

Rental Permitting and Inspection Program

If the Rental Permitting and Inspection Program is moving forward, the following issues need to be determined for inclusion in the ordinance.

1. Opt In for Small Cities
2. Exception/variance process for certain properties (historic, unique architecture, etc.)
3. Time frame for roll-out
 - Program for assisting landlords with energy upgrades (Affordable Housing Trust Fund)
4. Budget
 - Current estimates for unincorporated County
 - How to account for municipalities if they “opt in”
 - Additional expense for outsourcing energy audits
