## UTILITY WORK SCHEDULE

Pursuant to Section 337.403 F.S., the UAO and FDOT and/or Governing Authority agree to the UAO's need for relocation or adjustements to its utilities and the FDOT and/or Governing Authority's need for a schedule for the UAO to effect the relocation or adjustment. This utility work schedule is based on FDOT and/or Governing Authority plans dated in the project information box below. Any deviation by FDOT, Governing Authority, or its contractors from these plans, may void this utility work schedule. Upon notification by FDOT and/or Governing Authority of a change to these plans, the UAO may negotiate a new utility work schedule. The UAO aggrees to notify FDOT (or Governing Authority) and the contractor in writing prior to the starting, stopping, resuming, and completing work in accordance with this utility work schedule. The UAO shall obtain a utility permit and comply with requirements of the current years Utility Accomodation Manual (UAM) for all work done under this utility work schedule. The UAO is not responsible for events beyond the control of the UAO that could not be reasonably anticipated by the UAO and which could not be avoided by the UAO with exercise of due dilligence at the time of the concurrence.
