15. Training or Experience Related to this Appointment:

Having served on the Charter Review Commission, I have an understanding of the very important skill of what it is to build consensus. And sometimes you discover you are unable to build consensus, and when that occurs you will need to collaborate and negotiate, and if you still cannot find common ground, you move forward.

I possess a very special set of skills by being actively involved in local government that gives me both institutional and foundational knowledge that has prepared me to work with anyone. Serving on the last CRC, I soon discovered the many different personalities and how important it is to actively listen and pay attention to the surroundings. Because you will have many different personalities to work with and that is what makes this board a very, very special one.

16. What Contributions do you feel you could make if you were selected to this Commission?

The contributions that I bring to the CRC is that I have both the institutional and foundational that will be an asset to the group. Further, I come to the table with no preconceived notions and/or ulterior motives. I like to keep myself open because great ideas come from all kinds of people, even ones you may not agree with. I am always looking for ideas that are going to make local government better or make the operation of local government more efficient or better. And that is where the skill of collaboration, negotiation, and building consensus comes into play. By keeping an open mind and being open to facts and evidence I also have a mind that is open to change. The reason I keep my mind open and have no ulterior motive is that this is what this body need is objectivity.

17. Some of the boards and committees appointed by the County Commission are required to comply with Chapter 112, Florida Statutes, the Financial Disclosure Law. If applicable, would you be willing to file the required financial statement?

Yes

18. I understand Appointees to advisory board/committees are required to attend scheduled meetings as specified in the "Guidelines for Citizen Advisory Boards and Committees".

Yes

19. Do you affirm that your personal and business (if applicable) affairs within Alachua County are in substantial compliance with all county regulatory and taxing authorities rules and regulations?

Yes

City of Newberry Historical Architectural Review Board, member, May 2017 to present. Chair starting September 2019;

Lions Club, Newberry chapter, member, August 2017 - present;
Concerned Citizens of Newberry, member, May 2017 - present;
Board of Directors, 10CAN, February 2016 - July 2019
15. Training or Experience Related to this Appointment:
While at the University of Florida Levin College of Law, I took Local Government Law with Professor Joe Little.
The City of Newberry convened a Charter Review Board in Jun 2018 and I was appointed to it. We completed our last meeting in June 2019; workshops are planned to explain the decisions of the Charter Review Board to the commission and public in Fall 2019. The Board was tasked with simplifying the charter, cleaning up language, removing redundancy, and suggesting revisions. From the videos, I can see that public participation in the County Charter Review Commissions was much larger than the public participation we encountered.
I believe my training from serving on both City of Newberry boards and the UF Student Conduct Committee will also be useful. On all three, I am tasked with looking at all the evidence and following a set of rules - sometimes those are statutes, sometimes Florida Administrative code, sometimes municipal ordinances. I'm also tasked with asking questions that ensure we have all the information we need to make a decision. I've served as Chair many times on the Student Conduct Committee on cases that have dealt with everything from academic dishonesty to sexual violence.
16. What Contributions do you feel you could make if you were selected to this Commission?
I feel I can bring a well-rounded perspective as someone who has contact with the county in many different ways. I feel that all voices should be heard, not just the loudest ones.
I am involved in my community at both the social and municipal levels. From that involvement, I know there are many different perspectives in my small community alone about things like home rule authority, single member districts, the role of our County Commission. Since I work at UF, I also hear perspectives from my colleagues and our students on how Gainesville, UF, and the County all intersect.
I have also been involved with the Truth and Reconciliation process out in Newberry. At its heart is being able to objectively look at the long term ramifications of policy making and how those policies can disparately affect some over others. While the Truth and Reconciliation focuses on policies and actions that intended to do that, it's been a takeaway that applies for being on a Charter Review Committee. How will these changes impact the County and will they affect some people/areas more than others and will that impact be negative?

17. Some of the boards and committees appointed by the County Commission are required to comply with Chapter 112, Florida Statutes, the Financial Disclosure Law. If applicable, would you be willing to file the required financial statement?
Yes
18. I understand Appointees to advisory board/committees are required to attend scheduled meetings as specified in the "Guidelines for Citizen Advisory Boards and Committees".
