Background:

Billboard advertising is one of the most economical cost-per-impression (CPI) and is the top out-of-home (OOH) of all advertising methodologies. According to Nielsen research, 85% of viewers engage with billboard advertisements.

Alachua County has travelers off I-75 occupying hotel rooms for last-minute transient stays, leisure trips from drive-in markets, and consumer cultural, outdoor, and nature-based tourism. The 10 billboards recommended for this program will provide maximum visibility and impact, build brand and destination awareness, deliver a high reach and frequency over an extended period of time, and assist in creating a leading presence in the regional trade area. The 3 received for this Program (Gainesville Regional Airport, Florida Museum of Natural History, and City of High Springs) were reviewed and approved by the Tourist Development Council at their meeting on 9.14.2022.
