Background:

On December 3, 2020, a car crash occurred in which the structure to a traffic control signal was damaged. Temporary measures were completed to shore up the structure while an engineering evaluation to the remaining structure was completed. Evaluation has been completed and materials and equipment have been identified for the permanent repairs. A quote has been obtained from the vendor who completed construction on the structure in the summer of 2020, in order to save costs

and expedite the signal's reconstruction. There is a 6 to 8 weeks lead time for the signal concrete pole.

This emergency purchase is exempt from the County's competitive bidding requirements pursuant to Section 22.3-302(16) of the Alachua County Procurement Code. Pursuant to section 22.2-203(3) of the procurement code, bid awards, purchase orders or change orders that exceed \$50,000 shall be placed before the Board of County Commissioners for approval. The Emergency Procurement Procedure states that purchases over \$50,000 shall be presented to the Board of County Commissioners on a "For Information Only" basis, at the next scheduled meeting immediately following the purchase.
