Executive Summary

Geotechnical Engineering Services agreements will provide routine geotechnical investigation and testing services associated with roadway, site & stormwater design, roadway, site & stormwater construction inspections, maintenance activities and QA/QC on geotechnical issues that arise during development, design or construction projects. The agreements are for a three year period with the option to renew for two additional 2 year terms.

Background

RFP 17-149 was advertised on February 24, 2016 and March 2, 2016. Five vendors responded by the deadline of April 6, 2016. The Alachua County Public Works Department formed a selection committee to oversee the selection process. The Finance Report which included the final rankings and the authorization to negotiate a contract (1) GSE Engineering and Consulting, Inc. (2) Universal Engineering Sciences, Inc. and (3) Geo-technologies, Inc., was approved by the Board of County Commissioners on July 12, 2016. These agreements will provide routine geotechnical investigation and testing services associated with roadway, site & stormwater design, roadway, site & stormwater construction inspections, maintenance activities and QA/QC on geotechnical issues that arise during development, design or construction projects. It is necessary to have multiple firms on contract to ensure the County has vendors available at all times and to have checks and balances on information received. The agreements are for a three year period with the option to renew for two additional 2 year terms. The vendors have verified that they pay the Alachua County Government Minimum Wage.

Issues

The agreements are required for routine geotechnical investigation and testing services associated with roadway, site & stormwater design, roadway, site & stormwater construction inspections, maintenance activities and QA/QC on geotechnical issues that arise during development, design or construction projects. The Public Works staff does not have the equipment, staff or the expertise to provide these services.

Fiscal Recommendation

Approve Agreements: Geotechnical engineering and testing fees are included in

operating and project budgets.
