and its subcontractors shall be responsible for the supervision, control, hiring and terminating, rates of pay and terms and conditions of employment of their own employees.

- c. The Network Service Provider shall not assign the responsibility for this contract to another party without prior written approval of the Managing Entity, upon the Managing Entity's sole determination that such assignment shall not adversely affect the public interest; however, in no event may the Network Service Provider assign or enter into any transaction having the effect of assigning or transferring any right to receive payment under this contract which right is not conditioned on full and faithful performance of the Network Service Provider's duties hereunder. Any sublicense, assignment, or transfer otherwise occurring without prior approval of the Managing Entity shall be null and void. The Network Service Provider shall not subcontract for any of the work contemplated under this contract without prior written approval of the Managing Entity, which shall not be unreasonably withheld.

The Network Service Provider further agrees that the Managing Entity and the Department shall not be liable to the subcontractor in any way or for any reason relating to this contract.
- f. - g. To the extent that a subcontract provides for payment after Network Service Provider's receipt of payment from the Managing Entity the Network Service Provider shall make payments to any subcontractor within seven (7) working days after receipt of full or partial payments from the Managing Entity in accordance with §287.0585, Florida Statutes (Fla. Stat.), unless otherwise stated in the contract between the Network Service Provider and subcontractor. Failure to pay within seven (7) working days shall result in a penalty that shall be charged against the Network Service Provider and paid by the Network Service Provider to the subcontractor in the amount of one-half of one percent (.5%) of the amount due per day from the expiration of the period allowed for payment. Such penalty shall be in addition to actual payments owed and shall not exceed fifteen percent (15%) of the outstanding balance due.

9. **Network Service Provider Indemnity.** Section 19 of PUR 1000 Form shall apply per its terms, except that the phrase "arising from or relating to personal injury and damage to real or personal tangible property" in the first paragraph is replaced with "arising out of or by reason of the execution of this contract or arising from or relating to any alleged act or omission by the Network Service Provider, its agents, employees, partners, or subcontractors in relation to this agreement," and the following additional terms shall also apply:

- a. If the Network Service Provider removes an infringing product because it is not reasonably able to modify that product or secure the Managing Entity the right to continue to use that product, the Network Service Provider shall immediately replace that product with a non-infringing product that the Managing Entity determines to be of equal or better functionality or be liable for the Managing Entity's cost in so doing.
- b. The Network Service Provider's inability to evaluate liability or its evaluation of liability shall not excuse its duty to defend and indemnify after receipt of notice. Only an adjudication or judgment after the highest appeal is exhausted finding the Managing Entity negligent shall excuse the Network Service Provider of performance under this provision, in which case the Managing Entity shall have no obligation to reimburse the Network Service Provider for the cost of its defense. If the Network Service Provider is an agency or subdivision of the state, its obligation to indemnify, defend, and hold harmless the Managing Entity shall be to the extent permitted by §768.28, Fla. - c. The Managing Entity agrees to respond in writing within thirty (30) days of receipt of the original or updated plan, accepting, rejecting, or requesting modifications. - a. Unless exempted by law, all public records are subject to public inspection and copying under Florida's Public Records Law, Chapter 119, Fla. Stat. Any claim by Network Service Provider of trade secret (proprietary) confidentiality for any information contained in Network Service Provider's documents (reports, deliverables or work papers, etc., in paper or electronic form) submitted in connection with this contract shall be waived, unless the claimed confidential information is submitted in accordance with Section 26.b.
- b. The labeling shall include a justification citing specific statutes and facts that authorize exemption of the information from public disclosure. If different exemptions are claimed

to be applicable to different portions of the protected information, the Network Service Provider shall include information correlating the nature of the claims to the particular protected information.

- c. The Managing Entity and the Department, when required to comply with a public records request including documents submitted by the Network Service Provider, may require the Network Service Provider to expeditiously submit redacted copies of documents marked as trade secret in accordance with Section 26.b. The redacted copy must exclude or obliterate only those exact portions that are claimed to be trade secret. If the Network Service Provider fails to promptly submit a redacted copy, the Managing Entity is authorized to produce the records sought without any redaction of proprietary or trade secret information.
- d. The Network Service Provider shall be responsible for defending its claim that each and every portion of the redactions of trade secret information are exempt from inspection and copying under Florida's Public Records Law.

27. Client Information.  - b. Group 2: Adult Substance Abuse (ASA)

4. The Network Service Provider shall submit electronically all consumer survey responses to the Managing Entity in the manner provided by Management Entity.

Wait list information may be used by the Managing Entity as part of the utilization management and continuous quality improvement plans to identify needs and gaps in services across the SOC.

(a) The Network Service Provider shall:

1. Have written procedures in place to accurately track and ensure the maintenance of a complete wait list, by program or service type, for their agency. Procedures should include reference to the submission of data to the Managing Entity in the manner provided by the Managing Entity.

4. Any individual waiting longer than fourteen (14) days for a non-mental health funded service shall go on a wait list.

2. In order for the individual to remain on the wait list, an in-person meeting, telephone contact or other documented contact must have taken place at least within 30 days of the initial contact and at least every thirty (30) days thereafter. The contacts should be more frequent than every thirty (30) days, however, the individual must be contacted within the thirty (30)-day time period.

3. Individuals in treatment, but waiting for the appropriate level of service, should be counted as waiting for the appropriate level of service. For example, an individual receiving one hour of outpatient treatment once a week while waiting to enter a residential program should be counted on a wait list for residential treatment.

4. Each individual counted on a wait list must have supporting documentation, i.e., the Wait List Documentation Form, maintained in a file separate from the client's clinical record. The information on this form shall be used to verify what is reported on the wait list.

5. Wait list information must be updated on a monthly basis. Any individual who has not had an in-person, telephone or other documented contact in the last thirty (30) days should be removed from the wait list.

6. Incarcerated individuals are not counted as waiting for treatment. Exceptions apply when an incarcerated individual's only condition for being released is admission into a substance abuse treatment program. In this case, the incarcerated individual shall be counted on a wait list.
