Former member of the Alachua County Veterans Services Advisory Board
13. Have you ever served on a prior Charter Review Commission?
No
14. Civic and Professional Accomplishments/Honors:
Peace Scholarship (2016): Veterans for Peace, Chapter 14, created the Peace Scholarship Program to give financial support to students who are working towards social justice, peace and equity. I was fortunate enough to be one of the three recipients of this scholarship in 2016.
Peace Helmet Award (2017): The Peace Helmet Award is given by Veterans for Peace, Chapter 14, annually. It recognizes local community members and elected officials who actively work towards equality, advocate for peace and whose actions are integral to the work of Veterans for Peace. The award itself is a stained glass replica of the Veterans for Peace symbol, a dove of peace on a military helmet. I was awarded this, alongside Alachua County Commissioner Ken Cornell, in 2017.
John A. Penrod Brigadas Award for Peace and Justice (2019): The Penrod Award is jointly given by Veterans for Peace, Alachua County Labor Coalition and United Faculty of Florida. The award recognizes individuals whose actions help carry the work that John Penrod did throughout his life: the fight of the working class, dignity, freedom, security and a democratic society in a peaceful word. I was honored to receive this award in 2019.
15. Training or Experience Related to this Appointment:
I have previously served as the membership chair and treasurer for Suwannee-St. Johns Sierra Club, where I was required to understand and abide by numerous laws pertaining specifically to 501(c)(3) and 501(c)(4) organizations, as well as ever-changing requirements imposed by Sierra Club's Florida chapter and the national Sierra Club organization. The Charter Review Commission will require that members are fully aware of the context and implications of amendments being proposed, and my experience abiding by laws and standards imposed by numerous government and organizational entities leaves me well equipped to do so.
Additionally, I have worked not only for the local Democratic Party but for numerous political candidates in Alachua County. Doing so has not only extended my own personal network of contacts, but started what would be an ongoing effort to remain engaged on issues that matter to Alachua County residents. I consistently attend and review city commission and plan board meetings, and regularly review both city and county agenda items and their backup. Understanding not only what the community wants, but knowing what our elected officials and the staff that supports them are already working on enables me to better work towards reasonable goals for the Charter Review Commission.
16. What Contributions do you feel you could make if you were selected to this Commission?
I feel that my experiences as a member of numerous local organizations, as a student and as an engaged citizen give me a perspective that is at times not present. Almost 40% of registered Alachua County voters are under 35, yet have some of the lowest turnout percentages on election day.
By selecting me for the Alachua County Charter Review Commission, you are selecting an individual who can not only speak to the needs of the under 35 demographic, but someone who is also actively engaged at multiple levels within our community, both in and out of the public process.
Some of the boards and committees appointed by the County Commission are required to comply with Chapter 112, Florida Statutes, the Financial Disclosure Law. If applicable, would you be willing to file the required financial statement?

15. Training or Experience Related to this Appointment:

Having served on the Charter Review Commission, I have an understanding of the very important skill of what it is to build consensus. And sometimes you discover you are unable to build consensus, and when that occurs you will need to collaborate and negotiate, and if you still cannot find common ground, you move forward.

I possess a very special set of skills by being actively involved in local government that gives me both institutional and foundational knowledge that has prepared me to work with anyone. Serving on the last CRC, I soon discovered the many different personalities and how important it is to actively listen and pay attention to the surroundings. Because you will have many different personalities to work with and that is what makes this board a very, very special one.

16. What Contributions do you feel you could make if you were selected to this Commission?

The contributions that I bring to the CRC is that I have both the institutional and foundational that will be an asset to the group. Further, I come to the table with no preconceived notions and/or ulterior motives. I like to keep myself open because great ideas come from all kinds of people, even ones you may not agree with. I am always looking for ideas that are going to make local government better or make the operation of local government more efficient or better. And that is where the skill of collaboration, negotiation, and building consensus comes into play. By keeping an open mind and being open to facts and evidence I also have a mind that is open to change. The reason I keep my mind open and have no ulterior motive is that this is what this body need is objectivity.

17. Some of the boards and committees appointed by the County Commission are required to comply with Chapter 112, Florida Statutes, the Financial Disclosure Law. If applicable, would you be willing to file the required financial statement?

14. Civic and Professional Accomplishments/Honors:

City of Newberry Historical Architectural Review Board, member, May 2017 to present. Chair starting September 2019;

Lions Club, Newberry chapter, member, August 2017 - present;
Concerned Citizens of Newberry, member, May 2017 - present;
Board of Directors, 10CAN, February 2016 - July 2019
15. Training or Experience Related to this Appointment:
While at the University of Florida Levin College of Law, I took Local Government Law with Professor Joe Little.
The City of Newberry convened a Charter Review Board in Jun 2018 and I was appointed to it. We completed our last meeting in June 2019; workshops are planned to explain the decisions of the Charter Review Board to the commission and public in Fall 2019. The Board was tasked with simplifying the charter, cleaning up language, removing redundancy, and suggesting revisions. From the videos, I can see that public participation in the County Charter Review Commissions was much larger than the public participation we encountered.
I believe my training from serving on both City of Newberry boards and the UF Student Conduct Committee will also be useful. On all three, I am tasked with looking at all the evidence and following a set of rules - sometimes those are statutes, sometimes Florida Administrative code, sometimes municipal ordinances. I'm also tasked with asking questions that ensure we have all the information we need to make a decision. I've served as Chair many times on the Student Conduct Committee on cases that have dealt with everything from academic dishonesty to sexual violence.
16. What Contributions do you feel you could make if you were selected to this Commission?
I feel I can bring a well-rounded perspective as someone who has contact with the county in many different ways. I feel that all voices should be heard, not just the loudest ones.
I am involved in my community at both the social and municipal levels. From that involvement, I know there are many different perspectives in my small community alone about things like home rule authority, single member districts, the role of our County Commission. Since I work at UF, I also hear perspectives from my colleagues and our students on how Gainesville, UF, and the County all intersect.
I have also been involved with the Truth and Reconciliation process out in Newberry. At its heart is being able to objectively look at the long term ramifications of policy making and how those policies can disparately affect some over others. While the Truth and Reconciliation focuses on policies and actions that intended to do that, it's been a takeaway that applies for being on a Charter Review Committee. How will these changes impact the County and will they affect some people/areas more than others and will that impact be negative?

17. Some of the boards and committees appointed by the County Commission are required to comply with Chapter 112, Florida Statutes, the Financial Disclosure Law. If applicable, would you be willing to file the required financial statement?
Yes
18. I understand Appointees to advisory board/committees are required to attend scheduled meetings as specified in the "Guidelines for Citizen Advisory Boards and Committees".

19. Do you affirm that your personal and business (if applicable) affairs within Alachua County are in substantial compliance with all county regulatory and taxing authorities rules and regulations?

My family has recently resettled in Gainesville, where we plan to reside for the rest of our days. Because of this, I bring a fresh perspective to all Alachua County dealings. 16. What Contributions do you feel you could make if you were selected to this Commission?
My political work and issue organizing around County issues such as ballot referendums and political campaigns has given me a unique ability to understand the legal and technical obstacles to creating good language that may emerge from experts and community activists, but that are digestible and meaningful to the public, which I see as a chief challenge to the CRC. I'm deeply familiar with a broad range of demographic interests from our County's mental health community and addiction recovery citizens to its commercial construction companies and the trade workers associated with them. I have consistently been devoted at an individual and organizational level with land use, safe and affordable housing, conservation issues, and am currently contributing to charter issue discussions at Gainesville's CRC (not a member of that body). Through my advocacy I am broadly familiar with the structure of County government, its staff, its hallmark issues, and with its Charter context. Finally, I've put my feet or my bicycle wheels on just about every inch of limerock road, highway, green space, and unpaved trail in this County, so I am deeply familiar with its physical contours and resources. I've lived in small townships, in Gainesville, and currently reside in the unincorporated County. I grew up in a rural South Texas county exactly our size, but I'm attuned to the relationship between town and country, especially regarding potential governance issues a CRC might address. I'm comfortable speaking up when a body or meeting is not operating according to protocol, explaining to body members what I believe each other is trying to communicate, and encouraging the public to be comfortable speaking in what may for some be an intimidating room filled with experts, appointed members, and knowledgeable staff. I would go out of my way to ensure that the general public is made as much aware of the work of the CRC as possible, and that all feel welcome to come forth with ideas for ballot items that would improve our County.

17. Some of the boards and committees appointed by the County Commission are required to comply with Chapter 112, Florida Statutes, the Financial Disclosure Law. If applicable, would you be willing to file the required financial statement?
