's desire for it; thus, we will use all the resources at our disposal to expedite the software's completion.

viii) The system shall have such hardware and software security features as necessary to be tamper resistant.

There is no hardware associated with the VoiceID solution, so typical tamper resistant features (such as case tamper or strap tamper) do not apply. To discourage an individual other than the monitored offender calling into the system, VoiceID uses biometric voice verification and records the phone number associated with the call, for inbound check-ins. For detailed information of TotalAccess security

features—including data center security, redundant architecture, and software protection measures, please see *Cloud Services—Security Requirements* (located in the attachments portion of this proposal).

ix) If the system requires City to manage outbound calling schedules, it shall allow access only by authorized personnel with remote access via the Internet and/or via toll-free dial-in.

BI anticipates that the City and U.S. Communities Participating Public Agencies will enter the frequency and schedule of outbound calling schedules, as detailed in BI's response to *Specification iv* above. Authorized users can enter, view, and modify offender schedules by logging into TotalAccess or calling BI Monitoring Operations. BI will issue each authorized individual a secure login and password to access the software and a PIN to access live Monitoring Operations support.

x) If the system makes outbound calls to offender locations, the system shall be able to set the range of minutes between retry calls (after busy signal or no answer) and the maximum number of attempts to verify within a verification call.

BI's solutions can accommodate outbound calls to offender locations, and authorized users can set the range of minutes between retry calls or maximum number of verification call attempts.

xi) The system shall be able to allow City staff to view and print summary and analytical reports as needed to alert supervising Officers and/or City staff.

TotalAccess is equipped with powerful reporting mechanisms that allow authorized users to view summaries and analysis of offender compliance activities. With more than 40 predefined reports, users can view information about their entire caseload, from a single interface, regardless of the type of technology used to monitor the offender. Similarly, BI software engineers designed several reports specific to VoiceID, as described in *Table 20* below.

Table 20. VoiceID Reports

Report Title	Report Description
Active Cases Exception	Displays the number of open alerts for offenders enrolled in VoiceID monitoring. This report and includes the offender's case number, officer, and enrollment date.
Recent Case Activity	Displays recent VoiceID case activity by agency and date. This report contains information summarized by totals, including: • Active offenders • Newly created offender profiles • Offenders that are on hold for enrollment • Offenders that have been reactivated in the system • Offenders that have been inactivated in the system Users can run this report based on data collected in the last 24-hours, 7 days, and 30 days.
VoiceID Case Summary by Agency	Displays totals for VoiceID call alerts, alert status, and failed verify alerts for each offender, sorted by officer.
VoiceID Exceptions	Lists VoiceID offenders and Yes/No to the following: voiceprint, language, check-in, notification, random, or fixed.

xii) The system shall be able to record and print the name of the offender and the date and time of the violation.

TotalAccess records all events and alerts associated with BI's monitoring solutions, as well as the notification processes enacted by the software of BI's Monitoring Specialists. At any time, authorized users can login to TotalAccess or call BI Monitoring Operations to review enrolled offenders and the dates and times associated with violations.

xiii) The system shall demonstrate a high degree of accuracy. The method of validation and percentage of accuracy shall be explained and quantified.

BI designed VoiceID to minimize the success of an imposter checking in for an offender, and alerts are generated when caller identity cannot be verified. VoiceID is designed to detect imposters with 99% accuracy. Approximately 3–5% of initial check-ins result in exceptions that require follow-up analysis; however, after an offender has called in successfully several times, the automatic, continuous adaptation typically reduces this rate to below 1%.

Message/Day Reporting System

As detailed in the introduction to this section, BI's solution includes several message and day reporting system options, including:

- VoiceID for remote, biometric check-ins that verify offender location and identity through inbound and outbound calls
- SmartLINK application that includes a check-in module that biometrically verifies offender identity, collects a GPS point, and prompts the offender to report any significant life changes or other terms of supervision
- IVR through BI Monitoring Operations that provides a call-in number for offenders to report status changes supported by live Monitoring Specialists

As further demonstrated by the following table, BI is able to meet all message and day reporting system specifications.

Table 21. Message/Day Reporting Requirements

RFP Requirement	BI Continuum of Solutions		
	VoiceID	*SmartLINK*	*IVR*
i) Shall have call in for questions/responses.		✓	✓
ii) Shall have call in format flexibility to include multiple question format based on City needs		✓	✓
iii) Shall have the ability to call in from predetermined/designated locations	✓	✓	✓
iv) Shall have the ability to notify City personnel of any change or violation through email, pager or text messaging	✓	✓	✓
v) Shall allow instant audible voice verification replay sessions via the internet	✓	✓	

4. Alcohol Monitoring

BI's solution includes two breath alcohol-monitoring devices: the highly mobile, portable, and most widely used BrAC monitoring device, the BI SL2; and the in-home, RF-compatible Sobrietor. The BI SL2 is an ideal tool for high, medium, or low-risk offenders, offering alcohol detection, photo verification, and location monitoring with each test. The BI Sobrietor is an in-home breathalyzer device that is compatible with BI's landline HomeGuard RF curfew monitoring solution—allowing the City to test an offender upon reentering the range of the RF receiver.

Breath Alcohol Monitoring—*Highly accurate breath alcohol monitors provide reliable data while offenders are at home or in the community.*

BI SL2

The BI SL2 allows offenders to have their sobriety monitored remotely. The high-resolution internal camera includes a flash to capture pictures in low-light or dark spaces. Multiple acquisition technologies determine the device's location and capture a GPS point during each test. Each test report includes a high-resolution offender photo, breath alcohol content reading, GPS location, and time and date stamp to ensure accuracy. Battery status, messages, and test directions are displayed on the SL2 high-resolution color LCD screen. Additional key features include:

- **Adaptive Facial Recognition.** The BI SL2 device takes a high-resolution photograph of the offender during each breath alcohol test, and each photograph is spatially analyzed by Adaptive Facial Recognition (AFR) technology. The intelligent software algorithm compares each test photo to a template of multiple offender photos on file, as opposed to one master photo.
- **Simple, Reliable Testing.** An automated text message is sent to the offender's phone 15 minutes before the next test. Offenders test results are sent to the monitoring computer within approximately 60 seconds. If the test registers a positive result (.02 or higher), up to six more tests will be administered every 30 minutes or until a negative test result is produced.
- **Tamper Detection Features.** The SL2 incorporates photo recognition and temperature detection technologies to ensure the offender is submitting legitimate tests. In the event of a tamper attempt, the test is flagged and City personnel are notified via email or text message.

BI Sobrietor

BI Sobrietor is a hand-held, remote alcohol-monitoring device that detects the presence of alcohol through an individual's deep lung breath sample. Sobrietor incorporates biometric voice verification technology, fuel cell alcohol testing technology, and BI's proprietary security technology to ensure the offender is accurately identified and tested, the unit's integrity remains intact, and results are reported promptly to TotalAccess. Monitoring with Sobrietor is performed remotely using a telephone connection, allowing daily verification of compliance with alcohol restrictions.

At the beginning of each test, the Sobrietor confirms the offender's identity though biometric voice identification. The test uses audible commands to prompt the offender to respond properly to the voice verification.

Enhanced Breath Alcohol Monitoring. BI's goal of providing the most reliable and secure breath alcohol solutions continues to drive our research and development processes. We are currently developing a next-generation breath alcohol device that improves upon the mobility and security of the SL2 solution. This solution will have the same size and shape as the SL2, incorporate a larger fuel cell for increased accuracy, and provide increased ruggedness and durability.

For all equipment types, the Proposer's system shall meet the following requirements:

a) Shall identify the offender's presence at certain prescribed locations.

SL2 Location Capabilities. The portable SL2 collects a GPS point during the breath alcohol test and reports this information to the monitoring computer system when it submits the alcohol test result. In the unlikely event the unit is unable to collect a GPS point; the SL2 will use cellular tower triangulation to determine the offender's approximate location. The use of primary and secondary location detection technologies **exceeds** *RFP* requirements.

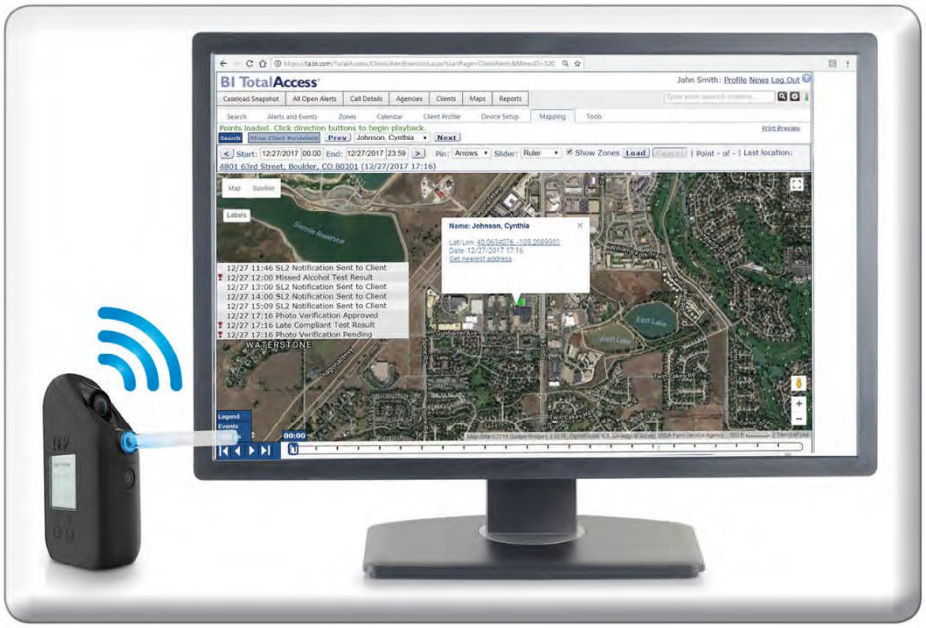

Figure 33. SL2 Location Detection Capability

Authorized personnel can view the location of the offender performing a test at any time by logging into TotalAccess.

During each alcohol test, the SL2 records a GPS point to provide the City with an accurate offender location fix. If the device cannot determine a GPS point, it uses nearby cellular towers to record a location. From within TotalAccess, authorized personnel can view a map that visually displays the location recorded at the time of the test. This feature enables authorized personnel to:

- Zoom in/out and move the map around
- View if the recorded position fix is GPS or cellular-based
- View the accuracy of the recorded position fix—measured in meters and shown as a radius

Sobrietor Location Capabilities. The Sobrietor is an in-home solution that determines if an offender is present in a prescribed location based on the receipt of a breath alcohol test. In addition, the Sobrietor can be paired with BI HomeGuard, our landline RF curfew monitoring solution to allow City personnel to mandate that the offender perform a breath test upon entering the home.

b) Handheld devices shall work by comparing an offender's voice to a voiceprint, digitized representation of the offender's voice and/or facial recognition.

SL2 Identification Capability. The SL2 takes a high resolution, digital photograph of the offender during each breath alcohol test. City personnel can view these photographs in the monitoring software at any time. The system uses innovative AFR technology to assist the City in confirming that the assigned offender was the individual who submitted to the alcohol test.

Adaptive Facial Recognition, illustrated in *Figure 34*, is more comprehensive than other facial recognition technologies—instead of relying on a single master photo that the offender may no longer resemble, AFR compares each test photo to the library of previously submitted photos. AFR continuously improves over time and adapts to subtle changes in appearance to verify the offender's identity.

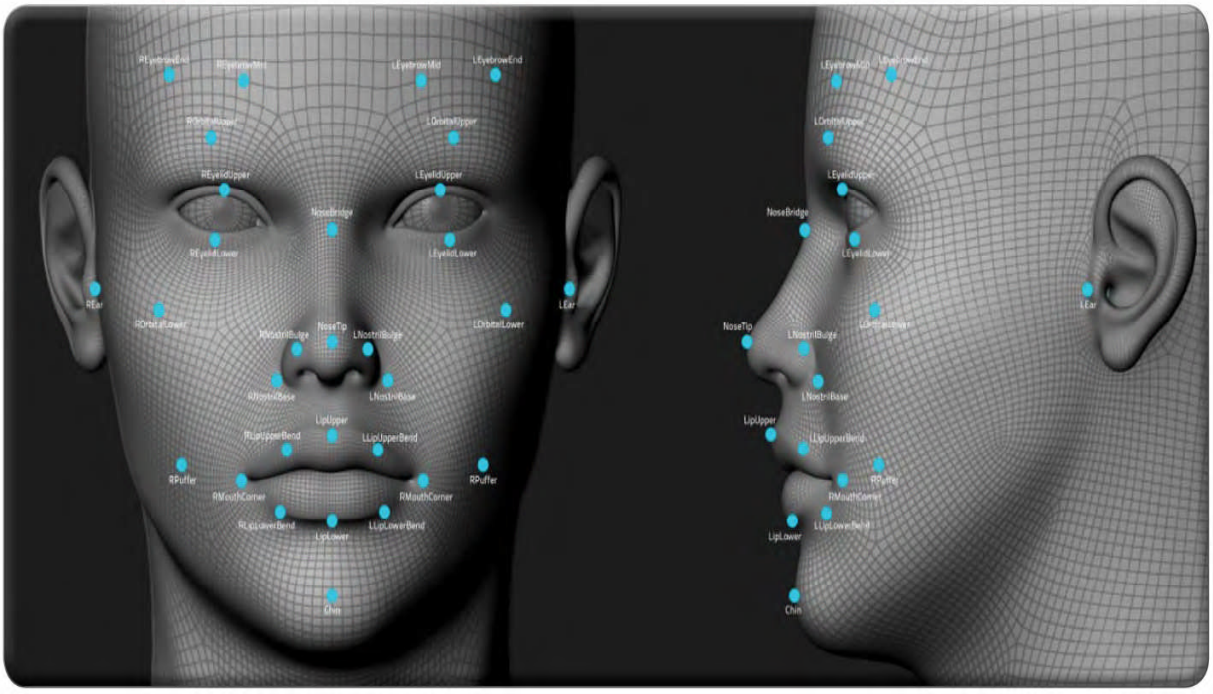

Figure 34. Advanced Facial Recognition Software

This technology biometrically assesses an offender's facial structure over a series of several tests and is able to intelligently "learn" the specific characteristics of their face. This technology can be used to quickly and easily sort offender photos, increasing caseload supervision efficiencies.

Sobrietor Identification Capability. Sobrietor uses biometric voice verification technology to ensure that the offender is the person actually performing the test. At the time of enrollment, the offender records three words, which are stored in the Sobrietor as a template of the offender's voice. Before blowing into the Sobrietor, the offender is asked to repeat up to six words randomly chosen by the Sobrietor. This device compares the offender's voice to the enrolled template to verify the offender's identity.

c) Shall allow placement of outbound calls and/or receiving of inbound calls.

Our entire suite of alcohol monitoring products includes 24/7/365 permission of receiving inbound calls and placing outbound calls to the monitoring center. As with our entire continuum of electronic monitoring solutions offered in this proposal, BI Monitoring Operations will continue to provide continual call support.

d) Shall have call schedules and alert notification options that are variable by offender case.

SL2 Testing Capabilities. From within TotalAccess, authorized personnel can configure each offender's SL2 for scheduled, random, and/or on-demand breath alcohol testing—providing three settings. Users can schedule SL2 tests to occur at any hour, seven days a week. Using TotalAccess, authorized personnel can easily add or edit offender-testing schedules as follows:

- Enter a mobile phone number for the offender—if enabled, the monitoring computer system will send text messages to this number to notify the offender of required tests
- To create a *Fixed Test Schedule:*
  - Specify the Test Window—the amount of time that the offender has to complete a test
  - As desired, enable automated text messaging to remind the offender of impending tests
  - As desired, enable automatic retesting for test results of 0.02 BrAC or higher
  - Click on the displayed Calendar to select the desired testing time(s) and day(s)

Figure 35. SL2 LCD Screen

The SL2 communicates equipment events to the offender via a full color, highly durable LCD screen.

- To create a *Random Test Schedule:*
  - Specify a start time and an end time for the random testing window by clicking, holding, and dragging the mouse cursor on the displayed Calendar
  - Up to four Random Test Schedules can be specified per day, in addition to any Fixed Test Schedules
- To send an *On-Demand Test*, simply click the On-demand Test button.

Authorized personnel can save, remove, edit, and print schedules at any time from within TotalAccess—with no need to contact BI Monitoring Operations.

Sobrietor Testing Capabilities. When used with the HomeGuard RF system, Sobrietor can administer an alcohol test immediately after an offender returns home, and on a random or scheduled basis thereafter. Authorized City personnel can easily create or change BrAC testing schedules in TotalAccess by:

1. Following the TotalAccess enrollment wizard that guides the user through creating and verifying voice templates, instructing the offender on how to provide a BrAC sample, and setting security/language settings.
2. Scheduling the type of test within TotalAccess. Available test types include:
   a. *Fixed*—the offender is required to perform an alcohol test at a specified time
   b. *Random*—the user specifies the timeframe and number of tests required of the offender; The Sobrietor will randomly summon the offender, in accordance with the testing frequency, during the user-specified period
   c. *On-Demand*—authorized users can initiate an on-demand test at any time from within TotalAccess; after receiving the on-demand testing request, the Sobrietor will immediately summon the offender to perform a BrAC test

Similar to the SL2, authorized personnel can create and modify schedules directly in TotalAccess without contacting BI Monitoring Operations.

e) Shall individually set the number of acceptable failures before an alert is generated.

As our continued commitment to meeting the needs of the City's requirements, BI's Software Team is writing software that will comply with this requirement. We anticipate the official implementation of our system's ability to individually set the number of acceptable failures before an alert is generated to be the beginning of 2019. We do, however, understand this requirement and the City's desire for it; thus, we will use all the resources at our disposal to expedite the software's completion.

f) Shall allow alert notifications through email or text messaging.

TotalAccess can alert the agency with notifications via email and/or text message. Alerts will be distributed based upon the notification procedures created by the City. The administrators can decide how each type of alert is processed.

SL2 Notification Capabilities. Since the SL2 is a portable device that is carried with the offender, an offender can be alerted to submit an alcohol test via text message at any time. From within TotalAccess, an officer can either schedule a test or request an on-demand test from the offender. The offender would receive a text message, like the message in *Figure 36.* SL2 Offender Notification, notifying the offender of the upcoming test.

Once the offender submits a test, the SL2 communicates those results to TotalAccess via cellular connection. If the offender submitted a positive breath alcohol test, the officer would be notified via text message or email per the City's notification parameters.

Sobrietor Notification Capabilities. As a landline device designed to remain in the home, the Sobrietor notifies the offender of a test by emitting an audible tone. Once the offender submits a test, the Sobrietor communicates these results to the central monitoring computer. As an added feature, Sobrietor is interoperable with BI's HomeGuard RF solution, enabling the City to require offenders to perform a test when entering the range of the receiver. TotalAccess notifies authorized personnel of Sobrietor test results in the same manner as SL2 test results.

Figure 36. SL2 Offender Notification

Offenders will receive a reminder text message to allow them enough time to refrain from eating or drinking and submit a compliant test.

g) Shall have such hardware and software security features as necessary to be tamper resistant.

SL2 Security Features. The SL2, BI's portable alcohol monitoring device, incorporates the following tamper detection features to detect and report offender attempts to compromise normal device operation:

- *Infrared Digital Camera* takes a high-resolution photo during each alcohol test to help confirm the offender's identity.
- *Adaptive Facial Recognition* technology analyzes the photo from the alcohol test and compares it to an adaptive collection of approved photos of the offender.
- *Temperature Monitoring* of environmental air and the submitted breath sample detects if an alternate, non-human air source is used during the alcohol test.
- *Pressure Sensors* monitor the rate and volume of breath samples to detect if the back vent on the device is blocked or if an insufficient breath sample is provided.

Sobrietor Security Features. Sobrietor, BI's stationary alcohol monitoring device, incorporates voice verification, fuel cell alcohol testing, and proximity sensors to ensure that the offender is accurately identified, properly tested, and the integrity of the unit remains intact:

- *Highly Accurate Voice Verification.* Sobrietor uses biometric voice verification technology to ensure that the offender is the person actually performing the test. At the time of enrollment, the offender records three words, which are stored in the Sobrietor as a template of the offender's voice. Before blowing into the Sobrietor, the offender is asked to repeat up to six words randomly chosen by Sobrietor. The device compares the offender's voice to the enrolled template to verify the offender's identity.
- *Proximity Sensors.* When Sobrietor is positioned around the mouth, multiple proximity sensors register the presence of the face. If the offender removes Sobrietor from the face at any time during the testing process, the test will be reported as a mask failure. This prevents the offender from passing the voice verification test and then handing the unit to someone else. If at any point during the test the unit is removed from the offender's face, Sobrietor generates an alert.
- *Photo Optic Cell.* A photo optic cell detects if the casing of the unit is pried open, alerting the agency to potential tampering.

Both the SL2 and Sobrietor report all breath alcohol tests to the central monitoring computer in near real-time. If an offender misses a test, or submits a positive test, TotalAccess processes the alert to notify the supervising officer to respond appropriately to the offender. This combination of tamper resistance and security features **exceeds** the City's requirements.

h) Shall allow online access to offender compliance history.

All alcohol monitoring data, including offender photographs, voiceprints, locations, and alcohol test data are communicated in near real-time to the monitoring computer system—facilitating prompt notifications of any missed or positive tests to the City. At any time, City personnel can access our web-based monitoring software to view current offender information and their history of compliance.

Figure 37. Highly Accurate BrAC Test

The SL2 is a court validated technology that is supported by BI's tenured team of expert witnesses.

i) Shall individually set the range of minutes between retry calls after busy signal or a no answer and the maximum number of attempts to verify within a verification call.

We respectfully suggest the City's or Participating Public Agencies' procedures allow BI to perform outbound verification calls. This will enable BI Monitoring Operations personnel to initiate a call to satisfy the requirement.

j) Shall allow an officer or other designee to view and print summary reports as needed.

Our TotalAccess monitoring software includes more than 60 predefined reports regarding offender activity, violations and alerts, caseload statistics, equipment inventory, and historical data. City personnel can also create customized reports at any time. Most TotalAccess reports take less than a minute to run. City personnel can view reports onscreen, save reports to a hard drive, print reports from the software, or download reports into a variety of formats.

k) Shall allow recording and printing the name of offenders and date and time of violation.

As part of the SL2 and Sobrietor enrollment process, City personnel login to TotalAccess and enter the offender's information (including name, demographic information, address, and notes), the equipment ID of the assigned device, and a Security PIN.

The field equipment records a date and time stamp for all events upon occurrence, and the monitoring computer system records the date and time when it receives this information from the field.

l) Shall demonstrate high degree of accuracy. Method of validation and percentage of accuracy shall be explained and quantified as part of the technical proposal.

SL2 Accuracy. The SL2 measures breath alcohol tests with a high degree of accuracy. When a person consumes alcohol, it is absorbed into the blood stream. The exchange of alcohol from the circulating blood into the person's lungs occurs during the breathing process.

The SL2 collects a deep lung sample from an individual and uses a conversion calculation to determine the amount of alcohol in the body by the concentration of alcohol in the breath. The SL2 provides Breath Alcohol Content (BrAC) readings, with results that are accurate to within +/- .010 of the individual's BrAC.

BI successfully provides testimony services to agencies—evidencing our ability to seamlessly continue supporting the City and Participating Public Agencies.

Sobrietor Accuracy. The Sobrietor has an alcohol detection range of 0.011 to 0.200. The baseline range for alcohol detection is 0.000. The device will read breath alcohol content results with an accuracy of +/- .005 blood alcohol content, enabling the device to display a high degree of accuracy, **exceeding** standard alcohol detection equipment. The deep lung breath sample requires a strong and steady stream lasting four seconds; if an appropriate deep lung sample is not achieved, the device will require additional attempts until the sample is successful.

Court Admissibility of BI's Devices. The SL2 and Sobrietor devices are court admissible and both devices have been widely used within court-mandated alcohol monitoring programs in every state in the United States.

BI is fully prepared to describe our monitoring equipment methodology and performance in legal proceedings upon the receipt of a subpoena. Technicians from the BI Engineering Department and product management personnel regularly respond to subpoena requests. BI agrees to provide testimony in the form of a written affidavit, as a deposition in a teleconferencing format, or in person if subpoenaed.

m) The unit shall measure Breath Alcohol Content (BrAC) by using a detection technology.

The SL2 and Sobrietor measures BrAC and provides readings from 0.000 to 0.400. BI SL2 test results are accurate to within +/- .010 of the subject's BrAC. The Sobrietor can measure Breath Alcohol levels within +/- .005.

n) The unit shall measure BrAC by collecting deep lung samples.

Authorized personnel can remotely specify scheduled, random, and/or on-demand testing schedules.

The SL2 and Sobrietor both take a deep lung breath sample during the alcohol test, requiring the offender to supply a strong and steady stream of breath for approximately four seconds. Both devices use a calibrated fuel cell sensor and a conversion calculation to provide a BrAC reading.

Trained BI manufacturing staff calibrates each device during regularly scheduled maintenance. The sensor is adjusted using a known quantity of alcohol and tested to ensure the device generates accurate test results.

o) As the concentration of alcohol in a deep lung sample is directly proportionate to alcohol concentration in the blood, the unit shall be capable of measuring Blood Alcohol Content (BAC) from 0.010 at a minimum.

The BrAC range reported by SL2 and Sobrietor starts at .000, and alerts are generated upon the detection of a 0.020 or higher. All readings, however, are stored in TotalAccess for review and reporting purpose, regardless if an alert was generated or not. In BI's experience, courts do not admit any alcohol readings below 0.020.

p) The unit shall have a battery-operated backup.

SL2 Battery Backup. As a mobile device, the SL2 is designed to operate solely on rechargeable battery power. A completely depleted SL2 battery is recharged in approximately four hours. Since the device is not attached to the offender, charging can fully accommodate the desired testing schedules and the offender's approved activities and mobility—for example, the offender can easily recharge the SL2 while they are sleeping.

Sobrietor Back-up Battery Capabilities. The Sobrietor is equipped with a 12-hour back up battery life. While running on the backup battery, the unit will continue to collect and transmit monitoring information to the host computer. In the event the unit's backup battery is depleted, the Sobrietor will store up to 16 test results in the unit's non-volatile memory.

q) The battery shall power the unit for a minimum of 12 hours and retain an ability to continue prescheduled tests.

SL2 Battery Capabilities. As a mobile device, the SL2 is powered by an internal, rechargeable battery and therefore does not rely on being constantly connected to a power source. If loss of the cellular connection disrupts the ability of the SL2 to communicate with the TotalAccess, the SL2 can continue to conduct alcohol tests and stores date and time stamped information in the device memory. The SL2 can continuously operate on battery power for approximately five days, greatly **exceeding** *RFP* requirements.

Once the cellular connection is restored, the SL2 automatically sends all stored information to TotalAccess.

Sobrietor Battery Capabilities. The Sobrietor is equipped with a 12-hour backup battery life. In the event of a power loss or phone outage, the Sobrietor will continue to administer breath tests, and is capable of storing up to 16 tests that will be promptly sent to the monitoring computer as soon as power or phone service is restored.

r) The unit shall use a secure process that prevents enrollment except by authorized individuals.

Authorized personnel must use their approved and unique username and password to login to the TotalAccess software and complete enrollments.

s) The unit will be capable of storing messages in a nonvolatile memory in the event of phone loss.

Figure 38. Mobile Alcohol Testing

The SL2 allows the City to test offenders BrAC while they are away from their home, offering officers more complete alcohol-monitoring data than home-based solutions.

SL2 Battery Storage. If cellular service is unavailable, the SL2 can conduct and store at least 50 date and time stamped alcohol tests in the non-volatile memory. Once cellular service is restored, the SL2 promptly sends all stored data. This memory capacity meets *RFP* requirements should the City require an offender perform no more than 15 tests a day.

Sobrietor Battery Storage. In the event that landline phone service is unavailable, the Sobrietor will store up to 16 breath alcohol tests in the non-volatile memory. Most agencies do not require an offender to submit more than five tests per day. All test results are saved with date and time stamps. The Sobrietor will attempt to transmit the test results at specified intervals until telephone connection is restored. Once the connection is restored, the test results, date- and time-stamps, and any generated alerts will be transmitted to the central monitoring computer.

t) The unit will be able to continue to administer breath tests in the absence of phone service.

All of BI's breath alcohol monitoring products can administer breath tests in the absence of phone service.

u) The contractor's central monitoring computer system will be capable of determining whether the offender took the test and then generate alerts based on the test results.

SL2 Identification Capability. The SL2 reports all identification verification photos, location points, and test results to TotalAccess via cellular connection. The SL2 uses a built in, high resolution camera to capture an image of the individual submitting to the alcohol test, and TotalAccess compares this image with a collection of approved digital photos to verify that the assigned offender completes each test as required.

The BI SL2 takes a high resolution, digital photograph of the offender each the time a breath alcohol sample is collected. These photographs can be viewed at any time, and, in conjunction with the equipment's innovative Adaptive Facial Recognition technology, allows City staff to confirm that the breath sample is that of the monitored individual.

Sobrietor Identification Capability. The Sobrietor incorporates biometric voice verification technology to ensure that the offender is the person actually performing the test. During enrollment, the offender creates a voice template. Before each test, the offender is asked to repeat up to six words at random. The Sobrietor compares the tester's voice to the enrollment voice template stored internally on the Sobrietor to confirm the offender's identity.

Once the Sobrietor is positioned around the mouth, multiple proximity sensors register the presence of the face. If the offender removes Sobrietor from the face at any time during the testing process, the test will be reported as a mask failure.

All biometric voice verification data and breath alcohol test results are reported from the Sobrietor to TotalAccess via landline connection. The Sobrietor can be used as a standalone breath alcohol-monitoring device or paired with a HomeGuard 200 for RF monitoring. In either scenario, only one phone line and one power outlet is required.

Figure 39. Sobrietor Identity Recognition During Testing

The Sobrietor uses biometric voice verfication to confirm the identity of the offender before each test.

v) The unit shall measure the presence of alcohol only. The Device shall not respond to natural gas or acetone.

BI designed the SL2 and Sobrietor to collect a deep lung breath sample and measure breath alcohol content through use of a professional grade fuel cell. The fuel cell sensor is sensitive to methyl alcohol,

isopropanol, carbon monoxide, and diethyl ether. The offender should wait 20 minutes after exposure to any of these substances—as well as after eating, drinking, or smoking—before completing a breath alcohol test.

To help determine if a test result was potentially influenced by exposure to environmental alcohol, the unit can be configured to automatically issue a retest 15 minutes after an initial test result of 0.02 BrAC or higher. BI has yet to find a common household product—such as mouthwash, toothpaste, hand sanitizer, or bug spray—that will produce a positive test result 15-20 minutes after exposure to that item.

w) The unit will use verification to correctly identify the offender.

The SL2 is equipped with a high-resolution camera and temperature recognition technology, and the system uses intelligent facial recognition technology to confirm the offender's identify during all tests.

Similarly, the Sobrietor uses biometric voice verification to ensure the individual providing the breath test is the monitored offender.

x) The unit will allow tests to be administered in a variety of methods: (items i-iii addressed in table below)

As demonstrated by *Table 22*, the SL2 and Sobrietor can administer breath alcohol tests in accordance with fixed, random, and on-demand testing schedules.

Table 22. Breath Alcohol Testing Schedules

RFP Requirement	SL2	Sobrietor
i) Random, computer generated as specified by the City. Allowing for an unlimited number of test periods and tests	✓	✓
ii) At City designated locations or in the offender's home by authorized City staff. After the test, within 30 seconds the BrAC level should be displayed on the City operated hand held device	✓	✓
iii) "On-demand" by the City	✓	✓

y) The unit will utilize mechanisms that detect attempts by the offender to defeat the unit by supplying a breath sample other than their own. The "erroneous" sample might be from a mechanical apparatus or accomplice.

SL2 Capabilities. The SL2 uses a built-in camera that takes a photo during each alcohol test. This Adaptive Facial Recognition technology, combined with temperature detection, and pressure sensors detect and report offender attempts to compromise the system. These technologies include:

- *Photo Recognition.* To confirm the identity of the offender at the time of testing, a photo is taken during the breath test and is transmitted to TotalAccess where it is compared to the master photo taken upon enrollment. The City has a color, high-resolution test photo to compare against after each test.
- *Automated Facial Recognition™ (AFR).* In addition to taking a photo with each test, TotalAccess is equipped with AFR technology. This technology biometrically assesses an offender's facial structure over a series of several tests and is able to intelligently "learn" the specific characteristics of their face. This technology can be used to quickly and easily sort offender

photos, increasing caseload supervision efficiencies. Photos recognized through AFR can be viewed at any time through the software platform, as illustrated in *Figure 40*.

- *Temperature Recognition.* The device also monitors breath temperature and ambient temperature to detect air sources other than human breath, such as air pumps, canned air, or other compressed air sources.

These combined technologies ensure that the offender assigned to the device is the person submitting the test and **exceed** *RFP* requirements.

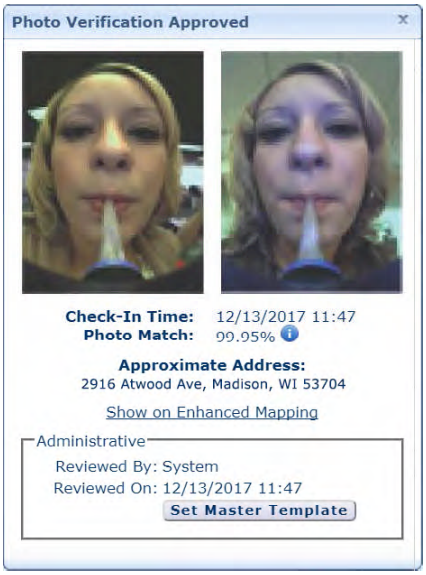

Figure 40. Photo Recognition Capabilities

Officers can review pictures of the individual performing the test on an as needed basis—the Adaptive Facial Recognition software resolves the majority of verifications.

Sobrietor Capabilities. The Sobrietor incorporates biometric voice verification technology to ensure that the offender is the person actually performing the test. At the time of enrollment, the offender repeats three words a minimum of five times to create a template of their voice. The recorded words are stored in the Sobrietor, and before each test, the offender is asked to repeat up to six words at random. The Sobrietor compares the offender's voice to the enrollment voice template to confirm the offender's identity.

To ensure the offender is compliant, the Sobrietor limits the number of retries allowed to the offender. The Sobrietor uses voice prompts to assist the offender if they are speaking to quietly or too loudly. The Sobrietor prompts the offender to speak louder if they are whispering or quieter if they are shouting.

In addition, when Sobrietor is positioned around the mouth, multiple proximity sensors register the presence of the face. If the offender removes Sobrietor from the face at any time during the testing process, the test will be reported as a mask failure.

z) The unit will have tamper technology that is accurate and non-intrusive.

The SL2 and Sobrietor use various, non-intrusive methods to accurately detect offender attempts to tamper with the device. This includes an infrared digital camera that captures a photo of the offender during each test, biometric voice recognition, breath temperature detection, and pressure sensors. Additionally, tampers to the SL2 case are typically evident upon visual inspection.

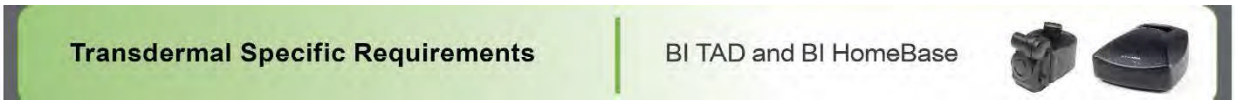
aa) The contractor shall have monitoring software that is accessible through the internet and shall provide a description of its capabilities.

BI TotalAccess is a web-based software platform that supports our full continuum of monitoring technologies. Authorized City personnel can utilize the software on a 24/7/365 basis for all monitoring tasks. TotalAccess is highly customizable, sends automated notifications in accordance with City procedures, includes a multitude of reports, and allows City personnel to easily search offender records.

City personnel can login to TotalAccess from any web-enabled device—including tablets, notebooks, smartphones, and computers. The software includes several time-saving features designed specifically for users in the field. For example, an officer can close an alert with a single click, and a supervisor can receive a prompt notification of the update.

5. Transdermal Specific Requirements

The TAD transmits all monitoring data to the HomeBase. The HomeBase then communicates all participant, monitoring, and device information to BI's central monitoring computer via landline or wireless means. BI's proposed solution will report alcohol events to assigned City staff within 24-hours of occurrence. The TAD automatically and continuously emits RF signals that are detected by the HomeBase. The HomeBase detects the offender's presence in or absence from the home by these signals and contacts the central monitoring computer whenever the offender enters or leaves the home. The computer system contains the parameters for each individual case, including the offender's schedule. It compares the messages sent by the HomeBase to the offender's schedule and alerts City staff to any violations.



Transdermal Alcohol Monitoring—*Continuously and precisely monitor offender alcohol intake through court-validated fuel cell technologies.*

TAD provides highly reliable, accurate, and durable continuous alcohol monitoring. When BI first introduced the TAD device to the electronic monitoring industry, we provided expert testimony in several cases regarding the alcohol data collected by the unit. The BI representative provided expert testimony, offered data interpretation for the alleged drinking event, and defended the reliability of the TAD device. BI's testimony was by BI was accepted by the Court as admissible evidence using the Daubert Standard.

Frye and Daubert Tests are the recognized standards for admitting scientific evidence into most courts. BI understands the rigors of these standards and their key elements including scientific theory, peer review, reliability of a known error rate, and general acceptance within the scientific community. The Courts applied the Daubert Standard when qualifying BI's witness as an expert and accepting the evidence provided in a Mason, Ohio Municipal Court.

TAD uses a statistical algorithm created, tested, and verified by BI to distinguish between a true drinking event and alcohol readings caused by environmental contaminants such as cleaning or beauty products.

a) The unit will include tamper detection features including phone, case, and power alerts to ensure accuracy of the data generated by the unit.

The TAD transmits all monitoring data to a paired HomeBase receiver that is installed in the offender's home. The HomeBase communicates all participant alcohol data, curfew monitoring information, and equipment information to the monitoring computer system via landline or cellular communication.

The HomeBase generates and reports the phone, case, and power alerts identified in *Table 23.*

Table 23. HomeBase Events

Event	Generated Event and Description
Power Status	*"Power Loss"*—The AC power connection to the HomeBase was interrupted.

Table 23. HomeBase Events	
Event	**Generated Event and Description**
Case Status	*"Receiver Case Tamper"*—The HomeBase case was opened or tampered with. *"Receiver Motion Event"*—The motion sensor detected sustained movement of the HomeBase, indicating that the offender may have relocated the equipment.
Phone Status	*"Phone Loss"*—The landline phone cord was disconnected from the HomeBase.

b) The unit will not require offenders to push buttons, or otherwise interact with the unit, in order for the testing process to begin or results of the test to be reported.

There is no need for the offender to push buttons or otherwise interact with the TAD. The ankle-worn TAD continuously detects for the presence of alcohol and seamlessly and automatically transmits all collected information to the HomeBase receiver when in range.

c) The System shall provide 24-hour monitoring of alcohol concentration through the skin.

Worn around the offender's ankle 24/7, TAD uses transdermal technology to sample perspiration that passes through the skin. The device samples every minute and records an average of the collected samples every five minutes. This sampling frequency provides 288 data points within a 24-hour period.

TAD uses a statistical algorithm created, tested, and verified by BI to distinguish between a true drinking event and alcohol readings caused by environmental contaminants. The algorithm creates a baseline for each individual wearing the device and enhances testing accuracy. The algorithm is proven independent of individual factors such as gender, height, and weight and demonstrates high statistical confidence in distinguishing true alcohol drinking events from false positives. When the TAD detects environmental alcohol, the transdermal alcohol content raises and decreases in a "spike" motion. It is physically impossible for human alcohol consumption to mirror these results. BI Monitoring Operations staff will assist with interpreting alcohol charts on a 24/7/365 basis throughout the life of the contract.

d) The unit shall be attached to the detainee's ankle using secure straps and alarms that detect any attempt to tamper with the device.

The TAD transmitter incorporates several tamper detection technologies to provide comprehensive protection against offender tamper attempts and help to ensure system integrity. As a highly durable and shock resistant unit, the TAD incorporates the following tamper detection technologies:

- Proximity detection gauges the unit's proximity to the offender's leg
- A fiber optic strap to detect attempts to compromise or cut the strap
- A motion sensor to record the amount of time the unit is stationary, which may indicate it has been removed from the ankle
- A skin contact sensor verifies the Alcohol Detection Module (ADM) remains in contact
- A water sensor reports if the unit is submerged for more than 20 minutes
- A temperature sensor detects if the unit temperature drops below 32°F or above 140°F
- An infrared sensor detects buildup of debris or grime that can interfere with the functioning of the ADM

e) External power and phone cords for the unit shall be field replaceable.

In the field, City personnel can quickly and easily replace the cords that connect the HomeBase receiver to the AC power and landline phone sources, as needed.

f) The unit will be compatible with the contractor's Radio Frequency monitoring solution. The unit will also have the capability to be used as a stand-alone solution.

The TAD solution offers objective, reliable alcohol monitoring and RF curfew monitoring within a single system. The ankle-worn TAD automatically and continuously emits RF signals that are detected by a HomeBase receiver in the offender's home. The HomeBase detects the offender's presence/absence from the home by detecting the presence/absence of the TAD signals within a specified range. The TAD also transmits all stored alcohol data to the HomeBase when in range.

Figure 41. Highly Secure Monitoring
To the best of BI's knowledge, the TAD is the only device in the industy equipped with seven tamper detection technologies.

The HomeBase communicates all system information to the monitoring computer system via landline or cellular connection.

g) The transmitter shall automatically measure and record the offender's transdermal alcohol level on a regular basis, regardless of the offender's location.

The ankle-worn TAD automatically and continuously samples the offender's skin perspiration for the presence of alcohol and records corresponding measurements on an ongoing basis—regardless of the offender's location.

h) The transmitter shall take an alcohol sample a minimum of once every 30 minutes or as determined by City.

The TAD samples perspiration every minute and records an average of all samples every five minutes, **exceeding** the City's requirement for testing at least every 30 minutes. This frequency of sampling provides 288 data points within a 24-hour testing period. Other transdermal solutions test perspiration once every 30 minutes, providing only 48 data points within a 24-hour period.

i) The unit shall connect to the telephone network with a standard RJ11-C jack or through cellular communication. A telephone cord and modular plug shall be provided with the unit at no additional cost to the City. The unit shall be directly connected to the offender's home phone line, or through an optional Cellular Receiver, to report events and alerts to the contractor's central monitoring computer.

The TAD operates in conjunction with a paired landline or cellular HomeBase receiver. The ankle-worn TAD continuously collects and records alcohol data internally. The TAD securely transmits data to the HomeBase station via RF signal when the device is in range of the receiver. The HomeBase receiver is available in two distinct models:

- HomeBase 100 reports to TotalAccess via landline telephone
- HomeBase 110 uses a cellular connection to report TotalAccess, with the ability for landline functionality

The HomeBase receiver is typically installed inside the offender's home. The receiver automatically detects the RF signals from the TAD when the ankle-worn device comes within range. The receiver

reports all alcohol and curfew data to the central monitoring computer via landline telephone or cellular connection. The HomeBase receiver can be used with VoIP technology.

j) The transmitter shall comply with FCC regulations and be highly durable, shock-resistant, and water resistant to allow for activities such as bathing.

The TAD is highly durable, shock-resistant, and water resistant up to three feet—allowing the offender to continue with normal activities such as bathing.

The TAD system is certified by the FCC as shown in the table below.

Table 24. LOC8 FCC Certification

Category	BI Device	FCC Certification
Transdermal Alcohol	BI TAD	CSQTAD001
	BI HomeBase 100	GN7MM01B-HB-100
	BI HomeBase 110	GNU7MM00B01-EX-520

k) When a low-battery event occurs, the system shall generate a low-battery alert that gives City staff at least five days to replace the battery before it becomes exhausted.

The TAD generates a “TAD Battery Level Low” message approximately five days prior to battery depletion. The alert would appear in the TotalAccess alert queue, managed by BI Monitoring Operations. The officer would simply call BI Monitoring Operations to schedule a service call.

l) The transmitter straps and battery shall be replaceable in the field and require minimal training for City staff.

With minimal training and tools, City personnel can easily and quickly replace the TAD field-replaceable fiber optic strap and/or the field-replaceable battery.

m) The transmitter shall be able to distinguish between ingested alcohol and environmental alcohol.

The TAD monitors and measures alcohol ingestion by detecting the insensible perspiration that passes through the offender’s skin. The device incorporates an ADM that rests firmly against the offender’s bare leg. The ADM uses membrane electrode technology to calculate Transdermal Alcohol Concentration (TAC) readings. The system uses a statistical algorithm to distinguish between ingested and environmental alcohol.

If the TAD is exposed to environmental alcohol, the alcohol reading drastically rises and decreases—which is visually demonstrated as a dramatic spike on the activity graph displayed within TotalAccess. It is physically impossible for a human’s alcohol consumption to produce such a result. When an individual ingests alcohol, the transdermal alcohol content steadily increases and decreases.

Figure 42. Alcohol Detection Module (ADM)

When used in conjuction with an individual baseline reading for each monitored offender, the ADM can differentiate between ingested and environmental alcohol.

As seen below, the graph on the left shows an environmental alcohol event, while the graph on the right shows a drinking event. The steady rise and slow decline of the TAC line in the right-hand chart indicates that the individual's body is metabolizing the alcohol. The erratic fluctuations of the left-hand chart denote that alcohol is being introduced from an external source.

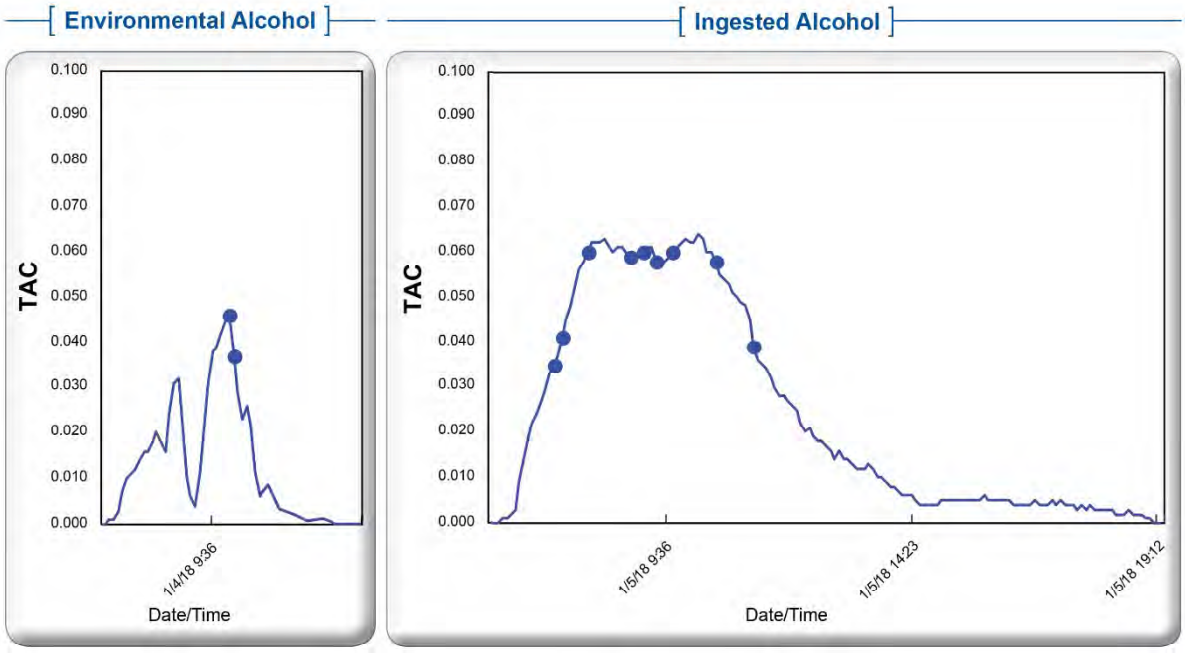


Figure 43. TAD Activity Graph–Environmental Alcohol vs. Drinking Event

The data collected from the TAD can be viewed in TotalAccess. The City can customize the parameters for each TAD device. If the City or Participating Public Agencies are unsure whether a drinking event occurred, trained BI Monitoring Operations Technical Support Specialist can assist in interpreting TAC graphs.

n) The transmitter should have multiple tamper detection technologies such as water submersion, skin conductivity, temperature, proximity to the leg, infrared debris buildup detection, motion detection and strap tamper detection.

To our knowledge, the TAD device and its tamper features surpass the capabilities of every other transdermal alcohol-monitoring device on the market. Agencies across the country that utilize this technology recognize BI for our consistently delivering proven, reliable technology with the latest, state-of-the-art tamper technologies. Other vendors may boast about high compliance rates, but without multiple tamper features to detect problems, those assertions are highly debatable. The TAD incorporates the tamper detection technologies identified in *Table 25* to detect and report offender attempts to remove the device or otherwise deter normal system operation.

Table 25. TAD Tamper Detection Technologies		
Technology	**Generated Event**	**Description**
Temperature Sensor	"TAD Temperature High" "TAD Temperature Low" "TAD Temperature OK"	Monitors an offender's temperature to ensure it is within range of a normal human body. A drop to ambient temperature could indicate that TAD is no longer flush against the human body.
Proximity Sensor	"TAD Proximity Tamper"	Monitors the distance of the device from the body. Significant changes in proximity may indicate that the device is no longer attached to the offender.
Infrared Sensor	"TAD IR Blocked" "TAD IR Cleared"	Monitors the ADM for any external build-up of debris on the face of the module. This ensures the accuracy of the alcohol readings is not compromised by an excessive amount of debris on the face of the filter.
Skin Conductivity Sensor	"TAD Skin Resistance High" "TAD Skin Resistance Low"	Monitors the pressure of the unit against the leg. If the offender attempts to place an object between the sensor and leg, the sensor will register a change in skin resistance.
Fiber-Optic Circuitry Sensor	"TAD Strap Tamper"	Monitors the strap to ensure that it remains connected. The strap has fiber optic technology built into it, which generates alerts when the light cannot travel in a continuous loop through the strap.
Motion Sensor	"TAD No Motion" "TAD Moving"	Monitors the amount of time the device is stationary. If TAD is stationary for a long period, it may indicate that the unit is no longer attached to the offender.
Water Detection Sensor	"TAD in Water" "TAD Removed from Water"	Monitors the amount of time the device is submerged in water and generates an alert if the device is submerged for more than 20 minutes. Although the unit is watertight up to three feet and offenders can shower, submerging the unit for extended periods can interfere with accurate alcohol sensing.

o) At a minimum, the transmitter shall detect, record, and alert City staff for the following: low battery, unit shall be returned for recalibration, alcohol event, equipment tamper, and curfew violation (if paired with an optional receiver).

The HomeBase receiver obtains all TAD information when the ankle-worn device is in range, and the HomeBase promptly reports to the monitoring computer system via landline or cell connection. The monitoring system can automatically notify designated City personnel of alerts by the specified method. As specified by *Table 26*, TAD detects all critical equipment and alcohol events.

Table 26. TAD Events		
Event	**Message**	**Description**
Low Battery	"TAD Battery Level Low"	The field-replaceable battery in the TAD is low.
Recalibration	AMD Calibration Report	Available in TotalAccess, this report tracks the calibration date for each TAD device.
Alcohol Event	"TAD Alcohol Event"	TAD detected the presence of alcohol.
	"TAD Alcohol Threshold Exceeded"	The offender's TAC level is rising.
Tamper	"TAD in Water"	TAD has been submerged for a sustained amount of time.
	"TAD IR Blocked"	Dirt and debris have collected on the ADM.
	"TAD Proximity Tamper"	TAD is no longer in contact with the offender's leg.
	"TAD Strap Tamper"	The fiber optic circuitry in the strap is interrupted—for example, the strap has been cut.
Curfew Violation	"Unauthorized Enter"	TAD entered the receiver range during a time when no curfew schedule is in place.
	"Unauthorized Leave"	TAD left the receiver range during a time when the offender is scheduled to be at home—and the specified Leave Window has expired.
	"Did Not Enter"	TAD did not enter the receiver range as scheduled.
	"Did Not Leave"	TAD did not leave the receiver range as scheduled.

p) The transmitter shall be able to pair to a receiver to report monitoring data to the contractor's central monitoring computer system.

Using the TotalAccess software, City personnel can pair any TAD device with any HomeBase receiver. The HomeBase reports all system information to the monitoring computer system.

q) The transmitter shall emit a signal to the receiver at least once every 30 seconds continually, during the operating life of the transmitter's battery.

Throughout the operating life of the battery, the ankle-worn TAD continuously emits RF signals. When in range, the TAD signals are automatically detected by the paired HomeBase receiver.

r) RF signals from the transmitter to the receiver should have a range of up to 150 feet.

For RF curfew monitoring, the HomeBase can be configured with a range of 35, 75, or 150 feet.

s) RF signals from the transmitter to the receiver should be on a noncommercial frequency.

TAD transmits curfew information and alcohol data to the HomeBase using noncommercial frequencies.

t) Proposer shall allow the unit to be paired with Radio Frequency (RF) as determined needed by the City. The RF service shall be available in landline and cell variants.

Within the TotalAccess software, City personnel can easily pair any TAD device with any HomeBase receiver. Every TAD and HomeBase pair has the capability for RF curfew monitoring, and all system data is communicated from TAD to the HomeBase via radio frequencies. For the utmost flexibility and accommodation of each offender's individual situation, we offer HomeBase models that can communicate with the monitoring computer system via landline telephone or cellular connection.

Figure 44. Field Replaceable Battery and Strap

Field replaceable components ease inventory management activities and allow officers to spend more time in the field.

6. Supplemental Support Services

As electronic monitoring programs expand, and monitoring technologies have become more advanced, many agencies operating community corrections programs find themselves burdened by the vast amount of data these devices can generate. For example, if an offender is being tracked by a GPS unit that collects a location point every five minutes, an agency would have more than 280 GPS points to review every 24-hours—approximately 2,000 GPS points per week.

BI developed our supplemental support solution with the goal relieving officers of clerical and administrative tasks to allow City personnel to maximize time spent with offenders.

With these monitoring challenges in mind, BI has continued to develop enhanced support solutions aimed at alleviating administrative, technical, and data management workloads. For example, through our bilingual monitoring center based in Aurora, Illinois, BI offers a solution designed to meet the needs of the City and any Participating Public Agencies that require services beyond alert notification and 24/7/365 technical support. Our supplemental support services are summarized by the following graphic.

All data that is generated, modified, or updated through BI's solution is available to the City by calling BI Monitoring Operations or directly accessing data online.

Automated Check-In

With expanding caseloads and limited resources, many agencies struggle with actively monitoring lower level, first time, or low risk offenders. Alternatively, some agencies require additional monitoring check-ins beyond traditional monitoring technologies.

As a highly flexible and customizable solution, BI's Interactive Voice Response (IVR) system can be used on any offender population to support City-defined monitoring conditions. IVR supports routine offender check-ins on a City-defined frequency. BI's automated check-in system consists of the following activities:

Figure 45. Automated Check-In Solution

BI's customized, IVR system allows for voice check-ins in both English and Spanish and interfaces with live Monitoring Specialists for real-time entry of exceptions.

1. The offender calls the IVR system.
2. The IVR verifies the caller's identity by collecting a PIN, unique agency-defined identifier, date of birth, or other information.
3. The IVR asks the caller a series of City-defined questions, such as change of address, employment updates, or contact with law enforcement.
    a. Information collected by the IVR is automatically captured by BI's software without any interaction from a Monitoring Specialist.
4. The IVR will automatically escalate the call to a live Monitoring Specialist if there are any exceptions to the questions.

i) The offeror must provide an automated self-reporting solution that requires clients to call into an Interactive Voice Response (IVR) system.

BI's fully automated IVR solution allows City personnel to require offenders to regularly check-in and report any significant changes to their circumstances. During each check-in, the IVR will pull offender information from our software. As the offender confirms information, the IVR will update the database with any relevant changes. If the offender's information has changed since the last check-in, the IVR will automatically forward the call to a live Monitoring Specialist who will collect and record the updated information in the database.

ii) Clients must be able to call the system as required to provide daily, weekly, or monthly check-ins.

As a highly configurable system, the City can require offenders to call the IVR on a daily, weekly, or monthly basis.

iii) The system must be able to verify information for each caller through a series of questions (e.g. "have you had any changes in employment?").

During program implementation, BI will work closely with the City and Participating Public Agencies to determine which questions the IVR will ask each caller. Examples of the types of questions routinely asked by the IVR include:

- Has your address changed?
- Has your employment changed?

- Have you had any contact with law enforcement?
- Have you been arrested since your last check-in?
- Would you like to leave a message for you officer?
- Would you like to request a change to your schedule?
- Do you have any orders of protection?
- Would you like to update your officer on your schedule or location?

BI's IVR solution performs real-time adjustments, including escalating calls to a live Monitoring Specialists. Many other IVR solutions forward the offender to voicemail box for call center staff follow-up at a later time.

We look forward to working with City and Participating Public Agencies to customize IVR questions specific to each agency's monitoring needs.

iv) If there are changes or exceptions to the expected responses, the client must be routed to a live member of the offeror's monitoring center. Offeror staff must update information in the system in real time.

BI's routine check-in solution relies on both automated and live Monitoring Specialist interaction to capture offender information. The IVR will ask the offender a series of questions, escalate the call to a live Monitoring Specialist if there are any exceptions, and make real-time adjustments to offender information in the software. *Figure 46* further demonstrates how the IVR escalates a routine check-in to a live operator when the caller reports an exception.

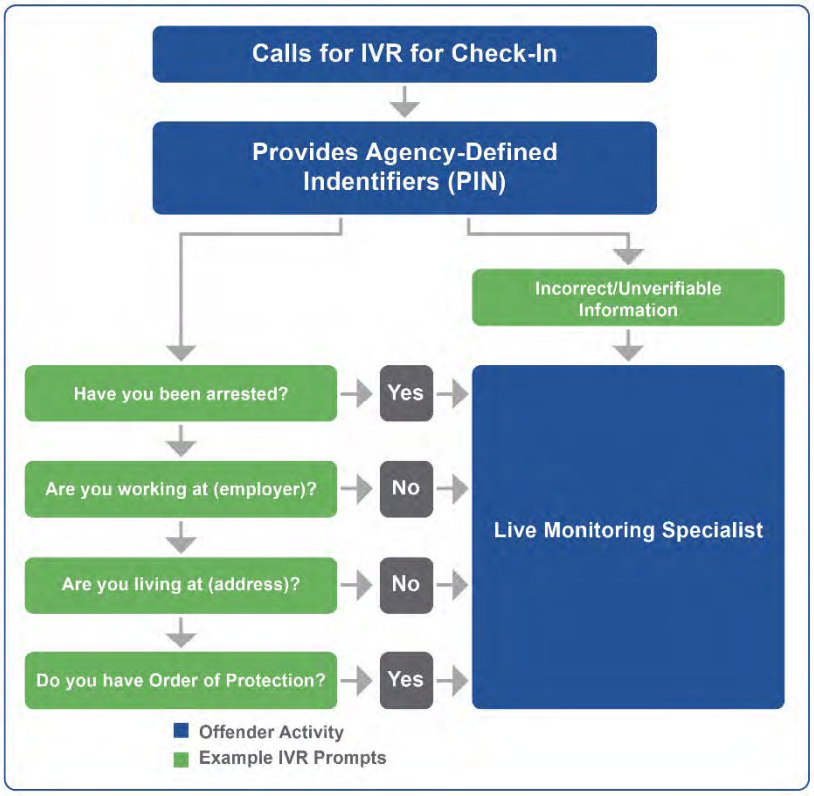

Figure 46. Escalation of Reported Exceptions

Escalating callers to a live Monitoring Specialists allows BI to capture information about exceptions or noncompliant activities in real-time—relieving officers of the need to log into the system to capture case notes.

v) The system must provide automated notifications and reminders to clients.

BI's system can be used to remind offenders and pretrial defendants of upcoming probation appointments, court hearings, or other mandated activities. The City will be able to select the method and frequency of all reminder notifications, including alerting offenders of upcoming activities via text message, email, or live operator call.

Email and text reminders will be configured for automatic delivery within the Automated Check In software. Offenders who require phone calls will be identified and tracked within the Automated Check In software. BI's Monitoring Operations will place outbound calls to offenders and record the time, date, and the result (successful or unsuccessful) of the call. The assigned officer will receive notification for all reminders that are sent, and all communications will be recorded in the offender's record. Officers will be able to select which method of delivery they prefer—text, email, automated call, or live operator call.

vi) The system must have the capability for officers and clients to leave and receive messages from one another.

BI's IVR solution streamlines the communication process between officers and offenders:

- If an offender wants to leave a message for their officer, the caller simply indicates so during the check-in process.
  - The call is escalated to a live Monitoring Specialist that transcribes the message, asks follow-up questions (if part of the City-determined procedure), and alerts the officer of the message via predetermined notification methods.
- If an officer wants to leave a message for the offender, the officer calls BI Monitoring Operations.
  - BI will verify the officer's identity through a PIN and transcribe the message.
  - The next time the offender performs a check-in, the caller will be notified that they have a pending message from their officer.
    - Alternatively, BI can proactively contact the offender to relay urgent or time-sensitive messages.

In addition to verbal messages relayed to individual offenders, the IVR system is able to send out mass communications to all or groups of offenders. Officers can relay information to their entire caseload as easily as sending a message to an individual offender.

The IVR will act as a comprehensive data collection tool for officers, providing programmatic efficiencies while dramatically reducing officer workload.

vii) The system must provide real-time officer notifications for any noncompliant activity.

With the understanding that communicating noncompliant activities is critical to successfully monitoring offenders, BI can customize our IVR solution to meet the unique notification and escalation processes used by the City. BI Monitoring Specialists will leave a message for officers when necessary regarding routine offender check-in activities. All data collected during check-in calls will be available in BI's software. BI will communicate with officers in numerous ways regarding check-in calls, including:

- Placing outbound calls
- Sending email messages to the officer's mailbox
- Displaying information in case summary and dashboard screens within the software
- Following alert notification and escalation protocols

viii) The agency must be able to customize the questions asked by the IVR system.

BI's proposed check-in solution is highly flexible. We are able to modify questions or make other changes based on evolving City requirements.

Documenting Officer Contact with Clients

A key component to effectively monitoring offenders in the field is through regular communication with officers, supervising work and school activities, and verifying any changes in the monitored individual's circumstances. This often results in officers spending much of their time in the field, returning to the office, and performing laborious data entry—which introduces the risk of incomplete or inaccurate case notes. To alleviate this burden, BI has a Case Contact solution, depicted in *Figure 47,* which allows officers to dictate information to Monitoring Specialists.

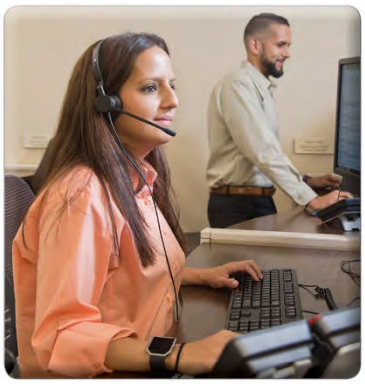

Figure 47. Documenting Offender Contacts

BI's Case Contacts feature supports officers with dictating key events to Monitoring Specialists through various codes.

Key components of this solution include:

- **Developing a Coding System.** In collaboration with the City, BI will develop a simple coding system that will streamline the data entry process. Officers and Monitoring Specialists will use these established codes to quickly communicate and capture Case Contacts in the software.
    - For example, an officer may call BI Monitoring Operations after completing an in-person meeting with an offender to dictate information to Monitoring Specialist regarding the engagement. By using a coding scheme, the officer can relay detailed information about the visit using a series of established numbers and letter codes in minimal time.
- **Customizing Software Fields.** After the code is established, BI software engineers will customize the fields in the software to accept the City-specified codes.
- **Creating Call Scripts and Operating Procedures.** BI will work with the City to determine what information the Monitoring Specialist will capture in the software. When a Monitoring Specialist receives a Case Contact call from the field, the software will automatically guide the Specialist through each question to ask and the associated code.

i) The offeror must provide data entry service for officers to record case notes while in the field.

The *Case Contact* feature uses a series of mandatory fields to guide Monitoring Specialists in capturing critical data points. The *Case Contact* feature is a highly intuitive solution that BI designed to capture complete and accurate information. Monitoring Specialists data entry screens will change based on the type of information the officer dictates.

For example, if an officer calls BI Monitoring Operations to report a drug test, the software will automatically prompt the Monitoring Specialist to ask the following questions:

- Was the drug test performed randomly, due to reasonable suspicion, or routinely?
- What type of drug test was performed?
- What were the results of the drug test?

The Case Contacts feature allows users to sort and view data based on event codes, for example the number of face-to-face contacts, drug test results, and routine check-ins.

ii) The offeror must provide highly trained staff to transcribe officer notes based on interactions with clients. These services must be provided on a 24x7 basis.

BI Monitoring Specialists will be available on a 24/7 basis to receive dictated case notes from officers in the field. City personnel can retrieve offender history files by calling BI Monitoring Operations or by directly accessing the software.

iii) All documentation of case notes must be date and time stamped within the software. These notes should be easily reviewed by authorized staff.

Authorized City personnel can retrieve all dictated case notes by calling BI Monitoring Operations or directly accessing the software. With the understanding that all offender contacts are critical to ensuring compliance, BI's software will automatically date and time stamp all Case Contact activities.

Alert Management Activities

Alert management is a common challenge for agencies monitoring individuals released to the community—regardless of if the individual is on electronic monitoring equipment or checking-in through IVR or similar technologies. With these challenges in mind, BI's Monitoring Operations can provide supplemental services to attempt to proactively resolve alerts, troubleshoot equipment issues, and notify assigned City personnel of confirmed violations.

i) The offeror's monitoring center must accept client calls to verify that clients are adhering to agency-mandated schedules.

Note: This requirement does not apply to individuals on electronic monitoring devices. Monitoring Specialists will not need accept location verification calls from individuals wearing equipment, as the device will perform these verifications.

BI understands that officers can place an offender that is not monitored via electronic monitoring technology on curfew requirements. BI will work closely with the City to create specific procedures regarding accepting calls from offenders to verify compliance with mandated schedules. The following procedure is an example of the methods employed by BI Monitoring Operations to verify offender schedule compliance:

1. The offender will call BI Monitoring Operations within 2 hours of the scheduled departure/arrival time.
2. BI's software will generate random outbound calls to ensure the offender is present at home and compliant with curfew restrictions.
3. If an offender misses a check-in call, BI will generate an outbound call to determine if the offender is complying with curfew requirements.

ii) Clients will call the offeror's monitoring center to verify, schedule, or amend appointments for job interviews, work, school, or doctor visits.

Monitoring Specialists will document all calls for schedule changes in BI's software. BI will document all information pertaining to the schedule change request including:

- The date and time of the request
- The Monitoring Specialist associated with documenting the request
- The type of schedule change requested by the offender

Officers will be able to override standard movement procedures for any offender on a 24/7 basis. As an extra level of quality assurance, Monitoring Specialists will review any "Special Notes" in the software to determine if there are any exceptions associated with an offender's movement.

Modifying Offender Schedules

BI will collaborate with the City to determine the type of schedule changes Monitoring Specialists are allowed to process. Examples of circumstances in which other agencies allow BI to modify an individual's schedule include:

- Job search activities
- Work, with up to 90 minutes travel time
- Counseling, with up to 90 minutes travel time
- School, with up to 90 minutes travel time
- Emergency Room (ER) medical situations, with up to 90 minutes travel time
- Movement authorized by request from officers

iii) The system must enable officers approve or deny requests by phone or via offeror software.

BI will collaborate with City leadership during program implementation to develop approval processes related to schedule requests. Monitoring Specialists can call officers to verify the approval processes, or authorized users can approve or deny requests through the software.

iv) The offeror's monitoring center must conduct initial outbound calls on all EM alerts, placed by persons physically present in the monitoring center. This must occur prior to dispatching alert information to the officer.

As a supplemental service, BI has the ability to proactively investigate electronic monitoring alerts through our live Monitoring Specialists located at our Monitoring Operations offices. BI will collaborate with the City to determine which alerts require proactive resolution, the processes to follow for each type of alert, and the officer to notify if the violation remains open. An example of the type of custom alert resolution process used by BI Monitoring Operations includes:

1. Monitoring Specialists will ensure that the violation status is accurate by viewing offender information in software.
2. If the violation is still active, the Monitoring Specialist will attempt to locate the offender by calling the host site, work, school, or aftercare locations.
3. BI will attempt to resolve the violation by performing the steps outlined above two times.
4. Should the Monitoring Specialist have contact with the offender, BI staff will attempt to troubleshoot the issue with the offender.
5. The Monitoring Specialist will follow City-designated alert notification procedures, including emailing, calling, or escalating the alert.

v) These initial calls should troubleshoot equipment issues or to locate a missing monitored individual.

BI can designate that offenders may have faulty equipment in two scenarios: (1) per an officer's instructions; or (2) when a Monitoring Specialist determines an equipment violation may exist. BI's *Standard Operating Procedure* for equipment repairs includes:

1. Officers call Monitoring Operations to report equipment malfunctions, or the Monitoring Specialist determines equipment malfunctions are occurring.
2. The Monitoring Specialist selects a function within the software.

3. Based on software prompts, the Monitoring Specialist describes the equipment error through answering a series of questions.
4. Monitoring Specialists attempt to resolve equipment issues by reviewing alert history and making outbound calls to the offender to ensure equipment functionality.

To locate a missing individual, BI will enact the violation resolution process described above in response to the previous specification.

vi) If unsuccessful, the alert must be escalated to the supervising officer for additional action in real time.

BI Monitoring Specialists will always follow the City's alert notification processes, methods, and timeframes. This will enable officers to respond to potential violations in real-time.

Processing Warrants

Warrant processing is a critical component to enacting sanctions after an offender has demonstrated non-compliance with mandatory terms of release. This activity, while critical to supporting public safety and upholding City and Participating Public Agency supervision goals, can quickly become an administrative burden to officers with large caseloads.

With these needs in mind, BI has an established Warrant Processing Helpdesk staffed by live, knowledgeable Monitoring Specialists based out of our Monitoring Operations facility. Each Participating Public Agency will have unique warrant processing requirements, protocols, and preferences. BI will work closely with the City and Participating Public Agencies to develop and implement customized warrant processing.

i) The offeror must provide warrant processing services to expand the agency's after-hour coverage.

BI will assist the City and Participating Public Agencies with processing, reporting, and maintaining accurate records related to warrant issuance. This will be accomplished through a 24-hour BI Warrant Processing Helpdesk, staff specifically trained to support warrant requests, consolidated reporting, and Standard Operating Procedures that will guide Monitoring Specialists through the warrant process.

Based on each unique agency's needs and processes, BI will establish which events trigger support from our Warrant Processing Helpdesk. Examples of the types of events that may trigger Monitoring Specialists to process warrants include:

- Absent without Leave (AWOL) or absconded offenders, including:
  - Offenders considered AWOL based on electronic monitoring and GPS data
  - Offenders considered AWOL per officer instructions
- Failure to comply with orders of supervision/agency mandates
- Offenders that have been arrested

ii) When a client misses a scheduled check-in or is considered absconded, the offeror must accept calls from officers to process a warrant for the client's arrest.

In support of processing warrants, we understand that law enforcement officials will contact BI Monitoring Operations to hold a suspect by acquiring a warrant. BI will provide an 800-phone number dedicated to law enforcement officials to accommodate this component of our solution.

BI allocates more senior, tenured Monitoring Specialists to respond to warrant requests, and these individuals have received rigorous training specific to collecting and recording information regarding warrants. In addition, BI developed our software interface to provide the Monitoring Specialists with automated prompts to aid with data collection and accuracy.

BI Monitoring Operations currently has all telecommunications equipment in place to accommodate warrant issuance requirements, including a system to distribute law enforcement calls to specially trained Monitoring Specialists.

Examples of information collected when law enforcement official contacts BI Monitoring Operations to request a warrant include:

- The Law Enforcement Officer's name, associated agency, and county
- Specific incident information, such as:
  - Was the offender arrested?
    - What was the offender charged with?
    - What was the class of the charge?
  - Was there a weapon involved in the incident?

iii) The offeror must processes fingerprint and name matches in the National Crime Information Center (NCIC) database.

As a component of warrant processing, BI will perform name and fingerprint hit monitoring through a National Crime Information Center (NCIC) terminal within our Monitoring Operations facility. Tenured Monitoring Specialists will review and respond to emailed name and fingerprint hits, escalating information as appropriate to designated agency personnel.

Fee Processing

Cost-effective monitoring is critical to meeting the needs of many agencies; budgets are often shrinking while officer caseloads continue to expand. Many community corrections programs include models that require offenders to directly pay all, or a portion of, the costs associated with their supervision—including electronic monitoring, case management, and other supervision activities. Fee collection adds another administrative duty to an officer's workload, and agencies often struggle with collecting fees, generating reports on fee collection, and processing offenders that may be indigent. Fee collection is further complicated by the type of offender population being monitored—for example, certain types of offenders may be required to pay only a portion of the cost of their supervision.

i) The offeror must provide fee management services that include client fee collection and processing, for both court-ordered or supervision fees, either electronically or manually.

BI will provide offender fee collections and a web-based payment record of collected supervision fees per offender. Our system will calculate, collect, and record fees owed by the offender, and will track and notify City personnel and offenders of missed payments. The Offender Supervision Fee Collection System will provide the City with three types of offender enrollment statuses:

1. Enrolled. The offender is currently enrolled in the Supervision Fee Collection System and is responsible for payments. If the offender needs to be removed due to inability to make payments (indigent, homeless, SSI-Disability, or unemployed) then the officer can change the offender to Not Enrolled or Suspended status.
2. Not Enrolled. The offender is not currently enrolled in the Supervision Fee Collection System and is not responsible for any fees that were assessed during their release.

3. Suspended. The offender's status is currently suspended, and they are only responsible for fees assessed while in Enrolled status. Once the offender is suspended they will not continue to generate additional fees.

ii) The system must have the ability to configure fee reminders for each individual through an automated notification system.

The Offender Supervision Fee Collection System will configure fee reminders through an automated notification system for assigned offenders or pretrial defendants.

iii) The system must utilize a notification system that alerts clients when payments are due or late.

BI will notify offenders of delinquent payments through an automated script in the IVR system, which will review missed payments and remind offenders of their payment schedule during monthly check-in calls. In addition, Monitoring Specialists will provide outbound calls to offenders upon request of City personnel.

iv) Clients should have the option to pay fees via remittance envelopes or credit card through the offeror's 24-hour monitoring center.

BI will provide an easy to use remittance envelope with clearly labeled fields to assist offenders with providing the necessary information for payment submission. BI will only accept cashier's checks or money orders from offenders. If payment by personal check or cash is received, a BI Monitoring Specialist will contact the supervising officer to determine the appropriate response. In addition to the methods detailed above, BI has the ability to add additional methods of payment, including credit cards or online payment as directed by the City or Participating Public Agencies.

7. Smartphone Application

Smartphone Application | BI SmartLINK

The offeror must provide a client-facing smartphone application that provides supervision tools for agency personnel and client tools for accessing community resources.

Supervised offenders typically have unique monitoring requirements, complex schedules, and varying risk and needs. BI SmartLINK is a smartphone application that provides mobile supervision and offender-focused tools. It is designed to foster offender compliance with City requirements and helps facilitate a successful transition to pro-social life within the community.

BI SmartLINK is an Apple and Android compatible mobile application that provides the City and Participating Public Agencies with a tool to effectively communicate with and supervise offenders. Equipped with the ability to message offenders, sample GPS data, biometrically identify offenders, require offenders to report on significant life events, and remind offenders of critical appointments, BI SmartLINK is an ideal supplemental monitoring solution.

SmartLINK is the newest monitoring solution released by BI. This application was first released in 2016, and BI software developers are continuing to add features to SmartLINK based on feedback from agencies using the technology.

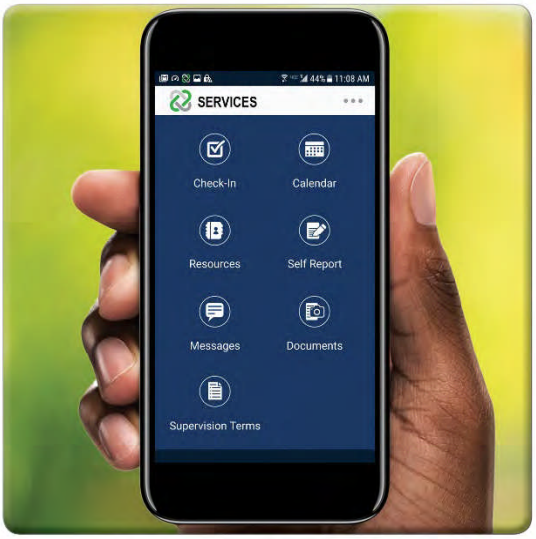

Figure 48. BI SmartLINK

City personnel select any combination of stand-alone SmartLINK modules to create a customized application for each offender—allowing SmartLINK to be used as a supervision tool for a continuum of lower and higher risk caseloads.

Application Features

i) The mobile application must be highly secure and use password protection and other security features.

SmartLINK includes industry-standard security features commonly used by other smartphone applications. After the offender installs the application on their personal smartphone, the monitored individual must enter valid credentials before enrollment begins. When enrollment is complete, the username is stored and only the password is required to launch the application. The SmartLINK session expires after one hour of no activity, and the offender must login again to access the application.

ii) The application must provide a mobile reporting platform to help increase client accountability while in the community.

BI designed the SmartLINK application with the intent of increasing offender accountability—and therefore compliance with agency-mandated supervision terms—when individuals are released in the community. SmartLINK consists of seven individual modules BI designed to support offender accountability and supervision.

iii) The mobile application must be customizable based on agency preferences and client risks and needs.

SmartLINK uses distinct modules to provide a suite of monitoring tools. The City and Participating Public Agencies can use any combination of the SmartLINK modules to best accommodate their preferences

and individual offender needs—including using the application to augment other electronic monitoring technologies. Described in detail throughout this section, *Table 27* summarizes each SmartLINK module.

Table 27. SmartLINK Application Modules

Module	Description
Check-In Module	Provides random or scheduled check-ins. During the check-in process, SmartLINK collects a GPS point and uses facial recognition technology to verify the offender's identity.
Self Report Module	Provides a reporting mechanism for significant life changes—such as change of address, employment, program violations, arrests, and contact with law enforcement.
Supervision Terms Module *Exceeds RFP Requirements*	Allows offenders to review their supervision conditions within the SmartLINK application at any time.
Calendar Module	Displays the offender's scheduled appointments and services and provides the offender with automated, City-designated reminders.
Calendar Check-In Module	Allows City personnel to combine the check-in process with a mandated offender activity.
Resources Module	Displays a directory of City-approved local service providers to inform offenders of available support.
Messaging Module	Allows offenders and City personnel to directly message each other.
Document Capture Module	Allows offenders to capture documents as photographs and submit this information directly to supervising City personnel.

SmartLINK increases the City's options for offender supervision and monitoring. The application is well suited for any population where use of offender-worn electronic monitoring equipment may not be necessary, as it provides a non-intrusive solution at a minimal cost. The City can also use any combination of the SmartLINK stand-alone modules to augment electronic monitoring or to enhance other community-based services (e.g. day reporting programs).

iv) The data generated, collected, and reported via the mobile application must be accessible within the offeror's electronic monitoring software.

All SmartLINK data is accessible via TotalAccess, BI's proposed electronic monitoring software. The consolidation of all data in the interface is ideal for officers with caseloads that have individuals monitored by multiple types of electronic monitoring equipment.

v) The mobile application must be available in both English and Spanish.

SmartLINK is available in English and Spanish.

Supervision Tools

Check-In

Check-In Module is a highly flexible tool that accommodates a variety of offender schedules and mandated monitoring conditions. This module allows the City to require that an offender submit to random or scheduled check-ins. During the application's check-in process, SmartLINK collects a GPS point and

uses facial recognition technology to verify the offender's identity. Specific use cases and features of this module include:

- City personnel create customized schedules that best suit varying offender populations. For example, schedules that are specific to approved work activities, counseling, or other City-mandated activities.
- City personnel instruct the offender to check-in for a specific situation. For example, an officer might instruct the offender to check-in upon arrival to their place of employment.
- If City personnel believe that the offender may be partaking in noncompliant or illegal activities, City personnel initiate an on-demand check-in request from within TotalAccess.

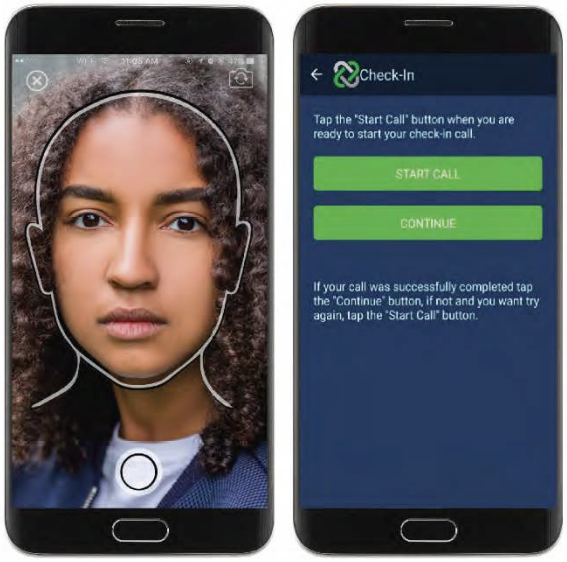

Figure 49. SmartLink Check-In

In addition, SmartLINK is equipped with a Calendar Check-In Module that allows City personnel to combine the check-in process with a mandated offender activity—such as counseling or community service. For example, the City can use the Calendar Check-In Module to help confirm that an offender completed certain activities as required.

The following table provides additional confirmation of BI's compliance with RFP requirements specific to check-in activities.

Table 28. SmartLINK Check-In Features

RFP Requirement	SmartLINK
(1) The mobile application must biometrically verify client identity and location through fixed or randomly scheduled check-ins.	✓
(2) The mobile application should offer multiple options for biometrically identifying clients, including facial and voice biometric technology.[5]	✓
(3) Agency personnel must be able to confirm that clients are compliant with location and curfew through the mobile application.	✓
(4) The mobile application must collect a GPS point during client check-in to confirm the location of the client.	✓
(5) The mobile application must be able to process the GPS point collected during a client check-in against the address of a required location at a specific time.	✓

[5] Biometric voice verification available at an additional cost.

Self Report

Self Report Module allows the offender to inform City personnel quickly of significant life changes—such as change of address, employment, program violations, arrests, and contact with law enforcement, as depicted in *Figure 50*. After the offender submits self-report information from their mobile device, SmartLINK requires that the offender complete the application's check-in process. For example, City or Participating Public Agency personnel use the Self Report Module to manage and maintain contact with lower risk offenders who do not require frequent office visits—as well as supplement face-to-face visits with higher risk offenders.

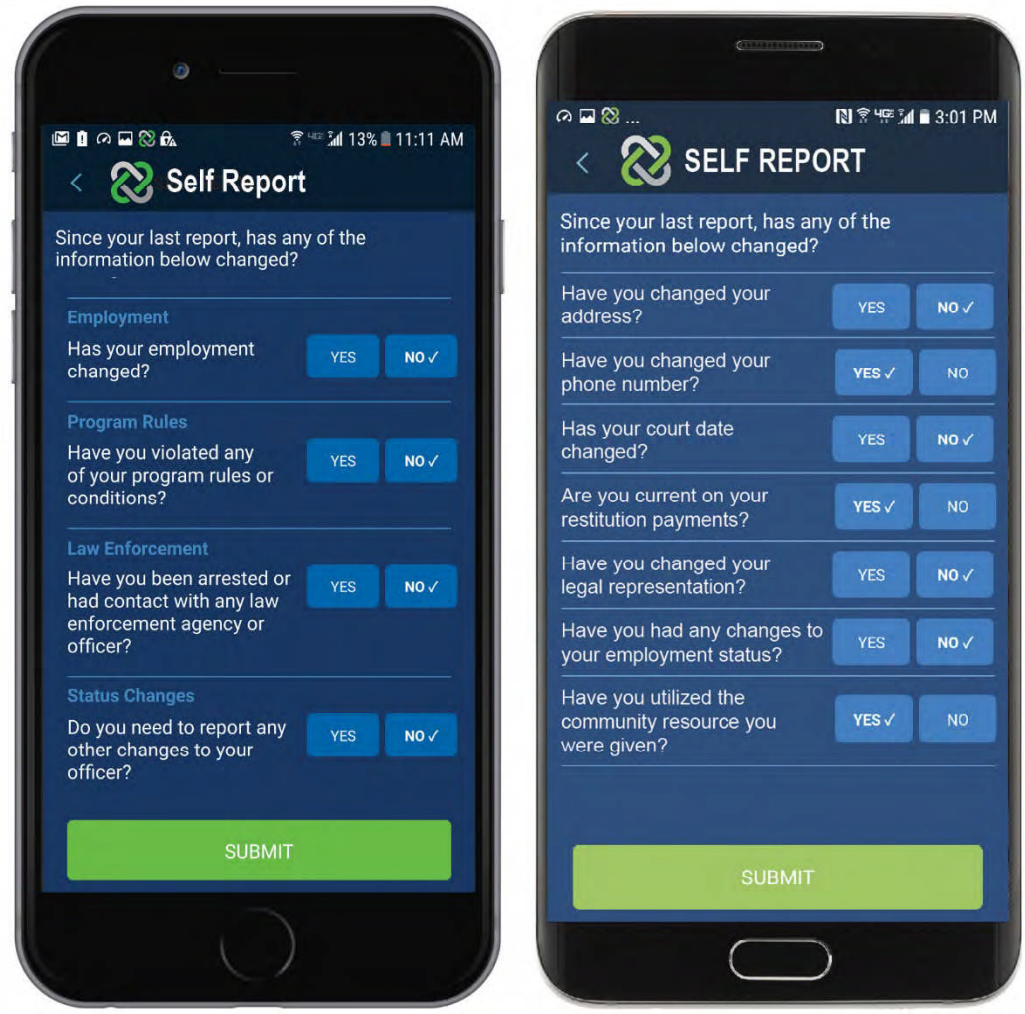

Figure 50. SmartLINK Self Report

Table 29 provides additional confirmation of BI's compliance with RFP requirements specific to Self Report activities.

Table 29. SmartLINK Self Report Features	
RFP Requirement	**SmartLINK**
(1) The mobile application must provide a means for clients to report significant life events (such as address changes, employment updates, program violations, arrests, and contact with law enforcement).	✓
(2) The mobile application must complete a biometric check-in, complete with GPS point collection, upon completion of the self-report activity.	✓
(3) The mobile application must allow agencies to create their own questions to be asked to a client.	✓

Calendar

Calendar Module displays the offender's scheduled appointments and services—such as court dates, case manager meetings, and counseling—and provides the offender with automated, City-designated reminders. The application's ability to remind offenders of upcoming appointments and services helps support compliance with supervision conditions. Specific use cases and features of this module include:

- From within TotalAccess, City personnel enter the offender's scheduled appointments and services into the system and designate when SmartLINK will provide automated reminder notifications to the offender, as indicated in *Figure 51*.
- Using the SmartLINK application on their phone, the offender taps on an individual Calendar entry to review details such as the time of the appointment and the address and phone number of the provider.

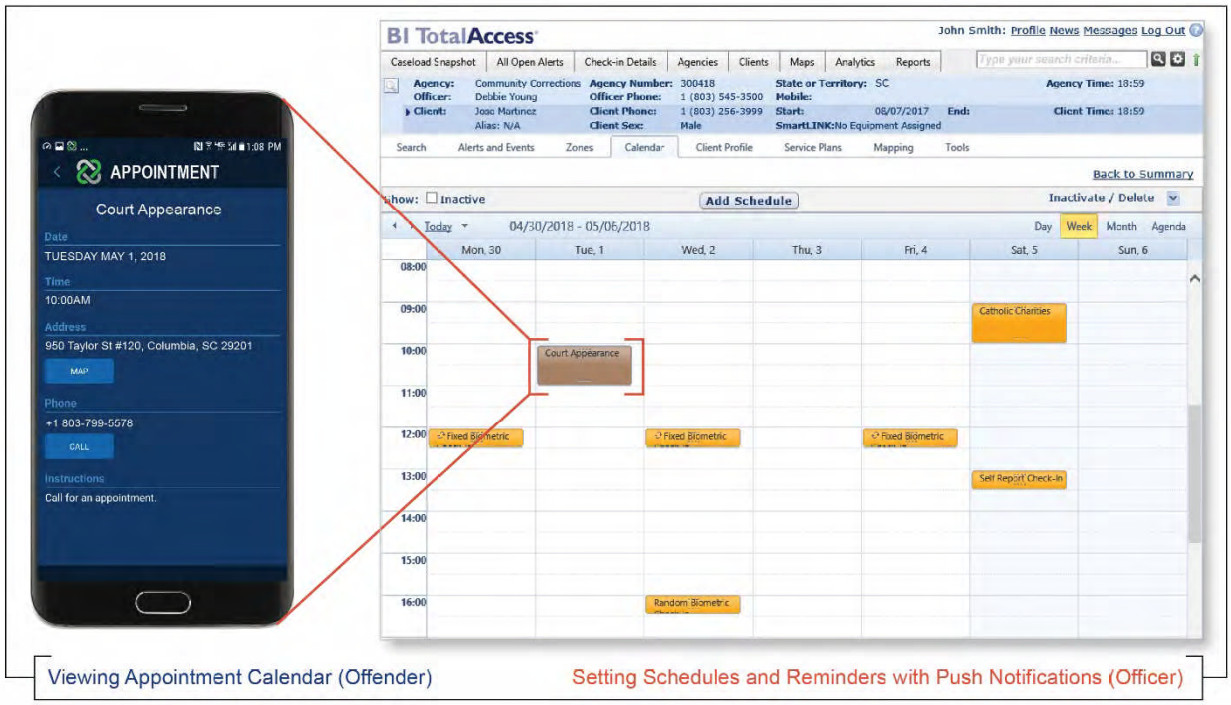

Figure 51. SmartLINK Calendar Module

The Calendar Module can also be combined with the Calendar Check-In Module, which allows City personnel to combine the application's check-in process with a mandated offender activity—such as counseling or community service.

Table 30 provides additional confirmation of BI's compliance with RFP requirements specific to calendar activities.

Table 30. SmartLINK Calendar Features

RFP Requirement	SmartLINK
(1) The application must allow officers to create calendar events of upcoming appointments, such as court dates, officer meetings, and counseling sessions.	✓
(2) The mobile application must automatically send the client reminders of scheduled events.	✓
(3) The calendar and appointment reminder features must be flexible and easily customized by the officer.	✓
(4) The mobile application must provide officers with the option to link biometric check-ins to calendar events to verify attendance at required activities.	✓
(5) The mobile application must provide officers with the option to require that a client acknowledge an upcoming appointment on their calendar.	✓

Messaging

Messaging Module allows offenders and City personnel to directly message each other. The system date and time-stamps when all messages are sent, received, and read. Unlike traditional text messages, the offender cannot delete messages within SmartLINK. Specific use cases and features of this module include:

- The offender sends a SmartLINK message, and the system records the message in TotalAccess for City review, as depicted in *Figure 52*. This mitigates the potential nuisance of an abundance of offender messages being sent directly to an officer's mobile device.
- From within TotalAccess, City personnel review the historical record of sent and received messages. This information can be used as documentation of offender behavior during the monitoring period or be presented as evidence in court, if needed.

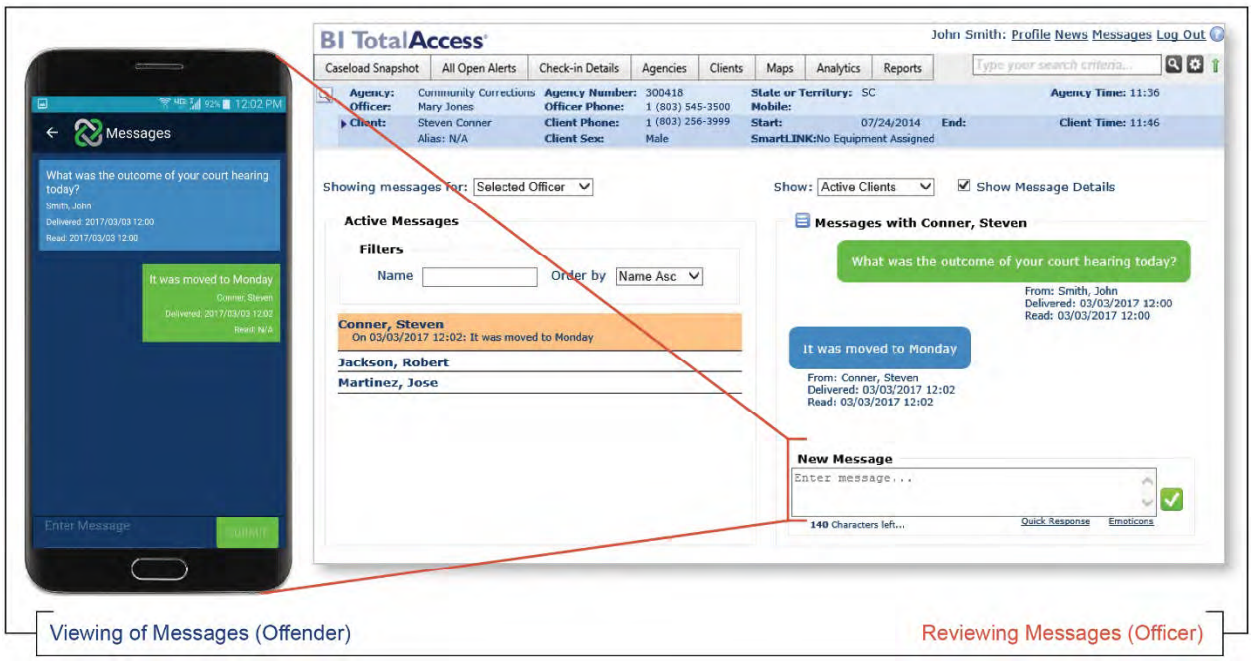

Figure 52. SmartLINK Messaging Module

The following table provides additional confirmation of BI's compliance with RFP requirements specific to messaging activities.

Table 31. SmartLINK Messaging Features

RFP Requirement	SmartLINK
(1) The application must contain a messaging feature that allows two-way communication between officers and clients.	✓
(2) All messages must contain a date and time stamp associated with each communication. The content of the messages and associated time and date stamp must be easily retrieved and reviewed within the offeror's electronic monitoring software.	✓
(3) All messages must contain delivery and read receipt information.	✓

Documentation

Document Capture Module allows offenders to capture documents—such as education, employment, or court documentation—as photographs and then submit this information directly to supervising City personnel. This module is the ideal solution when supervising personnel require that offenders capture photos of paystubs, attendance records at court-mandated counseling, court documentation, etc. TotalAccess securely stores all this information for City review and reference.

Table 32 provides additional confirmation of BI's compliance with RFP requirements specific to documentation activities, and *Figure 53* depicts the module in smartphone and TotalAccess interfaces.

Table 32. SmartLINK Documentation Features

RFP Requirement	SmartLINK
(1) The mobile application must allow clients to upload documents, such as employment and court information, into the offeror's electronic monitoring software. These documents must be captured as photographs that can be easily reviewed by agency staff.	✓

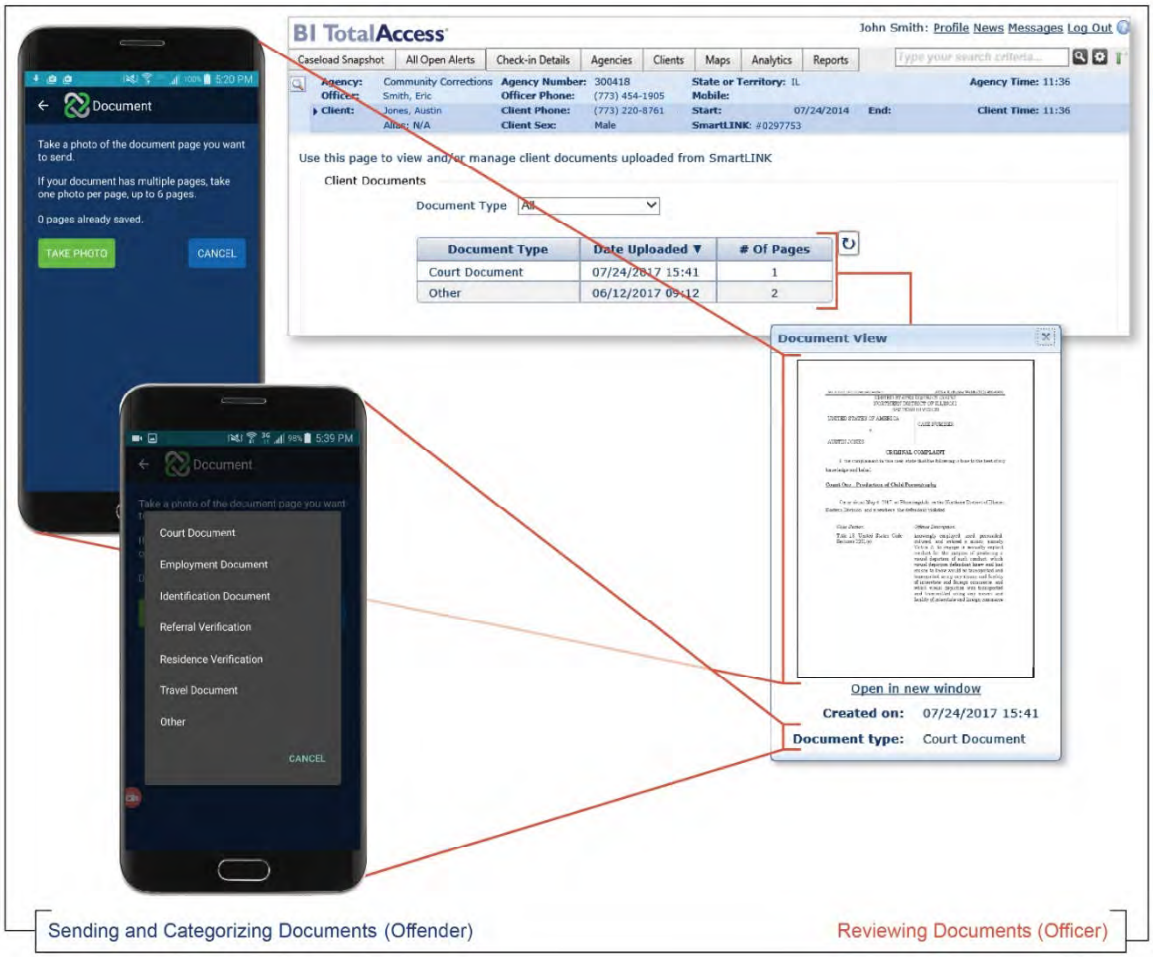

Figure 53. SmartLINK Document Capture Module

Client Tools

Resources Module displays a directory of City-approved local service providers to inform offenders of available support—such as housing, food, employment, and treatment services. The directory is intuitively organized into categories to assist offenders in easily locating specific services in accordance with their needs. Specific use cases and features of this module include:

- From within TotalAccess, City personnel add the desired resources and assign community referral(s) to an offender.

- Using the SmartLINK application on their phone, the offender views information about each assigned resource—including address, phone number, hours of operation, point of contact, website, a map of the location, and a button to call the provider.
- If a significant event occurs—such as a medical or family situation—the offender can access City-approved resources.

Table 33 provides additional confirmation of BI's compliance with RFP requirements specific to offender resources, and *Figure 54* depicts the module in smartphone and TotalAccess interfaces.

Table 33. SmartLINK Offender Resources Features

RFP Requirement	SmartLINK
i) The mobile application should list agency-approved service providers for housing, medical, employment, and other essential services	✓
ii) Listed resources within the application should contain contact information of service providers	✓
iii) Clients must be able to directly call service providers from within the mobile application	✓
iv) The mobile application must include access to an offeror's dedicated 24/7/365 call center	✓
v) Clients must be able to retrieve and review conditions of supervision at any time from within the mobile application.	✓

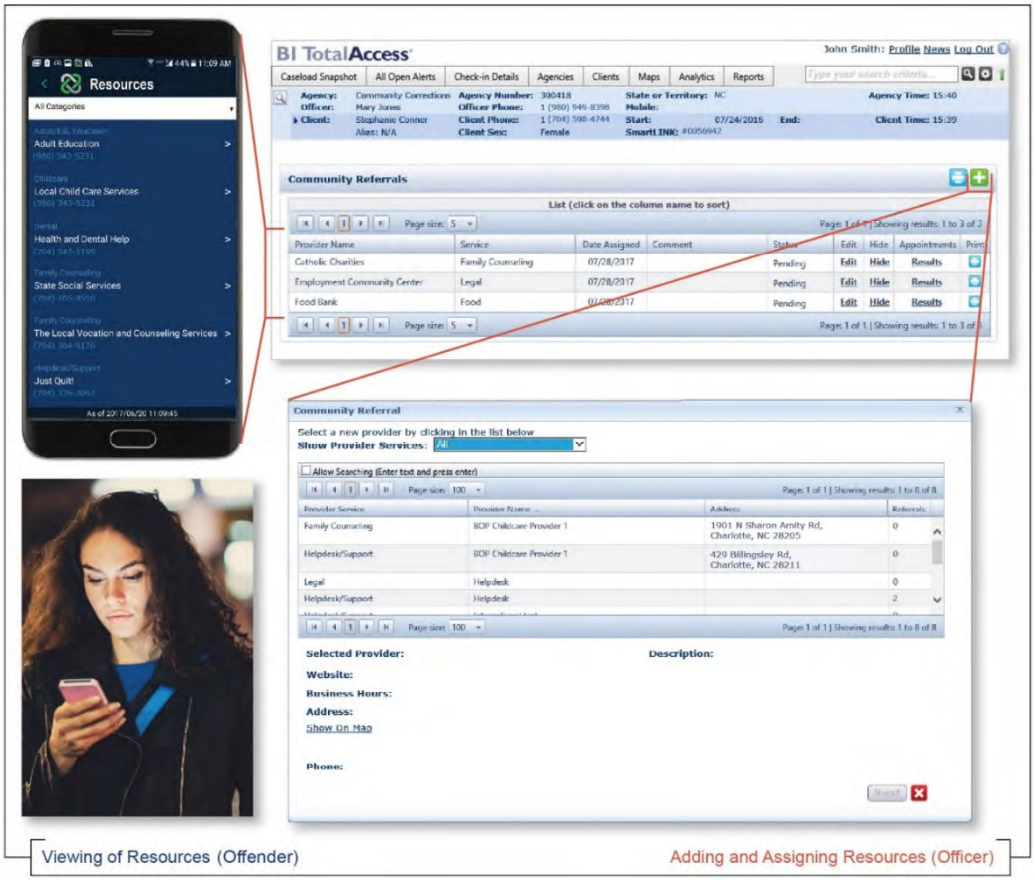

Figure 54. SmartLINK Client Tools

8. Data Analytics Software

Our integrated software platform will include actionable analytics from additional imported data sources to further enhance officer decision-making and improve outcomes. BI's robust reporting and software features offer City managers enhanced value to reduce program performance risk through more efficient oversight and increased program accountability.

Rather than logging on to disparate systems and comparing information, BI Analytics is integrated with TotalAccess, so City staff can easily query offender location and date/time ranges to establish proximity to a crime scene.

Data Analysis is the science of using qualitative and quantitative tools to examine large quantities of data with the purpose of identifying insights derived from analyzing behavioral data and patterns. Our proprietary application collects, organizes, and analyzes large sets of data while collecting the vast amount of offender tracking data. As a result, BI Analytics draws conclusions and makes inferences on behavior trends, creating actionable information for City staff. BI Analytics can uncover hidden elements in the enormous amounts of data captured in TotalAccess. These elements are used to formulate trends, construct profiles and analytic reports, and build predictive models that create insights about the offender population. BI's Data Analytics promotes key insights and learnings by generating high-quality graphics to visually display trends.

a) Offerors must provide advanced data analytics software that is fully integrated with proposed electronic monitoring software. This analytical analysis feature should be designed to evaluate trends in client behavior and calculate potential risk.

BI Analytics is an enhanced feature of TotalAccess that uses advanced technologies to analyze the large amounts of data produced by GPS monitoring. The tools within Analytics let officers to easily identify offender patterns and pinpoint risky behaviors—allowing the City to focus on the highest risk individuals. In addition, Analytics allows program administrators to view the overall health of their program and the work of officers.

Other providers claim to have analytics software—however, many features touted as analytical are a repackaging of standard monitoring software features BI has always provided as part of TotalAccess. BI employs a team of software developers who perform extensive computational, statistical, and mathematical research necessary to produce predictive outcomes.

Table 34 below depicts the software features that are standard to TotalAccess and the enhanced features provided to the City within BI Analytics.

Table 34. BI Analytics Features

Electronic Monitoring Software Feature	Standard TotalAccess Capability	Enhanced BI Analytics Feature
Travel Route Playback	✓	
Map Zoom Capabilities	✓	
Address Association and Identification	✓	

Table 34. BI Analytics Features		
Electronic Monitoring Software Feature	**Standard TotalAccess Capability**	**Enhanced BI Analytics Feature**
Shared Location Reports	✓	
Risk-Based Dashboard		✓
Alert Response Analyses		✓
Absconder Analysis		✓
Address Proximity Analysis		✓
Enhanced Stops Analysis		✓
Risk-Based Zone Creation		✓

Throughout the evaluation of vendor analytical software, we encourage the City to compare the advance analytical features provided by BI against the software provided by competitors. Few, if any, providers have the capability to provide the advance features contained within BI Analytics.

Example Use Cases: Trend Analysis and Risk Determination Tools

BI designed the Analytics Suite to offer enhanced monitoring capabilities when analyzing data generated by the LOC8. Several features of BI Analytics Suite are unique to the industry and provide officers with insight about offender compliance that is simply not possible through standard electronic monitoring software. As an example of Analytics capabilities, officers can easily identify areas when an offender frequently visits. This technology is supplemented by LOC8 Wi-Fi tracking and includes the following features:

- Visual distinguishers in TotalAccess identify the amount of time an offender remains at a location—enabling officers to determine if an offender is, for example, at a stop light or spending prolonged amount of time in a location.
- Analysis of the frequency the offender stops at the location—enabling officers to identify travel patterns and determine which locations are regularly visited.
- Through the Wi-Fi access points detected by the LOC8, the software can automatically identify the type of business associated with the Wi-Fi signals and categorize locations based on risk—providing officers with a valuable tool to identify high-risk locations (such as liquor stores or day cares) from a consolidated software system.

Analyzing Alert Actions

Supervisory personnel need tools to rapidly determine program and officer efficiency. Evaluating officer effectiveness allows the City to determine if an officer is overwhelmed or is not following alert closure protocols. *Officer Alert Comparison Analysis* detail trends on officers and offenders in intuitive graphical formats. For example, supervisory personnel can run officer performance metrics that detail the number of alerts per offender, average close time, and alert distribution activities. This information helps the City identify performance trends for corrective actions and areas to improve. A sample Officer Alert Comparison Analysis is depicted in *Figure 55*.

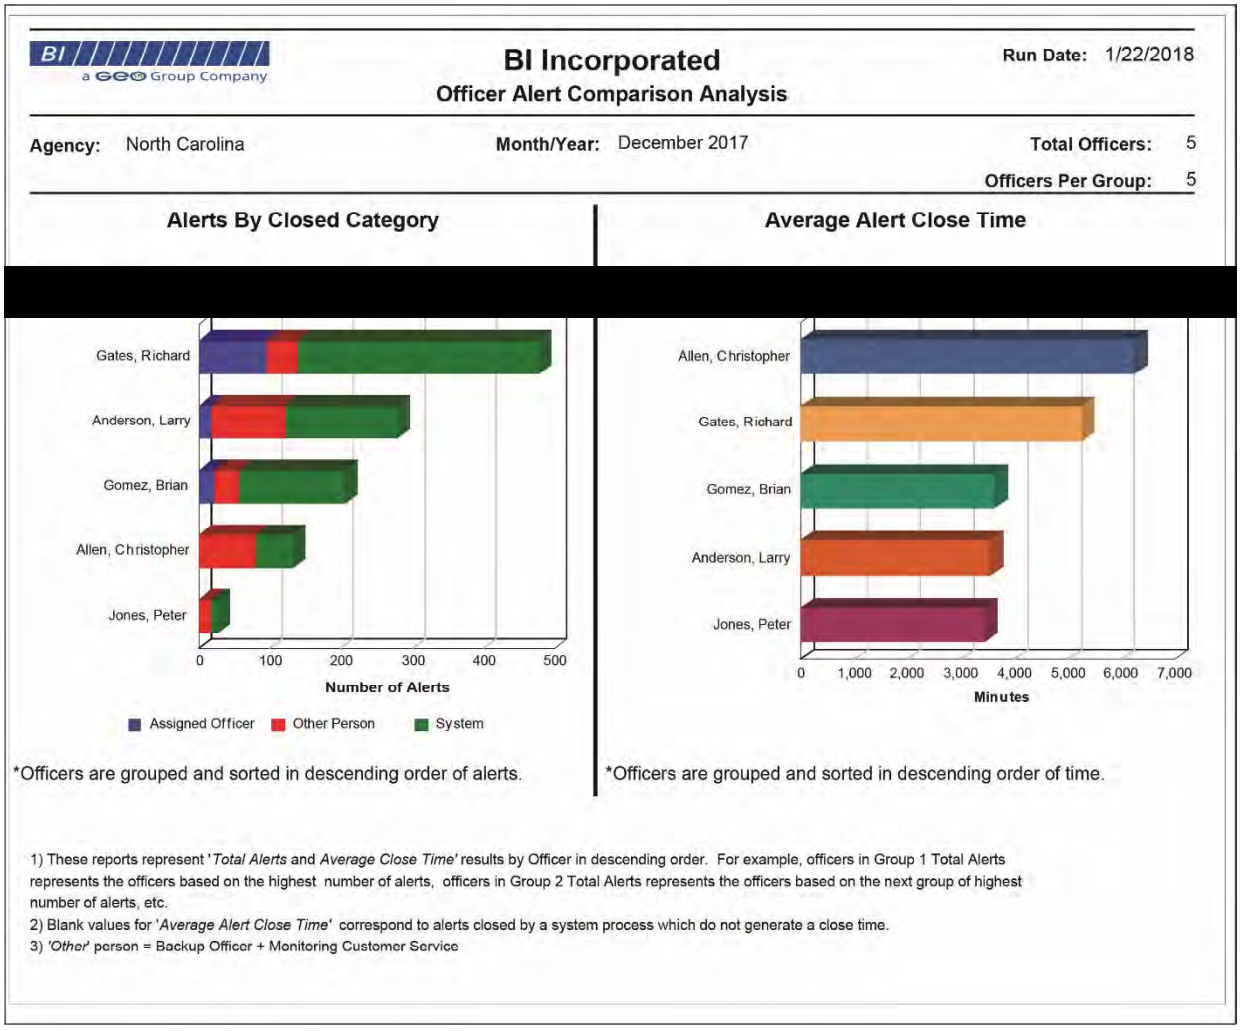

Figure 55. Officer Alert Comparison Analysis

The following table provides additional confirmation of BI's compliance with general *RFP* requirements specific to data analysis.

Table 35. General Data Analysis Capabilities

RFP Requirement	Analytics Capability
b) The offeror must provide analysis tools that promote officer work efficiency by providing agency supervisors and leadership with performance metrics. The analysis should provide key metrics correlated with officer productivity based on alert actions.	Officer Alert Comparison Analysis, p.124
(1) The agency requires analysis that supports supervisors with monitoring officer efficiencies in managing and responding to alerts.	Officer Alert Comparison Analysis, p.124

Table 35. General Data Analysis Capabilities	
RFP Requirement	**Analytics Capability**
(2) The offeror's software must provide consolidated alert closure information, including: the number of alerts by officer within a specific period; categories of alerts and associated resolution times; and average time of alert resolution.	Officer Alert Comparison Analysis, p.124
(3) The offeror's software must provide a graphical display that details outliers of alert trends.	Analytics Dashboard, p.127
(4) The offeror's software must be capable of providing consolidated alert closure information that includes: the number of alerts closed by type; the average alert closure time; and an analysis of the five most frequently generated alerts.	Analytics Dashboard, p.127
c) The offeror must provide analysis tools that support officer efficiencies in managing electronic monitoring data and large caseloads. The software should analyze historical and recent data to provide officers with information about client risk patterns, identify high-risk clients, and prioritize alert management.	Analytics Dashboard, p.127
d) The software should display the results of client data analysis in a visual format. This visual representation to should enable officers to manage higher risk clients at-a-glance.	Analytics Dashboard, p.127
e) The software should display a list of clients by officer caseload that are ranked by priority of risk level.	Analytics Dashboard, p.127

Comparing and Analyzing Alerts

The Analytics Dashboard appears when officers first log into TotalAccess and provides an immediate summary of caseload information. This dashboard feature provides an easy to understand graphical interface and gives users the ability to triage caseloads and increase productivity. Color-coded tools focus users on the highest-risk offenders in order of priority. BI Analytics uses GPS data and other information to calculate a risk-based score. This score is determined by behavioral information input into TotalAccess by the City, the frequency of equipment related alerts such as tampers and battery related events, and the frequency in which offenders do not comply with travel and schedule restrictions.

Based on these categories of risk, BI Analytics displays comprehensive data in a graphical form that draws attention to highest risk and priority cases. Risk levels are assessed based on live and historic information collected over the past three, seven, or 30-day periods. A screenshot depicting the Analytics Dashboard is depicted in *Figure 56*.

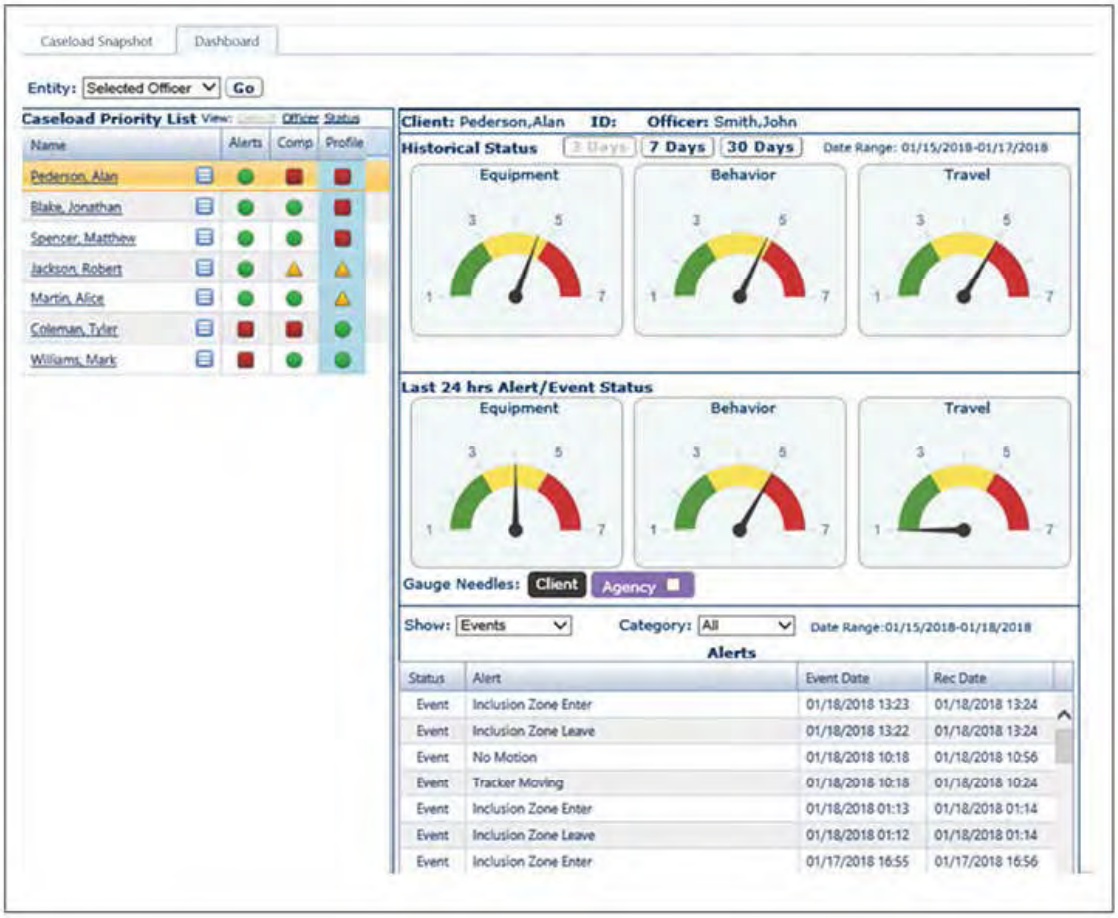

Figure 56. BI Analytics Dashboard

The following table provides additional confirmation of BI's compliance with *RFP* requirements specific to comparing and analyzing alerts.

Table 36. Analytics—Comparing and Analyzing Alert Features

RFP Requirement	Analytics
(1) The software should display monitored clients for a specific officer and be able to categorize alert information based on established time periods.	✓
(2) The software should easily identify clients that generate a high number of alerts.	✓

Analyzing Frequently Visited Locations

Typically, when reviewing GPS information, the focus of supervising personnel is on equipment, zone, and schedule infractions. To glean more information from GPS data, City personnel can utilize the *Enhanced Stops Analysis* in Analytics. The *Enhanced Stops Analysis* provides information about where the offender frequently stops. This enables users to identify potential areas of risk or concern, such as childcare centers or liquor stores that may not be marked as Exclusion Zones. Within TotalAccess, City personnel can view the address nearest to an area where an offender has stopped, the amount of time that transpired during the stop, and nearby businesses. Potential areas of risk and concerns are color coded for easy visual interpretation. A sample *Enhanced Stops Analysis* has been provided in *Figure 57*.

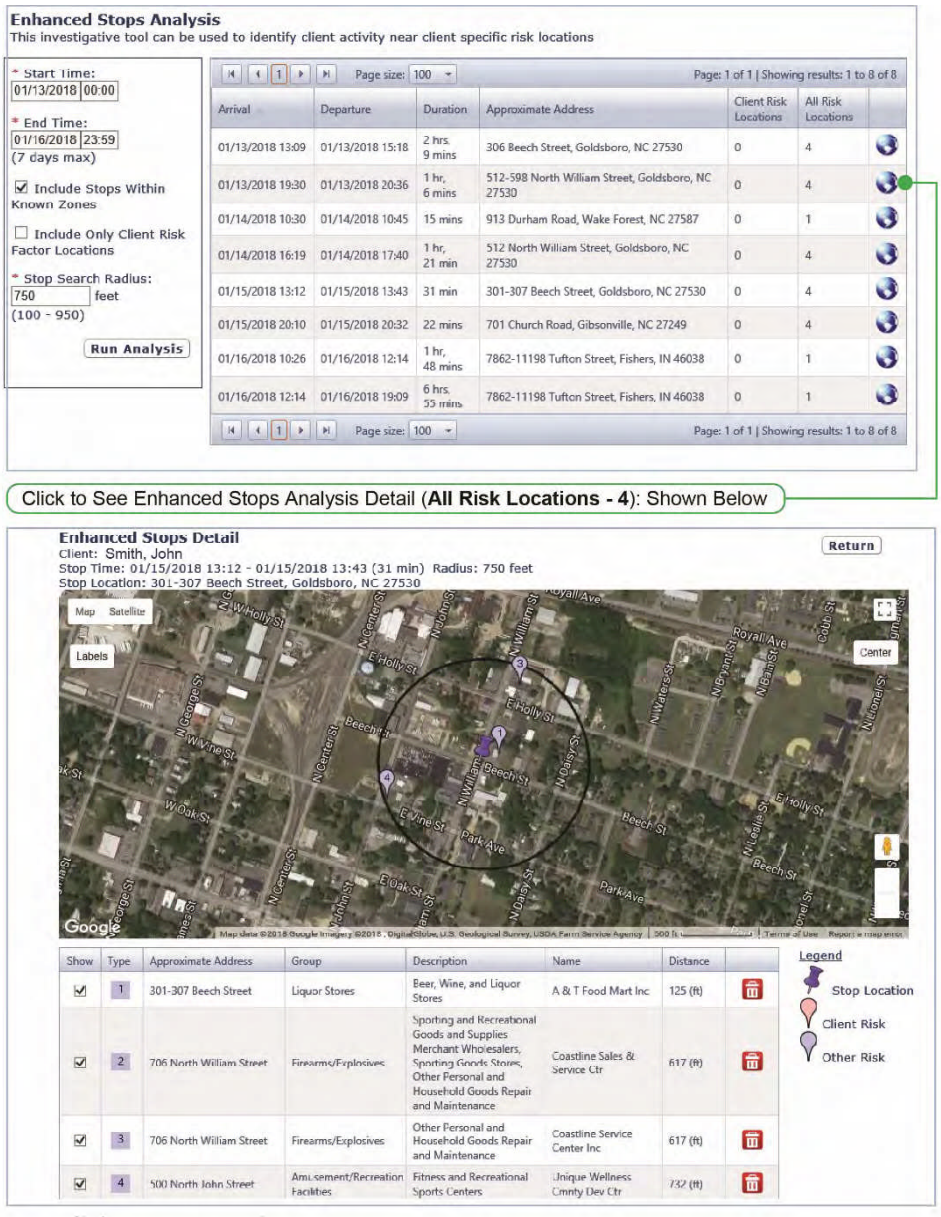

Figure 57. Enhanced Stops Analysis

The following table provides additional confirmation of BI's compliance with *RFP* requirements specific to analyzing frequently visited locations.

Table 37. Analytics—Analyzing Frequently Visited Locations	
RFP Requirement	**Analytics**
(1) The offeror's software should provide information on the areas and timeframes that clients frequently visit or "stop". This information is critical to determining potential hotspots of undesired activity.	✓
(2) The offeror's software should automatically aggregate data to provide trends in offender behavior and determine high-risk locations.	✓

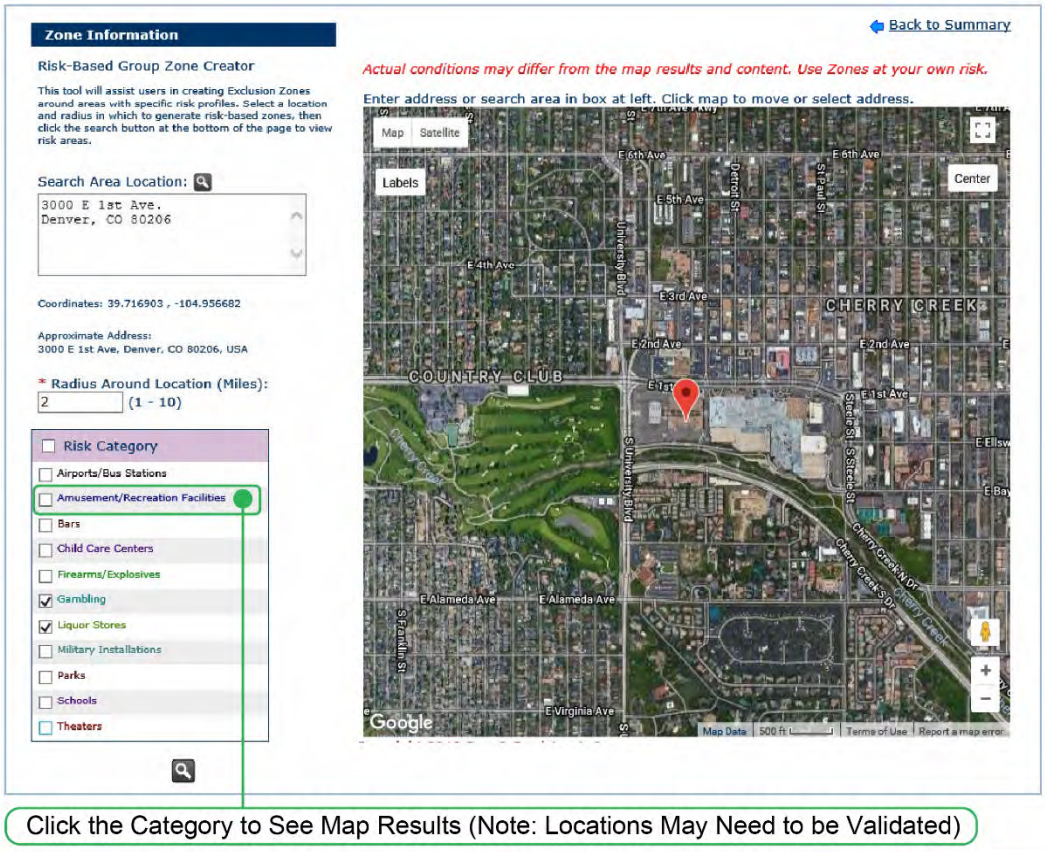
Analyzing Areas of Interest

Similar to analyzing frequently visited locations, when supervising personnel review GPS information to inspect areas of interest, the focus is typically directed towards equipment, zone, and schedule infractions. City personnel can utilize the *Enhanced Stops Analysis* detailed in the aforementioned section to garner additional information from GPS data. The following table provides additional confirmation of BI's compliance with *RFP* requirements specific to analyzing areas of interest.

Table 38. Analytics—Analyzing Areas of Interest	
RFP Requirement	**Analytics**
(1) The offeror's software should provide the ability for officers to search for clients that were in proximity of a specific address at a certain time. This feature is critical to assisting officers with determining which clients were in close proximity to a crime scene, victim, or exclusion zone.	✓
(2) The offeror's software should display all monitored clients that were in a certain area at a predetermined time on a map.	✓

Creating Zones Based on Risk Data

During an offender's initial enrollment in TotalAccess, the creation of zones is typically limited to geographic areas, such as home, work, and areas of risk. Zone creation can be improved by taking risk factors specific to the offender into consideration. *Risk-Based Zone Creation* allows authorized users to rapidly identify and create Exclusion Zones in TotalAccess based on offender risk factors. Analytics identifies potential areas of concern by combining offender data and business classification information from external sources. A sample of *Risk-Based Zone Creation* is provided in *Figure 58.*



Click the Category to See Map Results (Note: Locations May Need to be Validated)

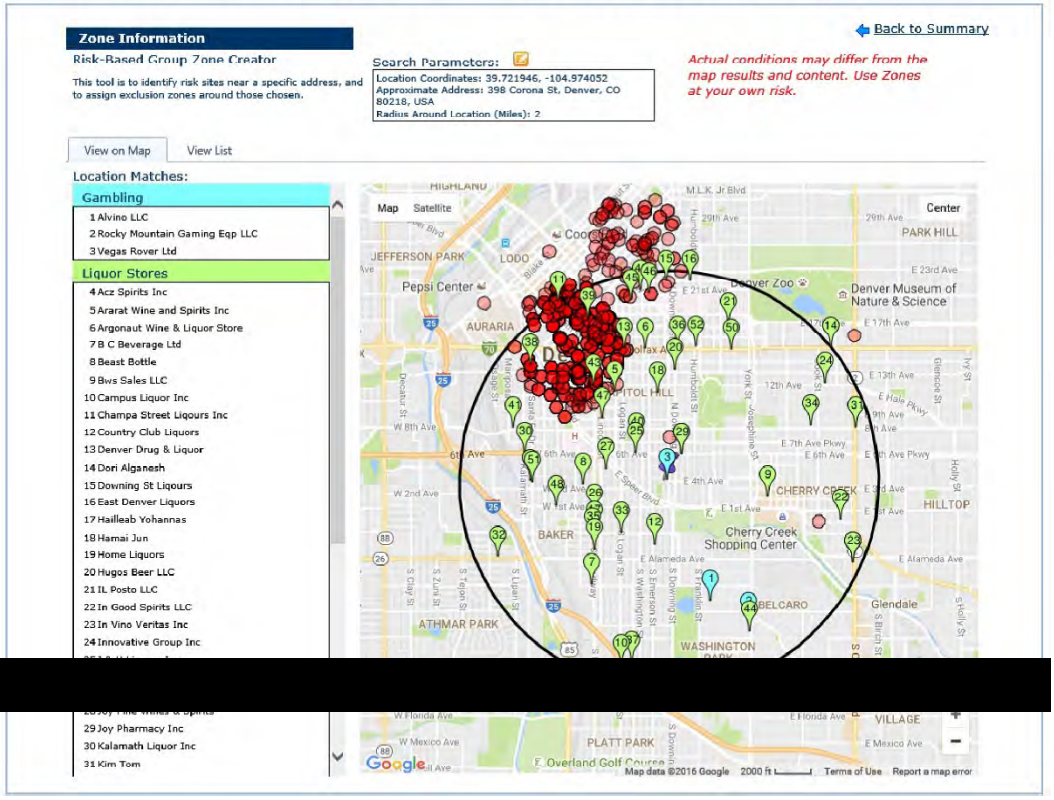


Figure 58. Risk-Based Zone Creation

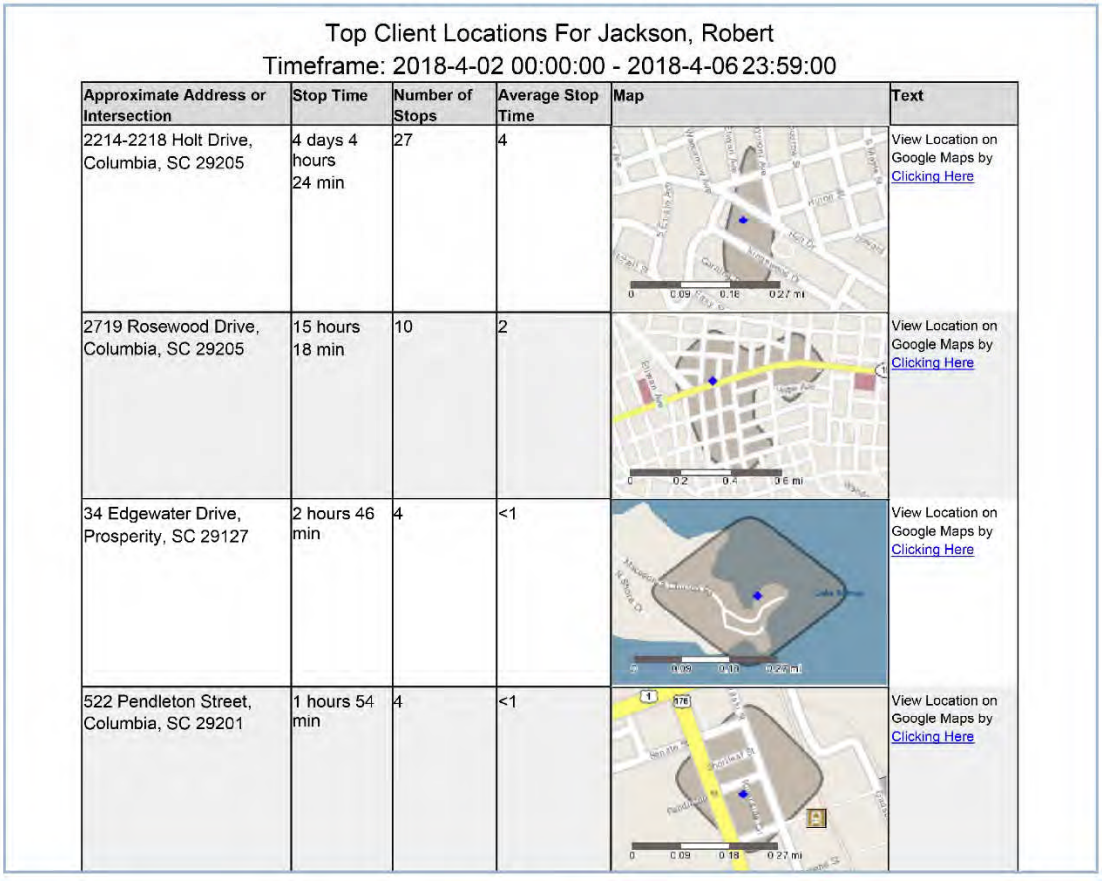
The following table provides additional confirmation of BI's compliance with *RFP* requirements specific to creating zones based on risk data.

Table 39. Analytics—Creating Zones Based on Risk Data

RFP Requirement	Analytics
(1) The offeror's software should contain addresses of locations that are considered high-risk. This information should be updated at least quarterly.	✓
(2) The offeror's software should leverage these known risk locations to increase efficiency with exclusion zone creation.	✓

Identifying Absconder Behavior

As public safety is paramount in any Offender Monitoring Program, locating offenders who have absconded from their court-ordered supervision is of the highest importance. Often, when offenders have absconded, City personnel do not have the time and resources to systematically review historical offender GPS data to determine where an offender might be located. *Absconder Analysis* generates a report that details the history of areas where an offender frequently visits, or stops, providing officers with another tool to locate missing offenders. A sample *Absconder Analysis* is provided below in *Figure 59.*



Top Client Locations For Jackson, Robert
Timeframe: 2018-4-02 00:00:00 - 2018-4-06 23:59:00

Approximate Address or Intersection	Stop Time	Number of Stops	Average Stop Time	Map	Text
2214-2218 Holt Drive, Columbia, SC 29205	4 days 4 hours 24 min	27	4		View Location on Google Maps by Clicking Here
2719 Rosewood Drive, Columbia, SC 29205	15 hours 18 min	10	2		View Location on Google Maps by Clicking Here
34 Edgewater Drive, Prosperity, SC 29127	2 hours 46 min	4	<1		View Location on Google Maps by Clicking Here
522 Pendleton Street, Columbia, SC 29201	1 hours 54 min	4	<1		View Location on Google Maps by Clicking Here

Figure 59. Absconder Analysis

The following table provides additional confirmation of BI's compliance with *RFP* requirements specific to identifying absconder behavior.

Table 40. Analytics—Identifying Absconder Behavior

RFP Requirement	Analytics
(1) The offeror's software must generate a historical report that details areas where clients frequently stop for a specified timeframe. The offeror's software must analyze this historical information to identify where the client frequently visits—enabling officers to prioritize enforcement activities when clients have absconded.	✓
(2) The analysis should detail the locations of family, friends, employers, and other locations and the amount of time spent at each location.	✓

9. Online Monitoring Software

A powerful software that enables authorized personnel to access and sort vast amounts of data is a critical component of a successful Offender Monitoring Program. Evaluating comprehensive program data is essential to keeping communities safe and determining offender compliance. Additional software needs associated with operating an electronic monitoring program successfully includes:

BI designed our TotalAccess software platform to be comprehensive, easy-to-use, and web-based to provide officers with meaningful monitoring data while in the field or in the office.

- **Accurate Data.** Since program data may be used to measure offender success and recidivism, the City needs to be confident that all generated information is accurate and complete.
- **Access to Information.** City personnel need to view caseloads, monitor offender activities, and close alerts—without being confined to a desk. Officers require the ability to accomplish these tasks in near real-time from a variety of locations, including in the field.
- **Easy-to-Navigate Interface.** The City requires an easy-to-use software interface. An intuitive software design allows authorized personnel to easily navigate to the desired information—freeing up valuable time and facilitating more efficient caseload management.

BI's proposed software solution, designed to meet these needs, is summarized below.

Online Monitoring Software—*A suite of software solutions provides consolidated data and actionable information to direct officer priorities.*

BI TotalAccess is a comprehensive, easy-to-use, web-based software platform that supports the full BI continuum of GPS, RF, Voice Identification, Alcohol Monitoring, Supplemental Support Services, Smartphone Application, and Data Analytics software and technologies. Authorized City personnel can use TotalAccess as a single, consolidated software suite for all monitoring tasks. Officers do not need to toggle between multiple interfaces for different equipment types. Available for both Android and Apple iOS, the TotalAccess Mobile application allows users to perform their primary duties in the field. TotalAccess Mobile places critical program data in the hands of City personnel—regardless of location. BI's proposed solution is described by the following graphic.

Designed for maximum flexibility and usability, TotalAccess provides City personnel with 24/7/365 access to all Offender Monitoring Program data. TotalAccess is highly customizable, capable of sending automated notifications in accordance with City procedures and includes more than 40 predefined reports. Additional advantages and features of TotalAccess include:

- **Highly Accessible.** City personnel can login to TotalAccess from any web-enabled device, or from the mobile application. The software updates in near real-time and includes several timesaving features designed specifically for users in the field. For example, an officer can close an alert with a single click, and a supervisor can receive a prompt notification of the update.
- **Enter and Modify Parameters. The** City can enroll and activate offenders, enter and modify offender and program information, create and modify GPS zones, and create, activate, and de-activate schedules. Since TotalAccess is a web-enabled solution, authorized personnel can perform the above-mentioned tasks from the field using TotalAccess Mobile.
- **View GPS Data and Location Maps.** The ability to create custom GPS zones and monitor offender locations at all times are powerful software features that play a central role in the success of the electronic monitoring program. TotalAccess uses Google Maps to display offender

movements and geographical information—providing the most up to date satellite imagery available, as illustrated in the following graphic. TotalAccess allows authorized personnel to display GPS points, view corresponding alerts and events, request an on-demand offender location fix, and view zones.

- TotalAccess includes a variety of map views to display GPS points. All TotalAccess maps include reverse geo-coding, which allows the software to generate an approximate address for each GPS point.
- TotalAccess maintains a data link with Google Maps and is updated automatically with the latest satellite imagery available. This ensures that all maps within TotalAccess are current. City personnel can view zones and GPS points on street and aerial map views; locate local landmarks such as parks, schools, and retail areas; and monitor tracking points with minimal latency.
- City personnel can use TotalAccess to request an on-demand location fix—with the ability to submit requests an unlimited number of times, at no additional charge. The monitoring computer system delivers the location request, to the offender's GPS tracker, and the equipment responds by sending a current location point and any other stored data.
- From within TotalAccess, City personnel can create and modify GPS zones with associated schedules. This highly flexible and customizable zone functionality accommodates the most complex geographic and offender monitoring situations. The City can create color-coded Master Inclusion Zones, Primary Location Zones, Inclusion Zones, Exclusion Zones, Areas of Interest, and Group Zones in any shape and size.

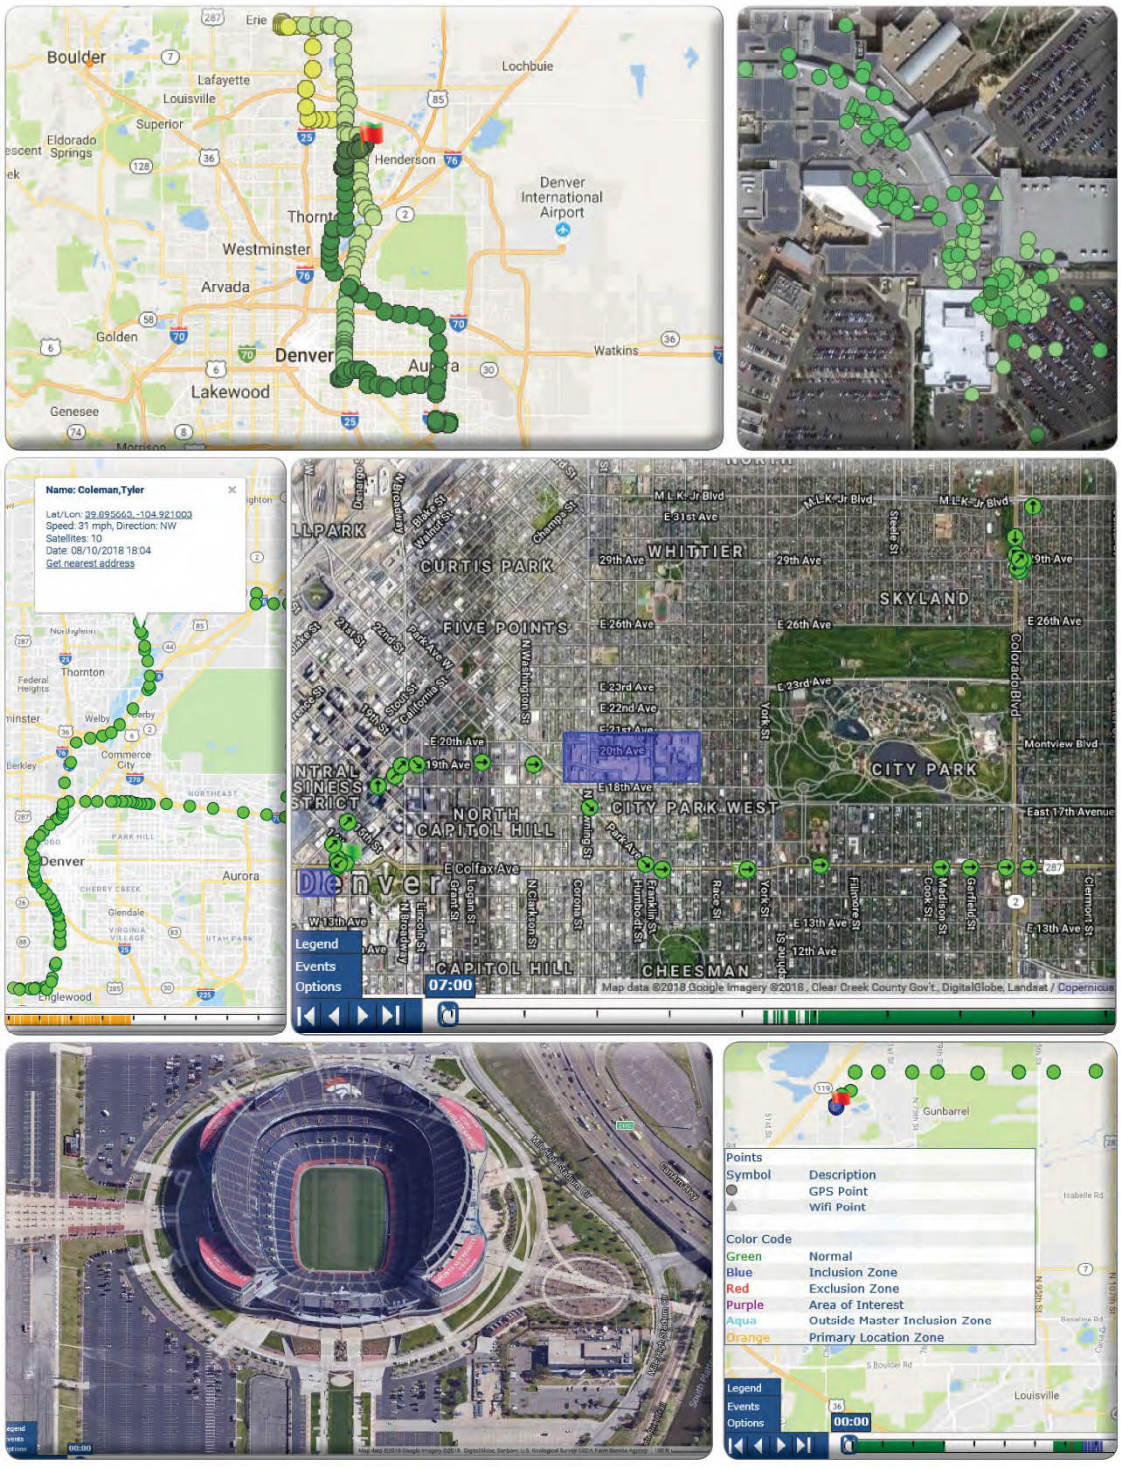


Figure 60. TotalAccess Mapping Capabilities

A variety of mapping views allow City personnel to obtain detailed information on offender movements.

Modern Software Interface

While the current interface is compliant with the City and U.S. Community's requirements, BI is in the process of upgrading the user experience of TotalAccess to provide a more intuitive, easier-to-navigate, modern interface. These enhancements will be available to the City and Participating Public Agencies during the next contract term. *Figure 61* provides examples of the modernized TotalAccess interface.

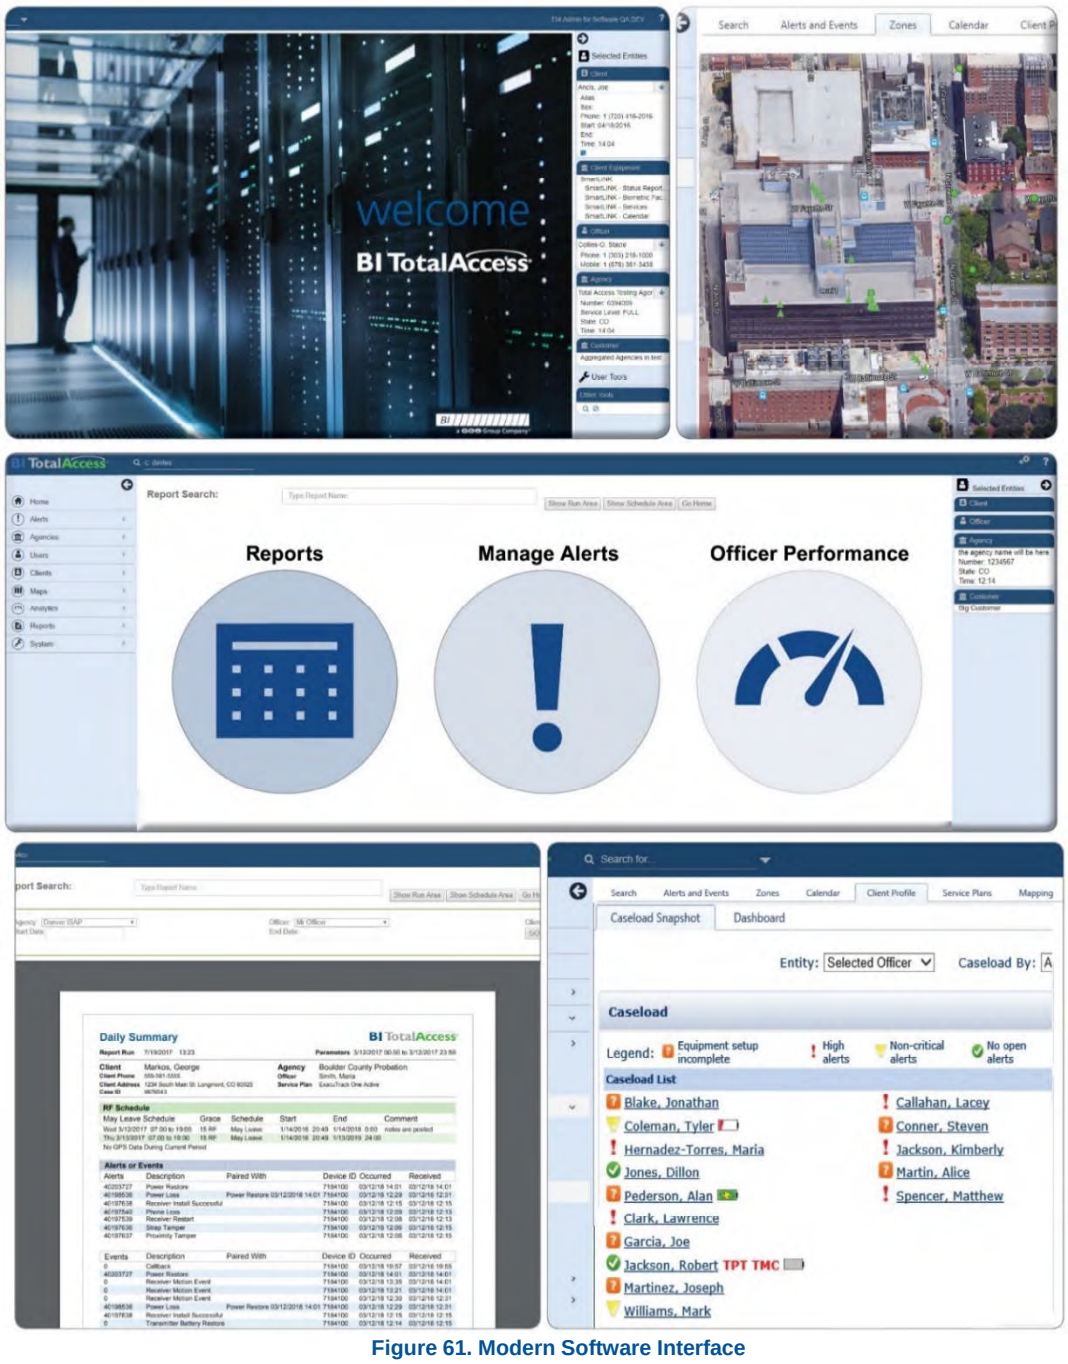

Figure 61. Modern Software Interface
The sleek new design of TotalAccess will increase officer and administrator efficiencies.

1) Software should be provided as one interface from which to manage an entire caseload, and support all products within this solicitation, to include all variations of radio frequency, GPS, and alcohol monitoring equipment. 2) Software should be available 24/7/365 from any web-enabled computer, smartphone, or tablet. 3) Software, and the associated server/hardware system should be geographically redundant, and both the primary and backup servers located within the United States of America.

1) Single Interface Solution

BI TotalAccess is a comprehensive, easy-to-use, web-based software platform that supports the full BI continuum of GPS, RF, Voice Identification, Alcohol Monitoring, Supplemental Support Services, Smartphone Application, and Data Analytics software and technologies. Authorized City personnel can use TotalAccess as a single, consolidated software suite for all monitoring tasks. Officers do not need to toggle between multiple interfaces for different equipment types. As a completely web-enabled solution, authorized users can access TotalAccess through any device with internet access, including PCs, laptops, smartphones, and tablets.

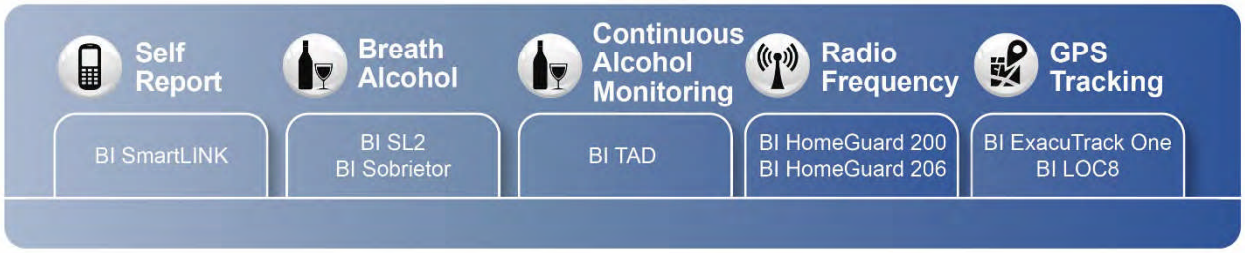

Figure 62. Consolidated Software Platform
Officers will have access to their entire caseload—regardless of monitoring technology type—via BI TotalAccess.

2) 24/7/365 Availability

Designed for maximum flexibility and usability, TotalAccess provides City personnel with 24/7/365 access to all Offender Monitoring Program data. TotalAccess is highly customizable, capable of sending automated notifications in accordance with City procedures and includes more than 40 predefined reports.

In addition, BI recognizes that officers in the field require intuitive subject monitoring tools accessible via smartphone. With this need in mind, BI has developed an officer-centered smartphone application to provide officers with the ability to manage cases in the field. Key features of TotalAccess Mobile, shown in *Figure 63* will include the ability to:

- Add, edit, and delete subject information and schedules
- Track field visits and send audio messages to subjects on-demand
- Manage all equipment alerts and add, edit, and delete equipment
- View all subject GPS points, view subjects near their location, and enable *Pursuit Mode*
- Create zones via a “quick zone creation” feature so officers can make changes to monitoring requirements in the field

These features will improve officers' ability to respond quickly to alerts and provide more information to personnel while they are in the field.

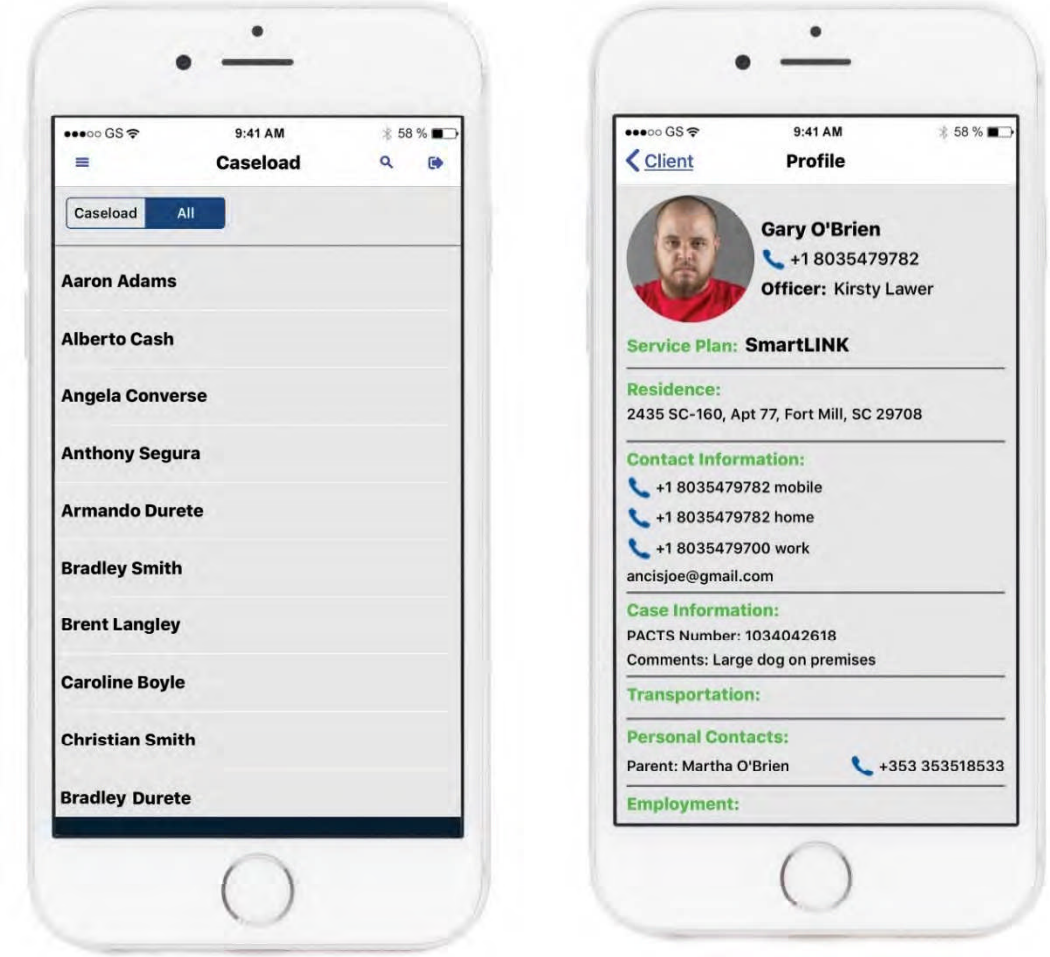

Figure 63. Officer Mobile Application

Providing officers with accurate subject information while in the field will assist with supervision activities and minimize reliance on BI's Monitoring Operations.

To the best of our knowledge, BI is the only electronic monitoring provider that offers a fully functional, smartphone-optimized application in the industry.

3) Redundant Server Architecture

With the understanding that electronic monitoring programs operate on a continuous basis, BI has triplicate system redundancies in place to ensure that our software is always available to City and U.S. Communities Participating Public Agencies. In the unlikely event of a primary monitoring system failure, on-duty System Administration personnel will fully implement our *Disaster Recovery Plan* that includes leveraging this redundant architecture. Since all data is replicated in near real-time between the primary and backup servers located in Anderson, Indiana, the backup servers will take over as the primary servers with no loss of data or interruption of service. If any of our monitoring facilities lose commercial power, an Uninterruptible Power Supply will instantly deliver backup power to all servers for up to 15 minutes. If a power loss occurs, a diesel-powered generator will come online to deliver power to both facilities in Colorado and Indiana in real-time. From the field, any shift in power supply is seamless. The diesel generator will run indefinitely with an unrestricted fuel supply.

For detailed information on BI's highly redundant server architecture, please see BI's response to *RFP Requirement D.2, Item G* on page 35.

Accessibility

The BI monitoring computer system consists of multiple, state-of-the-art servers that use Microsoft Windows Server as the operating system and Microsoft SQL Server as the database management system. This sophisticated monitoring system ensures that all program information is accessible under varying user loads. We currently use web services to interface with the agency's internal system. Please refer to *Table 41* for BI's compliance with each software accessibility requirement.

By leveraging BI's virtual and physical security measures, our highly tenured technical administrators, and vast experience supporting the City's existing servers, BI is confident that our solution will provide a high level of availability and uptime. To further evidence this ability, TotalAccess had an uptime of 99.99% in the last 12 months.

Table 41. Online Monitoring Software Accessibility Compliance

RFP Requirement	BI Compliance
i) Offeror should provide software that can be accessed 24/7/365 from any device.	✓
ii) Offeror should not use third-party software or make plug-ins required.	✓
iii) Offeror should be required to have software web interface on one platform, be user friendly and easy to use.	✓

Reporting

i) Offeror should be able to enroll and inactivate clients from software in an efficient manner, with ease.

From within TotalAccess, authorized personnel can perform all tasks associated with operating a successful Offender Monitoring Program, such as accessing and modifying key program and offender information. TotalAccess empowers Officers and authorized personnel to view and change critical monitoring data. Common activities performed within TotalAccess include:

- Enrolling and de-activating offenders
- Entering and editing offender demographic information
- Entering and editing offender program information—including equipment configurations, GPS zones, and RF curfew schedules

TotalAccess tracks information with user identifiers and date and time stamps—including user access, additions, changes, and deletions—and provides an overview of these activities with an Audit Trail Report.

- Activating and de-activating schedules without deletion—ideal for temporary changes
- Establishing, reviewing, and updating alert notification procedures
- Viewing, processing, closing, and tracking alerts
- Viewing the current status and history of alerts and events

ii) Agency should require software that can view and process alerts, view, enter and modify data including zones, schedules, and client demographics, enter violation procedures, customize violation notifications and pair alerts.

As a single, consolidated software platform, TotalAccess provides users with the convenience of monitoring their entire caseload from a streamlined interface. In alignment with *RFP* requirements, users can perform all monitoring tasks from within TotalAccess, including:

- Viewing, processing, and documenting notes related to alert processing and closure
- Entering, modifying, and reviewing monitoring data, including:
  - Zones associated with GPS tracking, such as Exclusion and Inclusion Zones
  - Curfew monitoring schedules associated with GPS, RF, and alcohol monitoring solutions
- Accessing and modifying offender demographic data, including photos, employment/school information, and contact information
- Viewing and modifying violation procedures, including the agency's procedures for processing/escalating alerts
  - This ability is limited to certain users with appropriate privileges
- Pairing alerts to reduce false positive notification—for example the agency can dismiss events that occur in rapid succession, such as enter and leave events that are generated within 2-3 minutes
  - This ability is limited to certain users with appropriate privileges

iii) Agency should require software that is capable of assigning multiple equipment and application types to a single individual.

TotalAccess has the capacity to assign numerous devices and supervision services to an offender. In addition, the City can deactivate a device without removing an offender from the monitoring system and generate reports on an offender's activity related to one or both devices.

A significant advantage to BI TotalAccess is the ability for users to manage their entire caseloads, regardless of monitoring equipment type, from a single interface.

iv) Agency should, at a minimum, require software to have functionality to create Standard and custom reports, have the ability to export to Word, Excel or PDF, and schedule one-time or recurring reports.

BI's on-demand reporting capabilities empower the City to query information based upon more than 60 fields in TotalAccess. Users can create ad-hoc reports from fields related to the agency, offender, officer, device, or device events. This includes the fields outlined in *RFP Section D.2, Item 8—Reporting*; for detailed information on TotalAccess reporting functionality, please see page 39. Similarly, BI has provided example, standardized reports in *Sample TotalAccess Reports* on page 309.

v) Offeror's software should automatically dispatch a notification of a violation to one or more designated personnel. Notifications shall be sent via phone, fax, email, page, text message, as designated by the agency with options for immediate, business hours, after hours or agency recognized holidays, next day, or next business day notification.

BI understands the importance of receiving prompt notification and prioritizing certain alerts. To allow the City to receive the most accurate information, BI's equipment records the date and time when an equipment event occurs. The equipment communicates this information to the central monitoring computer from the field, and TotalAccess records the date and time when it receives this information from the field equipment.

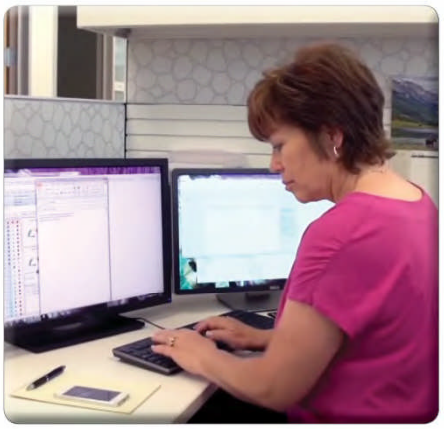

Figure 64. Ability to Manipulate Data

BI's user-friendly ad-hoc reporting capability does not require any technical training or skills. The ad-hoc reporting function is a standard feature of TotalAccess and allows the City to easily export data to Microsoft Excel.

BI enables City personnel to adjust alert settings to define escalation parameters of alert levels as appropriate. TotalAccess contains the parameters for each individual offender. Upon receipt of an event, TotalAccess automatically compares equipment messages with the offender's monitoring conditions and automatically generates alert notifications in accordance with pre-established City procedures. Using the TotalAccess interface, the City can define a multitude of customized alert notification parameters. This includes the following:

- Distinguish between high-priority alerts and lower-priority events
- Determine which personnel will receive notifications—TotalAccess can notify multiple persons simultaneously
- Establish escalation processes that prompt TotalAccess to automatically deliver a series of staggered notifications to a specified contact list
- Determine how specified personnel will be notified—TotalAccess can deliver alert notifications via text, email, and/or fax
- Determine how much time should elapse before TotalAccess delivers a notification
- Pair specific equipment events together in order to receive a notification when both of the paired events occur within a specified period of time—this helps reduce false or nuisance alerts
- Customize notifications for a specific officer or offender
- Create notification schedules that accommodate an officer's temporary assignments, weekend coverage, and holiday duty

vi) The software shall differentiate GPS points when a violation has occurred.

City personnel are able to view a history of GPS points for an offender from the mapping functionality in TotalAccess. Users can play, pause, fast forward, and rewind the GPS points while displaying a scrolling list of alerts and events that occurred during the timeframe. This allows users to determine if a critical event occurred—like a low battery, zone violation, tamper, or loss of GPS service event—during the timeframe shown in the playback.

TotalAccess uses unique symbols, color coding, and other features to help authorized personnel easily and quickly determine in an offender is in compliance with monitoring conditions. Specific features of TotalAccess that support this capability include:

- GPS points match the color of the zone when the offender is within a specified area; for example, when an offender enters an Exclusion Zone, the GPS point associated with that location is red.
- *Event Auto Scroll* allows users to view alerts, events, and location points on the map to help determine when the offender is in violation.
- The *Gradient* option uses different shades of green to indicate where each displayed point falls within the total timeframe selected.
- The *Ruler* option displays the color of the offender's points in accordance with the color-coded zones associated with the GPS points.
- Two different symbols visually distinguish between recorded GPS tracking points and the Wi-Fi location points on the displayed map.

When an offender enters a zone or commits a movement infraction, TotalAccess automatically changes the color of the GPS point to reflect compliance, as demonstrated in the following figure.

Figure 65. Identifying Offender Non-Compliance

Officers can quickly identify offender non-compliance in TotalAccess. When an offender crosses into a zone without authorization or outside of their custom schedule, the GPS points on the map are depicted in red rather than in green.

vii) Agency should require that software allow officers with GPS caseloads to create circular, rectangular, and polygon shaped zones, that can be easily modified as necessary. In addition, GPS points are color-coded to indicate the location of subjects and compliance with monitoring conditions as follows:

With the understanding that the City's Offender Monitoring Program is responsible for supervising a wide variety of offender populations, BI TotalAccess includes six distinct zone types, far **exceeding** *RFP* requirements for simple Inclusion and Exclusion Zone types. Available zone types include:

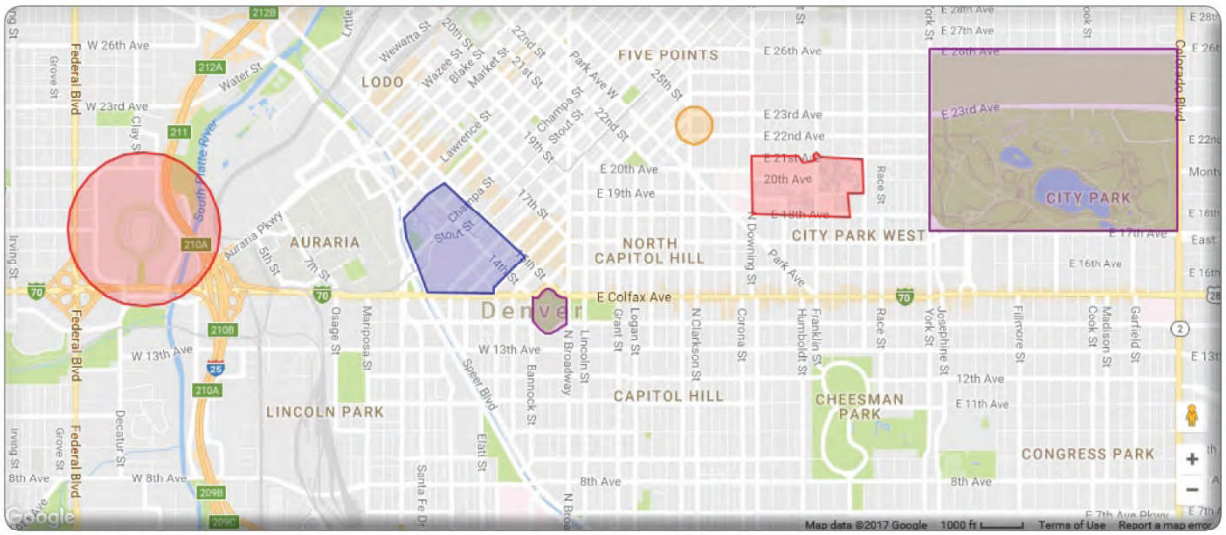
- **Inclusion Zones.** The offender must remain within an Inclusion Zone during specified times. For example, the offender may be required to remain at work between 09:00 and 17:30. If the offender leaves work during this time, the system generates an alert.
- **Exclusion Zones.** Exclusion Zones are areas the offender may not enter at any time. For example, the offender may be required to stay at least one mile away from a specific address or predefined locations, such as schools.
- **Areas of Interest.** An Area of Interest is a zone that the offender may enter and leave without generating a violation. An example of an Area of Interest Zone is a home where the offender needs to drop off or pick up children at specified times on certain days. At all other times the home would be off limits. TotalAccess records “Enter” and “Leave” events, allowing personnel to track the offender's movements in the specific area without generating alerts.
- **Master Inclusion Zones.** The offender must remain within a Master Inclusion Zone at all times. Examples of Master Inclusion Zones are counties and states. Users can set up Inclusion Zones, Exclusion Zones, and Areas of Interest within a Master Inclusion Zone. BI’s monitoring system generates an alert when the offender leaves the Master Inclusion Zone.
- **Primary Location Zone.** Users can create Primary Location Zones around the offender’s residence or primary location. The offender is required to stay in the Primary Location Zone at all times unless sanctioned to leave for work, school, or other permitted activities.
- **Group Zones.** As a significant benefit, TotalAccess also includes a Group Zone feature. Group Zones allow agencies to assign pre-established zones on an agency-wide basis or for specific offender populations. Using TotalAccess, an agency administrator first creates and saves the desired zones around each location. Then, whenever agency personnel enroll an offender, users can simply select the appropriate option to quickly apply pre-established zones to an individual offender. With Group Zones, there is no need to recreate the same commonly used zones, which saves significant staff time and resources.

Notification of Zone Violations

To report offender movements within established Inclusion and Exclusion zones, the LOC8 generates the following date and time stamped messages, as applicable:

- “Exclusion Zone Enter Alert”
- “Master Zone Leave Alert”
- “Inclusion Zone Leave Alert”
- “Failed to Enter Inclusion Zone”
- “Exclusion Zone Leave Alert”
- “Master Zone Enter Alert”
- “Inclusion Zone Enter Alert”

The LOC8 promptly reports zone violations to TotalAccess—regardless of the next specified reporting interval—via cellular connection.



Color Code Key: Green–Normal; Blue–Inclusion Zone; Red Exclusion Zone; Purple–Area of Interest; Aqua–Outside Master Inclusion Zone; Orange–Primary Location Zone

Figure 66. Advanced Zone Capabilities

BI designed TotalAccess to be able to accomidate the most complex offender schedules to ensure accurate and flexible monitoring. This is evidenced by the six unique zone types available within the software.

viii) Agency should require that the software allow officers to find a GPS client's location in near real time.

GPS tracking is perhaps the most commonly used form of electronic monitoring, and agencies must consider significant factors when implementing a GPS program. For example, if high-risk offenders will be monitored via GPS, the City needs to receive accurate location data on a frequent basis in order to best supervise offender actions.

To satisfy the City's and Participating Public Agency's needs, BI proposes the LOC8 device—our newest and most advanced GPS monitoring technology that allows users to perform on-demand location requests at no additional cost.

City personnel can manually and remotely locate ("ping") an offender's LOC8 or ExacuTrack One an unlimited amount of times—at no additional charge. Authorized users simply initiate an on-demand location request from within the TotalAccess software. BI's GPS devices respond by promptly sending its most current location—as well as any stored data—to the monitoring computer system via cellular communication.

Agency personnel use TotalAccess to view this near-real-time information from the LOC8.

ix) Offeror's software should have the capability to actively, in near real time, pursue a GPS client as necessary by the Agency.

City and Participating Public Agency personnel can enable the Pursuit Mode function via TotalAccess software. Once this function is enabled, our GPS devices collect a location point every 15 seconds and report the collected data to the monitoring system every minute. Authorized personnel can enable Pursuit Mode for up to 30 minutes of functionality or disable the feature earlier if desired.

x) Offeror's software should have the capability to modify a device's setup and configurations by individual client, officer caseload, and for the entire agency.

TotalAccess supports the ability to create unique parameters with different schedules, zones, and testing intervals for each day of the week, for each offender. For example, City and Participating Public Agency staff can create a commonly used weekly schedule and apply this schedule to multiple offenders in their caseload or the entire Offender Monitoring Program. Once a modification has been applied to an offender, officer's caseload, or entire agency, it can easily be changed to accommodate various conditions. For instance, a weekly schedule could be quickly modified if the offender has a court hearing, or substance abuse treatment.

xi) Offeror's software should be able to have the ability to send messages on command.

Officers can configure certain devices to play pre-recorded audio messages to the offender in English or Spanish on command. These audio messages will play in response to specific events and/or upon receipt of an on-demand request from authorized personnel.

Detailed information on BI's ability to communicate with offender wearing a LOC8 device is detailed in *Table 14* on page 68 of our proposal.

Advanced Mapping Capabilities

BI's TotalAccess GPS reporting system uses Google maps, which allows a variety of map views including aerial, street, and topographical views. When hovering over a GPS point within a TotalAccess map, authorized City users have access to the following information:

- Date and time the GPS point was collected
- Offender name
- Latitude
- Longitude
- Direction of travel
- Speed the offender was traveling
- Number of satellites used to acquire the location point
- Nearest address (reverse geo-coding)

City users view current and historical information and can view up to 48 hours of GPS data on the map. The following figure depicts offender movements and reverse geo-coding as viewed through TotalAccess. Reverse geo-coding uses the latitude and longitude coordinates of a location to determine the closest street. Geo-coding then returns a likely address, relative to nearby cross streets, as illustrated in *Figure 67.*

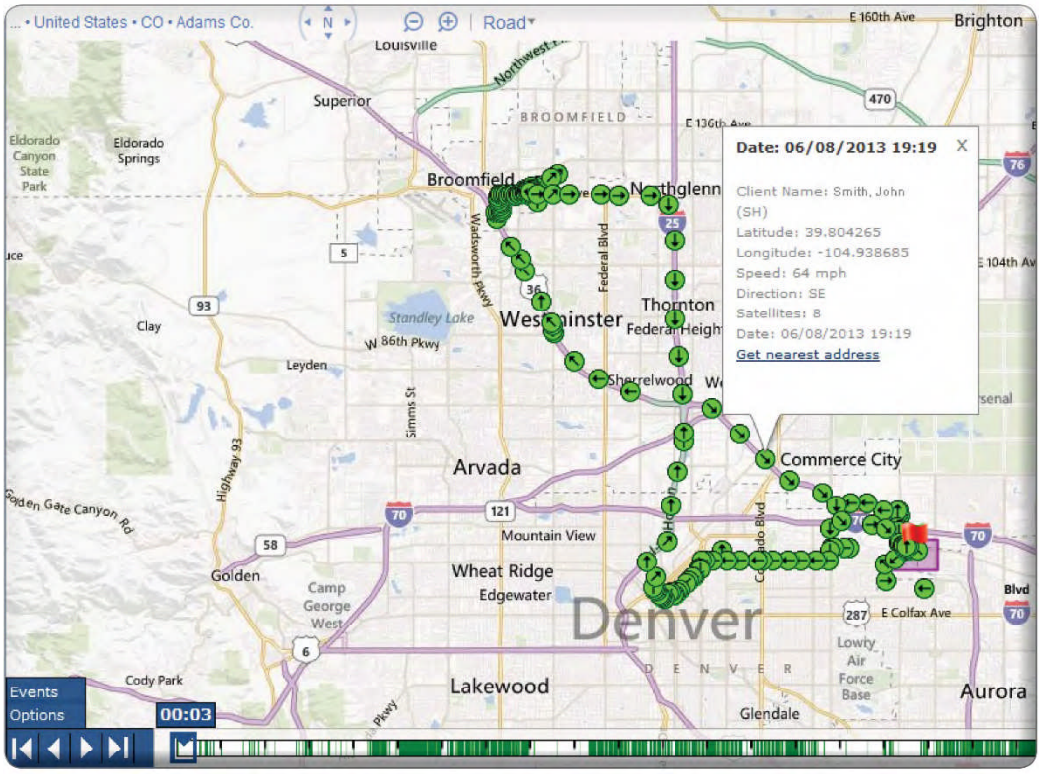


Figure 67. Mapping Offender Movements

All maps contain recognizable state, county, and municipality data, and authorized personnel can view the street names within the map as well.

i) Agency should require that software allow officers with GPS caseloads to have access to sophisticated mapping technologies that are integrated with the software.

City and Participating Public Agency personnel supervising offenders with GPS monitoring have access to sophisticated mapping technologies integrated with TotalAccess. Harnessing the power of Google Maps, TotalAccess allows GPS points to be viewed using forward and reverse playback at three different speeds.

Users can view GPS points can be viewed one point at a time. Arrows show the direction of an offender's movement, along with a scrolling list of events that correspond to the GPS points during playback. A color gradient bar shows the passage of time. Authorized personnel can hover the mouse over any GPS point to display the offender's name, latitude, longitude, direction, speed, number of visible satellites, and a link to the nearest address.

Officers can click on any GPS point mapped in TotalAccess to see the exact date and time the GPS point was generated.

Users can look at maps in two- or three-dimensional forms and view road, aerial, and bird's eye views of GPS points.

ii) Offeror's should be required to use Google Maps™ mapping service to build zones and review client information from software.

Authorized users have several Google Maps views to choose from when setting up zones, running reports, and viewing offender movement. City personnel can easily zoom in and out of maps from street

level to statewide. With this feature-rich functionality, authorized users can create precise zones and see offender movement with extreme accuracy.

iii) Offeror's software should utilize Google Maps in order to can be viewed in 2-D or 3-D and provide road, aerial, and bird's eye views of GPS points.

TotalAccess uses Google Maps application programming interface (API) to provide accurate real-time geographic data, including satellite imagery, street maps, 360-degree panoramic views (Street View), and route planning. Google Maps satellite view provides a "bird's eye" perspective and is automatically updated with the latest satellite imagery available. Most satellite imagery displayed is no more than three years old.

Agency Level Access

i) Offeror should incorporate several features that support agency level efficiency.
