Hello TJ.

Since our call earlier this week I have been working with Heath Hinton of TIPS to verify the answer to your question about the use of RS Means to adjust building/scope components on our contract.

By virtue of the contract being a JOC it is acceptable to do this.

Heath is reviewing the spreadsheet we sent you and we will be back in touch after this stage is complete.

In the meantime, feel free to contact Heath by phone or email if you have any other questions (903) 573-4901.

Steve Menke
