Background:

On September 10, 2017 Hurricane Irma DR4337 made land fall and caused torrential rains and flooding. This event was a major flood to the Poe Springs Park and covered the wooden boardwalk for many weeks. Staff coordinated with FEMA to seek funding to make repairs to the damaged boardwalk and canoe launch.

Staff was directed to engage an Engineering firm to produce construction documents and we subsequently advertised and received bids.

BID 20-957 Poe Springs Boardwalk Improvements advertised on May 6, 2020 and May 13, 2020. The deadline for receipt of BID 20-957 Poe Springs Boardwalk Improvements was June 17, 2020; eight (8) vendors responded.
