BAGHDAD

A man walks in front of Ishtar Gate, the archaeological site of Babylon, Friday in Iraq. Iraq on Friday celebrated the UNESCO World Heritage Committee's decision to name the historic city of Babylon a World Heritage Site in a vote held in Azerbaijan's capital, years after Baghdad began campaigning for the site to be added to the list. The city on the Euphrates River is about 55 miles south of Baghdad and once was a main tourist attraction before Iraq suffered through wars. [AP]

CARACAS, VENEZUELA

Soldiers march during a military parade marking Independence Day, Friday in Caracas, Venezuela. Venezuela's President Nicolas Maduro oversaw a grand military parade to mark the country's independence day Friday, reveling in his might as commander in chief as the embattled socialist leader comes under mounting criticism for using brutal tactics to crush his opponents. Opposition leader Juan Guaido led a rival march across town Friday. [AP]

KHARTOUM, SUDAN

A Sudanese woman celebrates Friday in the streets of Khartoum, Sudan. Sudan's ruling military council and its pro-democracy movement both welcomed a new power-sharing agreement reached Friday, raising hopes that the deal would end a three-month political crisis that has paralyzed the country and led to scores of deaths following a violent crackdown on peaceful protesters by authorities. News of the deals touched off street celebrations in Khartoum. [AP]

CONCORD, N.C. K-9 spooked by fireworks runs away in North Carolina

A North Carolina sheriff's office is looking for one of its K-9s after it ran from its handler when some fireworks went off nearby.

The Cabarrus County Sheriff's Office says in a news release on Friday that Igor was taken outside without a leash by his handler on Thursday night. Chief Deputy James Bailey said it's the usual custom of the handler not to use the leash.

Bailey says some fireworks went off near the handler's home and Igor ran away despite the handler's verbal commands.

The sheriff's office says Igor is a Belgian Malinois trained in bomb detection. Bailey said the dog is trained not to bite.

GEORGETOWN, S.C. Lightning strike kills 1, hurts nearly a dozen others

About a dozen people were taken to a hospital

— and most were in fair condition — after lightning struck at a popular gathering spot along a South Carolina river on Independence Day, killing one person, authorities said.

Ryan Gamble, 44, of Andrews, South Carolina, died after the lightning strike, Georgetown County Deputy Coroner Chase Ridgeway told WPDE-TV.

Eight patients were admitted in fair condition and three others have been released, Tideland's Georgetown Memorial Hospital spokeswoman Dawn Bryant said Friday.

The lightning was "like a shock through your body. Indescribable," said Billie Camlin of Georgetown.

WICHITA, KAN. Officials rebut legislator's sanctuary city claim

Sedgewick County officials are pushing back against an area legislator's erroneous assertion during a public meeting that Wichita is a sanctuary city for

immigrants living in the U.S. illegally.

The Wichita Eagle reports that freshman state Rep. Cheryl Helmer, a Republican, made the claim this week during a town hall meeting with U.S. Sen. Jerry Moran. Wichita Mayor Jeff Longwell said the city regularly cooperates with federal agencies on immigration enforcement.

A group advocating strict immigration limits included and then removed Sedgewick County from a list of so-called sanctuary counties

last year after Sheriff Jeff Easter complained.

TUNIS, TUNISIA Tunisia bans face veils in public buildings for security

Tunisia has banned face-covering veils in state-run buildings for security reasons, ending a policy of official tolerance with the garment.

Prime Minister Youssef Chahed signed an order on Friday demanding that ministers, governors and heads of public establishments

"take the necessary dispositions to stop all people whose faces are covered from entering public buildings."

The measure said the ban was needed "to preserve public security" and

assure the smooth running of establishments.

The "niqab" that hides the face was banned in state-run spaces under leader Zine El Abidine Ben Ali, toppled in 2011.

Meeting Minutes Jonesville Business Park Mixed Use PD Amendment Neighborhood Workshop

A neighborhood workshop was held on July 18, 2014 at 6:30pm at the Campus USA HQ building to discuss the Jonesville Business Park Mixed Use PD Amendment and seek public comments.

Mr. Jay Brown, representing JBrown Professional Group Inc., opened the meeting, gave a presentation explaining the project, and answered questions throughout the presentation. The following is a list of questions and concerns expressed by attendees:

1. Will a traffic study be completed to account for the increased number of trips generated from this new development?
 - It was discussed that a traffic study has not been completed yet, but will be a part of the design process after the PD amendment.
 - A potential for a traffic light at NW 140th Terrace was discussed
 - A potential for roadway improvements to NW 143rd Street were also discussed.
2. Is the assisted living facility complex going to be one large complex or multiple smaller buildings?
 - It was explained that the Hankin Group owns and operates multiple assisted living facilities. It will be one large complex contained and connected within the buildings. The types of units (independent, assisted, and memory care) were also discussed.
3. Will the apartments be designed to be “affordable” housing?
 - The apartments that will be constructed will be very nice facilities. With that being said, they will not fall under the affordable housing category.
4. Discussion arose regarding the different colored sections and roadways for the PD Zoning Master Plan.
 - It was explained that the different colored sections represented differed development types.
 - It was discussed that the Hankin Group has a near exact plan for the location of the various parts of their development.

I. INTRODUCTION

This rezoning application by JBrown Professional Group Inc, agent for Jonesville Plaza, LLC, proposes amendment of the northern 64.9-acre area of the existing 92.4-acre Jonesville Business Park PD (planned development), which is an existing PD within the Jonesville Activity Center. The Jonesville Business Park PD is designated on the County's Future Land Use Map for Office/Business Park, Commercial, and Shopping Center. The undeveloped 64.9-acre area north of NW 2nd Lane is proposed for amendment to allow a mixed-use planned development (PD) that will facilitate future high-quality development consistent with Traditional Neighborhood Design (TND) principles. No changes are proposed for the other 27.5-acre mostly developed area of the PD, which is south of NW 2nd Lane.

Various changes to the Land Use Data, Development Standards, Allowable Uses, General Notes, PD Conditions, Development Schedule, and Open Space requirements are proposed. These changes are for the proposed mixed-use PD in the northern 64.9 acres of the 92.4-acre Jonesville Business Park PD, but they also reflect current provisions in the County's land development code and revisions to the Alachua County Comprehensive Plan that were approved by the County Commission at the transmittal hearing of Comprehensive Plan Amendment CPA-03-19 on June 25, 2019.

A comparison of the existing approved PD and the proposed, amended PD is shown in the following table:

NOTE: The Group Housing will have a mix of Independent Living Units (calculated at 1 residential unit each), Assisted Living Units (calculated at 1 residential unit per 2.5 beds), Memory Care Units (calculated at 1 residential unit per 4 beds), and any additional general assisted living facilities that comply with Group Housing regulations. This application proposes a total of 166 residential dwelling units for the combined Group Housing. The exact mix of Independent Living, Assisted Living, Memory Care, and additional general assisted living facilities shall be determined during final site plan review, but shall not exceed the combined maximum of 166 residential units. The residential units will have a mix of multi-family units, attached or detached single-family units, and any additional general residential facilities that comply with residential housing regulations. The exact mix of multi-family units, attached or detached single-family units, and any additional general residential facilities shall be determined during final site plan review, but shall not exceed the combined maximum of 554 residential units.

The 92.4-acre PD property encompasses Tax Parcels Nos. 04341-001-000, 04341-002-000, 04341-001-002, 04341-001-007, 04341-001-005, 04341-zoning 002-001, and 04341-001-008. This PD has substantial frontage along Newberry Road (SR 26) and NW 143rd Street (CR 241), provides a connected grid of streets within the PD, and connections to SR 26 (Newberry Road), CR 241 (NW 143rd ST), and adjacent developments. This PD Amendment is only requesting amendment to lands occupied by Tax Parcel Nos. 04341-001-000, 04341-002-000, and 04341-001-005.

II. STATEMENT OF OBJECTIVES

A. Purpose and Intent

The purpose and intent of this PD amendment is to revise the PD Zoning Master Plan to allow a high-quality, mixed-use, walkable development that is consistent with Traditional Neighborhood Design (TND) principles. To accomplish this, the following are required:

1. Revisions to the Development Standards, Land Use Data, Allowable Uses, PD Conditions, Open Space requirements, and General Notes on the PD Zoning Master Plan.
2. Substantial revisions to street layouts and parcels, including open spaces, north of NW 2nd Lane.
3. An update to the Development Schedule.

B. Consistency with the Comprehensive Plan & Unified Land Development Code:

The Jonesville Business Park PD has been identified as consistent with the Comprehensive Plan and ULDC during the Planned Development Application process. The Jonesville Business Park PD complies with the Alachua County Comprehensive Plan Future Land Use Element **Policy 2.1.4** pertaining to all Activity Centers, and with **Policy 2.2.9** Jonesville Low Activity Center/Employment (open space, office/business park, institutional, and residential), as amended by Comprehensive Plan Amendment CPA-03-19, transmitted June 25, 2019. These two amended comprehensive plan policies are show below with added text underlined and removed text ~~struck through~~:

Policy 2.1.4 A mixture of residential and non-residential land uses shall be provided in Activity Centers to reduce travel distances between different types of land uses and support pedestrian, bicycle and transit opportunities.

- (a) Mixed use development plans, including vertical and horizontal mixed uses, shall be allowable in all areas within Activity Centers.
- (b) In order to increase the variety of housing opportunities within walking distance of existing or future commercial and employment areas, residential uses shall be allowable as part of mixed use development in non-residential Future Land Use designations, in accordance with the following:
 - (1) Ratios of residential dwelling units to non-residential floor area shall be specified in the Land Development Code for mixed use development in accordance with this policy. The mixed use ratios will allow for existing commercial, office, or institutional uses within one-quarter mile of proposed residential development to be used in calculating the allowable number of residential units.
 - (2) Residential uses in mixed use development in accordance with this policy shall be physically and functionally integrated with existing or proposed non-residential uses.
- (c) Within residential Future Land Use designations in Activity Centers, commercial, office, or institutional uses shall be allowable as part of mixed use developments, Traditional Neighborhood Developments, or Transit Oriented Developments ~~provided they are located within the same building as the residential uses, and do not exceed one third of the usable floor area of the building.~~
- (d) Development projects which exceed minimum size thresholds shall be required to provide a mix of residential and non-residential uses. Minimum thresholds for acreage and non-residential floor area shall be established in the Land Development Code.

Policy 2.2.9 Jonesville Low Activity Center/Employment (as amended by Comprehensive Plan Amendment CPA-03-19, transmitted June 25, 2019) follows. *(NOTE: the various sections entirely stricken by this comprehensive plan amendment are not shown below. Stricken text within remaining sections of Policy 2.2.9 is shown in ~~strike through~~.)*

(a) General

- (1) It is the intent of this Activity Center plan to promote the area around the intersection of Newberry Road (State Road 26) and State Road 241 as a low intensity employment oriented focal point. In so doing, it should be developed as a mixed-use center (i.e., commercial, open space, office/business park, institutional, and residential), allowing for

the general land use classifications identified on the ~~Activity Center Plan~~ Future Land Use Map

- (3) Land use boundaries are conceptual in nature and may be adjusted as necessary during the zoning and site plan review process; however, relative acreages shall remain the same.

(b) Land Use

- (1) Commercial activities shall be permitted, including a shopping center where commercial land use is designated on the Activity Center map, subject to Section 2.2.9.2.d. and phasing requirements.
- (2) All proposed development is required to be served by central water and sewer.
- (5) The office/business park designation (~~set in a campus-like setting; see Design Features Section~~) may include such uses as administrative and professional offices (including medical clinics but excluding hospitals); corporate headquarters, including related supporting services and storage; sales and marketing offices; sales and service offices related to electronic equipment, computers and similar office equipment, including repair incidental to sales and service; data and communication centers including information processing facilities; research and development facilities; hotels and meeting facilities; government and community administrative facilities; light assembly of products from previously manufactured materials (for example jewelry, fabricated metal products, furniture, plastic and wood); industrial engineering and analysis facilities; business services such as office supplies, copy/print centers, medical supplies, pharmacies and travel agencies, ~~but excluding photofinishing laboratories except those that may be incidental to another primary business service~~; lending institutions; day care centers; technical colleges, business schools and job training centers; free-standing sit down restaurants, without drive through and having seating capacity greater than 150 seats; health clubs/recreation facilities; and their customary accessory uses. These uses shall be consistent with the policies set forth in this Activity Center, as well as any County land development regulations.
 - a. Uses within an office/business park shall not generate noise, lighting, or any other effect that would be a nuisance to surrounding residential development.
- (9) The following minimum external buffers shall be required, as defined by the Buffer Matrix of the Future Land Use Element:
 - a. All commercial development within the Activity Center abutting office, office/business park, or institutional shall establish and maintain a low-density buffer of at least 30 feet in width.
 - b. All office/business park development abutting office development shall establish and maintain a low-density buffer of at least 25 feet in width.
 - c. All office/business park, office, or institutional designations abutting residential development shall establish and maintain a medium-density buffer of at least 50 feet in width unless otherwise specified in a Planned Development.
 - d. All residential uses of 4-8 dwelling units per acre abutting residential development of 1-4 dwelling units per acre shall establish and maintain a low-density buffer of at least 30 feet in width.

The proposed amended PD is also consistent with the Alachua County ULDC, Article 2, 405.04 (e), as shown below:

A Planned Development approved by the Board of County Commissioners prior to October 9, 2012 that has not expired shall be allowed to develop consistent with their existing Zoning Master Plan. The Zoning Master Plan may be amended notwithstanding the requirements in (c) and (d) above, provided the following is met:

1. The Amendment to the Zoning Master Plan does not change the types of non-residential use and/or increase or decrease the total square footage of non-residential use or number of residential units; or
2. For amendments that change the type of non-residential use and/or include an increase or decrease of up to 25% of the total square footage of non-residential use or number of residential units, the Planned Development shall develop consistent with the design standards for Traditional Neighborhood Development in Chapter 407, Article VII, sections 407.68, 407.69, 407.70, and 407.71.

This PD amendment proposes a decrease in the amount of non-residential development from 442,622 GSF to 222,662 GSF, an addition of a 166-unit Group Housing, and an increase from 300 residential units to 554 residential units. The increase in proposed residential development exceeds the threshold of a 25 percent increase for existing PDs. Therefore, future development of this PD must be consistent with design standards for Traditional Neighborhood Development in Chapter 407, Article 7, Sections 407.68, 407.69, 407.70, and 407.71.

The primary purpose of this PD amendment, as discussed with County Staff, is to revise the PD Zoning Master Plan to allow a high-quality, mixed-use, walkable development that is consistent with Traditional Neighborhood Design (TND) principles.

C. Analysis of Impact on Public Facilities and Services:

No additional impact on the adopted Levels of Services for public facilities is anticipated. The increase in residential density is expected to generate additional K-12 students and additional vehicular traffic. Public school concurrency and transportation system impacts will be determined at the time of development plan review and any mitigation will be required prior to issuance of a building permit.

III. ADDITIONAL PD GUIDELINES AND STANDARDS:

A. Allowable Uses:

The allowable uses for each Land Use Category are shown on the PD Zoning Master Plan.

B. Street and Parking Requirements:

The proposed major streets are depicted on the PD Zoning Master Plan including with the September submittal. They conform to the County's Corridor Design Manual and are integral to the high-quality, walkable mixed-use urban development that is planned for the undeveloped 64.9-acre area north of NW 2nd Lane. All minor streets and parking areas shall comply with the County Land Development regulations. Connectivity to the existing and future transportation system is maintained, which includes connections to Newberry Road, NW 143rd Street, Willow Walk Office Park and the adjoining acreage north of the 92.4-acre Jonesville Business Park PD.

A fundamentally revised and improved street plan is proposed for the undeveloped 64.9-acre area north of NW 2nd Lane. This is integral to and essential for the envisioned high-quality, mixed-use development consistent with Traditional Neighborhood Design (TND) principles. The proposed street plan changes from the existing PD Master Plan that was amended in 2015 include:

- Direct connection to the existing intersection of NW 140th Terrace and NW 2nd Lane;
- Reducing the number of street connections (from two to one) to NW 143rd ST (County Road 241, which is 2-lane, collector roadway) in the northern 64.9-acre area;
- Establishment of an interconnected network of streets (designed to serve motor vehicles, bicyclists and pedestrians) to support the envisioned mixed-use PD consistent with TND principles.

Except for the proposed direct street connection from the northern 64.9 acres to the existing intersection of NW 140th Terrace and NW 2nd Lane, no modifications to the streets and parking plans are proposed for the mostly developed, 27.5-acre area south of NW 2nd Lane and north of West Newberry Road (SR 26).

C. Buffers and Screening

Buffers and screening will be provided as shown on the amended PD Zoning Master Plan and are consistent with the Comprehensive Plan and ULDC. This PD amendment proposes expanded and reconfigured open space, with a reduction in allowable non-residential development in the open space from 10,000 GSF to 2,000 GSF. This will result in considerably improved buffering, more useable open space, and a more urban landscape.

D. Landscape and Irrigation

The proposed, amended PD Zoning Master Plan includes generous amounts of open space provided including 6.55 acres of Preserved Open Space and 4.13 acres of Common Open Space with a maximum of 2,000 GSF of non-residential development that will particularly serve the envisioned future high-quality, mixed-use development north of NW 2nd Lane. Such development will entail appropriate landscaping and irrigation that will be proposed and reviewed during subsequent development plan review.

This amendment will have no effect on the existing landscaping, irrigation or open space in the mostly developed area south of NW 2nd Lane.

E. Traffic Impact:

A detailed Traffic Impact Study will be performed during the first part of the 2019-2020 School Year. The timing reflects the importance of obtaining traffic counts during the school year rather than during the summer when schools are closed and UF and Santa Fe College are on summer schedules. Although this PD amendment entails a reduction in non-residential development from 442,622 GSF in the Existing PD to 222,622 GSF, residential development will increase from 300 residential units to 554 residential units. In addition, 166 Group Housing units are proposed, while none are allowed by the Existing PD. Additional traffic impacts due to the proposed PD are anticipated. Those impacts will be addressed during the development plan review stage and in accordance with the County's Transportation Mobility Plan and all other applicable regulations.

F. Utilities

This amendment will have no impact on utilities. Each of the utilities and their service providers are listed below:

Central Potable Water:	Gainesville Regional Utilities (GRU)
Central Sanitary Sewer:	Gainesville Regional Utilities (GRU)
Electric:	Clay Electric Cooperative (Clay Elec.)
Natural Gas:	Gainesville Regional Utilities (GRU)
Cable TV:	Cox Communications

IV. ENVIRONMENTAL ISSUES:

This amendment will have no additional impact on environmental resources. A Natural Resources Checklist has been previously submitted for this project. Additional environmental review will be performed during each of the development review stages.

V. PD PHASING SCHEDULE:

The existing Jonesville Business Park PD has a phasing buildout date of December 31, 2024. This PD amendment proposes a 10-year phasing schedule beginning with the Board of County Commissioners public hearing date, which would extend the buildout by six years to December 31, 2029. The proposed phasing schedule is provided in the following table:

Phase No.	Time Frame	Total Completed Res Dwelling Units		Total Completed Non-Res. (GSF)			
		Single or Multi Family	Group Housing	Business Park/Mixed Use	TND	Commercial/ Retail	Community Open Space
1	EOY 2019 to EOY 2023	200	55	98,682	5,000	90,445	0
2	BOY 2024 to EOY 2026	400	110	98,682	7,500	110,000	1,000
3	BOY 2027 to EOY 2029	554	166	100,000	10,000	122,622	2,000

Notes:

1. The entire PD will be built out in 10 years, commencing from the date of PD rezoning resolution by the Board of County Commissioners.
2. Each of the 3 phases may be divided into multiple individual development phases.
3. The schedule depicted is the proposed buildout scenario, but may be adjusted due to market conditions.
4. BOY = Beginning of Year.
5. EOY = End of Year.

VI. CONTROL & LEGAL INSTRUMENT FOR MANAGEMENT OF COMMON AREAS:

The land within the limits of the Jonesville Business Park PD is currently under the ownership and control of Jonesville Plaza, LLC, and Steeplechase Surfacewater Management Association, Inc. The current and proposed common areas and Community Open Space areas are owned, operated, managed and maintained by the Steeplechase Surfacewater Management Association, Inc. The undeveloped 64.9-acre area north of NW 2nd Lane will be developed, owned and controlled by the Hankin Group subsequent to approval of this PD amendment.

A determination that there is adequate school capacity for a specific project will satisfy requirements for review for school concurrency for the periods of time consistent with the Interlocal Agreement and specified in local government land development regulations; an agreement by the School Board with the developer and local government is required to extend the period for approvals for phased projects beyond the generally applicable time period

EXPLANATION OF STUDENT GENERATION CALCULATION

Student Generation is calculated based on the type of residential development and the type of schools. The number of student stations (by school type - Elementary, Middle and High School) used for calculating the school concurrency impacts is equal to the number of dwelling units by housing type multiplied by the student generation multiplier (for housing type & school type) established by the School Board. Calculations are rounded to the nearest whole number. Student Generation for each school type is calculated individually, to assess the impact on the **School Concurrency Service Area (SCSA)** for each school type (Elementary, Middle and High School).

SCHOOL CONCURRENCY SERVICE AREAS (SCSA) FOR PROJECT LOCATION

Based on the project location, please identify the corresponding School Concurrency Service Areas for each school type. Maps of the SCSAs may be viewed on the Alachua County Public Schools website.

A determination that there is adequate school capacity for a specific project will satisfy requirements for review for school concurrency for the periods of time consistent with the Interlocal Agreement and specified in local government land development regulations; an agreement by the School Board with the developer and local government is required to extend the period for approvals for phased projects beyond the generally applicable time period

EXPLANATION OF STUDENT GENERATION CALCULATION

Student Generation is calculated based on the type of residential development and the type of schools. The number of student stations (by school type - Elementary, Middle and High School) used for calculating the school concurrency impacts is equal to the number of dwelling units by housing type multiplied by the student generation multiplier (for housing type & school type) established by the School Board. Calculations are rounded to the nearest whole number. Student Generation for each school type is calculated individually, to assess the impact on the **School Concurrency Service Area (SCSA)** for each school type (Elementary, Middle and High School).

SCHOOL CONCURRENCY SERVICE AREAS (SCSA) FOR PROJECT LOCATION

Based on the project location, please identify the corresponding School Concurrency Service Areas for each school type. Maps of the SCSAs may be viewed on the Alachua County Public Schools website.
