At the August 14, 2018 Regular Board Meeting, Commissioner Byerly moved to approve and authorize the Chair to sign all attached Interlocal Agreements and Indemnification Agreements. If any agency refuses to enter into a revised Interlocal Agreement, direct staff to terminate the existing agreement per the termination clause.

The motion carried 5-0

At the July 9, 2019 Consent Agenda the Board authorized the Chair to sign the indemnification agreements with PACE Funding Group LLC, Twain Financial Partners Holding LLC, and Greenworks Lending LLC.

Fiscal Consideration:

There are no financial cost to the County.

Staff monitors but does not administer PACE programs. Any administrative oversight or pre/post assessment review will require additional resources.

Background:

This is an additional indemnification agreement from Renovate America is tied to the Florida Energy and Resiliency District (FRED). FRED is one of four PACE programs covered under interlocal agreements with Alachua County going from 2018 to 2021. Renovate America is providing PACE administrative services to FRED. Renovate America will be required to meet all interlocal agreement requirements covered by FRED including the enhanced consumer protections.

On July 9, 2019 the Board signed three indemnification agreements with finance programs working with the FRED. These agreements covered PACE Funding Group LLC, Twain Financial Partners Holding LLC, and Greenworks Lending LLC which will provide residential and commercial financial options under the FRED interlocal agreement.

In August 2018 the Board signed three year interlocal agreements with four Property Assessed Clean Energy (PACE) providers. One of the providers, Florida Energy Resiliency and Energy District (FRED) is allowing multiple finance administrations to operate under its agreement umbrella with the County.

As a best practice and to stay consistent with the other PACE agreements, each of the finance companies will sign an indemnification to hold harmless Alachua County for any actions they take in servicing PACE programs through FRED. These indemnification agreements will allow FRED to offer commercial and residential PACE finance options to qualifying citizens in Alachua County.

The three financial administration program indemnification agreements are with:

Twain Financial Partners LLC (commercial finance only), Greenworks Lending LLC (commercial finance only), and PACE Funding Group LLC (residential finance only).

It is staff's understanding that other PACE providers are also looking to diversify the number of financial providers that may operate under their interlocal agreements. This should allow for greater consumer choice.

All financial administration programs will be held to the same enhanced consumer protections as passed by the Board 2018 as per the interlocal agreement with FRED.

Property Assessed Clean Energy finance (PACE) is a voluntary finance mechanism for renewable energy, energy efficiency and wind hardening improvements to commercial and residential property repaid as a special assessment annually on the tax bills issued by the County. PACE was enacted by Florida Statute in 2010 and enabled by local governments via resolution and typically, uses third party administrative programs to run, market and assess properties. Local governments join together in an authority model to reduce the administrative burden, cost and need to find a funding source by signing on with these bodies.

The Board approved PACE by resolution and interlocal agreements starting in December 2015. In 2017, the Board was made aware of a few citizens that had issues with their PACE assessments. In response to these citizen concerns, the Board directed staff to renegotiate the interlocal agreements with the following enhanced consumer protections categories:

Better definition to the scope of the Finance Agreement
More strictly defined consumer eligibility
Clarifications of Fair Market Value

These enhanced consumer protections were not part of the original 2015-2016 interlocal agreements. For PACE agreements going forward (2018-2021), this standard language will be included along with better definition of relevant terms including direct references to the Agency/District's founding documents.

In addition to the enhanced consumer protections, the interlocal agreements also include defined responsibilities of the providers in part 9 of the agreement. These provisions codify PACE industry best management practices and underwriting standards.

PACE is one of many financial tools available to citizens to pay for wind hardening and energy related improvements to property. As with any finance mechanism, citizens are encouraged to review the terms, cost of money and overall affordability of property improvements prior to signing any agreement.

At the May 22, 2018 Board meeting, the Board elected to not include an ability to pay provision and explicit credit score/debt to income ratios as categories of enhanced consumer protections. Alachua County citizens as of the 2018 agreements have four, third party administered providers for citizens to compare and choose from for PACE financing.
