

[Re]Build[®]

Rebuilding Together.

RD Bonnaghan, Executive Director
Rebuilding Together North Central Florida

Alane Humrich, Program Director
Community Weatherization Coalition

A HOME MEANS MANY THINGS:

MEMORIES

LOVE

CONNECTION

SAFETY

IT'S AS MUCH A FEELING AS A PLACE.

FOR MILLIONS, THAT FEELING IS:

UNCERTAINTY

SICKNESS

ISOLATION

HOPELESSNESS

There is an urgent challenge facing our country: Millions of deserving people—seniors, veterans, people with disabilities, families with children, victims of disaster need our help to:

REPAIR THEIR HOMES

REVITALIZE THEIR COMMUNITIES

REBUILD THEIR LIVES

Due to the high utility burden faced by our low-income neighbors, energy and water efficiency are an essential piece of safe, healthy, and affordable housing:

SAVE ENERGY AND WATER

REDUCE UTILITY BILLS

ENGAGE VOLUNTEERS, BUILD
COMMUNITY, LEARN TOGETHER

PROGRAM SUMMARY

In response to COVID-19, with the support of Alachua County's Community Redevelopment Grant, Rebuilding Together launched the Emergency Repair Program with the goals of maintaining appropriate social distance to protect our vulnerable neighbors, while providing economic development opportunities for local subcontractors to maintain and increase employment opportunities.

To provide additional services to neighbors in need, the Community Weatherization Coalition adapted their Energy Tune-Up Program into a DIY model allowing local residents to make energy and water retrofits to their own homes while learning about home energy and water consumption through virtual resources and support from CWC staff and volunteers.

PROJECT BUDGET

Emergency Repair Costs (CRG)	\$37,945.55
DIY Energy Tune-Up Costs (CRG)	7,500.00
Admin (covered by CRG)	4,545.45
