4. Residential Rental Unit Permit and Inspection Program 21-0493

At the previous meeting, the Commissioners determined they would likely pursue this in-house. For the unincorporated area, this would potentially involve 4 FTE Codes Officers and 1 FTE Licensing clerk/staff assistant at a first year cost including salary, benefits, vehicles and necessary equipment of \$454,000 and an second year cost of \$345,000. This number may be higher if other municipalities are included. This program is not yet in place in Alachua County, this program is not in the budget, and as such, this program can be discussed during the FY22 budget development process. The permit fees would have to be at a level to cover all costs associated with the program. For 7,000 units, the fee would be between \$50 to \$65 per permit. This fee would need to be added to the fee schedule and adjusted as necessary to cover the cost of the program.

Recommended Action: Receive the presentation; provide direction to staff concerning inclusion of other municipalities
