- 1.3 Please provide packaging for all items.

## **2.0 DESCRIPTION OF GOODS AND SERVICES**

- 2.1 Each item includes specifications and unit size; some include a manufacturer name and part number. Bidders must fill in the brand name and part number where indicated, as well as the packaging and price, even if bidding the same item/unit size specified.
- 2.2 “NO SUB” means NO Substitution of the specified item is acceptable; and if the Bidder cannot provide the exact product and exact packaging specified, “N/A” should be inserted in the price line. Including a bid price for an alternate product in this case will be considered non-responsive and not be considered.
- 2.3 Any item not specified as “NO SUB” allows Bidder to propose a generic or other substitute in accordance with Section 16.0. A commodity which meets the specifications given, but is manufactured by another firm may be bid. However, Bidders must fill in the Packaging (e.g.,#BOX), Brand/Part Number and Price where indicated. To confirm equivalency, the Bidder must be prepared to provide samples and/or detailed specification sheets in a timely manner, but only if requested.
- 2.4 Bidders must complete and submit the description, packaging and pricing of their product on a copy of excel spreadsheet. The Bidder must insert the price for the packaging specified in the bid description (e.g., \$ per box of 12); otherwise, that item will be considered non-responsive, and thus will not be considered for award.
- 2.5 The products to be ordered are described on the pages of the excel spreadsheet.
- 2.6 Any quantities indicated herein are only estimated and the County reserves the option to increase/and or decrease quantities, or delete items as required.

## **3.0 SUBSTITUTIONS**

- 3.1 Where the specification indicates “or Equal” the Bidder may propose a substitute by indicating the brand name, part number and packaging. However, as specified in General Terms, Section 16.0, the Bidder is responsible to prove equivalency. Documentation and/or samples must be supplied upon request within 4 days. In the event that the Bidder is awarded the equivalent item, but it is later determined that the item does not meet required standards, in the judgment of the County, the Bidder must bear all costs for return of such goods, and the item will be procured from the next qualified bidder.

#### **4.0 DELIVERY**

- 4.1 Delivery will be F.O.B. ~~Destination~~-Origin to the Fire/Rescue Central Supply Warehouse in Gainesville, Florida, or other locations within Alachua County, Florida. No minimum order will be required.
- 4.2 Delivery is required within 14 calendar days of receipt of order. In the event the product is not available in that period, the vendor shall contact the Purchasing Agent to advise when the delivery can be expected. If the delay in delivery is not acceptable, the County at its option may seek the product from another supplier. Excessive or repeated delay in deliveries may result in damages or termination of the agreement for all products awarded to that Vendor, as provided for in the General Terms and Conditions.
- 4.3 Prices bid should include shipping and handling costs.

#### **5.0 AWARD**

- 5.1 The County reserves the right to award multiple contracts for the items specified. In order to receive a contract, a bidder must qualify for award of at least five (5) items.

#### **6.0 ANNUAL PRICE ADJUSTMENTS AND/OR CHANGES**

- 6.1 The County may consider price adjustments, after initial contract term, once in a 12-month period, based solely upon manufacturer price increases/decreases. Successful Bidder shall provide to the County a written request for any such manufacturer increases/decreases. Such requests shall be addressed to the Issuing Office and shall be accompanied by written verifications of said price increases issued by the manufacturer. A minimum thirty-(30)-day advance notice period is required for such requests. Requests for price increases adjustments are subject to the review and approval of the County Procurement Agent. Successful Bidder shall apply and implement immediately upon notification from manufacturer any and all price decreases for items included under any contract resulting from this Invitation to Bid.
- 6.2 Any increase in cost shall not increase by a greater percentage than the percentage change in the Consumer Price Index of the U.S. City Consumer Price Index for Urban Consumers published by the United States Department of Labor during the previous twelve months or 5% whichever is lower.
- 6.3 Bidder must give the County advance notice of any changes in product.

## **QUESTIONS & ANSWERS**

Q #: The "No Sub" items listed in the bid, I see that there are brand names such as "Curaplex" and "Quadmed". These brands are private labels for specific vendors. Is it possible to sub for these items?

**A #1: Submit samples, if the quality meets or exceeds the listed product substitutions could be allowed on those items.**

Q #2: Is it possible on the items that are "no sub" that have been discontinued to sub these items with the manufacturers recommended substitution as long as these items are noted?

**A #2: Yes, note the manufactures recommended replacement.**

**NOTE: You should acknowledge receipt of this addendum on your Bid Form.**

**End of Addendum # 3**

Sincerely,

RE: Addendum #1  
Bid 21-13 Annual Medical Supplies

Dear Sir/Madam:

Please be aware of the following clarifications regarding the above referenced Bid:

**Please use the Revised 5/14/2020 Excel Spreadsheet 21-13 Annual Medical Supplies MASTER posted on Demandstar. See attachment for changes.**

### QUESTIONS & ANSWERS

Q #1: The column named Estimated Annual Qty we see a number but are not sure if it is Boxes, Cases Etc. Please advise. Example: Line item 178 N-95 Masks.

A #1: **N-95 mask is an each quantity, specific items like the Microflex gloves will be by each box of gloves (100 per individual box).**

Q #2: Regarding that same line item the item number is N-95 Mask. Given the current crisis would KN-95 be an acceptable alternative.

A #2: **KN-95 is not acceptable**

Q #3: Would you be so kind as to clarify Columns shown below.

Single/Each		Package/Unit (List Package Unit Count)	
Packing for Single/Each is "1"		Packing/Unit must be completed and priced	

A #3: Use of these columns is intended to have the correct information relayed to us so that we can make the best informed decision.

When it comes down to awarding the winner of the bid, we ultimately need to know what “each” price is for the individual product.

We also want to know how many of a particular item is sold per box/case if they are sold that way so that we can order appropriately.

Some companies offer smaller packaging of the correct item and send a lower quote compared to a company with a larger box/case count who has a higher quote but may have a lower each price.

**NOTE:** You should acknowledge receipt of this addendum on your Bid Form.

**End of Addendum # 1**

Sincerely,

*Mandy Mullins*

## EMS ONE YEAR PRODUCT LIMITED WARRANTY

ZOLL Medical Corporation (ZOLL) warrants to the Customer that from the date of shipment from **ZOLL's** facility, the equipment (constituting the Defibrillators and Battery Chargers) will be free from defects in material and workmanship under normal use and service for the period of one (1) year from the date of shipment. The Factory Warranty covers all parts, labor, shipping and insurance costs for the repair of the equipment. A Service Loaner is provided at no charge for use during the repair.

During such one-year period ZOLL will, at no charge to the Customer, either repair or replace (at **ZOLL's** sole option) any part of the equipment found to be defective in material or workmanship. If **ZOLL's** inspection detects no defects in material or workmanship, **ZOLL's** regular service charges shall apply.

During such period ZOLL will, at no charge to the Customer, either repair or replace (at **ZOLL's** sole option) any part of the accessories found by ZOLL to be defective in material or workmanship. If **ZOLL's** inspection detects no defects in material or workmanship; **ZOLL's** regular service charges shall apply.

ZOLL shall not be responsible for any equipment defect, the failure of the equipment to perform any specified function, or any other nonconformance of the equipment, caused by or attributable to: (i) any modification of the equipment by the Customer, unless such modification is made with the prior written approval of ZOLL; (ii) the use of the equipment with any associated or complementary equipment, accessory or software not supplied by ZOLL; (iii) any misuse or abuse of the equipment; (iv) exposure of the equipment to conditions beyond the environmental, power or operating constraints specified by ZOLL; or (v) installation or wiring of the equipment other than in accordance with **ZOLL's** instructions.

This warranty does not cover items subject to normal wear and burnout during use, including but not limited to lamps, fuses, batteries, patient cables and accessories.

THE WARRANTY SET FORTH HEREIN IS EXCLUSIVE AND ZOLL EXPRESSLY DISCLAIMS ALL OTHER WARRANTIES WHETHER WRITTEN, ORAL, IMPLIED, OR STATUTORY, INCLUDING BUT NOT LIMITED TO ANY WARRANTIES OR MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE.

**ZOLL's maximum liability arising out of the sale of the** Products (equipment and related accessories and disposables) or their use, whether based upon warranty, contract, tort or otherwise, shall not exceed the actual payments received by ZOLL in connection therewith. ZOLL shall not be liable for any incidental, special or consequential loss, damage or expense (including without limitation lost profits) directly or indirectly arising from the sale, inability to sell, use or loss of use of any Product (however caused and on any theory of liability), even if ZOLL has been advised of the possibility of such loss. # AutoPulse® Power System

## Technical Specifications:

The AutoPulse Power System is based on intelligent technology that is designed to simplify maintenance of AutoPulse batteries by automating conditioning. The system consists of a two-bay charging station and a rechargeable battery pack.

### Two-Bay Charger

The AutoPulse Power System simplifies battery management. Rotating AutoPulse batteries through the charger on a daily basis is all that is required. The system automatically charges and tests each battery. When required, batteries are automatically conditioned. The user-friendly interface clearly indicates when a battery is ready for use. Should a battery fail to meet a minimal performance criterion, or be beyond its useful life, it is identified by the charger.

### Li-ion Battery

The Li-ion battery is lightweight and designed for busy environments. Each AutoPulse should be equipped with three to four batteries. This allows for two to stay with the device (one for operation and one as a spare) and one or two being charged to support the next shift or replacement after patient use.

## Automated Battery Management

Innovative built-in battery test circuit

The AutoPulse is operated with a lightweight Li-ion battery.
