CONSISTENCY ANALYSIS:

Following is an analysis of the consistency of the proposed plan with the applicable policies of the Comprehensive Plan and Land Development Regulations.

COMPREHENSIVE PLAN:

FUTURE LAND USE ELEMENT

The current future land use designation on the property is Low Density Residential which allows a density in the range of 1-4 dwelling units per acre. The proposed Replat will not increase or decrease the number of lots in the planned development.

UNIFIED LAND DEVELOPMENT CODE:

ZONING DISTRICT AND USE REGULATIONS

The proposed Replat is for Lot 15 within the Savanna Pointe Phase 1 and carries the PD zoning designation. The applicant requests that the 20 foot rear setback be shifted onto the 25 foot increased property area.

The proposed Replat document meets the minimum requirements set forth in Chapter 177 of Florida State Statutes and Chapter 402 Article 12 of the Unified Land Development Code of Alachua County.

According to ULDC 402.60 the developer shall file the plan, bearing the signatures of all applicable county representatives, for recording with the clerk of the circuit court of Alachua County no later than two years from the date of final plat approval by the county commission.
