Cory,

We have received final approval for our FY21 grant and are ready to begin the purchasing process for APX8000 portables consistent with our previous specifications. Can you provide me with a quote, using the NASPO pricing, for 10 portables and 10 spare batteries? The grant is for \$85,000, so we need to remain below this threshold. Additionally, I need to get a subscription for the APX CPS, not sure if you are able to include this in the same quote or if this has to be purchased separately through Motorola Online.

I also have some XTS for trade in if that program is still available. Can you check on this for me?
