The CARES Act, section 601 (d) of the Social Security Act, created the Coronavirus Relief Fund (CRF) and provided Florida with \$8,328,221,072; 55% of which was allocated to the State of Florida and 45% was allocated to the counties. The United States Department of the Treasury disbursed \$2,472,413,692 of these funds directly to counties with a population in excess of 500,000. The remaining balance of \$1,275,285,790 was reverted to the State of Florida from the local government allocation, for the State to disburse to counties with populations less than 500,000.

Guidance for expenditures of funds is attached as Coronavirus Relief Fund Guidance.
