To provide the City and Participating Public Agencies with multiple layers of control over who can access and alter data, TotalAccess includes levels of user permissions that are able to edit data, and one level of permissions for read-only users. Specific user roles include:

1. **The Agency Administrator** level of permissions allows a user to edit the agency profile, as necessary, after initial setup. The Agency Administrator can perform the following tasks:
    a. Complete initial setup of agency personnel, enter and manage users, and enter login, personal, and contact information for each staff member
    b. Complete initial setup of agency-level settings, such as Master Inclusion Zones and Group Zones
    c. View the agency's equipment inventory and transfer equipment to various departments within the agency, as applicable
    d. Establish and manage contact lists
    e. Set default settings for alert notifications
    f. Transfer offenders to specific departments and/or agency staff members
2. **The Officer Level** user can perform the following tasks:
    a. Enroll offenders
    b. Monitor offenders
    c. Create offender-level zones and schedules
    d. Configure individual defaults according to the officer's profile
    e. Transfer offenders to specific departments and/or officers
3. **The Officer Read-Only** user can access and view program and offender data without altering any information in the system.

ii) Offeror's software should be required to incorporate inventory management and allow agency to view inventory data across multiple sub agencies and easily transfer equipment between them.

TotalAccess includes a robust reporting mechanism that offers detailed information about inventory levels. Through the web-enabled TotalAccess software platform, officers, and other authorized City personnel will have access to detailed inventory information and the ability transfer equipment designation to other departments. Examples of inventory reports in TotalAccess include the following:

- **Agency Active Offender.** Lists billable days for devices active during the previous month by offender name, offender ID, equipment type, billing start date, billing end date, and active days. Includes a system summary showing active offenders, active days, and total active days by equipment type.
- **Agency System Utilization.** Lists agency equipment by equipment ID, offender status (active, inactive, or enrolled), case ID, offender name, end date, officer name, officer ID, and associated equipment IDs.
- **Device Current Usage.** Records the total number of days monitored during the current month by offender. Includes case ID, serial number, device type, start monitoring date, and end monitoring date.
- **Monthly Equipment Summary.** Lists equipment totals by type, date, number of installs, number of disconnects, number of active units, and number of active offenders by equipment type and by officer. Includes officer and agency totals by installs, disconnects, units used, and offenders.

Please also see *Section 9—Inventory Management* on page 45 for additional information on BI's ability to provide a cost-effective inventory management solution.

iii) Offeror's software should allow agencies to create zones and permissions at the agency level, rather than building them individually for each client.

As a significant benefit, TotalAccess incorporates a Group Zone feature. Group Zones allow the City and Participating Public Agencies to quickly assign pre-established zones on an agency-wide basis or for specific client populations. Using TotalAccess, an authorized user first creates and saves the desired zones around the desired locations. Then, whenever agency personnel enroll an offender, they can simply select the appropriate option to quickly apply pre-established zones, similar to those illustrated in *Figure 68*, to an individual in the Offender Monitoring Program. With Group Zones, there is no need to continually recreate the same commonly used zones, which saves significant staff time and resources.

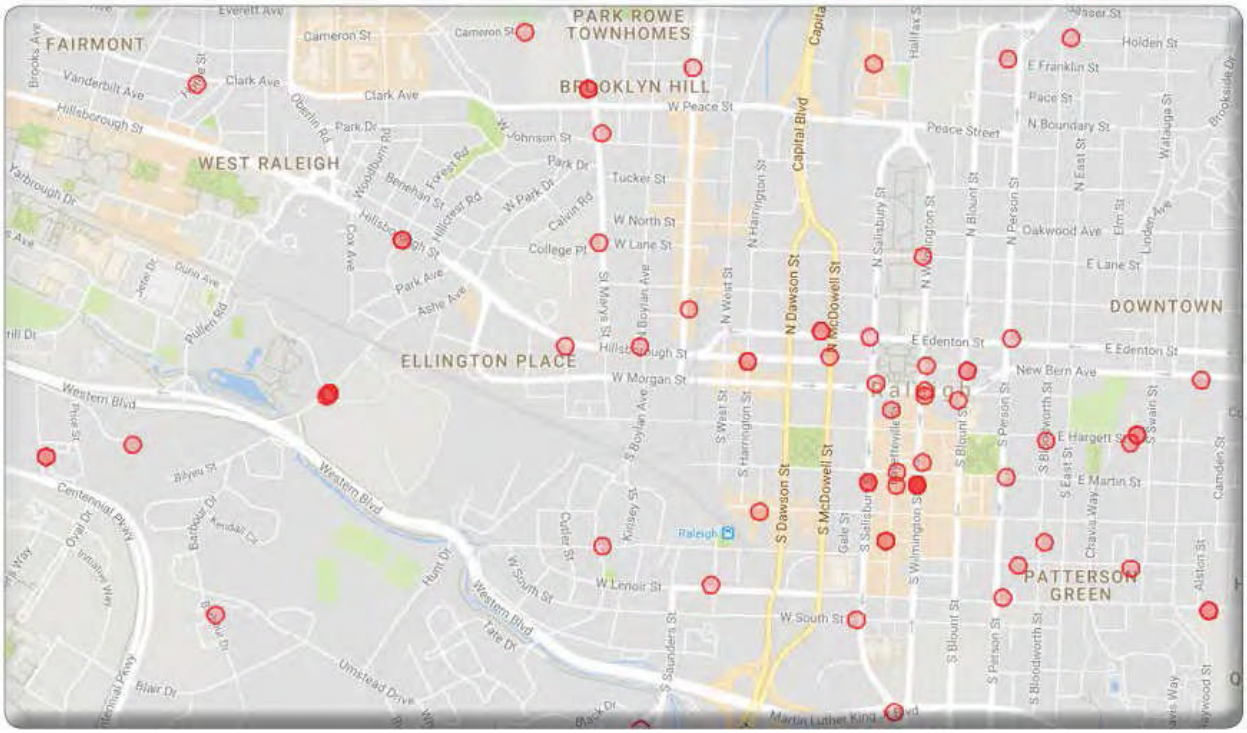

Figure 68. Group Zones

Some of BI's public-sector partners utilize more than 2,500 group zones to ensure offenders do not threaten public-safety. The City and Participating Public Agencies will have the same opportunity through TotalAccess.

Local Staffing Plan

Successful electronic monitoring programs require support from an experienced, knowledgeable, and properly staffed vendor. As the incumbent provider of services and technology, BI has the established staffing structure in place to continue to service the City from the first day of the contract. No other vendor can provide this continuity of services.

In addition, BI will leverage our established *Staffing Plan* in the event of any staff vacancies. BI will implement the processes described below to build and maintain appropriate staffing levels throughout the life of the contract. BI provides an extensive staffing plan to manage all aspects of program support. This includes safeguards taken at every step of the hiring, retaining, and disciplinary process, as summarized buy the following graphic.

Figure 69. Staffing Plan

Laurent and Sierra,

I have failed to follow up on this, but during the interview portion of the RFP, BI, Inc. made the verbal commitment to provide Sporicidn at a zero dollar cost to the City, if awarded the contract.

Would you please reply to this email and state that the Sporicidin product will still be provided at the stated cost, for us to be able to document and keep this as a record? I would appreciate it if you can provide me this response by the end of today.

Please and thank you.

Re: RFP No. 0790A (2018): Offender Monitoring Products, Services, and Solutions City and County of Denver on Behalf of U.S. Communities
Response to Evaluator Questions
Due: Wednesday, September 19, 2018 at 2:00 p.m. (MST)

Dear Mr. Miskell,

BI Incorporated (BI) appreciates the opportunity to respond to evaluator inquires in response to the City and County of Denver and U.S. Communities *Request for Proposal.* Per your request, this document contains written responses to all inquiries discussed during our conference call on Tuesday, September 18, 2018, and includes all questions issued to BI from Mr. Miskell.

Response to Evaluator Inquiries—Received by BI on Monday September 17, 2018

1. Page 50: Some priority levels are defined. Do a public agency and BI work together to decide how issues are prioritized?

Yes, BI actively works with the agencies we serve to define priority levels—including defining what constitutes a high, medium, or lower risk incident, and the associated notification processes. For many of our customers, priority levels and notification processes are correlated with contractual requirements or established Key Performance Indicators (KPI).

Examples of specific issues that may require notification include power outages, units in missed callback due to cellular outages, or local issues that may affect monitoring individuals in specific communities—for example, natural disasters.

BI looks forward to working with the City and U.S. Communities to define priority levels and associated notification timeframes during contract negotiations or at any time during proposal evaluations.

2. Page 205: The sales reported in 2017 were $66M in the state and local government sector. Only $12M in sales were through the existing U.S. Communities agreement. Please clarify what issues with the existing agreement are preventing it from being used for more customers.

There are two main issues that have prevented the U.S. Communities agreement from being used for more customers:

- *The U.S. Communities Contracting Vehicle is still relatively new to the electronic monitoring industry*. Prior to current contract awarded in 2014, US Communities had never been used by criminal justice agencies specifically to acquire electronic monitoring technologies and services. The BI team, in partnership with the U.S. Communities Program Managers, have had to stablish the legitimacy and viability of this entirely new procurement vehicle for agencies to acquire EM equipment. The name recognition and adoption of use of this Agreement continues to grow and expand.
- *Certain State and Agency Purchasing Regulations and Established Practices Prevent the Use of Cooperative Procurement Vehicles.* These limitations are associated with specific procurement regulations that can vary state-by-state. Many government agencies—particularly state-level agencies that operate large electronic monitoring programs of more than $1,000,000 annually—

are governed by strict procurement regulations. These mandate an independent, competitive process that does not align with U.S. Communities procurement methods. .

Regardless of these challenges, BI remains committed to educating the industry about the advantages of contracting using the U.S. Communities procurement vehicle. We believe our sales and marketing efforts, in partnership with the U.S. Communities Program Managers, will continue to expand the use of U.S. Communities by government agencies across the Country. As described by Mr. Robert Murnock during our oral response to evaluator questions, we do not simply "take no for an answer".

BI's contract performance in promoting U.S. Communities during the past five years is also noteworthy in response to this question. As noted, when BI was first awarded the U.S. Communities contract, this procurement vehicle was largely unknown in the electronic monitoring industry. BI worked diligently in educating the industry on the benefits of using the U.S. Communities procurement vehicle—as evidenced by our continued growth of business driven by BI year after year using the current contract.

Should we be re-awarded this contract, we are excited and committed to continuing to promote U.S. Communities throughout the next contract term.

3. Are customized products available? If so, how are these products priced?

Based on our conversations with City and U.S. Communities evaluators, BI interprets this question to mean:

Are there any customized solutions offered by BI that were not included your proposal?

All solutions that BI can offer U.S. Communities at *Not-To-Exceed* pricing are included in our original proposal submission. However, BI does offer other customized solutions, such as agency-operated TotalAccess servers, that are simply too complex and contractually unique to price out under the U.S. Communities procurement vehicle. The costs of these types of solutions vary greatly based on agency hosting environment and agency-operated monitoring centers.

As another example of "customized solutions", BI's GPS tracking solution (the LOC8) offers several levels of customized data collection and reporting frequencies.

The LOC8 device has more than 40 service levels that can be customized to specify:

- The frequency the device collects a GPS point
- The frequency the device reports monitoring information to TotalAccess
- The utilization of secondary location detection technologies (such as Wi-Fi and CellLocate)
- The inclusion zone crossing technology, in which the device automatically increases collection and reporting frequencies when in violation

The service levels specified in BI's original proposal submission are the most commonly utilized by agencies—including active, passive, and hybrid levels. While there are some agencies that request service levels beyond these standard offerings, the vast majority of supervision mandates are satisfied by these common service levels.

Should an agency require an alternate service level not currently under the ensuing U.S. Communities contract, BI will work with the agency, program the applicable monitoring units, and complete a contract modification to ensure the using agency is able to procure the appropriate service level off the procurement vehicle that is also consistent with pricing levels listed.

4. Page 220: Is Jeremy Elliot proposed to take the place of Dan Hooven and Kim King (who have been working in a dual NAM capacity)? Please see the attached NAM description. It is our desire to have someone dedicated at least 50% of the time to the NAM position. Is this possible?

and we are well versed in sharing information about agency needs to ensure we develop the most cost effective and reliable solutions. Regardless of which entity (BI or GEO) engages with the Participating Public Agency, our billing processes are established to provide one invoice to the requesting agency in alignment with U.S. Communities billing practices.

BI has the ability to provide urinalysis and drug testing in alignment with forensic/chain of custody best practices through GEO Care's existing non-residential facilities across the United States. Regarding rural areas in which GEO Care does not have an established Reentry center, GEO would be able to work with each agency to establish scheduled days for UA services while co-locating with the local probation/parole department. Depending on the needed volume, GEO staff would designate several days each month to be onsite and provide the UA services. These services include monitoring, collecting, and transporting urine samples in alignment with agency requirements and in accordance with Laboratory policies.

GEO has more than 40 years of experience providing a full spectrum of corrections and behavioral rehabilitation services. Based on our extensive history supporting criminal justice programs across the U.S., GEO has the technical expertise, resources, and proven outcomes needed to successfully serve agencies across the country. GEO staff are highly trained in addressing criminogenic needs using evidence-based programming and services—including enhanced case management and accountability services; parenting and family reintegration; cognitive behavioral therapy; life skills; employment and educational development; and substance abuse education. The GEO Care division has a national footprint with established Reentry services in 138 locations across the country.

7. Page 268: #34, Is leasing included in your proposal?

BI's proposed solution does include the option to lease; as evidence of this, Westmoreland County, PA currently leases equipment off BI's U.S. Communities contract.

After reviewing our proposal response to the referenced specification, we understand that evaluators may be confused about BI's ability to lease equipment. It is extremely difficult to price leasing options in a cooperative purchasing environment, as there are several variables that affect leasing costs. Examples of the types of variables that impact leasing options and pricing include:

- The type of equipment
- The quantity of equipment
- The option to retain or return units at the end of the leasing period
- Shifting interest rates associated with the lease agreement
- Maintenance costs incurred after the first year of the lease

BI will provide rental, purchase (ownership), and leasing options to any agency who expresses interest. Using the purchase pricing of items listed on U.S. Communities, BI will provide the corresponding leasing quotes to said agency based on requested variables as indicated above.

8. For the pricing proposed, please clarify that these are not to exceed rates.

BI confirms that all rates within our proposal are *Not-to-Exceed* prices.

9. Describe your process for reconciling your grant payment audit report on the BI Fee Collection site with the invoices you send to customers?

10. What QA measures have you taken to insure the two match? If the issue persists, describe the steps you intend to take to resolve it and your level of commitment to insuring customers receive accurate invoices?

As these questions are closely correlated, and based on our discussion with evaluators, BI has decided to respond to these inquiries with a consolidated answer. Should the evaluation committee require two separate answers, BI looks forward to revising this response to more succinctly meet the agency's needs.

Reconciling Grant Payments
BI invoices customers for all services rendered, and we reduce the amount of the invoice by payments collected. BI reconciles payments between the Fee Collection System and the funds deposited into the bank. At this time, our customer invoices do not consider any grant funding.

However, in collaboration with U.S. Communities Participating Public Agencies, BI has developed several grant payment tracking tools to assist customers with tracking and allocating grant payments, including:

1. Grant Collection Report (Labeled in the system as "Grant Payments")
Description: This report is to see what Grant Payments have been submitted. The report provides line items that specify:

- The offender that received the grant payment
- The date the payment was submitted
- The payment amount

This report also provides a total of transactions and total of dollar amounts for all line items. In addition, this report provides the ability to filter information by date range, grant type, or a total for all grants combined.

An example of this report, with proprietary offender and agency information redacted, is provided as an attachment to this letter.

2. Grant Audit Report (labeled in the system as "Grant PMT Report")
This report is monthly and shows how the grant payments were allocated. There are two filters for this report:

1. Filter by month
2. Filter by grant type or all grants

Because of the way the payments are processed, this audit report will show the cases that had a grant payment in the month selected. The report will show the fund that was used, the days allocated, the dates those payments were allocated, total dollar amount used, and the remaining funds that carried over to the next month. The bottom of the report will show the total count as well as the total dollar amounts.

An example of this report, with proprietary offender and agency information redacted, is provided as an attachment to this letter.

3. Monthly Audit Report
This report displays the overall account for the month, breaking out the caseload total, equipment type, total days of each piece of equipment for the month, total cost, self-payments (credit cards and checks) collected, refunds, and a breakdown of each payment type.

This report also contains summary information that is correlated with the invoice. These numbers are verified with TotalAccess and with BI's Customer Business Services department before BI issues the invoice.

An example of this report, with proprietary offender and agency information redacted, is provided as an attachment to this letter.

Quality Assurance Measures
BI has created a monthly audit-reporting tool to ensure invoices accurately reflect collected payments—from the agency, offenders, or grant payments. This tool provides audit measures for all agencies collecting fees for multiple payment options (check, credit, grant payment, or agency pay). On the first of each month, we provide this audit tool with the invoice to support billing accuracy.

In addition, BI conducts manual audits periodically of all data collected, and we regularly report the results of these audits to the agencies we serve. If there is a discrepancy on the invoice or on the audit report, we have a full time, dedicated team that will work with the agency to resolve the issue. This includes bringing the team onsite to an agency locations, or remote engagement, depending on the agency's need and request to resolve the issue. We are fully committed to ensuring customers receive accurate invoices throughout the ensuing contract term.

Response to Evaluator Inquiries—Received by BI on Tuesday September 18, 2018

Bullet #1: *What are your plans to move TAD devices over and what does this look like as far as equipment supply? How quickly could you provide enough TAD products to replace Scram devices?*

BI does not foresee any issue transitioning the current population of SCRAM devices to our TAD solution. Based on RFP stipulated timelines, we are fully prepared and able to transition the population to TAD in February 2019. BI will provide the staff, training, and implementation services necessary to ensure this transition has minimal impact on the agency's daily operations.

As a highly experienced provider of electronic monitoring devices and services, BI has several risk mitigation strategies in place. There are several activities that BI will support prior to installing TAD devices on offenders, each aimed at mitigating transition risks. Specific risk mitigation activities include:

- Training the officer population prior to implementing BI devices
- Performing data entry to ensure all devices and users are appropriately recorded in TotalAccess
- Providing staff onsite to assist with the transition

BI anticipates completing this transition within one week after completing officer training and data entry activities.

Bullet #2: *Can you provide a report showing the status of all equipment so the CCD can know if something is returned by the offender? What are your ideas to assist PPAs to manage lost equipment that is returned directly to the manufacturer?*

When devices are removed from TotalAccess, units remain on inventory during shipping process. To provide additional details on the status of equipment returned by the offender, BI recommends running the *Equipment Utilization Report* and running various other reports that detail inventory reconciliation numbers. Additional information on these capabilities includes:

- TotalAccess provide an *Equipment Utilization Report* that details active and inactive equipment
- Equipment scanners import the information from the scanners and reconcile it with the utilization reports
- BI's Customer Business Services department tracks returned equipment
- BI maintains an absconder equipment list that details all returned equipment

As technologies continue to expand and evolve, BI is continuously evaluating new inventory management tools, including scanning solutions and mobile application capabilities.

BI, in collaboration with the agency and our Customer Business Services department, can create custom documents or other solutions to meet this need.

The City and County of Denver is unique because they have a dedicated agency within their TotalAccess profile for absconded equipment. When BI receives device returned from the field, BI updates the agency's inventory in real time, labeling the equipment as returned, and removing the device from the absconded inventory. BI remains committed to working with individual customers to make sure we meet their inventory tracking and management needs.

Bullet #3: *What is the cost for the MDM phone referenced in C.11.6.15?*

As detailed in *Table 48* of BI's proposal response, the cost for an MDM smartphone is $120.00 per month.

Bullet #4: *What equipment do you offer that does not automatically update firmware? If a unit does not automatically upgrade, how do you notify the public agency that an upgrade is available to ensure they are using the latest equipment?*

The SL2 and LOC8 are only devices that can receive firmware updates over-the-air. For BI's other proposed devices (including ExacuTrack One, HomeGuard, and TAD solutions), many firmware upgrades do not significantly affect device performance. When firmware upgrades significantly impact device performance, BI will notify our customers and update the device when returned to our manufacturing facility for routine maintenance.

Currently, when an authorized user enrolls a device in TotalAccess, the software displays the revision number next to the equipment serial number. BI can also provide a report that details the firmware revision of all active devices.

Bullet #5: *Is it possible to have a TAD base station receive from many TAD devices like you describe in C.11.6.30 for RF devices?*

At this time, the TAD base station can only receive communications from a single, ankle-worn alcohol detector.

Currently, BI does not have any product development plans to meet this request.

The BI TAD collects a significant amount of the data within its systems capabilities. Greater than competitor devices, the TAD detects and stores alcohol tests every minute, along with tamper detection reading from seven independent sensors. As such, it can only receive communications from a single worn alcohol detector.

Bullet #6: *What is the procedure for confirming an alcohol event?*

The procedure for confirming an alcohol event is very straightforward:

1. The agency places a request with BI Monitoring Operations to confirm an alcohol event
2. The agency is required to provide basic information with the request, including the offender name, equipment serial number, and time of the event
3. BI's highly tenured confirmation team reviews the information and determines if the alert is a true drinking event

BI maintains detailed operating procedures on this process, and we are able to provide additional documentation to evaluators upon request.

Bullet #7: *C.11.6.42: Can the time frame during which the beacon motion sensor resets be customized?*

The beacon motion sensitivity is configurable—high sensitivity is 10 seconds, medium is 1 minute, low is 2 minutes. A "Beacon Motion" event/alert is generated if the client moves the beacon for a duration exceeding the agency-configured sensitivity setting/timeframe. Once a "Beacon Motion" event occurs, the GPS device will begin collecting GPS points and track the offender's movement with the beacon.

Once beacon motion stops, it must be stationary for five continuous minutes before GPS collection by the unit discontinues. This five-minute timeframe is not configurable. At the end of the 5 minutes of no motion, a "Beacon Stationary" event/alert is generated, GPS collection ceases, and the offender is monitored by the RF range of the Beacon.

If the client leaves the range of the beacon, or if further beacon motion occurs, GPS collection will begin, and the associated events will be reported, alerting the officer to the offender's attempts to circumvent tracking and monitoring.

Bullet #8: *C.11.6.44: Can you set client notify on/off by zone when there are multiple types of zone within the client's profile?*

At this time, authorized users can configure offender notifications based on zone type, not based on each individual zone. For example, if an offender had three exclusion zones associated with their monitoring conditions, the user can only configure notification options for all three exclusion zones. TotalAccess does not allow users to configure offender notifications on a zone-by-zone basis.

For other, unique zone notification requests, BI will discuss development efforts with our software team.

Bullet #9: *C.11.6.52: We know years ago you provided juris monitors and that you discontinued this offering. Please provide more information about why you don't offer victim's bracelets?*

There are several reasons why BI has not prioritized a separate victim notification device. These include:

1. *Liability Issues.* BI understands the serious nature of protecting public safety, and we are further aware of the inherent risks associated with monitoring domestic violence offenders. Specifically, this population of offenders are at a high risk to re-offend. As such, BI actively focuses on educating community corrections agencies about these risks. The most prevalent risk is associated with the agency's ability to mandate that a civilian (in these cases, the victim) carry a fully charged, active monitoring device on their person at all times. Agencies cannot compel, mandate, or direct a civilian/victim to continuously carry a separate monitoring device.
    a. With these risks in mind, BI acknowledges that there are certain measures that an agency can take to mitigate this liability, including documentation completed by the civilian/victim acknowledging these risks. We recommend such documents when offering any victim notifications services via our services.

    For these liability issues, BI has made the business decision to not prioritize the development of a separate victim notification device.
2. *Technology Limitations.* The ability for any device to accurately track offender movement and civilian/victim location is still very limited with current, available technologies. While other providers may describe "mobile zone" or "floating zone" capabilities, based on BI's research, this technology with can be limiting and may not be as reliable as advertised.
    a. In addition, the reactionary times from when a device detects a zone event, processes this as a violation, and notifies the civilian/victim is limited.
    b. Finally, developing a separate victim device is not always going to be cost effective. Daily rates have the potential to double or triple when providers offer more than an offender-worn device to attempt to meet victim notification needs.
3. *Lack of Market Demand.* Based on BI's understanding of the electronic monitoring marketplace, the demand for this type of solution is not prevalent enough for the cost of researching, developing, and implementing a solution. While there are areas of the United States that have detailed and stringent victim notification legislation/requirements, BI has not received significant

requests from the agencies we serve to implement a victim notification solution or mandate victims to carry devices.

Beyond what is stated above, BI is in continuous review and development for victim enabled solutions. We are supporters of the ability to use technology in any way to enhance the safety of all victims and are actively testing new ways to do this. Mobile applications on smart phones and other methods are currently in development and would be made available once placed into production.

Bullet #10: *Is there any way to make the RF base station lighter and/or smaller?*

BI is in the process of developing a new RF curfew monitoring solution. This new product will have a significantly smaller base station. BI commits to:

- Providing the new RF product within Q1 or Q2 of 2019, when available
- Offering the new RF product at the same rates as the HomeGuard solution contained within BI's original *Price Proposal*

Bullet #11: *Are you developing any capabilities for RF base stations to connect via WIFI?*

BI is in the process of developing a new RF curfew monitoring solution. This new product will have the ability to determine the base station location through Wi-Fi Access Points (AP). Similar to LOC8 Wi-Fi location detection capabilities, the RF base station will scan for nearby Wi-Fi access points and report these readings to the monitoring system. The base station will use this data—including a list of detected access points and their signal strengths—to provide a location fix for the unit.

Should any new developments via our RF base station become Wi-Fi enabled, they will be made available under this contract at no additional costs.

Specific to this any new RF base stations, BI commits to:

- Providing the new RF product within Q1 or Q2 of 2019, when available
- Offering the new RF product at the same rates as the HomeGuard solution contained within BI's original *Price Proposal*

Bullet #12: *What staff is doing the installs for agencies across the country?*

There are several program models that BI can implement to provide installation services. Providing field services—including installing equipment on offenders at BI-operated locations, BI-subcontracted locations, agency locations, or in the offender's home—varies widely based on the population monitored and agency needs. Some examples of the types of installation programs operated by BI include:

- *Partnering and subcontracting with a network of offices.* In areas where BI and GEO have existing facilities, we can leverage our established staff and locations to provide an installation program. In this model, offenders would report to the closest office for equipment installation.
- *Performing installations at agency locations.* Based on population numbers, BI staff can install equipment at agency locations (such as a probation or parole office). In this model, the agency would designate certain times for BI to be present to perform equipment installation, and officers would instruct the offender on the appropriate time to report to the office.
- *Performing installations at offender homes.* BI can hire a workforce of Installation Technicians that will be responsible for covering a specific geographic region. These full time or part time employees (based on population numbers and agency needs) will travel to offender's homes and perform equipment installation for both offender-worn and home-based devices.

BI Installation Technicians must successfully pass a background check and drug screen and undergo comprehensive training on BI technologies, company and agency policies and procedures, and contract requirements. Many of our Installation Technicians previously worked in law enforcement, and this

relevant experience—supplemented with extensive BI-provided training—assists in successful provision of contracted install services.

Bullet #13: *For agencies who do not do in-home installation, how can the agency make sure the Home Guard is installed at the address where the offender is actually residing?*

Based on our conversations with City and U.S. Communities evaluators, BI interprets this question to mean:

How can the HomeGuard 206 verify that the client is actually installing the device at the home?

Currently, the HomeGuard 206 relies on the officer or other agency personnel to verify that the offender installed the device in the correct location. At this time, there is not a way for the HomeGuard 206 to independently verify the location of the base station.

With the introduction of BI's new RF curfew monitoring solution (as described in response to *Bullet #10* and *Bullet #11*), we have developed new features to address this gap. Specifically, the base station will use Wi-Fi access points and GPS points to validate base station location, including the following features:

- The base station will collect a GPS point once a day to verify location
- If a "Receiver in Motion" event is generated, the unit will collect and send GPS points to indicate the new location of the device
- In the unlikely event GPS is unavailable, the base station will use Wi-Fi access points to determine location

Specific to this GPS and Wi-Fi enabled RF base station, BI commits to:

- Providing the new RF product within Q1 or Q2 of 2019, when available
- Offering the new RF product at the same rates as the HomeGuard solution contained within BI's original *Price Proposal*

Bullet #14: *When you have multiple accounts within one agency, do you have any ideas about how CCD can manage the shelf inventory to make sure each agency has the required equipment?*

BI offers several flexible solutions that can be customized to meet the unique needs of each agency. For smaller agencies, BI can implement a fixed shelf inventory allotment (for example, five shelf units at all times). Similarly, BI can implement a percentage-based shelf allotment strategy for larger accounts (for example, 30% spare allotment).

We understand that a single agency may be responsible for:

- Monitoring a variety of populations—such as juveniles, probationers, parolees, or pretrial defendants
- Coordinating funds for each population or program type from multiple sources, including collecting fees from offenders or managing grant funds
- Managing inventory and shelf units for a variety of programs with differing needs

With these needs in mind, BI's solution offers advanced inventory reporting features, a barcode scanner to expedite reconciliation, and a dedicated team of tenured billing specialists. This combination of technology and human capital ensures that we provide solutions that generate accurate and reliable invoices.

Conclusion

BI appreciates the opportunity to provide additional information about our solutions and how we can continue to support the City and County of Denver and U.S. Communities Participating Public Agencies. Should you require any additional information, please do not hesitate to contact me.

Collectively hereinafter the Agency and BI are referred to as the "Parties."

This Agreement outlines responsibilities of each party relative to the operation of an electronic monitoring program.

WHEREAS, Agency has registered with U.S. Communities Government Purchasing Alliance ("U.S. Communities") as a Participating Public Agency under the terms and conditions of the U.S. Communities Master Intergovernmental Cooperative Purchasing Agreement; and

WHEREAS, Agency desires to procure products and services in accordance with the terms and conditions of the Master; and

WHEREAS, the Agency is authorized to enter into this Agreement by the laws and regulations to which the Agency is subject; and

WHEREAS, the Parties wish to incorporate the terms and conditions of the Master Agreement.

NOW, THEREFORE, In consideration of the promises contained herein, and for other good and valuable consideration, receipt of which is hereby acknowledged, the parties hereto, desiring to be legally bound, hereby agree as follows:

1. **Terms and Conditions.** Except as specifically set forth herein, this Agreement is subject to the terms and conditions of the Master Agreement 201844994[1] all of which are by this reference made part and incorporated in this Agreement.

No term extension shall extend the term past the term of the Master Agreement, January 31, 2022.

5. RIGHTS AND REMEDIES NOT WAIVED: In no event shall any action or inaction, including any payments to the Contractor, by the Contractor constitute or be construed to be a waiver by the City of any breach of covenant or default which may then exist on the part of the Contractor, and the City's action or inaction when any such breach or default shall exist shall not impair or prejudice any right or remedy available to the City with respect to such breach or default. No assent, expressed or implied, to any breach or default shall be deemed or taken to be a waiver of any other breach or default.

The acceptance or rejection of a proposed subcontractor shall not create in that subcontractor a right to any subcontract nor shall said acceptance or rejection relieve the Contractor of its responsibilities for the Work of any subcontractor. The Contractor shall be responsible for any acts or omissions of its subcontractors, suppliers and personnel. In addition, all Work performed for the Contractor by a subcontractor or supplier shall be pursuant to an agreement between the Contractor and the subcontractor or supplier which shall contain provisions that:

B. The Contractor shall not engage in any transaction, activity or conduct which would result in a conflict of interest under this Agreement. The Contractor represents that the Contractor has disclosed any and all current or potential conflicts of interest. A conflict of

interest shall include transactions, activities or conduct that would affect the judgment, actions or work of the Contractor by placing the Contractor's own interests, or the interests of any party with whom the Contractor has a contractual arrangement, in conflict with those of the City. The legislative agenda, priorities, actions, and needs of the City shall take precedence over any other obligations (contractual or otherwise, direct or indirect) of the Contractor. The City, in its sole discretion, shall determine the existence of a conflict of interest and may terminate this Agreement in the event such a conflict exists after the City has given the Contractor written notice which describes the conflict.

25. USE, POSSESSION OR SALE OF ALCOHOL OR DRUGS: The Contractor shall cooperate and comply with the provisions of Executive Order 94 concerning the use, possession or sale of alcohol or drugs. Violation of this provision or refusal to cooperate with implementation of the policy can result in the City barring the Contractor from City facilities or participating in City operations.

26. PROPRIETARY OR CONFIDENTIAL INFORMATION; OPEN RECORDS:

A. City Information: The Contractor acknowledges and accepts that, in performance of all Work under the terms of this Agreement, the Contractor may have access to proprietary data or confidential information that may be owned or controlled by the City, and that the disclosure of such proprietary data or confidential information may be damaging to the City or third parties. The Contractor agrees that all information designated or marked as proprietary data or confidential information and provided or otherwise disclosed by the City to the Contractor shall be held in confidence and used only in the performance of the Contractor's obligations under this Agreement. The Contractor shall exercise the same standard of care to protect such proprietary data and confidential information as a reasonably prudent Contractor would to protect the Contractor's own proprietary data or confidential information. Proprietary data and confidential information shall include, but not limited to, any materials or information which is designated or marked "Proprietary" or "Confidential" by the City or its agents, provided to or made available to the Contractor by the City subject to a confidentiality agreement or notice of confidentiality, or used by the City under a licensing agreement or other authorization by the owner of the materials or information. Agenda Item Summary

Agenda Date: 9/14/2021 Agenda Item No.: 26.

Agenda Item Name:
Request Approval to Pay CLM Invoice in the Amount of $48,066.95

Presenter:
Phyllis Marty

Description:
Request Approval to Pay CLM Invoice in the Amount of $48,066.95

Recommended Action:
Approve payment of invoice to CLM in the amount of $48,066.95 as well as the budget amendment utilizing reserves.

Prior Board Motions:
N/A

Fiscal Consideration:
$48,066.95 - 001.46.4600.551.34.00

Background:
CareerSource Citrus Levy Marion (CLM) submitted an invoice to CSNCFL in the amount of $129,858.76 in March of 2021, for services provided through the Interim Administrative Entity Contract, which ended June 30, 2020. The invoice was for payroll for the Interim CFO, retained local AE staff, Starke utilities, career center supplies, and other costs necessary for Administrative services. This invoiced amount was billed based on allocations from the original contract instead of the contract amendment of June 15, 2020, so we held a zoom conference between our CEO and CFO and CLM's CEO on March 30, 2021 to discuss the billing. Using the revised methodology, CLM submitted a revised invoice on April 2, 2021, in the amount of $48,066.95. Due to this invoice being from a contract already closed out, we sent it to the Department of Economic Opportunity (DEO) to ask for approval to pay on April 19, 2021. DEO declined approval to pay on April 21, 2021 due to the invoice being submitted after the 60 day contract closeout period and the fact that the Program Year is closed out and there are no grants open to be able to allocate the costs to.

Administrative Procedure

BUDGET MANAGEMENT

Purpose: To establish and maintain practices for the adoption, administration, and amendment of the annual budget in accordance with Florida Statutes Chapter 129.

Policy: To exercise the highest level of budgetary control per Florida Statute Chapter 129 with an emphasis on transparency to communicate the County's annual budget process from conception to finality including adjustments made throughout the fiscal year.

The Board of County Commissioners designates the County Manager to be the County Budget Officer pursuant to Florida Statute 129.025(1)

Procedure:

1. Revenues

A. The Office of Management and Budget (OMB) will estimate revenues as early as possible in the budget process in order to provide expenditure guidelines. The Board of County Commissioners will establish the County's budget priorities based upon the revenue estimates and expenditure guidelines.

B. The budget shall be balanced; the total estimated receipts (including balances brought forward) shall equal the total appropriations and reserves in accordance with Florida Statute Chapter 129.01(2)(b).

C. In general, current operating revenue should be sufficient to support current operating expenditures, with adjustments made to budgeted fund balance or appropriations if necessary.

D. In recognition of the overall dependence on ad valorem taxes, the County will strive to develop a diversified and stable revenue system.

E. "Earmarking" of available revenues that would unnecessarily restrict the full range of potential uses of such revenues will be avoided. The use of various funds; however, will be consistent with generally accepted accounting principles and Florida Statute Chapter 129.02.

F. One-time revenues will be utilized to fund one-time expenditures wherever possible. If one-time revenues are assigned to pay for recurring expenditures a three to five year plan for transferring the expenditure to a recurring revenue source will be adopted by the County as a part of the budget process in the initial year.

G. The Board of County Commissioners is authorized to establish and collect fees and charges for certain services rendered by the County. These services are available to all residents of the County but are not needed by the majority of residents, therefore, those utilizing the services are charged for the service. All Proprietary Fees are to be reasonable in relation to the County provided privilege or service to the fee payer that receives the special benefit. All Regulatory Fees may not exceed the actual cost to the County of providing the service to the individual fee payer. Additionally, fees are solely based on the actual cost of providing what the user is consuming or are charged per direction from a regulatory authority. All requested changes to the Schedule of Fees during the fiscal year are presented to the Board of County Commissioners for its review and approval.

A fee schedule is therefore adopted and amended by resolution each fiscal year. Annually, fees will be reviewed by Departments and any requested modifications will include the full cost of activities, including direct and indirect costs currently supported by the fees to identify the impact of inflation and other cost increases. Supporting documentation showing calculations for fees changed will be submitted by Departments as part of the annual budget process. Departments shall retain supporting documentation for a period of two (2) years. A thorough review of the countywide fee schedule will be conducted periodically.

2. Expenditures

A. The financial impact associated with new programs or program modifications will be analyzed and determined prior to adoption by the Board. When new programs or increased levels of service are proposed, departments will identify any applicable Federal or State mandates; outline client benefits and strategic initiatives; demonstrate alignment to organizational goals, objectives, and agreements; identify related health and safety issues; demonstrate conformance to industry/professional standards; and identify all funding sources including fees or tax increases needed to partially or fully fund the program or service. The department will document any offsetting revenue or cost avoidance associated with this issue as well as consequences of not funding the proposal.

B. Understanding what a program or activity costs, and what benefits are derived from these programs or activities allows the County to make informed funding decisions. To that end, all expenditures will be analyzed to ensure service alignment with current Board priorities.

C. Departments shall utilize performance measures in order to track performance, support operational improvement, and determine effective use of resources for each program.

D. Internal Service Funds will be self-supporting whenever possible. Internal service fees and the direct impact to County operating budgets shall be analyzed annually as part of the budget process.

E. Grant applications to fund services/programs with state or federal funds will be recommended to the Board upon review by the Office of Management and Budget and the County Manager, with significant consideration given to:

I. The cost of administering the grant relative to the amount of the grant

II. The availability of matching funds

III. The extent to which locally generated funds will be required to support the program when the grant funding is no longer available.

3. Operating Budget

For purposes of budgetary control, expenditures cannot legally exceed the total annual budgeted appropriations at the financial reporting fund level (The Laws of Florida Chapter 65-1236 Sub 1 and County Ordinance 233.01). The County maintains both accounting funds and financial reporting funds defined as:

A. Financial Reporting Fund – Also known throughout the County as a "Superfund", is an accounting entity with a self-balancing set of accounts that whenever possible will include a combination of similar "accounting funds".

B. Accounting Fund – an accounting entity with a self-balancing set of accounts which are segregated for the purpose of detailing compliance with special regulations, restrictions, or limitations.

C. A Municipal Services Taxing Unit (MSTU) for Law Enforcement Services is established by ordinance. This fund shall be administered by the Board and follow the established reserve for contingency policy. Current policies for estimating revenues and appropriating expenditures shall be applied to this fund.

D. A Municipal Services Benefit Unit (MSBU) for Fire Protection Services is established by ordinance. This fund shall be administered by the Board and follow the established reserve for contingency policy. Current policies for estimating revenues and appropriating expenditures shall be applied to this fund. Half Cent Sales Tax, Public Services Tax, and Communications Service Tax may be shared between all MSTUs/MSBUs. This allocation may be reviewed on an annual basis.

4. Budget Request

The County shall develop a proposed budget to include personal services, operating, capital outlay, debt service, grants and aids, and other uses categories.

Letter to Governor Ron DeSantis Seeking Assistance with Appointment of County 911 Coordinators to Florida E911 Board

Recommended Action:
Approve and sign the letter to Governor Ron DeSantis

Prior Board Motions:
N/A

Fiscal Consideration:
Important fiscal matters are discussed at the E911 Board meetings. Each fiscal decision has an impact on County 911 fee revenues. This action has no immediate fiscal implications to the FY21 budget.

Background:
The five (5) County 911 Coordinator positions on the State of Florida E911 Board's focus is on what is best for Florida Counties as it relates to 911 public safety matters. Very important budget and policy matters are discussed every month at the E911 Board meetings with very little input from County perspective because there are three (3) vacancies on the E911 Board that should be filled by County 911 Coordinators.

The County 911 Coordinator positions on the E911 Board are based on county population. County representation comes from a rural county, a medium county, a large county, and two positions are at-large (from any county).

Historically, the five (5) communications industry positions are immediately filled upon a vacancy.

All voting is by simple majority with the communications industry having four (4) members. Today, the E911 Board has two (2) County 911 Coordinators and four (4) communications industry members on the Board.

Office of Governor Ron DeSantis
State of Florida

The Honorable Governor Ron DeSantis:

I am seeking your assistance with the appointment of County 911 Coordinators to the State of Florida E911 Board.

The Florida E911 Board consists of eleven (11) members, five (5) from the private communications service provider industry and five (5) from local government County 911 Coordinators. The 11th member is the Chair who is the Bureau Chief of Public Safety, Division of State Technology. Presently, all five 911 Coordinator positions on the E911 Board have either exceeded their appointment term, are no longer County Coordinator's or have retired. The County 911 Coordinator positions on the E911 Board as of this writing are:

1. Mrs. Laurence Anderson, term expired; wishes reappointment
2. Mrs. Carolyn Dill-Collier, appointment expired in 2017; no longer a County 911 Coordinator
3. Vacant
4. Vacant
5. Vacant

In May and June 2019, the President of the Florida 911 Coordinators Association began the process of acquiring nominations and voting for the E911 Board County Coordinators positions to be filled. Upon completion of the process, the nominees for appointment were sent to the Florida Association of Counties (FAC) in accordance with 365.172(5)(b) FS, which began communication with the Governor's Appointments Office.

In October of 2020, important planning and fiscal matters were considered and voted upon with little representation on the board from Florida County representatives. The E911 Boards primary function is to administer the funds derived from the monthly 911 fee. Fees are distributed to counties each month and the E911 Board also manages the 911 grant program. The grant program is reviewed and voted on by the E911 Board.

To date, numerous letters and emails have been sent reference filling the E911 Board positions with no results. The following is a history of those attempts:

December 3, 2019, Governor Ron DeSantis
December 30, 2019, Governor Ron DeSantis
January 16, 2020, Governors Appointments Office
May 18, 2020, Governor Ron DeSantis
October 14, 2020, Governors Appointments Office
November 18, 2020, Governors Appointments Office

December 2, 2020, Governors Appointments Office
January 27, 2021, Governors Appointments Office

In August of 2019, the following names were submitted to the FAC for appointment by the Governor:

At-Large County representative Ms. Christine Cooper, ENP Okaloosa County 911 Coordinator Okaloosa County Sheriff's Office 90 College Blvd East Niceville, FL 32578 850-689-5606 ccooper@sheriff-okaloosa.org	At-Large County representative Ms. Laurene (Laurie) Anderson, ENP Charlotte County 911 Coordinator Charlotte County Sheriff's Office 7474 Utilities Road Punta Gorda, FL 33982 941-575-5339 landerson@ccsofl.net
Large County representative Mr. Chuck Spalding Palm Beach County 911 Coordinator 20 S Military Trail West Palm Beach, FL 33415 561-712-6339 cspalding@pbcgov.org	Medium County representative Mr. Jarrod Shupe Flagler County 911 Coordinator Flagler County Board of County Commissioners 1769 E. Moody Blvd, Bldg #3 Bunnell, FL 32110 386-313-4281 jshupe@flaglercounty.org
Rural County representative Mr. Daniel Carroll Walton County 911 Coordinator Walton County Sheriff's Office 752 Triple G Road DeFuniak Springs, FL 32433 850-951-4954 dcarroll@waltonso.org	

The five Florida E911 Coordinators are a vital component of the eleven-member E911 Board and key to the appropriate disbursement of 911 fee revenues and management of the State 911 grant program.

Sincerely,

Ken Cornell, Chair

Agenda Item Name:
Transfer from MSBU-Fire Reserves to cover the FY21 payment for the Automatic Assistance Agreement with the City of Gainesville and Fire Services Agreement with the City of High Springs

Presenter:
Harold Theus, Chief 352-384-3101

Description:
Transfer of $281,106.00 from MSBU-Fire Reserves to cover the FY21 payment for the Automatic Assistance Agreement with the City of Gainesville and Fire Services Agreement with the City of High Springs

Recommended Action:
Approve the budget amendment

Prior Board Motions:
On August 27, 2019, the Board approved Rural Fire Agreements for fire suppression and first response (19-0295)

Commissioner Cornell moved to approve and sign the Interlocal Agreements for Fire Suppression & First Response EMD Rescue services between Alachua County and Rural municipalities.

Richard Shirk Windsor Fire Chief, Chair Chestnut, County Manager Lieberman, Joe Clark from Melrose Fire Department, Commissioner Marihelen Wheeler and Anthony Johnson presented comments.

The motion carried 5-0.

Fiscal Consideration:
The FY21 Adopted Budget includes $612,000.00 for the Automatic Aid Agreement with the City of Gainesville for Fire and EMS Services (011.54.5480.522.34.00). Per the agreement, the cost per response was updated and it increased from $869.92 to $914.74 which has resulted in a projected annual cost of $853,106.45 which is $241,106.45 over budgeted amount.

The FY21 Adopted Budget includes $343,237.00 for the Fire Services agreement with the City of High Springs. The projected annual cost is $383,235.78, an increase over budget of $39,998.78 (011.54.5480.522.34.00).

Staff recommends transferring the estimated combine increases of $281,106.00 from the MSBU-Fire Fund Reserves (011.04.0440.590.99.20). This transfer would reduce the MSBU-Reserves balance from $3,572,931.00 to $3,291,825.00. This balance exceeds the amount required in the financial policies and will not require reimbursement. All the funds will be used within the MSBU.

Background:

On September 10, 2019 the Board approved the Interlocal Agreement between Alachua County and City of Gainesville regarding Automatic Aid for Fire and EMS Services (19-0295)

On October 13, 2020 the Board approved the First Amendment to the Agreement between Alachua County and the City of High Springs regarding Fire and First Response EMS Services (20-0771)

Alachua County has contracted with the City of Gainesville to respond to critical calls for service in the Unincorporated area. The County also responds into the City of Gainesville. Each month, staff reconciles the responses and the agency with more responses is compensated by the other at a cost per response based on prior year actual expenditures and responses. The rate per response for FY21 increased from $869.92 to $914.74. In addition, both the City and the County have experienced a significant call load increase due to COVID. This has resulted in a projected annual payment to the City of Gainesville of $853,106.45 which is $241,106.45 over the budgeted amount of $612,000.00.

Alachua County also contracts with the City of High Springs to respond to calls for service in the Unincorporated area. The County also responds into the City of High Springs. Each quarter, staff reconciles the responses and the County compensates the City at a cost per response of $717.67 for ALS responses. Both the City and County have experienced a significant call load increase due to COVID. The FY21 budgeted payment to the City of $343,237.00 was based on approximately 478 responses. The projections indicated the City will provide an estimated 534 which increases the cost to $383,235.78 or an increase of $39,998.78.

The responses for most of August and September are estimated and projected based on recent response data. The actual responses may be lower or higher. The Department of Fire Rescue is not able to absorb these increases within the operating budget. Staff recommends a transfer of $280,106.00 from the MSBU-Fire Fund Reserve for Contingency. This will reduce the balance from $3,572,931.00 to $3,291,825.00. There is adequate reserve for contingency funds to cover this and still meet the reserve requirements as recommended in the financial policies

WITNESSETH

WHEREAS, the applicant is the developer of an approximately 2.74 acre parcel of land identified as Tax Parcel Number(s) 06899-000-000 and located at 6421 SW Archer Road as set forth in the legal description attached hereto as Exhibit "A" ("Property"); and

WHEREAS, the Developer has applied for final development plan approval to develop a Drive-through Restaurant, to be known as Sonic Archer Road ("Development") on the Property; and

WHEREAS, the Board of County Commissioners has established by ordinance a multimodal transportation mitigation program in Section 407.125.3, Alachua County Unified Land Development Code ("ULDC"), as required by and in a manner consistent with Section 163.3180, Florida Statutes; and

WHEREAS, the Developer has made proper application for use of multi-modal transportation mitigation to address transportation impacts in accordance with Section 407.125.3, ULDC, the Project is consistent with the Comprehensive Plan and ULDC, and the Developer has demonstrated that all conditions contained in Chapter 407, Article XII, ULDC, have been met in order for Developer and County to enter into this multi-modal transportation mitigation agreement; and

WHEREAS, the Developer has voluntarily chosen to satisfy transportation concurrency requirements through contribution of multimodal transportation mitigation consistent with the methodology found in Ordinance 11-03 adopted by the Board of County Commissioners; and

WHEREAS, the County has agreed to accept the mitigation the Developer has proposed to offset the impacts on the transportation system caused by the Developer's proposed development; and

WHEREAS, the implementation of the agreement is authorized by Chapter 163, Florida Statutes, the County's Comprehensive Plan (as amended by the Mobility Plan), and Chapter 407 Article XII, ULDC.

NOW, THEREFORE, in consideration of the promises, mutual covenants, and conditions contained herein and other good and valuable consideration, the receipt and sufficiency of which is hereby acknowledged, the parties to this Agreement agree as follows:

Section 1. **Recitals.** The above recitals are true and correct and form a part of this Agreement.

Section 2. **Purpose.** The Purpose of this Agreement is:

a. To grant to any owner of the Property transportation concurrency as provided for a Final Certificate of Level of Service Compliance (CLSC) as required for the construction of the Project, subject to compliance by Developer with the terms and conditions of this Agreement and the CLSC; and

b. To recognize payment of the multimodal transportation mitigation by Developer as providing significant benefit to the impacted transportation system in the area of the Property.

c. To fulfill the Developer's obligation to pay multimodal transportation mitigation.

Section 3. **Development Identification.** The proposed Development is known as the Sonic Archer Road and is located at 6421 SW Archer Road, which is identified as Alachua County Tax Parcel number(s) 06899-000-000.

The Development is a Drive-through Restaurant.

Section 4. **Multimodal Transportation Mitigation.** The methodology used to calculate an Applicant's Multi-Modal Transportation Mitigation shall be as follows:

The target funding level divided by the growth in vehicle miles of travel times the vehicle miles of travel for the proposed use.

OR

$$VMT_g = VMT_f - VMT_b$$

$$Tcfl = Cc - Cr$$

$$Ttofl = Toc - Cr$$

$$VMT_r = \left(\frac{Tcfl + Ttofl}{VMT_g}\right)$$

$$VMT_p = (Tg \times Atl \times 0.5) \times (1 - \%CC) \times (\%NT)$$

$$\text{Multi-modal Transportation Mitigation} = VMT_r \times VMT_p$$

Where:

Vehicle Miles of Travel Growth (VMT_g) = The projected total of vehicle miles traveled in the horizon year (VMT_f) minus the base year (VMT_b) vehicle miles of travel.

Target Capital Funding Level (Tcfl) = The total cost of transportation capital (Cc) for projects consistent with the Capital Improvements Element. Cost shall include all capital infrastructure construction costs, along with cost for design, right-of-way, planning, engineering, maintenance of traffic, utility relocation, inspection, contingencies, project management, stormwater facilities, turn lanes, traffic control devices, bicycle and pedestrian facilities, transit vehicles, and physical development costs directly associated with construction at the anticipated cost in the year it will be incurred.

Target Transit Operations Funding Level (Ttofl) = The total cost of transit operations (Toc) consistent with the Capital Improvements Element.

Committed Revenue (Cr) = The total committed revenue to fund transportation capital and transit operations.

Vehicle Miles of Travel Rate (VMTr) = Target Funding Level for transportation capital and transit operations divided by Vehicle Miles of Travel Growth

Vehicle Miles of Travel Proposed (VMTp) = The projected vehicle miles of travel for a specific land use

(Tg) = Trip Generation Rate
(AtL) = Average Trip Length
(CC) = Community Capture
(NT) = New Trips

For the purposes of determining Multi-Modal Transportation Mitigation obligations, Alachua County shall determine mobility improvement costs, including transit, based upon the actual cost of the improvement utilizing the latest available data. Mobility improvements, including transit should be consistent with projects identified in the Capital Improvements Element.

Section 5. **Certificate of Level of Service Compliance.** In consideration for payment of the Multimodal Transportation Mitigation, Developer shall receive a Final Certificate of Level of Service Compliance ("CLSC"), subject to the following condition:

a. Developer has elected to either utilize the Multimodal Transportation Mitigation schedule to determine the payment due or the applicant has completed an alternative Multimodal Transportation Mitigation study and the findings of the alternative study have been accepted and approved by Alachua County.

b. Developer, if applicable, has requested Multi-Modal Transportation Mitigation credit, has provided all required documentation and has agreed to either a value of the credit or the process to be utilized to determine the value of the credit.

The details for any proposed dedication or infrastructure project for which credit is requested shall be provided in this agreement.

c. Developer agrees that any requested change to a development order may be subject to additional Multimodal Transportation Mitigation to the extent the change generates additional traffic that would require mitigation.

Section 6. **Multimodal Transportation Mitigation Payment.** Alachua County shall maintain a multimodal transportation mitigation contribution schedule in its building division office's and on the County website consistent with Ordinance 11-03.

a. Recognizing the "time value of money," Alachua County offers the following reductions in payment amount:

c. Developer expressly agrees to pay the multimodal transportation mitigation payment set forth in Section 4.0, above within 10 days of the County's request for payment. County shall not request payment until after a request for final inspection has been submitted, or at such a time concurrent with the appropriate approval when a discount is requested per Section 6(a)1 and 6(a)2 above.

d. This agreement does not constitute Final Development Plan approval or any intent by Alachua County to guarantee approval of the Final Development Plan application. If County denies the application for Final Development Plan, this agreement shall be null and void.

Section 7. **Impact of Development.** The Developer agrees that the conveyances and commitments pursuant to this Agreement are necessary to reduce the impacts of the Development and meet the "essential nexus" and "rough proportionality" requirements established by the United States Supreme Court in the cases of *Nollan v. Subject: ACSO Agreements

Good morning Keith,

Do we have any agreements or contracts available between E911 and ACSO for all of the reimbursements? Purchases from other Government entities are no longer purchase order exempt, which requires a POR to be entered ***prior*** to services/supplies being received.

We were finally able to get Purchasing to start pushing through the reimbursement POR for the cleaning services, but it is still processing through all of the approval levels. I know that we discussed putting in a blanket POR for FY21, but Purchasing is looking for supporting documentation as to why we are reimbursing.

Is there anyway that our Department is able to make these purchases directly with the vendor instead of a reimbursement process?

Thank you,
Donna Guirate

STANDARD SERVICE CONTRACT

SSC#: 1132104

Howard Technology Solutions, a Division of Howard Industries, Inc. ("Howard"), offers various optional service contracts for the AV products and systems sold and installed by Howard's AV group. The equipment that HTS installs normally come with a manufacturer's product warranty, which typically covers repair and/or replacement in the unfortunate event a product, proves to be defective. But manufacturers' product warranties rarely cover the labor required on the Customer's end to work through the warranty claims process and get the equipment back up and running. This is where a Howard's optional service contract comes in, as a supplement to the manufacturer's warranty, providing the Customer with the convenience of hands-on assistance and labor from the very beginning to the very end of the claims process. Our service contracts provide Howard Customers with confidence that their AV system will perform as intended with minimal disruptions and reduces the Customer's out-of-pocket expenses at the time of the claim.

You have elected to purchase Howard's ***Standard Service Contract***. In the event a warranty issue arises with a covered product, Howard will, pursuant to the terms and conditions below, provide prompt on-site labor and expert assistance to you throughout the claims process, including initial troubleshooting and performance of diagnostic assessments, facilitating submission of the warranty claim to the manufacturer on your behalf, and uninstalling and/or reinstalling parts or products repaired or replaced by the manufacturer.

Terms and Conditions

1. This Standard Service Contract (this "Contract"), entered into between Howard and Hendry County, covers the products identified in the Howard Quote # __1132104__ attached hereto (the "Covered Products"). Upon receipt of Customer's payment in full of the agreed-upon price, Howard will, during the term of this Contract, perform the following services:

   a) Assist the Customer with troubleshooting and/or perform diagnostic assessments related to performance issues which may arise with respect to the Covered Products;
   b) In the event it is determined that a warranty claim should be submitted to the manufacturer for Covered Products, Howard will, on the Customer's behalf, facilitate the submission claim to the manufacturer and will assist with communicating and working with the manufacturer throughout the process, including assistance with gathering and submitting information or documentation required by the manufacturer to process the claim;
   c) If the Customer's claim is accepted by the manufacturer, Howard will uninstall or disassemble the warranted Covered Product as may be necessary and will also provide assistance in packaging such equipment for return, or pickup, per the manufacturer's reasonable requirements in connection with the repair or replacement of such equipment under the terms of the manufacturer's warranty;
   d) Then, upon the Customer's receipt of repaired or replaced equipment from the manufacturer, Howard will handle the installation or re-installation of such parts or products.

2. The term of this Contract is one (1) year, beginning on the date of Howard's installation of the Covered Products. Requests to extend the term of or renew this Contract beyond one year will be considered and negotiated on a case-by-case basis. If you are interested in extending the term, please contact your Howard representative to discuss available options.

3. This Contract is an agreement to provide labor to the Customer in the event a warranty issue arises on a Covered Product during the term hereof; it does not cover any costs of packaging or shipping materials, freight or delivery charges, related equipment or any other costs or expenses. Howard makes no representation or guarantee as to whether any manufacturer of a Covered Product will accept the Customer's warranty claim or perform under its warranty or otherwise.

4. Every reasonable effort will be made to schedule the services described herein as soon as possible and no later than seven (7) business days from the date of the request, but exact response times may be subject to the availability of

DocuSign Envelope ID: F976C5A8-DF8B-4C3B-81BD-D65DB88DBD16

Howard personnel. Customer must cooperate with and provide assistance to Howard personnel and access to Customer's facility as Howard may reasonably request for the purposes of performing the services.

5. This Contract is not a product warranty or an extension or upgrade of the manufacturer's product warranty. Howard does not warrant non-Howard branded products. Customer should refer to the manufacturer's warranty on the Covered Product for information about its coverage and terms, including Howard's standard Limited Warranty as to Howard branded products.

6. Howard warrants to the Customer that it shall perform the services in a professional and workmanlike manner in accordance with generally recognized industry standards for similar services. In the event of a breach of the foregoing warranty, Howard will, in its sole discretion, either: (i) re-perform such services; or (ii) credit or refund the price of the services at the pro rata contract price. THE REMEDIES SET FORTH IN THE PRECEDING SENTENCE SHALL BE HOWARD'S ENTIRE LIABILITY FOR ANY BREACH OF THE SAID WARRANTY.

7. The Customer shall be responsible for all sales, use and excise taxes, and any other similar taxes, duties and charges of any kind imposed by any governmental entity on any amounts payable by the Customer hereunder.

8. Howard is an independent contractor, and nothing contained in this Contract shall be construed as creating any agency, partnership, joint venture, employment or fiduciary relationship between the parties.

For example, the Contractor must comply with section 274A of the Immigration and Nationality Act, the Americans with Disabilities Act, Health Insurance Portability and Accountability Act, if applicable, and all prohibitions against discrimination on the basis of race, religion, sex, creed, national origin, handicap, marital status, or veteran's status. The provisions of subparagraphs 287.058(1)(a)-(c), and (g), F.S., are hereby incorporated by reference.

5.2 Dispute Resolution, Governing Law, and Venue.
Any dispute concerning performance of the Contract shall be decided by the Department's designated Contract Manager, who will reduce the decision to writing and serve a copy on the Contractor. The decision of the Contract Manager shall be final and conclusive. Exhaustion of this administrative remedy is an absolute condition precedent to the Contractor's ability to pursue legal action related to the Contract or any other form of dispute resolution. The laws of the State of Florida govern the Contract. The Parties submit to the jurisdiction of the courts of the State of Florida exclusively for any legal action related to the Contract. Further, the Contractor hereby waives all privileges and rights relating to venue it may have under Chapter 47, F.S., and all such venue privileges and rights it may have under any other statute, rule, or case law, including, but not limited to, those based on convenience. The Contractor hereby submits to venue in the county chosen by the Department.

Consistent with Title XXXVI, F.S., the Contractor and any subcontractors that assert status, other than a sole proprietor, must provide the Department with conclusive evidence of a certificate of status, not subject to qualification, if a Florida business entity, or of a certificate of authorization if a foreign business entity.

The Contractor must notify the Department if it or any of its suppliers, subcontractors, or consultants have been placed on the Suspended Vendor List, Convicted Vendor List, or Discriminatory Vendor List during the term of the Contract.

5.5 Scrutinized Companies - Termination by the Department.
The Department may, at its option, terminate the Contract if the Contractor is found to have submitted a false certification as provided under section 287.135(5), F.S., or been placed on the Scrutinized Companies with Activities in Sudan List or the Scrutinized Companies with Activities in the Iran Petroleum Energy Sector List, or been engaged in business operations in Cuba or Syria, or to have been placed on the Scrutinized Companies that Boycott Israel List or is engaged in a boycott of Israel.

Pursuant to section 20.055(5), F.S., the Contractor understands and will comply with its duty to cooperate with the Inspector General in any investigation, audit, inspection, review, or hearing. Upon request of the Inspector General or any other authorized State official, the Contractor must provide any information the Inspector General deems relevant to the Contractor's integrity or responsibility. Such information may include, but will not be limited to, the Contractor's business or financial records, documents, or files of any type or form that refer to or relate to the Contract. The Contractor will retain such records for the longer of five years after the expiration of the Contract, or the period required by the General Records Schedules maintained by the Florida Department of State, at the Department of State’s Records Management website. The Contractor agrees to reimburse the State of Florida for the reasonable costs of investigation incurred by the Inspector General or other authorized State of Florida official for investigations of the Contractor's compliance with the terms of this or any other agreement between the Contractor and the State of Florida which results in the suspension or debarment of the Contractor. Such costs will include but will not be limited to: salaries of investigators, including overtime; travel and lodging expenses; and expert witness and documentary fees. The Contractor agrees to impose the same obligations to cooperate with the Inspector General and retain records on any subcontractors used to provide goods or services under the Contract.

6.2 Assignment.
The Contractor will not sell, assign, or transfer any of its rights, duties, or obligations under the Contract without the prior written consent of the Department. However, the Contractor may waive its right to receive payment and assign same upon notice to the Department. In the event of any assignment, the Contractor remains responsible for performance of the Contract, unless such responsibility is expressly waived by the Department. The Department may assign the Contract with prior written notice to the Contractor.

6.3 Independent Contractor.
The Contractor and its employees, agents, representatives, and subcontractors are independent contractors and not employees or agents of the State of Florida and are not entitled to State of Florida benefits. The Department and Customer will not be bound by any acts or conduct of the Contractor or its employees, agents, representatives, or subcontractors. The Contractor agrees to include this provision in all its subcontracts under the Contract.

6.4 Inspection and Acceptance of Commodities.

6.4.1 Risk of Loss.
Matters of inspection and acceptance are addressed in section 215.422, F.S. Until acceptance, risk of loss or damage will remain with the Contractor. The Contractor will be responsible for filing, processing, and collecting all damage claims. To assist the Contractor with damage claims, the Customer will: record any evidence of visible damage on all copies of the delivering carrier's bill of lading; report damages to the carrier and the Contractor; and provide the Contractor with a copy of the carrier's bill of lading and damage inspection report.

6.4.2 Rejected Commodities.
When a Customer rejects a commodity, Contractor will remove the commodity from the premises within ten (10) calendar days after notification of rejection, and the risk of loss will remain with the Contractor. Commodities not removed by the Contractor within ten (10) calendar days will be deemed abandoned by the Contractor, and the Customer will have the right to dispose of such commodities. Contractor will reimburse the Customer for costs and expenses incurred in storing or effecting removal or disposition of rejected commodities.

6.5 Safety Standards.
Performance of the Contract for all commodities or contractual services must comply with requirements of the Occupational Safety and Health Act and other applicable State of Florida and federal requirements.

6.7 Time is of the Essence.
Time is of the essence regarding every obligation of the Contractor under the Contract. Each obligation is deemed material, and a breach of any such obligation (including a breach resulting from untimely performance) is a material breach.

6.8 Waiver.
The delay or failure by the Department or the Customer to exercise or enforce any rights under the Contract will not constitute waiver of such rights.

6.9 Modification and Severability.
The Contract may only be modified by written agreement between the Department and the Contractor. Should a court determine any provision of the Contract is invalid, the remaining provisions will not be affected, and the rights and obligations of the Parties will be construed and enforced as if the Contract did not contain the provision held invalid.

6.10 Cooperative Purchasing.
Pursuant to their own governing laws, and subject to the agreement of the Contractor, governmental entities that are not Customers may make purchases under the terms and conditions contained herein, if agreed to by Contractor. Such purchases are independent of the Contract between the Department and the Contractor, and the Department is not a party to these transactions. Agencies seeking to make purchases under this Contract are required to follow the requirements of Rule 60A-1.045(5), F.A.C.

SECTION 7. LIABILITY AND INSURANCE.

7.1 Workers' Compensation Insurance.
The Contractor shall maintain workers' compensation insurance as required under the Florida Workers' Compensation Law or the workers' compensation law of another jurisdiction where applicable. The Contractor must require all subcontractors to similarly provide workers' compensation insurance for all of the latter's employees. In the event work is being performed by the Contractor under the Contract and any class of employees performing the work is not protected under Workers' Compensation statutes, the Contractor must provide, and cause each subcontractor to provide, adequate insurance satisfactory to the Department, for the protection of employees not otherwise protected.

7.2 General Liability Insurance.
The Contractor must secure and maintain Commercial General Liability Insurance, including bodily injury, property damage, products, personal and advertising injury, and completed operations. This insurance must provide coverage for all claims that may arise from performance of the Contract or completed operations, whether by the Contractor or anyone directly or indirectly employed by the Contractor. Such insurance must include the State of Florida as an additional insured for the entire length of the resulting contract. The Contractor is responsible for determining the minimum limits of liability necessary to provide reasonable financial protections to the Contractor and the State of Florida under the resulting contract.

7.3 Florida Authorized Insurers.

DocuSign Envelope ID: 061E60AF-F287-4B7D-BB93-CFE076604656

All insurance shall be with insurers authorized and eligible to transact the applicable line of insurance business in the State of Florida. The Contractor shall provide Certification(s) of Insurance evidencing that all appropriate coverage is in place and showing the Department to be an additional insured.

7.4 Performance Bond.
Unless otherwise prohibited by law, the Department may require the Contractor to furnish, without additional cost to the Department, a performance bond or irrevocable letter of credit or other form of security for the satisfactory performance of work hereunder. The Department shall determine the type and amount of security.

7.5 Indemnification.
To the extent permitted by Florida law, the Contractor agrees to indemnify, defend, and hold the Customer and the State of Florida, its officers, employees, and agents harmless from all fines, claims, assessments, suits, judgments, or damages, including consequential, special, indirect, and punitive damages, including court costs and attorney's fees, arising from or relating to violation or infringement of a trademark, copyright, patent, trade secret, or intellectual property right or out of any acts, actions, breaches, neglect, or omissions of the Contractor, its employees, agents, subcontractors, assignees, or delegates related to the Contract, as well as for any determination arising out of or related to the Contract that the Contractor or Contractor's employees, agents, subcontractors, assignees, or delegates are not independent contractors in relation to the Customer. The Contract does not constitute a waiver of sovereign immunity or consent by the Customer or the State of Florida or its subdivisions to suit by third parties. Without limiting this indemnification, the Customer may provide the Contractor (1) written notice of any action or threatened action, (2) the opportunity to take over and settle or defend any such action at Contractor's sole expense, and (3) assistance in defending the action at Contractor's sole expense.

7.6 Limitation of Liability.
Unless otherwise specifically enumerated in the Contract or in the purchase order, neither the Department nor the Customer shall be liable for special, indirect, punitive, or consequential damages, including lost data or records (unless the Contract or purchase order requires the Contractor to back-up data or records), even if the Department or Customer has been advised that such damages are possible. Neither the Department nor the Customer shall be liable for lost profits, lost revenue, or lost institutional operating savings. The Department or Customer may, in addition to other remedies available to them at law or equity and upon notice to the Contractor, retain such monies from amounts due Contractor as may be necessary to satisfy any claim for damages, penalties, costs, and the like asserted by or against them. The State may set off any liability or other obligation of the Contractor or its affiliates to the State against any payments due the Contractor under any contract with the State.

SECTION 8. PUBLIC RECORDS, TRADE SECRETS, DOCUMENT MANAGEMENT, AND INTELLECTUAL PROPERTY.

8.1 Public Records.

8.1.1 Termination of Contract.

DocuSign Envelope ID: 061E60AF-F287-4B7D-BB93-CFE076604656

The Department may terminate the Contract for refusal by the Contractor to comply with this section by not allowing access to all public records, as defined in Chapter 119, F. S., made or received by the Contractor in conjunction with the Contract.

8.1.2 Statutory Notice.
Pursuant to section 119.0701(2)(a), F.S., for contracts for services with a contractor acting on behalf of a public agency, as defined in section 119.011(2), F.S., the following applies:

IF THE CONTRACTOR HAS QUESTIONS REGARDING THE APPLICATION OF CHAPTER 119, FLORIDA STATUTES, TO THE CONTRACTOR'S DUTY TO PROVIDE PUBLIC RECORDS RELATING TO THIS CONTRACT, CONTACT THE CUSTODIAN OF PUBLIC RECORDS AT THE TELEPHONE NUMBER, EMAIL ADDRESS, AND MAILING ADDRESS PROVIDED IN THE RESULTING CONTRACT OR PURCHASE ORDER.

Pursuant to section 119.0701(2)(b), F.S., for contracts for services with a contractor acting on behalf of a public agency as defined in section 119.011(2), F.S., the Contractor shall:

(a) Keep and maintain public records required by the public agency to perform the service.
(b) Upon request from the public agency's custodian of public records, provide the public agency with a copy of the requested records or allow the records to be inspected or copied within a reasonable time at a cost that does not exceed the cost provided in Chapter 119, F.S., or as otherwise provided by law.
(c) Ensure that public records that are exempt or confidential and exempt from public records disclosure are not disclosed except as authorized by law for the duration of the Contract term and following the completion of the Contract if the Contractor does not transfer the records to the public agency.
(d) Upon completion of the Contract, transfer, at no cost, to the public agency all public records in possession of the Contractor or keep and maintain public records required by the public agency to perform the service. If the Contractor transfers all public records to the public agency upon completion of the Contract, the Contractor shall destroy any duplicate public records that are exempt or confidential and exempt from public records disclosure requirements. If the Contractor keeps and maintains public records upon completion of the Contract, the Contractor shall meet all applicable requirements for retaining public records. All records stored electronically must be provided to the public agency, upon request from the public agency's custodian of public records, in a format that is compatible with the information technology systems of the public agency.

8.2 Protection of Trade Secrets or Otherwise Confidential Information.

8.2.1 Contractor Designation of Trade Secrets or Otherwise Confidential Information.
If the Contractor considers any portion of materials to be trade secret under section 688.002 or 812.081, F.S., or otherwise confidential under Florida or federal law, the Contractor must clearly designate that portion of the materials as trade secret or otherwise confidential when submitted to the Department. The Contractor will be

responsible for responding to and resolving all claims for access to Contract-related materials it has designated trade secret or otherwise confidential.

8.2.2 Public Records Requests.
If the Department receives a public records request for materials designated by the Contractor as trade secret or otherwise confidential under Florida or federal law, the Contractor will be responsible for taking the appropriate legal action in response to the request. If the Contractor fails to take appropriate and timely action to protect the materials designated as trade secret or otherwise confidential, the Department will provide the materials to the requester.

8.2.3 Indemnification Related to Confidentiality of Materials.
The Contractor will protect, defend, indemnify, and hold harmless the Department for claims, costs, fines, and attorney's fees arising from or relating to its designation of materials as trade secret or otherwise confidential.

8.3 Document Management.
The Contractor must retain sufficient documentation to substantiate claims for payment under the Contract and all other records, electronic files, papers, and documents that were made in relation to this Contract. The Contractor must retain all documents related to the Contract for five (5) years after expiration of the Contract or, if longer, the period required by the General Records Schedules maintained by the Florida Department of State available at the Department of State's Records Management website.

8.4 Intellectual Property.

8.4.1 Ownership.
Unless specifically addressed otherwise in the Contract, the State of Florida shall be the owner of all intellectual property rights to all property created or developed in connection with the Contract.

8.4.2 Patentable Inventions or Discoveries.
Any inventions or discoveries developed in the course, or as a result, of services in connection with the Contract that are patentable pursuant to 35 U.S.C. § 101 are the sole property of the State of Florida. Contractor must inform the Customer of any inventions or discoveries developed or made through performance of the Contract, and such inventions or discoveries will be referred to the Florida Department of State for a determination on whether patent protection will be sought. The State of Florida will be the sole owner of all patents resulting from any invention or discovery made through performance of the Contract.

8.4.3 Copyrightable Works.
Contractor must notify the Department or State of Florida of any publications, artwork, or other copyrightable works developed in connection with the Contract. All copyrights created or developed through performance of the Contract are owned solely by the State of Florida.

DocuSign Envelope ID: 061E60AF-F287-4B7D-BB93-CFE076604656

The Contractor will maintain the security of State of Florida data including, but not limited to, maintaining a secure area around any displayed visible data and ensuring data is stored and secured when not in use. The Contractor and subcontractors will not perform any of the services from outside of the United States, and the Contractor will not allow any State of Florida data to be sent by any medium, transmitted, or accessed outside the United States due to Contractor's action or inaction. In the event of a security breach involving State of Florida data, the Contractor shall give notice to the Customer and the Department within one business day. "Security breach" for purposes of this section will refer to a confirmed event that compromises the confidentiality, integrity, or availability of data. Once a data breach has been contained, the Contractor must provide the Department with a post-incident report documenting all containment, eradication, and recovery measures taken. The Department reserves the right in its sole discretion to enlist a third party to audit Contractor's findings and produce an independent report, and the Contractor will fully cooperate with the third party. The Contractor will also comply with all HIPAA requirements and any other state and federal rules and regulations regarding security of information.

SECTION 10. GRATUITIES, LOBBYING, AND COMMUNICATIONS.

10.1 Gratuities.
The Contractor will not, in connection with this Contract, directly or indirectly (1) offer, give, or agree to give anything of value to anyone as consideration for any State of Florida officer's or employee's decision, opinion, recommendation, vote, other exercise of discretion, or violation of a known legal duty, or (2) offer, give, or agree to give to anyone anything of value for the benefit of, or at the direction or request of, any State of Florida officer or employee.

10.2 Lobbying.
In accordance with sections 11.062 and 216.347, F.S., Contract funds are not to be used for the purpose of lobbying the Legislature, the judicial branch, or the Department. Pursuant to section 287.058(6), F.S., the Contract does not prohibit the Contractor from lobbying the executive or legislative branch concerning the scope of services, performance, term, or compensation regarding the Contract after the Contract is executed and during the Contract term.

10.3 Communications.

10.3.1 Contractor Communication or Disclosure.
The Contractor shall not make any public statements, press releases, publicity releases, or other similar communications concerning the Contract or its subject matter or otherwise disclose or permit to be disclosed any of the data or other information obtained or furnished in compliance with the Contract, without first notifying the Customer's Contract Manager and securing the Customer's prior written consent.

10.3.2 Use of Customer Statements.

DocuSign Envelope ID: 061E60AF-F287-4B7D-BB93-CFE076604656

SECTION 11. CONTRACT MONITORING.

11.1 Performance Standards.
The Contractor agrees to perform all tasks and provide deliverables as set forth in the Contract. The Department and the Customer will be entitled at all times, upon request, to be advised as to the status of work being done by the Contractor and of the details thereof.

11.2 Performance Deficiencies and Financial Consequences of Non-Performance.

11.2.1 Proposal of Corrective Action Plan.
In addition to the processes set forth in the Contract (e.g., service level agreements), if the Department or Customer determines that there is a performance deficiency that requires correction by the Contractor, then the Department or Customer will notify the Contractor. The correction must be made within a time-frame specified by the Department or Customer. The Contractor must provide the Department or Customer with a corrective action plan describing how the Contractor will address all performance deficiencies identified by the Department or Customer.

11.2.2 Retainage for Unacceptable Corrective Action Plan or Plan Failure.
If the corrective action plan is unacceptable to the Department or Customer, or implementation of the plan fails to remedy the performance deficiencies, the Department or Customer will retain ten percent (10%) of the total invoice amount. The retainage will be withheld until the Contractor resolves the performance deficiencies. If the performance deficiencies are resolved, the Contractor may invoice the Department or Customer for the retained amount. If the Contractor fails to resolve the performance deficiencies, the retained amount will be forfeited to compensate the Department or Customer for the performance deficiencies.

11.3 Performance Delay.

11.3.1 Notification.
The Contractor will promptly notify the Department or Customer upon becoming aware of any circumstances that may reasonably be expected to jeopardize the timely and successful completion (or delivery) of any commodity or contractual service. The Contractor will use commercially reasonable efforts to avoid or minimize any delays in performance and will inform the Department or the Customer of the steps the Contractor is taking or will take to do so, and the projected actual completion (or delivery) time. If the Contractor believes a delay in performance by the Department or the Customer has caused or will cause the Contractor to be unable to perform its obligations on time, the Contractor will promptly so notify the Department and use commercially reasonable efforts to perform its obligations on time notwithstanding the Department’s delay.

11.3.2 Liquidated Damages.
The Contractor acknowledges that delayed performance will damage the DepartmentCustomer, but by their nature such damages are difficult to ascertain. Accordingly, the liquidated damages provisions stated in the Contract documents will apply. Liquidated damages are not intended to be a penalty and are solely intended to compensate for damages.

11.4 Force Majeure, Notice of Delay, and No Damages for Delay.

DocuSign Envelope ID: 061E60AF-F287-4B7D-BB93-CFE076604656

The Contractor will not be responsible for delay resulting from its failure to perform if neither the fault nor the negligence of the Contractor or its employees or agents contributed to the delay, and the delay is due directly to fire, explosion, earthquake, windstorm, flood, radioactive or toxic chemical hazard, war, military hostilities, terrorism, civil emergency, embargo, riot, strike, violent civil unrest, or other similar cause wholly beyond the Contractor's reasonable control, or for any of the foregoing that affect subcontractors or suppliers if no alternate source of supply is available to the Contractor. The foregoing does not excuse delay which could have been avoided if the Contractor implemented any risk mitigation required by the Contract. In case of any delay the Contractor believes is excusable, the Contractor will notify the Department in writing of the delay or potential delay and describe the cause of the delay either (1) within ten (10) calendar days after the cause that created or will create the delay first arose, if the Contractor could reasonably foresee that a delay could occur as a result, or (2) if delay is not reasonably foreseeable, within five (5) calendar days after the date the Contractor first had reason to believe that a delay could result. The foregoing will constitute the Contractor's sole remedy or excuse with respect to delay. Providing notice in strict accordance with this paragraph is a condition precedent to such remedy. No claim for damages will be asserted by the Contractor. The Contractor will not be entitled to an increase in the Contract price or payment of any kind from the Department for direct, indirect, consequential, impact or other costs, expenses or damages, including but not limited to costs of acceleration or inefficiency, arising because of delay, disruption, interference, or hindrance from any cause whatsoever. If performance is suspended or delayed, in whole or in part, due to any of the causes described in this paragraph, after the causes have ceased to exist the Contractor will perform at no increased cost, unless the Department determines, in its sole discretion, that the delay will significantly impair the value of the Contract to the State of Florida or to Customers, in which case the Department may (1) accept allocated performance or deliveries from the Contractor, provided that the Contractor grants preferential treatment to Customers and the Department with respect to commodities or contractual services subjected to allocation, or (2) purchase from other sources (without recourse to and by the Contractor for the related costs and expenses) to replace all or part of the commodity or contractual services that are the subject of the delay, which purchases may be deducted from the Contract quantity, or (3) terminate the Contract in whole or in part.

SECTION 12. CONTRACT AUDITS.

12.1 Performance or Compliance Audits.
The Department may conduct or have conducted performance and/or compliance audits of the Contractor and subcontractors as determined by the Department. The Department may conduct an audit and review all the Contractor's and subcontractors' data and records that directly relate to the Contract. To the extent necessary to verify the Contractor's fees and claims for payment under the Contract, the Contractor's agreements or contracts with subcontractors, partners, or agents of the Contractor, pertaining to the Contract, may be inspected by the Department upon fifteen (15) calendar days' notice, during normal working hours and in accordance with the Contractor's facility access procedures where facility access is required. Release statements from its subcontractors, partners, or agents are not required for the Department or its designee to conduct compliance and performance audits on any of the Contractor's contracts relating to this Contract. The Inspector General, in accordance with section 5.6, the State of Florida's Chief Financial Officer, the Office of the Auditor General also have authority to perform audits and inspections.

DocuSign Envelope ID: 061E60AF-F287-4B7D-BB93-CFE076604656

12.2 Payment Audit.
Records of costs incurred under terms of the Contract will be maintained in accordance with section 8.3 of these Special Contract Conditions. Records of costs incurred will include the Contractor's general accounting records, together with supporting documents and records of the Contractor and all subcontractors performing work, and all other records of the Contractor and subcontractors considered necessary by the Department, the State of Florida's Chief Financial Officer, or the Office of the Auditor General.

SECTION 13. BACKGROUND SCREENING AND SECURITY.

13.1 Background Check.
The Department or Customer may require the Contractor to conduct background checks of its employees, agents, representatives, and subcontractors as directed by the Department or Customer. The cost of the background checks will be borne by the Contractor. The Department or Customer may require the Contractor to exclude the Contractor's employees, agents, representatives, or subcontractors based on the background check results. In addition, the Contractor must ensure that all persons have a responsibility to self-report to the Contractor within three (3) calendar days any arrest for any disqualifying offense. The Contractor must notify the Contract Manager within twenty-four (24) hours of all details concerning any reported arrest. Upon the request of the Department or Customer, the Contractor will re-screen any of its employees, agents, representatives, and subcontractors during the term of the Contract.

13.2 E-Verify.
The Contractor must use the U.S. Department of Homeland Security's E-Verify system to verify the employment eligibility of all new employees hired during the term of the Contract for the services specified in the Contract. The Contractor must also include a requirement in subcontracts that the subcontractor must utilize the E-Verify system to verify the employment eligibility of all new employees hired by the subcontractor during the Contract term. In order to implement this provision, the Contractor must provide a copy of its DHS Memorandum of Understanding (MOU) to the Contract Manager within five (5) calendar days of Contract execution. If the Contractor is not enrolled in DHS E-Verify System, it will do so within five (5) calendar days of notice of Contract award and provide the Contract Manager a copy of its MOU within five (5) calendar days of Contract execution. The link to E-Verify is https://www.uscis.gov/e-verify. Upon each Contractor or subcontractor new hire, the Contractor must provide a statement within five (5) calendar days to the Contract Manager identifying the new hire with its E-Verify case number.

13.3 Disqualifying Offenses.
If at any time it is determined that a person has been found guilty of a misdemeanor or felony offense as a result of a trial or has entered a plea of guilty or nolo contendere, regardless of whether adjudication was withheld, within the last six (6) years from the date of the court's determination for the crimes listed below, or their equivalent in any jurisdiction, the Contractor is required to immediately remove that person from any position with access to State of Florida data or directly performing services under the Contract. The disqualifying offenses are as follows:

(a) Computer related crimes;
(b) Information technology crimes;

(c) Fraudulent practices;
(d) False pretenses;
(e) Frauds;
(f) Credit card crimes;
(g) Forgery;
(h) Counterfeiting;
(i) Violations involving checks or drafts;
(j) Misuse of medical or personnel records; and
(k) Felony theft.

13.4 Confidentiality.
The Contractor must maintain confidentiality of all confidential data, files, and records related to the commodities or contractual services provided pursuant to the Contract and must comply with all state and federal laws, including, but not limited to sections 381.004, 384.29, 392.65, and 456.057, F.S. The Contractor's confidentiality procedures must be consistent with the most recent version of the Department security policies, protocols, and procedures. The Contractor must also comply with any applicable professional standards with respect to confidentiality of information.

SECTION 14. WARRANTY OF CONTRACTOR'S ABILITY TO PERFORM.

The Contractor warrants that, to the best of its knowledge, there is no pending or threatened action, proceeding, or investigation, or any other legal or financial condition, that would in any way prohibit, restrain, or diminish the Contractor's ability to satisfy its Contract obligations. 2020

2191

Safco® is excited to provide you with a variety of workspace solutions that will help make your workday easier, more comfortable and hopefully a little more fun. We're ready with an entire book of Quick Ship options and a robust service offering that will make us easier to do business with than ever before. So, read on and let us tell, and then show you how we can help with all your workspace needs.

Our Locations

It's all about location. And lucky for you we have several of them. Our distribution centers, manufacturing facilities and showrooms create a network built to provide a fast and easy customer experience.

Distribution Centers (DC's)

Our DC's give us the ability to ship our most popular Quick Ship products from a location near you and do it faster than you can say "Wood Adjustable Corrugated Literature Organizer." Need to know exactly where that aforementioned organizer is shipping from? Simply contact our expert Customer Care team for a speedy answer to this and all of your Safco questions – even the ones you didn't know you had. Safco DC's are located in:

Windsor, VA
Riverside, CA
Brooklyn Park, MN

Showrooms

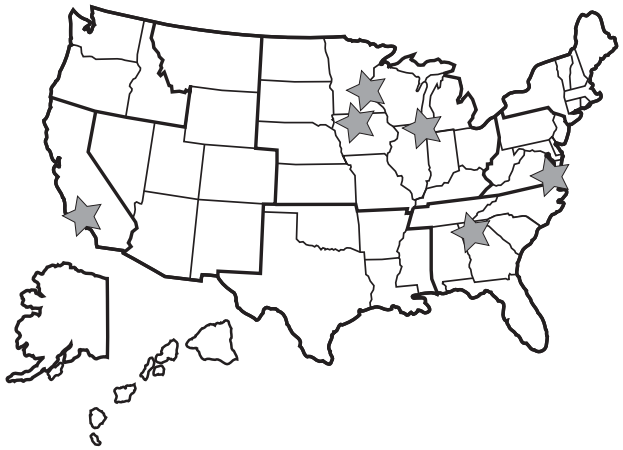
If you would like to see our products in-person and possibly take a swivel chair for a spin, we have three showroom locations filled with a variety of our products. If one of those locations doesn't fit into your travel schedule, simply let us know and we can direct you to one of our Rep Group partners' showrooms. Safco Showrooms are located in:

Brooklyn Park, MN
Milford, IA
Chicago, IL (Merchandise Mart)

Manufacturing Facilities

Safco is jumping for joy at opening our new, state-of-the-art manufacturing facility in Milford, IA. This new plant will allow us to build our legacy products more effectively and enable new product design for the future and beyond! Our Kennesaw, GA facility is a light manufacturing plant where all of our configured and custom upholstery seating is produced and our are built. Safco Manufacturing Facilities are located in:

Milford, IA
Kennesaw, GA



Headquarters

Last, but certainly not least, is our headquarters in New Hope, MN. This is where your orders get placed, calls and emails get answered, products designed, and marketing materials (like this fine copy you're reading and this catalog) are produced. It's the place Safco calls home and where we will be waiting for your call should you need our assistance.

Complimentary Space Planning Services

Did someone say FREE? Yes, that's right – Safco offers Space Planning free of charge to our customers. Our team of space planning experts provide workspace and storage solution designs that include our entire product offering, right down to every last mesh organizer. Plus, our design renderings showcase how Safco products will fit into your space and bring in color and textures so you can see what your space will look like – making guesswork a thing of the past.

Not only do we have our entire catalog available for space planning, but our designers are experts in our highly configurable storage and filing solutions. If you need Mobile 1000, Mobile Lite, 4-post shelving, Arc™ Rotary Files, heavy-duty shelving, Flip 'n File cabinets, File Harbor cabinets or Kwik Track systems for your space our team will specify exactly what you need and what the space requires – all we ask is that you follow the simple steps below so we can make your dream storage solution come true.

- Fill out our Filing Survey located at www.safcoproducts.com under "Space Planning Services"
- The survey takes just a few minutes and will provide our space planners with the necessary information to complete a quote and design layout
- Email your room drawings in AutoCAD or pdf format, along with the filing survey, to spaceplanning@safcoproducts.com

If you have any space planning questions, call us at 800-735-6869.

Installation Services

Now you need someone to install all that great Safco product. We have you covered there as well. Go to our website and select "Find a Certified Installer" to find the best option for all your Safco installation needs. But we don't stop there. Our in-house Installation Manager will help with any questions to ensure your project goes smoothly from the time your product arrives until every last piece of hardware is in place.

48 Hour Quick Ship

Inquiring minds want to know: What exactly is 48 Hour Quick Ship? 48 Hour Quick Ship means that anything in this book will ship from one of our DC's within 48 hours of a complete Purchase Order being sent. Now you may be wondering what a complete Purchase Order means; It simply means it has all the information we need to submit an order such as color and feature choices, quantity, shipping information, etc. are present and accounted for.

- All dimensions shown in this publication are nominal.
- All illustrations and specifications in this publication are based on the latest product information available at date of publication.
- **Prices are subject to change without notice.** All orders are subject to prices in effect at the time of order.
- Safco Limited Lifetime Warranty applies unless otherwise noted.

DEFINITION:

Special Pricing is an additional discount from standard net pricing granted for a specific customer to be used on an identified project in a defined period of time, generally 90 days. Unless previously approved by Safco®, it will be for one purchase order and shipping to one location in a single shipment.

PURPOSE:

Special Pricing is extended to our Dealers at the sole discretion of Safco primarily for the purposes of improving our price position in competitive situations. It is understood that the basis for Special Pricing consideration is information that is gathered from our Dealers and Sales Representatives as well as our historical data. To this extent, it is critical that the information supplied by our Dealers and Sales Representatives is complete, accurate and timely.

GUIDELINES:

Requests will be considered on competitive projects of $20,000 list and above. Discretion will be employed for high quantities of lower list price items, or with a specific strategic objective in mind. Safco reserves the right to deny or award requests for Special Pricing at any time to any Dealer.

PROCEDURE:

Safco processes Special Pricing requests on a first in, first out basis. Incomplete data will prevent us from processing the request and it will be returned to the Dealer or Sales Representative for completion prior to processing. We strive to provide fast responses to requests, and generally do so within 24 hours. Please allow more time, if possible. To request the Special Pricing Request Form, you may email your request to bids@safcoproducts.com or contact your Sales Representative.

The Special Pricing Request Form may be submitted electronically by emailing to bids@safcoproducts.com, or faxed to us at the number on the form. Electronic submission is preferred whenever possible. In special circumstances such as when traveling, computer breakdown, etc., we will process requests via phone, provided all information is complete, in order to provide you the best service possible.

EXCLUSIONS:

Special Pricing cannot be granted to Dealers solely for the purposes of improving margins in non-competitive circumstances, nor to place orders for stocked products. Once you have received the purchase order from your customer, Special Pricing requests for that project can no longer be processed. We reserve the right to request a copy of the purchase order from your customer for the purposes of confirming integrity of the process.

By requesting Special Pricing, Dealers and Sales Representatives confirm that they intend to, and will make reasonable efforts to sell the Safco products listed in the Special Pricing request to the named customer. If a Dealer or Sales Representative obtains Special Pricing for the purpose of competitively submitting an alternative competitive product to their customer, Special Pricing requests for that Dealer will be suspended indefinitely at Safco's sole discretion.

ORDER SUBMISSION:

In order for Special Pricing to be applied to the appropriate order, the order must reference the Bid Number supplied by Safco at the time of order placement. Failure to include the bid number will prevent Safco order entry from placing your order with the appropriate Special Pricing discount applied; standard discounts will then be used. Credits cannot be issued after Safco order entry has entered your order.

SPIRIT OF COOPERATION:

Safco appreciates the opportunity to partner with our Dealers and Sales Representatives in order to enjoy mutual business. It is our pledge to you to make every interaction as productive, fair, and enjoyable as possible. We sincerely appreciate your business and look forward to the many opportunities to work together in the future.

Buyer is responsible for freight to and from factory on all warranty claims. Any description of the goods sold hereunder, including any reference to Buyer's specifications and any description in catalogs, circulars and other written or digital material published by Safco is for the sole purpose of identifying goods and shall not create an express or implied warranty that the goods shall conform to such description.

THERE ARE NO OTHER WARRANTIES, AND SAFCO DISCLAIMS ALL IMPLIED WARRANTIES INCLUDING WARRANTIES OF MERCHANTABILITY, FITNESS FOR A PARTICULAR PURPOSE AND FREEDOM FROM PATENT INFRINGEMENT. NO AGENT, EMPLOYEE OR REPRESENTATIVE OF SAFCO HAS ANY AUTHORITY TO BIND SAFCO TO ANY AFFIRMATION, REPRESENTATION OR WARRANTY EXCEPT AS STATED HEREIN.

SAFCO SHALL HAVE NO LIABILITY FOR INDIRECT, INCIDENTAL, CONSEQUENTIAL OR SPECIAL DAMAGES OF ANY KIND. THESE LIMITATIONS ARE AGREED ALLOCATIONS OF RISK. UNDER NO CIRCUMSTANCES SHALL SAFCO'S LIABILITY WITH REGARD TO THE SALE OR USE OF THE PRODUCTS EXCEED THE PURCHASE PRICE PAID BY THE BUYER FOR THE PRODUCTS. TERMS AND CONDITIONS OF THIS WARRANTY ARE SUBJECT TO CHANGE WITHOUT NOTICE.

Back reclines at a 2-to-1 ratio to seat angle. Allows user to recline while keeping seat cushion relatively level to floor (White dot indicates pivot point).

Tilt Tension

Controls rate and ease with which chair reclines to different weight and strength of users.

Tilt Lock

Locks tilt function when chair is in upright position.

Posture Lock

Back angle adjusts independently of seat, and can be locked in an infinite number of positions within a fixed range.

Multi-Task Control

Adjusts seat and back angles with a single lever (infinite number of positions within a fixed range).

Asynchronous Control

Three levers modify:

- Angle of back relative to seat
- Tilt (free float or infinite locking within a fixed range)
- Forward tilt (for keyboard intensive applications)

Dual-Clutch Posture Control

Adjusts seat and back angles independently with a two levers for infinite number of positions within a fixed range (White dot indicates pivot point).

Variable Synchro-Tilt

PNEUMATIC SEAT HEIGHT ADJUSTMENT:

Quick and easy adjustment regulates height of chair relative to the floor.

- Properly adjusted, may provide optimum, balanced support for lower back, buttocks & thighs
- May encourage appropriate blood circulation to legs and feet
- May eliminate pressure points to popliteal area behind the knees

BACK HEIGHT ADJUSTMENT:

Simple lift motion positions lumbar support within a limited range of height adjustment to potentially help support a healthy posture and alleviate back stress.

- Properly positioned lumbar support provides support to the lower back, which may help the spine maintain a healthy curve when seated, potentially alleviating stress to the vertebrae

SEAT DEPTH ADJUSTMENT:

Positions chair back relative to seat, which may reduce pressure on the buttocks and thighs for both taller and shorter users.

- Properly adjusted, Seat Depth may help users maintain proper back support, while distributing their weight evenly across the seat cushion

SEAT GLIDE MECHANISM:

Seat cushion travels forward and back, then locks into position

- Properly adjusted, Seat Glide Mechanism may help users maintain proper back support, while minimizing pressure to the popliteal area behind the knees

360° SWIVEL:

Chair rotates a full 360° in either direction for ease of motion. Standard on every task chair.

- May allow user to access a variety of adjacent work areas without standing up from the chair
- The greater the amount of body movement, the more the user may benefit from increased blood flow to the spine and extremities, as well as the redistribution of pressure points during the workday

TILT:

Pivot point located directly above center of chair base (dot indicates pivot point).

- Supports a reclined posture
- May allow for a beneficial rocking motion (movement) during the workday
- The greater the amount of body movement, the more the user may benefit from increased circulation and redistribution of pressure points during the workday

MID-RANGE KNEE TILT:

Pivot point located slightly ahead of center of chair base (dot indicates pivot point).
May aid user in keeping feet flat on floor while chair reclines.

- The front edge of the seat stays closer to the floor - this may allow the feet to remain relatively flat on the floor while users enjoy a relaxed position for correct posture
- Because gravity works with the user, the chair may have a beneficial rocking motion (movement)
- Body movement may create an increase in circulation and redistribution of pressure points during the workday

KNEE TILT:

Pivot point located near front edge of chair (dot indicates pivot point).

- May aid user in keeping feet flat on floor while chair reclines for correct ergonomic posture

SYNCHRONIZED KNEE TILT:

Back reclines at a 2-to-1 ratio to seat angle. Virtual pivot point located near front edge of chair seat (dot indicates pivot point).

- The front edge of the seat stays closer to the floor - this may allow the feet to remain relatively flat on the floor while the user enjoys a relaxed position
- The synchro-tilt motion opens the angle between torso and thigh, which may improve circulation to the legs and provide a more comfortable posture
- The greater the amount of body movement, the more the user may benefit from increased circulation and redistribution of pressure points during the workday

DUAL-ACTION SYNCHRO-TILT:

Back reclines at a 2-to-1 ratio to seat angle. Allows user to recline while keeping seat cushion relatively level to floor (dot indicates pivot point).

- Front edge of the seat stays closer to the floor - this allows the feet to remain relatively flat on the floor while the user enjoys a relaxed posture for correct ergonomic posture
- Synchro-tilt motion opens the angle of the torso, which may improve circulation to the legs and provide better spinal alignment
- Potentially increases circulation and redistributes pressure points during the workday from body movement

TILT TENSION:

Controls the rate and ease with which chair reclines to different weights and strengths of users.

- Enjoyable "rocking" sensation
- Body movement may create an increase in circulation and redistribution of pressure points during the workday

TILT LOCK:

Temporarily locks out tilt function when chair is in upright position.

- Allows user to sit in upright posture for keyboard use, while providing the option to recline when desired

POSTURE LOCK:

Back angle adjusts independently of seat, and can be locked in an infinite number of positions within a limited range.

- Supports a range of reclined postures for ergonomic positioning while performing a number of tasks

MULTI-TASK CONTROL TILT (MULTI-TASK TILT CONTROL):

Adjusts seat and back angles with a single lever (infinite number of positions within a limited range), supporting a range of healthy postures

ASYNCHRONOUS CONTROL:

Three levers modify:

1. Angle of back relative to seat
2. Recline (free float or infinite locking within a fixed range)
3. Forward seat tilt (for keyboard intensive applications)

- Helps support a wide range of movement and may help spinal alignment and weight distribution.
- May help alleviate pressure points and encourage better circulation

DUAL-CLUTCH POSTURE CONTROL:

Adjusts seat and back angles independently with two levers for infinite number of positions within a limited range (dot indicates pivot point).

- Accommodates users of differing size in multi-shift environments

VARIABLE SYNCHRO-TILT:

Back reclines at a 2-to-1 ratio to seat. Chair can recline freely, or lock in five positions. Forward angle control provides an extra 6° in range of motion.

INVERSE SYNCHRO-TILT:

With automatic tension control operation for potentially better circulation. Zero front rise control may help keep feet on the floor when reclining. Tilt lever controls range of motion.

- The synchro-tilt motion opens the included angle between torso and thigh, which may improve circulation to the legs and provide a more comfortable posture
- Helps support a wide range of movement and may help spinal alignment and weight distribution
- May alleviate pressure points and encourage circulation from body movement

INTEGRAL LUMBAR SUPPORT:

Easily adjusts to enhance comfort.

- Helps support lower back and the natural curve of the spine

CONFIGURATION GUIDE

Configuration Guide for Mixed Media Applications

Media	Description	Clearance Space	Upright Space Required
	Letter/Legal Side Tab	9 3/4"	10 1/2"
	Letter/Legal Standard Top Tab, 1/3 cut	11 1/4"	12"
	3-Ring Binders	12 3/4"	13 1/2"

To determine the height of a unit with media not listed above, first determine the height of the media and add 3/4". Then, round that figure up to the next number divisible by 1 1/2" (because the uprights are slotted on 1 1/2" centers), then multiply that number by the number of tiers desired. Then add 1 1/2" for space that is allotted for the reference shelf. Lastly, add 3/4" for the canopy.

How to order Security Shade for a mobile system:

First, determine the appropriate type of mobile system you are using, then select the code next to your system in parentheses:
- Mobile 1000 (1000)
- Mobile Lite (ML)
- 4-Post on Kwik-Track (KT)

Next, add the code at the end of the appropriate Security Shade model number.

Example: If you have a 36" wide, 7-tier, 4-Post shelving on Kwik-Track, the appropriate model number would be SS3676KT.

Open-Back Sorters

Open-Back Sorters are typically used where mail is passed through – sorted on one side and collected by the recipient on the other.

- All sorters are 15" deep with 14" deep sorting shelves. Adjust on ½"H increments
- Preconfigured models, designated by the letter "C" are available, or build-your-own by specifying empty sorter designated by the letter "E", 12" deep shelving available in the "build-your-own" format only and adding components on pages 371-373
- For smoked Plexiglas, add 10% of list and an "S" suffix to standard Plexiglas door sorter, ie SN4824EPS
- Pricing below is for sorters with and without doors

- For assistance with custom Mailflow Systems configuration contact Space Planning service at spaceplanning@safcoproducts.com, see page 279 for more detail

Mailflow Systems® - Elevated Open-Back Sorters

Open-Back Sorters are typically used where mail is passed through – sorted on one side and collected by the recipient on the other

- All sorters are 15" deep with 14" deep sorting shelves. Adjust on 1/2"H increments
- Preconfigured models, designated by the letter **"C"** are available, or build-your-own by specifying empty sorter designated by the letter **"E"** and adding components on pages 371-373
- For smoked Plexiglas, add 10% of list and an "S" suffix to standard Plexiglas door sorter, ie SN4833ELPS
- Elevated sorters offer more workspace, by raising the sorter off the work area
- Pricing below is for sorters with and without doors

- For assistance with custom Mailflow Systems configuration contact Space Planning service at spaceplanning@safcoproducts.com, see page 279 for more detail

HOW TO SPECIFY

Start with base model number for work surfaces or peninsula and **SELECT ONE CODE FROM EACH OF THE OPTIONS** to complete your final model number for ordering:

Select	Option 1	Option 2	Option 3
MODEL NUMBER (ie., 3403030)	**Thermally-Fused Laminate** **No suffix**	**High Pressure Laminate** **L** = HPL Laminate	**ESD Laminate** **LE** = ESD Laminate

The final model number for a surface with the base model number of 3403030 with the ESD Laminate option would be 3403030LE.
