Lacey Jones
Director, Marketing & Communications, InfoTech, Inc.
2970 SW 50th Terrace
Gainesville, FL 3260

Dear Lacey,

As Chair of Alachua County, it is my pleasure to congratulate Info Tech, Inc. on receiving a LEED Gold certification for its recently constructed headquarters in Alachua County.

Your company's commitment to our community spans several decades. Since the company's foundation in the 1970's, Info Tech's has been a landmark to the area, providing job opportunities to families and helping our community to be a great place to raise a family, work and enjoy life.

Today, Info Tech is the first private company in Gainesville to be awarded a LEED Gold certification, joining only the University of Florida and City of Gainesville in this category. LEED buildings are better for the environment; are energy and water-efficient; are healthier and safer for occupants; and are a physical demonstration of the values of the organizations that own and occupy them.

Your LEED Gold certified building will serve as an example for other private companies in the area to design and construct greener and healthier workspaces, showing how businesses can be more environmentally responsible and use resources efficiently.

Thank you for the role that your company plays in diversifying our economy, and providing jobs to Alachua County residents. We salute your commitment to innovation, sustainability and continued investment in our community. Congratulations again on your efforts, and best wishes in the continued growth and success of your company.

Sincerely,

Charles S. Chestnut, IV, Chair
Alachua County Commission
